A. The health hazards to man and to other animals which may be caused by 2,4,5-T and/or its extremely toxic contaminant, 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), with emphasis on the following:

1. Is 2,4,5-T or TCDD a teratogen?
2. Does 2,4,5-T or TCDD induce other adverse reproductive effects?
3. Is 2,4,5-T or TCDD a mutagen?
4. Is 2,4,5-T or TCDD a carcinogen?
5. Can exposure to 2,4,5-T or TCDD induce sub-lethal chronic health effects?
6. Can chronic, low-level exposure to 2,4,5-T and/or TCDD cause delayed lethality?

B. The extent of the health risk for man and other animals posed by 2,4,5-T and TCDD, with emphasis on the following conditions:

1. Can additional TCDD be generated in the environment by the thermal stress of 2,4,5-T or its metabolites?
2. Can 2,4,5-T or TCDD persist and bioaccumulate in the environment?
3. What are the avenues of human and animal exposure to 2,4,5-T and TCDD? For example, can aerial drift or water transport of 2,4,5-T or TCDD cause movement of these compounds away from the site of application?
4. Are 2,4,5-T or TCDD residues being stored and accumulated in the human food supply and in human and animal tissue, including humans and wildlife directly exposed to 2,4,5-T?
5. Are other dioxins and similar contaminants, besides TCDD, present in 2,4,5-T and, if so, what risks to health do they constitute?
6. What are other environmental sources of dioxins particularly TCDD, and do these sources enhance the total dioxin body burden and exacerbate the health risks raised by 2,4,5-T and related TCDD?
7. What are the current levels of dioxins in registered 2,4,5-T products and in technical material used to formulate these products?
8. Do the current methods of manufacture of 2,4,5-T provide for consistently low levels of dioxins in the final technical product and what are the quality control measures used to minimize dioxin levels?

C. The necessity for the continuation of the registered uses of 2,4,5-T, with emphasis on the following:

1. What are the pests which each registered use is intended to control and the degree of control achieved by each use?
2. What is the cost, timing, and rate of application of 2,4,5-T for each use?

V 38 141 JUL 24 73 XUM

3. What alternative controls exist for each registered use and what is the cost and effectiveness of each alternative.

4. Do alternative pesticide products cause adverse environmental effects?

5. What are the economic implications of these alternatives, including that of no control?

Done this 19th day of July 1973.

DAVID D. DOMINICK,
Assistant Administrator for Hazardous Materials Control.

[I. F. & R. Docket No. 295]

2,4,5-TRICHLOROPHENOXYACETIC ACID

Intent To Hold Hearing

Please take notice that pursuant to the authority vested in me by section 6(b) (2) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended, I hereby issue a notice of my intention to hold a hearing on all registered uses of 2,4,5-Trichlorophenoxyacetic Acid (2,4,5-T) other than on the use for rice which was was cancelled on May 1, 1970 (USDA-PRD 70-13), as reaffirmed by Order of August 6, 1971 (36 FR 1477, Aug. 11, 1971). It is my intention that the public hearing concerning the use on rice, (I. F. & R. Consolidated Docket Nos. 42, 44, 45 & 48) be consolidated with the hearing I have called today for all other uses and that all hearings commence in April, 1974. The start of the hearing is being delayed until then to permit the Agency to complete an environmental and human monitoring project on the presence of the tetrachlorodioxin impurity found in 2,4,5-T and the extent to which the dioxin may adversely affect human and animal health.

Please take further notice that any person wishing to become a party to this hearing called by me today on all other uses of 2,4,5-T shall file a response to the accompanying statement of issues, published herewith, with the Hearing Clerk, Environmental Protection Agency, Waterside Mall, Washington, D.C. 20460, on or before August 23, 1973.

Done this 19th day of July 1973.

DAVID D. DOMINICK,
Assistant Administrator for Hazardous Materials Control.

FEDERAL HOME LOAN BANK BOARD

[H.C. 160]

LSM CORP.

Notice of Receipt of Application for Permission To Acquire Control of Eastland Savings and Loan Association

JULY 18, 1973.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from LSM Corporation, Minneapolis, Minnesota, for approval of acquisition of control of the Eastland Savings and Loan Association, Anaheim, California, an insured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by a purchase for cash of stock of Eastland Savings and Loan Association. Comments on the proposed acquisition should be submitted to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before August 23, 1973.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary, Federal Home Loan Bank Board.

FEDERAL POWER COMMISSION

[Docket No. CP74-5]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Application

JULY 17, 1973.

Take notice that on July 5, 1973, Algonquin Gas Transmission Company (Applicant), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP74-5 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of synthetic natural gas (SNG) in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern). Applicant's natural gas supplier, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the Commission's Opinion No. 637 issued on December 7, 1972, in Docket Nos. CP72-35, *et al.*, authorized its subsidiary, Algonquin SNG, Inc., to sell the entire output of its SNG plant at Freetown, Massachusetts, 120,000 Mcf per day, to Applicant for resale to its existing customers during the winter period from October 16 through April 15. Applicant estimates that the requirements of its customers during that period will not exceed the maximum daily capacity of the plant in the foreseeable future.

Applicant proposes to sell for ten years the balance of the SNG plant's output not required by its existing customers to Texas Eastern on a daily basis. This is expected to consist of almost all of the plant's summertime output, 110,000 to 120,000 Mcf of SNG per day, and a portion of the wintertime output, estimated to be 28,539 Mcf of SNG per day in 1973-74, 23,439 Mcf per day in 1974-75, and 18,819 Mcf per day in 1975-76, subject to Applicant's customers' periodic revision of their gas requirements. It is stated that deliveries will be made by means of a displacement arrangement whereby Applicant "backs off" on its takes from Texas Eastern at the existing delivery points. Applicant proposes to charge Texas Eastern under its existing SNG-1 Rate Schedule, FPC Gas Tariff, Original Volume No. 1, for the winter sales an estimated average rate of $1.9814 per Mcf of SNG and under its proposed SNG-2 Rate Schedule, FPC Gas Tariff, Original Volume No. 1, for summer sales an average rate of $1.3802 per Mcf of SNG. These rates are predicated on a naptha and propane commodity rate of $1.2443 per Mcf and will vary with the feedstock cost to Algonquin SNG. If Applicant's contract with its feedstock supplies permit, Texas Eastern has the right to substitute its own feedstock at prices not in excess of that available to Applicant under contract.

The stated purpose of the proposed sale is to help alleviate the burden of expected curtailments of deliveries, estimated to be in the neighborhood of 17 percent in the coming year, by Texas Eastern upon its customers. Also, it is stated that operation of the SNG plant during the entire year will make a substantial contribution toward recovering Algonquin SNG's fixed cost at a time when Applicant is incurring other large costs in mounting the SNG project and the proposed LNG project (Docket Nos. CP73-139 and CP73-197).

Any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH P. PLUMB,
Secretary.

[FR Doc.73-15124 Filed 7-23-73;8:45 am]

[Docket No. E-7775]

APPALACHIAN POWER CO.

Motion To Dismiss Proceeding

JULY 16, 1973.

Take notice that on July 10, 1973, the cities of Danville, Bedford, Martinsville, Salem, Radford and Virginia Polytechnic Institute and State University, intervenors in the docket number above (Intervenors) filed a motion to dismiss the proceeding instituted under section 206 of the Federal Power Act in this action.

Intervenors state that the section 206 proceeding was instituted by the Commission's order of December 15, 1972 which accepted in part and rejected in part the application of Appalachian Power Company (Appalachian) filed September 21, 1972, for a rate increase under Section 205. The rejected portion of the section 205 application was reinstated by the Commission as a section 206 proceeding and set jointly with the accepted section 205 proceeding for hearing.

Intervenors assert their motion to dismiss is predicated upon (1) Appalachian's failure to prosecute the section 206 proceeding; (2) Appalachian's election to seek judicial review of the Commission's December 15, 1972, order rather than pursue the section 206 question in hearing; (3) Appalachian's failure to meet its burden of proof under Section 206, and, (4) the rates are actually discriminatory against the Intervenors rather than Appalachian as section 206 requires.

Appalachian's response to the motion may be filed with the Federal Power Commission, 825 North Capitol St., NE, Washington, D.C. 20426 on or before July 26, 1973.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15127 Filed 7-23-73 8:45 am]

[Docket No. E-7775]

APPALACHIAN POWER CO.

Complaint of Unlawful and Discriminatory Rates

JULY 16, 1973.

Take notice that on July 10, 1973, the town of Richlands, Virginia, and the city of Martinsville, Virginia, tendered for filing a complaint charging that the rates of Appalachian Power Company (Appalachian) were discriminatory with respect to those two cities.

Richlands and Martinsville assert that their contracts with Appalachian specify that the rates charged to them are to be equivalent with the rates Appalachian charges its large industrial customers. Further, both Richlands and Martinsville state that since March 23, 1973, Appalachian has been charging a different, higher rate to the two cities than it charges the large industrial customers in violation of the aforementioned contracts.

The rates in question were first proposed by Appalachian in an application to the Commission on September 21, 1972. The Commission suspended the rates for the five month statutory period by order on October 20, 1973. The rates were allowed to go into effect on March 23, 1973, subject to refund. A hearing in the proceeding is pending.

The company's response to the complaint may be filed with the Federal Power Commission, 825 North Capitol St., NE., Washington, D.C. 20426 on or before July 26, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8250]

ARKANSAS POWER & LIGHT CO.

Extension of Time

JULY 16, 1973.

On July 6, 1973, Arkansas Power and Light Company filed a motion for an extension of time to respond to the Protest, Motion to Reject, and Petition to Intervene filed by publicly-owned wholesale customers on June 28, 1973, and amended on July 2, 1973.

Upon consideration, notice is hereby given that an extension is granted to and including July 23, 1973, within which answers may be filed to the above-mentioned protest and petition.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15125 Filed 7-23-73;8:45 am]

[Docket No. CI74-12]

AUBREY C. BLACK (OPERATOR), ET AL.

Notice of Application

JULY 18, 1973.

Take notice that on July 9, 1973, Aubrey C. Black (Applicant), 1012 Republic National Bank Tower, Dallas, Texas 75201, filed in Docket No. CI74-12 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company from the Applicant's interest in the No. 3-23 Weaver Well, in the Milder Field, Ellis County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell an average daily quantity of 3,000 Mcf of gas for one year at 46.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from 930 Btu per cubic foot and reimbursement for all new and existing taxes, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant estimates that initial upward Btu adjustment will be 6.68 cents per Mcf and initial tax reimbursement will be 3.684 cents per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commisison on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-17]

BROWN & McKENZIE, INC.

Notice of Application

JULY 18, 1973.

Take notice that on July 12, 1973, Brown & McKenzie, Inc. (Applicant), 1120 Greenway Plaza East, Houston, Texas 77046, filed in Docket No. CI74-17 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation from the East Ramsey Field Area, Colorado County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on July 3, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 30,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 psia, subject to downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring

V 38 - 141 JUL 24 73 XUM

to be heard or to make any protests with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petiton to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-13]

CAPITAL RESOURCES, INC. (OPERATOR), ET AL.

Notice of Application

JULY 18, 1973.

Take notice that on July 9, 1973, Capital Resources, Inc. (Applicant), 2020 NBC Building, San Antonio, Texas 78205, filed in Docket No. CI74-13 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation from the Benavides Field, Duval County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 105,000 Mcf of gas per month for two years at 50.0 cents per Mcf at 14.65 psia, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP74-6]

CITIES SERVICE GAS CO.

Notice of Application

JULY 17, 1973.

Take notice that on July 9, 1973, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP74-6 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of replacement pipeline facilities and for permission and approval to abandon in place pipeline facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon in place two segments, one of approximately 3.9 miles and the other approximately 3.3 miles in length, of its existing 8-inch Valley Falls pipeline in Jefferson County, Kansas, and to replace them with equivalent segments of 6-inch pipeline. It is stated that the facilities to be abandoned and replaced are operationally obsolete and can no longer be economically maintained and operated. Because of the deterioration on the two segments to be abandoned, Applicant states that there is a high risk of further outages and interruption of services to its customers. The total cost of the proposed facilities is $200,000, which will be financed from treasury funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15131 Filed 7-23-73;8:45 am]

[Docket No. CP74-4]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Application

JULY 13, 1973.

Take notice that on July 5, 1973, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, SE, Charleston, West Virginia 25314, filed in Docket No. CP74-4 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas for synthetic gas (SG), as mixed with natural gas, with the Columbia LNG Corporation (Columbia LNG) and the construction and operation of certain facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to deliver to Columbia LNG, its affiliate, at Columbia LNG's Reforming Plant near Green Springs, Ohio, approximately 300,000 Mcf of gas in daily increments of up to 10,000 Mcf beginning September 1, 1973. It is stated that Columbia LNG will redeliver like volumes of SG, as mixed with natural gas, at a rate of 30,000 to 50,000 Mcf per day prior to January 1, 1974.

The purpose of the proposed exchange is to enable Columbia LNG to prepare for commencement of deliveries of SG from its Reforming Plant now under construction on or about January 1, 1974, pursuant to the terms and conditions of Applicant's proposed SG Exchange Service currently pending Commission determination in Docket No. CP73-223. It is stated that the gas delivered to Columbia LNG will be used for fuel, as a drying agent and as a source of hydrogen during the commissioning period.

Applicant also proposes to construct and operate the necessary connecting facilities adjacent to the Reforming Plant to facilitate the proposed exchange. Applicant further requests authorization for the permanent operation of the proposed facilities in order to accept deliveries of SG, as mixed with natural gas, as requested in the application now pending in Docket No. CP73-223. The cost of the proposed facilities is $66,000 which will be financed from cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-9]

CONSOLIDATED GAS SUPPLY CORP., ET AL.

Notice of Application

JULY 17, 1973.

Consolidated Gas Supply Corporation, Columbia Gas Transmission Corporation, The Sylvania Corporation, Texas Eastern Transmission Corporation.

Take notice that on July 10, 1973, Consolidated Gas Supply Corporation (Consolidated), 445 West Main Street, Clarksburg, West Virginia 26301, Columbia Gas Transmission Corporation (Columbia), 1700 McCorkle Avenue, SE, Charleston, West Virginia 25314, The Sylvania Corporation (Sylvania), 308 Seneca Street, Oil City, Pennsylvania 16301, and Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP74-9 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas and the construction and operation of pipeline facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Consolidated and Sylvania propose, pursuant to an agreement between all Applicants dated February 7, 1973, to deliver up to 25,000 Mcf of gas per day for three years produced from the newly discovered Pineton Field in Indiana and Cambria Counties, Pennsylvania, to Columbia for redelivery through the proposed facilities to Columbia's No. 1711 16-inch transmission line. Columbia will return equivalent volumes of gas to Consolidated and Sylvania by displacement through Texas Eastern's pipeline facilities in Texas Eastern's Zone C in Pennsylvania. Consolidated will redeliver Sylvania's share to Sylvania's affiliate, United Natural Gas Company, for Sylvania's account. Applicants state that the proposed deliveries are intended to be uniform and balanced on a daily basis, but any of the parties can require a balancing once every three months. Applicants also state that if the proposed exchange is authorized the exchange agreement of February 7, 1973, will be filed as a rate schedule in each Applicant's respective FPC Gas Tariff, Volume No. 2.

To facilitate the exchange, Columbia proposes to construct and operate approximately 3.9 miles of 8-inch pipeline and appurtenant measuring facilities extending from a point in the Pineton Field to Columbia's No. 1711 16-inch transmission line. It is stated that the construction, operation, and maintenance costs of the proposed facilities and the ownership thereof will be shared by the Applicants in the following proportions: Columbia 37.57 percent, Consolidated 55.05 percent, and Sylvania 7.38 percent. The total cost of the proposed facilities is $295,800 which will be financed by Columbia, Consolidated and Sylvania from funds generated by internal sources. In addition, Columbia states that it also intends to transport through the proposed facilities up to 15,000 Mcf of gas per day purchased from Felmont Oil Corporation from production in the Pineton Field.

The purpose of the proposed exchange of gas and pipeline construction is to enable new supplies of gas to become available to Applicants without the necessity of constructing duplicate facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to inter-

V38-141 JUL 24 73 XUM

vene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP69-23]

EL PASO NATURAL GAS CO.

Notice of Petition To Amend

JULY 16, 1973.

Take notice that on July 5, 1973, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP69-23 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act so as to authorize a change in Petitioner's delivery obligation for the City of Spur, Texas (Spur), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Petitioner was authorized by the Commission's order of August 21, 1969, in said docket (42 FPC 562), as amended March 29, 1970 and December 27, 1972, among other things, to sell and deliver up to 1,720 Mcf of gas per day to Cap Rock Gas Co., Inc. (Cap Rock), for resale and distribution in the City of Spur, Texas, pursuant to a contract dated December 31, 1965, which comprises Petitioner's FS-2 Rate Schedule, FPC Gas Tariff, Original Volume No. 2A. Petitioner was advised that, effective May 1, 1973, Spur acquired from Cap Rock all the distribution facilities serving the city and Petitioner subsequently entered into a gas sales contract with Spur dated May 1, 1973. Petitioner now proposes to sell for ten years up to 900 Mcf of gas per day to Spur and its environs in accordance with its X-1 Rate Schedule, FPC Gas Tariff, Original Volume No. 1 and cancel its FS-2 Rate Schedule. Petitioner states that the reduction in its delivery obligation to Spur will not result in any curtailment of service as it more accurately reflects Spur's actual requirements.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-11]

EL PASO NATURAL GAS CO.

Notice of Application

JULY 17, 1973.

Take notice that on July 10, 1973, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-11 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain tap facilities in place, by salvage and by removal and natural gas service to Southern Union Gas Company (Southern Union) and Arizona Public Service Company (APS) from said taps on Applicant's Southern Division System, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By order issued on August 21, 1969, in Docket No. CP69-23 (42 FPC 562), Applicant was authorized, among other things, to continue service to Southern Union through two taps in San Juan County, New Mexico: the Halliburton Shop Tap and the R. D. Golding Tap. It is stated that a third tap, the Charles A. Moore Tap, therein used, in Valencia County, New Mexico, was installed in 1959 without certificate authorization. It is further stated that the W. B. Swallen Tap and the James R. Burger Tap in Maricopa County, Arizona, used to serve APS, were installed in 1951 and 1956, respectively, without certificate authorization.

Applicant proposes to abandon the three taps serving Southern Union pursuant to letter agreements dated April 5, 1973, March 22, 1973, and February 1, 1973. It is stated that service to the customers previously served by the three taps is now being rendered by Southern Union through its own system. Applicant also proposes to abandon the two taps in Maricopa County serving APS pursuant to letter agreements dated December 1, 1972, and February 6, 1973. It is stated that the customer served by the W. B. Swallen Tap is now being served by APS through its own system and the customer served by the James R. Burger Tap has requested discontinuance of said service.

Applicant further proposes to abandon by removal all surface materials of the five taps, except for the materials at the Halliburton Shop Tap which will be salvaged, and to abandon in place all the subsurface materials of the five taps. The total cost of the proposed abandonments is $775.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application of no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-5]

GAS GATHERING CORP.

Notice of Application

JULY 13, 1973.

Take notice that on July 2, 1973, Gas Gathering Corporation (Applicant), P.O. Box 519, Hammond, Louisiana 70401, filed in Docket No. CI74-5 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Texaco Inc. from the tailgate of Anchor Gasoline Corporation's East Krotz Springs plant in Pointe Coupee Parish, Louisiana, to Transcontinental Gas Pipe Line Corporation's Sherburne Meter Station in Pointe Coupee Parish, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport approximately 240,000 Mcf of gas per month at 2.5 cents per Mcf at 15.025 psia, plus 0.25 cent per Mcf facility charge. On April 16, 1973, Texaco Inc. filed in Docket No. CI73-696 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation for one year within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-327]

JUPITER CORP.

Notice of Application

JULY 16, 1973.

Take notice that on June 1, 1973, The Jupiter Corporation (Applicant), 400 East Randolph Street, Chicago, Illinois 60601, filed in Docket No. CP73-327 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas to Transcontinental Gas Pipeline Corporation (Transco) from the Mula Pasture Field, McMullen County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon, due to depletion of reserves, the sale of natural gas authorized in Docket No. CI62-1153 to be made pursuant to its FPC Gas Rate Schedule No. 2.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-4]

GREAT LAKES GAS TRANSMISSION CO.

Notice Deferring Procedural Dates

JULY 17, 1973.

By notice issued April 18, 1973, the procedural dates, the prehearing conference and the hearing were postponed. On June 8, 1973, the Presiding Administrative Law Judge certified to the Commission a proposed settlement in the above-designated matter. On July 16, 1973, Great Lakes Gas Transmission Company filed a motion for postponement of the procedural dates pending Commission action on the proposed settlement.

Upon consideration, notice is hereby given that the procedural dates in the above matter are postponed pending further order of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15137 Filed 7-23-73;8:45 am]

[Docket No. CP74-8]

LOUISIANA-NEVADA TRANSIT CO.

Notice of Application

JULY 17, 1973.

Take notice that on July 9, 1973, Louisiana-Nevada Transit Company (Applicant), 821 17th Street, Denver, Colorado 80202, filed in Docket No. CP74-8 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to United Gas Pipe Line Company (United) from acreage in the Shongaloo Field, Webster Parish, Louisiana, and delivery of said gas to United at the Beacon Gasoline Company plant in Webster Parish, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has been advised by its supplier-producers that beginning next winter they will begin recycling operations and within a few months thereafter all gas deliveries from the Walker Creek Field, Lafayette and Columbia Counties, Arkansas, will cease for several years. Applicant has acquired additional supplies of gas from the Shongaloo Field in Webster Parish from Crystal Oil Company (Crystal). In order to secure the gas reserves from Crystal, Applicant began taking the reserves prior to the loss of its Walker Creek supply. Crystal commenced the sale on June 15, 1973, to Applicant of up to 10,000 Mcf of gas per day at 45.0 cents per Mcf at 15.025 psia with deliveries through Beacon Gasoline Company's plant in Webster Parish, within the contemplation of section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29). Crystal has filed in Docket No. CI73-914 an application for a certificate authorizing said sale to Applicant for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant states that the purchase from Crystal will exceed its gas requirements during the interim period until the gas deliveries cease from the Walker Creek Field.

Applicant states that it commenced the sale of gas to United on June 15, 1973, within the contemplation of Section 157.22 of the Regulations and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of section 2.70 of the Commission's General Policy and Interpretations. Applicant proposes to sell such volumes of gas that exceed its needs up to 10,000 Mcf per day, at 45.0 cents per Mcf at 15.025 psia. The stated purpose of said sale is to help alleviate the shortage on United's system while insuring that Applicant can maintain adequate service to its customers upon the closing of the Walker Creek Field.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desir-

V 38 141 JUL 24 73 XUM

ing to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15138 Filed 7-23-73;8:45 am]

[Docket Nos. CI73-723 CI73-724 CI73-732]

THE PETROLEUM CORP. OF DELAWARE, ET AL.

Order Consolidating Proceedings, Granting Intervention, Setting Hearing Date and Prescribing Procedure

JULY 16, 1973.

The Petroleum Corporation of Delaware Hanover Planning Company, Inc. Florida Gas Exploration Company

On April 27 and April 30, 1973, Florida Gas Exploration Company (Florida Gas Exploration) in Docket No. CI73-732, The Petroleum Corporation of Delaware (Petroleum Corporation) in Docket No. CI73-723, and Hanover Planning Company, Inc. (Hanover) in Docket No. CI73-724 filed applications requesting issuance of limited term certificates of public convenience and necessity with pregranted abandonment authority, pursuant to section 7(c) of the Natural Gas Act and the Commission's Regulations thereunder, for the sale of gas to Florida Gas Transmission Company (Florida Gas Transmission) from acreage in the North Chacahoula Field, Assumption and Lafourche Parishes, South Louisiana.

Specifically, all three applicants hold oil and gas leases, or interests thereof, covering lands in the North Chacahoula Field. The Petroleum Corporation of Delaware owns and purposes to sell to Florida Gas Transmission 50 percent of the production available from this acreage which amounts to approximately 180,000 Mcf per month. Hanover and Florida Gas Exploration each own and propose to sell to Florida Gas Transmission their 25 percent of the production which amounts to approximately 90,000 Mcf per month each. The proposed rate is 50¢ per Mcf, subject to upward and downward Btu adjustment plus 1.0¢ for tax reimbursement.

All three Applicants have requested that the intermediate decision be omitted, that oral hearing be waived and that the applications be heard under the shortened procedure afforded by section 1.32 of the Commission's rules of practice and procedure.

The applications in this proceeding represent a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers, nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that these applications be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificates on the terms proposed in these applications.

A late petition to intervene in each of the above applications was filed by Florida Gas Transmission on May 29, 1973.

The Commission finds:

(1) Docket Nos. CI73-723, CI73-724 and CI73-732 should be consolidated for hearing and decision as they involve common questions of fact and law.

(2) The intervention of Florida Gas Transmission in this proceeding may be in the public interest.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders:

(A) The applications listed at the head of this order are hereby consolidated for hearing and decision.

(B) The Applicants' request that the intermediate decision be omitted, that oral hearing be waived and that the applications be heard under the shortened procedure afforded by section 1.32 of the Commission's rules of practice and procedure is not in the public interest and is hereby denied.

(C) Florida Gas Transmission is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* that the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* that the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(D) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on August 15, 1973, at 10:00 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the issue of whether certificates of public convenience and necessity should be granted as requested by the applicants.

(E) On or before July 30, 1973, The Petroleum Corporation of Delaware, Florida Gas Exploration, Hanover and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(F) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5 (d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15139 Filed 7-23-73;8:45 am]

[Docket No. CI74-14]

MARTIN EXPLORATION CORP.

Notice of Application

JULY 18, 1973.

Take notice that on July 10, 1973, Martin Exploration Corporation (Applicant), 4900 Veterans Boulevard, Suite 216, Metairie, Louisiana 70002, filed in Docket No. CI74-14 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation from the Wildcat Bayou Field, Terrebonne Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on July 3, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for three years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell up to 3,000 Mcf of gas per day at 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment. Estimated upward Btu adjustment is 3.375 cents per Mcf. Initial deliveries are expected to be approximately 45,000 Mcf per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15078 Filed 7-23-73;8:45 am]

THE MONTANA POWER CO.

[Project No. 2301]

Proposed Determination of "Fair Value" of Constructed Project

JULY 18, 1973.

Notice is hereby given that the staff of the Federal Power Commission proposes to recommend to the Commission that it determine the "fair value" of the constructed Mystic Lake Project (Project) of The Montana Power Company (Company or Licensee), designated in the Commission's records as Project No. 2301, to be $4,350,000 as of December 1, 1961, the effective date of the original license for the Project, all within the meaning and subject to the requirements of Article 19 of such original license, as modified on February 17, 1965 (33 FPC 234, 235) and section 23(a) of the Federal Power Act (49 Stat. 846; 16 U.S.C. 816). See also sections 4.10 through 4.14 of Part 4 of the Commission's regulations under the Act (18 CFR 4.10–4.14) and section 1.32(a) of the Commission's rules of practice and procedure (18 CFR 1.32(a)).

Article 19 of the original license for the Project as modified on February 17, 1965, referred to above, provides as follows:

The fair value of the project shall be determined in accordance with section 23(a) of the Act and the rules and regulations of the Commission, and the Licensee hereby agrees to accept such fair value so determined as being the net investment in the project as of the effective date of the license.

Licensee filed with the Commission on October 6, 1965 a statement claiming an estimated "fair value" of $5,333,995 for the Project as of December 1, 1961.

The Project is a hydroelectric development which includes a 10,000 kilowatt generating plant and which is located on Mystic Lake and West Rosebud Creek, a tributary of the Stillwater River, in Stillwater County, Montana. The Project occupies lands of the United States within Custer National Forest. The output of the Project is fed into the Company's electric transmission system for sale and delivery to its customers.

The original license authorizing the operation and maintenance of the Project under Part I of the Federal Power Act expired by its terms on December 31, 1969. Since that date the Project has been operated and maintained under various annual licenses issued by the Commisison under section 15(a) of the Act to the Company. An application for a new license for the Project filed by the Company on December 23, 1968 and subsequently amended, pursuant to said section 15(a), is currently being processed by the Commission's staff.

The valuation of $4,350,000, referred to above, was arrived at as the result of conferences between the Commission's staff and Licensee's representatives, who are in agreement that such amount should be adopted by the Commission as the "fair value" of the Project as of the effective date of the original license for the Project. The conferences were held after Licensee filed its claimed "fair value" statement referred to above.

The Public Service Commisison of Montana, by letter filed on June 9, 1967, indicated that it has no objections to the proposed "fair value" determination for the Project as described above.

Any person desiring to be heard or to make any protest with reference to the determination of the "fair value" of Project No. 2301 as proposed by the Commission's staff, as described above, should on or before August 10, 1973 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CP72-233, CP73-15, CI72-677 and CI73-231]

NATURAL GAS PIPELINE CO. OF AMERICA AND TEXACO INC.

Order Providing for Prehearing Conference

JULY 13, 1973.

By order of May 23, 1973, the Commission granted certificates to Natural Gas Pipeline Company of America (Natural) and to Texaco Inc. for the construction of facilities and the sale of gas to be produced offshore Texas. 80 percent of the gas was to be sold by Texaco to Natural at 24.0 cents per Mcf. The remaining 20 percent was to be sold by Texaco to Natural at 35.0 cents per Mcf for one year from the date of initial deliveries or until April 1, 1974, whichever is earlier. Texaco had entered into an agreement with Natural by which Natural was to transport this 20 percent of the gas for Texaco's own use at its refinery in Illinois. The interim sale approved by the Commission is to permit resolution of the issues relating to the transportation of Texaco's gas in these proceedings. The Commission provided for a hearing on June 19, 1973, and prescribed a schedule for the filing of evidence.

On May 29, 1973, Natural and Texaco filed a joint motion requesting that a prehearing conference be convened for the purpose of narrowing the issues, rescheduling the various procedural dates, and examining the possibility of continuance of this proceeding pending resolution of the policy issues in Tennessee Gas Pipeline Co., Docket Nos. CP72-6, *et al.*, in which an initial decision was issued July 5, 1973. Natural and Texaco contend there is no apparent need for undue expedition of this proceeding, for certificates for the construction of all facilities and the sale of all gas have or will be accepted, thereby assuring service to the public. If a prehearing conference is denied, they ask for an extension of the procedural dates. Counsel stated that the Public Service Commission of New York, Consolidated Edison Company of New York, Mobil Oil Corporation and Northern Illinois Gas Company support the convening of a prehearing conference and the continuance of the procedural dates. By letter of May 30, 1973, Associated Gas Distributors expressed the same view.

In an answer filed May 31, 1973, Commission Staff opposed any delay in the hearing, arguing that it was in violation of Commission policy, and objected to a prehearing conference, contending that this was dilatory. By notice of June 13, 1973, the Secretary of the Commission

V 38 141 JUL 24 73 XUM

extended the service dates and the date for the commencement of the hearing to July 17, 1973. He stated that action on the request for a prehearing conference would be by subsequent order. By telegram filed June 8, 1973, Texaco replied to certain allegations of the Staff.

On June 19, 1973, the Staff filed a response to the motion of Natural and Texaco. Staff argues that Texaco has no present need for the gas and the proposed transportation arrangement may be considered a device for the production of gas at 35 cents per Mcf rather than at the area rate of 24 cents. Staff recommends that the request for a prehearing conference be denied and the hearing date be set on July 9, rather than on July 17, as provided by the Secretary in his notice of June 13, 1973. By notices the Secretary again extended the dates for the service of evidence by applicants and persons in support of the application until July 17, 1973, answering evidence until July 27, 1973, and the commencement of the hearing until August 7, 1973.

In our opinion this proceeding should go forward as long as it would serve a useful purpose. However, we recognize that the Tennessee case, supra, raises a similar issue with respect to the transportation of natural gas from the Federal domain offshore Louisiana to certain refineries and chemical plants in the Gulf Coast area. We shall therefore grant the motion of Natural and Texaco for a prehearing conference. At the conference the Administrative Law Judge and the parties should endeavor to find the issues that may be determined in a hearing while deferring the policy questions relating to the transportation of gas by a pipeline for a producer to its chemical plants and refineries until a determination has been made in Tennessee. If there are such issues, the hearing should go forward. If not, further application should be made to us to defer the hearing pending a determination in Tennessee.

The Commission orders:

(A) A prehearing conference shall be held on August 7, 1973, at 10:00 a.m. (e.d.t.) at the Offices of the Federal Power Commission, 825 North Capitol St., NE, Washington, D.C., 20426, for the purpose of (1) narrowing the issues, and (2) finding which issues may usefully be considered in a hearing while deferring the policy questions with respect to the transportation of gas until a determination is made in Tennessee, supra.

(B) If there are issues that in the opinion of the Administrative Law Judge may usefully be the subject of a hearing pending Tennessee, he should hold a hearing commencing as soon after the prehearing conference as possible taking into account the prehearing conference and the needs of all the parties.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-15142 Filed 7-23-73;8:45 am]

[Docket No. CP74-1]

NORTHERN NATURAL GAS CO.

Notice of Application

JULY 12, 1973.

Take notice that on July 2, 1973, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP74-1 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of additional volumes of natural gas to its customers pursuant to its proposed Rate Schedule PS-2, the realignment of firm services for certain customers, by community, and the relocation of a compressor unit, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it was authorized by the Commission's order of December 19, 1972, as amended February 20, 1973, in Docket No. CP73-29 to sell up to 45,000 Mcf of temporary winter period service gas per day for one year to its customers and to store and exchange gas with Michigan Wisconsin Pipeline Company and Great Lakes Transmission Company to facilitate said sale. On April 4, 1973, Applicant filed in said docket a petition to amend the Commission's order of December 19, 1972, so as to authorize the continuation for an additional year said service and storage and exchange arrangements. It is stated that on April 23, 1973, Applicant filed in Docket No. CP73-286 an application requesting authorization to deliver up to 10,800,000 Mcf of gas during the summer of 1973 to, and reduce its deliveries by 3,600,000 Mcf during the 1973-74 heating season at a daily rate of 40,000 Mcf of gas from Northern Illinois Gas Company. It is stated that the above proposals will permit Applicant to provide its customers with approximately 6,400 million Mcf of gas during the 1973-74 heating season.

Applicant proposes to sell to its customers up to 105,000 per day for 20 days out of every 30 days of firm peak service demand gas during the period of November 27, 1973, through February 26, 1974, according to the terms and conditions of its proposed Rate Schedule PS-2 to its FPC Gas Tariff, Third Revised Volume No. 1. This additional gas will be available to existing contract demand customers now being served under the CD or PL Rate Schedules in volumes according to an executed PS-2 Service Agreement. Applicant states that should customers' requests for this new service exceed the amount of available gas, it will allocate the gas pursuant to Paragraph 17.4 of the General Terms and Conditions of its FPC Gas Tariff proposed in Docket No. RP71-107. Applicant proposes to charge its customers in accordance with Sheet 4(a) of its FPC Gas Tariff, Third Revised Volume No. 1. The purpose of this proposed new gas sale is to augment Applicant's ability to provide reliable and adequate service to its customers in order to meet their high priority requirements during the 1973-74 heating season.

Applicant also proposes to realign, by community, its firm gas sales to six customers now receiving gas under its CD, PC, WPS-1, PS-1, or SS-1 Rate Schedules beginning October 7, 1973, in order to permit maximum utilization of available supplies of gas for the needs of high priority consumers. It is stated that the proposed realignment will not result in any change in the presently authorized total firm commitments to the respective customers.

Applicant states that as a result of the increase in gas volumes it will be transporting through its system during the 1973-74 heating season, additional compressor horsepower must be provided at its Owatonna, Minnesota, Compressor Station. Accordingly, Applicant proposes to relocate a 5,300 horsepower portable compressor unit from its Glennwood, Iowa Midpoint Station to Owatonna during the 1973-74 heating season. Applicant states that the compressor unit was originally authorized for permanent installation at Owatonna, and that there is now pending in Docket No. CP73-96 an application for authorization to relocate the unit permanently at Glennwood. The purpose of the proposed relocation is to provide greater assurance of continuity of service by guarding against any loss of throughput due to a compressor unit outage. Applicant states that the use of the unit at Owatonna has no effect on the necessity of relocating the unit permanently at Glennwood.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-15143 Filed 7-23-73;8:45 am]

[Project 2241]

PUBLIC UTILITY DISTRICT NO. 1 OF KLICKITAT COUNTY, WASHINGTON

Application for Withdrawal of Application

JULY 16, 1973.

Public notice is hereby given that an application was filed April 20, 1973, under the Federal Power Act (16 U.S.C. 791a-825r) by the Public Utility District No. 1 of Klickitat County, Washington (Correspondence to: Mr. Henry A. Miller, President, Public Utility District No. 1 of Klickitat County, Goldendale, Washington 98620) for approval of withdrawal of application for license for the White Salmon River Project, on White Salmon River, Green Canyon Creek, Ninefoot Creek and Trout Lake Creek, in Skamania and Klickitat Counties, Washington. The project affects lands of the United States within the Gifford Pinchot National Forest.

The District is presently considering alternate plans involving a pumped storage project in lieu of its original proposal set forth in the application for license filed October 2, 1961.

As proposed, the original project consists of: Ninefoot Creek dam on the White Salmon River, a concrete gravity diversion dam 100 feet high; an open diversion canal about 7,500 feet long to the Green Canyon Reservoir; Green Canyon Reservoir with storage capacity of 6,400 acre-feet and surface area of 153 acres, formed by an earthfill dam (on Green Canyon Creek), about 6,000 feet long with maximum height of about 100 feet; a steel penstock 3,350 feet long; Trout Creek Powerhouse an outdoor type structure containing two units with total installed capacity of 40,000 kilowatts; a tailrace leading to a re-regulating reservoir having an earth-fill dam 0.5 mile long with a maximum height of 40 feet; a 115 kilovolt transmission line 28 miles long to the substation and a connection with the Bonneville Power Administration lines; and appurtenant facilities.

Any person desiring to be heard or to make protest with reference to said application should on or before September 3, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission shall be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Project 516]

SOUTH CAROLINA ELECTRIC & GAS CO.

Application for Change in Land Rights

JULY 16, 1973.

Public notice is hereby given that application was filed May 16, 1973, under the Federal Power Act (16 U.S.C. 791a-825r) by the South Carolina Electric & Gas Company (Correspondence to: Richard M. Merriman, Esquire, Reid and Priest, 1701 K Street, NW Washington, D. C. 20006, and George H. Fischer, III, Esquire, Vice President and General Counsel, South Carolina Electric & Gas Company, Post Office Box 764, Columbia, South Carolina 29202) for change in land rights for constructed Project No. 516, known as the Saluda Project, located on the Saluda River in Lexington, Newberry, Richland, and Saluda Counties, South Carolina.

South Carolina Electric & Gas Company, Licensee for the Saluda Project No. 516, requests Commission approval of a lease of 349 acres of project lands to the South Carolina Department of Parks, Recreation and Tourism to be used for state park and public recreation complex purposes. The lease would also permit: (1) The development and construction of piers, marinas, boat ramps, breakwaters, docks, beaches and utilities on project lands adjacent to the areas included in the lease, below contour elevation 360.0 feet m.s.l.; and (2) the construction of causeways and bridges between the islands included in the lease and the mainland as may be required to permit public vehicular access to the state park and recreation areas.

The land involved is commonly known as "Billy Dreher Island" lying within the boundary of Project No. 516 above elevation 360.0 feet m.s.l. and is located in Newberry County, School District No. 1, within Lake Murray and between the forks of the Saluda River and Camping Creek.

Any person desiring to be heard or to make protest with reference to said application should on or before August 27, 1973, file with the Federal Power Commission, Washington, D. C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-15145 Filed 7-23-73;8:45 am]

[Docket No. CP74-7]

SOUTHERN NATURAL GAS CO.

Notice of Application

JULY 17, 1973.

Take notice that on July 9, 1973, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP 74-7 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of measuring stations and for permission and approval of the abandonment of pipeline and appurtenant facilities by sale to Atlanta Gas Light Company (Atlanta Gas) and certain measuring facilities by removal and retirement, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon by sale to Atlanta Gas approximately 43.279 miles of its Macon Branch line between its Bass Junction and Milledgeville Measuring Stations which consists of:

Approximately 22.927 miles of its 10-inch pipeline beginning at its Bass Junction Measuring Station and including the three 8-inch lines at the Ocmulgee River Crossing,

Approximately 2.003 miles of its 12-inch Macon Branch Loop line beginning at the Bass Junction Measuring Station,

Approximately 69 feet of the 12-inch Macon Tap line in Bibb County, Georgia,

Approximately 11.932 miles of its 8-inch Macon Branch line beginning at its Gordon Junction measuring station and terminating at its Milledgeville meter station, and

Approximately 6.417 miles of the 8-inch Macon Loop line in Baldwin County, Georgia.

Applicant also proposes to abandon by sale to Atlanta Gas:

0.185 acre of land and the General Refractories Measuring Station thereon,

0.835 acre of land and the Gordon Junction Measuring Station thereon,

0.264 acre of land and the Milledgeville Measuring Station thereon, and

The Macon Measuring and Tap Line Regulation Stations. Applicant further proposes to abandon by removal and retirement the Bass Junction South Measuring and Regulation Station and appurtenant facilities, the Milledgeville Crossover Regulator Station, and the Brunswick-Macon line Regulator Station. It is stated that Applicant and Atlanta Gas have agreed for the sale of the

V 38-141 JUL 24 73 XUM

proposed-to-be-abandoned facilities at a price of $373,052.17, exclusive of the proposed construction.

Applicant also proposes to construct, operate and own two measuring stations, one to be located at the beginning of the Macon Branch line to be abandoned in Bibb County, Georgia, and the other located adjacent to its South Main line in Baldwin County, Georgia. The total cost of these facilities is $126,000 which will be reimbursed by Atlanta Gas.

The purpose of the proposed abandonment is to eliminate Applicant's increased costs in maintaining the 43.279 miles of older pipeline and to enable Atlanta Gas to use the facilities to accommodate a proposed satellite liquefied natural gas peak-shaving plant to be located on the Macon Branch line: The purpose of the proposed construction is to replace the four measuring stations proposed to be abandoned and to control more easily the flow of gas through the pipeline proposed to be abandoned to Atlanta Gas. Applicant states that no service will be discontinued or diminished by reason of the proposed construction and abandonment.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15146 Filed 7-23-73;8:45 am]

[Docket No. RP73-100]

SYLVANIA CORP.

Proposed Changes in Rates and Charges

JULY 16, 1973.

Take notice that on July 2, 1973, The Sylvania Corporation (Sylvania) tendered for filing Substitute Original Sheet No. 4 to its FPC Gas Tariff, First Revised Volume No. 1, proposed to become effective as of June 11, 1973, to coincide with the effective date of Sylvania's revised tariff filed on April 26, 1973, or the earliest date after June 11, 1973, permitted under Executive Order No. 11723 or any other orders or regulations promulgated pursuant to the Economic Stabilization Act of 1970, as amended.

Sylvania states that, as a result of a mathematical error in computation, Original Sheet No. 4, as filed on April 26, reflects an incorrect rate of 46.55 cents per Mcf, whereas the correct rate that should have appeared on the tariff sheet is 58.74 cents per Mcf. Similarly, Sylvania states, Sheet 1 of Schedule N-10 of the April 26 filing, as well as the Statement of the Reasons and Basis for the Proposed Changes, incorrectly states the revenue deficiency for the test period to be $338,069, while the correct figure is $666,161. Accordingly, Sylvania's new filing contains revised statements in support of the substitute tariff sheets.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15154 Filed 7-23-73:45 am]

[Docket No. RF72-64]

TEXAS GAS TRANSMISSION CORP.

Extension of Time

JULY 16, 1973.

On July 6, 1973, Texas Gas Transmission Corporation filed a motion for an extension of time to submit end use data in compliance with ordering Paragraph (C) of the order issued June 15, 1973, in the above-designated matter.

Upon consideration, notice is hereby given that the time is extended to and including November 5, 1973, within which Texas Gas Transmission Corporation shall submit end use data and serve it on all interveners.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15147 Filed 7-23-73;8:45 am]

[Docket No. CI74-18]

ALLIED CHEMICAL CORP.

Notice of Application

JULY 18, 1973.

Take notice that on July 10, 1973, Union Texas Petroleum, a Division of Allied Chemical Corporation (Applicant), P.O. Box 2120, Houston, Texas 77001, filed in Docket No. CI74-18 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from acreage in Coke County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commence the sale of natural gas on August 1, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for three years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 5,000 Mcf of gas per day at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Initial deliveries are estimated at 40,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15082 Filed 7-23-73;8:45 am]

[Docket No. CI74-15]

W. H. HUNT (OPERATOR), ET AL.

Notice of Application

JULY 18, 1973.

Take notice that on July 9, 1973, W. H. Hunt (Applicant), 1401 Elm Street, Dallas, Texas 75202, filed in Docket No. CI74-15 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Texas Gas Transmission Corporation from the Walker Creek Field, Columbia County, Arkansas, and delivery of said gas at Beacon Gasoline Company's Blackburn Plant in Webster Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of natural gas on June 29, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the first day of the month next following the month in which Applicant commenced deliveries within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 10,000 Mcf of gas per month at 35.0 cents per Mcf at 15.025 psia, subject to downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON FINANCE

Notice and Agenda of Meeting

Agenda for a meeting of the Technical Advisory Committee on Finance to be held at the Federal Power Commission offices 825 North Capitol Street, NE Washington, D.C. August 1, 1973 9:30 a.m., e.d.t. Room 5200.

1. Meeting called to order by FPC Coordinating Representative.
2. Objectives and purposes of meeting.
A. Approval of minutes of May 31, 1973 meeting.
B. Report on June 26 Coordinating Committee and June 27 Executive Advisory Committee meetings.
C. Further report of Task Force on Future Financial Requirements and discussion of write-up of Task Force model.
D. Further report on future financial requirements of the public and cooperative sectors.
E. Reports on other assignments.
F. Review of proposed outline of final report.

MISSISSIPPI RIVER TRANSMISSION CORP.

Notice of Exchange Agreement

JULY 16, 1973.

Take notice that on July 9, 1973, Mississippi River Transmission Corporation (Mississippi) tendered for filing amendments to Mississippi FPC Gas Tariff, Original Volume 2, to wit:

1. Third Revised Sheet No. 1, being a new table of contents for Volume No. 2.
2. Original Sheet Nos. 19-27, constituting Rate Schedule X-4.

The amendments are to be effective on August 10, 1973.

Mississippi states that the reason for the amendments is to incorporate into its gas tariff an agreement, dated September 22, 1972, between Mississippi and Mid Louisiana Gas Company (MLGC) providing for exchange service between the two companies. Mississippi asserts that the agreement and the certificate of convenience and necessity with respect thereto were authorized by Commission order on June 1, 1973 in Docket No. CP73-83.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol, N.E., Washington, D.C. 20426, in accordance with the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before July 31, 1973. Protest will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-115]

TENNESSEE GAS PIPELINE CO.

Notice Deferring Procedural Dates

JULY 17, 1973.

On June 29, 1973, an order was issued granting rehearing for purposes of further consideration in the above-designated matter. On July 2, 1973, a notice was issued further postponing the procedural dates as set by the notice issued May 21, 1973.

Upon consideration, notice is hereby given that the procedural dates in the above matter are deferred pending further order of the Commission.

KENNETH F. PLUMB,
Secretary.

V 38 141 JUL 24 73 XUM

[Docket Nos. RP71-130, RP72-58]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

JULY 16, 1973.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern), on May 31, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Third Revised Volume No. 1. The proposed changes revise section 12 of the General Terms and Conditions of Texas Eastern's FPC Gas Tariff which contains procedures to be followed whenever it is necessary to curtail deliveries of natural gas to its jurisdictional customers.

Texas Eastern states that it is submitting these changes at this time to comply with the Commission's Order issued January 24, 1973, in Docket Nos. RP71-130 and RP72-58. In addition, it states that it is incorporating into its curtailment procedures the nine priorities of service set forth in the Commission's statements of policy in Order Nos. 467, 467-A and 467-B (Docket No. R-469).

Texas Eastern states that copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E. Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 73-15148 Filed 7-23-73;8:45 am]

[Docket No. CP74-2]

TEXAS GAS TRANSMISSION CORP.

Notice of Application

JULY 16, 1973.

Take notice that on July 3, 1973, Texas Gas Transmission Corporation (Applicant), 3800 Frederica Street, Owensboro, Kentucky 42301, filed in Docket No. CP74-2 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the direct service to an industrial customer, along with facilities for such service, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The service proposed to be abandoned was authorized by the Commission's order of December 30, 1960, in Docket No. G-18444 (24 FPC 1222). Said order authorizes Applicant deliver up to 1,000 Mcf of gas per day to Ayer-McCarel Clay Company, Inc. (Ayer-McCarel), for consumption at the latter's plant near Brazil, Indiana, pursuant to a service agreement of April 1, 1960.

Applicant states that the plant site was purchased by Marion Brick Corp. (Marion), which became successor-in-interest to the service agreement but never requested any deliveries of gas be made. As the plant has been closed, Applicant, Ayer-McCarel, and Marion have agreed to terminate and cancel the service agreement.

Applicant states that the proposed abandonment of service will not render idle the 4-inch pipeline used to serve Ayer-McCarel as it will be used to serve other customers in the area. The only facility to be abandoned is a meter station which was constructed at a cost of $2,653.91 and will be removed at a cost of $640.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15151 Filed 7-23-73;8:45 am]

[Docket No. CP74-12]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

JULY 17, 1973.

Take notice that on July 11, 1973, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP74-12 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing August 12, 1973, and operation of facilities to take into its certificated pipeline system additional natural gas supplies to be purchased from fields in the general area of its existing system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in the various producing areas coextensive with said system.

The total cost of the facilities proposed herein is not to exceed $7,000,000, with no single onshore project costing in excess of $1,000,000 and no single offshore project costing in excess of $1,750,000. Applicant proposes to finance the facilities initially with temporary bank loans and company funds and permanently through an overall financing program.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15152 Filed 7-23-73;8:45 am]

[Docket No. E-8215]

UNION ELECTRIC CO.

Order Accepting Revised Tariff Sheets

JULY 16, 1973.

Union Electric Company (Union) on May 18, 1973, tendered for filing proposed changes in its FPC Electric Tariff W-2: Second Revised Sheet No. 6 and Third Revised Sheets No. 5 and 7. Union also tendered for filing an Amendment to the Electric Service Agreement (FPC Rate Schedule No. 49) between Union and Missouri Power and Light Company (Missouri). The proposed change in the W-2 tariff would increase Union's revenues from jurisdictional sales and service by approximately $4,513,723 annually while the proposed amendment to Tariff No. 49 would increase Union's revenue by approximately $5,504,498 annually. Both increases are based upon estimated sales and revenues for calendar year 1973. The proposed effective date of the changes is July 17, 1973.

Union states that the proposed changes include a modification in the fuel cost base, used in computing the amount of its fuel adjustment, to $.36 per million BTU and an increase in the minimum charge rate. Further, Union proposes to modify the voltage discount provision of the W-2 tariff so as to clarify the intent that the discount is based on the demand which occurs at the time the customer's total monthly peak billing demand is established The proposed change in FPC No. 49 is a change in the demand change from $1.50/kw to $2.70/kw.

Public notice of this filing was issued on June 18, 1973, which required that protests or petitions to intervene be filed by July 5, 1973. Petitions to intervene were timely filed by Arkansas-Missouri Power Company and Sho-Me Power Corporation.

On July 3, 1973, the Secretary of the Army filed a protest wherein it is asserted that any increase in rates on July 17, 1973, the proposed effective date, would violate Executive Order No. 11723 and our Order No. 437-B issued June 19, 1973. Since we are suspending the rate increase for five months, the proposed rates will not be made effective, subject to refund until December 12, 1973. Therefore, there is no conflict with Executive Order No. 11723 nor with our Order No. 437-B issued June 19, 1973. Moreover, the authority and responsibility for administering the Economic Stabilization Program rests with the Cost of Living Council and we have clearly indicated below that Union's proposed increase in rates is subject to Executive Order 11723.

On July 5, 1973, City of Kirkwood, Missouri, and the Citizens Electric Corporation jointly filed a petition to intervene and inter alia, a motion to reject. Action on this pleading will be deferred until all parties have an opportunity to answer as provided by § 1.8(e) of the Commission's rules of practice and procedures.

In support of its filing, Union asserts that costs have continued to increase since its last wholesale rate increase in 1970 and despite all efforts, the increased costs have made it impossible to maintain its earnings at a level allowing a fair rate of return. Union avers a reasonable prospect of a fair return is necessary in order to meet the capital needs of a five year building program calling for expenditures of approximately $840 million.

Review of the rate filing and the pleadings indicates that issues are raised which require development in an evidentiary hearing. The proposed increase rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly we shall provide for hearing herein and shall suspend the proposed changes for the full five month statutory period.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Union's FPC Electric Tariffs W-2 and No. 49 as proposed to be amended in this docket and that the tendered revised tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set below.

(3) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held, commencing with a prehearing conference on December 4, 1973, at 10:00 A.M., EST, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Union's FPC Electric Tariffs W-2 and No. 49 as proposed to be revised herein.

(B) Pending hearing and a final decision in this proceeding, Union's proposed revised tariff sheets, tendered on May 18, 1973, are hereby accepted for filing, suspended and the use thereof deferred until December 17, 1973.

(C) At the prehearing conference on December 4, 1973, Union's prepared testimony together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate actions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of Sections 1.18 and 2.59 of the Commission's rules of practice.

(D) On or before October 30, 1973, the Commission Staff shall serve its prepared testimony and exhibits of any or all intervenors shall be served on or before November 13, 1973. Any rebuttal evidence by Union shall be served on or before November 27, 1973. Cross-examination of the evidence will commence on December 11, 1973, at 10:00 A.M., e.s.t.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, may be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92015, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15149 Filed 7-23-73;8:45 am]

FEDERAL RESERVE SYSTEM

CENTRAL TEXAS FINANCIAL CORP.

Formation of Bank Holding Company

Central Texas Financial Corporation, Brownwood, Texas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1832(a)(1)) to become a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of the successor by merger to First National Bank in Brownwood, Brownwood, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 3, 1973.

V 38 141 JUL 24 73 XUM

Board of Governors of the Federal Reserve System, July 17, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15092 Filed 7-23-73;8:45 am]

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (exclusive of directors' qualifying shares) of the successor by merger to Southwest Bank and Trust Company, Irving, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. Time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

By order dated November 2, 1972, the Board approved the formation of Applicant[1] and stated:

First National [Bank in Dallas, Applicant's lead bank] now holds certain minority interests in fourteen banks ("Other Banks") located in Dallas County, Texas, as follows: 24 per cent of the shares of American Bank and Trust Company; 21.34 per cent of the shares of Citizens State Bank, Irving; 20 per cent of the shares of The Dallas County State Bank, Carrollton; 24.76 per cent of the shares of DeSoto State Bank; 24.52 per cent of the shares of East Dallas Bank & Trust Company, 24 per cent of the shares of First National Bank of Richardson; 24 per cent of the shares of Grove State Bank; 22.42 per cent of the shares of North Dallas Bank and Trust Company; 24.9 per cent of the shares of Northpark National Bank; 19.47 per cent of the shares of Park City's Bank and Trust Company; 24.5 per cent of the shares of Southwest Bank and Trust Company, Irving; 24 per cent of the shares of Texas National Bank; 10.67 per cent of the shares of White Rock National Bank, and 26.41 per cent of the shares of Guaranty Bank, formerly South Oak Cliff Bank.

Board approval of Applicant's proposal to become a bank holding company does not signify Board approval of the retention or acquisition of the above-referred to minority interests in Other Banks. It is the Board's understanding, from representations by Applicant, that Applicant will file separate applications for prior approval by the Board for each of such minority holdings it seeks to retain and cause its minority interests in all Other Banks, other than those for which such applications are filed, to be completely and permanently divested by it. It is further understood that in this manner any such applications so filed by Applicant will be subject to the ordinary regulatory and legal process, subject to statutory standards as set forth in both section 3 of the Bank Holding Company Act and section 7 of the Clayton Act.

This application has been filed pursuant to that understanding but encompasses all of the voting shares of Bank rather than Applicant's presently existing minority interest in Bank. Similar applications have been filed to acquire shares of Grove State Bank, Park Cities Bank & Trust Company, and American Bank & Trust Company. The Board understands that an application will be filed promptly, but, in any event, not later than August 1, 1973, for shares of The Dallas County State Bank and further understands that Applicant's indirect minority interest in Guaranty Bank, formerly South Oak Cliff Bank, was completely and permanently divested by sale on January 9, 1973. The Board further understands and expects that Applicant's indirect minority interests in the eight other banks mentioned above will be completely and permanently divested as noted in the Board's earlier Statement.

Applicant controls two banks with aggregate deposits of $1.7 billion, representing 5.6 per cent of the total deposits in commercial banks in Texas, and is the largest bank holding company in the State.[2] Consummation of the proposed acquisition of Bank, with deposits of $40.4 million, would neither significantly increase Applicant's share of commercial bank deposits in the State nor result in a significant increase in the concentration of banking resources in any section of Texas.

Bank is the nineteenth largest of 110 commercial banks in the Dallas banking market which is approximated by the Dallas Ranally Metropolitan Area ("RMA"), controlling 0.6 per cent of the total deposits in commercial banks in that market. Applicant's lead bank is the second largest bank in the Dallas RMA holding 23.4 per cent of market deposits. Upon consummation of the four pending acquisitions referred to above, Applicant's subsidiaries would hold 25.5 per cent of the total deposits in commercial banks in the Dallas market. Should the Board approve the forthcoming application by Applicant to acquire shares of The Dallas County State Bank, Applicant would control 25.9 per cent of total deposits in that market. The eight banks in which Applicant's minority interests will be divested have a combined market share of 1.7 per cent of the Dallas market. However, no meaningful existing competition between Bank and Applicant's lead bank would be eliminated by consummation of the proposed transaction in view of the close relationship between the two. Bank was organized in 1955, its principal organizer then being a director of Applicant's lead bank. Since 1964, a trusteed affiliate of the bank has held 24.5 per cent of the outstanding shares of Bank. Additional shares of Bank are held by Applicant's shareholders. It appears unlikely that any significant competition would develop between Applicant's lead bank and Bank in the future, due to the described relationship and the absence of any evidence indicating a probability that the relationship will not continue indefinitely. Irrespective of the affiliation of Bank with Applicant, consummation of the proposed transaction is unlikely to have a significant adverse effect on existing or future competition in the Dallas market in view of the small size of Bank's market share and the difference in principal functions between Bank and Applicant's lead bank, the former serving primarily as a source of individual or retail banking services, the latter as a source of corporate or wholesale banking services. The Board concludes that consummation of the proposal would not eliminate any significant existing or future competition.

It has been suggested by a competitor of Bank that consummation of the proposed transaction may enable Bank to lower interest rates on loans to "unfairly attract customers" from that competitor, through the use of loan participations. However, there is no evidence in the record suggesting that the proposed transaction represents an attempt to monopolize and, absent such evidence, the Board concludes that such a possibility, rather than constituting an unfair means of attracting customers, represents a legitimate method of competition among banks, and would therefore even favor the convenience and needs of the community to be served. The same competitor also suggests that consummation of the proposed transaction may result in "political and economic power which may tend to defeat legitimate attempts by independent banks to survive and prosper", citing as an example the opposition before the State Banking Department, expressed by Bank and a bank in which Applicant has a minority interest, to an attempt by the competitor to re-locate its office. However, within certain limits,[3] apparently not exceeded in this case, the legality of Bank's conduct, at least insofar as that conduct was directed toward obtaining governmental action, is not at all affected by any anticompetitive purpose it may have had, its right to petition its government being constitutionally protected.[4]

The financial and managerial resources of Applicant, its subsidiaries and Bank are generally satisfactory and consistent with approval of the application, particularly in view of Applicant's plans to increase Bank's capital in the near future. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[5] effective July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

ORBANCO, INC.

Order Approving Acquisition of Far West Securities Co.

Orbanco, Inc., Portland, Oregon, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire (through its wholly owned subsidiary, Columbia Mortgage Co., Portland, Oregon) the insurance agency business of Far West Securities Co., Spokane, Washington ("Company"), and thereby to engage in the activities of acting as an insurance agent or broker with respect to credit life insurance, credit accident and health insurance and mortgage redemption insurance, all directly related to extensions of credit by Company. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 24390). The time for filing comments and views has expired, and the Board has considered all comments received in light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant, a one bank holding company, controls The Oregon Bank, Portland, Oregon, the third largest banking organization in Oregon with deposits of $209.3 million, representing 4 per cent of total deposits in commercial banks in the State.[1] (The two largest banking organizations in Oregon together control approximately 78 per cent of all commercial bank deposits.) Applicant controls seven nonbanking subsidiaries which engage, respectively, in the following activities: capital goods financing, data processing services, mortgage banking, registered investment advisory services, operating a small business investment company, operating an industrial bank, and holding title to bank premises.

Applicant's acquisition of Company, which is engaged in mortgage banking activities, was approved by the Board on April 26, 1973 (38 FR 11136; May 4, 1973).[2] Applicant proposes to acquire the insurance agency business formerly conducted by Company which consists of acting as agent or broker with respect to credit life insurance, credit accident and health insurance, and mortgage redemption insurance, all sold in connection with extensions of credit by Company. Due to the limited nature and scope of the insurance activities, it appears that Applicant's acquisition of the insurance agency business formerly conducted by Company would not have an adverse effect on either existing or potential competition in any relevant area.

It is anticipated that the provision of credit-related insurance by Company will provide greater convenience for its customers. There is no evidence in the record indicating that consummation of the proposed transaction would result in an undue concentration of resources, unfair competition, conflict of interests, unsound banking practices or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) of the Act is favorable. Accordingly, the application is hereby approved subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof. The transaction shall be consummated not later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15094 Filed 7-23-73;8:45 am]

[1] All banking data are as of December 31, 1972.

[2] In its original application, Applicant sought to acquire the mortgage banking activities of Company as well as its insurance agency activities directly related to those extensions of credit. However, in light of certain objections to the insurance activities, Applicant requested that the Board split the application into two separate parts; subsequently, the Board ordered a hearing on the insurance activities and approved the acquisition of Company's mortgage banking activities. Thereafter, Applicant amended its application limiting its proposed insurance activities as described herein. The objections were withdrawn and the Hearing Officer dismissed the matter from the hearing docket on May 23, 1973 and returned it to the Board for further processing.

[3] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher and Holland. Absent and not voting: Chairman Burns.

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an electric rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Nevada Public Service Commission in a proceeding involving the application of the Nevada Power Company for rate increases (Docket No. 7776).

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

NATIONAL ENDOWMENT FOR THE HUMANITIES

FELLOWSHIPS FOR THE PROFESSIONS PANEL

Notice of Meeting

JULY 19, 1973.

Pursuant to Public Law 92-463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Fellowships for the Professions Panel will take place in Washington, D.C. on August 9, 1973.

The purpose of the meeting is to examine dossiers of individuals recom-

[4] Voting for this action: Chairman Burns and Governors Daane, Brimmer, Sheehan, Bucher and Holland. Absent and not voting: Governor Mitchell.

V 38 141 JUL 24 73 XUM

mended to the Endowment as possible seminar directors in the Legal Professions Program.

Based on section b(4) and (6) of 5 U.S.C. 552, the meeting will not be open to public participation. It is suggested that those desiring more specific information contact the Advisory Committee Management Officer Mr. John W. Jordan, 806 15th Street, N.W., Washington, D.C. 20506, or call Area Code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

SENIOR FELLOWSHIPS PANEL

Notice of Meeting

JULY 19, 1973.

Pursuant to Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Senior Fellowships Panel will take place in Washington, D.C. on Monday, July 30, 1973.

The purpose of the meeting is to review Senior Fellowship applications in the fields of art and music submitted to the Endowment for individual fellowship grants.

Based on section b (4) and (6) of 5 U.S.C. 552, the meeting will not be open to public participation. It is suggested that those desiring more specific information contact the Advisory Committee Management Officer Mr. John W. Jordan, 806 15th Street, N.W., Washington, D.C. 20506, or call Area Code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

OFFICE OF ECONOMIC OPPORTUNITY

RECREATION SUPPORT PROGRAM

Designation of Special Program

Pursuant to the authority in section 222(a) of the Economic Opportunity Act of 1964, I hereby designate as a Special Program a program to be known as the Recreation Support Program.

Throughout the Nation there are urban communities having areas of concentrated poverty in which there are youth from low-income families who are too young to obtain employment and who do not have access to adequate summer recreational opportunities. It is the purpose of this program to improve and expand the summer recreational opportunities available to such persons.

Assistance under this program shall be provided through grants or contracts to public or private nonprofit agencies. In addition to general playground activities, organized sports and games, and arts and crafts, local projects initiated under this program may include such activities as local informational tours, local cultural field trips, instruction in creative arts, and special events.

I hereby determine that the objectives sought cannot be effectively achieved through the use of authorities under section 221 of the Act. The Recreation Support Program, which is designed to deal with the specific problems of disadvantaged urban youth, cannot have maximum impact in dealing with those problems unless its operation on a nation-wide basis and in areas of critical need can be assured. The authorities of section 221 of the Act preclude the establishment of a binding national priority of this type and are in general insufficient for the accomplishment of the goals of this program.

Dated: June 27, 1973.

ALVIN J. ARNETT,
Director Designate, Office of Economic Opportunity.

RANDAL C. TEAGUE ET AL.

Delegation of Authority To Make Personnel Appointments and To Approve Official Travel

1. *Authority delegated.* Pursuant to the authority vested in me as Director Designate of the Office of Economic Opportunty by the Economic Opportunity Act of 1964, (78 Stat. 508), as amended, I hereby delegate to the officials listed below concurrent authority to exercise the powers indicated:

a. I delegate to Randal C. Teague as Principal Assistant to the Director for Operational Activities concurrent authority as follows:

(1) The authority to approve official travel, within the United States and its possessions, for all employees of the Headquarters Office of the Office of Economic Opportunity, and to approve the allowance of actual subsistence expenses for official travel in accordance with the Standard Government Travel Regulations, paragraph 6.12.

b. I delegate to the several Regional Directors of the Office of Economic Opportunity concurrent authority as follows:

(1) The authority to approve official travel, within the United States and its possessions, for all employees of their respective Regional Offices, and to approve the allowance of actual subsistence expenses for official travel in accordance with the Standard Government Travel Regulations, paragraph 6.12.

(2) The authority to make personnel appointments authorized by 602(a) of the Act, and to effect other personnel actions with respect to positions in their respective Regional Offices.

2. *Limitation on authority delegated.* The authority delegated herein in paragraphs 1a(1) and 1b(1) is subject to all applicable travel laws and regulations relating to the Office of Economic Opportunity and to budgetary and program authorizations for travel of personnel deemed necessary in the interest of the United States Government.

3. *Redelegation authority.* With the express approval of Alvin J. Arnett as Director Designate of the Office of Economic Opportunity, the authority delegated herein may be redelegated to other officials of the Office of Economic Opportunity, with or without provision for further redelegation in accordance with the provisions of OEO Staff Instruction 1115–1.

J. LAURENCE McCARTY ET AL.

Delegation of Program Authorities

1. *Authority delegated.* Pursuant to the authority vested in me as Director Designate of the Office of Economic Opportunity by the Economic Opportunity Act of 1964 (78 Stat. 508), as amended, I hereby delegate to the officials listed below concurrent authority to exercise the powers indicated:

a. I delegate to J. Laurence McCarty as Associate Director for Legal Services concurrent authority to make and administer grants under section 222a(3) of the Act and under section 222(b) and 232 of the Act for pilot, research, and demonstration projects in the legal services field.

b. I delegate to Randal C. Teague as Principal Assistant to the Director for Operational Activities concurrent authority to make and administer grants under sections 221, 222(a)(4), 222(a)(5), 222(a)(6), 222(a)(7), 222(a)(8), 222(a)(9), 222(b), 230, 231, 232, and Title IIIB and Title VII of the Act.

c. I delegate to the several Regional Directors of the Office of Economic Opportunity concurrent authority to make and administer grants under sections 221, 222(a)(5), 222(a)(6), 222(a)(7), 222(a)(8), 222(a)(9), 230, and 231(a) of the Act. I further delegate to the several Regional Directors the concurrent authority to make and administer grants under section 222(a) for the Recreation Support Program, which has been designated a Special Program under section 222(a) by the Director.

d. I delegate to Thomas Wolf as Associate Director for Administration concurrent authority to exercise those powers delegated to the Associate Director for Administration in Delegation of Authority Order 70–3, September 22, 1971. The authority delegated herein may be redelegated pursuant to Part 3 of this Order except that the power(s) enumerated in paragraph 1.b(4) of Delegation of Authority Order 70–3 may not be redelegated.

2. *Limitations on authority delegated.* As used herein, the authority to "make and administer" grants shall include authority to deny, amend, revise, enforce, suspend and terminate grants and grant actions including the power to make such findings, determinations and exceptions as may be authorized by law in the exercise of these authorities: However, the authority delegated herein does not include the power to reconsider grants under sections 232(d) and 242 of the Economic Opportunity Act; the power to approve or amend any plan required by section 232 (b) of the Act; the power to make or certify disbursements; the power to execute, amend or revise contracts or interagency agreements entailing the commitment or transfer of funds (except as hereinabove delegated); or any authority which has been, or may hereafter be, delegated to officials of other Federal departments or agencies.

3. *Redelegation authority.* With the express approval of Alvin J. Arnett as Director Designate, any authority delegated herein may be redelegated to other officials of the Office of Economic Opportunity, with or without provision for further redelegation, in accordance with the provisions of OEO Staff Instruction 1115–1.

4. *Prior delegations.* This delegation supersedes all prior delegations from the Director of OEO to any of the officials to whom authority is delegated herein. Delegation of Authority Order 73–3 of March 1, 1973 is specifically superseded.

5. *Effective date.* This delegation of authority shall be effective on June 26, 1973.

(Sec. 602, 78 Stat. 528, 42 U.S.C. 2942)

Dated: June 26, 1973.

TARIFF COMMISSION

[337–24]

AMPICILLIN

Notice of Hearing

Notice is hereby given that on October 2, 1973, the United States Tariff Commission will hold a public hearing in connection with investigation 337–24, regarding alleged unfair methods of competition and unfair acts in the importation and sale of ampicillin made in accordance with claim 5 of U.S. Patent Number 2,985,648 owned by Beecham Group, Ltd. Notice of institution of the investigation was published in the FEDERAL REGISTER of November 28, 1970 (35 FR 18222).

The hearing will be held on October 2, 1973, at 10 a.m., e.d.t., in the Hearing Room of the Tariff Commission, 8th and E Streets, N.W., Washington, D.C. All parties concerned will be afforded an opportunity to be present, to produce evidence, and to be heard concerning the subject matter of the investigation. Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission in writing on or before Thursday, September 27, 1973.

Issued: July 19, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[AA1921–117 and –118]

PRINTED VINYL FILM FROM BRAZIL AND ARGENTINA

Determination of Likelihood of Injury

JULY 18, 1973.

On April 18, 1973, the Tariff Commission received advice from the Treasury Department that printed vinyl film from Brazil and Argentina are being, or are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended.[1] In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigations Nos. AA1921–117 and –118 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held July 5–6, 1973. Notice of the investigation and hearing was published in the FEDERAL REGISTER of April 26, 1973 (38 FR 10339).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigations, the Commission has determined [2] that an industry in the United States is likely to be injured by reason of the importation of printed vinyl film from Brazil and Argentina that is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Statement of reasons. Printed vinyl film imported from Argentina and Brazil and found to have been sold, or likely to be sold, at less than fair value (LTFV) by the Treasury Department is like that produced and sold by U.S. vinyl-film producers. For the purposes of the Commission's determination, the industry to be considered in these investigations consists of those facilities in the United States which are engaged in the production of printed vinyl film.

Between 1971 and early 1973 (at which time the Bureau of Customs withheld appraisement), LTFV imports of printed vinyl film from Argentina and Brazil had grown rapidly. There were no imports of printed vinyl film from these countries prior to 1971. LTFV import penetration of the U.S. market in 1972 was 1.1 percent of estimated consumption, which is more than double such import penetration in 1971. Nevertheless, the Commission cannot find present injury to the U.S. industry producing printed vinyl film. During the years of LTFV imports from Argentina and Brazil, U.S. consumption increased materially, and the U.S. industry experienced a growth in sales, profits, and prices and no significant loss of sales to LTFV imports.

The Commission finds, however, a likelihood of injury to a U.S. industry by reason of the importation from Brazil and Argentina of LTFV printed vinyl film. Both prior to and since the withholding of appraisement, the importers' selling prices generally have been substantially lower than the domestic producers' selling prices for the class or kind of merchandise that the Treasury Department found to be sold at LTFV. The rapid market penetration achieved by the imports from Brazil and Argentina was made possible mainly through the LTFV pricing by the foreign manufacturers. The Commission believes that such pricing will probably continue in the absence of an affirmative determination. In Steel Jacks from Canada: Determination of Likelihood of Injury in Investigation No. AA1921–49 * * *, TC Publication 186, 1966, which involved a factual situation similar to the instant cases, those Commissioners making an affirmative determination stated on page 4 that—

> We recognize that the demand for the tools involved in this investigation has been increasing in recent years and that the domestic producer has increased his sales, so that he is not now being materially injured within the meaning of the Antidumping Act. We find, however, that the pattern of sales at less than fair value by the Canadian manufacturer and his attitude through the investigation under the Antidumping Act show a likelihood of continuation of sales at less than fair value at a rate and at prices that will culminate in the foreseeable future in material injury to the domestic industry.

Satisfactory assurances that LTFV sales will cease were not made to the Commission by representatives of the foreign producers of printed vinyl film. Testimony presented at the hearing and in written submissions following the hearing demonstrated the unwillingness of the foreign producers to state unequivocally that they would refrain from knowingly selling at LTFV.

In our view the foreign suppliers have shown a willingness to sell at LTFV, and they are capable of producing and exporting larger quantities of printed vinyl film to the United States than heretofore.

We believe that the foreign producers can also increase production of printed vinyl film by printing more of the vinyl film which is presently being calendered. In a publication of the Brazilian manufacturer which was introduced as an exhibit at the hearing, it is stated that "By 1973, our P.V.C. [polyvinyl chloride] calendering capacity will be increased by 50%." Because most of the company's output of vinyl film is printed, it can be assumed that the foreign producer's capacity to produce printed vinyl film has been substantially increased. The Commission has recognized that such ability to alter production patterns in order to increase LTFV sales is an important factor in determining the likelihood of injury to the U.S. industry.[1]

The increasing consumer demand and the desirable nature of the U.S. market, presents an opportunity for increasing market penetration by LTFV imports from Brazil and Argentina. This market penetration can be achieved by limiting sales in the home markets and by concentrating on exports to the United States.

Our conclusion is, therefore, that an industry in the United States is likely to be injured by reason of the importation of printed vinyl film from Brazil and Argentina that is being, or is likely to be, sold at less than fair value.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.73–15185 Filed 7–23–73;8:45 am]

[1] Notice of the Treasury Department's determination of sales at less than fair value, and the reasons therefor, was published in the FEDERAL REGISTER of April 18, 1973 (38 FR 9677, 9678).

[2] Commissioners Leonard, Young, and Ablondi did not participate in the decision.

[1] In Steel Reinforcing Bars from Canada: Determination of Likelihood of Injury (investigation No. AA1921–33), TC Publication 122, 1964, p. 6, the Commission included the following in its list of factors supporting its finding of likelihood of injury to the U.S. industry:

> The Canadian producer can easily increase his production of re-bars [steel reinforcing bars] by merely making less merchant bars, bar-size shapes, and small structurals as only a portion of its steel production now goes into re-bars.

DEPARTMENT OF LABOR

Office of the Secretary

REGINA FOOTWEAR, INC.

Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of June 12, 1973, the U.S. Tariff Commission made a report of the results of its investigation (TEA–W–198) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance filed by the United Shoe Workers of America, AFL–CIO on behalf of the workers and former workers of Regina Footwear, Inc., Brooklyn, New York. In this report the Commission found that articles like or directly competitive with footwear for women produced by Regina Footwear, Inc. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause unemployment or underemployment of a significant number or proportion of the workers of such firm, or an appropriate subdivision thereof.

Upon receipt of the Tariff Commission's affirmative finding, the Department, through the Acting Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs, instituted an investigation.

Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342; 37 FR 2472; 38 FR 16283, 29 CFR Part 90). In the recommendation she noted that concession generated imports like or directly competitive with women's footwear produced by Regina Footwear increased substantially. In the period 1969–1972 pressure from imports caused the firm to undertake several measures including the introduction of a new product line in an effort to remain competitive. These efforts have been only partially successful. From the first quarter to the second quarter of 1971 production declined substantially from normal seasonal patterns of previous years. During 1971 like or directly competitive imports increased their share of the domestic market. Employment and production at Regina Footwear continue to be threatened by increasing competitive imports. Unemployment and underemployment related in major part to such import competition began in February 1971. After due consideration I make the following certification:

All workers, hourly, piecework, and salaried, of Regina Footwear, Inc., Brooklyn, New York who became unemployed or underemployed after February 20, 1971 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 18th day of July 1973.

HERBERT N. BLACKMAN,
Deputy Assistant Secretary for Trade and Adjustment Policy.

INTERSTATE COMMERCE COMMISSION

[Notice No. 302]

ASSIGNMENT OF HEARINGS

JULY 19, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

FOURTH SECTION APPLICATIONS FOR RELIEF

JULY 19, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before August 8, 1973.

FSA No. 42715—*Class and Commodity Rates Between Points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent, (No. 669), for interested rail carriers. Rates on tree shear attachments, in carloads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief—Intrastate rates and maintenance of rates from and to points in other states not subject to the same competition.

Tariff—Supplement 26 to Texas-Louisiana Freight Bureau, Agent, tariff 87-J, I.C.C. No. 1159. Rates are published to become effective on August 18, 1973.

AGGREGATE-OF-INTERMEDIATES

FSA No. 42716—*Class and Commodity Rates Between Points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent, (No. 668), for interested rail carriers. Rates on tree shear attachments, in carloads, and ethylene glycol, in tankcar loads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 26 to Texas-Louisiana Freight Bureau, Agent, tariff 87-J, I.C.C. No. 1159. Rates are published to become effective on August 18, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 96]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 16, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 4883 (Sub-No. 44 TA) filed July 5, 1973 Applicant: THE GUYOTT COMPANY 166-176 Forbes Street, New Haven, Conn. 06512 Applicant's representative: Paul J. Goldstein 109 Church Street New Haven, Conn. 06510 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank trucks: namely Number 2 burning or fuel oil, from New Haven, Conn., to Katonah, N.Y. and Lake Carmel, N.Y., with no return for compensation, for 180 days. SUPPORTING SHIPPER: H. H. Park, Inc., 215 Katonah Avenue, Katonah, N.Y. SEND PROTESTS TO: District Supervisor David J. Kiernan, Interstate Commerce Commission, Bureau of Operations, 324 U.S. Post Office Building, Hartford, Conn. 06101.

No. MC 29120 (Sub-No. 162 TA) filed July 6, 1973 Applicant: ALL-AMERICAN, INC. 900 West Delaware P.O. Box 769 Sioux Falls, S. Dak. 57104 Applicant's representative: Michael J. Ogborn (same address as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Part I—*meats, meat products, and meat byproducts and articles distributed by meat packinghouses* as described in Sections a, b, and c of Appendix I to the report in *Descriptions in Motor Vehicle Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk and hides), from Wagner, S. Dak., to points in Colorado, North Dakota, Kansas, Nebraska, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio, Kentucky, and Tennessee and Part II—*meats, meat products and meat byproducts* as described in Section A of Appendix I to the report in *Descriptions in Motor Vehicle Certificates*, (except hides and commodities in bulk) and *materials, supplies, and equipment* used by meat packers in the conduct of their business, from points in Colorado, North Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio, Kentucky, and Tennessee, to Wagner, S. Dak., for 180 days. RESTRICTION: Restricted to shipments originating at Wagner, S. Dak. and destined to the named destination states in Part I and restricted to shipments originating at the named origin states and destined to Wagner, S. Dak. in Part II. SUPPORTING SHIPPER: Yankton Sioux Industries, 301 North Fifth Street, Minneapolis, Minn. 55403, Samuel Rubenstein, General Traffic Manager. SEND PROTESTS TO: J. L. Hammond, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 369, Federal Building, Pierre, S. Dak. 57501.

No. MC 52657 (Sub-No. 708 TA) filed July 3, 1973 Applicant: ARCO AUTO CARRIERS, INC. 2140 West 79th Street Chicago, Ill. 60620 Applicant's representative: S. J. Zangri (same address as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicle bodies, tool boxes, bumpers, and materials, supplies* (except commodities in bulk), *parts and accessories* of motor vehicle bodies when moving in mixed shipments and on the same load with such commodities, from Hampstead, Md., to points in Maine, Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, for 180 days. SUPPORTING SHIPPER: Snyder Body, Inc., P.O. Box 220, Hampstead, Md. 21074. SEND PROTESTS TO: District Supervisor Robert G. Anderson, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 54567 (Sub-No. 13 TA) filed July 2, 1973. Applicant: RELIANCE TRUCK COMPANY a Corporation 2500 North 24th Avenue Phoenix, Ariz. 85009 Applicant's representative: A. Michael Bernstein 1327 United Bank Bldg. Phoenix, Ariz. 85012 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction materials, equipment and supplies; machinery; iron and steel; iron and steel products; and commodities* which because of size or weight require the use of special equipment, between Ehrenberg, Ariz. and Blythe, Calif., for 180 days. Note: Applicant will tack with authority held in MC 54567 (Sub-No. 4) and also interline with other carriers at Blythe, Calif. The authority is sought for the purpose of tacking to the carrier's present existing authority and interlining with California carriers to provide service between points in Arizona and California. SUPPORTING SHIPPERS: There are approximately 474 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 3427 Federal Bldg., 230 N. First Avenue, Phoenix, Ariz. 85025.

No. MC 64932 (Sub-No. 516 TA) filed July 2, 1973. Applicant: RELIANCE AGE CO. 10735 S. Cicero Avenue Oak Lawn, Ill. 60453 Applicant's representative: Carl L. Steiner 39 South LaSalle Street Chicago, Ill. 60603 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrogen*, in bulk, in tank vehicles, from Painesville, Ohio, to Countryside, Illinois, for 90 days. SUPPORTING SHIPPER: Liquid Air, Inc., 5300 S. East Avenue, Countryside, Ill. 60525. SEND PROTESTS TO: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 78400 (Sub-No. 35 TA) filed July 3, 1973 Applicant: BEAUFORT TRANSFER COMPANY P.O. Box 102 Gerald, Mo. 63037 Applicant's representative: Thomas F. Kilroy P.O. Box 624 Springfield, Va. 22150 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, class A and B explosives, household goods as described by the Commission, livestock, commodities in bulk, or commodities requiring the use of special equipment and refrigeration), between Linn, Mo. and St. Louis, Mo. as follows: from Linn over U.S. Highway 50, to Jefferson City, Mo., thence over U.S. Highway 54 to Kingdom City, Mo., thence over Interstate Highway 70 to St. Louis, Mo. and return, serving Jefferson City, Mo. as an intermediate point, for 180 days. Note: Applicant intends to interline at St. Louis, Mo. SUPPORTING SHIPPERS: There are approximately 15 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: District Supervisor J. P. Werthman, Bureau of Operations, Interstate Commerce Commission, Room 1465, 210 N. 12th Street, St. Louis, Mo. 63101.

No. MC 111812 (Sub-No. 496 TA) filed July 6, 1973 Applicant: MIDWEST COAST TRANSPORT, INC. 900 West Delaware P.O. Box 1233 Sioux Falls, S. Dak. 57101 Applicant's representative: Ralph H. Jinks (same address as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Part I—*Meats, meat products, meat by-products, dairy products and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Wagner, S. Dak., to points in Idaho, Arizona, California, Montana, Nevada, Oregon, Utah and Washington and Part II—*meats, meat products and meat by-products* as described in Part I (except hides and commodities in bulk), and *materials, supplies and equipment* used by meat packers in the conduct of their business, from points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington, to Wagner, S. Dak., for 180 days. SUPPORTING SHIPPER: Yankton Sioux Industries, 301 North Fifth Street, Minneapolis, Minn. 55403, Samuel Rubenstein, General Traffic Manager. SEND PROTESTS TO: J. L. Hammond, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 369, Federal Building, Pierre, S. Dak. 57501.

No. MC 114896 (Sub-No. 8 TA) filed June 28, 1973 Applicant: PUROLATOR SECURITY, INC. Suite 1001, E. Mockingbird Towers 1341 W. Mockingbird Lane P. O. Box 5571 Dallas, Tex. 75202 Applicant's representative: William E. Fullingim (same address as applicant) Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Precious metals and/or coins* in bags, *bars, bullion and specie*, between all points in the Continental United States, for 180 days. Note: Carrier does not intend to tack authority. SUPPORTING SHIPPER: Phillipp Brothers Division of Engelhard, Minerals & Chemicals Corporation, 299 Park Avenue, New York, N.Y. 10017. SEND PROTESTS TO: Transportation Specialist Gerald T. Holland, Bureau of Operations, Interstate Commerce Commission, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75202.

No. MC 116073 (Sub-No. 273 TA) filed July 5, 1973 Applicant: BARRETT MOBILE HOME TRANSPORT, INC. 1825 Main Avenue, P.O. Box 919 Moorhead, Minn. 56560 Applicant's representative: Robert Tessar (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from Fairmont, Minn., to points in North Dakota, South Dakota, Wisconsin and Iowa, for 180 days. SUPPORTING SHIPPER: Minn. Mark IV Homes, Inc., North Armstrong Drive, Fairmont, Minn. 56031. SEND PROTESTS TO: J. H. Ambs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 2340, Fargo, N. Dak. 58102.

No. MC 123048 (Sub-No. 263 TA) filed July 5, 1973 Applicant: DIAMOND TRANSPORTATION SYSTEM, INC. 1919 Hamilton Avenue P.O. Box A (Box zip 53403) Racine, Wis. 53401 Applicant's representative: Carl S. Pope (same address as above) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated grain bins and tanks, fans, heaters, and accessories* when moving at the same time and in the same vehicle, from the plantsite of Chicago Eastern Corporation at Marengo, Ill., to points in the United States (except Alaska, Hawaii, Vermont, New Hampshire, Connecticut, Maine, Rhode Island, Massachusetts, Arizona, Utah, Nevada, New Mexico and Wyoming), for 180 days. RESTRICTION: Restricted to traffic originating at said plantsites and destined to the states specified above. SUPPORTING SHIPPER: Chicago Eastern Corporation, Marengo, Ill. (Raymond Matyasse, Manager, Material and Inventory Control). SEND PROTESTS TO: District Supervisor John E. Ryden, Bureau of Operations, Interstate Commerce Commission, 135 West Wells St., Room 807, Milwaukee, Wis. 53203.

[Notice No. 97]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 18, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 124—STATE PROGRAM ELEMENTS NECESSARY FOR PARTICIPATION IN THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

PART 125—NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

Guidelines for Acquisition of Information From Owners of Point Sources

Notice was published in the FEDERAL REGISTER issue of April 19, 1973 (38 FR 9740), at 40 CFR 126, that the Environmental Protection Agency was giving consideration to proposed forms and guidelines for the acquisition of information from owners and operators of point sources of discharge subject to the National Pollutant Discharge Elimination System. These proposals were issued pursuant to the authority contained in the Federal Water Pollution Control Act Amendments of 1972 [86 Stat. 816; 33 U.S.C. 1251 (1972)] (hereinafter referred to as the "Act").

Section 402 of the Act creates a National Pollutant Discharge Elimination System (hereinafter referred to as the "NPDES") under which the Administrator of the Environmental Protection Agency may, after notice and opportunity for public hearing, issue permits for the discharge of any pollutant or combination of pollutants, upon condition that such discharge will meet all applicable requirements of the Act relating to effluent limitations, water quality standards and implementation plans, new source performance standards, toxic and pretreatment effluent standards, inspection, monitoring, and entry provisions, and guidelines establishing ocean discharge criteria.

Section 402 also provides that States desiring to administer their own permit program may submit a full and complete description of such a program to the Administrator for approval. The Administrator is to approve a State's program, and suspend issuance of permits under section 402, unless he determines that the State does not possess adequate authority to perform certain acts detailed in 402(b) of the Act. The State also must have an approved continuing planning process under section 303(e) of the Act before approval of its permit program can be granted. In addition to these requirements, a State permit program cannot be approved unless it conforms to guidelines issued under section 304(h)(2) of the Act prescribing minimum procedural and other elements of any State program under section 402. These latter guidelines were published in the FEDERAL REGISTER on Friday, December 22, 37 FR 28390 (1972).

Comments were received and appropriate changes made to the form and guidelines. In the interest of consolidating all information relating to application for an NPDES permit, the revised guidelines are herein published as final rulemaking in the form of amendments to 40 CFR 125, the NPDES program regulations (38 FR 13528). The revised guidelines are also promulgated herein as an amendment to 40 CFR 124, State Program Elements Necessary for Participation in the NPDES (37 FR 28390).

Principal revisions to the proposed forms are as follows:

1. The degree of analytical accuracy required has been limited to two significant digits, as this is all that is needed to apply the effluent guidelines.

2. "Absent" can now be entered on the effluent description if in the discharger's "reasoned judgment" a constituent is absent; he no longer must be "certain," as this would be impossible without analysis.

3. Instructions for items 7–9 (facility intake water, water use, and discharge), Section I, Form A, have been clarified to indicate that stormwater must be included only if it combines with other flows; this was originally not clear.

4. It has been clarified that substances present in the intake water should be marked "present" on the checklist. However, no analysis is required for purposes of the application; any previous analysis performed should be reported. We eliminated reference to "trace levels" and "drinking water standards" because there are no adequate standards covering enough parameters, and some substances could be toxic even in trace amounts.

5. It has been clarified that discharge descriptions are required for discharges to surface waters, discharges to wells where there is also a discharge to surface waters from the same facility, and discharges to municipal sewer systems if the discharge will not receive treatment prior to discharge to surface waters. This was originally intended but unclear.

6. It has been clarified that certain items "do not apply" to mining operations, in response to a comment to this effect.

Principal revisions to the regulations are as follows:

1. The percentage of industrial contribution necessitatirig a municipal plant's filing the standard form has been raised from 1 percent to 5 percent, because this is more consistent with the other criteria for filing the Standard Form, i.e., industries discharging over 50,000 gallons per day must file and municipal plants serving over 10,000 population must file. The average size plant serving a population of 10,000 treats approximately one million gallons per day, and 50,000 gpd is 5 percent of one million.

2. It has been clarified that the prohibition on imposing application fees on Federal, State and local facilities applies only to facilities filing applications to EPA. This was originally intended but unclear.

3. It has been clarified that manufacturing facilities discharging to a municipal plant are not required to file the Standard Form C. This was thought to be implicit but comments indicated it was not clear.

4. The requirement that a manufacturing or commercial facility file the Standard Form if the discharge affects the waters of another State, has been deleted because it is too broad. This criterion remains implicit in the authority to require submission of the Standard Form, whenever necessary, in order to make a decision on the application.

5. The requirement that a manufacturing or commercial facility file the Standard Form if the discharge "contains or may contain" toxic substances has been revised to "contains toxic substances," because "may contain" is too broad.

6. It has been clarified that anyone who applied for a permit under the Refuse Act, whose application was not denied, is not required to reapply unless his discharge has substantially changed in nature, volume, or frequency. This was originally intended but unclear. Also, no further fee will be charged for reapplication unless the substantial change involves an additional outlet or discharge point. This point was not addressed before but comments indicated the need for a policy.

It should be noted that this does not preclude requesting additional information of Refuse Act applicants, including completion of specific items on the Standard Form.

Because of the importance of making NPDES forms and related regulations available as soon as possible to owners and operators of point sources of discharge subject to the NPDES, the Administrator finds good cause to declare that these regulations and the forms, whose notice of availability follows immediately hereafter, are effective immediately.

Dated: July 18, 1973.

JOHN QUARLES,
For Acting Administrator.

Forms for acquisition of information from owners and operators of point sources. Notice was published in the FEDERAL REGISTER issue of April 19, 1973 (38 FR 9740), that the Environmental Protection Agency was giving consideration to proposed forms for the acquisition of information from owners and operators of point sources of discharge. The forms and accompanying instructions describe, pursuant to the authority contained in section 304(h)(1) and 402 of the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816; 33 U.S.C. 1251 (1972)), requirements for the acquisition of information from owners and operators of point sources subject to the National Pollutant Discharge Elimination System. Copies of the forms are available at State water pollution control agencies having approved programs and at all Environmental Protection Agency Regional Offices.

A. Part 124 of Title 40 of the Code of Federal Regulations, issued under sections 304(h) and 402 of the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816 et seq.; Public Law 92–500, 33 U.S.C. 1251), is amended as follows:

1. Section 124.1 *Definitions* is amended by deleting paragraph (h) and inserting new paragraphs (h), (i) and (j) as follows:

§ 124.1 Definitions.

* * * * *

(h) The term "NPDES application short form" or "short form" means one or more, as appropriate, of the following:

(1) Short Form A—Municipal Wastewater Dischargers.

(2) Short Form B—Agriculture.

(3) Short Form C—Manufacturing Establishments and Mining.

(4) Short Form D—Services, Wholesale and Retail Trade, and All Other Commercial Establishments Including Vessels, Not Engaged in Manufacturing or Agriculture.

(i) The term "NPDES application standard form" or "standard form" means one or more, as appropriate, of the following:

(1) Standard Form A—Municipal.

(2) Standard Form C—Manufacturing and Commercial.

(j) The term "NPDES application" means the uniform national forms (including the NPDES application short forms, NPDES application standard forms, and any subsequent additions, revisions or modifications duly promulgated by the Administrator pursuant to the Act) for application for an NPDES permit.

2. The definition of the term "NPDES reporting form" is redesignated "(k)," and all subsequent definitions are redesignated accordingly.

3. A new § 124.21 is inserted as follows:

§ 124.21 Application for NPDES permit.

Procedures of any State or interstate agency participating in the NPDES shall insure that every applicant for an NPDES permit complies with NPDES filing requirements. Such procedures and requirements shall include the following:

(a) Except as provided in paragraphs (b) and (c)(4) of this section and except as provided by the Administrator in regulations issued under the act, any person discharging or who proposes to discharge pollutants shall complete, sign, and submit an NPDES application short form in accordance with the instructions provided with such form.

COMMENT. Federal filing requirements for the NPDES include the timely filing of a properly completed Refuse Act or NPDES application form. State and interstate agencies may specify, where necessary, additional filing requirements such as the submission of engineering reports, plans, and specifications for present or proposed treatment or control of discharges of pollutants. While duplication should be avoided, the Administrator recognizes that the NPDES application form may not by itself satisfy the needs of every participating program.

(b) Any person who filed a complete Refuse Act application and whose application has not been denied is not required to apply for a permit under these regulations unless the discharge described in the application for a Refuse Act permit has substantially changed in nature, volume, or frequency. Such complete Refuse Act permit application shall be considered to be an application under the NPDES and shall be treated accordingly. If, however, the discharge described in the Refuse Act permit application has substantially changed in nature, volume, or frequency, the applicant shall complete, sign and submit the appropriate NPDES application form, as provided in paragraph (a) or (c) of this section.

(c)(1) If the information submitted by an applicant for an NPDES permit in Short Form A (relating to municipal wastewater treatment facilities) or any other information available to the Director or the Regional Administrator indicates any of the following, the applicant shall be required to complete, sign and submit a Standard Form A:

(i) The discharges from the facility have a total volume of more than 5 million gallons on any day of the year;

(ii) The facility serves a population in excess of 10,000; or

(iii) The facility receives wastes from an industrial user and such wastes

(A) Have a total volume of more than 50,000 gallons on any day of the year,

(B) Contain toxic pollutants,

(C) Have a total volume which constitutes more than 5 percent of the volume of the total discharge from the facility on any day of the year, or

(D) Alone or in combination with other discharges into the facility interfere with the operation of the facility or adversely affect the quality of the discharge from the facility.

(2) If the information submitted by an applicant for a permit on Short Form C (relating to manufacturing establishments and mining) or on Short Form D (relating to services, wholesale and retail trade, and all other commercial establishments, including vessels, not engaged in manufacturing or agriculture) or any other information available to the Director or the Regional Administrator indicates any of the following, the applicant shall be required to complete, sign, and submit a Standard Form C:

(i) The discharges (except those to publicly owned treatment works) from the facility have a total volume of 50,000 gallons on any day of the year;

(ii) The discharges (except those to publicly owned treatment works) contain toxic pollutants.

(3) In addition to paragraph (c)(1) or (2) of this section, an applicant shall complete, sign, and submit the appropriate standard form if the Director or the Regional Administrator determines that such submission is necessary to determine whether or not and upon what conditions a permit should be issued for the discharges identified in the short form.

(4) Any applicant may submit a standard form without prior submission of a short form if he complies with all applicable filing dates and requirements.

(d) A requirement that any person wishing to commence discharges of pollutants after July 16, 1973, must file a complete NPDES application either (1) no less than 180 days in advance of the date on which it is desired to commence the discharge of pollutants, or (2) in sufficient time prior to the commencement of the discharge of pollutants to insure compliance with the requirements of section 306 of the Act, or with any applicable zoning or siting requirements established pursuant to section 208(b)(2)(C) of the Act, and any other applicable water quality standards and applicable effluent standards and limitations.

COMMENT. The purpose of this requirement is to insure that the Director has sufficient time to examine applications from new sources of discharge of pollutanta and to apply standards of performance without unnecessarily delaying scheduled startup. The sooner the Director can specify requirements for new sources, the more easily the applicant can modify his plans, if necessary, without disruption and waste. Those State or interstate agencies which begin review at the planning stages of a new project are in the best position to insure orderly compliance with new source standards.

(e) Procedures which (1) enable the Director to require the submission of additional information after a Refuse Act or an NPDES application has been filed, and (2) insure that, if a Refuse Act or NPDES application is incomplete or otherwise deficient, processing of the application shall not be completed until such time as the applicant has supplied the missing information or otherwise corrected the deficiency.

COMMENT. The Director may find he needs information other than that initially filed by the applicant in order to make a permit decision. The Director should not hesitate to go back to the applicant for further information. In some cases, nothing less than an on-site inspection of an applicants' pollution control technology and practices will suffice.

No NPDES permit should be issued until the applicant has fully complied with the filing requirements specified in this subpart. If an applicant fails or refuses to correct deficiencies in his NPDES application form, the Director should take timely enforcement action.

B. Part 125 of Title 40 of the Code of Federal Regulations, issued under sections 304(h)(1) and 402 of the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816 et seq.; Public Law 92–500, 33 U.S.C. 1251), is amended as follows:

§ 125.1 [Amended]

1. Section 125.1 *Definitions* amended to change paragraph (g) to "The term 'Director' means the Director of a State or interstate water pollution control agency." The definition of the term "discharge" is redesignated "(h)," and all subsequent definitions are redesignated accordingly.

§ 125.2 [Amended]

2. In § 125.12(b), a second paragraph is added after "accordingly", to read as

V 38 I 141 JUL 24 73 XUM

follows: "Where the discharge described in the Refuse Act permit application has substantially changed in nature, volume or frequency, the applicant shall complete, sign and submit the appropriate NPDES application form, as provided in paragraph (g) or (h) of this section.

Where the substantially changed discharge involves addition of an outlet from which a discharge shall flow, the appropriate fee will be calculated as provided in paragraph (i) (1) or (2) of this section, after deduction of the fee submitted with the Refuse Act permit application."

§ 125.12 [Amended]

3. In § 125.12(h) (1) "or the Director" is added after "Regional Administrator."

4. In § 125.12(h) (1) (iii) (C) "1 percent" between "than" and "of" is changed to "5 percent."

5. In § 125.12(h) (1) (iii) (D) "Alone or" is added before "In combination."

6. In § 125.12(h) (2) "or the Director" is added after "Regional Administrator."

7. In § 125.12(h) (2) (i) and (iii) "(except those to municipal wastewater treatment facilities)" is added after "The discharges."

8. Section 125.12(h) (2) (ii) is deleted. Section 125.12(h) (2) (iii) is redesignated "125.12(h) (2) (ii)."

9. In § 125.12(h) (2) (iii) "or may contain" is deleted between "contain" and "pollutants."

10. In § 125.12(h) (3) "or the Director" is added after "Regional Administrator."

11. In § 125.12(i) (5) "to the Administrator" is added after "not be required to pay any fee."

NEW LOCATION OF FEDERAL REGISTER OFFICE

Effective Monday, July 30, 1973, the Office of the Federal Register will be located in Room 8401, 1100 L St., NW., Washington, D.C. Documents may be delivered or inspected between the hours of 8:45 a.m. and 5:15 p.m., Monday through Friday, except for Federal holidays. The mail address will remain unchanged: Office of the Federal Register, National Archives and Records Service, Washington, DC 20408.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

EXECUTIVE ORDER—Amending Executive Order No. 11647 relating to Federal Regional Councils 19903

ECONOMIC STABILIZATION—CLC extends certain export exemption; effective 7–19–73 19905

PUBLIC ASSISTANCE—HEW postpones effective date of certain social services regulations 19911

INDIAN AFFAIRS—Interior Department issues exceptions to appeal regulations and allows for use of peyote in religious services (2 documents); effective 7–25–73 ..... 19909, 19910

PESTICIDES—EPA announces filing of petitions for tolerances (2 documents) 19925

FOOD ADDITIVES—EPA announces filing of petition for the herbicide simazine 19925

NEW DRUGS—FDA withdraws approval of methapyrilene hydrochloride application; effective 8–6–73 19920

NEW ANIMAL DRUGS—FDA approves use of chloramphenicol capsules for dogs; effective 7–25–73 19909

NONFAT DRY MILK—Tariff Commission announces investigation and hearing on imports, 7–30–73 19939

SPORTS BROADCASTING—FCC extends comment period to 9–17–73 on practices of licensees and networks 19915

BANKING—FRS amendments on single and multiple maturity time deposits (2 documents) 19908

ANTIDUMPING—Treasury Department decision on papermaking machinery and parts from Sweden and Finland (2 documents) 19916, 19917

(Continued inside)

MEETINGS—
USDA: Willamette National Forest Advisory Committee, 8–16 and 8–17–73 19917
FCC: Steering Committee of the Cable Television Federal/State Local Advisory Committee, 7–30 and 7–31–73 19929
State Department: International Telegraph and Telephone Consultative Committee, 8–2–73 19916
HEW: Consumer Advisory Council to Office of Consumer Affairs, 7–25–73 19920
President's Cancer Panel, 7–26–73 19920
EPA: Petrochemical Industry Advisory Committee, 8–29 and 8–30–73 19925
AEC: Advisory Committee on Reactor Safeguards; meeting 8–9 to 11–73 19922
CSC: Federal Employees Pay Council, 7–25–73 19925

federal register

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Presidential Documents

Title 3—The President

EXECUTIVE ORDER 11731

Amending Executive Order No. 11647 Relating to Federal Regional Councils

On February 10, 1972, I formally established Federal Regional Councils for each of the ten Federal regions, and established an Under Secretaries Group for Regional Operations to strengthen and improve services to the public at the regional level. I have now determined that the mandate of the Federal Regional Councils should be broadened to include the coordination of direct Federal program assistance to State and local governments (as well as grant assistance as now provided), that the membership of the Councils and the Under Secretaries Group for Regional Operations should be changed, and that the Deputy Director of the Office of Management and Budget should be substituted as Chairman of the Under Secretaries Group in place of the Associate Director of that agency.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States of America, sections 1, 2, and 3 of Executive Order No. 11647 [1] of February 10, 1972, are amended to read as follows:

SECTION 1. *Federal Regional Councils.* (a) There is hereby continued a Federal Regional Council for each of the ten standard Federal regions. Each Council shall be composed of the principal regional officials of the Departments of Labor, Health, Education, and Welfare, Housing and Urban Development, Agriculture, the Interior, and Transportation, the Office of Economic Opportunity, the Environmental Protection Agency, and the Law Enforcement Assistance Administration.

The President shall designate one member of each such Council as Chairman of that Council and such Chairman shall serve at the pleasure of the President. Representatives of the Office of Management and Budget may participate in any deliberations of each Council.

(b) Each member of each Council may designate an alternate who shall serve as a member of the Council involved whenever the regular member is unable to attend any meeting of the Council.

(c) When the Chairman determines that matters which significantly affect the interests of the Federal agencies which are not represented on any such Council are to be considered by the Council, he shall invite the regional director or other appropriate representative of the agency involved to participate in the deliberations of the Council.

SEC. 2. *Functions of the Council.* Each Federal Regional Council shall be constituted as a body within which the participating agencies

[1] 37 FR 3167; 3 CFR, 1970 Comp., p. 146.

V 38 - 142 JUL 25 73 XUM

will, under the general policy formulation of the Under Secretaries Group, and to the maximum extent feasible, assist State and local government by the coordination of the Federal program grants and operations through:

(1) the development of better ways to deliver the benefits of Federal programs over the short term;

(2) the development of integrated program and funding plans with Governors and local chief executives;

(3) the encouragement of joint and complementary Federal grant applications by local and State governments;

(4) the expeditious resolution of conflicts and problems which may arise between Federal agencies;

(5) the evaluation of programs in which two or more member agencies participate;

(6) the development of more effective ways of allocating Federal resources to meet the long-range needs of State and local communities;

(7) the supervision of regional interagency program coordination mechanisms; and

(8) the development of administrative procedures to improve day-to-day cooperation on an interagency and intergovernmental basis.

SEC. 3. *Under Secretaries Group for Regional Operations.* The Under Secretaries Group for Regional Operations is hereby continued and shall be composed of the Under Secretaries of Agriculture, the Interior, Labor, Health, Education, and Welfare, Housing and Urban Development, and Transportation, the Administrator of the Law Enforcement Assistance Administration, the Deputy Director of the Office of Economic Opportunity, the Deputy Administrator of the Environmental Protection Agency, an Associate Director of the Domestic Council, and the Deputy Director of the Office of Management and Budget, who shall serve as the Chairman of the Group. When the Chairman determines that matters which significantly affect the interest of Federal agencies which are not represented on the Group are to be considered by the Group, he shall invite an appropriate representative of the agency involved to participate in the deliberations of the Group. The Under Secretaries Group for Regional Operations shall, consistent with the objectives and priorities established by the President and the Domestic Council, establish policy with respect to Federal Regional Council matters, provide guidance to the Councils, respond to their initiatives, and seek to resolve policy issues referred to it by the Councils. The Under Secretaries Group, under the Chairmanship of the Deputy Director of the Office of Management and Budget, shall be responsible for the proper functioning of the system established by this order.

Richard Nixon

THE WHITE HOUSE,
July 23, 1973.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Exports Exemption

The purpose of this amendment is to include within the exports exemption the sale of a product to a domestic purchaser who certifies that the product is for export.

Prior to this amendment, § 140.33 stated that "Prices charged for exports are exempt." This was interpreted by the Cost of Living Council's Special Freeze Group (Q. & A. 13–3) to apply only to the actual export sale. The sale to a domestic purchaser who subsequently exports the item was not exempt.

The Council has found that this amendment is necessary to avoid windfall profits to domestic purchasers for export who buy at prices subject to the freeze and export at prices which are exempt from control. The amendment will help assure that whatever gain is to be derived from the exports exemption will inure to the benefit of the manufacturer of the export item rather than the domestic purchaser who is the exporter of record.

This amendment constitutes a return to the exports exemption as defined in Phase II and in Phase III prior to the current freeze.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the current price freeze, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11730, 38 FR 19345; Cost of Living Council order No. 30, 38 FR 16267)

In consideration of the foregoing, Part 140 of Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective July 19, 1973.

Issued in Washington, D.C., on July 19, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

Section 140.33 is amended to read as follows:

§ 140.33 Exports.

Export sales, including sales of a product to a domestic purchaser who certifies that the product is for export, are exempt.

[FR Doc.73-15246 Filed 7-20-73;3:13 pm]

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 30; Docket No. AO-361-A8]

PART 1030—MILK IN THE CHICAGO REGIONAL MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Chicago Regional marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than August 1, 1973. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Deputy Administrator, Regulatory Programs, was issued June 12, 1973, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued July 9, 1973. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective August 1, 1973, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were enaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Chicago Regional marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1030.10 paragraphs (a) and (c) are revised to read as follows:

§ 1030.10 Plant.

(a) "Plant" means a building together with its facilities and equipment, whether owned or operated by one or more persons constituting a single operating unit or establishment: (1) that has facilities adequate for cleansing tank trucks, is approved by an appropriate health authority, and at which milk moved from the

V 38-142 JUL 25 73 XUM

farm is transferred and commingled in another tank truck with other milk and is transshipped in such other tank truck to another plant, (2) at which milk is received from dairy farmers, or (3) at which milk is processed and packaged or manufactured. If a portion of the building is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition and is physically separated from the approved portion, such unapproved portion shall not be considered as meeting the terms of this definition.

• • • • •

(c) "Supply plant" means a plant from which a Grade A fluid milk product is shipped or transshipped during the month to another plant. Such supply plant shall be equipped with storage capacity sufficient to hold the largest quantity of fluid milk product either received in the plant or shipped from the plant as a single load during the month, except that no storage capacity shall be maintained in a plant described in paragraph (a)(1) of this section. Any plant located on the premises of a pool distributing plant pursuant to § 1030.11(a) shall not be considered a supply plant unless it is located in a building that is entirely separate from the distributing plant.

2. In paragraph (b) of § 1030.11 subparagraphs (4), (5), (6), and (7) are revised to read as follows:

§ 1030.11 Pool plant.

• • • • •

(b) • • •

(4) Such percentage shall be not less than 40 for each of the months of September, October, and November, and 30 for all other months, except that a plant that was a pool plant pursuant to this paragraph during each of the months of August through December, the percentage shall be not less than 20 for each of the following months of January, February, and March. A plant meeting such requirements for August through March shall be a pool plant for each of the following months of April through July, unless:

(i) The milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area; or

(ii) Written application is filed with the market administrator by the plant operator on or before the first day of any such month (April–July) requesting the plant be designated a nonpool plant for such month and any subsequent month through July, provided it does not otherwise qualify as a pool plant.

(5) For the purpose of determining the percentages specified in subparagraphs (4) and (7) of this paragraph, the quantity of fluid milk products moved from a supply plant pursuant to subparagraph (1)(i) of this paragraph shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received from a supply plant(s), but not to exceed such quantity, the amounts described in subdivisions (i) and (ii) of this subparagraph (if fluid milk products are received from more than one supply plant, such net quantity assignable shall be prorated among supply plants in accordance with the total receipts from such plants),

(i) The quantity of fluid milk products in the form of bulk milk and skim milk transferred from the pool distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II milk, other than:

suant to § 1030.16(d) on such day. If no

(*a*) Transfers classified pursuant to § 1030.41(b)(4); and

(*b*) Transfers on any Saturday or on New Year's Day, Memorial Day, July 4, Labor Day, Thanksgiving, or Christmas, that no milk is received at the pool distributing plant from a supply plant, in an amount not in excess of 120 percent of the average daily receipts of producer milk pursuant to § 1030.16(a) at the plant during the prior month, less the quantity of producer milk diverted pursuant to § 1030.16(e) on such day. If no producer milk was received in the distributing plant during the prior month, the average daily receipts during the current month shall be used in lieu of the prior month for computing the transfers to be excepted by this subdivision; and

(ii) If milk is diverted from the pool distributing plant on the date of the receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of an emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

(6) The percentages specified in subparagraph (4) and/or in subparagraph (7)(iii) of this paragraph applicable during the months August–March shall be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments, except that the percentages specified in subparagraph (7)(iii) shall not exceed 50 percent of those specified in subparagraph (4). Before making such a finding the Director shall investigate the need for revision either on his own initiative or at the request of interested persons and if his investigation shows that a revision might be appropriate he shall issue a notice stating that revision is being considered and inviting data, views, and arguments with respect to the proposed revision: *Provided*, That if a plant which would not otherwise qualify as a pool plant during the month pursuant to subparagraph (4) or subparagraph (7)(iii) of this paragraph would qualify as a pool plant as a result of this subparagraph, such plant shall be a nonpool plant for such month upon filing by the operator of such plant a written request for nonpool status with the market administrator.

(7) Two or more plants shall be considered a unit for the purpose of this paragraph if the following conditions are met:

(i) The plants included in a unit are owned or fully leased and operated by the handler establishing the unit and such plants shall have been pool plants the month prior to being included in a unit. In the case of plants operated by cooperative associations two or more cooperative associations may establish a unit of designated plants by filing with the market administrator a written contractual agreement obligating each plant of the unit to ship milk as directed by such cooperatives;

(ii) The handler or cooperatives establishing a unit notify the market administrator in writing of the plants to be included therein prior to August 1 of each year and no additional plants shall be added to the unit prior to August 1 of the following year;

(iii) Each plant in a unit ships or transships to plants specified in subparagraph (1) of this paragraph the following percentages of its producer milk: 20 in each of the months of September, October, and November; 15 in each of the months of August and December; and 10 in each of the months of January, February, and March. If for any month a plant does not meet the individual plant shipping percentage, that plant shall be excluded from the unit; and

(iv) The notification pursuant to subdivision (ii) of this subparagraph shall list the plants in the order in which they shall be excluded from the unit if the minimum shipping requirements are not met, such exclusion to be in sequence beginning with the first plant on the list and continuing until the remaining plants as a unit have met the minimum requirements.

• • • • •

3. In § 1030.15 delete the "and" at the end of paragraph (b), delete the period at the end of paragraph (c) and add "; and," and add a new paragraph (d) to read as follows:

§ 1030.15 Producer.

• • • • •

(d) A dairy farmer with respect to milk produced by him that is received at a handler's pool plant during the months of January through July if any milk from the same farm was a receipt of producer milk in any "payback" month during the preceding year under an other order that provided for a seasonal incentive payment plan whereby funds previously withheld in the computation of the uniform price to producers were paid back to producers through the uniform price computation in subsequent months of the year.

4. In § 1030.16 paragraph (e) is revised to read as follows:

§ 1030.16 Producer milk.

• • • • •

(e) Diverted from a pool plant to a nonpool plant, subject to the conditions

specified in this paragraph. Milk shall be eligible for diversion as producer milk only if the person producing such milk had delivered milk as producer milk to a pool plant prior to the diversion. Milk picked up at a producer's farm in a tank truck, to the extent it is unloaded at a nonpool plant, shall be subject to the conditions specified in this paragraph; and if the tank truck contains milk from more than one producer, the quantity subject to the conditions specified in this paragraph shall be prorated over the total quantity of milk picked up at each producer's farm. In calculating the percentages specified in § 1030.11, milk so diverted shall be considered as received in the pool plant from which diverted. The location price differentials pursuant to § 1030.82 shall be based on the zone location of the nonpool plant(s) where such milk is physically received, except that in the case of a distributing plant, diverted milk of a producer shall be priced at the location of such plant if during the month not more than 4 days' production of such producer is diverted, or if the diverted milk is part of a tank truck load of milk that exceeds the milk storage capacity of such distributing plant. Diverted milk shall be limited as follows:

(1) Milk of a producer diverted for the account of the operator of a pool plant or a cooperative association pursuant to § 1030.13(d) that during the months of April through December does not exceed the quantity of such producer's milk received in the pool plant from which diverted, and during the months of January, February and March does not exceed 70 percent of such producer's milk received in or diverted from such pool plant: *Provided*, That during the months of April through July such limits shall not apply for a producer who delivered to a pool plant any time during the prior August–December period and subsequently maintained producer status without interruption of more than 30 consecutive days;

(2) To the extent that milk diverted by a cooperative as a handler during any month would result in the plant failing to qualify as a pool plant under § 1030.11 such diverted milk shall not be producer milk;

(3) Milk diverted to an other order plant shall be producer milk pursuant to this section only if it is not producer milk under such other order; and

(4) Milk of a producer diverted by a handler who fails to report the information required pursuant to § 1030.31(b)(4) shall not be considered producer milk pursuant to this paragraph.

5. In § 1030.30 subparagraph (3) of paragraph (a) is revised to read as follows:

§ 1030.30 Reports of receipts and utilization.

• • • • •

(a) • • •

(3) Fluid milk products received from pool plants of other handlers (or other pool plants, as applicable), including a separate statement of the net receipts from each supply plant computed pursuant to § 1030.11(b)(5), except that during the months of April through July no such separate statement need be made if receipts from supply plants are only from plants that were pool plants during the prior months of August through March;

• • • • •

6. In paragraph (b) of § 1030.31 delete the term "and" at the end of subparagraph (4), add the term "and" at the end of subparagraph (5), and add a new subparagraph (6) to read as follows:

§ 1030.31 Other reports.

• • • • •

(b) • • •

(6) Each handler who, during the month, received milk from a dairy farmer from whom he had not received milk for at least 30 consecutive days, shall report the name and address of the dairy farmer and the plant to which each such person previously delivered milk. Each handler who discontinues receiving milk from a producer during the month shall report each such producer's name, address, and the plant to which such person transferred.

• • • • •

7. In § 1030.46(a)(3) delete the term "and" at the end of subdivision (iv), change the period at the end of subdivision (v) to a semicolon, add the term "and" at the end of subdivision (vi), and add a new subdivision (vii) to read as follows:

§ 1030.46 Allocation of skim milk and butterfat classified.

• • • • •

(a) • • •

(3) • • •

(vii) Receipts of fluid milk products from persons described in § 1030.15(d);

• • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 1, 1973.

Signed at Washington, D.C., on: July 20, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 100—STATEMENT OF ORGANIZATION

Houston, Texas; Correction

Reference is made to the order of the Immigration and Naturalization Service published in the FEDERAL REGISTER on June 27, 1973 (38 FR 16855–6; effective August 1, 1973). The amendment to § 100.4(c)(2) appearing on page 16856 is hereby corrected by deleting the asterisk which appears beside the listing of Houston, Tex., as a Class A port of entry for aliens in District No. 38—Houston, Tex.

Dated: July 20, 1973.

JAMES F. GREENE,
Acting Commissioner of Immigration and Naturalization.

[FR Doc.73–15275 Filed 7–24–73;8:45 am]

Title 10—Atomic Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

PART 115—PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

Codes and Standards for Nuclear Power Plants

On April 30, 1973, the Atomic Energy Commission published in the FEDERAL REGISTER (38 FR 10641) proposed amendments to its regulations, 10 CFR Part 50, "Licensing of Production and Utilization Facilities," and 10 CFR Part 115, "Procedures for Review of Certain Nuclear Reactors Exempted from Licensing Requirements," which would incorporate new addenda to specified published industry codes.

The proposed amendments to §§ 50.55a and 115.43a would provide that the editions of referenced addenda whose requirements must be met include only those addenda through the Winter 1972 Addenda as appropriate.

Interested persons were invited to submit written comments within 30 days. The only comment received favored the amendment but suggested an ditional clarification which the Commission believes is unnecessary. Upon consideration of the comments received and other factors involved, the Commismission has adopted the proposed amendments without modification.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 50 and 115 are published as a document subject to codification, to be effective on August 24, 1973.

1. In § 50.55a of 10 CFR Part 50, § 50.55a(b) is amended to read as follows:

§ 50.55a Codes and standards.

Each construction permit for a utilization facility shall be subject to the following conditions, in addition to those specified in § 50.55:

• • • • •

(b) As used in this section, references [1] to editions of Criteria, Codes and Standards include only those editions through

See footnote 1 on p. 19908.

V38-142 JUL 25 73 XUM

1971; references[1] to Addenda include only those Addenda through the Winter 1972 Addenda.

. . . . .

2. In § 115.43a of 10 CFR Part 115, § 115.43a(b) is amended to read as follows:

§ 115.43a Codes and standards.

Each construction authorization shall be subject to the following conditions, in addition to those specified in § 115.43:

. . . . .

(b) As used in this section, references[1] to editions of Criteria, Codes and Standards include only those editions through 1971; references[1] to Addenda include only those Addenda through the Winter 1972 Addenda.

. . . . .

(Secs. 103, 104, 1611, 183, 68 Stat. 936, 937, 948, 954 as amended; 42 U.S.C. 2133, 2134, 2201(i), 2233)

Dated at Bethesda, Md., this tenth day of July 1973.

For the Atomic Energy Commission.

L. MANNING MUNTZING,
Director of Regulation.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

Marginal Reserve Requirements

The Board of Governors has amended its Regulation D so as to apply the 8 percent marginal reserve requirement to multiple maturity time deposits of $100,000 or more; the amount of such deposits outstanding during the week ending May 16 will be included in a member bank's base for purposes of calculating the marginal reserve requirement. The Board's action was taken pursuant to its authority under section 19 of the Federal Reserve Act to set reserve ratios for member banks (12 U.S.C. 461).

There was no notice or public participation with respect to this amendment since such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2(e) of the Board's rules of procedure, 12 CFR 262.2(e).

Effectively immediately, § 204.5(a)(1)(ii)(b) and (2)(ii)(b) of Regulation D is amended to read as set forth in §§ 204.5(a)(1)(ii)(b) and (c), and (2)(ii)(b) and (c), below. There was no deferred effective date with respect to this amendment, as provided in section 553(d) of Title 5, United States Code, since this amendment recognizes an exemption or relieves a restriction. 5 U.S.C. 553(d)(1).

Effective August 30, 1973, § 204.5(a)(1)(ii)(a) and (2)(ii)(a) of Regulation D is amended to read as set forth below.

On the effective dates stated above, § 204.5(a)(1)(ii) and (2)(ii) of Regulation D is amended to read as follows:

§ 204.5 Reserve requirements.

(a) *Reserve percentages.* Pursuant to the provisions of section 19 of the Federal Reserve Act and § 204.2(a) and subject to paragraph (c) of this section, the Board of Governors of the Federal Reserve System hereby prescribes the following reserve balances that each member bank of the Federal Reserve System is required to maintain on deposit with the Federal Reserve Bank of its district:

(1) If not in a reserve city—

. . . . .

(ii) 3 percent of its other time deposits up to $5 million, plus 5 percent of such deposits in excess of $5 million: *Provided, however,* That a member bank shall maintain a reserve balance equal to 8 percent of the amount by which the daily average amount of time deposits of the types hereinafter specified exceeds either the daily average amount of such time deposits outstanding during the computation period ending May 16, 1973, or $10 million, whichever is greater, and such 8 percent reserve percentage shall apply with respect to time deposits of the following types:

(a) Time deposits of $100,000 or more; and

(b) Time deposits represented by promissory notes, acknowledgments of advance, due bills, or similar obligations issued by a member bank's affiliate, as provided in § 204.1(f); and

(c) Time deposits represented by bank acceptances, as provided in § 204.1(f); and

. . . . .

(2) If in a reserve city (except as to any bank located in such a city that is permitted by the Board of Governors of the Federal Reserve System, pursuant to § 204.2(a)(2), to maintain the reserves specified in subparagraph (1) of this paragraph)—

. . . . .

(ii) 3 percent of its other time deposits up to $5 million, plus 5 percent of such deposits in excess of $5 million: *Provided, however,* That a member bank shall maintain a reserve balance equal to 8 percent of the amount by which the daily average amount of time deposits of the types hereinafter specified exceeds either the daily average amount of such time deposits outstanding during the computation period ending May 16, 1973, or $10 million, whichever is greater, and such 8 percent reserve percentage shall apply with respect to time deposits of the following types:

(a) Time deposits of $100,000 or more; and

(b) Time deposits represented by promissory notes, acknowledgments of advance, due bills, or similar obligations issued by a member bank's affiliate, as provided in § 204.1(f); and

(c) Time deposits represented by bank acceptances, as provided in § 204.1(f); and

. . . . .

By order of the Board of Governors, July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15199 Filed 7-24-73;8:45 am]

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Maximum Rates of Interest

The Board of Governors has amended its Regulation Q so as to remove the distinction between single maturity and multiple maturity time deposits with respect to the maximum rates of interest payable by member banks on such deposits. This action, which was taken pursuant to the Board's authority under section 19 of the Federal Reserve Act to prescribe rules governing the payment of interest on deposits, has the effect of removing interest rate ceilings on multiple maturity time deposits of $100,000 or more, and on multiple maturity time deposits with maturities of 4 years or more in denominations of $1,000 or more.

There was no notice, public participation, and deferred effective date with respect to this amendment because such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2(e) of the Board's rules of procedure, 12 CFR 262.2(e).

Effective immediately, § 217.7 of the Board's Regulation Q (12 CFR Part 217) is amended to read as follows:

§ 217.7 Maximum rates of interest payable by member banks on time and savings deposits.

Pursuant to the provisions of section 19 of the Federal Reserve Act and § 217.3, the Board of Governors of the Federal Reserve System hereby prescribes the following maximum rates[1] of interest per annum payable by member banks of the Federal Reserve System on time and savings deposits:

(a) *Time deposits with no maximum rate prescribed.* There is no maximum rate of interest presently prescribed (1) on any time deposit of $100,000 or more, or (2) on any time deposit of $1,000 or more with a maturity of 4 years or more.

[1] These incorporation by reference provisions were approved by the Director of the Federal Register on March 17, 1972 and May 4, 1973.

[1] The limitations on rates of interest payable by member banks of the Federal Reserve System on time and savings deposits, as prescribed herein, are not applicable to any deposit which is payable only at an office of a member bank located outside the States of the United States and the District of Columbia.

(b) *Time deposits with maximum rates prescribed.* Except as provided in paragraph (a) of this section, no member bank shall pay interest on any time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity	*Maximum per cent*
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(c) *Savings deposits.* No member bank shall pay interest at a rate in excess of 5 percent on any savings deposit.

By order of the Board of Governors, July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-WE-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone; Correction

In FR Doc 73-13005 appearing on page 16992 in the issue of Thursday, June 28, 1973, the complete description of the Chino, California control zone was inadvertently omitted.

The following description should be added:

In § 71.171 (38 FR 351) the description of the Chino, Calif., control zone is amended to read:

CHINO, CALIF.

Within a 3-mile radius of Chino, Calif., Airport (lat. 33° 58' 30" N., long. 117° 38' 10" W.) and within 1.5 miles each side of the Ontario, Calif., VORTAC 303° radial, extending from the 3-mile radius area to 1 mile northwest of the VORTAC. This control zone shall be effective during the specific dates and times published in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

Issued in Los Angeles, Calif., on July 13, 1973.

ROBERT O. BLANCHARD,
Acting Director,
Western Region.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

Sulfaethoxypridazine

Correction

In FR Doc. 73-14057 appearing at page 18545 in the issue of Thursday, July 12, 1973, the effective date now reading "July 11, 1973", should read "July 12, 1973".

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart H—Listing of Color Additives Exempt From Certification

TITANIUM DIOXIDE; CONFIRMATION OF EFFECTIVE DATE OF ORDER LISTING FOR COSMETICS USE

In the matter of listing titanium dioxide as a safe and suitable color additive for use in cosmetics and exempting it from certification:

1. Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b), (c), (d), 74 Stat. 399-403; 21 U.S.C. 376(b), (c), (d)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections or requests for hearing were filed in response to the order in the above-identified matter published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8650). Accordingly, the regulation (§ 8.8001) promulgated thereby became effective June 4, 1973.

2. Effective on July 25, 1973, § 8.501 *Provisional lists of color additives* is amended in the table in paragraph (g) by deleting "Titanium dioxide" from the list of color additives.

Dated: July 17, 1973.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.73-15207 Filed 7-24-73;8:45 am]

PART 8—COLOR ADDITIVES

Subpart H—Listing of Color Additives for Cosmetic Use Exempt From Certification

PYROPHYLLITE

In the matter of listing pyrophyllite as a safe and suitable color additive for use in cosmetics and exempting it from certification:

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b), (c), and (d), 74 Stat. 399-403; 21 U.S.C. 376(b), (c), and (d)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections or requests for hearing were filed in response to the order in the above-identified matter published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8650). Accordingly, the regulation (§ 8.8003) promulgated thereby became effective on June 4, 1973.

Dated: July 19, 1973.

SAM D. FINE,
Association Commissioner
for Compliance.

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Chloramphenicol Capsules, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (65-345V) filed by Caribe Chemical Co., Inc., 576 Fifth Ave., New York, NY 10036, proposing the safe and effective use of chloramphenicol capsules for the treatment of dogs. The application is approved.

The firm is being assigned a code number and added to the list of sponsors in § 135.501(c) of Part 135.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135c are amended as follows:

1. Section 135.501(c) is amended by adding a new code number 096 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

. . . . .

(c) . . .

Code No.	*Firm name and address*
. . .	. . .
096	Caribe Chemical Co., Inc. 576 Fifth Avenue New York, NY 10036

2. Part 135c is amended in § 135c.63 by adding a new subparagraph (b)(4) as follows:

§ 135c.63 Chloramphenicol capsules, veterinary.

. . . . .

(b) . . .

(4) For chloramphenicol capsules containing 250 milligrams of chloramphenicol see code No. 096 in § 135.501(c) of this chapter.

. . . . .

Effective date. This order shall be effective on July 25, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: July 18, 1973.

C. D. VAN HOUWELING,
Director, Bureau of
Veterinary Medicine.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—LAW AND ORDER

PART 11—LAW AND ORDER ON INDIAN RESERVATIONS

Exemption Allowing Use of Peyote on Navajo Reservation In Religious Services of Native American Church

The authority to issue regulations on Indian affairs is vested in the Secretary

V 38-142
JUL 25 73
XUM

of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Part 11, Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations is amended by revising § 11.87NH. This revision allows members of the Native American Church of North America to transport, sell, purchase, and possess peyote on the Navajo Reservation providing the peyote is to be used for religious services. The revision is made under the authority contained in section 463 of the Revised Statutes (25 U.S.C. 2).

This section is being revised at the request of the Navajo Tribal Council to conform to Tribal Council Resolution CO–65–67 which amended Tribal Council Resolution CJA–1–59 to grant the same exemption. Since the Navajo Tribal Council is the governing body having jurisdiction over the Navajo Reservation and the revision is only an administrative change being made to include an exemption already granted by the Tribal Council, advance notice and public procedure thereon is deemed unnecessary. Therefore, advance notice and public procedure are dispensed with under the exception provided in subsection (b) (B) of 5 U.S.C. 553 (1970).

Since this revision is an administrative change reflecting an exemption already granted by the governing body of the Navajo Tribe, the 30-day deferred effective date would cause unnecessary delay and is dispensed with under the exception provided in subsection (d) (3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective July 25, 1973.

As revised, § 11.87NH reads as follows:

§ 11.87NH Peyote violations.

Any Indian who shall introduce into the Navajo country, sell, use or have in his possession within said Navajo country, the bean known as peyote shall be deemed guilty of an offense and upon conviction thereof shall be sentenced to labor for a period not to exceed 9 months or a fine not to exceed $100, or both; *Provided*, That it shall not be unlawful for any member of the Native American Church to transport into Navajo country, buy, sell, possess, or use peyote in any form in connection with the religious practices, sacraments or services of the Native American Church.

WILLIAM L. ROGERS,
Deputy Assistant Secretary of the Interior.

JULY 18, 1973.

[FR Doc.73–15228 Filed 7–24–73;8:45 am]

SUBCHAPTER F—ENROLLMENT

PART 43h—PREPARATION OF A ROLL OF ALASKA NATIVES

Exceptions to Regulations

The general authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. section 301, and sections 463 and 465 of the Revised Statutes (25 U.S.C. sections 2 and 9).

Under that authority the Secretary has issued 25 CFR 1.2, which permits him to waive or make exceptions to his regulations as found in Chapter I of Title 25 of the Code of Federal Regulations in all cases where permitted by law and the Secretary finds that such waiver or exception is in the best interest of the Indians. Pursuant to 25 CFR 1.2, I find it to be in the best interest of the Alaska Natives to authorize the exceptions to Part 43h which are set out in § 43h.13, which is hereby added to part 43h. These exceptions are necessary to permit the proper and timely completion of the roll of Alaska Natives. Specifically, exceptions are made in § 43h.13 to the protest provisions of § 43h.6, § 43h.7 and § 43h.8 in regard to applications processed on or after June 28, 1973, permitting regions and villages to appeal all decisions, save for those involving the applications of adopted persons, made on or after that date by the Coordinator, to enable final decisions to be made on applications within the time allowed by the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688. Exceptions are also made in § 43h.13 to the notification requirements of § 43h.8(g) to preserve the confidentiality of information concerning adopted persons. Further, in view of the need to keep such information confidential, § 43h.13 also provides for an exception to the appeals permitted regions and villages in § 43h.8 with respect to decisions of the Coordinator on the applications of adopted persons, thus permitting only adopted persons to appeal from such decisions.

As the exceptions set forth in § 43h.13 are authorized under 25 CFR 1.2 and are necessary to permit the roll of Alaska Natives to be completed in accordance with the time requirements of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, and to preserve the confidentiality of adoption records, advance notice and public procedures are deemed unnecessary and no benefits would be gained by deferring their effective date. Therefore, good cause exists and is so found that advance notice and public procedure and the 30-day deferred effective date or any other deferred effective date otherwise required by 5 U.S.C. section 553(b) and (d) should be dispensed with under the exceptions provided in subsections (b) (B) and (d) (3) of 5 U.S.C. section 553. Accordingly, § 43h.13 shall become effective July 25, 1973.

§ 43h.13 is added and it reads:

§ 43h.13 Exceptions to Regulations.

"The following exceptions, under authority of 25 CFR 1.2, are made to Part 43h.

(a) With respect to applications processed on or after June 28, 1973:

(1) The procedures respecting protests by regions and villages set out in § 43h.6, § 43h.7 and § 43h.8 will not be applied, and

(2) The requirement in § 43h.7 that a village or region must have protested in order to appeal will not apply to decisions made on or after June 28, 1973, by the Coordinator, who will advise regions and villages of all such decisions and of their right to appeal therefrom;

(b) The notification provisions of 43h.6(g) of this section shall not be applied to the application of an adopted person, who is a person whose natural parents' parental rights with respect to him have been terminated by court order and given to others to exercise.

(c) Notwithstanding paragraph (a) (2) of this section, a decision of the Coordinator on the application of an adopted person, as defined in paragraph (b) of this section, will not be subject to the provisions of § 43h.8 which permit appeals by regions and villages, leaving such decision subject only to appeal by the adopted person.

KENT FRIZZELL,
Acting Secretary of the Interior.

JULY 19, 1973.

[T.D. 7281]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1973

Stock Dividends

Correction

In FR Doc. 73–14110 appearing at page 18531 of the issue for Thursday, July 12, 1973, make the following changes:

1. In the introductory material on page 18531, in the first line of the first full paragraph in the third column, "1.30 (c)" should read "1.305–3(c)".

2. In § 1.305, in section 305(e), the phrase at the end of paragraph (1), reading "(section 51 and following)", should read "(section 351 and following)".

3. In the twelfth line of § 1.305–1(a), "treated" should read "included".

4. In the second line of § 1.305–3(a), "(including a deemed distribution)" should be inserted between "a distribution" and "by a corporation".

5. In § 1.305–3(c)(1) in the fifth line of subdivision (ii), the material beginning "provided the purpose of" should be the beginning of a flush paragraph.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 164—INDEMNITY CLAIMS

Correction

In FR Doc. 73–14568, appearing at page 19041 in the issue for Tuesday, July 17, 1973, make the following corrections:

1. The first line has been inadvertently deleted from the document. The line should read "Regulations codified under Part 164,".

2. In the third line of § 164.1(b)(2), the numbers which now read "17–73", should read "71–73".

PART 232—POSTAL LOSSES AND OFFENSES

Routine Loss or Offense

Procedures dealing with financial accountability of employees and contractors have been amended to require that discrepancies of $100.00 or more be reported to the Postal Inspection Service. The previous figure was $50.00 or more. Publication of the following amendment of paragraph (g) of § 232.4 *Routine loss or offense* is effective immediately.

§ 232.4 Routine loss or offense.

* * * * * *

(g) For any discrepancy (shortage or overage) of $100 or more in the official accountability of an employee or contractor handling Government funds or accountable paper, use Form 571, *Discrepancy of $100 or More in Financial Responsibility* (shortage or overage). Show results of the six previous checks of the employee's accountability.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 221—SERVICE PROGRAMS FOR FAMILIES AND CHILDREN AND FOR AGED, BLIND OR DISABLED INDIVIDUALS: TITLES I, IV (PARTS A AND B), X, XIV, AND XVI OF THE SOCIAL SECURITY ACT

Postponement of Effective Date

Revised regulations for the social services programs under the public assistance titles of the Social Security Act were published on May 1, 1973 (38 FR 10782) with an effective date of July 1, 1973. An additional amendment clarifying several provisions was published on June 1, 1973 (38 FR 14375).

The effective date of the regulations, however, has been postponed until November 1, 1973, by the Social Security Amendments in P.L. 93–66, signed by the President on July 9, 1973. Accordingly, the regulations in Parts 220, 222, and 226 of this title as previously published remain in effect from July 1, 1973 until November 1, 1973.

In addition, recent statutory amendments affecting the social service programs have been enacted. Therefore, relevant sections of the following acts must be applied in implementing Parts 220, 222, and 226 of this title as previously published:

(1) Social Security Amendments of 1972 (Public Law 92–603)

(2) Revenue Sharing Act (P.L. 92–512)

(3) Extension of Renegotiation Act (P.L. 93–66)

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

Dated: July 20, 1973.

JAMES S. DWIGHT, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: July 20, 1973.

FRANK CARLUCCI,
Acting Secretary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19530]

PART 1—PRACTICE AND PROCEDURE

PART 73—RADIO BROADCAST SERVICES

International Broadcasting Stations; Correction

In the matter of Amendment of § 1.574 and Part 73, Subpart F, of the Commission's rules and regulations relating to International Broadcasting Stations.

1. A Report and Order (FCC 73–735) in the above-captioned proceeding was released July 11, 1973, and published in the FEDERAL REGISTER July 16, 1973 (38 FR 18886). The rule amendments adopted in that document appeared in the Appendix thereto.

2. In that Appendix, the introductory language preceding the amendment of § 1.574 stated:

"Paragraph (a) of § 1.574 is amended to read as follows:".

Although it was intended to delete the note at the end of § 1.574, through inadvertence the introductory language did not mention this. Accordingly, the introductory language is corrected to read as follows:

"Section 1.574 is amended by deleting the note following paragraph (c) and by changing the language of paragraph (a) to read as follows:".

3. The Appendix deleted § 73.752 concerning the subject of frequency control. It also added § 73.756(c) as a new rule governing that subject. For this reason, § 73.767, which makes reference to § 73.752, should have been amended to make reference to § 73.756(c) in lieu of § 73.752. Through inadvertence this was not done. Accordingly, § 73.767 is amended to read as follows:

§ 73.767 Frequency tolerance.

The operating frequencies of international broadcast station transmitters shall, at all times, be maintained within

V38-142 JUL 25 73 XUM

the frequency tolerances specified in § 73.756(c).

Released: July 19, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Cabeza Prieta Game Range, Ariz.

The following special regulation is issued and is effective on July 25, 1973.

ARIZONA

CABEZA PRIETA GAME RANGE

Public hunting of bighorn sheep on the Cabeza Prieta Game Range, Arizona is permitted only on the area designated by signs as open to hunting. The bighorn sheep season is from December 1 through December 16, 1973, inclusive. The open bighorn sheep area, comprising 860,000 acres, is delineated on a map available at the game range headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of bighorn sheep subject to the following special conditions:

(1) Bighorn sheep limited to 4 permits issued by the Arizona Game and Fish Department.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 16, 1973.

GERALD E. DUNCAN,
Acting Refuge Manager, Cabeza Prieta Game Range, Yuma, Arizona.

JULY 5,1973.

[FR Doc.73-15251 Filed 7-24-73;8:45 am]

PART 32—HUNTING

Havasu National Wildlife Refuge, Ariz.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARIZONA

HAVASU NATIONAL WILDLIFE REFUGE

Public hunting of bighorn sheep on the Havasu National Wildlife Refuge, Arizona is permitted from December 1 through December 16, 1973, inclusive, but only in the Arizona portion designated as open to hunting. This open area, comprising 18,600 acres, is delineated on maps available at refuge headquarters, Needles, California, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of bighorn sheep.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 16, 1973.

ROBERT A. KARGES,
Refuge Manager, Havasu National Wildlife Refuge, Needles, California.

JUNE 28, 1973.

[FR Doc.73-15254 Filed 7-24-73;8:45 am]

PART 32—HUNTING

Kofa Game Range, Ariz.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARIZONA

KOFA GAME RANGE

Public hunting of bighorn sheep and deer on the Kofa Game Range is permitted except in those areas designated by signs as closed to hunting. The bighorn sheep season extends from December 1 through December 16, 1973, inclusive. The deer season extends from September 1 through September 23, 1973, inclusive, and from October 26 through November 12, 1973, inclusive. The open bighorn sheep and deer hunting area, comprising 660,000 acres, is delineated on maps available at refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103.

Hunting shall be in accordance with all applicable state regulations covering the hunting of bighorn sheep and deer subject to the following special conditions:

(a) Bighorn sheep limited to ten (10) permits issued by the Arizona Game and Fish Department.

(b) Bighorn sheep hunters may hunt only in those areas designated on their permits.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 16, 1973.

GERALD E. DUNCAN,
Acting Refuge Manager, Kofa Game Range, Yuma, Arizona.

JULY 5, 1973.

[FR Doc.73-15253 Filed 7-24-73;8:45 am]

PART 32—HUNTING

Kofa Game Range, Ariz.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ARIZONA

KOFA GAME RANGE

The public hunting of quail, rabbits, coyotes, gray fox, bobcat and skunks on the Kofa Game Range is permitted except in those areas designated by signs as closed to hunting. The open area, comprising 660,000 acres, is delineated on maps available at the refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of quail, rabbits, coyotes, gray fox, bobcat and skunks subject to the following special conditions:

(a) The open season for hunting quail, rabbits, coyotes, gray fox, bobcats and skunks on the refuge extends from October 1 through November 30, 1973, inclusive.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 30, 1973.

GERALD E. DUNCAN,
Acting Refuge Manager, Kofa Game Range, Yuma, Arizona.

JULY 5, 1973.

[FR Doc.73-15256 Filed 7-24-73;8:45 am]

PART 32—HUNTING

Havasu National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

HAVASU NATIONAL WILDLIFE REFUGE

Public hunting of quail, cottontail, and jackrabbits on the Havasu National Wildlife Refuge, Arizona and California is permitted only on the area designated by signs as open to hunting. This open area, comprising 29,150 acres, is delineated on maps available at refuge headquarters, Needles, California and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, New Mexico 87103. Hunting seasons are as follows: Arizona—Quail, October 1, 1973 through January 31, 1974, inclusive; cottontail and jackrabbits, September 1, 1973 through January 31, 1974, inclusive.

California—Quail, October 31, 1973 through January 31, 1974, inclusive; cottontail and jackrabbits, September 1, 1973 through January 31, 1974, inclusive. Hunting shall be in accordance with all applicable State regulations governing the hunting of quail, cottontail and jackrabbits subject to the following special conditions:

(1) Hunting is prohibited within one-fourth mile of any occupied dwelling or concession operation.

(2) Weapons—Shotgun only, not larger than 10 gauge and incapable of holding more than three shells.

(3) Shooting hours—one-half hour before sunrise to sunset.

The provisions of this special regulation supplement the regulations which govern hunting of wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32 and are effective through January 31, 1974.

JUNE 28, 1973.

ROBERT A. KARGES,
Refuge Manager, Havasu National Wildlife Refuge, Needles, California.

PART 32—HUNTING

Imperial National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

IMPERIAL NATIONAL WILDLIFE REFUGE

Public hunting of quail, cottontail and jack rabbits on the Imperial National Wildlife Refuge is permitted except in the area designated by signs as closed to hunting. This open area, comprising 16,500 acres, is delineated on maps available at refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting seasons are as follows: Arizona—quail, October 1, 1973, through January 31, 1974, inclusive; cottontail and jack rabbits, October 1, 1973 through January 31, 1974, inclusive. California—quail, October 27, 1973 through January 31, 1974, inclusive. Cottontail and jack rabbits, October 1, 1973 through January 31, 1974, inclusive.

Hunting shall be in accordance with all applicable Federal and State Regulations covering the hunting of quail and rabbits subject to the following special conditions:

(a) Quail and rabbits may be taken with shotguns only. Possession of .22 caliber rimfire firearms is prohibited.

(b) A maximum of two (2) dogs per hunter may be used while engaged in hunting so long as these animals are kept under strict control.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1974.

GERALD E. DUNCAN,
Acting Refuge Manager, Imperial National Wildlife Refuge, Yuma, Arizona.

JULY 5, 1973.

[FR Doc.73-15250 Filed 7-24-73;8:45 am]

PART 32—HUNTING

Imperial National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective on July 25, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

IMPERIAL NATIONAL WILDLIFE REFUGE

Public hunting of deer and bighorn sheep on the Imperial National Wildlife Refuge, Arizona and California, is permitted except in the area designated by signs as closed to hunting. This open area, comprising 16,500 acres, is delineated on maps available at the refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting seasons are as follows: Arizona—deer, October 26 through November 12, 1973 inclusive; bighorn sheep, December 1 through December 16, 1973, inclusive. California—deer, October 1 through November 11, 1973 inclusive; bighorn sheep, no open season in California.

Hunting shall be in accordance with all applicable Federal and State Regulations covering the hunting of deer and bighorn sheep subject to the following special conditions:

(a) Except as provided under the special regulations covering the hunting of small game, doves and migratory waterfowl on the Imperial National Wildlife Refuge, possession of any firearm other than a legal deer hunting firearm as defined by State hunting regulations is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 16, 1973.

GERALD E. DUNCAN,
Acting Refuge Manager, Imperial National Wildlife Refuge, Yuma, Arizona.

V 38-142 JUL 25 73 XUM

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 4110]

ADVISORY BOARDS AND LOCAL ASSOCIATIONS

National Advisory Board Council

The purpose of this amendment is to restructure the membership of the National Advisory Board Council to more fully represent the public interest in the multiple uses of the lands under the administrative jurisdiction of the Bureau of Land Management.

Historically a livestock and wildlife board, the Council was expanded in 1962 to include representatives of other interest groups. The Council is composed of 42 members including: one cattle and horse representative and one sheep and goat representative from each of the 10 State Advisory Boards; the wildlife representative from each State Advisory Board; not to exceed 10 nonlivestock and nonwildlife representatives selected by the Secretary or his delegate from State Boards or other sources; one member from Alaska and one member from Washington selected by the Secretary or his delegate.

This amendment would reduce membership on the Council to 36 and include: 1 livestock representative from each of the 10 State Advisory Boards representing all classes of livestock; 1 wildlife representative from each of the 10 State Advisory Boards serving in alternate years; 1 wildlife representative elected by the Alaska Board; 20 other members to be selected by the Secretary or his delegate as follows: 1 at large for Alaska, 1 at large for Washington; 2 representing the mining industry, 2 representing forestry, 2 representing oil and gas and other leasable minerals, 3 representing outdoor recreation, 2 representing urban-suburban, including real estate; 2 representing environmental quality; 1 representing public information; 1 representing county government; 1 representing State government; 1 representing soil and water conservation and 1 representing public utilities.

The proposed amendment reduces and reorganizes membership on the National Advisory Board Council and does not by itself change authorities or procedures which have an impact on the environment. It is therefore determined that the publication of this proposed rulemaking is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

In accordance with the Department's policy on public participation in rulemaking (36 FR 8336) interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until August 20, 1973.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Public Affairs, Bureau of Land Management, Room 5643, Interior Bldg., Washington, D.C., during regular business hours (7:45 a.m.-4:15 p.m.).

Subpart 4114 of Part 4110 of Chapter II is amended as follows:

Section 4114.3 is revised to read as follows:

§ 4114.3 National Advisory Board Council.

§ 4114.3–1 Function and duties.

The National Advisory Board Council shall consider and make recommendations on policies and problems of a national scope related to all resources and uses of the National resource lands.

§ 4114.3–2 Membership.

(a) The livestock members of each State Advisory Board shall select from its members, at a meeting of each new term, one member to represent livestock on the National Advisory Board Council. The elected wildlife member on each State Advisory Board will serve on the National Advisory Board Council representing wildlife interests as follows: (1) In odd numbered calendar years, members from Arizona, Colorado, Idaho, Montana, California, and Alaska; (2) in even numbered years, members from New Mexico, Utah, Wyoming, Oregon, Nevada, and Alaska. The State Directors of each of the 10 Western States having grazing districts created under section 1 of the Taylor Grazing Act (43 U.S.C. 315) shall submit a list of nominees selected from nonlivestock and nonwildlife interests in their States. From this list and from other sources as he may determine, the Secretary of the Interior or his authorized representative shall appoint 20 members to the National Advisory Board Council as follows: 1 representative from the State of Washington, 1 representative from the State of Alaska, 2 mining representatives, 2 forestry representatives, 2 leasable mineral representatives, 3 outdoor recreation representatives, 2 urban-suburban representatives (including real estate development), 1 environmental quality representative, 1 public information representative, 2 country government representatives, 1 State government representative, 1 soil and water conservation representative, and 1 public utilities representative.

§ 4114.3–3 Meetings.

The Council shall meet at the call of the Secretary of the Interior or his authorized representative and shall elect its own officers. Committees of the Council shall meet at the call of the Director, Bureau of Land Management, or his authorized representative. The Federal representative at all meetings shall be the Director, Bureau of Land Management or his authorized representative.

§ 4114.3–4 Administrative Support.

Administrative support of the Council shall be the responsibility of the Director, Bureau of Land Management.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 16, 1973.

[FR Doc.73-15224 Filed 7-24-73;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 967]

CELERY GROWN IN FLORIDA

Proposed Handling Limitation

The following proposed regulation would establish the quantity of Florida celery to be marketed fresh during the 1973–74 season, with the objective of assuring adequate supplies and orderly markets.

Notice is hereby given that the Secretary of Agriculture is considering the issuance of a handling regulation, hereinafter set forth, designed to promote orderly marketing of celery grown in Florida. The proposal was discussed at a public meeting June 5, 1973, in Orlando, after being unanimously recommended by the Florida Celery Committee. This committee was established pursuant to Marketing Agreement No. 149 and Order No. 967, both as amended (7 CFR Part 967). This program regulates the handling of celery grown in Florida and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

It is proposed that the Florida celery industry market 8,796,555 crates of fresh celery during the 1973–74 season. This committee recommendation reflects its appraisal of prospective supply and market conditions for the 1973–74 season.

During recent years, annual celery production from the acreage planted in Florida and California without adverse weather that reduced output would have exceeded the capacity of the U.S., Canadian, and export market. Florida's fresh market celery sales during the 1972–73 season were approximately 7.6 million crates. An estimated 700 acres were abandoned for economic or other reasons. Fresh sales totaled about 7 million crates in 1971–72.

The recommended 1973–74 Marketable Quantity is record large, and will provide ample opportunity for the industry to market the maximum number of crates at reasonable prices to consumers. However, since the proposed quantity of celery to be marketed is well above that shipped in any prior season, the industry may have to significantly increase its efforts to stimulate consumption and attain a reasonable return to growers for their labor and investment.

Although the recommended Marketable Quantity is the largest ever proposed under the program, it still is nearly a half million crates smaller than the total Base Quantities of present producers. Further, if demand should fall to increase, present Base Quantity holders could be adversely affected economically. Therefore, in accordance with § 967.37(d)(1), no reserve is established for additional Base Quantities.

On the basis of the foregoing considerations, as well as industrywide trends in the production and sales of celery, it is believed that these regulations are necessary to maintain orderly marketing and will tend to effectuate the declared policy of the act.

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same, in four copies, with the Hearing Clerk, Room 112–A, U. S. Department of Agriculture, Washington, D.C. 20250, not later than August 9, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 967.309 Marketable quantity; Uniform percentage; and limitation on handling.

(a) The Marketable Quantity for the 1973–74 season is established, pursuant to § 967.36(a), as 8,796,555 crates.

(b) As provided in § 967.38(a), the Uniform Percentage for the 1973–74 season is determined as 95 percent.

(c) During the season August 1, 1973, through July 31, 1974, no handler may handle, as provided in § 967.36(b)(1), any harvested celery unless it is within the Marketable Allotment for the producer of such celery.

(d) No reserve for Base Quantities for the 1973–74 season is established.

(e) Terms used herein shall have the same meaning as when used in the said marketing agreement and order.

Dated: July 20, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 1065]

[Docket No. AO 86-A29]

MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

Notice of Extension of Time for Filing Exceptions to the Recommended Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Nebraska-Western Iowa marketing area which was issued July 2, 1973 (38 FR 18035) is hereby extended to September 7, 1973.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on: July 19, 1973.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19773]

BROADCASTS OF SPORTS EVENTS

Notice of Inquiry; Order Extending Time for Filing Comments in Notice of Inquiry

In the matter of practices of licensees and networks in connection with broadcasts of sports events.

1. On June 12, 1973, the Commission adopted a notice of inquiry in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on June 29, 1973, 38 FR 17270. The comment date is presently designated as July 30, 1973.

2. Columbia Broadcasting System, Inc. (CBS), the National Hockey League, and the Commissioner of Baseball, by counsel, have separately filed requests for an extension of time to and including (Saturday) September 15, 1973, for the filing of comments. CBS states that the additional time is needed because of the extent of the inquiry and because of the amount of material required to be examined during summer months when persons most knowledgeable on the subject of the inquiry are not fully available. The National Hockey League states it must analyze its own practices and assess and analyze the practices of each of its constituent members. The Commissioner of Baseball states it wants to complete a survey and analysis of factual material which is being submitted to the Commissioner's office from various Clubs.

3. Although we do not wish to delay this proceeding unduly, we nonetheless wish to have the benefit of meaningful data from parties able to shed light on the subject of this inquiry. Accordingly, *it is ordered*, That the date for filing comments is extended to and including (Monday) September 17, 1973.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and Section 0.281(d)(8) of the Commission's rules.

Adopted: July 19, 1973.

Released: July 19, 1973.

[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

DEPARTMENT OF STATE

STUDY GROUP 1 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Notice of Meeting

The Department of State announces a scheduled meeting of the United States Study Group on U.S. Government Regulatory Problems concerned with preparation for meetings of Study Groups of the International Telegraph and Telephone Consultative Committee of the International Telecommunication Union. The meeting will take place on Thursday, August 2, 1973 at 9 a.m. in Room 502 of the Federal Communications Commission, 1919 M Street, N.W., Washington, D.C.

The agenda will include plans for the development of U.S. Contributions on questions assigned for study during the 1973–1976 study period to CCITT Study Group III, "General tariff principles; lease of telecommunication circuits," and the development of U.S. positions on questions where it is decided not to submit U.S. Contributions.

Members of the general public who desire to attend the meeting on August 2 will be admitted up to the limit of the capacity of the meeting room.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

Dated: July 20, 1973.

ASSISTANT COMMISSIONER, OFFICE OF ADMINISTRATION

Delegation of Authority To Waive Claims for Erroneous Payments of Pay and Allowances to Employees

JULY 18, 1973.

1. By virtue of the authority vested in me as Commissioner of Customs by Treasury Department Order No. 214 (Revision 1), dated April 17, 1969, (34 FR 6864), I hereby delegate to the Assistant Commissioner, Office of Administration, insofar as employees in the Bureau of Customs headquarters are concerned, and to Regional Commissioners of Customs, insofar as employees in their regions are concerned, the authority of the Secretary of the Treasury under 5 U.S.C. 5584, and the regulations of the Comptroller General in 4 CFR Parts 91–93, 37 FR 26095, December 8, 1972, to waive in whole or in part erroneous payments of pay and allowances to Treasury employees aggregating not more than $500, in conformity with the limitations and standards set forth in the aforesaid provision of law and regulations.

2. Customs Delegation Order No. 34 (T.D. 69–121, 34 FR 7710) is hereby rescinded.

3. This order shall take effect on July 25, 1973.

ENTRY OF CERTAIN PETROLEUM AND PETROLEUM PRODUCTS

Notice of Stipulation Required on Customs Bonds Covering the Entry of Certain Petroleum and Petroleum Products Into a Customs Bonded Warehouse

JULY 18, 1973.

Section 16, Presidential Proclamation No. 4210, dated April 18, 1973, and published in the FEDERAL REGISTER April 19, 1973 (38 FR 9645) suspended the duty upon imports of petroleum and petroleum and petroleum products listed in schedule 4, part 10, Tariff Schedules of the United States, effective May 1, 1973.

The proclamation also empowers the Department of the Interior to grant licenses for the importation of petroleum and petroleum products upon the submission of an application for a license accompanied by a license fee.

Heretofore, petroleum and petroleum products admissible into a warehouse were dutiable and bond was taken in an amount equal to the aggregate sum of double the estimated amount of ordinary Customs duty on the merchandise. Since these products are no longer dutiable, warehouse entry bonds, Customs Form 7555, covering petroleum and petroleum products entered under the provisions of Presidential Proclamation No. 4210 shall be taken in an amount equal to double the estimated amount of license fees that would have been payable for a license to enter the merchandise.

Notice is hereby given that the following stipulation shall be required to be added by the principal and surety to each warehouse entry bond, Customs Form 7555, and to each proprietor's manufacturing warehouse bond, Class 6, Customs Form 3583, and general term bond for entry of merchandise, Customs Form 7595, used in connection with the entry for warehouse of petroleum and petroleum products under Presidential Proclamation No. 4210 of April 18.

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional condition shall apply:

It is hereby understood and agreed that petroleum and petroleum products covered by Presidential Proclamation No. 4210, dated April 18, 1973, will be permitted entry into Customs bonded warehouse subject to the conditions of the aforementioned bond, and that the terms "Duties, Taxes, Charges and Exactions" as used in those conditions specifically include license fees due and payable under the said proclamation and the regulations issued thereunder.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

PAPERMAKING MACHINERY AND PARTS THEREOF FROM SWEDEN

Determination of Sales At Less Than Fair Value

JULY 23, 1973.

Information was received on June 6, 1971, that papermaking machinery and parts thereof from Sweden were being, or were likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisement Notice" was published in the FEDERAL REGISTER of April 23, 1973 (38 FR 10025). That notice stated "For the purpose of this notice, the term 'papermaking machinery and parts thereof' means an entire papermaking machine and the constituent components of a papermaking machine from and including the headbox to and including the reels. It refers to papermaking machinery and parts thereof purchased or agreed to be purchased as an entire papermaking machine." Because of some confusion which has arisen with respect to the class or kind of merchandise subject to the investigation, it is considered desirable to clarify that language by explaining that it is intended to and does cover any entire papermaking machine, and any constituent component of such a machine, exported from Sweden pursuant to a contract with a Swedish manufacturer for the purchase of an entire papermaking machine.

I hereby determine that for the reasons stated below, papermaking machinery and parts thereof from Sweden are being, or are likely to be, sold at less than fair value within the meaning of section 201 (a) of the Act (19 U.S.C. 160(a)).

Statement of reasons on which this determination is based. The information before the Bureau of Customs indicates that the proper basis of comparison for fair value purposes is between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price was calculated on the basis of the delivered contract price with deductions for inland freight in the country of exportation, ocean freight, marine insurance, United States duty, inland freight in the United States, and commissions where applicable.

Home market price was calculated on the basis of the delivered contract price with deductions for transportation costs, insurance costs, and erection cost. Appropriate adjustments to this price were made for the differences in packing costs and for differences in the merchandise compared.

Using the above criteria, purchase price was found to be lower than the adjusted home market price of such or similar merchandise.

The United States Tariff Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

JULY 23, 1973.

[FR Doc.73-15420 Filed 7-24-73;9:42 am]

PAPERMAKING MACHINERY AND PARTS THEREOF FROM FINLAND

Antidumping; Determination of Sales At Not Less Than Fair Value

JULY 23, 1973.

On April 23, 1973, there was published in the FEDERAL REGISTER a "Notice of Tentative Negative Determination" (38 FR 10027), that papermaking machinery and parts thereof from Finland are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as "the Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested persons were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

After consideration of all views and arguments, I hereby determine that, for the reasons stated in the tentative determination, papermaking machinery and parts thereof from Finland are not being, nor likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 153.33(b), Customs Regulations (19 CFR 153.33(b)).

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

Forest Service

WILLAMETTE NATIONAL FOREST ADVISORY COMMITTEE

Notice of Meeting

The Willamette National Forest Advisory Committee will make a two-day field trip through the Sweet Home and Detroit Ranger Districts on August 16 and 17.

This is one of two regular semi-annual meetings of the Committee. Members will observe areas demonstrating current forest management concerns, and will have opportunity to review policies and practices relating to these concerns.

The public is welcome to the field trip, but individuals must make their own transportation and lodging arrangements. A detailed itinerary may be obtained from Zane G. Smith, Forest Supervisor, at (503) 342-5141.

ZANE G. SMITH, JR.,
Forest Supervisor.

Soil Conservation Service

SLEDGE BAYOU WATERSHED PROJECT, MISSISSIPPI

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Sledge Bayou Watershed Project, Quitman County, Mississippi, · USDA–SCS–ES–WS–(ADM)–74–2(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and drainage. Planned works of improvement include conservation land treatment measures supplemented by channel modifications on about 32 miles of existing channel.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue, S.W., Washington, D.C. 20250

Soil Conservation Service, USDA, Room 502, Milner Building, Lamar at Pearl Streets, Jackson, Mississippi 39201

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please use name and number of statement above when ordering. The estimated cost is $3.00.

Copies of the draft environmental statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to W. L. Heard, State Conservationist, Soil Conservation Service, USDA, Room 502, Milner Building, Lamar at Pearl Streets, Jackson, Mississippi 39201.

Comments must be received on or before September 24, 1973, to be considered in the preparation of the final environmental statement.

Dated: July 19, 1973.

W. B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

Maritime Administration

[Docket No. S-370]

CHESTNUT SHIPPING CO.

Notice of Application

Notice is hereby given that Chestnut Shipping Company has filed an application for operating-differential subsidy on two (2) ore/bulk/oil carriers (to be constructed) of approximately 80,500 deadweight tons each. Said vessels will operate generally from U.S. Atlantic/Gulf Coasts, Mediterranean, Middle Eastern, California and South American ports, and may be operated in other worldwide service in the carriage of liquid bulk cargoes and dry bulk cargoes not subject to the cargo preference statutes including 10 U.S.C. 2631, 46 U.S.C. 1241, and 15 U.S.C. 616a.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States or in any particular trade in the foreign commerce of the United States is inadequate, must, on or before August 3, 1973 notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Board's Rules of Practice and Procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign oceanborne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated: July 20, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

MARINE MAMMAL PROTECTION ACT

Notice of Issuance of Letter of Exemption

Notice is hereby given that, on July 3, 1973, as authorized by section 101(c) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq., 86 Stat. 1027 (1972)), and § 216.13 of the regulations governing the taking and importing of marine mammals (37 FR 28177, 28182, December 21, 1972), a Letter of Exemption from the provisions of the Act on grounds of undue economic hardship was issued to the following named Applicant authorizing him to engage in the following described activities, subject to the conditions specified in the Letter.

State of Alaska Department of Fish and Game, Subport Building, Juneau, Alaska 99801, to take the following mammals for scientific research between July 3 and October 21, 1973: 100 land breeding harbor seals (*Phoca Vitulina richardi*), 100 ice breeding harbor seals (*Phoca vitulina largha*), 10 Steller sea lions (*Eumetopias jubata*), 50 ringed seals (*Phoca hispida*), 10 bearded seals (*Erignathus barbatus*), and 10 ribbon seals (*Histriophoca fasciata*). A notice containing a summary of this application and scheduling a public hearing on it in Anchorage, Alaska on May 23, 1973, was published in the FEDERAL REGISTER on May 14, 1973 (38 FR 12676). The hearing was held as scheduled. At the hearing the Applicant withdraw from his original application a request to take 25 Beluga whales (*Delphinapterus leucas*).

Copies of the application for the exemption, of the Letter of Exemption and of all supporting documents, except documents containing information exempt from public disclosure pursuant to the Freedom of Information Act (5 U.S.C. 522(b)), are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the National Marine Fisheries Service Regional Offices. The Regional Offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213-831-9575; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640; Southeast Region, William C. Cramer Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813-893-3141; Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206-442-7575; Alaska Region, P.O. ROBERT W. SCHONING,
Director.

[FR Doc.73-15242 Filed 7-24-73;8:45 am]

MARINE MAMMAL PROTECTION ACT

Notice of Denial of Applications for Economic Hardship Exemptions

Notice is hereby given that, on July 3, 1973, the Director, National Marine Fisheries Service, determined that the applications from the following named individuals seeking exemptions from the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et. seq., 86 Stat. 1027 (1972)), on grounds of undue economic hardship should be denied.

1. Mr. Charles T. Powell, General Manager, Japanese Village, 6122 Knott Avenue, Buena Park, California 90621, to take six Atlantic bottle-nose dolphins (*Tursiops truncatus*) for public display. A notice containing a summary of this application was published in the FEDERAL REGISTER on April 23, 1973 (38 FR 10830) and, after notice in the FEDERAL REGISTER on May 16, 1973 (38 FR 12840), a public hearing was held in Terminal Island, California, on May 25, 1973. At this hearing, the Applicant reduced his request from 8 dolphins to 6 dolphins.

2. Mr. Brandy Sienbenaler, Vice President, Gulfarium, Fort Walton Beach, Florida 32548, to take four Atlantic bottle-nose dolphins (*Tursiops truncatus*) for public display. A notice of receipt of this application was published in the FEDERAL REGISTER on January 24, 1973 (38 FR 2340) and, after notice in the FEDERAL REGISTER on April 6, 1973 (38 FR 8757), a public hearing was held in Pensacola, Florida, on April 25, 1973.

Each Applicant sought the mammals as back-up mammals for existing teams of performing mammals. Gulfarium sought them for the additional purpose of enlarging its performing team. It was determined that the failure of either Applicant to obtain the additional mammals for the purposes stated would not constitute an undue economic hardship within the intent and meaning of section 101(c) of the Act. However, each Applicant was told that should he lose one or more performing mammals between July 3 and October 20, 1973, he could apply for an undue economic hardship exemption for the purpose of taking a replacement mammal or mammals; and that such application would be given prompt consideration without a hearing.

Copies of the applications for the exemptions, of the letters denying the applications, and of all supporting documents, except documents containing information exempt from public disclosure pursuant to the Freedom of Information Act (5 U.S.C. 522(b)), are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the National Marine Fisheries Service Regional Offices. The Regional Offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213-831-9575; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640; Southeast Region, William C. Cramer Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813-893-3141; Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206-442-7575; Alaska Region, P.O. Box 1668, Juneau, Alaska 99801, telephone 907-586-7221.

Dated: July 19, 1973.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

WATCHES AND WATCH MOVEMENTS

Allocation of Calendar Year 1973 Virgin Islands Duty Free Watch Quota Set Aside for New Entrants

On December 29, 1972, the Departments of the Interior and Commerce published a joint notice announcing the rules to be used by the Departments in the allocation of 1973 calendar year quotas for duty-free entry into the customs territory of the United States of watches and watch movements assembled in the Virgin Islands, Guam, and American Samoa (37 FR 28768).

Section 7 of the Departments' Joint Notice provided for setting aside 200,000 units of the 1973 Virgin Islands quota for new firms in the event that the unused 1972 quota plus any increase (or minus any decrease) in the amount of quota available for 1973, in comparison with that for 1972, equaled or exceeded 200,000 units. As the amount of unused 1972 quota plus the increase in the amount of quota available for 1973, as determined by the U.S. Tariff Commission, did exceed 200,000 units, the Departments set aside 200,000 units of the 1973 Virgin Islands quota for new firms. (The term "New Firm" was defined to mean "an entity which has not heretofore been allocated a quota under Public Law 89-805 and which is completely separate and unassociated with any present or previous quota allocatee in terms of ownership and control.) By notice published in the FEDERAL REGISTER on May 18, 1973 (38 FR 13045) interested parties were invited to apply for a new entrant Virgin Islands quota for calendar year 1973 on Form OIPF-764 in accordance with the instructions contained in that notice.

In addition to the information to be supplied on Form OIPF-764, new entrant applicants were also required to provide information regarding the applicants' experience in watch movement assembly and distribution; anticipated employment of local workers, proposed wage rates, and estimated direct labor costs; anticipated capital investment in the Virgin Islands and proposed source of financing; whether or not applicant would require exemption from territorial taxes and customs duties; estimated time required to establish watch movement assembly in the Virgin Islands, and the number of movements applicant could assemble and ship during calendar year 1973.

After careful evaluation of the information submitted by applicants responding to the Joint Notice of May 18, 1973, and in accordance with section 7 of the rules published by the Departments in the FEDERAL REGISTER on December 29, 1972 (37 FR 28768), it is the judgment of the Departments that the proposals submitted by the Clinton Watch Company, Customtime Corporation, and Micro Manufacturing Corporation offer the likelihood of the greatest contribution to the economy of the Virgin Islands; and that the following allocation of the 200,000 units of watches and watch movements set aside for new entrants

V 38-142 JUL 25 73 XUM

in the Virgin Islands will best serve the interests of the territory:

Name of Firm	Number of Units Allocated
1. Clinton Watch Company	45,000
2. Customtime Corporation	70,000
3. Micro Manufacturing Corporation	85,000

The above quota allocations are subject to satisfactory implementation by the quota recipients of all written statements of intent submitted to the Departments. Failure of a quota recipient to abide substantially and in a timely fashion with the terms and conditions in its application upon which the Departments relied in making the allocation may result in the reduction or cancellation of its quota by the Departments. The rules restricting transfers of duty-free quotas issued January 29, 1968 and published in the FEDERAL REGISTER on January 31, 1968 (33 FR 2399), are hereby incorporated by reference as applicable to new entrant quota allocations for calendar year 1973.

Recipients of a new entrant quota allocation will be required to comply with United States Customs regulations concerning those assembly operations which must be performed in the Virgin Islands in order to qualify watch movements for duty-free entry into the customs territory of the United States under General Headnote 3(a), T.S.U.S., and with the general requirements of the territorial government regarding the establishment and conduct of a business in the Virgin Islands.

Dated: July 20, 1973.

STANLEY S. CARPENTER,
Director, Office of the Territorial Affairs, Department of the Interior

SETH M. BODNER,
Deputy Assistant Secretary for Resources and Trade Assistance, Department of Commerce.

Correction

In FR Doc. 73-14061 appearing at page 18477 in the issue of Wednesday, July 11, 1973, make the following changes in the first column on page 18478:

1. In the third line under the heading "I. Coronary Vasodilators (Anti-Anginal Drugs) (Single Active Drug Entity)" after the word "oral", insert the word "form".

2. Delete "(Active Drug Entity)", and insert in lieu thereof the following:

II. PERIPHERAL VASODILATORS (SINGLE ACTIVE DRUG ENTITY)

[Docket No. FDC-D-626; NDA 6-340; DESI 6341]

METHAPYRILENE HYDROCHLORIDE FOR NASAL (TOPICAL) ADMINISTRATION

Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of April 25, 1973 (38 FR 10169), extending to Eli Lilly and Co., Box 618, Indianapolis, Indiana 46206 and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of parts of NDA 6-340 applicable to Histadyl Solution (methapyrilene hydrochloride). The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

Lilly responded, waiving opportunity for a hearing, stating that Histadyl Solution is no longer marketed.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR, 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of parts of new drug application No. 6-340 applicable to Histadyl Solution and all amendments and supplements thereto is withdrawn effective on August 6, 1973.

Shipment in interstate commerce of the above listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, will be henceforth unlawful.

Dated: July 17, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

NATIONAL CANCER INSTITUTE

Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the President's Cancer Panel, National Cancer Institute, July 26, 1973, 9:30 a.m. to 3:00 p.m., National Institutes of Health, Building 31, Conference Room 2. This meeting will be open to the public from 9:30 a.m. to 12 noon, for a report from the Director, NCI; a status report on Cancer Centers; and to discuss new DHEW policy on training. The meeting will be closed to the public from 1:30 p.m. to 3:00 p.m. for review and discussion of the proposed fiscal year 1975 budget in accordance with the provisions set forth in section 552(b) 5 of Title 5 U.S. Code and 10(d) of Public Law 92-463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496-1911) will furnish summaries of the open/closed meeting and roster of committee members.

Dr. James A. Peters, Executive Secretary, Building 31, Room 11A03, National Institutes of Health, Bethesda, Maryland 20014 (301/496-6618) will provide substantive program information.

Dated: July 19, 1973.

JOHN F. SHERMAN,
Deputy Director, NIH.

Office of the Secretary

CONSUMER ADVISORY COUNCIL

Notice of Meeting Open to the Public

Pursuant to P.L. 92-463 of October 6, 1972, notice is hereby given that there will be a public meeting of the Consumer Advisory Council to the Office of Consumer Affairs, U.S. Department of Health, Education, and Welfare, which will commence at 10 a.m. on July 25 in Room 5104, New Executive Office Building, 17th and H Streets, NW., Washington, D.C. 20506.

The Consumer Advisory Council was established under Section 5 of Executive Order #11583 issued February 24, 1971, to advise the Director of the Office of Consumer Affairs with respect to policy matters relating to consumer interests, the effectiveness of Federal programs and operations which affect the interests of consumers, problems of primary importance to consumers, and ways in which unmet consumer needs can appropriately be met through Federal Government action.

The meeting is open to the public, with the number of persons admitted subject to reasonable limitation according to space available. The agenda will include discussions on activities of the Office of Consumer Affairs, on the President's Economic Stabilization program, recent consumer activities of the Federal Trade Commission, retail price maintenance, metrication, and consumer education.

Signed at Washington, D.C., this 19th day of July, 1973.

VIRGINIA H. KNAUER,
Director, Office of Consumer Affairs and Executive Secretary, Consumer Advisory Council.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA Docket No. RST-1, Waiver Petitions Nos. 13 and 14, Notice 1]

TEXAS MEXICAN RAILWAY CO. AND DULUTH & NORTHEASTERN RAILROAD CO.

Petitions for Exemption From Track Safety Standards

The Texas Mexican Railway Co. and the Duluth & Northeastern Railroad Co. have petitioned the Federal Railroad Administration for exemption from § 213.109(e) of FRA Track Safety Standards (49 CFR 213.109(e)).

The Texas Mexican Railway Co. (Waiver Petition No. 13) seeks an exemption from § 213.109(e) to permit the use of interlaced cross ties in place of switch ties. The area for which the exemption is sought includes 23 switches in running track and 115 switches in back track. The maximum speeds for these tracks are 25 m.p.h. and 10 m.p.h. respectively. The railroad has eliminated the practice of installing interlaced ties, and will replace existing interlaced ties with standard switch ties on an "as needed" basis.

The Duluth & Northeastern Railroad Co. (Waiver Petition No. 14) also seeks an exemption from § 213.109(e) to permit the use of interlaced cross ties in place of switch ties. The area for which the exemption is sought includes 14 shop track switches. At present there is an average of less than six movements a day over these switches, and a posted bulletin restricts speeds to five miles per hour. The railroad is replacing all interlaced ties with standard switch ties under its regular replacement program. All 14 switches will have switch ties installed during the next 4 years.

Interested persons are invited to participate by submitting written data, views, or comments. Opportunity to present oral comments with respect to these petitions will be provided if requested by any interested person prior to September 1, 1973. Communications should identify the docket, waiver and notice numbers, and should be submitted to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Communications received prior to September 1, 1973 will be considered before action is taken on these petitions.

These petitions and all comments received will be available for examination by interested persons at any time during the regular business hours in Room 5100, Nassif Building, 400 Seventh Street, SW., Washington, D.C.

This notice is issued under the authority of the Federal Railroad Safety Act of 1970 (84 Stat. 971 et seq., 45 U.S.C. 421 et seq.) and § 1.49(n) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n)).

EDWARD F. CONWAY, JR.,
Assistant Chief Counsel for Safety Regulations.

National Highway Traffic Safety Administration

[Docket No. EX72-1; Notice 3]

LOTUS CARS, LTD.

Petition for Extension of Temporary Exemption

Lotus Cars, Ltd., Norwich, England, has applied for an extension until May 1, 1974 of the temporary exemption granted its Europa model from compliance with Federal Motor Vehicle Safety Standard No. 214, *Side Door Strength*.

Lotus has previously petitioned for and been granted an exemption from Standard No. 214. Notices of the petition and the grant were published respectively on December 2, 1972 (37 FR 25768) and January 11, 1973 (38 FR 1299). An exemption was granted for a 7-month period ending August 15, 1973, on the grounds that requiring compliance with Standard No. 214 would cause petitioner substantial economic hardship.

Lotus raised the possibility in its original petition, mentioned briefly in the first notice, that it might seek a further exemption for the period August 15, 1973 to May 1, 1974. Petitioner has concentrated its efforts to comply with Standard No. 214 in development of a forthcoming model which it had hoped to introduce in June 1973. Compliance with the Federal standard, according to Lotus, "necessitated the development, not only of new chemical processes in glass fibre and associated materials, but also changes to body production using an advanced form of resin injection moulding, which we stated was currently being validated for production. This validation has only just been successfully completed • • •" The planned pilot and preproduction build program will not be completed before January 1, 1974, when the new model will go into production and the Europa will begin to be phased out.

In support of its petition Lotus advances the same hardship arguments previously presented and discussed in detail in the prior notices. To summarize, the basic design of the Europa cannot be adapted to Standard No. 214 without substantial retooling, and loss of the American market, accounting for 40 percent of the company's sales thus far in 1973, would create hardship to the company and its dealers, even for the 8½ months for which the exemption is requested.

In further support of its petition, Lotus states that it has been able to reengineer the Europa to comply with the new safety requirements that will be met by 1974 model year vehicles, such as roof crush resistance (Standard No. 216), rear bumper protection (Standard No. 215), seat belt-ignition interlock (Standard No. 208) and accelerator control systems (Standard No. 124). It submits the results of tests conducted by Motor Industry Research Association confirming its compliance with Standards Nos. 215 and 216. Finally it notes that even with the requested extension, it would be exempted from Standard No. 214 only 16 months of the 36 months permissible for hardship exemptions.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Lotus Cars described above. Comments should refer to the docket number and be submitted to: Docket Room 5221, 400 Seventh Street, SW., Washington, D.C., 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. If the petition is granted, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: August 13, 1973.

Proposed effective date: Date of issuance of exemption.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159, 15 U.S.C. 1410; delegation of authority at 38 FR 12147)

Issued on July 23, 1973.

JAMES E. WILSON,
Associate Administrator, Traffic Safety Programs.

V 38-142 JUL 25 73 XUM

ATOMIC ENERGY COMMISSION

[160th ACRS Meeting]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Meeting

JULY 23, 1973.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on August 9–11, 1973, in Room 1046, at 1717 H Street, N.W., Washington, D.C.

The following constitutes those portions of the Committee's agenda for the above meeting which will be open to the public:

1) *Thursday, August 9, 1973*—10:30 am–12:30 pm—Discuss several topics common to Babcock and Wilcox Water Reactors. 2:00 pm–5:00 pm—Review of the application for an operating license for the Oconee Nuclear Station Units 2 and 3 (located in Oconee County, approximately 21 miles north of Anderson, South Carolina). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff and the Duke Power Company, and will hold discussions with these groups. 5:30 pm–8:00 pm—Review of the application for an operating license for Arkansas Nuclear One Unit 1 (located near Russellville, Arkansas). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff and the Arkansas Power and Light Company, and will hold discussions with these groups.

2) *Friday, August 10, 1973*—10:15 am–1:00 pm—Review of the application for an operating license for Three Mile Island Unit 1 (located in Londonderry Township of Dauphen County, approximately 10 miles southeast of Harrisburg, Pennsylvania). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff, the Metropolitan Edison Company, and Jersey Central Power and Light Company, and will hold discussions with these groups.

2:45 pm–5:00 pm—Review of Preliminary Site Description Report, Atlantic Generating Station Units 1 and 2 (proposed location appropriately 3 miles offshore of the Southeast coast of New Jersey, approximately 11 miles Northeast of Atlantic City, New Jersey). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff, the Public Service Electric and Gas Company of New Jersey, and will hold discussions with these groups.

It should be noted that all of the open sessions listed above will include closed portions under the authority of section 10(d) of Public Law 92–463 (the Federal Advisory Committee Act), if required, to discuss security plans for these facilities and privileged information related to fuel element design, fabrication and loss of coolant accident analysis. In addition to the agenda items noted above, the Committee will hold Executive Sessions, not open to the public, under the authority of section 10(d) of Public Law 92–463, to consider the above applications and other matters. I have determined that it is necessary to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than August 2, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such written comments shall be based on materials related to the above agenda items which materials are contained in the application for an operating license or Preliminary Site Description Report and related documents, on file, and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and as follows:

Oconee Nuclear Station, Units 2 and 3, Librarian, Oconee County Library, 201 S. Spring Street, Walhalla, South Carolina 29691.

Arkansas Nuclear One, Unit 1, Librarian, Arkansas River Valley Regional Library, Dardanelle, Arkansas 72834.

Three Mile Island Nuclear Station, Unit 1, Government Publications Section, State Library of Pennsylvania, Education Building, Box 1601, Harrisburg, Pennsylvania 17126.

Atlantic Generating Station, Wallace R. Host Community Library, North School, Lafayette and Evans Ave., Brigantine, New Jersey 08203.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 8, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301–973–5651) between 8:30 a.m. and 5:15 p.m. Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., on or after October 10, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee Management Officer.

CIVIL AERONAUTICS BOARD

[Docket No. 23287]

AIR FREIGHT FORWARDERS' CHARTERS INVESTIGATION

Notice of Postponement of Hearing

Notice is hereby given that the hearing in the above-entitled proceeding previously scheduled for September 11, 1973, in the Notice To All Parties, dated May 30, 1973, is hereby postponed indefinitely.

Dated at Washington, D.C., July 19, 1973.

[SEAL] RICHARD M. HARTSOCK,
Administrative Law Judge.

[FR Doc.73–15265 Filed 7–24–73;8:45 am]

[Docket No. 25637; Order 73–7–101]

SAN FRANCISCO & OAKLAND HELICOPTER AIRLINES, INC. ET AL.

Order To Show Cause

San Francisco & Oakland Helicopter Airlines, Inc. (SFOH)[1], Trans World Airlines, Inc. (TWA) and United Aircraft Corp. (UAC) jointly request that the Board grant such relief as it may consider appropriate, including disclaimer of jurisdiction, exemption or show cause procedure under section 408 of the Federal Aviation Act of 1958, as amended, (the Act) with respect to the reorganization and continued operation of SFOH. Applicants' request is specifically limited to the acquisition by TWA and UAC of an equity interest in SFOH.[2]

Description of the Plan. In summary, the Plan of Reorganization of SFOH which gives rise to the instant application is designed to accomplish a complete restructuring of SFOH's present debt and equity, with a view toward the continuation of its operations on a sound and manageable economic footing. Under the Plan, the rights of all present shareholders are terminated,[3] and provision is made for the issuance of new common stock, in two classes, to be issued to existing creditors in exchange for the discharge of the debt held by them. The principal and accrued interest due to SFOH's three secured creditors, Bank of America, Nishi Nippon Airlines Co., Ltd. and TWA (in part) are to be paid in full in accordance with a revised schedule of installment payments.[4] As discussed in greater detail hereinafter, $500,000 of TWA's secured claim is to be discharged by the issuance of shares of new Class A stock, and the filed and allowed claims of SFOH's unsecured creditors (including United Aircraft) and debenture holders will be paid and discharged by the issuance of Class B shares, ratably in proportion to the ratio between each creditor's claim and the total of all unsecured claims.[5]

SFOH's new securities will consist of 125,000 authorized shares of Class A Common Stock and 875,000 authorized shares of Class B Common Stock, both without par value, and both having one vote per issued and outstanding share. The Class A shares will have a preference in liquidation up to $4.00 per share, after which the holder of Class B shares will be entitled to receive up to $4.00 per share, after which both classes will participate ratably in any assets remaining in the event of liquidation, dissolution, or winding-up of the business of SFOH.

It is anticipated that TWA will receive one share of Class A stock for each $4.00 of its secured claim to be discharged, *i.e.*, 125,000 Class A shares, and that Class B stock will be issued to unsecured creditors on the basis of one share for each $5.74 of filed and allowed claim. The Plan bars the issuance of fractional shares.[6] The total number of Class A and Class B shares to be issued is limited to an amount equal to one quarter of the difference between the total adjusted going concern value of all of SFOH's assets, less the non-current portion of SFOH's long-term debt.[7]

Finally, SFOH's post-reorganization management will consist of a board of nine directors, two of whom are to be elected by the holder of Class A stock (TWA) and the balance elected by the Class B shareholders.[8] Prior to the first meeting of shareholders following consummation, an interim board, selected by the Court from among shareholder (and Trustee) nominees, will meet promptly after the date of consummation of the Plan for the purpose of electing SFOH's officers and transacting other necessary and appropriate business.

Comments. In support of the request that TWA be exempted from the provisions of section 408 of the Act, applicants refer to a previous instance where, under similar circumstances, such relief was afforded by the Board.[9] Under the 1970 refinancing arrangement, the Board authorized, subject to conditions but without a hearing, a TWA stock interest in SFOH of "as much as 16⅔ percent and thereafter possibly up to 34 percent" (Order 70–7–50, p. 3).[10] The Board found that the increased interest in SFOH acquired by TWA would be consistent with both the public interest and with the Board's prior approval of "extensive aid by TWA to SFO to augment the limited financial resources of that company," in that TWA's assistance would "stave off the consequences of SFO's present default position, and will aid in SFO's refinancing." Significantly, the Board resorted to the expeditious exemption process in authorizing TWA's increased holdings, expressly noting the length of the period required to grant approval and the adverse impact of such delay on the effectiveness of the proposed refinancing.

In view of the foregoing comparability of the present Plan with that authorized in the Board's 1970 approval, and since the underlying public interest considerations in both instances are the same, the Joint Applicants urge that the presently proposed relationship falls well within the ambit of the authority granted by Order 70–7–50. Accordingly, the Joint Applicants urge the Board to issue a ruling that the present transaction, insofar as it affects TWA–SFOH, is covered by the prior approval, and that no further authority is required. Alternatively, the Joint Applicants urge that the same considerations warrant grant of an exemption authorizing the present transaction.

With respect to the acquisition of 15.6 percent of the new SFOH stock, these two applicants submit that, even if this percentage is held to constitute control in terms of section 408(f) of the Act, the agreement[11] by UAC to relinquish its power to vote the stock negates any possibility of control over SFOH.[12]

In light of the foregoing, and based upon the agreement of UAC with respect to the voting of SFOH Class B shares, applicants contend that UAC will have acquired no "control" of SFOH under the Plan within the meaning of section 408. Accordingly, SFOH and UAC urge that the Board disclaim jurisdiction over UAC's acquisition of 15.6 percent of SFOH's outstanding capital stock pursuant to the Plan, such disclaimer to be conditioned upon, and coextensive with, the continued adherence by UAC to its undertaking not to vote its Class B shares, except in the limited matters specified.

If the Board determines not to disclaim jurisdiction over the SFOH–TWA relationship by ruling or exemption, the Joint Applicants urge that use of the Board's show cause procedures in this case will be sound as a matter of law and policy.[13]

No other comments relative to the application have been received.

The Board's Decision. Upon consideration of the application the Board concludes that SFOH is a certificated air carrier and that the acquisition of 10 percent or more of its stock by TWA, also an air carrier, and UAC, a person engaged in a phase of aeronautics raises the presumption of control over SFOH under sections 408(a) and 408(f) of the Act. With respect to TWA there is no question that its involvement in the affairs of SFOH by virtue of TWA's voting interest and election of directors

[1] By Order 73–7–89, July 18, 1973, the Board approved the company's name change, which will be reflected in subsequent orders.

[2] The overall reorganization plan has been adjudged fair and equitable by a judge of the U.S. District Court for the Northern District of California under Chapter X of the Bankruptcy Act, Case Reference No. B70–5175. Similar findings were submitted to the court by the Securities and Exchange Commission.

[3] The elimination of existing shareholder rights, including the conversion privilege attached to SFOH's existing 7¾ percent convertible debentures, rests on a determination that SFOH is insolvent, as the Court found by Order dated April 9, 1973, approving the Trustees' Plan.

[4] A separate Reimbursement Agreement between SFOH and TWA, implementing the requirement for deferred payment of the balance of TWA's secured claim, will be filed under section 412 of the Act.

[5] Under the Plan, one other category of unsecured creditor—those holding claims of $100 or less, or who have agreed to reduce their claims to $100—will also be paid in cash.

[6] Fractional debt interests in excess of the amount discharged by the issuance of whole shares will be paid and discharged in cash.

[7] On the basis of pro forma estimates for long-term debt as of June 30, 1973 and the Court's finding of a going-concern value of SFOH of $3,600,000, it is estimated that approximately 728.025 shares will be issued, consisting of 125,000 Class A shares and 603,025 Class B shares. In no event will the issued Class A shares exceed 19% of the total number of Class A and B shares to be issued.

[8] As discussed hereinafter, United Aircraft will not exercise its right to nominate or vote for the election of directors of SFOH.

[9] Order 70–7–50, July 10, 1970.

[10] The Board concluded that TWA's right to designate two SFOH directors, amounting to 20% of SFOH's board, came within the scope of the exemption from section 409 of the Act provided by Part 287 of the Economic Regulations and accordingly dismissed that portion of the joint application.

[11] The agreement provides merely for the conveyance of a proxy to SFOH's management to permit United Aircraft's shares to be recorded as "present" for purposes of a quorum, but not to be voted in any matters except corporate liquidation, dissolution, merger, consolidation, or sale of assets, as would, under California law, require approval of a specified percentage of all outstanding shares.

[12] SFOH presently owns and operates three Sikorsky S–61 helicopters. Sikorsky is a division of UAC.

[13] *Cf.* Eastern-Caribair Interim-Financial and Management Assistance Order 70–11–26, November 5, 1970, Docket 22691.

V 38-142 JUL 25 73 XUM

constitutes a substantial measure of control over SFOH. We have tentatively decided, however, consistent with our previous action in this matter, to exempt TWA from the requirements of section 408 of the Act pursuant to section 416(b) thereof [14] subject to the conditions imposed in the cited order as follows:

(a) TWA is prohibited from interfering with SFOH's right to negotiate financial, operating, or aircraft leasing agreements with other direct air carriers;

(b) TWA is prohibited from holding out to the public in any manner whatsoever, whether by advertising or by any other means, that it can or does control SFOH or that it is the operator of SFOH's services;

(c) Commercial transactions between SFOH and its affiliates, on the one hand, and TWA and its affiliates, on the other, shall not exceed $100,000 a year in the aggregate without prior Board approval, provided that interline billings for transportation at published rates shall not be subject to this limitation;

(d) The approval herein is not to be deemed a determination of the reasonableness of the terms of the agreement for rate-making purposes;

(e) SFOH shall file quarterly reports reflecting the dollar amounts of receipts from and billings to each connecting air carrier serving San Francisco;

(f) Any proposed changes in existing control relationships between TWA and SFOH other than pursuant to the provisions of the agreements, must be submitted to the Board for approval before consummation;

(g) The common carriage nature of TWA operations shall be maintained and in the operation of SFOH's services no preference shall be given to TWA (other than as provided herein) or to passengers using TWA;

(h) The Board shall retain continuing jurisdiction over the control relationships approved under section 408 in this proceeding, and may from time to time impose such additional and further conditions as it deems just and equitable;

(i) Except as provided in Agreement CAB 21775, TWA is prohibited from restricting the use of any aircraft now leased or which may be leased to SFOH;

(j) TWA is prohibited from restricting or restraining in any manner whatsoever SFOH's operations;

(k) TWA and SFOH are prohibited from publishing any advertisements of services by SFOH which display TWA's name, symbol, or insignia in any more prominent place or size of print than the name, symbol, or insignia of SFOH;

(l) TWA shall obtain prior Board approval before implementing any agreements governed by section 412 of the Act which provide for the operation of any transportation service, either by air or by surface means, between any points (as defined in section 298.2 of the Board's Economic Regulations) which SFOH is certificated to serve.

[14] Order 70-7-50, July 10, 1970.

We have also tentatively concluded that the relationship between UAC and SFOH should be approved pursuant to section 408 subject to inter-company transaction conditions.[15] One condition will require that SFOH purchase goods and services from UAC at the same price offered to other carriers. The other condition will require SFOH to report any transactions or negotiations that could lead to the modification, purchase or lease of aircraft manufactured, owned or modified by UAC, or the purchase, lease or modification of aircraft for which UAC manufactures a component part or produces subassemblies.[16] In this connection, we take note of the fact that UAC, through its Sikorsky Division, is an aircraft manufacturer, which manufacturers helicopters of the type utilized by SFOH. However, UAC has made a sincere effort to insulate its equity interest in SFOH from any involvement in the latter's affairs. We are, nevertheless, particularly considering the possibility of less than arms length future transactions between the two companies, unable to conclude that such insulation is sufficient to warrant the Board's disclaiming jurisdiction over the control relationships.

The Board has further tentatively concluded that the public interest does not require a hearing with respect to approval of the SFOH–UAC relationship. The transaction has the approval of the Federal bankruptcy court; there do not appear to be any disputed facts in issue which require a hearing for their resolution; and the measures taken by UAC to insulate its equity interest from involvement in SFOH's affairs, together with the provision for monitoring future transactions between the companies, in our view render a hearing unnecessary in the public interest. Moreover, to require SFOH to suffer the inevitable delay inherent in the hearing process would constitute a severe and unnecessary burden on SFOH which might more severely jeopardize its financial condition, and would not be in the public interest.

Therefore, consistent with similar past procedures utilized by the Board,[17] the Board has decided to direct all interested persons to show cause why the tentative findings, conclusions, and proposed exemption and approval, should not be made final, subject to the proposed conditions.

In view of the foregoing, and subject to the conditions noted above, the Board tentatively finds that enforcement of section 408 of the Act insofar as necessary to approve the acquisition of control resulting from the receipt of SFOH stock by TWA in the proposed reorganization plan would be an undue burden on TWA by reason of the unusual circumstances affecting its operations and would not be in the public interest, and accordingly that TWA should be exempted pursuant to section 416(b) from the requirements of that section. In addition, the Board tentatively finds that, subject to the inter-company transaction conditions noted above, the acquisition of control by UAC resulting from the receipt of SFOH's stock in the proposed reorganization plan will not be inconsistent with the public interest, will not result in creating a monopoly or monopolies and thereby restrain competition or jeopardize another air carrier not a party to the acquisition, and should be approved pursuant to section 408(b) of the Act.

Accordingly, It is ordered, That:

1. Interested persons are directed to show cause why the Board should not make final its tentative findings and conclusions herein, and issue an order which would:

(a) Exempt the control relationship between TWA and SFOH from section 408 of the Act pursuant to section 416(b) thereof subject to the conditions set forth above, and

(b) Approve pursuant to section 408 of the Act, the control relationship between UAC and SFOH subject to the conditions on inter-company transactions set forth above;

2. Any person disclosing a substantial interest in the matters specified in the preceding paragraph and supporting or objecting to the issuance of an order making final the Board's tentative findings and conclusions set forth herein or desiring the imposition of additional or different conclusions upon approval, shall file such comments with the Board within seven days of the date thereof; [18] and

3. This order shall be served on the applicants, the U.S. District Court for the Northern District of California (Case No. B 70–5175), the Securities and Exchange Commission and counsel for the trustees of SFOH.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73–15266 Filed 7–24–73;8:45 am]

[15] The Board will also monitor inter-company transactions between SFOH and UAC by way of SFOH's Schedule B–44 filing (Summary of Resources Exchanged with Affiliated Group Members and Other Associated Companies). See Section 23 of Part 241 of the Economic Regulations (14 C.F.R. 241).

[16] The proposed conditions will read as follows:

(a) SFOH and its affiliates and subsidiaries, shall make no purchase of goods or services from UAC; or its subsidiaries and affiliates, except at prices offered to other air carriers.

(b) SFOH shall file with the Board within ten days thereof a report of any transactions or negotiations that might lead to (a) the modification, in whole or in part, purchase, or lease of any aircraft manufactured, owned or modified by UAC, or its subsidiaries or affiliates, or (b) the purchase, lease or modification of aircraft for which UAC or its subsidiaries or affiliates manufactures a component part or produces subassemblies.

[17] *Cf.* Seaboard and Western Air Lines, Inc., Order E–15891, October 7, 1960; Eastern-Caribair, Order 70–11–26, November 5, 1970.

[18] Such comments shall comply with the requirements of the Board's Procedural Regulations, 14 CFR 302.

IRAN NATIONAL AIRLINES CORP. IRAN-NEW YORK/DETROIT/LOS ANGELES VIA INTERMEDIATE POINTS

[Docket No. 25565]

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding is assigned to be held on August 24, 1973, at 10:00 a.m. (local time) in Room 503, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before the undersigned.

For details of the issues involved in this proceeding, interested persons are referred to the Prehearing Conference Report served on July 2, 1973, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., July 19, 1973.

[SEAL] JOSEPH L. FITZMAURICE,
Administrative Law Judge.

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92–463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wesnesday, July 25, 1973, to continue discussions on the fiscal year 1974 comparability adjustment for the statutory pay systems of the Federal Government.

In accordance with the provisions of section 10(d) of the Federal Advisory Committee Act, it has been determined by the Director of the Office of Management and Budget and the Chairman of the Civil Service Commission, who serve jointly as the President's Agent for the purposes of the Federal pay comparability process, that this meeting of the Federal Employees Pay Council will not be open to the public.

For the President's Agent.

FRANK S. MELLOR,
Advisory Committee Management Officer for the President's Agent.

COST OF LIVING COUNCIL

[Special Freeze Group Order 2]

DEPUTY DIRECTOR, SPECIAL FREEZE GROUP

Delegation of Authority

Pursuant to the authority delegated to me as Deputy Director of the Cost of Living Council/Director, Special Freeze Group by Cost of Living Council Order No. 30, and in order to implement the price freeze established by Executive Order 11723 and continued by Executive Order 11730 and the regulations issued thereunder in 6 CFR 140, it is hereby ordered as follows:

1. There is delegated to the Deputy Director, Special Freeze Group, subject to the general policy guidance of and in coordination with the Director of the Cost of Living Council and the Deputy Director of the Cost of Living Council/Director, Special Freeze Group, all of the authorities delegated by the Order to the Deputy Director of the Cost of Living Council/Director, Special Freeze Group, except the following:

(a) Authority to make decisions and issue orders with respect to requests by food firms for exceptions and exemptions from regulations and orders governing price freeze matters; and

(b) Authority to make decisions and issue orders with respect to requests by food firms for reconsiderations of denials and partial approvals of requests for exceptions and exemptions.

2. The Deputy Director is authorized to redelegate any or all of the authorities set out in this Order that he deems necessary for the orderly and efficient exercise of the authority delegated to him.

3. Special Freeze Group Order No. 1 is hereby superseded.

4. This Order is effective July 18, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

ENVIRONMENTAL PROTECTION AGENCY

CHEVRON CHEMICAL CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1412) has been filed by Chevron Chemical Co., 940 Hensley Street, Richmond, CA 94804, proposing establishment of a tolerance (40 CFR Part 180) for residues of the fungicide *cis-N*-[(1,1,2,2 - tetrachloroethyl) thio] - 4 - cyclohexene - 1,2 - dicarboximide in or on the raw agricultural commodity fresh corn including sweet corn (kernels plus cob with husk removed) at 5 parts per million.

The analytical method proposed in the petition for determining residues of the fungicide is a gas chromatographic procedure using electron-capture detection.

Dated: July 20, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73–15293 Filed 7–24–73;8:45 am]

CIBA–GEIGY CORP.

Notice of Filing of Petition for Food Additives

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 3H5035) has been filed by the CIBA–GEIGY Corp., Ardsley, NY 10502, proposing establishment of a tolerance (21 CFR Part 121) of 0.5 part per million for residues of the herbicide simazine (2-chloro - 4,6 - bis(ethylamino) - *s* - triazine) and its metabolites 2-amino-4-chloro-6-ethylamino-*s*-triazine and 2,4-diamino-6-chloro-*s*-triazine in potable water from use of the herbicide in a proposed experimental program involving application to lakes.

Dated: July 20, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73–15294 Filed 7–24–73;8:45 am]

PENNWALT CORP.

Notice of Filing of Petition Regarding Pesticide Chemicals

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1416) has been filed by Pennwalt Corp., Post Office Box 1297, Tacoma, WA 98401, proposing establishment of a tolerance (40 CFR Part 180) of 0.05 part per million for negligible residues of endothall (7-oxabicyclo(2.2.1) heptane-2,3-dicarboxylic acid) in or on the raw agricultural commodity rice from use of its mono-*N,N*-dimethylalkylamine salt as an aquatic herbicide.

The analytical method proposed in the petition for determining residues of the herbicide is a procedure in which the residue is reacted with 2-chloroethylamine hydrochloride and the resulting *N*-chloroethylimide is determined by gas liquid chromatography using nitrogen specific microcoulometric detection.

Dated: July 20, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

FARM CREDIT ADMINISTRATION

[Farm Credit Administration Order No. 768]

SECRETARY OF THE GOVERNOR, LEGISLATIVE RESEARCH ASSISTANT, AND SECRETARY

Delegation of Authority

1. Helen E. McWilliams, Secretary to the Governor, D. Elizabeth Frew, Legislative Research Assistant, and Dorothy P. Smith, Secretary, severally and not jointly, are authorized and empowered:

(a) To execute and issue under the seal of the Farm Credit Administration, statements (1) authenticating copies of, or excerpts from, official records and files of the Farm Credit Administration; (2) certifying, on the basis of the records of the Farm Credit Administration, the effective periods of regulations, orders, instructions, and regulatory announcements; and (3) certifying, on the basis of the records of the Farm Credit Administration, the appointment, qualification, and continuance in office of any officer or employee of the Farm Credit Administration, or any conservator or receiver acting under the supervision or direction of the Farm Credit Administration.

(b) To sign official documents and to affix the seal of the Farm Credit Administration thereon for the purpose of attesting the signatures of officials of the Farm Credit Administration.

2. The provisions of this order shall be effective July 19, 1973, and on that date shall supersede Farm Credit Administration Order No. 754, dated April 12, 1972, 37 FR 7647.

E. A. JAENKE,
Governor,
Farm Credit Administration.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 657]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

JULY 16, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Acting Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

9935–C2–P–73 Jerry C. Shaffer (New) C. P. to operate a new 2-way station on 454.225 MHz at 106 E. Market Street, Warren, Ohio.

9936–C2–P–73 New England Telephone and Telegraph Company (KCC487) C. P. to change antenna system, operating on 35.66 MHz at 387 Washington Street, Dedham, Massachusetts.

9937–C2–P–(3)–73 Contact, Inc. (KGA807) C. P. to add transmitters at Loc. #3: WFMM–FM tower, Rolling Road, 0.23 mile North of U.S. Rt. 40 Catonsville, Maryland and Loc. #4: 8510 Old Harford Road, Baltimore, Maryland, operating on 35.22 MHz at both locations, also to change antenna system, location, power and to replace transmitter operating on 35.22 MHz at Loc. #1: Blaustein Bldg. Charles & Fayette Streets, Baltimore, Maryland.

9938–C2–P–73 Rock Hill Mobile Communications, Inc. (New) C. P. for a new 2-way station to operate on 454.225 MHz at 0.75 mile North of S.C. Hwy. 5 on S.C. Hwy. 274, approx. 6 miles NW of Rock Hill, South Carolina.

9939–C2–P–73 RCC of Virginia, Inc. (KRS634) C. P. to change antenna system, power and to replace transmitter operating on 152.21 MHz at Fairmont Avenue, Winchester, Virginia.

20014–C2–MP–74 Gulf Mobilphone (KLF518) C. P. for additional facilities to operate on 454.025 MHz at Grain Elevator on River, Pascagoula, Mississippi.

20015–C2–P–(2)–74 Gulf Mobilphone (KFL885) C. P. for additional facilities to operate on 152.15 MHz and 454.225 MHz at 130 Marcia Drive, Long Beach, Mississippi. (Loc. #2)

20016–C2–P–74 Liberty Communications (KCC485) C. P. to add a transmitter, operating on 454.05 MHz at 1 Strawberry Hill Court, Stamford, Connecticut.

20017–C2–P–74 Sigma Communications Corporation (KCC484) C. P. to change antenna location, operating on 152.18 MHz at Brich Mountain Road, .25 Mile North of Hebron Avenue, Glastonbury, Connecticut, (Loc. #2).

20018–C2–P–(2)–74 In Touch Communications, Inc. (New) C. P. for a new 2-way station to operate on 454.025 and 454.125 MHz at 3 Miles Northwest of Lake Geneva, Wisconsin.

20019–C2–P–(3)–74 Industrial Communications (KTR994) C. P. to change antenna system and frequency: 152.03 & 152.15 MHz fac. at the base station: Loc. #1: Tabby Mountain, 4.5 miles West of Babiona, Utah, also adding 459.350, repeater at Loc. #1, and additional facilities at the control location (Loc. #2) operating on 454.350 MHz at: 625 West 5th North, Vernal, Utah.

20021–C2–P–74 Ridge Telephone Company, Inc. (New) C.P. for a new 2-way station to operate on 152.69 MHz at Main at Watson Street, Ridge Spring, South Carolina.

20022–C2–AL–(2)–73 Capitol Radio Communications, Inc. Consent to Assignment of License from Capitol Radio Communications, Inc., Assignor to Rendezvous Paging Corporation, Assignee. Stations: KGC222 and KGI278 Lemoyne & York, Pennsylvania.

20023–C2–P–74 Kentucky Communications (New) C.P. for a new 2-way station, operating on 454.175 MHz at Towerview St., Taylor Mill, Kentucky.

20024–C2–P–74 General Telephone Company of Indiana, Inc. (KSA624) C.P. to change antenna system power, emission designator, replace transmitter and to correct geographic coordinates, operating on 152.75 MHz at 129 South 2nd Street, Elkhart, Indiana.

20020–C2–P–74 Robert S. Ditton (KOF918) C.P. to change control point location, operating on 454.150 454.300 & 72.22 MHz at 29 North Chelan, Wenatchee, Washington.

20026–C2–R/ML–73 Pacific Northwest Bell Telegraph Company (KIN644) Renewal of Developmental license expiring July 14, 1973. TERM: July 14, 1973 to July 14, 1974.

20027–C2–R–73 Southern Bell Telephone and Telgraph Company (KIN644) Renewal of License expiring 8–1–73. TERM: 8–1–73 to 8–1–74. (Developmental)

20028–C2–R–73 Mountain States Telephone and Telegraph Company (KAR68) Renewal of License expiring June 1, 1973. TERM: June 1, 1973 to June 1, 1974.

3193–C2–P–73 E & J Mobile Radio Service (New) RESUBMITTED, a C.P. for a new facility to operate 454.025 MHz at State Route 41 3.2 Miles South of South Solon, Ohio.

8854–C2–P–72 Boylan & Cannon Electronics, Inc. (New) RESUBMITTED, a C.P. for a new station to operate on 454.025 MHz at 135 North Fayette St., Washington Court House, Fayette, Ohio.

Renewals of Licenses expiring July 1, 1973. TERM: July 1, 1973 to July 1, 1978.

9934–C1–P–73 Same (WKR94) 3.5 Miles NW of Sparta, Wisconsin. Lat. 43 58 29 N.—Long. 90 51 53 W. C.P. to add freq. 6375.2H MHz toward LaCrescent (WHLA–TV), Minn., on azimuth 245° 20′.

MAJOR AMENDMENTS

4879–C1–P–66 Eastern Microwave, Inc. (KEM59) Sentinel Heights, New York (Lat. 42 56 40 N.—Long. 76 07 06 W.): Application amended (a) to relocate Liverpool, New York, receive site to Lat. 43 05 38 North—Long. 76 11 48 West and (b) to change azimuth toward Liverpool to 339 degrees/07 minutes.

6370–C1–P–65 Eastern Microwave, Inc. (KEM 58) Helderberg Mountain, 1.75 Miles NW of New Salem, New York (Lat. 42 38 12 N.—Long. 73 59 45 W.): Application amended (a) to relocate Troy, New York, receive site to Lat. 42 45 14 North—Long. 73 40 07 West and (b) to change frequencies to 6182.4H MHz, 6241.7H MHz, and 6301.0H MHz toward Troy on new azimuth 67 degrees/26 minutes; and (c) to replace transmitters.

1077–C1–P–72 East Texas Transmission Co. (KLH75) Tyler, Texas (Lat. 32 21 13 N.—Long. 95 19 11 W.): Application amended to change frequencies to 5937.5H MHz, 6037.5H MHz, and 6137.5H MHz toward Goodman Mountain, Texas, on azimuth 78 degrees/27 minutes.

1078–C1–P–72 Same (New) Goodman Mountain, Texas (Lat. 32 24 39 N.—Long. 94 59 16 W.): Application amended (a) to add frequencies 6226.9V MHz, 6286.2V MHz, and 6345.5V MHz toward new point of communication at Gladewater (Lat. 32 32 46 N.—Long. 94 56 28 W.), Texas, on azimuth 16 degrees/17 minutes and (b) to change azimuth toward Walker's Mill, Texas, to 67 degrees/42 minutes.

1079–C1–P–72 Same (New) 1.8 Miles South of Walker's Mill, Texas (Lat. 32 33 37 N.—Long. 94 33 20 W.): Application amended (a) to relocate station to foregoing coordinates and (b) to change azimuth toward Marshall, Texas, to 97 degrees/03 minutes.

1854–C1–P–70 United Video, Inc. (New) 12.0 Miles NW of Ada, Oklahoma (Lat. 34 54 16 N.—Long. 96 44 32 W.): Application amended to relocate station to foregoing coordinates.

2958–C1–P–73 Same (New) 1.0 Mile North of Scullin, Oklahoma (Lat. 34 32 09 N.—Long. 96 51 40 W.): Application amended to change azimuth toward Ada, Oklahoma, to 14 degrees/53 minutes.

6395–C1–P–73 Eastern Microwave, Inc. (KCL72) Mt. Greylock, 2.0 Miles NW of Adams, Massachusetts (Lat. 42 38 11 N.—Long. 73 10 04 W.): Application amended to change equipment and to increase output power to 1.0 watt.

8255–C1–P–73 American Television & Communications Corp. (KOC70) 1.0 Mile NE of Elbow Lake, Minnesota (Lat. 46 00 20 N.—Long. 95 57 35 W.): Application amended to change frequency to 11365V MHz toward Erhard, Minnesota, on azimuth 350 degrees/35 minutes.

CORRECTIONS:

9059–C1–P–73 United Video, Inc. (New) CORRECT azimuth to Read 150°33′. (All other particulars remain same as reported in Public Notice No. 653, dated 6–18–73.)

CORRECTION: (MAJOR AMENDMENTS)

5568–C1–P–72 United Video, Inc. (new) CORRECT to Read: Application amended to add freq. 5974.8V MHz toward Barnetts, Va. on azimuth 130°07′. (All other particulars same as reported on Public Notice dated 2–3–73.)

CABLE TELEVISION FEDERAL/STATE-LOCAL ADVISORY COMMITTEE STEERING COMMITTEE

Notice of Meeting

JULY 18, 1973.

The Steering Committee of the Cable Television Federal/State-Local Advisory Committee will hold open meetings on July 30 and 31, 1973, at 9:30 a.m. The meetings will be held in Room 6331 of the Cable Television Bureau offices located at 2025 M Street, N.W., Washington, D.C.

The agenda for the meetings will be a discussion on the following subjects:

Issue #4—Jurisdiction for Technical Performance Standards

Issue #6—Jurisdiction for Cross-Ownership Requirements

Issue #12—Construction and System Extension and Part II of the Report.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73–15259 Filed 7–24–73;8:45 am]

STANDARD BROADCAST APPLICATIONS

Applications Ready and Available for Licensing

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on August 30, 1973, the standard broadcast applications listed in the attached appendix will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and § 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on August 29, 1973, which involves a conflict necessitating a hearing with an application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on August 29, 1973.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted: July 19, 1973.

Released: July 19, 1973.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

GENERAL SERVICES ADMINISTRATION

[(Wildlife Order 107); D-Virginia-627]

U.S. ARMY MATERIAL COMMAND; WOODBRIDGE RESEARCH FACILITY

Transfer of Property

Pursuant to section 2 of Public Law 537, Eightieth Congress, approved May 15, 1948 (16 U.S.C. 667c), notice is hereby given that:

1. By letter from the General Services Administration, Washington, D.C., Regional Office, dated June 29, 1973, the property comprising approximately 63 acres of unimproved land, identified as Portion—U.S. Army Material Command, Woodbridge Research Facility, Woodbridge, Virginia, has been transferred to the Department of the Interior.

2. The above property was transferred to the Department of the Interior for wildlife conservation purposes in accordance with the provisions of Section 1 of the said Public Law 537 (16 U.S.C. 667b), as amended, by Public Law 92–432.

Dated July 17, 1973.

LARRY F. ROUSH,
Acting Commissioner, Public Buildings Service.

FEDERAL POWER COMMISSION

[Docket No. G–3113, etc.]

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Findings and Order After Statutory Hearing

JULY 12, 1973.

Each Applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, add or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein.

After due notice by publication in the FEDERAL REGISTER, a notice of intervention was filed and withdrawn by the Public Utilities Commission of the State of California in Docket No. CI73–175. No further notices of intervention, protests to the granting of the applications and petitions to amend, or petitions to intervene have been filed.

At a hearing held on July 5, 1973, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds.

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements

V38-142 JUL 25 73 XUM

of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that certain successors in interest, who are herein authorized to continue sales of natural gas in interstate commerce, should be made co-respondents in their predecessors' rate proceedings.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates, for sales authorized herein to be continued under new or amended certificates, should be amended by deleting therefrom authorization to sell gas.

(9) Section 154.93 of the regulations under the Natural Gas Act should be waived to the extent necessary to permit the acceptance for filing of the rate schedules for the sales authorized in Docket Nos. CI73–46 and CI73–175 with contractual provisions for the possible sales of the Federal Government's royalty shares of the gas at prices in excess of the otherwise applicable rates and with contractual provisions to increase rates to higher area rates found to be proper by hearing, rulemaking, or Commission approved settlement.

(10) Section 157.93 of the regulations under the Natural Gas Act should be waived to the extent necessary to permit the acceptance for filing of the rate schedule for the sale authorized in Docket No. CI73–419 with the contractual provision for the possible sale of the Federal Government's royalty share of the gas at prices in excess of the otherwise applicable rates.

(11) The presently effective rates, subject to refund in Docket No. RI71–736, proposed to be charged and collected by Applicant in Docket No. RI71–736, do not exceed the applicable area rate.

The Commission orders.

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of the service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in various dockets are amended by adding thereto or deleting therefrom authorization to sell natural gas or by substituting successors in interest as certificate holders as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) Within 90 days from the date of initial delivery, Applicants in Docket Nos. G–10523, G–13299, CI67–1519, CI71–489, CI73–65, CI73–73, CI73–126, CI73–172, CI73–225, CI73–226, CI73–250, CI73–261, CI73–263, CI73–269, CI73–311, CI73–324, CI73–325, CI73–326, CI73–360, CI73–370, CI73–371, CI73–380, CI73–386, CI73–390, CI73–397, CI73–399, CI73–466, and CI73–473 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion Nos. 468–A, 586, 595, 598, and 607, as applicable.

(F) The certificates and certificate authorization granted in Docket Nos. G–10523, G–13299, CI67–1519, CI71–489, CI73–65, CI73–73, CI73–126, CI73–172, CI73–225, CI73–226, CI73–250, CI73–261, CI73–263, CI73–269, CI73–311, CI73–324, CI73–325, CI73–326, CI73–360, CI73–370, CI73–371, CI73–380, CI73–386, CI73–390, CI73–397, CI73–399, CI73–466, and CI73–473 are subject to the Commission's findings and orders accompanying Opinion Nos. 468, 468–A, 586, 586–A, 595, 595–A, 598, 598–A, 607, and 607–A, as applicable. If the quality of the gas deviates at any time from the quality standards set forth in the Regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant to Section 4 of the Natural Gas Act; provided, however, that adjustments reflecting changes in Btu content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(G) Applicants in the dockets indicated shall charge and collect the following rates, subject to Btu adjustment where applicable:

Docket No.	Rate (cents per Mcf)	Pressure base (psia)
CI67–1519	[1] 21.625	15.025
	[2] 21.724	15.025
	[3] 22.125	15.025
CI73–46	24.0	15.025
CI73–126	26.0	15.025
CI73–172	[4] 17.03	14.65
CI73–175	24.0	15.025
CI73–311	26.0	15.025
CI73–326	24.25	15.025
CI73–344	32.0	15.025
CI73–360	23.25	15.025
CI73–386	[5] 17.815	14.65
	[6] 18.082	14.65
CI73–406	22.75	15.025
CI73–419	23.75	15.025
CI73–461	22.75	15.025

[1] From June 1, 1972, to July 31, 1972.
[2] From August 1, 1972, to August 31, 1972.
[3] On or after September 1, 1972.
[4] Includes Btu adjustment.
[5] From June 2, 1969, to May 1, 1971.
[6] After May 1, 1971.

(H) Applicants in Docket Nos. CI73–327, CI73–344, CI73–406, and CI73–461 shall comply with Section 2.71 of the Commission's General Policy and Interpretations with respect to the transportation of liquids and liquefiable hydrocarbons.

(I) Docket Nos. CI73–267 and CI73–279, are cancelled.

(J) The rate schedules and rate schedule supplements related to the authorizations granted herein are accepted for filing or are redesignated, all as set forth in the tabulation herein. Where the effective date is the date of initial delivery, Applicant shall advise the Commission of said date within 10 days thereof.

(K) Applicants in the following dockets are made correspondents in their predecessors' rate proceedings and said proceedings are redesignated accordingly:

Successor's Certificate Docket No.	*Rate Proceeding Docket No.*
G–17445	RI69–374
CI73–475	RI70–869

Applicants shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(L) Orders issuing certificates in the following dockets are amended by deleting therefrom authorization to sell gas where said sales are authorized to be continued under new or amended certificates herein:

New Certificate Authorization Docket No.	*Amended Certificate Docket No.*
G–10523	G–10047, G–10131 and G–10370
G–16870	G–16548
CI66–96	CI69–6
CI73–172	CI65–1314
CI73–250	G–18435
CI73–261	CI68–205
CI73–263	CI70–717
CI73–269	G–18726
CI73–324	CI60–328
CI73–360	G–8493
CI73–362	CI70–295
CI73–386	CI64–1487
CI73–397	CI65–661
CI73–399	CI66–942
CI73–473	G–6022
CI73–474	G–6780
CI73–475	G–3113

(M) The acceptance for filing of the rate schedules for the sales authorized in Docket Nos. CI73–46 and CI73–175 should not be construed as meaning that any rate increase based upon the provisions for the sales of the Federal Government's royalty shares of the gas at prices in excess of the otherwise applicable rate would be accepted for filing without suspension.

(N) The certificates issued in Docket Nos. CI73–327, CI73–344, CI73–370, and CI73–371 determine the rates which the sellers may charge the buyers but are without prejudice to any action which the Commission may take in any rate proceedings involving either the sellers or buyers.

(O) The proceeding in Docket No. RI71–736 is terminated with respect to the changes in rate for sales under Monterey Pipeline Company FPC Gas Rate Schedule Nos. 1 and 4.

(P) The certificate of public convenience and necessity in the following dockets issued to predecessors of Applicant in Docket Nos. CI73–225 and CI–73–226 are terminated: G–14903, G–14904, G–14905, G–14906, G–14907, CI–71–106, and CI71–107. The following rate schedules of predecessors of Applicant in Docket Nos. CI73–225 and CI73–226 are cancelled:

(1) H. L. Hunt FPC Gas Rate Schedule Nos. 12 and 30
(2) Secure Trust FPC Gas Rate Schedule Nos. 1 and 6
(3) Lyda Hunt-Margaret Trust FPC Gas Rate Schedule Nos. 1 and 7
(4) Lyda Hunt-Caroline Trust FPC Gas Rate Schedule Nos. 1 and 7
(5) Lyda Hunt-Bunker Trust FPC Gas Rate Schedule Nos. 1 and 7
(6) Lyda Hunt-Lamar Trust FPC Gas Rate Schedule Nos. 1 and 7
(7) Lyda Hunt-Herbert Trust FPC Gas Rate Schedule No. 1

(Q) Nothing contained in this order shall relieve the applicants of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

BELCO PETROLEUM CORP., ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates[1]

JULY 16, 1973.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Grove State Bank, Dallas, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

By Order dated November 30, 1972, the Board approved the formation of Applicant[1] and stated:

First National [Bank in Dallas, Applicant's lead bank] now holds certain minority interests in fourteen banks ("Other Banks") located in Dallas County, Texas, as follows:

[1] 1972 Fed. Res. *Bulletin* 1028.

24 per cent of the shares of American Bank and Trust Company; 21.34 per cent of the shares of Citizens State Bank, Irving; 20 per cent of the shares of The Dallas County State Bank, Carrollton; 24.76 per cent of the shares of DeSoto State Bank; 24.52 per cent of the shares of East Dallas Bank & Trust Company; 24 per cent of the shares of First National Bank of Richardson; 24 per cent of the shares of Grove State Bank; 22.42 per cent of the shares of North Dallas Bank and Trust Company; 24.9 per cent of the shares of Northpark National Bank; 19.47 per cent of the shares of Park City's Bank and Trust Company; 24.5 per cent of the shares of Southwest Bank and Trust Company, Irving; 24 per cent of the shares of Texas National Bank; 10.67 per cent of the shares of White Rock National Bank; and 25.41 per cent of the shares of Guaranty Bank, formerly South Oak Cliff Bank.

Board approval of Applicant's proposal to become a bank holding company does not signify Board approval of the retention or acquisition of the above-referred to minority interests in Other Banks. It is the Board's understanding, from representations by Applicant, that Applicant will file separate applications for prior approval by the Board for each of such minority holdings it seeks to retain and cause its minority interests in all Other Banks, other than those for which such applications are filed, to be completely and permanently divested by it. It is further understood that in this manner any such applications so filed by Applicant will be subject to the ordinary regulatory and legal process, subject to statutory standards as set forth in both section 3 of the Bank Holding Company Act and section 7 of the Clayton Act.

This application has been filed pursuant to that understanding but encompasses all of the voting shares of Bank rather than Applicant's presently existing minority interest in Bank. Similar applications have been filed to acquire shares of American Bank & Trust Company, Park Cities Bank & Trust Company, and Southwest Bank & Trust Company. The Board understands that an application will be filed not later than August 1, 1973, for shares of the Dallas County State Bank and further understands that Applicant's indirect minority interest in Guaranty Bank, formerly South Oak Cliff Bank, was completely and permanently divested by sale on January 9, 1973. The Board further understands and expects that Applicant's indirect minority interests in the eight other banks mentioned above will be completely and permanently divested as noted in the Board's earlier Statement.

Applicant, the largest bank holding company in Texas, controls by direct stock ownership two banks with aggregate deposits of $1.7 billion, representing 5.6 percent of the total deposits of commercial banks in Texas. (All banking data are as of June 30, 1972, and reflect bank holding company acquisitions approved through March 21, 1973.) Applicant is the second largest banking organization in the Dallas market, its lead bank holding 23.4 percent of total deposits of commercial banks in that market. Upon consummation of the four pending acquisitions referred to above, Applicant's subsidiaries would hold 25.5 percent of the total deposits in commercial banks in the Dallas market.

V 3 8 1 4 2 JUL 25 73 3 XUM

Should the Board approve the forthcoming application by Applicant to acquire shares of Dallas County State Bank, Applicant would control 25.9 percent of total deposits in that market. The eight banks in which Applicant's minority interests will be divested have a combined market share of 1.7 percent of the Dallas market. A trusteed affiliate of Applicant presently holds 24 percent of the outstanding voting shares of Bank and the proposal herein to acquire virtually all of the remaining outstanding shares of Bank would increase Applicant's control of commercial bank deposits in the Dallas area by 0.3 percentage points and its ranking among commercial banks in that market and in the State would be unchanged.

Bank ($19.8 million of deposits) ranks fortieth in deposits among 110 commercial banks in the Dallas market which is approximated by the Dallas RMA.[2] Bank is located in a primarily residential area approximately eight miles from Applicant's lead bank which is located in downtown Dallas. Individuals closely associated with Applicant's lead bank were instrumental in organizing bank in 1948 and, since 1950, a substantial portion of Bank's shares has been held by an investment company principally owned by directors of Applicant's lead bank and subsequently held by a trusteed affiliate of Applicant. In addition to Applicant's trusteed affiliate's ownership, shareholders common to Applicant and Bank hold approximately 20 percent of the outstanding voting shares of Bank. The proposal herein represents a strengthening of existing interests rather than the acquisition of an independent competing bank. In view of Applicant's significant holdings, the substantial common shareholder ties and the continued close relationship between Applicant and Bank, the prospect of disaffiliation appears remote. Moreover, in view of the relatively small size of Bank, its localized service area, and the presence of a number of intervening banks, it appears that consummation of Applicant's proposal would not eliminate any meaningful existing or future competition between Bank and any of Applicant's subsidiary banks. Nor would consummation of this proposal raise barriers to entry by other bank holding companies into the expanding Dallas market in view of Bank's relatively insignificant market position and the large number of unaffiliated banks which will remain in this area after this transaction.

On the record before it, the Board concludes that consummation of Applicant's proposal would not result in a monopoly nor be in furtherance of any combination, conspiracy, or attempt to monopolize the business of banking in any area, nor have any substantially anticompetitive effect.

The financial condition and managerial resources of Applicant and its subsidiaries appear generally satisfactory and future prospects of all seem favorable. The financial condition, management resources, and prospects of Bank also appear generally satisfactory and consistent with approval of this application. The banking needs of residents of Bank's service are adequately served by existing institutions operating in that market, and these considerations are consistent with approval of this application.

It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 17, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-15201 Filed 7-24-74;8:45 am]

[2] RMA refers to Ranally Metro Area which is defined as the central city plus every community, 8 per cent or more of the total population of which, or 15 per cent or more of the labor force of which, commutes to the central city, based on the Census of Population. No community, 35 per cent or more of the labor force of which is engaged in agriculture, is included in an RMA.

[3] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

FIRST NATIONAL AGENCY OF AITKIN, INC.

Formation of Bank Holding Company and Proposed Retention of Insurance Agency; Correction

In FR Doc. 73-13975 appearing on page 18409 of the issue for Tuesday, July 10, 1972, the fifth paragraph should read as follows:

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis.

Board of Governors of the Federal Reserve System, July 18, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-15200 Filed 7-24-73;8:45 am]

GENERAL FINANCIAL SYSTEMS

Retention of Bank Shares; Correction

General Financial Systems, Riviera Beach, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842 (a)(3)) to retain 12,450 (24.9 per cent) or more of the voting shares of Tri City Bank, Palm Beach Gardens, Florida, which were acquired by purchase in August, 1971. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

This application was submitted previously and notice of same published in the FEDERAL REGISTER (37 FR 12754,-17515). It was withdrawn, with Board approval, on December 14, 1972, on condition that the applicant resubmit same no later than May 22, 1973.

General Financial Systems has also been engaged in the following non-banking activities: Development and management of rental apartments; home building; leasing of capital goods under full pay-out leases; operation of a general insurance agency; operation of an insurance brokerage agency; and data processing. Pending determination of whether applicant's efforts to divest these activities are effective, the Board, in addition to the factors considered under section 3 of the Act (banking factors) will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions of section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 31, 1973.

Board of Governors of the Federal Reserve System, July 18, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-15202 Filed 7-24-73;8:45 am]

SOUTHWEST CO.

Order Approving Formation of Bank Holding Company and Retention of Insurance Agency Activities

Southwest Company, Sidney, Iowa, has applied for the Board's approval under section 3(a)(1) of the Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 85.1 percent or more of the voting shares of Fremont County Savings Bank, Sidney, Iowa ("Bank").

At the same time, Applicant has applied for the Board's approval under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of Regulation Y to continue to engage in certain permissible insurance agency activities, to be conducted in Sidney, Iowa (population of less than 2,000), through the retention of Pullman Insurance Agency, Sidney, Iowa ("Agency"). The operation by a bank holding company of a general insurance agency in a community with a population not exceeding 5,000 is an activity that the Board has previously determined to be closely related to banking (12 CFR 225.4(a)(9)(iii)(a)).

Notice of receipt of the applications has been given in accordance with sections 3 and 4 of the Act, and the time for the time for filing comments and views has expired. The Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act, and the considerations specified in section 4(c)(8) of the Act.

Applicant was organized in October 1972, for the principal purpose of becoming a bank holding company through acquisition of Bank. Applicant's sole business activity to date has been the acquisition of the building presently occupied by Bank and the operation of Agency as a subsidiary of Applicant.

Bank ($8.1 million in deposits) is the only bank in Sidney, a rural community. Bank controls 32.4 percent of the total deposits held by the seven banks in Fremont County and, on that basis, is the largest bank in the county.[1] Acquisition of Bank by Applicant would not eliminate any existing competition, have an undue adverse effect on any other bank in the county, nor preclude the establishment of new banks in the area.

The financial and managerial resources and future prospects of Applicant and Bank are satisfactory and consistent with approval. (Although Applicant will incur considerable debt in acquiring Bank, its income from Bank and Agency will provide sufficient revenue to service the debt adequately.) Applicant proposes to increase Bank's agricultural and commercial loans in the primary service area through a more aggressive lending policy.[2] Accordingly, considerations relating to the convenience and needs of the community to be served, with respect to the acquisition of Bank, are consistent with approval of the application. It is the Board's judgment that consummation of the transaction would be in the public interest and that the application to acquire Bank should be approved.

Agency operates a general insurance agency business out of an office adjacent to Bank and is one of four insurance agencies in Sidney. Agency and Bank have been associated and under common ownership for a number of years. Retention of Applicant's insurance activities would enable Bank's customers to enjoy the continued convenience of obtaining banking and insurance activities in conjunction with each other. There is no evidence in the record indicating consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices or other adverse effects on the public interest. On the basis of the foregoing and other facts reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c)(8) in permitting a holding company to engage in an activity on the basis that it is closely related to banking both favor approval of the Applicant's proposal.

Accordingly, the applications are approved for the reasons summarized above.[3] The acquisition of Bank shall not be consummated (a) before the thirtieth calendar day following the effective date of this order, or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority. The determination as to Agency's activities is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[4] effective July 17, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-15203 Filed 7-24-73;8:45 am]

[1] All banking data are as of June 30, 1972.

[2] The loan-to-deposit ratio (as of October 14, 1972) was 32.9 percent.

[3] Dissenting Statement of Governor Brimmer filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Chicago.

[4] Approval of acquisition of Fremont County Savings Bank, Sidney, Iowa. Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns. Approval of retention of Pullman Insurance Agency, Sidney, Iowa. Voting for this action: Vice Chairman Mitchell and Governors Daane, Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer. Absent and not voting: Chairman Burns.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

AADAN CORP.

Order Suspending Trading

JULY 16, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $.10 par value, and all other securities of Aadan Corporation, being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from July 17, 1973 through July 26, 1973.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[811-1913]

CONVERTIBLE TECHNIQUE FUND

Notice of Filing of Application for Order

JULY 17, 1973.

Notice is hereby given that Convertible Technique Fund, 1309 Highland Avenue, Abington, Pennsylvania 19001 ("Applicant"), a Delaware corporation registered as a non-diversified, open-end management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Applicant registered under the Act on August 7, 1969. On December 5, 1972, when the Fund had less than 80 shareholders and assets of approximately $600,000, the Board of Directors of the Applicant notified First Exchange Management Corporation ("Management"), the investment adviser of Applicant, of its intention to terminate the Fund's investment advisory contract with Management in sixty days. All shareholders of the Applicant were informed of this act and were also advised that Applicant was discontinuing efforts to generate sales. All the shareholders of Applicant then either exercised their right to redeem their shares or exchanged their shares for shares of Convertible Securities Mutual Fund, Inc. pursuant to an exchange privilege which had been described in the prospectus of the Fund, and all of Applicant's directors then resigned. Following these events, the Applicant had, as of May 1, 1973, assets of approximately $6,000 and liabilities of approximately the same amount.

Applicant represents that it no longer holds itself out as being engaged in the business of investing, reinvesting, or trading in securities, that it has no current intention of making a public offering of its securities, and that its current intention is to dissolve.

Section 3(c) of the Act, excepts from the definition of an investment company any issuer whose outstanding securities are beneficially owned by not more than one hundred persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 10, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be

V 38 1142 JUL 25 73 XUM

controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule O–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

JERSEY CENTRAL POWER & LIGHT CO.

Notice of Proposed Amendments of First Mortgage Indenture and Solicitation of Bondholders' Proxies

JULY 16, 1973.

Notice is hereby given that Jersey Central Power & Light Company, Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960 ("Jersey Central"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposals. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposals.

Jersey Central proposes to amend its Indenture dated as of March 1, 1946, as heretofore supplemented and amended by twenty-one supplemental indentures ("Indenture") to effect two changes. Jersey Central proposes to eliminate the covenant which provides that Jersey Central will duly observe and conform to all valid requirements of any governmental authority relative to any mortgaged property. It is stated that such covenant should be eliminated since, under a developing pattern of legislation and administrative action, there will be periods when Jersey Central will be unable to comply with governmental requirements with respect to its mortgaged property, although it may not be expected by the governmental agency to be in compliance. However, this covenant in the Indenture could be construed as resulting in a default under the Indenture. Jersey Central states that the elimination of this covenant will not relieve it of its obligation to comply with governmental requirements, but it will permit appropriate governmental enforcement measures consistent with their intent.

In addition, Jersey Central proposes to include as bondable property additions, property for which Jersey Central does not have all necessary permission from governmental authorities to operate, but which otherwise would constitute bondable property additions. Jersey Central states that although, under the Indenture, it is specifically contemplated that property additions can constitute bondable property, it is believed that it is not clear whether the Indenture permits the inclusion of, in computing the bondable value of property additions, the value of Jersey Central's plant and equipment as to which all currently obtainable permission has been received, but as to which further governmental permission must be obtained in the future. Jersey Central states that this ambiguity jeopardizes its ability to finance additions to its facilities in the most economic and orderly manner.

The affirmative vote of the holders of 75 percent in principal amount of the first mortgage bonds outstanding is required for approval of the proposed amendments to the Indenture. The consent of such percentage in principal amount of the bondholders will be sought at a meeting of bondholders, the date of which will be scheduled as promptly as practicable. A Notice of Meeting and Proxy Statement and a Form of Proxy is proposed to be mailed to the bondholders prior to the date set for such meeting.

The New Jersey Board of Public Utility Commissioners has jurisdiction over the proposed amendments of the Indenture. It is further stated that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposals. The fees and expenses to be incurred in connection with the proposals will be filed by amendment.

Notice is further given that any interested person may, not later than August 10, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

TARIFF COMMISSION

[22–33]

NONFAT DRY MILK

Notice of Investigation and Date of Hearing

At the request of the President (reproduced herein), the United States Tariff Commission, on the 19th day of July 1973, instituted an investigation under subsection (d) of section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), to determine whether 80,000,000 pounds of nonfat dry milk described in item 115.50 of the *Tariff Schedules of the United States* (TSUS) may be imported into the United States during the period beginning July 18, 1973, and ending August 31, 1973, in addition to the quota-quantity specified for such article under TSUS item 950.02, without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

The pertinent part of the text of the President's letter of July 18, 1973, to the Commission follows:

Pursuant to section 22 of the Agricultural Adjustment Act, as amended, I have been advised by the Secretary of Agriculture, and I agree with him, that there is reason to believe that additional supplies of nonfat dried milk may be imported during a temporary period ending August 31, 1973, without rendering or tending to render ineffective, or materially interfering with, the price support program for milk now conducted by the Department of Agriculture, or reducing substantially the amount of products processed in the United States from domestic milk.

Specifically, reference is made to the following article presently subject to section 22 quantitative limitations under item 950.02 of the Tariff Schedules of the United States:

Dried milk, provided for in part 4 of schedule 1 of the Tariff Schedules of the United States Annotated (1972), described in item 115.50 (Dried milk, other than buttermilk, containing not over 3 percent of butterfat).

The Secretary has also advised me, pursuant to section 22(b) of the Agricultural Adjustment Act, as amended, that a condition exists requiring emergency treatment with respect to nonfat dried milk and has therefore recommended that I take immediate action under section 22(b) to authorize the importation of 80,000,000 pounds during a temporary period ending August 31, 1973. I have, therefore, this day issued a proclamation establishing a special temporary quota of 80,000,000 pounds to be effective through August 31, 1973. This quota is in addition to the quantities otherwise authorized to be imported under section 22 quantitative limitations.

The United States Tariff Commission is, therefore, directed to make an investigation under section 22 of the Agricultural Adjustment Act, as amended, and to make findings and recommendations as to whether 80,000,000 pounds of the above-described article may be imported during a temporary period ending August 31, 1973, in addition to the quantities otherwise authorized to be imported under section 22 quantitative limitations, without rendering or tending to render ineffective or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

• • • • • •

The Commission is directed to report its findings and recommendations at the earliest practicable date.

Sincerely,

(Signed)
RICHARD NIXON

Hearing. A public hearing in connection with this investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C., beginning at 10 a.m., e.d.t., on July 30, 1973. All parties will be given opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., at least by the close of business on July 25, 1973. The notification should indicate the name, address, telephone number, and organization of the person filing the request, and the name and organization of the witnesses who will testify.

Because of the limited time available, the Commission reserves the right to limit the time assigned to witnesses. Questioning of witnesses will be limited to members of the Commission and officials of the Department of Agriculture.

Written submissions. Interested parties may submit written statements of information and views, in lieu of their appearance at the public hearing, or they may supplement their oral testimony by written statements of any desired length. In order to be assured of consideration, all written statements should be submitted at the earliest practicable date, but not later than the close of business on August 3, 1973.

With respect to any of the aforementioned written submissions, interested parties should furnish a signed original and nineteen (19) true copies. Business data to be treated as business confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential," as provided for in § 201.6 of the Commission's rules of practice and procedure.

Issued: July 19, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 43; Fourth Rev. Exemption No. 43; Rule 19]

ATCHISON, TOPEKA AND SANTA FE RAILWAY CO. ET AL.

Exemption Under Provision of the Mandatory Car Service Rules

TO: The Atchison, Topeka and Santa Fe Railway Company
Burlington Northern Inc.
Chicago and North Western Transportation Company
Chicago, Milwaukee, St. Paul and Pacific Railroad Company
Chicago, Rock Island and Pacific Railroad Company
Illinois Central Gulf Railroad Company
Missouri Pacific Railroad Company
Norfolk and Western Railway Company
Union Pacific Railroad Company

It appearing that there is a massive harvest of wheat in progress in the states of Iowa, Kansas, Nebraska, Oklahoma, and South Dakota; that present supplies of plain boxcars owned by the railroads serving these states are inadequate to move the newly harvested grain to terminal elevators for safe storage; that use of available plain boxcars owned by other carriers for movements of this grain will substantially augment the car supplies of the railroads named herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads named herein, and their short line connections, are hereby authorized to use and to accept from shippers shipments of grain originating at stations located in Iowa, Kansas, Nebraska, Oklahoma, and South Dakota, when loaded into plain 40-ft. narrow-door boxcars of various ownerships without regard to the requirements of Car Service Rule 2.

Exception: This exemption shall not apply to plain boxcars subject to Association of American Railroads Car Relocation Directive No. 44.

Effective 11:59 p.m., July 18, 1973.
Expires 11:59 p.m., July 31, 1973.

Issued at Washington, D.C., July 18, 1973.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 20, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-906 (Deviation No. 8), CONSOLIDATED FORWARDING CO., INC., 1300 N. 10th St., St. Louis, Mo. 63106, filed July 6, 1973. Carrier's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Interstate Highway 70 and U.S. Highway 61 at or near Wentzville, Mo., over Interstate Highway 70 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction Iowa Highway 146, thence over Iowa Highway 146 to junction U.S. Highway 30, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: From St. Louis over Interstate Highway 70 to junction U.S. Highway 61, thence over U.S. Highway 61 to junction U.S. Highway 218, thence over U.S. Highway 218 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Iowa Highway 14, thence over Iowa Highway 14 to Marshalltown, and return over the same route, serving no intermediate points.

No. MC-1824 (Deviation No. 16), PRESTON TRUCKING COMPANY, INC., 151 Easton Boulevard, Preston, Maryland 21655, filed June 27, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Buffalo, N.Y., over U.S. Highway 62, to junction New York Highway 391, thence over New York Highway 391 to junction U.S. Highway 219, thence over U.S. Highway 219 to Johnsonburg, Pa., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Pittsburgh, Pa., over U.S. Highway 19, to junction Interstate Highway 90, thence over Interstate Highway 90 to junction New York Highway 130, and return over the same route, serving no intermediate points, but serving the off-route point of Buffalo, N.Y.; (2) From Pittsburgh, Pa., over Pennsylvania Highway 28 to Brookville, Pa., thence over U.S. Highway 322 to junction U.S. Highway 219, thence over U.S. Highway 219 to junction Pennsylvania Highway 830, thence over Pennsylvania Highway 830 to Falls Creek, Pa. and return over the same route, serving the intermediate point of Creighton, Pa., and those points in Pennsylvania north of Creighton, Pa., and (3) From DuBois, Pa., over U.S. Highway 219 via Ridgeway, Pa., to Johnsonburg, Pa., thence over Pennsylvania Highway 255 to St. Marys, Pa. (also from DuBois, Pa., over Pennsylvania Highway 255 to St. Marys, Pa.), (also from Ridgway, Pa., over U.S. Highway 120 to St. Marys, Pa.), and thence over U.S. Highway 120 to Emporium, Pa., and return over the same routes, serving all intermediate points.

No. MC-1936 (Deviation No. 12), B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224, filed July 5, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Breezewood, Pa., over U.S. Highway 30 to Philadelphia, Pa., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: Between Pittsburgh, Pa., and Baltimore, Md., serving all intermediate points, and the off-route points of Alexandria and Rosslyn, Virginia, points in Allegheny, Beaver, Fayette, Washington, and Westmoreland Counties, Pa., and points in Maryland within 20 miles of Baltimore, Md., (1) From Pittsburgh, Pa., over U.S. Highway 30 via Bedford, Pa., to Breezewood, Pa., thence over Interstate Highway 70 (formerly Pennsylvania Highway 126) to Warfordsburg, Pa., thence over U.S. Highway 522 to Hancock, Md., thence over U.S. Highway 40 to Baltimore, Md., (2) From Pittsburgh, Pa., over U.S. Highway 22 to Armagh, Pa., thence over Pennsylvania Highway 56 to junction U.S. Highway 220, thence over U.S. Highway 220 to Bedford, Pa., thence to Baltimore, Md., as specified above, and (3) From Pittsburgh, Pa., over Pennsylvania Highway 51 to Uniontown, Pa., thence over U.S. Highway 40 to Baltimore, Md. Between Philadelphia, Pa., and Washington, D.C., serving all intermediate points, and off-route points in the Philadelphia, Pa., Commercial Zone, the Washington, D.C., Commercial Zone, and those within five miles of Baltimore, Md., (1) From Philadelphia, Pa., over U.S. Highway 1 to Washington, D.C., and (2) From Philadelphia, Pa., over U.S. Highway 13 to junction U.S. Highway 40 to Baltimore, Md., and thence to Washington, D.C., as specified above, and return over the same routes.

No. MC-1936 (Deviation No. 13), B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224, filed July 6, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Hagerstown, Md., over Interstate Highway 81 to its junction with Pennsylvania Highway 34, thence over Pennsylvania Highway 34 to its junction with U.S. Highway 11, thence over U.S. Highway 11 to its junction with Interstate Highway 76 (Pennsylvania Turnpike Interchange No. 16), thence over Interstate Highway 76 to Philadelphia, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: Between Pittsburgh, Pa., and Baltimore, Md., serving all intermediate points, and the off-route points of Alexandria and Rosslyn, Virginia, points in Allegheny, Beaver, Fayette, Washington, and Westmoreland Counties, Pa., and points in Maryland within 20 miles of Baltimore, Md., (1) From Pittsburgh, Pa., over U.S. Highway 30 via Bedford, Pa., to Breezewood, Pa., thence over Interstate Highway 70 (formerly Pennsylvania Highway 126) to Warfordsburg, Pa., thence over U.S. Highway 522 to Hancock, Md., thence over U.S. Highway 40 to Baltimore, Md., (2) From Pittsburgh, Pa., over U.S. Highway 22 to Armagh, Pa., thence over Pennsylvania Highway 56 to junction U.S. Highway 220, thence over U.S. Highway 220 to Bedford, Pa., thence to Baltimore, Md., as specified above, and (3) From Pittsburgh, Pa., over Pennsylvania Highway 51 to Uniontown, Pa., thence over U.S. Highway 40 to Baltimore, Md., serving all intermediate points, and off-route points in the Philadelphia, Pa., Commercial Zone, the Washington, D.C., Commercial Zone, and those within five miles of Baltimore, Md., (1) From Philadelphia, Pa., over U.S. Highway 1 to Washington, D.C., and (2) From Philadelphia, Pa., over U.S. Highway 13 to junction U.S. Highway 40 to Baltimore, Md., and thence to Washington, D.C., as specified above, and return over the same routes.

By the Commission.

[Notice No. 57]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JULY 20, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 134847 (Sub-No. 3) (REPUBLICATION) filed February 7, 1971, published in the FEDERAL REGISTER issue of June 10, 1971, republished, as amended, in the FEDERAL REGISTER issue of January 4, 1973, and in third publication this issue. Applicant: BESSETTE TRANSPORT, INC. 505 Provost Street Iberville, Quebec, Canada Applicant's representative: Frank J. Weiner 15 Court Square Boston, Mass. 02108 An Initial Decision of the Commission dated May 29, 1973, by Administrative Law Judge Paul J. Cierman, became the effective Order of the Commission July 10, 1973, and finds that the present and future public convenience and necessity require operation by applicant as a *common carrier* by motor vehicle, in interstate or foreign commerce, over irregular routes, of *slate*, from ports of entry on the International Boundary line between the United States and Canada at or near Champlain, Ogdensburg and Rouses Point, N.Y., and Highgate Springs and Newport, Vt., to East Rutherford, N.J., and from Bangor, Pa., East Rutherford, N.J., Granville and Middle Granville, N.Y., and Poultney and West Pawlett, Vt., to the International Boundary line between the United States and Canada at or near Champlain, Ogdensburg and Rouses Point, N.Y., and Highgate Springs and Newport, Vt., restricted to shipments originating at or destined to points in Quebec, Canada; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder, and that an appropriate certificate should be issued. Because it is possible that other parties who have relied upon the notice of the application as published, may have an

V 38-142 JUL 25 73 XUM

interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 138142 (REPUBLICATION) filed October 16, 1972, published in the FEDERAL REGISTER issue of November 23, 1972, and republished this issue. Applicant: THIGPEN TRUCKING, INC. Route No. 2, Box 139 Franklinton, La. 70438 Applicant's representative: Theodore Polydoroff Suite 600 1250 Connecticut Avenue, N.W. Washington, D.C. 20036 An Order of the Commission, Review Board Number 4, dated July 2, 1973, and served July 16, 1973, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, (1) of *hydrolized animal and vegetable fat* and *animal feed supplement*, in bulk, from the plantsite of Adams Laboratories, Inc., at or near Franklinton (Washington Parish), La., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas and Virginia, and (2) of *materials and supplies* used in the manufacture of the commodities named in (1) above, in bulk, from points in the above-named destination territory to the plantsite of Adams Laboratories, Inc., at or near Franklinton (Washington Parish), La. under a continuing contract or contracts with Adams Laboratories, Inc., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 45764 (Sub-No. 16) (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE) filed July 10, 1973. Petitioner: ROBBINS MOTOR TRANSPORTATION, INC. Saville Ave. & Industrial Highway P.O. Box 38 Eddystone, Pa. 19013 Petitioner's representative: Paul F. Sullivan 711 Washington Building Washington, D.C. 20005 Petitioner presently holds a *motor common carrier* certificate in No. MC–45764 (Sub-No. 16) issued May 7, 1973, authorizing as pertinent, transportation, by motor vehicle, over irregular routes, of *heavy machinery and equipment* requiring rigging or special handling and *such materials and supplies* as are used in the installation, operation, and maintenance thereof, when transported in the same vehicle with such commodities, between Philadelphia, Pa., on the one hand, and, on the other, points in Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Ohio, North Carolina, South Carolina, Virginia, West Virginia, and the District of Columbia. By the instant petition, petitioner seeks to modify its commodity description to read: "*Commodities*, the transportation of which because of size or weight, requires the use of special equipment or special handling, and *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection therewith (restricted to commodities which are transported on trailers)". Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 15589 (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE) filed July 6, 1973. Petitioner: MOONEY BROS. TRUCKING CO., a Corporation 133 Mahoning Avenue New Castle, Pa. 16103 Petitioner's representative: Paul F. Sullivan 711 Washington Building Washington, D.C. 20005 Petitioner presently holds a motor *common carrier* certificate in No. MC 15589 issued December 15, 1949, authorizing as pertinent, transportation, by motor vehicle, over irregular routes, of *scrap metals, building materials, heavy machinery, and contractors equipment*, between points in that part of Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points in that part of Ohio and West Virginia, on and east of U.S. Highway 23 and on and north of U.S. Highway 50. By the instant petition, petitioner seeks to modify its commodity description of "heavy machinery" to read: "commodities, the transportation of which because of size or weight, requires the use of special equipment or special handling". Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 114115 (Sub-Nos. 5 and 12) (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed June 22, 1973. Petitioner: TRUCKAWAY SERVICE, INC. 1099 Oakwood Boulevard Detroit, Mich. 48217 Petitioner's representative: James R. Stiverson 50 West Broad Street Columbus, Ohio 43215 Petitioner presently holds motor *contract carrier* permits in No. MC–114115 (Sub-Nos. 5 and 12) issued November 4, 1963, and September 23, 1971, respectively, authorizing transportation, in interstate or foreign commerce, over irregular routes, of (1) In Sub 5, *salt, in bulk*, (a) between points in Ohio (except those in Ashtabula, Columbiana, Cuyahoga, Geauga, Mehoning, Portage, Summit and Trumbull Counties, Ohio), (b) between points in West Virginia, (c) between points in Kentucky, and (d) between points in Michigan (except from Detroit and Port Huron, Mich., to points in the Lower Peninsula of Michigan), restricted in (1)(a, b, c, and d) above to traffic having a prior movement by rail, from water terminals on the Ohio River and its tributaries, to points in Ohio, West Virginia, and Kentucky, with no transportation for compensation on return except as otherwise authorized, and further restricted to traffic having a prior movement by water, under a continuing contract, or contracts, with the following shippers: International Salt Company; Morton Salt Company; and Diamond Crystal Salt Company; and In Sub 12, *rock salt*, in bulk, between points in Illinois, Indiana, Kentucky, Ohio, Pennsylvania, and the Lower Peninsula of Michigan, restricted against the following: (1) Traffic moving between points in Pennsylvania, (2) Traffic moving between points within 40 miles of Monroe, Mich., (3) Traffic moving from Lucas County, Ohio, to points in Michigan and Indiana, and, (4) Traffic moving between points in Ashtabula, Cuyahoga, Franklin, Lake, Licking, Muskingum, Summit, and Wayne Counties, Ohio, on the one hand, and, on the other, points in Indiana, Kentucky, Michigan and Pennsylvania, under a continuing contract, or contracts, with the following shippers: Diamond Crystal Salt Company; International Salt Company; Morton Salt Company, Division of Morton International, Inc.; and Cargill, Incorporated, with service to Cargill, Incorporated, restricted against traffic moving from points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission, to points in Illinois and that part of Indiana on and south of U.S. Highway 136 and on and west of Indiana Highway 37. By the instant petition, petitioner seeks to add the additional contracting shipper of Carey Salt Division of Interpace Corp. to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 29555 (Sub-No. 64) filed May 3, 1973 Applicant: BRIGGS TRANSPORTATION CO., a Corporation 2360

West County Road "C" St. Paul, Minn. 55113 Applicant's representative: Einar Viren 904 City National Bank Building Omaha, Nebr. 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Des Moines and Ames, Iowa: From Des Moines over Interstate Highway 35 and also U.S. Highway 69 to Ames, and return over the same route, serving all intermediate points. Note: This is a matter directly related to a section 5 Proceeding in No. MC–F–11849 published in the FEDERAL REGISTER issue of May 2, 1973. By the instant application, applicant seeks to convert transferor's Certificate of Registration to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa or Omaha, Nebr.

APPLICATIONS UNDER SECTIONS 5 AND 210A (B)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11852. (Amendment) (JONES TRUCK LINES, INC.—CONTROL—MERSCHEIM TRANSFER), published in the May 2, 1973, issue of the FEDERAL REGISTER on pages 10850 and 10851. By petition filed July 9, 1973, applicants wish to amend application as follows: JONES TRUCK LINES, INC.—MERGER—NEYLON FREIGHT LINES, INC., and NEYLON FREIGHT LINES, INC.—CONTROL AND MERGER—MERSCHEIM TRANSFER.

No. MC–F–11937. Authority sought for purchase by MEAT DISPATCH, INC., 711–9th St., East Bradenton, FL 33505, of the operating rights of EARO, INC., 15 W. Broadway, Fort Meade FL 33841, and for acquisition by CHARLES D. WHITE, AND E. PHILLIP SAUNDERS, both of 1000 Jefferson Rd., Rochester, NY 14623, of control of such rights through the purchase. Applicants' attorney: S. Michael Richards, 44 North Ave., Webster, NY 14580. Operating rights sought to be transferred: Canned citrus products, canned juices, canned beverages, and canned beverage preparations, as a *common carrier* over irregular routes, from the plant site of Tropicana Products Sales, Inc., at Bradenton, Fla., to points in Kentucky, Ohio, Indiana, Michigan, Tennessee, West Virginia, Pennsylvania, Virginia, Maryland, and the District of Columbia, with restriction. Vendee is authorized to operate as a *contract carrier* in New York, Florida, Arkansas, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Connecticut, Massachusetts, Virginia, West Virginia, Wisconsin, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11939. Authority sought for purchase by V.C.L., INC., 2901 Carrollton Road, Saginaw, MI 48604, of the operating rights and property of VALLEY COACH LINES, INC., 4335 Seymour, Flushing, MI 48433, and for acquisition by STANLEY CUPP AND A. JEAN CUPP, BOTH OF 2901 Carrollton Road, Saginaw, MI 48604, of control of such rights and property through the purchase. Applicants' attorney: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, MI 48080. Operating rights sought to be transferred: Passengers and their baggage, and express and newspapers, in the same vehicle with passengers as a *common carrier* over regular routes, between Flushing, Mich., and Port Huron, Mich., serving all intermediate points. V.C.L., INC., holds no authority from this Commission. However, it is affiliated with DELTA BUS CO., which is authorized to operate as a *common carrier* of passengers in Michigan. Application has not been filed for temporary authority under Section 210a(b).

NOTICE

SOUTHERN PACIFIC TRANSPORTATION COMPANY hereby gives notice that on the 13th day of June, 1973, it filed with the Interstate Commerce Commission at Washington, D.C. an application seeking acquisition of trackage rights over a 1.15 mile segment of trackage of the Atchison, Topeka and Santa Fe Railway Company from a new connection at SP Milepost 228.05 (Santa Fe Milepost 50.71) to a new connection at SP Milepost 229.20 (Santa Fe Milepost 49.56), all within the County of Fresno, California. The application has been assigned Finance Docket No. 27413. In the opinion of the applicant, no significant effect on the quality of the human environment will result from the acquisition of trackage rights sought herein. In accordance with the regulation (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), Implementation—Nat'l Environmental Policy Act, 1969, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (B)(1)–(5), 340 I.C.C. 431, 461. Any person opposed to this application should advise the Commission promptly, and send a copy to applicant's attorney, Mr. Charles W. Burkett, Southern Pacific Transportation Company, One Market Street, San Francisco, California 94105. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than August 24, 1973.

By the Commission.

[Notice No. 98]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 19, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under sections 210(a) and 311(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D. C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JULY 20, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among

V 38 142 JUL 25 73 XUM

other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Nevada Docket No. CPC A–2189 filed June 6, 1973 Applicant: DEAN M. MASTIN AND MARIE MASTIN, doing business as DUCK VALLEY TRANSPORTATION, 540—12th St. Elko, Nev. 89801 Applicant's representative: Leo J. Puccinelli First National Bank Bldg. Elko, Nev. 89801 Certificate of public convenience and necessity sought to operate a freight and passenger service as follows: Transportation of *commodities generally, and passengers,* between Elko, Nev., and Owyhee, Nev., via State Route #51, serving all intermediate points, including those ranches and business for which there is no other access except from State Route #51. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the Nevada Public Service Commission, 222 E. Washington Street, Carson City, Nev., 89701, and should *not* be directed to the Interstate Commerce Commission.

Texas Docket No. 3991 filed June 12, 1973 Applicant: VALLEY TRANSIT COMPANY, INC., Lessee, joined by VALLEY BUS COMPANY, INC., Lessor Post Office Box 1870 Harlingen, Tex. 78550 Applicant's representative: Phillip Robinson P.O. Box 2207 Austin, Tex. 78767 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *Mail, newspapers, parcels and express packages:* Between the International Boundary Line of the United States of America and the Republic of Mexico, located at or near Hidalgo, Texas, and San Antonio, Texas, as follows: From the International Boundary Line of the United States of America and the Republic of Mexico, located at or near Hidalgo, Tex., over U.S. Highway 281 to San Antonio, Tex., and return over the same route, serving the intermediate points of McAllen and Edinburg, Texas. The above authority is subject to the following restrictions: (1) Applicant is hereby prohibited from transporting any high explosives, acids, inflammable liquids, loaded guns, inflammable or combustible motion picture films, or other articles which will endanger the life or limb of the passengers being transported in the motor bus. (2) Applicant is hereby prohibited from transporting any mail, newspapers, parcels and express packages which interfere with the convenience and reasonable comfort or safety of the passengers being transported in the motor bus. (3) The authority to transport mail, newspapers, parcels and express packages in the same vehicle transporting passengers shall be coextensive with the certificates and operating rights authorizing the transportation of passengers, and the applicant is hereby prohibited from transferring by assignment, sale, lease, or otherwise, the authority to transport passengers unless the authority to transport mail, newspapers, parcels and express packages shall be transferred simultaneously, and/or vice versa. If operations under this motor bus certificate are abandoned or suspended, the authority to transport mail, newspapers, parcels and express packages will be abandoned or suspended accordingly. (4) Applicant is hereby prohibited from engaging in pickup and delivery service and the services that it will render hereunder will be only from terminal to terminal. (5) The Railroad Commission of Texas hereby retains jurisdiction over this grant of authority to the end that it may at any time, after notice and hearing, restrict applicant's transportation of mail, newspapers, parcels and express packages so as to prevent it from becoming a primary truck service instead of a truck service incident to the primary motor bus service, and, further, the Railroad Commission of Texas hereby retains jurisdiction to regulate the size and weight of packages so as to prevent the applicant from engaging in the transportation of property as a primary operation. (6) Applicant is hereby authorized to only transport mail, newspapers, parcels and express shipments on motor buses transporting passengers, and applicant is hereby prohibited from using separate vehicles in the transportation of these commodities. (7) The Railroad Commission of Texas hereby restricts the transportation of these commodities—mail, newspapers, parcels and express packages—so that applicant is prohibited from utilizing the interior of the bus where seats are located for the comfort and convenience of the bus passengers for the transportation of parcels and express packages. The applicant will utilize below-floor luggage compartments or luggage compartments in the rear of the bus that is separated from the passenger carrying interior, or racks on the top of bus, for the transportation of parcels and express packages; and further, the Railroad Commission of Texas retains jurisdiction to enforce this restriction. (8) The holder of this certificate is hereby restricted from transporting film (flammable or inflammable) where the consignor or consignee thereof is a motion picture film exchange or a motion picture film theatre and the proposed movement is between points in Texas served in film common carrier motor carrier service as of December 15, 1956, by a common carrier film carrier and/or carriers authorized by the Railroad Commission of Texas pursuant to certificates of public convenience and necessity issued to such film carriers; and such points are as reflected by the Commission's records and a tabulation filed in this proceeding on or about January 21, 1957, to all of which reference is made for purposes of this restriction. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Tex., 78711, and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

[Notice 318]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 14, 1973. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74442. By order of July 16, 1973, the Motor Carrier Board approved the transfer to Andujar Trucking Corp., Astoria, N.Y., of Permit No. MC–65701 issued to Olga Andujar, Astoria, N.Y., authorizing the transportation of: Groceries, From New York, N.Y., to specified points in Connecticut and New Jersey. John L. Alfano, Attorney, 2 West 45th Street, New York, N.Y. 10036.

No. MC–FC–74542. By order of July 16, 1973, the Motor Carrier Board approved the transfer to T. E. Andresen, Incorporated, Swampscott, Massachusetts, of Certificate No. MC 64016, issued September 19, 1940, to Thomas E. Andresen, Swampscott, Massachusetts, authorizing the transportation of household goods, between Swampscott, Mass. and 5 miles thereof. On the one hand, and, on the other, points in 6 states, and Certificate No. MC 64016 (Sub-No. 1), issued May 4, 1948, to Thomas E. Andresen, Swampscott, Massachusetts, authorizing the transportation of boats, between Quincy, Mass., on the one hand, and, on the other, points in 6 states. Thomas E. Andresen, Jr., 67 Stetson Avenue, Swampscott, Mass. 01907.

No. MC–FC–74560. By order of July 17, 1973, the Motor Carrier Board approved the transfer to Transtar Corp., a corportation, South Kearny, N.J., of the operating rights in Permit No. MC–125191 (Sub-No. 1) issued November 5, 1963 to Donald Silbert, Martin Silbert, and Alfred Silbert, a partnership, doing business as Silbert Bros. Trucking Co., South Kearny, N.J., authorizing the transportation of various commodities from and to specified points and areas in New York and New Jersey. Rodman Kober, 744 Broad St., Newark, N.J., 07102, Attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Consumer Product Safety Commission

Section 213.3360 is added to show that one position of Staff Assistant to each Member of the Commission is excepted under Schedule C.

Effective on July 26, 1973, § 213.3360 is added as set out below.

§ 213.3360 Consumer Product Safety Commission.

(a) One Staff Assistant to each Member of the Commission.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–58, Comp. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Stage A Amendments

The purpose of these amendments is to make corrections and clarifications in the new "Stage A for Food" regulations issued on July 18, 1973.

Under the new Stage A food regulations, a special pricing rule for pork and lamb was introduced (6 CFR 130.57d(e)) which permits prices to be charged above the ceiling prices for these items to reflect increased meat raw material costs on a dollar-for-dollar basis. The formula whereby the preexisting gross margin rule was amended to permit prices to go above ceiling levels inadvertently contained a provision (no longer applicable (permitting increases in revenues derived from allowable cost increases other than meat raw material costs. For Stage A purposes (July 18–September 12, 1973), prices may not exceed ceiling prices because of increases in non-meat-raw-material costs. The inapplicable provision has been deleted from the revised § 130.57d(e)(3).

The new Stage A food regulations conton a special provision permitting price increases for food items in inventory when the average cost of a food item in inventory exceeds its freeze price. That provision permits a seller to increase his price up to the cost level to reflect on a dollar-for-dollar basis increases in the raw agricultural product costs with respect to that food item between January 10, 1973, and the freeze base period, to the extent that those costs have not already been reflected in the freeze price. This amendment changes the "front-end" cut-off period for these costs from the freeze base period (usually June 1–8) to July 18, 1973. This change makes clear the Council's intent to apply its special inventory price adjustment rule to raw agricultural product costs of inventory received on or before July 18, 1973.

A third change eliminates the provision in 6 CFR 140.99 which limited the Stage A food recordkeeping requirements to those food firms with annual sales or revenues in excess of $50 million derived from sales of food. The Stage A food regulations are of such a nature as to require all food firms to keep records of price adjustments made under the Stage A rules.

Other changes have been made to correct inaccurate cross-references to related regulations.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the current price freeze, the Council finds that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, Cost of Living Council Order No. 14, 38 FR 1489; E.O. 11730, 38 FR 19345)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective 4:00 p.m., e.s.t., July 18, 1973.

Issued in Washington, D.C., on July 24, 1973.

JAMES W. MCLANE,
Deputy Director, Cost of Living Council, and Director, Special Freeze Group.

1. Paragraph (e)(1) of § 130.57d is amended by changing the cross-reference in the exception proviso from "paragraph (d)(3) of this section," to "paragraph (e)(3) of this section,".

2. Paragraph (e)(3) of § 130.57d is amended to read as follows:

§ 130.57d Special price adjustment rule for firms engaged in the slaughtering and processing of livestock or the manufacturing of meat products.

* * * * * * *

(e) *Special pricing rule for swine and sheep.* * * *

(3) Sales revenues in the period July 18-September 12, 1973, may exceed the permissible total sales revenue calculated by application of the formula provided in paragraph (e)(1) of this section if the excess results from seasonal patterns or a change in product mix. Any justification based upon seasonal patterns or a change in product mix shall be reported or retained in the records, as appropriate, and be subject to review by the Council.

* * * * * * *

3. Paragraph (e)(2) of § 140.93 is amended to read as follows:

§ 140.93 Special price rules.

* * * * * * *

(e) *Inventory price adjustments.* * * *

* * * * * * *

(2) If the average cost of a food item in inventory exceeds the freeze price, a seller may charge a price in excess of the freeze price for the food item in inventory to reflect on a dollar-for-dollar basis increases in the raw agricultural product costs incurred between January 10, 1973, and the effective date of this section with respect to that food item which is not otherwise reflected in the freeze price. However, a price charged pursuant to this subparagraph may not exceed the average cost of the food item during its cost base period and may not reflect allowable cost increases.

* * * * * * *

4. The first sentence of § 140.99 is amended to read as follows:

§ 140.99 Recordkeeping requirements.

Each food firm shall maintain comprehensive records of all price adjustments made pursuant to this subpart. * * *

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—United States Standards for Grades of Canned Leafy Greens

CLASSIFICATION OF DEFECTS

Notice of a proposal to amend the United States Standards for Grades of Canned Leafy Greens (7 CFR 52.6081–52.6094) was published in the FEDERAL REGISTER of April 13, 1973 (38 FR 9302) with a correction there to in the FEDERAL REGISTER of May 7, 1973 (38 FR 11353). Interested persons were given until June 30, 1973 to submit written

V 38-143 JUL 26 73 XUM

comments concerning the proposed amendments.

This amendment is issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended, 7 U. S. C. 1624), which provides for the issuance of official U. S. grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this Act upon request and upon payment of a fee to cover the cost of such services.

NOTE: Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

STATEMENT OF CONSIDERATION LEADING TO THE AMENDMENT OF THE STANDARDS

The purpose of the amendment is to expand Table III of the standards to allow for the evaluation and classification of certain quality conditions that were not evident at the time that the standards were promulgated. This expansion of Table III of the standards would provide a classification guide for conditions such as tough leaves or coarse stems or fibrous stems.

No comments were received pertaining to the Notice of Proposed Rule Making.

Therefore, the United States Standards for Grades of Canned Leafy Greens are hereby amended as proposed on April 13, 1973 as corrected on May 7, 1973.

The amendment is as follows:

Section 52.6090, Table III is revised to read:

§ 52.6090 Classification of defects.

* * * * * *

TABLE III—WHOLE LEAF; CUT LEAF; CHOPPED STYLES

Quality factors	Defects	Minor	Major	Severe
Color	Color appearance is:			
	Adversely affected to a degree that is noticeable		×	
	Adversely affected to a degree that is objectionable			×
Character	Appearance or eating quality, due to:			
	(1) A mushy texture, disintegration, ragged cutting, or shredded leaves and shredded stems, or portions thereof;			
	and/or			
	(2) A tough texture, coarse, or fibrous stems or portions thereof;			
	and/or			
	(3) Any other causes, as applicable for the style, is:			
	Adversely, but not seriously, affected		×	
	Seriously affected			×
Extraneous plant material.	Root crown: Any significant portion of the solid area of the plant between the root and attached leaves.		×	
	Root stub: Any portion of the root whether or not leaves are attached.			×
	Seed head—Whole leaf; cut leaf styles: Longer than 1 inch or objectionable regardless of length.		×	
	Seed head—Chopped style—pieces affecting appearance or eating quality:			
	More than slightly but not materially		×	
	Materially			×
	Seriously			×
Other extraneous material.	Grit, sand, silt, or other earthy material:			
	A trace that no more than slightly affects appearance or eating quality		×	
	Presence materially affects appearance or eating quality			×

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624).

Effective date. The amendment to the United States Standards for Grades of Canned Leafy Greens which have been in effect since May 8, 1971 shall become effective September 1, 1973.

Dated: July 19, 1973.

JOHN C. BLUM,
Acting Administrator.

[FR Doc.73-15285 Filed 7-25-73;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 442]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 27–August 2, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.742 Valencia Orange Regulation 442.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is good. Prices f.o.b. averaged $3.27 per carton on a sales volume of 474 carlots during the week ended July 19, 1973, compared with $3.20 per carton on sales of 520 carlots a week earlier. Track and rolling supplies at 358 cars were up 86 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permtted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance

with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 24, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 27, 1973, through August 2, 1973, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: 475,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 25, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15551 Filed 7-25-73;12:02 pm]

[Peach Reg. 10]

PART 921—FRESH PEACHES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Regulation by Grades and Sizes

This regulation specifies the grade, size and pack requirements applicable to the handling of Washington peaches during the remainder of the 1973 season. These requirments are designed to provide consumers with an ample supply of acceptable quality peaches. Such requirements will require peaches to grade Washington Extra Fancy grade except that peaches packed in the western lug, the standard peach box, or approved experimental containers need only meet the requirements of the Washington Fancy grade. The minimum diameter is 2⅜ inches, except the minimum diameter for Elberta peaches in any container and peaches of any variety when packed in the standard peach box or approved experimental containers is 2¼ inches. All peaches are required to be well matured and have a reasonably uniform degree of firmness. Loose or jumble packs are permitted for containers of a capacity equal to that of a Western lug box if they contain 26 pounds net weight or are well filled.

Notice was published in the FEDERAL REGISTER issue of June 22, 1973 (38 FR 16362) that the Department was giving consideration to a proposal which would limit the handling of fresh peaches grown in designated counties in Washington by establishing regulations, pursuant to the applicable provisions of the marketing agreement and Order No. 921 (7 CFR Part 921) regulating the handling of fresh peaches grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

This regulation is based upon an appraisal of the current and prospective crop and market conditions. Washington's 1972 peach crop is estimated at 18,000 tons, compared with commercial production in 1972 of 13,750 tons. Total fresh market shipments are expected to be 11,200 tons. The regulation, as hereinafter set forth, is designed to prevent the handling on and after August 1, 1973, of lower quality and smaller size peaches and provide orderly marketing in the interest of producers and consumers, consistent with the objectives of the act.

Individual shipments, not exceeding 500 pounds, of peaches sold for home use and not for resale, subject to necessary safeguards, are excepted from said requirements in that the quantity of peaches so handled has been relatively inconsequential when compared with the total quantity handled.

The grade, size, and pack requirements for peaches in the specified containers are designed to provide identifiable packs of peaches which meet trade preferences. For example, it has been found that peaches of the Washington Fancy Grade, packed in Western lug boxes or standard peach boxes, compete successfully in distant markets with peaches of similar grade in such containers from other production areas. Washington peaches, except Elberta varieties, packed in standard peach boxes may be of a slightly smaller minimum size than such peaches shipped in other containers because such peaches must compete with peaches that are produced in other areas and marketed in the standard peach box with a minimum diameter of 2¼ inches. The requirement that loose or jumble packed Washington peaches be in containers of a capacity at least equal to the Western lug box and not less than 26 pounds net weight or be "well filled" prevents unfair competition through the marketing of such peaches packed in containers of smaller capacity. The provision that permits shipment of loose or jumble packs weighing less than 26 pounds if the containers are "well filled" reflects the fact that the larger sizes of such peaches may not always weigh 26 pounds, hence, the substitution of the "well filled" container requirement.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendation and information submitted by the committee, and upon other available information, it is hereby found that the limitation of handling of such peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of such peaches are now being made. Such peach shipments are subject to the same grade and size requirements until July 31, 1973 pursuant to Peach Regulation 9 (37 FR 12553). It is necessary to make this regulation effective on August 1, 1973, to provide for the continued regulation of the balance of the 1973 Washington peach crop;

(2) Notice of proposed rule making concerning this regulation, with an effective date as hereinafter specified, was published in the FEDERAL REGISTER (38 FR 16362), and no objection to this regulation or such effective date was received; and (3) compliance with this regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

§ 921.310 Peach Regulation 10.

(a) Order: During the period August 1, 1973, through July 31, 1974, no handler shall handle any lot of peaches unless such peaches meet the following applicable requirements, or are handled in accordance with subparagraph (7) of this paragraph:

(1) *Minimum grade.* Such peaches shall grade at least Washington Extra Fancy Grade: *Provided,* That peaches which grade Washington Fancy Grade, or better may be handled if they are packed in the Western lug box or the standard peach box.

(2) *Minimum size.* (i) Such peaches of any variety, except peaches of the Elberta varieties, packed in any container except the standard peach box, shall measure not less than 2⅜ inches in diameter;

(ii) Such peaches of any variety when packed in a standard peach box shall measure not less than 2¼ inches in diameter; and

(iii) Such peaches of the Elberta varieties, packed in any container shall measure not less than 2¼ inches in diameter.

(3) *Minimum maturity.* Such peaches shall be well matured, except that any lot of peaches shall be deemed to have met such minimum maturity requirement if not more than 25 percent, by count, of the peaches in such lot are mature but not well matured.

(4) *Uniform firmness.* Such peaches in individual containers shall have a reasonably uniform degree of firmness.

(5) *Pack.* (i) Such peaches in loose or jumble packs shall be in containers of a capacity equal to or greater than that of a Western lug box and shall contain not less than 26 pounds net weight of peaches: *Provided,* That such containers of peaches having less than 26 pounds net weight may be handled if such containers are well filled; and

(ii) Such peaches other than peaches in loose or jumble packs in any container shall meet the standard pack requirements as set forth in the Washington Standards for Peaches (Order No. 1212), or the U.S. Standards for Peaches (7 CFR 51.1210 et seq.).

(6) Notwithstanding the provisions of subparagraphs (1) through (5) hereof, shipments of peaches may be handled in such experimental containers as may

V 38 I 143 JUL 26 73 XUM

be approved by the committee: *Provided*, That (1) such shipments are under the supervision of the committee; (2) such peaches in such experimental containers grade at least Washington Fancy; (3) such peaches in such experimental containers measure at least 2¼ inches in diameter; and (4) such experimental containers commonly known as "family packs" contain not less than 10 pounds nor more than 12 pounds, net weight, of peaches.

(7) Notwithstanding any other provision of this section, any individual shipment of peaches sold by the producer or at an established packinghouse which meets each of the following requirements may be handled without regard to the provisions of this paragraph, of § 921.41 (Assessments), and of § 921.55 (Inspection and certification) if:

(i) The shipment consists of peaches sold for home use and not for resale;

(ii) The shipment does not, in the aggregate, exceed 500 pounds, net weight, of peaches; and

(iii) Each container is stamped or marked with the handler's name and address and with the words "not for resale" in letters at least one-half inch in height.

(b) The terms "Washington Extra Fancy Grade," "Washington Fancy Grade," and "mature" shall have the same meaning as when used in the Washington Standards for Peaches (effective October 18, 1971), issued by the State of Washington Department of Agriculture; the term "well matured" shall mean peaches which will yield very slightly to moderate pressure at the suture or blossom end, have shoulders and sutures that are well filled out, and have skin and flesh colored sufficiently that it will show characteristic varietal color when ripe; the term "loose or jumble pack" shall mean that the peaches are not placed in the container in rows, cups, compartments, or otherwise are not placed in the container in symmetrical order; the term "standard peach box" shall mean a container with inside dimensions of 4¼ to 6 by 11½ by 16 inches; the term "Western lug box" shall mean any container with inside dimensions of 7 by 11½ by 18 inches; the term "well filled" shall mean that the level of fruit is filled at least to the top edge of the container; the term "diameter" shall mean the greatest distance, measured through the center of the peach at right angles to a line running from the stem to the blossom end; and terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in the marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 20, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–15354 Filed 7–25–73;8:45 am]

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Handling Regulation

This regulation, designed to promote orderly marketing of Washington potatoes, imposes minimum quality standards and requires inspection of fresh shipments to keep low quality potatoes from being shipped to consumers.

Notice of rulemaking with respect to a proposed handling regulation to be made effective under Marketing Agreement No. 113 and Order No. 946, both as amended (7 CFR Part 946), regulating the handling of Irish potatoes grown in the State of Washington, was published in the FEDERAL REGISTER July 13, 1973 (38 FR 18670). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). Interested persons were afforded an opportunity to file written data, views, or arguments pertaining thereto not later than July 18, 1973. None was received.

Findings. After consideration of all relevant matter presented, including the proposal set forth in the aforesaid notice which was recommended by the State of Washington Potato Committee, established pursuant to said marketing agreement and order, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

The recommendations of the committee reflect its appraisal of the composition of the 1973 crop of Washington potatoes and of the marketing prospects for this season. The grade, size, cleanliness and maturity requirements provided herein, which are the same as those currently in effect (37 FR 13699) through July 31, 1973, are necessary to prevent potatoes of lesser maturities, low quality, or undesirable sizes from being distributed in fresh market channels. They will also provide consumers with good quality potatoes consistent with the overall quality of the crop.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

Shipments may be made to certain special purpose outlets without regard to minimum grade, size, cleanliness, and maturity requirements provided that safeguards are used to prevent such potatoes from reaching unauthorized outlets. Seed is so exempted because requirements for this outlet differ greatly from those for fresh market. Shipments for use as livestock feed are likewise exempt. Potatoes grown in the production area may be shipped without regard to the aforesaid requirements to specified locations in Morrow and Umatilla Counties, Oregon, for grading and storing. Since no purpose would be served by regulating potatoes used for charity purposes, such shipments are exempt. Exemption of potatoes for most processing uses is mandatory under the legislative authority for this part and therefore shipments to processing outlets are unregulated.

Export requirements differ materially, on occasion, from domestic market requirements. In commercial prepeeling, operators remove the surface defects from potatoes which would be undesirable for the tablestock market, and smaller sizes are acceptable. For these reasons potatoes for export and prepeeling are provided with different requirements.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of 1973 crop potatoes grown in the production area will begin by the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the effective period, (3) information regarding the provisions of this regulation, which are similar to those currently in effect (37 FR 13699), has been made available to producers and handlers in the production area since June 27, 1973, and (4) compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by such effective date.

The regulation is as follows:

§ 946.328 Handling regulation.

During the period August 1, 1973, through July 31, 1974, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a), (b), (c) and (g) of this section or unless such potatoes are handled in accordance with paragraphs (d) through (f) of this section.

(a) *Minimum quality requirements.* (1) *Grade.—All varieties*—U.S. No. 2, or better grade.

(2) *Size.* (i) *Round varieties*—1⅞ inches minimum diameter

(ii) *Long varieties*—2 inches minimum diameter or 4 ounces minimum weight.

(3) *Cleanliness.* All varieties—at least "fairly clean."

(b) *Minimum maturity requirements.*—(1) *Round and White Rose varieties.* Not more than "moderately skinned."

(2) *Other Long varieties (including but not limited to Russet Burbank and Norgold).* Not more than "slightly skinned."

(c) *Pack.* Potatoes packed in 50 pound cartons shall be U.S. No. 1, or better grade.

(d) *Special purpose shipments.* The minimum grade, size, cleanliness, maturity, and pack requirements set forth in paragraphs (a), (b) and (c) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Livestock feed;
(2) Charity;
(3) Export;
(4) Seed;
(5) Prepeeling;
(6) Canning, freezing, and "other processing" as hereinafter defined; or
(7) Grading or storing at any specific location in

Morrow and Umatilla Counties in the State of Oregon. Shipments of potatoes for the purposes specified in paragraph (d) (1), (2), (4), (5), (6), and (7) of this section shall be exempt from inspection requirements specified in paragraph (g) of this section and shipments specified in paragraph (d) (1), (2), (4), and (6) of this section shall be exempt from assessment requirements specified in § 946.41. *Provided:* That shipments pursuant to paragraph (d) (7) of this section shall comply with inspection requirements of paragraph (e) (2) of this section.

(e) *Safeguards.* (1) Handlers desiring to make shipments of potatoes for export or prepeeling shall:

(i) Notify the committee of intent to ship potatoes by appying on forms furnished by the committee for a certificate applicable to such special purpose shipments:

(ii) Prepare on forms furnished by the committee a special purpose shipment report on each such shipment. The handler shall forward copies of each such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for cancellation of such handler's certificate applicable to such special purpose shipments and/or the receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of such certificate, the handler may appeal to the committee for reconsideration. Such appeal shall be in writing.

(iii) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(2) Handlers desiring to make shipments for grading or storing at any specified location in Morrow and Umatilla Counties in the State of Oregon shall:

(i) Notify the committee of intent to so ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment. Upon receiving such application, the committee shall supply to the handler the appropriate certificate after it has determined that adequate facilities exist to accommodate such shipment and that such potatoes will be used only for authorized purposes;

(ii) If reshipment is for any purpose other than as specified in paragraph (d) of this section, each handler desiring to make reshipment of potatoes which have been graded or stored shall, prior to reshipment, cause each such shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Such shipments must comply with the minimum grade, size, cleanliness, maturity, and pack requirements specified in paragraphs (a), (b), and (c) of this section.

(iii) If reshipment is for any of the purposes specified in paragraph (d) of this section, each handler making reshipment of potatoes which have been graded or stored shall do so in accordance with the applicable safeguard requirements specified in paragraph (e) of this section.

(3) Each person desiring to transport potatoes for grading or storing to points in District No. 5 or to Spokane County in District No. 1 shall apply to the committee for and obtain a special purpose certificate authorizing such movement.

(4) Each handler making shipments of potatoes for canning, freezing, or "other processing" pursuant to paragraph (d) of this section shall:

(i) First apply to the committee for and obtain a special purpose certificate to make shipments for processing;

(ii) Make shipments only to either persons whose names appear on the list of potato canners, freezers or other processors of potato products maintained by the committee, or to persons not on the list provided the handler furnishes the committee, prior to such shipment, evidence that the receiver may reasonably be expected to use the potatoes only for canning, freezing or other processing.

(iii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable special purpose certificate;

(iv) Mail to the office of the committee a copy of the bill of lading for each special purpose certificate shipment promptly after the date of shipment;

(v) Bill each shipment directly to the applicable processor.

(5) Each receiver of potatoes for processing pursuant to paragraph (d) of this section shall:

(i) Complete and return an application form for listing as a canner, freezer or other processor of potato products;

(ii) Certify to the committee and to the Secretary that potatoes received from the production area for processing will be used for such purpose and will not be placed in fresh market channels;

(iii) Report on shipments received as the committee may require and the Secretary approved.

(f) *Minimum quantity exception.* Each handler may ship up to, but not to exceed 5 hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment over 5 hundredweight of potatoes.

(g) *Inspection.* Except when relieved by paragraphs (d) or (f) of this section, no handler may handle any potatoes regulated hereunder unless an appropriate inspection certificate has been issued by an authorized representative of the Federal-State Inspection Service with respect thereto and the certificate is valid at the time of shipment.

(h) *Definitions.* The terms "U.S. No. 2," "fairly clean," "slightly skinned" and "moderately skinned" shall have the same meaning as when used in the United States Standards for Grades of Potatoes (§§ 51.1540–51.1566 of this title (37 FR 2745)), including the tolerances set forth therein. The term "prepeeling" means potatoes which are clean, sound, fresh tubers prepared commercially in the prepeeling plant by washing, removal of the outer skin or peel, trimming, and sorting preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 (United States Standards for Grades of Peeled Potatoes §§ 52.2421–52.2433 of this title). The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch and flour. It includes the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or the application of material to prevent oxidation does not constitute "other processing." Other terms used in this section have the same meaning as when used in the marketing agreement, as amended, and this part.

(i) *Applicability to imports.* Pursuant to section 8e of the act and § 980.1 "Import regulations" (7 CFR 980.1), Irish potatoes of the red skinned round type imported during the months of July and August in the effective period of this section shall meet the minimum grade, size, quality and maturity requirements for round varieties specified in paragraphs (a) and (b) of this section.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated July 23 ,1973, to become effective August 1, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vetetable Division, Agricultural Marketing Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 71–CE–27–AD, Amdt. 39–1693]

PART 39—AIRWORTHINESS DIRECTIVES

Beech 33, 35, 36, 55, 56, 58 and 95 Series Airplanes

Amendment 39–1350 (36 FR 22809), AD 71–24–10, applicable to Beech Models 33, 35, 36, 55, 56, 58 and 95 series airplanes is an Airworthiness Directive (AD) which requires replacement of control wheel adapters on these model airplanes with adapters containing a double weld.

Subsequent to the issuance of AD 71–24–10, the manufacturer has advised that Beech Model F33 airplanes terminated with Serial Number CD–1254 instead of Serial Number CD–1264. These later Serial Numbers were inadvertently included in the applicability statement of the original AD and should be deleted. In addition, the manufacturer has developed improved control wheel adapters

V 38-143 JUL 26 73 XUM

(P/N 96–524029–31 and –33) which are approved equivalents to those now required for compliance with the AD and consequently are being included in this amendment as an alternative method of compliance. Finally, Beech Service Instructions No. 0254–156, which pertains to the subject matter of AD 71–24–10, has been revised to include these later designed parts and the AD as amended will reflect approval of later revisions. Accordingly, action is taken herein to incorporate the aforementioned changes.

Since this amendment is relaxatory in nature, provides an alternate method of compliance, and is in the interest of safety it imposes no burden on any person. Consequently, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1350 (36 FR 22809), AD 71–24–10, is amended in the following respects:

1. In the first sentence of Paragraph 1 of the applicability statement referring to "Serial Numbers Affected" for Models 35–C33, E33, F33 delete "CD–1264" and substitute therefor "CD–1254".

2. Revise the second sentence of the second paragraph of the AD so that it now reads as follows: "If the stamps cannot be seen on an adapter, replace it with either Beech P/N 96–524029–15 (short) or Beech P/N 96–524029–19 (long) control wheel adapters which have the aforementioned stamps, or in the alternative with Beech P/N 96–524029–31 (short) and 96–524029–33 (long) control wheel adapters, or with any equivalent part approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.".

3. In the sentence which reads: "Beechcraft Service Instruction No. 0254–156, Rev. III, pertains to this subject" delete the phrase "Rev. III" and substitute therefor the phrase "or later revision approved by Chief, Engineering and Manufacturing Branch, FAA, Central Region.".

This amendment becomes effective August 1, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on July 18, 1973.

JOHN R. WALLS,
Acting Director, Central Region.

[Airworthiness Docket No. 71–SW–4, Amdt. 39–1692]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 206A and 206B Helicopters

A proposal to amend § 39.13 of Part 39, Federal Aviation Regulations, Amendment 39–1280 (36 FR 17493), A.D. 71–18–4, to require the same inspection and repair of the main rotor blade, P/N 206–010–200–29, when installed on the Model 206B helicopter that is required for the Model 206A helicopters was published in 36 FR 22180.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1280 (31 FR 17493), A.D. 71–18–4 is amended by changing the applicability paragraph to read as follows:

Applies to Bell Models 206A and 206B helicopters certificated in all categories, equipped with main rotor blades, P/N 206–010–200–29.

This amendment becomes effective September 3, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on July 13, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73–15312 Filed 7–25–73;8:45 am]

[Airspace Docket No. 73–SW–29]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Designation of Federal Airways Segments and Jet Route Segments

On June 12, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 15456) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 75 of the Federal Aviation Regulations that would extend several Federal Airways and Jet Routes to the United States/Mexican border.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Parts 71 and 75 of the Federal Aviation Regulations are amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

1. Section 71.123 (38 FR 307 and 9488) is amended as follows:

a. In V–20 "From McAllen, Tex.," is deleted and "From Reynosa, Mex., via McAllen, Tex.;" is substituted therefor.

b. In V–163 "From Brownsville, Tex.," is deleted and "From Matamoros, Mex., via Brownsville, Tex.;" is substituted therefor.

c. In V–280 "From El Paso, Texas," is deleted and "From Ciudad Juarez, Mex., via El Paso, Tex.;" is substituted therefor. Also, "Kansas City, Mo., 274° radials; Kansas City." is deleted and "Kansas City, Mo., 274° radials; Kansas City. The airspace within Mexico is excluded." is substituted therefor.

d. V–359 is added to read: "V–359 From Nuevo Laredo, Mex., to Laredo, Tex., excluding the airspace within Mexico."

2. Section 75.100 (38 FR 681) is amended as follows:

a. Jet Route No. 11 is amended to read:

Jet Route No. 11 From the INT of the United States/Mexican border and the Tucson, Ariz., 185° radial via Tucson; INT Tucson 316° and Phoenix, Ariz., 161° radials; Phoenix; Prescott, Ariz.; Bryce Canyon, Utah; Fairfield, Utah; to Salt Lake City, Utah.

b. Jet Route No. 13 is amended to read:

Jet Route No. 13 From the INT of the United States/Mexican border and the Truth or Consequences, N. Mex., 162° radial via Truth or Consequences; Albuquerque, N. Mex.; Alamosa, Colo.; Denver, Colo.; Cheyenne, Wyo.; Crazy Woman, Wyo.; Billings, Mont.; Great Falls, Mont.; to INT of the Great Falls 339° radial and the United States/Canadian Border.

c. Jet Route No. 22 is amended to read:

Jet Route No. 22 From Monterrey, Mexico, via Laredo, Tex.; Corpus Christi, Tex.; Palacios, Tex.; Lake Charles, La.; McComb, Miss.; Meridian, Miss.; Birmingham, Ala.; Knoxville, Tenn.; Pulaski, Va.; to Gordonsville, Va. The airspace within Mexico is excluded.

d. Jet Route No. 25 is amended to read:

Jet Route No. 25 From Matamoros, Mex., via Brownsville, Tex.; INT of the Brownsville 357° and the Corpus Christi, Tex., 179° radials; Corpus Christi; INT of the Corpus Christi 311° and the San Antonio, Tex., 167° radials; San Antonio; Austin, Tex.; Waco, Tex.; Greater Southwest, Tex.; Tulsa, Okla.; Butler, Mo.; INT of the Butler 009° and the Des Moines, Iowa, 196° radials; Des Moines; Mason City, Iowa; to Minneapolis, Minn. The airspace within Mexico is excluded.

e. Jet Route No. 26 is amended to read:

Jet Route No. 26 From Ciudad Juarez, Mex., via E Paso, Tex.; INT of E Paso 070° and Roswell, N. Mex., 215° radials; Roswell; Amarillo, Tex.; Gage, Okla.; Wichita, Kans.; Kansas City, Mo.; Kirksville, Mo.; Bradford, Ill.; to Joliet, Ill. The airspace within Mexico is excluded.

f. Jet Route No. 29 is amended to read:

Jet Route No. 29 From Tampico, Mex., via Brownsville, Tex.; INT Brownsville 357° and Corpus Christi, Tex., 179° radials; Corpus Christi; Palacios, Tex.; Humble, Tex.; Lufkin, Tex.; Shreveport, La.; Memphis, Tenn.; Evansville, Ind. INT Evansville 051° and Rosewood, Ohio, 230° radials; Rosewood; Cleveland, Ohio; Jamestown, N.Y.; Syracuse, N.Y.; Plattsburg, N.Y.; Bangor, Maine, to Presque Isle, Maine. The airspace within Mexico is excluded.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 19, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–15309 Filed 7–25–73;8:45 am]

[Airspace Docket No. 73–NE–22]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Administration Regulations so as to alter the Quonset Point, Rhode Island, Control Zone (38 FR 414).

The Department of the Navy has decommissioned the Quonset Point VOR at the Naval Air Station, Quonset Point, Rhode Island. This action permits reduction of the Quonset Point, Rhode Island, Control Zone.

Since this amendment restores airspace to the public use and is less restrictive, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than thirty (30) days.

In view of the foregoing, the Federal Aviation Administration, having completed review of the airspace requirements in the terminal airspace of the Quonset Point, Rhode Island, Control Zone, amends Part 71 of the Federal Aviation Administration Regulations effective on July 26, 1973, as hereinafter set forth:

1. Amend § 71.171 of the Federal Aviation Administration Regulations by deleting the existing description of the Quonset Point, Rhode Island, Control Zone and inserting the following in lieu thereof:

That airspace within a 5-mile radius of NAS Quonset Point (Latitude 41°35'55"N, Longitude 71°24'50"W), within 3.5 miles each side of the NAS Quonset Point TACAN 151° Radial, extending from the 5-mile radius zone to 7 miles southeast of TACAN, excluding that portion within the Providence, Rhode Island, Control Zone.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts on July 17, 1973.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.73–15307 Filed 7–25–73;8:45 am]

[Airspace Docket No. 73–EA–27]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Jet Route

On May 10, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 12216) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would realign Jet Route 152 from Harrisburg, Pa., to Bucktown, Pa.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

In § 75.100 (38 FR 681) Jet Route No. 152 is rewritten as follows:

JET ROUTE No. 152

From Capital, Ill., via INT Capital 091° and Rosewood, Ohio, 263° radials; Rosewood; Johnstown, Pa.; Harrisburg, Pa.; to INT Harrisburg 099° and Westminster, Md., 058° radials.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 19, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–15308 Filed 7–25–73;8:45 am]

[Docket No. 13041, Amdt. 874]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective September 6, 1973:

Madison, Wisc.—Truax Field, VOR Rwy 13, Amdt. 8
Madison, Wisc.—Truax Field, VOR Rwy 18, Amdt. 7
Madison, Wisc.—Truax Field, VOR Rwy 31, Amdt. 9
Stormville, N.Y.—Stormville Arpt., VOR–A, Amdt. 2

• • • effective August 9, 1973:

Bethel, Alas.—Bethel Municipal Arpt., VOR Rwy. 18, Amdt. 7

• • • effective July 12, 1973:

Phoenix, Ariz.—Phoenix Sky Harbor Int'l Arpt., VOR/DME Rwy 8R, Amdt. 7

2. Section 97.25 is amended by originating, amending, or canceling the following SDF–LOC–LDA SIAPSs, effective September 6, 1973:

Madison, Wisc.—Truax Field, LOC (BC) Rwy 18, Amdt. 4

• • • effective August 30, 1973:

Bedford, Mass.—L. G. Hanscom Field, LOC (BC) Rwy 29, Amdt. 3, Canceled
Niagara Falls, N.Y.—Niagara Falls Int'l Arpt., LOC (BC) Rwy 10, Original

• • • effective July 13, 1973:

Cordova, Alas.—Cordova Mile 13 Arpt., LOC/DME Rwy 27, Amdt. 6

[Airspace Docket No. 73-EA-43]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation, Alteration and Designation of VOR Federal Airways

On July 5, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 17848) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would restructure 26 VOR Federal Airways in the Washington, D.C., Metropolitan Area.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. All comments received were favorable.

The relocation of a portion of V-265 between Westminster, Md., and Harrisburg, Pa., was inadvertently omitted in the NPRM. Since the FAA is revoking V-143N, V-223, and the reporting point in the vicinity of the Hampton Intersection, the dogleg in V-265 is no longer required. By realigning V-265 as a direct route between Westminster and Harrisburg, the reduced mileage will improve the flow of traffic. Since this realignment is a minor change in which the public is not particularly interested, notice and public procedure thereon are unnecessary and action may therefor be accomplished in this docket.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 13, 1973, as hereinafter set forth.

1. Section 71.123 (38 FR 307, 4388, 9488, 10439, 13478, 15622, and 37 FR 23631, 28502) is amended as follows:

a. In V-3 "Flat Rock; Brooke, Va.; 6-mile wide, INT Brooke 014° and Westminster, Md., 195° radials; 6-mile wide, Westminster; INT Westminster 065° and Modena, Pa., 250° radials; Modena;" is deleted and "Flat Rock; Gordonsville, Va.; Linden, Va.; Front Royal, Va.; Martinsburg, W. Va.; Westminster, Md.; Modena, Pa.;" is substituted therefor.

b. In V-4 "Herndon, Va." is deleted and "to INT Front Royal 105° and Casanova, Va., 047° radials." is substituted therefor.

c. In V-9 "INT Herndon, Va., 048° and Washington, D.C., 324° radials; Washington, including a north alternate from Grantsville to INT Washington 324° and Herndon 048° radials via Hagerstown, Md." is deleted and "to Washington, D.C., including a north alternate from Grantsville to the INT of Hagerstown, Md., 157° and the Martinsburg 130° radials via Hagerstown," is substituted therefor.

d. In V-16 "Gordonsville, Va., including a N alternate from Roanoke to Gordonsville via INT Roanoke 035° and Montebello, Va., 250° radials and Montebello, and also a S alternate from Pulaski to Gordonsville via INT Pulaski 094° and Lynchburg Va., 253° radials and Lynchburg; Nottingham, Md.; 6-mile wide, Kenton, Del.;" is deleted and "Lynchburg, Va.; including a S alternate via INT Pulaski 094° and Lynchburg 253° radials; Flat Rock, Va.; Richmond, Va.; INT Richmond 039° and Patuxent, Md., 228° radials; Patuxent; Kenton, Del.;" is substituted therefor.

e. In V-39 "INT Gordonsville, 019° and Casanova, Va., 201° radials; Casanova; Herndon, Va.; including an E alternate from Gordonsville to Herndon via INT Herndon 202° and Brooke, Va., 300° radials; Westminster, MD.;" is deleted and "Linden, Va.; including an E alternate via Casanova, Va.; Front Royal, Va.; Martinsburg, W. Va.;" is substituted therefor.

f. In V-93 "Lancaster, Pa.;" is deleted and "Lancaster, Pa.; including an E alternate via the INT of Baltimore 034° and Lancaster 181° radials;" is substituted therefor.

g. In V-123 "From Washington, D.C.," is deleted and "From" is substituted therefor.

h. In V-140 "Casanova, Va.; Herndon, Va.; INT Herndon 061° and Modena, Pa., 234° radials; Modena." is deleted and "to Casanova, Va." is substituted therefor.

i. In V-143 "Lancaster, Pa., including a north alternate via INT Martinsburg 044° and Lancaster 256° radials;" is deleted and "Lancaster, Pa.; including an S alternate via Westminster, Md.;" is substituted therefor.

j. In V-144 "Linden, Va.; INT Linden 104° and Herndon, Va., 185° radials." is deleted and "to Linden, Va." is substituted therefor.

k. In V-155 "Gordonsville, Va.; Linden, Va.; Front Royal, Va." is deleted and "to Brooke, Va." is substituted therefor.

l. In V-157 all after Richmond, Va.; is deleted and "INT Richmond 039° and Patuxent, Md., 228° radials; Patuxent; Kenton, Del.; New Castle, Del.; Robbinsville, N.J.; Colts Neck, N.J.; to Kingston, N.Y. The airspace within R-66022 is excluded" is substituted therefor.

m. In V-162 "From Harrisburg, Pa.," is deleted and "From INT Martinsburg, W. Va., 130° and Harrisburg, Pa., 204° radials; via Harrisburg;" is substituted therefor.

n. In V-174 "INT Linden 104° and Herndon, Va., 185° radials." is deleted and "INT Linden 104° and Casanova, Va., 348° radials." is substituted therefor.

o. In V-222 "INT Brooke 045° and Richmond, Va., 009° radials." is deleted and "to INT Brooke 045° and Richmond, Va., 009° radials; including an N alternate from Lynchburg via Gordonsville, Va." is substituted therefor.

p. V-223 is amended to read as follows:

"From Flat Rock, Va.; to INT Flat Rock 005° and Brooke, Va., 300° radials." is substituted therefor.

q. In V-265 "From INT Nottingham, Md., 271° and Westminster, Md., 179° radials; Westminster; INT Westminster 346° and Harrisburg, Pa., 196° radials; Harrisburg;" is deleted and "From INT Washington, D.C., 043° and Westminster, Md., 179° radials; via Westminster; Harrisburg, Pa.;" is substituted therefor.

r. In V-286 "From Linden, Va., Casanova, Va.; INT Herndon, Va., 202° and Brooke, Va., 300° radials; Brooke; Cape Charles, Va.:" is deleted and "From INT Linden, Va., 273° and Casanova, Va., 284° radials, via Casanova; INT Casanova 142° and Brooke, Va., 300° radials; Brooke; to Cape Charles, Va.:" is substituted therefor.

s. In V-308 "From INT Linden, Va., 273° and Casanova, Va., 284° radials, Casanova; INT Casanova 076° and Nottingham, Md., 271° radials; Nottingham; Sea Isle, N.J.;" is deleted and "From INT Kenton, Del., 217° and Sea Isle, N.J., 256° radials, via Sea Isle;" is substituted therefor.

t. In V-433 "From Washington, D.C., INT Baltimore, Md., 223° and Kenton, Del., 262° radials;" is deleted and "From INT Baltimore, Md., 223° and Kenton, Del., 262° radials, via" is substituted therefor.

u. In V-501 "From Martinsburg, W. Va.," is deleted and "From Martinsburg, W. Va., via Hagerstown, Md.;" is substituted therefor.

v. "V-375 From Roanoke, Va., via Gordonsville, Va.; including a N alternate via the INT Roanoke 035° and Montebello, Va., 250° and Montebello, Va.; to INT Gordonsville 034° and Casanova, Va., 142° radials." is added.

z. "V-379 From Nottingham, Md.; to INT Richmond 009° and Nottingham, Md., 238° radials. The airspace within R-6612 is excluded." is added.

x. "V-377 From Kessel, W. Va., via INT Kessel 055° and Hagerstown, Md., 267° radials; Hagerstown; to Harrisburg, Pa." is added.

y. "V-378 From Baltimore, Md., via INT Baltimore 034° and Modena, Pa., 236° radials; to Modena." is added.

z. "V-379 From Nottingham, Md.; to Kenton, Del." is added.

2. § 71.203 (38 FR 606) is amended as follows:

a. "Hampton INT; INT Harrisburg, Pa., 196°, Lancaster, Pa., 256° radials." is deleted.

b. "Herndon, Va." is deleted.

c. "Norris INT: INT Modena, Pa., 250°, Lancaster, Pa., 178° radials." is deleted.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 23, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

CHAPTER II—CIVIL AERONAUTICS BOARD

[Reg. ER-808, Amdt. 18]

PART 298—CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

Deletion of Insurance Posting Requirement

In notice of proposed rulemaking EDR-247,[1] the Board proposed to amend Part 298 of its Economic Regulations (14 CFR Part 298) to delete the insurance posting requirement for air taxi operators.

The only comment in response to the rulemaking notice was filed by the National Air Transportation Conferences, Inc.,[2] and that comment supports the proposed rule. Accordingly, we have determined to adopt the rule as proposed, and we incorporate herein the tentative findings made in EDR-247.

Since this rule relieves a restriction and no person has objected to its adoption after notice and public procedure were had thereon, the Board finds that the amendment may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 298 of the Economic Regulations (14 CFR Part 298) as follows:

Amend § 298.41 by deleting and reserving paragraph (d) as follows:

§ 298.41 Basic requirements.

• • • • •

(d) [Reserved].

• • • • •

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

Adopted and Released: July 23, 1973.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15376 Filed 7-25-73;8:45 am]

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER B—REGULATIONS UNDER THE FEDERAL POWER ACT

[Docket No. R-463; Order No. 487]

PART 35—FILINGS OF RATE SCHEDULES

Filing of Electric Service Tariff Changes

JULY 17, 1973.

On December 14, 1972, we noticed (37 FR 28195 December 21, 1972) a proposed amendment to § 35.13 of the regulations under the Federal Power Act to require (a) all electric utilities that apply for rate increases in excess of $50,000 annually to file unadjusted cost of service data for the most recent twelve consecutive months of actual experience plus estimated cost data for the twelve month period beginning three months after the end of the twelve months of actual data and (b) to add a new § 35.8(a) to provide for the filing of a form of public notice with each tariff change.

In the notice we expressed our expectation that this proposed information would enable the Commission to consider data more suitable for the determination of rates for future use than under present methods. Section 35.13(b)(4)(iii) of our present regulations under the Federal Power Act requires a cost of service for a test period of twelve consecutive months of available actual experience and provides for the submittal of information regarding any significant changes in facilities, operations or costs which will become effective within eight months of the last month of available actual experience.

Interested persons were invited to submit on or before February 28, 1973,[1] comments or suggestions in writing regarding the proposed amendments and to indicate whether they request a conference.

Eighty-seven respondents[2] filed comments with respect to the proposed rulemaking. Among the respondents were several senators and congressmen, cooperatives, municipal systems, investor-owned utilities, and State associations many of whom submitted their comments directly or through their congressmen and senators or both.[3] In addition six trade associations, five law firms representing utilities and two individuals submitted comments on the proposed rulemaking.

The responding cities, cooperatives, and associations of cities or cooperatives expressed opposition to this proposed rulemaking. Generally these parties complain that the filing of estimated cost of service data would lead to speculative and inflated estimates, would be difficult to challenge and, would result in more complex rate cases. A few of the cities maintain that the data based on estimated costs is in violation of the Economic Stabilization Act.

Of the senators and congressmen who did respond to the rulemaking, most were referring objections filed by officials of various municipal and cooperative utilities. The comments from these officials are essentially the same as those of the municipals and cooperatives who filed their objections directly with the Commission. Five requested recision of the proposed rule.

The American Public Power Association (APPA) and Consumer-Owned Systems (COS) filed objections to the rulemaking which we summarize as follows: companies may overstate revenue requirements and selectively withhold information; the rulemaking would cause uncertainty and a flood of new cases; no method for estimation would be set forth; since all the parties may have different methods, the problems arising in interpreting actual cost data will be amplified; it is difficult to estimate allocation factors; and the data proposed in the rulemaking would involve too much "guess work".

In the alternative APPA and COS suggest that companies be required to file a billing comparison between retail and resale customers; that if a utility files for rate increases which would exceed a reasonable return the Commission must reject the filing; that actual data for the test year be served on all parties whether or not a proceeding is pending; and that

[1] May 24, 1973, 38 FR 14294, Docket 25568.
[2] The air taxi trade association whose petition initiated this proceeding.

[1] The notice originally prescribed a comment date of January 29, 1973, which, upon motion of the American Public Power Association (APPA) for an extension of the date until April 30, 1973, was extended until February 28, 1973. By a notice issued on the motion of the Cities of Bedford, et al. for extension of time until March 29, 1973, was denied.

[3] See Appendix B.

V 38 143 JUL 26 73 XUM

if actual figures are less than estimated figures the Commission order immediate refunds.

The prospective test year we are proposing herein is essentially the same type of test period already provided for in our regulations under the Natural Gas Act. Under this proposal, the test period would be reasonably representative of sales, plant, depreciation and other costs when the rates become effective and will provide a test period more suitable for the determination of rates for future use than under present methods.

The effect of the Period I and Period II data will be to create a test period which in most cases will represent costs six months prior to and six months after a rate change would become effective. Parties objecting to the proposal on the grounds that the estimated cost of service data is to speculative, too easy to inflate, and too difficult to challenge overlook the fact that such problems have been avoided in the natural gas aspects of our jurisdiction. Moreover, under the Federal Power Act and current filing regulations thereunder, electric utilities are permitted to file virtually any level of costs and rates and after a period of suspension charge those rates subject to refund, pending Commission decision. If after an evidentiary hearing, decision and opinion the filed rates are determined to be unjust or unreasonable refunds will be ordered in the manner provided in the Federal Power Act.

It is also important to note, in response to the concern of many objectors to this rulemaking, that we will not approve rates based on unsubstantiated cost estimations. The burden will be on such companies to establish the validity and accuracy for each of their cost estimates. In addition, these estimates will be subject to full due process standards including discovery, presentation of evidence, briefing, decision and opinion. We are opposed to the concept inherent in each suggestion that would require automatic action on the part of companies or the Commission without benefit of an official record or opportunity for hearing. For example, the suggestion that rate increases "exceeding a reasonable return" be rejected is too restrictive and unreasonably limits our discretion as well as depriving the company of its rights to make its case. Likewise, the idea that if actual costs are less than estimated costs automatic refund of the difference be ordered is too inflexible and restrictive and would result in further prolonging rate proceedings.

In addition, the rates of utilities under our jurisdiction are subject to continual scrutiny and Section 206 of the Federal Power Act provides adequate recourse for excessive rates. Furthermore the test period approach to ratemaking has been upheld by the courts. Cf. *FPC* v. *El Paso*, 449 F2d 1245 (5 CA 1971) wherein the court said that rates based on test period methodology need not necessarily be adjusted due to the existence of actual figures.

We disagree with the complaint that this rulemaking will increase the complexity of rate proceedings. It is our goal and hope that the adoption of this proposed test year will enable us to establish rates more in line with costs and lend itself to greater rate stability thus mitigating the frequency of rate increase filings. More importantly however, we believe it is essential to the public interest that rates reflect the present costs of providing service in order that we may insure a continuing and adequate supply of electric energy to meet the public's ever increasing power requirements.

Contrary to the comments of several respondents, we are not persuaded that the use of a prospective test year will be inflationary. That argument indicates a basic misunderstanding of this rulemaking. The rate level we allow must be one in which proposed costs are supported by an evidentiary record. Moreover, since the estimated costs we may ultimately allow will be cost justified, they will be in compliance with the Economic Stabilization program.

Each of the companies filing comments expressed overall approval of the rulemaking. Generally, this approval was supported by the following rationale: the proposal would reduce the effects of regulatory lag, would place emphasis on present rather than past costs, and that during a period of increasing costs and plant expansion it is important to have such costs reflected in rates.

A few companies while expressing approval of the rulemaking said it would be hard to develop unadjusted cost of service data and that since Period II is close to Period I the benefits of the projected costs might be limited.

Several companies while indicating approval stated that the three months between Period I and Period II is too short. It was suggested that the Period II be made more flexible by limiting Period II to any twelve month period but no later than the proposed effective date. Others hoped for Period II to begin the first full month following the proposed effective date and a few companies want Period II to commence when billings under proposed rates are first made. Upon further review of the make up of Period II, we conclude that that period should be made more flexible by designating it as any twelve consecutive month period beginning after Period I but no later than the date on which the new rates become effective. This change will permit companies to file costs projected on a calendar year basis if they so desire.

Some companies recommended that Period I should be not more than four to six months prior to the filing date of a rate case. Others indicated that it would facilitate the compilation of cost of service data if Period I were the most recent calendar year and Period II were the first full calendar year after the effectiveness of the new rates. Our review of the comments which suggest changes to the proposed Period I does not alter our belief that Period I should be the most recent twelve months of actual experience. With Period I so described, we will have the most recent available data with which to analyze the normality or abnormality of estimated costs *vis a vis* actual historical experience.

EEI recommends however that Period II be the first 12 months of operations under a proposed rate. To this end EEI suggests that Period II commence 60 days after the date of filing, and in addition, the Commission adopt the use of one-day suspension periods. EEI questions whether Period I is useful and recommends that if the Period I and Period II approach is adopted, that Statements M and N be eliminated from the filing requirements under Period I. Finally EEI suggests an amendment to § 35.13 (b) (4) (iii) of the Regulations under the Federal Power Act to make it clear the Commission will entertain requests for waiver of any portion of the regulation for good cause shown. Our adoption of a Period II consisting of any twelve consecutive months after Period I but no later than the date the rates are proposed to become effective appears to include EEI's recommendation for Period I. With respect to the suggestion that Statements M and N be eliminated for Period II, we disagree as stated heretofore that for analytical and comparative purposes the filing requirements should be the same for both Periods. This rule does not increase nor diminish any parties' right to request waiver of the filing requirements for good cause.

One company suggests some relaxation of the detailed filing requirements so that forecasted Statements A, F and J be limited to major classifications. For historical data it is recommended that Schedules L, M and N be eliminated since the adjusted aspects thereof would be reflected in the estimated data. We believe that in order to adequately compare actual with estimated data it is necessary to have the detail support for both prospective and historical filing Statements.

Bangor Electric complained that the Period II filing requirement placed a heavy burden on smaller companies. We acknowledge that such a burden may exist and shall therefore make the filing requirements for Period II voluntary for companies with applications for increases less than one million dollars.

Iowa-Illinois Gas and Electric Company requests that § 35.13(b)(1) be revised so that billing data is synchronized with Period I and II. We will still request the filing data to be filed as before, since Period I and II will be utilized to ascertain the revenues effect of the proposed rate increase.

Some respondents request that the Commission adopt a one-day suspension procedure. This suggestion is outside the scope of the proposed rule. Moreover this request would restrict the breadth of our suspension authority under the Federal Power Act and unduly limit our discretion in exercising such authority.

Arizona Public Service questions whether Statement C for Period II conflicts with the Securities and Exchange Act which prohibits estimates of future earnings. Since a regulated utilities earnings depend on what the Federal Power Commission allows, an estimate of future earnings can readily be checked to see if it is unreasonably inflated *vis a vis* what the Commission has allowed other utilities. Therefore we see no conflict with the Securities and Exchange Act.

On June 5, 1973, APAA filed a document entitled "Comments on Behalf of The American Public Power Association". This filing, except for the addition of an Appendix C therein (Proposed Revision of § 35.13 of the regulations under the Federal Power Act), is essentially the same as APPA's previous filing of March 1, 1973. APPA's original written comments have already been considered. In view of this, and the untimeliness of APPA's June 5 filing, and the fact that revision of § 35.13 of the Regulations is beyond the scope of this rulemaking, comment on the June 5 filing is not necessary at this time. We recognize that review of our regulations under the Federal Power Act may be in order sometime in the future.

In light of the scope of numerous responses we have received opposing and supporting this rulemaking we believe we have had the benefit of complete commentary on all the issues and that all parties have had adequate opportunity to present their views on the rulemaking. However, in order to assure all parties an opportunity to express their views a conference was held in this rulemaking on June 5, 1973. At this conference, comments of the various parties were substantially the same as the written comments previously filed and discussed above.[4] Some parties did indicate that the filing requirements should include a provision for the filing of work papers along with the rate increase application. We believe that this may be an appropriate request. We believe that upon review of all the comments filed and those received at conference that adoption of the subject proposal is in the public interest.

In order to allow orderly transition to the prospective test period we will not make the requirements adopted herein mandatory for three months from the date of issuance of this order.

The second portion of the proposed rulemaking relates to an amendment to our Regulations under the Federal Power Act § 35.8(a) which would require each electric public utility filing any tariff change with the Commission to include in its filing a notice of the proposed change, suitable for publication in the Federal Register, which will briefly summarize the facts contained in the filing in such a way as to acquaint the public with its scope and purpose.

We believe that this amendment will facilitate the processing of tariff change filings. It is our intent that any change to a tariff on file with the Commission include the form of notice described above.

The Commission finds:

(1) The notice and opportunity to participate in this rulemaking proceeding with respect to matters presently before this Commission through the submission, in writing, of data, views, comments, and suggestions in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments to § 35.13(b)(4)(iii) and § 35.8 in Chapter I, Title 18 of the Code of Federal Regulations, herein prescribed, are necessary and appropriate for the administration of the Federal Power Act.

(3) Since the amendments prescribed herein, which were not included in the notice of this proceeding, are of a minor nature and consistent with the prime purpose of the proposed rulemaking, further compliance with the notice provision of 5 U.S.C. 553 is unnecessary.

(4) Since the amendments proposed herein make the reporting and filing process more complete and informative, good cause exists for making these amendments effective upon issuance of this order.

The Commission acting pursuant to the provisions of the Federal Power Act, as amended, particularly sections 205, 301, 303, 304 and 309 (40 Stat. 854, 855), *orders:*

(A) Section 35.13(b)(iii) and (iv) of the regulations under the Federal Power Act (Part I Chapter C Title 18 of the Code of Federal Regulations is amended by deleting present § 35.13(b)(4), parts (iii) and (iv), and substituting the following as part (iii):

§ 35.13 Filing of changes in rate schedules.

* * * * *

(b) * * *

(4) (iii) The statement of the cost of service should contain unadjusted system costs for the most recent twelve consecutive months for which actual data are available (Period I) including return, taxes, depreciation, and operating expenses, and an allocation of such costs to the service rendered. The statement of cost of service shall include an attestation by the chief accounting officer or other accounting representative of the filing public utility that the cost statements and supporting data submitted as a part of the filing which purport to reflect the books of the public utility do, in fact, set forth the results shown by such books. Following is a description of statements A through O required to be filed pursuant to this subparagraph. In addition, the public utility shall file statements A through O together with related work papers based on estimates for any twelve consecutive months beginning after the end of Period I but no later than the date the rates are proposed to become effective (Period II). Full explanation of the bases of each of the estimated figures shall be included, Period II shall be the "test period".

* * * * *

In Statements A, B, C, D, E, F, H, I, J, K, L, M, and N, wherever the expression "the test period" is used, substitute the expression "Periods I and II".

(B) In Statement G sections (a) and (b), change the phrase "as of the date of the most recently available balance sheet" to "as of the end of Period I and estimated to be outstanding as of the end of Period II". In section (c), change the phrase "preceding the date of the most recently available balance sheet" to "preceding the end of Period I". Provide estimates of similar data for each projected sale of common stock during the time between the end of Period I and the end of Period II, except that the data in the last three columns of the table may be omitted for this latter period.

In § 35.13(b)(5)(i), change the phrase "subparagraph (4)(iv) of this paragraph" to "subparagraph (4)(iii) of this paragraph".

(C) That the regulations under the Federal Power Act are hereby amended to add a § 35.8(a) as follows:

§ 35.8 Comments by interested parties.

(a) *Form of notice for* FEDERAL REGISTER. The public utility shall file a form of notice suitable for publication in the FEDERAL REGISTER which shall be in the following form:

UNITED STATES OF AMERICA
FEDERAL POWER COMMISSION

Name of Utility) Docket No.

NOTICE OF TARIFF CHANGE

Take notice that (name of public utility), on (date), tendered for filing proposed changes in its FPC Electric Service Tariff, (Volume Nos.), [The following language in the first paragraph applies only to increased rate filings]. The proposed changes would increase revenues from jurisdictional sales and service by (amount) based on the 12 month period ending (date). [If changes other than increased rates and charges are proposed, the public utility shall concisely state the nature of these changes].

[The public utility shall briefly describe the reasons for the proposed changes in the second paragraph].

Copies of the filing were served upon the public utility's jurisdictional customers, (other parties the public utility served, *inter alia*, state public service commissions, other government agencies, etc.).

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before . Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[4] See Appendix C, herein.

V 38 I 143 JUL 26 73 XUM

(D) The filing requirements of Period II herein are voluntary for companies with applications for increases less than one million dollars.

(E) The filing requirements ordered herein will become effective ninety days from the date of issuance of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

PART 9—COLOR CERTIFICATION

D&C Brown No. 1 and External D&C Violet No. 2

By an order published in the FEDERAL REGISTER on March 15, 1973 (38 FR 7006), the color additives D&C Brown No. 1 and External D&C Violet No. 2 were restored to the provisional lists and restricted to use for coloring externally-applied cosmetics.

The Commissioner of Food and Drugs finds that additional specifications are needed to define the identity of these color additives and provide certification criteria, pending determination as to the permanent listing of the additives under section 706 of the Federal Food, Drug, and Cosmetic Act.

Therefore, pursuant to provisions of Title II of the Color Additive Amendments of 1960 (sec. 203(a)(2)); Public Law 86–618; 74 Stat. 404 et seq.; 21 U.S.C. 376 note), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 8 and 9 are amended as follows:

1. In § 8.501 by amending the entry for the item, D&C Brown No. 1, in paragraph (b), and by amending the entry for the item, External D&C Violet No. 2, in paragraph (c) to read as follows:

§ 8.501 Provisional lists of color additives.

* * * * *

(b) *Color additives previously and presently subject to certification and provisionally listed for drug and cosmetic use.*

	Closing date	Restrictions
* * *	* * *	* * *
D&C Brown No. 1 (§ 9.230 of this chapter).	Dec. 31, 1973, or until a new closing date is established.	For coloring externally applied cosmetics.
* * *	* * *	* * *

(c) *Color additives previously and presently subject to certification and provisionally listed for use in externally applied drugs and cosmetics.*

	Closing date	Restrictions
* * *	* * *	* * *
Ext. D&C Violet No. 2 (§ 9.411 of this chapter).	Dec. 31, 1973, or until a new closing date is established.	For coloring externally applied cosmetics.
* * *	* * *	* * *

2. New §§ 9.230 and 9.411 are added to read as follows:

§ 9.230 D&C Brown No. 1.

A mixture of the sodium salts of p-[[2,4 - dihydroxy - 5 - (alkylphenylazo) phenyl]azo] benzenesulfonic acids where the alkyl group is dimethyl or monoethyl.

Volatile matter (at 135° C.), not more than 10.0 percent.

Water insoluble matter, not more than 0.2 percent.

Chlorides and sulfates (calculated as sodium salts), not more than 6.0 percent.

Subsidiary colors, not more than 1.0 percent.

Sulfanilic acid, not more than 0.2 percent.

Resorcinol, not more than 0.2 percent.

Xylidines, not more than 0.2 percent.

Disodium salt of p-[[2,4-dihydroxy-5-(4-sulfophenylazo) phenyl]azo] benzenesulfonic acid, not more than 3.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(2,4-xylylazo) phenyl]azo] benzenesulfonic acid, not less than 29.0 percent and not more than 39.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(2,5-xylylazo) phenyl]azo] benzene sulfonic acid, not less than 12.0 percent and not more than 17.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(2,3-xylylazo) phenyl]azo] benzenesulfonic acid, not less than 6.0 percent and not more than 13.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(2-ethylphenylazo) phenyl]azo] benzenesulfonic acid, not less than 5.0 percent and not more than 12.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(3,4-xylylazo) phenyl]azo] benzenesulfonic acid, not less than 3.0 percent and not more than 9.0 percent.

V 38 I 143 JUL 26 73 XUM

Monosodium salt of p-[[2,4-dihydroxy-5-(2,6-xylylazo) phenyl]azo] benzenesulfonic acid, not less than 3.0 percent and not more than 8.0 percent.

Monosodium salt of p-[[2,4-dihydroxy-5-(4-ethylphenylazo) phenyl]azo] benzenesulfonic acid, not less than 2.0 percent and not more than 8.0 percent.

Total color, not less than 84.0 percent.

§ 9.411 Ext. D&C Violet No. 2.

Principally the monosodium salt of 1-hydroxy-4-(o-sulfo-p - toluidino) - anthraquinone.

Volatile matter (at 135° C.) not more than 10.0 percent.

Water insoluble matter, not more than 0.4 percent.

Chlorides and sulfates (calculated as sodium salts), not more than 8.0 percent.

1-hydroxy-anthraquinone, not more than 0.2 percent.

Quinizarin (1,4-dihydroxy-anthraquinone), not more than 0.2 percent.

p-toluidine, not more than 0.1 percent.

p-toluidine sulfonic acids, sodium salts, not more than 0.2 percent.

Subsidiary colors, not more than 1.0 percent.

Total color, not less than 80.0 percent.

Prior notice and delayed effective date are not prerequisites to the promulgation of this order since section 203(a)(2) of Title II of the Color Additive Amendments of 1960 provides for this issuance.

Effective date. This order is effective on July 26, 1973.

(Sec. 203(a)(2), Public Law 86-618; 74 Stat. 404; 21 U.S.C. 376 note)

Dated: July 19, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

Subpart H—Food Additives Permitted in Food for Human Consumption, or in Contact With Food, for Limited Periods of Time

NITRITES AND/OR NITRATES COMBINED WITH SPICES IN CURING PREMIXES; CORRECTION

In FR Doc.73-14945 appearing on page 19218 in the July 19, 1973 issue of the FEDERAL REGISTER the words "a safe and suitable buffer such as" were inadvertently omitted in § 121.13(b) and § 121.4002(b) and should have appeared immediately prior to the words sodium carbonate.

The affected paragraphs are corrected to read:

§ 121.13 Nitrites and/or nitrates in curing premixes; food additive status.

• • • • •

(b) Nitrites and/or nitrates buffered with a safe and suitable buffer such as soduim carbonate may be combined with spices in curing premixes pursuant to § 121.4002 of this chapter.

§ 121.4002 Nitrites and/or nitrates in buffered curing premixes.

• • • • •

(b) The curing premix is buffered with a safe and suitable buffer such as sodium carbonate (Na_2CO_3) so that when two grams of the premix are added to 100 grams of water a pH of not less than 7.5 is obtained as measured within 5 minutes after mixing.

• • • • •

(Secs. 201, 409, 701, 52 Stat. 1040-1041, 1049, 1055; 21 U.S.C. 321, 348, 371)

Dated: July 20, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-15318 Filed 7-25-73;8:45 am]

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 5—LABOR STANDARDS PROVISIONS APPLICABLE TO CONTRACTS COVERING FEDERALLY FINANCED AND ASSISTED CONSTRUCTION (ALSO LABOR STANDARDS PROVISIONS APPLICABLE TO NONCONSTRUCTION CONTRACTS SUBJECT TO THE CONTRACT WORK HOURS AND SAFETY STANDARDS ACT)

Extension to Canton Island of Contract Work Hours and Safety Standards Act Coverage

The Contract Work Hours and Safety Standards Act applies, inter alia, to laborers and mechanics, including watchmen and guards, employed in the performance of work under contracts covered by the Service Contract Act of 1965. Effective on July 6, 1973, the date of enactment, Public Law 93-57, 87 Stat. 140, amended the Service Contract Act of 1965 to extend its geographical coverage to contracts performed on Canton Island. Continuance of the existing administrative exemption of contract work performed on Canton Island from the coverage of the Contract Work Hours and Safety Standards Act is therefore no longer appropriate. Accordingly, pursuant to section 105 of such Act (76 Stat. 359, (40 U.S.C. 331)) and Secretary of Labor's Orders 13-71 (36 FR 8755) and 12-71 (36 FR 8754), 29 CFR 5.14(b)(5) is hereby amended as set forth below.

I find that there is good cause for not publishing notice of proposed rulemaking because this change in our regulations is necessary to afford overtime protection to service employees performing Government contracts on Canton Island as contemplated by the amendments to the Service Contract Act. I also find that delay in the effective date would be detrimental to the public interest for the reasons stated above. Accordingly, this amendment shall be effective with respect to the performance on Canton Island of work under any contract, of the character described in sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 329, 333), which is entered into pursuant to bids or proposals solicited or negotiations concluded after July 26, 1973.

Paragraph (b)(5) of 29 CFR 5.14 is amended to read as follows:

§ 5.14 Limitations, variations, tolerances, and exemptions under the Contract Work Hours and Safety Standards Act.

• • • • •

(b) *Exemptions.* Pursuant to section 105 of the Contract Work Hours and Safety Standards Act, the following classes of contracts are found exempt from all provisions of that Act in order to prevent injustice, undue hardship, or serious impairment of Government business:

• • • • •

(5) Contract work performed in a workplace within a foreign country or within territory under the jurisdiction of the United States other than the following: A State of the United States; the District of Columbia; Puerto Rico; the Virgin Islands; Outer Continental Shelf lands defined in the Outer Continental Shelf Lands Act (ch. 345, 67 Stat. 462); American Samoa; Guam; Wake Island; Eniwetok Atoll; Kwajalein Atoll; Johnston Island; Canton Island; and the Canal Zone.

• • • • •

(Sec. 105, 76 Stat. 359 (40 U.S.C. 331))

Signed at Washington, D.C., this 18th day of July, 1973.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

JOHN H. STENDER,
Assistant Secretary for Occupational Safety and Health.

[FR Doc.73-15359 Filed 7-25-73;8:45 am]

Title 43—Publics Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 4—DEPARTMENT HEARINGS AND APPEALS PROCEDURES

Subpart F—Special Rules Applicable to Mine Health and Safety Hearings and Appeals

SUMMARY DISPOSITION PROCEDURES IN CIVIL PENALTY HEARINGS

On April 24, 1973 (38 FR 10086-87), the Department issued interim procedures for the assessment of civil penalties under the Federal Coal Mine Health and Safety Act. Section 4.544 of those procedures relates to summary disposition of cases where a party has failed to answer a pleading or failed to appear at a hearing. The procedures call for an order to show cause to be issued before a party who fails to answer a pleading or pretrial order may be held in default (§ 4.544(a) and (b)). Where a party fails to appear at a hearing (§ 4.544(c)), the rule simply refers to the default procedures spelled out in § 4.544(a). This reference has caused possible confusion because § 4.544(a) requires an order to show cause to be issued where a party fails to answer the Bureau's petition before the default procedures apply.

It was not the intention of the Department to require that where a party fails to appear at a hearing, an Administrative Law Judge must first issue an order to show cause before he may dispose of the case. Parties are given notice of the hearing by certified mail, return receipt requested, far in advance of the scheduled date. Thus, where the party charged fails to appear, the Department believes the most expeditious course is to proceed to dispose of the case either through testimony or documentary information. For this reason paragraphs (a) and (b) specifically call for an order to show cause to be issued where pleadings or response to a pretrial order are not filed, while paragraph (c) does not require such an order. However, to eliminate any possible confusion, the Department is amending § 4.544(c) to specifically state that an order to show cause is not required.

Accordingly, § 4.544(c) is amended by inserting after the last word of paragraph (c) the words, "except that no order to show cause is required." As amended, paragraph (c) reads as follows:

§ 4.544 Summary disposition.

• • • • • •

(c) *Failure to appear at hearing.* Where the respondent fails to appear at a hearing, the Administrative Law Judge shall dispose of the case pursuant to paragraph (a) of this section except that no order to show cause is required.

(Sec. 508 of Public Law 91-173; 83 Stat. 742; 30 U.S.C. 957.)

It is the policy of the Department of Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. However, because this rule is of a clarifying and procedural nature, further notice and comment under 5 U.S.C. 553 are impracticable and good cause exists for making this amendment effective in less than 30 days. Accordingly, this amendment shall become effective on July 26, 1973.

Dated: July 20, 1973.

JAMES T. CLARKE,
Assistant Secretary of the Interior.

[FR Doc.73-15348 Filed 7-25-73;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES & WILDLIFE, FISH AND WILDLIFE SERVICE; DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Waubay National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on July 26, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

SOUTH DAKOTA

WAUBAY NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Waubay National Wildlife Refuge, South Dakota, is permitted from November 24, 1973 through December 31, 1973, only on the area designated by signs as open to hunting. This area, comprising 4,591 acres, is delineated on a map available at refuge headquarters, Waubay, South Dakota, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, 439 Federal Building, P.O. Box 250, Pierre, S. Dak. 57501. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

ROBERT R. JOHNSON,
Refuge Manager, Waubay National Wildlife Refuge, Waubay, South Dakota.

JULY 17, 1973.

[FR Doc.73-15345 Filed 7-25-73;8:45 pm]

V 38 143 JUL 26 73 XUM

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 926]

TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Proposed Handling Limitation

This notice invites written comments relative to a proposed seasonal regulation of the grade of fresh Tokay grapes and the marking on containers used in the handling thereof. The proposed regulation, as hereinafter set forth, was recommended by the Industry Committee. The committee functions pursuant to the amended marketing agreement and Order No. 926, as amended (7 CFR Part 926), which regulate the handling of Tokay grapes grown in San Joaquin County, California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposed regulation reflects the committee's appraisal of the 1973 crop and the current and prospective market conditions. Said regulation would contain the same requirements as were in effect for the 1972 crop and would be effective from August 11 through December 31, 1973. The proposed grade requirement, including the minimum size provisions thereof, is designed to prevent the handling of fresh Tokay grapes of lesser quality so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maintaining orderly marketing conditions in the interest of producers and consumers. The requirement for more even distribution of color (30 percent of the grapes in the lower quarter of each bunch showing characteristic color) is included also to assure the availability, to consumers, of Tokay grapes of satisfactory quality. It is believed, by the industry, that such quality requirements will be met by a quantity of grapes sufficient to fulfill the market demand. Compliance with the container marking requirement would verify inspection thus assuring compliance with the quality requirements proposed herein.

The proposed regulation is as follows:

§ 926.310 Tokay Grape Regulation 9.

(a) *Order.* During the period August 11, 1973, through December 31, 1973, no handler shall ship:

(1) Any Tokay grapes, grown in the production area, which do not meet the grade and size specifications of U.S. No. 1 Table Grapes and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; or

(2) Any container of Tokay grapes, grown in the production area, unless such container bears, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that such grapes have been inspected in accordance with the established grade set forth in this section.

(b) *Definitions.* As used herein, the terms "handler," "ship," and "production area" shall have the same meaning as when used in the amended marketing agreement and order; "U.S. No. 1 Table Grapes" and "characteristic color" shall have the same meaning as when used in the United States.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in quadruplicate with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than August 3, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 20, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Animal and Plant Health Inspection Service

[9 CFR Part 91]

STANDARDS FOR ISOLATION AND INSPECTION FACILITIES

Certain Ports of Export for Animals

The purpose of this proposed amendment is to provide standards for approved export inspection facilities; to add Richmond, Virginia, and Honolulu, Hawaii, to the list of ports of export and to delete the following ports of export from § 91.3(a) because such ports have been found to have inadequate or no export inspection facilities:

(1) *Air and Ocean ports:* Portland, Maine; Boston, Massachusetts; Philadelphia, Pennsylvania; Baltimore, Maryland; Newport News and Norfolk, Virginia; Jacksonville and Port Everglades, Florida; Mobile, Alabama; New Orleans, Louisiana; Galveston, Texas; San Diego and Los Angeles, California; Seattle and Tacoma, Washington.

(2) *Mexican Border Ports:* Rio Grande and Roma, Texas, and Naco, Arizona.

Statement of consideration. Careful inspection of animals for export is required by statute and by regulations contained in Part 91 of this Chapter. It is not possible to provide such inspection without adequate facilities to properly handle such animals, therefore, the deletion of the named air, ocean, and Mexican Border ports from the listing of ports of export in § 91.3 of this Part would permit the exportation of animals only through those ports which have adequate inspection facilities available.

Notice is hereby given in accordance with the administrative procedure provisions of 5 U.S.C. 553, that pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of August 30, 1890, as amended, the Act of February 2, 1903, as amended, the Act of March 4, 1907, as amended, the Act of August 23, 1958, as amended, and the Act of July 2, 1962 (21 U.S.C. 105, 112, 113, 120, 121, 134b, 134f, 612, 613, 614, 618; 49 U.S.C. 1509 (d)), consideration is being given to amending § 91.3 of Part 91, Title 9, Code of Federal Regulations, to read as follows:

§ 91.3 Ports of export.

(a) The following ports which have facilities of the type defined in paragraph (c) of this section are hereby designated as ports of export. All animals shall be exported through said ports or through ports designated under paragraph (b) of this section.

(1) *Airports.* (i) Richmond, Virginia; Miami, Tampa, and St. Petersburg, Florida; Houston, Texas; San Francisco, California; Portland, Oregon; and Honolulu, Hawaii.

(ii) *New York, New York.* Limited facilities are available for certain species of animals.[1]

(2) *Ocean ports.* (i) Richmond, Virginia; Tampa, Florida; Houston, Texas; San Francisco, California; Portland, Oregon; and Honolulu, Hawaii.

(ii) *New York, New York.* Limited facilities are available for certain species of animals.[1]

(3) *Mexican border ports.* Brownsville, Hildago, Laredo, Eagle Pass, Del Rio, and El Paso, Texas; Douglas and Nogales, Arizona; and Calexico and San Ysidro, California.

[1] Information may be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, Hyattsville, Maryland 20782.

(4) *Canadian border ports.* All ports along the United States-Canada land border at which the Health of Animals Branch of the Canadian Department of Agriculture maintains veterinary inspection service.[2]

(b) In special cases other ports may be designated by the Deputy Administrator, Veterinary Services, with the concurrence of the Bureau of Customs. Such ports shall be designated only if facilities for export inspection are available at the port which meet the standards outlined in paragraph (c) of this section.

(c) Standards for approved export inspection facilities. The inspection facilities at the port of export shall meet the following requirements:

(1) *Materials.* Floors of pens, alley and chutes shall consist of concrete or other impervious materials and shall be finished so as to be skid-resistant. Fences, gates, and other parts of the facility may be constructed of wood, metal or any material that will safely and humanely hold the animals intended for export shipment.

(2) *Size.* The facility shall be large enough to accommodate all the animals in the shipment at one time. Space shall be provided at the approximate rate of 35 square feet for each 1000 pound animal and graduated up or down commensurate with the size of the animals.

(3) *Inspection implements.* A squeeze chute or similar restraining device and a crowding pen or pens shall be available for individual animal inspection and identification. The inspection portion of the facility shall be constructed to protect the animals and inspection personnel from inclement weather. Pens or yards shall be provided for appropriate segregation or treatment of animals of questionable health status apart from animals qualified for export.

(4) *Cleaning and disinfection.* The facility and equipment shall be cleaned and disinfected, using a disinfectant permitted for use under Part 71 of this chapter, under the supervision of a Federal inspector prior to each use as an export inspection facility. Personnel tending the export animals shall, if they come in contact with other animals, be required to change into clean outer clothing and to change or disinfect their footwear.

(5) *Feed and water.* An ample supply of potable water shall be made available and, in cold weather, kept free of ice. Adequate feed and feeding facilities appropriate for the animals intended for export shall be provided.

(6) *Supervision.* Access to all parts of the facility shall be afforded to a Veterinary Services inspector during each use for export purposes and arrangements for handling the species of animals involved shall be subject to the inspector's approval.

[2] Information may be obtained from the Veterinary Director General, Health of Animals Branch, Department of Agriculture, Ottawa, Ontario, Canada.

(7) *Testing and treatment.* Testing and treatment of animals in export inspection facilities shall be supervised by a Veterinary Services veterinarian. Tests related to Veterinary Services animal disease programs shall be performed in laboratories approved by the Deputy Administrator, Veterinary Services.[3]

(8) *Location.* The location and the arrangement of the facilities shall provide adequate isolation of the animals intended for export from all other animals. Such isolation depends upon the species of animals involved and the determination of adequate isolation shall be made by a Veterinary Services inspector.

(9) *Approval.* Approval of each export inspection facility shall be granted by the Veterinarian in Charge, Animal Health Programs, Veterinary Services, for the State where the facility is located. Approval of an export inspection facility under § 91.3(a) may be revoked for failure to meet the above standards. A written notice of at least 60 days prior to date of revocation shall be given to the owner or operator of the facility and he will be given an opportunity to present his views thereon. Such notice shall list in detail the deficiencies concerned in order to permit such deficiencies to be corrected. Approval of an export inspection facility in connection with the designation of a port of export in a special case under § 91.3(b) shall be limited to the special case for which the designation was made.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, Maryland 20782, before September 10, 1973.

All written submissions made pursuant to this notice will be made available for public inspection at such time and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 20th day of July 1973.

G. H. WISE,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-15357 Filed 7-25-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 73]

[Airspace Docket No. 73-SW-46]

TEMPORARY RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a temporary joint-use restricted area in the southeastern portion of the State of New Mexico.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before August 27, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Air Force has requested the establishment of a temporary joint-use restricted area during the period October 26, 1973, through October 31, 1973, in the southeastern portion of the State of New Mexico. The proposed restricted area would be utilized 24 hours per day during the six-day period for the Joint Training Exercise Brave Shield VI. The restricted airspace is required to effectively test participating tactical aircraft units under the most realistic conditions. Exercise aircraft, while engaging in combat maneuvers with raid changes in altitudes and headings, may present hazardous conditions to nonparticipating aircraft.

The air operations necessitate restricted airspace of sufficient size to accommodate high performance tactical aircraft and extensive low level tactical fixed and rotary wing aircraft under the control of a tactical air control system. The maximum number of participating aircraft is estimated at 232, approximately 50 percent each of fixed and rotary wing categories. The lateral limits of the proposed area would extend from portions of the southern boundary of New Mexico northward to south of the Fort Sumner-Cedarvale-Scholle line and from the east side of Elephant Butte Reservoir eastward to approximately 50 miles east of Roswell, New Mexico. The required altitude limits for this area are from the surface to FL 280, inclusive.

Essentially all of the restricted area volume associated with the White Sands military complex would be used for this exercise and it represents one-third (⅓) of the total requirement. Using the maximum amount of existing restricted airspace in the planning of this exercise has required the minimum of additional airspace to be proposed.

The proposed temporary area would overlie approximately 21 general aviation airports and a number of low altitude

[3] A list of approved laboratories is available from the Veterinary Services office in the State of origin or from the Deputy Administrator, Veterinary Services, Federal Center Building, Hyattsville, Maryland 20782.

V 38 143 JUL 26 73 XUM

airways and jet routes, the latter generally associated with the Roswell, N. Mex., VORTAC. Five (Alamogordo, Artesia, Carrizozo, Roswell, and Ruidoso) of the airports are publicly owned municipal airports. Ten of the sixteen remaining airports are privately owned and not open ot the public.

A reverse-charge telephone system would be made available by the Air Force for the use of general aviation pilots to request necessary clearance to operate within the restricted area on an individual basis.

Temporary rerouting procedures would be established if necessary to handle low altitude airway and jet route operations during the exercise period. Procedures and agreements would subsequently be developed to handle VFR and IFR flight operations within the area for other than exercise aircraft. Specifically, procedures would be developed to accommodate scheduled air carrier operations into and out of Alamogordo and Roswell, N. Mex. Therefore the proposed restricted area description would exclude airspace in the Roswell area from the surface to 12,000 feet MSL to accommodate these operations during specified hours.

With respect to nonparticipating aircraft operations within the VFR corridor between El Paso and Alamogordo, it is planned that communications would be established between the tactical control system and FAA facilities as necessary so that nonparticipating aircraft would be able to transit the VFR corridor with prior coordination having been accomplished.

Controls would also be exercised within the corridor to provide protection and traffic control of vehicular and railroad operations therein when combat maneuver movements are transiting the highway and railroad areas.

The military flight operations would conform to the minimum safe altitudes as described in Federal Aviation Regulations Part 91 with respect to providing altitude/distance separation from persons, assemblies, property, in congested areas, and other than congested areas.

The proposed amendment to FAR Part 73 would designate the following temporary restricted area:

R–5120 BRAVE SHIELD VI, N. MEX.

BOUNDARIES

Beginning at Lat. 33°26'50"N., Long. 107°00'00"W.; to Lat. 33°21'00"N., Long. 107°08'00"W.; to Lat. 33°14'00"N., Long. 107°10'00"W. to Lat. 32°45'20"N., Long. 106°56'45"W.; (The preceding portion is 4 miles east of and parallels V–19 (Truth or Consequences VORTAC 146° radial).); to Lat. 32°06'20"N., Long. 106°34'00"W.; then eastward along the southern boundary of R–5107A across the El Paso-Alamogordo VFR corridor to the southwest corner of R–5103 and continuing along its southern boundary to Lat. 32°00'15"N., Long. 105°56'40"W.; to Lat. 32°10'00"N., Long. 105°30'00"W.; to Lat. 32°10'00"N., Long. 104°38'00"W.; to Lat. 32°31'00"N., Long. 104°19'00"W.; to Lat. 34°10'00"N., Long. 103°41'00"W.; to Lat. 34°10'00"N., Long. 103°55'00"W.; to Lat. 34°18'00"N., Long. 103°55'00"W.; to Lat. 34°15'45"N., Long. 106°40'30"W.; to Lat. 33°56'30"N., Long. 106°44'00"W.; to Lat. 33°54'00"N., Long. 106°46'30"W.; to Lat. 33°32'45"N., Long. 106°58'45"W.; to point of beginning; excluding that airspace within a 15-nautical-mile radius of the Roswell VORTAC from the surface to 12,000 feet MSL from 0600–2200 local time daily and excluding that airspace extending from the surface to 12,000 feet during the period 0600–1600 local time daily which encompasses an area bounded by a line which is 4 miles north of an parallel to V–280 (Roswell VORTAC 051° radial) extending northeastward from the Roswell 15-mile-radius area to the eastern boundary of the proposed temporary restricted area, thence southwest along this boundary to a point 4 miles southwest of V–83 (Carlsbad 331°/Roswell 151° radial), thence northwest paralleling V–83 and terminating at the Roswell 15-mile radius, thence along the 15-mile arc to point of beginning.

Designated altitudes. Surface to FL 280, inclusive, with exceptions as stated.

Time of designation. Continuous 0001 local, October 26, 1973, to 2359 local, October 31, 1973.

Controlling agency. Federal Aviation Administration, Albuquerque ARTC Center.

Using agency. U.S. Air Force Readiness Command (USAFRED), Langley Air Force Base, Virginia.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Washington, D.C., on July 19, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–15310 Filed 7–25–73;8:45 am]

FEDERAL POWER COMMISSION

[18 CFR Part 141]

[Docket No. R–432–(A)]

MONTHLY REPORT OF COST AND QUALITY OF FUELS FOR ELECTRIC PLANTS

Notice of Proposed Rulemaking

JULY 19, 1973.

Take notice that, pursuant to 5 U.S.C. section 553 and sections 202, 301, 304(a), 309 and 311 of the Federal Power Act, the Federal Power Commission proposes to amend FPC Form No. 423, Monthly Report of Cost and Quality of Fuel for Steam Plant,[1] designated in 18 CFR 141.61, prescribing collection of monthly fuel costs and quality determinants of fuel received at steam generating plants of electric utilities .The Commission proposes to revise Form 423 to include monthly purchase reports for fuels which are to be used in gas turbine and internal combustion engine generation of power by electric utilities, in addition to that information presently required for steam generating plants.

As presently constituted, FPC Form 423 is designed to obtain monthly data on the cost and quality of fuels received at steam electric generating plants. A separate form is to be completed by each electric power producer for each of its steam electric generating plants having a capacity of 25 megawatts or greater during the reporting month. The completed form is due on the 45th day after the close of the reference month.

On June 7, 1972, the Commission issued Order No. 453 in Docket No. R–432 enacting the new 18 CFR 141.61 and FPC Form 423. On August 3, 1972, the Commission issued an order denying the application for rehearing in Docket No. R–432 made by the National Coal Association. This denial was appealed to the United States Circuit Court of Appeals for the District of Columbia. *National Coal Association* v. *Federal Power Commission*, No. 72–1919, D.C. Cir., filed October 2, 1972. The parties to this appeal filed, on May 14, 1973, a joint motion to withdraw the above appeal, which motion is pending action before the Court. Subsequently, on the application of Alabama Power Company and other electric utilities, the Commission, on March 2, 1973, issued Order Denying Petition for Amendment of the Commission's Regulations with Respect to Form No. 423, in Docket No. R–432. An Order Denying Rehearing in this matter was issued on April 16, 1973, and this denial has been appealed to the Circuit Court of Appeals for the District of Columbia. *Alabama Power Company, et al.* v. *Federal Power Commission*, No. 73–1436, D.C. Cir. filed April 25, 1973.

The proposed amendments in this Docket would proffer no substantive changes in the information required to be reported monthly on FPC Form 423. Certain stylistic changes in the Form are made to increase clarity. Primarily the amendments will operate to expand the number of electric utilities which are subject to the filing requirements by including those electric utilities which generate power in gas turbine and internal combustion engines. Such utilities would be required by the proposed amendments herein to file monthly reports on FPC Form 423 for each of the subject plants it operates.

Gas turbines and internal combustion engines burn gas, kerosine and distillate oil which have been in short supply in the past year. Approximately seven per cent of the gas and two-thirds of the distillate oil delivered to utilities are used in these types of generation. The Commission feels that the proposed amendments are necessary: (1) To provide monthly information on the availability of these fossil fuels to electric utility companies for use in current analyses of the energy and fuel supply situation and the effects on the cost of electric power; and (2) to provide timely data on a comparable basis for each type of fuel by quality determinants, thus facilitating the evaluation of developments in fuel supply which may affect the reliability of electric service, emergency preparedness, and the environmental improvement programs for the different air quality control regions in the United States. In general, the Commission feels that the new information derived from the operation of these amendments will assist in its proper administration of the Federal Power Act.

A number of modifications are suggested to accomplish the stated purpose of the proposed amendments to 18 CFR § 141.61, to wit:

(1) The addition of Column "0" to the left of Column "1." Column "0" is entitled "Type Plant" and Instruction "0" will be added to, "Report separately for each purchase the quantity of fuel that is to be used for (S) steam turbine, (GT) gas turbine, or (IC) internal combustion engine." *See Attachment A.*

(2) Because Form 423 will no longer be limited to steam generating plants, all language in Form 423 which qualifies "electric plant" or "electric generating plant" should be clarified to insure the understanding that the type of generating facilities subject to the reporting requirements is not limited to steam generating plants.

(3) In "General Instructions", No. 1, the 25 megawatt limitation should be clarified by substituting the phrase "total combined capacity" for "capacity". *See Attachment A.*

(4) Because a significant portion of gas other than LNG used as fuel will be imported, the second part of the heading of Column 6 of the Form should read, "for gas show pipeline (supplier) or distributor, producing area by state, or port of entry.

(5) In order to facilitate an orderly collection of fuel cost data on the proposed Form, under Subsection (3) of the Instructions the abbreviation "KER (for all kerosene-type fuels)" will be added. This change also emphasizes the Commission's intent to include within the data subject to the reporting requirements of the proposed Form kerosene and jet-type fuels used in gas turbine plants. The separately designated abbreviation will segregate such data from "X—other * * *", requested in the same subsection.

Any interested person may submit to the Federal Power Comission, Washington, D.C. 20426, not later than September 4, 1973, data, views, comments or suggestions in writing concerning all or part of the amendment proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street, NE., Room 1000, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the proposed amendment to FPC Form No. 423, pursuant to 44 U.S.C. sections 3501–3511, may, at the same time, submit a conformed copy of their comments directly to the Clearance Officer, Office of Statistical Policy, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for conference.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

Drug Enforcement Administration

[Docket No. 73-5]

THOMAS E. WOODSON

Revocation of Certificates of Registration

On February 1, 1973, the Acting Director of the Bureau of Narcotics & Dangerous Drugs issued three (3) Orders to Show Cause to Thomas E. Woodson, D.O., as to why his Certificates of Registration, issued on April 28, 1972, should not be revoked for the reasons that the respondent:

(a) • • • [was] not authorized, licensed, registered or otherwise permitted, under the laws of the State of Washington, to dispense controlled substances, by the Washington State Board of Pharmacy, and/or the Division of Professional Licensing, Department of Motor Vehicles, State of Washington.

(b)[1] • • • materially falsified • • • [his] Application[s] for Registration, executed on April 21, 1972, requesting registration to dispense controlled substances, listed in Schedules II, III, IV and V.

The subject Certificates of Registration are as follows:

(1) Thomas E. Woodson, D.O.
Columbia Clinic, Inc. PS
6th Avenue & Highway 12 Rm. 20
Prosser, Washington 99350
BNDD Registration #AW4452544

(2) Thomas E. Woodson, D.O.
Columbia Clinic, Inc. PS
1719 Hewitt Street
Everett, Washington 98201
BNDD Registration #AW4452532

(3) Thomas E. Woodson, D.O.
Columbia Clinic, Inc. PS
1020 Joshua Green Building
Seattle, Washington 98101
BNDD Registration #AW4452366

In addition, and in accordance with the provisions of section 304(d) of the Controlled Substances Act (21 U.S.C. 824(d)), and pursuant to the authority granted to him under § 0.100, as amended, Title 28, Code of Federal Regulations, the Director coincident with the issuance of these Orders to Show Cause, ordered the immediate suspension of the above BNDD Registrations. This action was taken in view of the nature of these material misstatements and falsifications, and therefore, the Director determined that for the respondent to retain his Certificates of Registration during the pendency of these proceedings would result in imminent danger to the public health and safety.

Thereafter, the respondent requested a hearing in the matter and, on April 16, 1973, that hearing was held before Arthur S. Present, Administrative Law Judge. Following that hearing, proposed findings of fact and conclusions of law were submitted to Judge Present by Counsel for the Government and R.R. Bob Grieve, Counsel for the respondent.

On May 31, 1973, Judge Present filed the following recommended decision with the Bureau of Narcotics & Dangerous Drugs:

In view of the discussion herein [the Administrative Law Judge's recommended findings of fact and conclusions of law] and after consideration of all the evidence and contentions of the parties, it is recommended that:

1. The Show Cause Orders dated February 1, 1973, issued by the Acting Director of the Bureau of Narcotics & Dangerous Drugs and amended on April 16, 1973 [immediately suspending and], proposing to revoke the BNDD Registrations of Dr. Thomas E. Woodson be vacated;

2. The Bureau of Narcotics & Dangerous Drugs return the BNDD Registrations of Dr. Thomas E. Woodson to the respondent; and

3. This proceeding be terminated.

After reviewing the transcript of testimony of the hearing, the exhibits introduced, the findings of fact, conclusions of law, and memoranda of law prepared by counsel for the Government and the respondent, the Administrator hereby adopts the recommended decision of the Administrative Law Judge; however, in accordance with the provisions of §§ 301.57 and 316.66 of Title 21, Code of Federal Regulations, this Final Order shall take effect on September 24, 1973.

This action is being taken in light of (a) certain testimony elicited from the respondent during the aforementioned administrative proceedings, and (b) a thirty-nine Count Indictment returned on June 5, 1973, in the United States District Court, Western District of Washington, at Seattle, Washington, wherein the respondent, Thomas E. Woodson, is named as the defendant.

Specifically, the respondent, as he testified on cross-examination (and as enumerated in the Government's Proposed Findings of Fact and Conclusions of Law) admitted to the following facts:

a. A multiple-city osteopathic practice wherein he dispenses amphetamines (Schedule II) and amphetamine combination products to approximately 80 to 400 patients per day.

b. A patient "history taking" and initial examination which would take approximately ten minutes per individual, reexaminations requiring approximately the same amount of time.

c. His lack of familiarity with the Controlled Substances Act and implementing Administrative Regulations, to wit, conducting research with controlled substances was not deemed by him to be a separate and independent activity, requiring a separate BNDD Registration.

In criminal indictment number 176-73D2, the Respondent is charged, by a Federal Grand Jury, with the following violations of the Controlled Substances Act of 1970:

1. Section 401(a)(1)—the unlawful manufacturing of controlled substances listed in Schedule II (9 counts).

2. Section 303(e)—the unlawful obtaining of controlled substances listed in Schedule II for a purpose other than their use, distribution, dispensing or administration in the course of the respondent's professional practice or research (9 counts).

3. Section 401(a)(1)—the unlawful possession with intent to distribute controlled substances listed in Schedule II (8 counts).

4. Section 308(a)—the unlawful transfer of controlled substances listed in Schedule II without having first executed written order forms for such transfer as required by law (6 counts).

5. Section 307(a)(3)—the failure to prepare and maintain, on a current basis, a complete and accurate record of each controlled substance sold, delivered, or otherwise disposed of (2 counts).

6. Section 305(c)—the unlawful dispensing of controlled substances without labels containing a clear, concise warning that it is a crime to transfer such substances to any person other than the patient (2 counts).

7. Section 1010(a)(1) [of the Controlled Substances Import & Export Act of 1970]—the unlawful exportation of controlled substances listed in Schedule II without having registered as an exporter under said statute (1 count).

8. Section 401(a)(1)—the unlawful distribution of controlled substances listed in Schedule II (2 counts).

Therefore, in accordance with the provisions of §§ 301.57 and 316.66, Title 21, Code of Federal Regulations, and in view of the foregoing, it is the Administrator's opinion:

• • • that [the] respondent's State License or Registration has not been suspended, revoked, or denied by competent State authority and the he continues to be authorized by State law to engage in the dispensing of controlled substances.

Accordingly, in view of the foregoing, it is hereby ordered that the Orders to Show Cause dated February 1, 1973, and amended on April 16, 1973, be withdrawn and vacated, effective on September 24, 1973.

In addition, upon the effective date of this Order, it is hereby ordered that the Certificates of Registration, and any unused BNDD Official Order Forms, seized, coincident with the service of the above Orders to Show Cause upon the respondent, be returned to him on that date.

Therefore, under the authority vested in the Attorney General by Section 304 of the Comprehensive Drug Abuse Prevention & Control Act of 1970 (21 U.S.C. 824) and redelegated to the Administrator of the Drug Enforcement Administration by § 0.100, as amended, Title 28, Code of Federal Regulations, and Reorganization Plan No. 2 of 1973, the Administrator hereby orders that the above Orders to Show Cause (as amended on April 16, 1973) which provided the basis for the foregoing administrative proceedings be, and hereby are vacated, effective sixty days from the publication hereof.

Dated: July 19, 1973.

JOHN R. BARTELS, JR.,
Acting Administrator, Drug Enforcement Administration.

[FR Doc.73-15360 Filed 7-25-73;8:45 am]

[1] On April 16, 1973, the subject Orders to Show Cause were amended by deleting the above paragraph (b).

Fish and Wildlife Service

HORICON NATIONAL WILDLIFE REFUGE

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (P.L. 88-577; 78 Stat. 890-896; 16 U.S.C. 1131-1136), that a public hearing will be held beginning at 7:30 p.m. October 9, at Horicon City Hall, Horicon, Wisconsin, on a proposal leading to a recommendation to be made to the President of the United States by the Secretary of the Interior regarding the desirability of including a portion of the Horicon Refuge within the National Wilderness Preservation System. The wilderness study included the entire acreage within the Horicon National Wildlife Refuge, which is located in Dodge and Fond Du Lac Counties, State of Wisconsin.

A study summary containing a map and information on the Horicon Wilderness proposal may be obtained from the Refuge Manager, Horicon National Wildlife Refuge, Route 2, Mayville, Wisconsin 53050, or the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Individuals or organizations may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the Regional Director at the above address by November 9, 1973.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

GREEN LAKE NATIONAL FISH HATCHERY, MAINE

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a final environmental statement for the proposed construction at the Green Lake National Fish Hatchery in Hancock County, Maine.

The project includes the construction and operation of a national fish hatchery in Hancock County, Maine for the propagation of Atlantic salmon. The fish produced will be utilized to supplement natural stocks and restore Atlantic salmon in waters of New England where they were once abundant.

Copies of the final statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
Room 805
John W. McCormack Post Office and Courthouse
Boston, Massachusetts 02109

Craig Brook National Fish Hatchery
East Orland, Maine 04431

Bureau of Sport Fisheries and Wildlife
Office of Environmental Quality
Department of the Interior
Room 2246
18th and C Streets, NW
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should also be addressed to the Chief, Office of Environmental Quality. Please refer to the statement number above.

Dated: July 17, 1973.

LAURENCE E. LYNN, JR.,
Assistant Secretary, Program Development and Budget.

NORTH SIDE COLLECTION SYSTEM, FRYINGPAN-ARKANSAS PROJECT COLORADO

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Final Environmental Statement for continued construction of the North Side Collection System, an authorized feature of the Fryingpan-Arkansas Projeect. This Environmental Statement concerns construction of diversion dams, buried conduits and tunnels and appurtenant facilities. The principal function of the system is to intercept and transport an average annual 18,400 acre-feet of runoff from tributaries of the Fryingpan River to the control structure of Charles H. Boustead Tunnel.

Copies are available from:

Office of Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, Telephone (202) 343-4991

Division of Engineering Support, Technical Services Branch, E&R Center, Denver Federal Center, Denver, Colorado 80225 Telephone (303) 234-3007

ROUTT NATIONAL FOREST MULTIPLE USE ADVISORY COMMITTEE

Notice of Meeting

The Routt National Forest Multiple Use Advisory Committee will meet at 9:00 a.m. July 29, 1973 outside at the Stagecoach Development Headquarters, Oak Creek, Colorado 80467. If inclement weather dictates, the meeting will be held at 10 a.m. July 29, 1973 in the meeting room at the Yampa Valley Electric Association Building, 32 10th Street, Steamboat Springs, Colorado 80477.

The purpose of this meeting is to: Discuss the existing and pending subdivisions adjacent to and within the boundaries of the Routt National Forest and their effect on National Forest Lands. Discuss the role of the Routt National Forest in working with land developers and cooperating with counties in fulfilling the multiple use aspect of National Forest Management.

The meeting will be open to the public. Persons who wish to attend should notify the Forest Supervisor, PO. Box 1198, Steamboat Springs, Colorado 80477, phone number 879-1722. Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation: The chairman will provide time for the public to present oral statements and ask pertinent questions at the conclusion of the business meeting.

JOHN D. GROVER,
Acting Forest Supervisor.

Rural Electrification Administration

COOPERATIVE POWER ASSOCIATION

Availability of Final Environmental Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with the use of available loan funds by Cooperative Power Association, 6700 France Avenue, South Minneapolis, MN 55435. This action will finance the construction of a switching station, a substation, and approximately 12 miles of 230 kV transmission line from a location near Henning to a location near Rush Lake. Both locations are in Otter Tail County, Minnesota.

Additional information may be secured on request, submitted to the Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The Final Environmental Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW., Washington, D.C., Room 4310 or at the borrower address indicated above.

Final REA action with respect to this matter (including any release of funds) may be taken after thirty (30) days, but only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 20th day of July, 1973.

DAVID A. HAMIL,
Administrator, Rural Electrification Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

UNIVERSITY OF ILLINOIS

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00459-65-46040. Applicant: University of Illinois at Urbana-Champaign Campus, Purchasing Division, 223 Administration Building, Urbana, Ill. 61801. Article: Electron microscope, model JEM 200 and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in various research projects involving the following:

(1) Examination of metals containing carbides,

(2) Examination of hydrides in structural materials,

(3) High temperature deformation mechanisms in some intermetallic compounds and ceramic materials.

(4) Precipitation of hydrides in Nb alloys and a TEM study of hydrogen embrittlement in Nb and Nb alloys,

(5) Precipitation and work hardening in V-N alloys,

(6) Examination in situ at high and low temperatures in the following investigations;

a. Martensitic transformation in thin films.

b. Ordering reactions in thin films.

c. Hydride formation in V and Zr.

d. Pre-transformation and "streaming" phenomena.

e. Low temperature redistribution of carbon in martensite.

f. Omega-phase transformations.

(7) Studies of anodic film growth and pitting,

(8) Projected work on dislocation distributions in the matrix of deformed fiber composites, especially near the fiber-matrix interface,

(9) Study of surface films formed on several alpha-phase copper alloys (CU-Zn, Cu-Ni, Cu-Al, etc.) by exposure to ammoniacal solutions,

(10) Study of the microstructure of the hydration products of calcium silicates constituents, of Portland Cement, and

(11) Study of wear processes in cemented carbides.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a maximum accelerating voltage of 200 kilovolts. The most closely comparable domestic instrument is the Model EMU-4C manufactured by the Forgflo Corporation (Forgflo). The Model EMU-4C has a specified maximum accelerating voltage of 100 kilovolts.

We are advised by the National Bureau of Standards (NBS) in its memorandum dated July 5, 1973 that the higher accelerating voltage provides proportionately greater penetrating power and, consequently, higher resolution for a specimen of a given thickness. NBS further advises that due to the nature of the material on which research will be conducted with the use of the foreign article, relatively thick specimens must be used in the experiments and, therefore, the higher accelerating voltage of the foreign article is a pertinent characteristic.

For these reasons, we find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument being manufactured in the United States, which is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

A. H. STUART,
Director, Special Import Programs Division.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 73-149N]

BUSH RIVER, MD.

Drawbridge Operation Regulations; Notice of Denial

This notice announces that requests received by the U.S. Coast Guard to change the operation regulations of the Bush River, Maryland, drawbridge are denied. A public hearing, announced by 36 FR 796 (January 16, 1971), was held on February 18, 1971, to receive public comment on the request of the legal liaison officer of the Bush River Yacht Club to increase the frequency of openings of the Penn Central Railroad Bridge across Bush River, Maryland. Further, the Maryland General Assembly, by Joint Resolution No. 37, passed in 1971, requested the regulations be changed to provide that the drawbridge open on signal at any time. At 49 CFR 1.46 the Secretary of Transportation delegated his power to carry out the law related to drawbridge regulations (Sec. 5 of the Act of August 18, 1894, 28 Stat. 362, 33 U.S.C. 499) to the Commandant of the Coast Guard; but major transportation policy questions require that the decision in this case be made by the Secretary of Transportation. In making this decision the Secretary considered the Coast Guard docket including the transcript of the public hearing of February 18, 1971, and memoranda from the Coast Guard Commandant and the Federal Railroad Administration. The Secretary informed the Coast Guard Commandant of his decision by memorandum on January 18, 1973. Copies of the Secretary's memorandum may be obtained by writing Commandant (GCMC/82), U.S. Coast Guard, 400 Seventh Street, SW., Washington, D.C. 20590.

The Secretary determined that although present regulations could be altered to require more frequent or even unlimited openings of the draw of this bridge, as a matter of transportation policy a change should not be made at this time.

This determination was reached by balancing the interests of recreational pleasure boat owners whose enjoyment is diminished by the existing bridge opening schedule against the interests of rail passengers whose journeys would be delayed and the interests of the railroad which would experience considerable delays in the movement of passengers and freight. The record of the public hearing and Department of Transportation agency recommendations led him to the conclusion that the interest of boat owners is far outweighed by the needs for expeditious movement of passengers and freight.

The requests of the legal liaison officer of the Bush River Yacht Club, and of the Maryland General Assembly, are denied. The regulations governing the operation of this drawbridge shall continue to be as stated in 33 CFR 117.245(f)(3).

C. R. BENDER,
Admiral, U.S. Coast Guard Commandant.

JULY 11, 1973.

[FR Doc.73-15362 Filed 7-25-73;8:45 am]

[CGD 73-151 PH]

IDAHO STATE HIGHWAY DEPARTMENT MEMORIAL HIGHWAY BRIDGE CLEARWATER RIVER, MILE 2.0 LEWISTON, IDAHO

Notice of Public Hearing Concerning Proposed Bridge Alteration

Notice is hereby given that a public hearing regarding the Idaho State Highway Department Memorial Highway Bridge across the Clearwater River, mile 2.0, at Lewiston, Idaho will be held on Wednesday, September 5, 1973 at 7:00 p.m. at the Lewis-Clark Hotel, Lewiston, Idaho. This hearing is being held under the authority of section 3 of the Act of June 21, 1940 (Truman-Hobbs act) 54 Stat. 498, 33 U.S.C. 513; section 4(f), 80 Stat. 934, as amended, 49 U.S.C. 1653(f); Section 6(g)(3), 80 Stat. 937, 49 U.S.C. 1655(g)(3); 33 CFR 116.20 and 49 CFR 1.46(c)(6).

The existing bridge, which is a multi-span fixed bridge, provides a horizontal clearance of 100 feet in the several

V 38 1 143 JUL 26 73 XUM

spans. The vertical clearance is dependent upon which opening is being navigated due to the Lewiston end of the bridge being higher than the north bank end. The vertical clearances through the third and ninth spans counted from the Lewiston end of the bridge, having the deepest usable channels at the time of construction, now provide 35.6 feet and 26.5 feet respectively at low water elevation 724.2 feet. These spans will provide 21.8 feet and 12.7 feet respectively at the projected controlled level at elevation 738 feet after the flooding of Lower Granite Dam pool, scheduled for 1975. Complaints have been received alleging that the bridge will become unreasonably obstructive to navigation with the flooding of the pool. The purpose of the hearing is to determine whether alteration of the bridge is needed and if so what alteration is required, having due regard for the necessity of free and unobstructed navigation upon the river. The needs of highway traffic will also be considered.

The public is requested to submit comments views and data on whether or not it will be necessary to alter the bridge in order to provide for the reasonable needs of navigation, which, after the flooding of the Lower Granite Dam pool, can be expected to pass through or under the bridge. Information is also desired concerning the size and type of vessels which will be operated on the waterway, the character and amount of commerce expected, the clearances necessary in order to render navigation through or under the bridge reasonably free, easy and unobstructed, and the impact such alteration may have on the quality of the human environment.

Any person who wishes to appear and be heard at this Public Hearing may do so. Persons planning to appear and be heard are requested to notify the Commander, Thirteenth Coast Guard District, 618 Second Avenue, Seattle, Washington 98104, any time prior to the hearing indicating the amount of time required. Depending upon the number of scheduled statements, it may be necessary to limit the amount of time allocated to each person. Limitations of time allocated, if required, will be announced at the beginning of the hearing. Written statements and exhibits may be submitted in place of or in addition to oral statements and will be made a part of the record of the hearing. Such written statements and exhibits may be delivered at the hearing or mailed in advance to Commander, Thirteenth Coast Guard District.

J. D. McCann,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

PROVIDENCE RIVER, RHODE ISLAND

Notice of Public Hearing on Proposed Changes to Aids to Navigation

Notice is hereby given that a public hearing will be held by Commander, First Coast Guard District regarding proposed major changes in aids to navigation marking the navigation channel from Providence River approach through East Passage up to the city of Providence, Rhode Island. The hearing will be held on Wednesday, August 1, 1973 at 10 a.m. in Room 332, Federal Building, U.S. Post Office (Annex), Exchange Terrace, Providence, Rhode Island.

Specific details of the proposed changes in aids to navigation are contained in a Special Local Notice to Mariners dated June 28, 1973 and published by Commander, First Coast Guard District. Interested persons may obtain copies from the Coast Guard Marine Inspection Office, 104 John E. Fogarty Federal Building, Providence, Rhode Island 02903 or from Commander, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts 02114.

The hearing will be informal. It will be conducted by a representative of the Commander, First Coast Guard District, who will make an opening statement presenting a brief summary of the proposed changes. Interested persons will then have an opportunity to present their oral statements. Additional procedures for conducting the hearing will be announced at the hearing. A summary of the hearing will be made available to the public.

Interested persons may submit written data, views, or arguments to the Commander, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts 02114. Each person submitting comments should include his name and address, identify the subject, state his views on the effect the proposed changes will have on safety to navigation, commerce and the public interest, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, First Coast Guard District. Written comments may also be submitted at the public hearings.

(Sec. 1, 63 Stat. 500, 80 Stat. 937; 14 U.S.C. 91, 81, 49 U.S.C. 1655 (b) (1); 33 CFR 62.01-1, 62.05-1 49 CFR 1.46 (b))

J. D. McCann,

ATOMIC ENERGY COMMISSION

LIGHT-WATER-COOLED NUCLEAR POWER REACTOR EFFLUENTS

Notice of Availability of AEC Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Atomic Energy Commission in 10 CFR Part 50, Appendix D, notice is hereby given that a final environmental statement related to the issuance of proposed amendments to 10 CFR Part 50 of the Commission's Regulations to provide numerical guidance defining "as low as practicable" levels of radioactive material in light-water-cooled nuclear power reactor effluents has been prepared by the AEC Regulatory Staff and is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. 20545.

A notice concerning the proposed amendments to the Commission's regulations was published in the FEDERAL REGISTER on June 9, 1971 (36 FR 11113).

On January 16, 1973, the Commission published a notice of availability of the Draft Environmental Statement and request for comments in the FEDERAL REGISTER (38 FR 1616). Comments were received from 36 Federal and state agencies and interested persons on the Draft Environmental Statement, and these comments are included in Volume 3 of the Final Environmental Statement.

Single copies of the Commission's Final Environmental Statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Regulatory Standards.

Dated at Bethesda, Md., this 24th day of July 1973.

For the Atomic Energy Commission.

Lester Rogers,
Director of Regulatory Standards.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of July 1973.

By application filed May 31, 1973, Liquigas, S.p.A. (Liquigas), Liquifin Aktiengesellschaft (Liquifin), and First National Bank of Washington (FNBW) request that the Board disclaim jurisdiction over, grant exemptions with respect to, or approve, pursuant to section 408 of the Federal Aviation Act of 1958, as amended (the Act), transactions relating to the acquisition of control of Ronson Corporation (Ronson) and its wholly-owned subsidiary, Ronson Helicopters, Inc.

On June 18, 1973,[1] counsel for Ronson and Ronson Helicopters filed an answer requesting that the Board deny the application or set the matter for hearing. Subsequently, on June 26, 1973, applicants filed a reply accompanied by a motion for leave to file an otherwise unauthorized document. A supplemental answer was filed on July 6, 1973.

In the interim, on June 21, 1973, Aviation Consumer Action Project (ACAP) requested permission to file comments in opposition to the application, including a recommendation that the Board enter a temporary cease and desist order to prevent Liquigas from proceeding with the acquisition of Ronson stock.[2] On June 25, 1973, applicants filed an "answer" in opposition to ACAP's motion.[3]

By application filed in Docket 25603 on June 7, 1973, FNBW, and Messrs. Arthur M. Becker, Arleigh A. Burke, and William B. Wolf, Sr. request that the Board disclaim jurisdiction over, or approve, pursuant to section 409 of the Act, certain interlocking relationships involving, on the one hand, FNBW, and/or its parent company, Financial General Bank Shares, Inc. (Financial General) and, on the other hand, various common carriers and persons engaged in a phase of aeronautics.[4]

On June 18, 1973, Ronson and Ronson Helicopters filed a response requesting that the proceeding be held in abeyance pending applicants' conformity with Part 251 of the Board's Economic Regulations relating to information requirements in section 409 applications.[5]

Liquigas is an Italian industrial concern which, together with its subsidiaries, is engaged in various types of business relating to liquid fuels, refined chemicals, petro-chemicals, household equipment and cattle ranches. Liquifin is a Liechtenstein corporation formed by Liquigas as a wholly-owned subsidiary for the exclusive purpose of acquiring and holding the stock of Ronson.

FNBW is a national banking association, organized under the National Banking Act, whose President and two-thirds of its directors and other managing officials are citizens of the United States, and whose voting stock, in excess of 75 percent, is owned or controlled by U.S. citizens. FNBW is an 88.9-percent-owned subsidiary of Financial General, a Virginia corporation, and a citizen of the United States within the meaning of section 101(13) of the Act.

Ronson is a New Jersey corporation which directly, or through subsidiaries, engages in the manufacture and sale of lighters, gas and electrical appliances, and rare earth metals and alloys. Ronson Hydraulic Units Corp. and Ronson Hydraulic Units (N.C.) Corp. (collectively referred to as Ronson Hydraulics) are wholly-owned subsidiaries of Ronson and are primarily engaged in the design, engineering, manufacture and sale of hydraulic pneumatic valves, activators, and servo-mechanisms which are sold generally to aircraft manufacturers and used on aircraft and helicopters for the operation of landing gear, steer mechanisms, flight controls, and doors.

Ronson Helicopters, another wholly-owned subsidiary of Ronson, is an air taxi operator registered under Part 298 of the Board's Economic Regulations. It owns approximately ten helicopters, operates an airwork service station for Allison turbine engines and a service station for Bell and Hughes helicopters, and in addition to its air taxi operations, conducts fleet contract charter services, ground school and flight training, safety patrol and traffic survey activities.

The transactions which constitute the subject matter of the application begin with the announcement by Liquifin of a public offer to acquire at least 51 percent of the common shares of Ronson. Under the terms of Liquifin's offer, the tendered shares of Ronson upon acceptance will be transferred directly into a voting trust pursuant to a trust agreement entered into between Liquifin/Liquigas and FNBW, the trustee. Following receipt of the Ronson stock, the trustee will undertake to cause Ronson to transfer its Ronson Helicopters stock to the trustee, and thereupon transfer the Ronson stock to Liquifin. The Ronson Helicopter stock will remain in trust until the trust is terminated.

The trust agreement provides, among other things for the exercise by the trustee of various powers, and for the termination of the trust. For example, during the period in which Ronson shares would be held in trust, the trustee is prohibited from exercising any right of control over the subsidiaries of Ronson or changing or interfering with the existing management of Ronson, and is prevented from attending any Ronson shareholders' meeting which is to consider, inter alia, merger, sale of assets, or basic corporate changes. In other respects, the trust agreement provides that the trustee may

[1] A request for extending the time to answer the application due on June 11, 1973, was granted over the objections of applicants.

[2] In this respect, we note that a Federal District Court in New Jersey, in a contemporaneous court proceeding involving the same transaction, has issued a preliminary injunction which, effective July 16, 1973, enjoins Liquifin from, inter alia, acquiring additional Ronson stock pending a decision of the case on the merits.

[3] ACAP's motion to file an otherwise unauthorized document was filed pursuant to Rule 302.4(f) of the Board's Rules of Practice which prohibits the filing of an answer.

[4] The applicant's request is contingent upon a determination by the Board in Docket 25583, that FNBW has acquired control of Ronson Helicopters, and upon the Board's exemption or approval of such acquisition.

[5] In view of our decision herein to consolidate the proceedings in Dockets 25583 and 25603 and to set the matters for hearing, we will dismiss the motion without prejudice to renew the same at the hearing.

V38-143 JUL 26 73 XUM

vote the stock held in trust in its discretion. The trust would terminate at such time as (a) termination is required by the Board or other government agency, (b) the Board authorizes the transfer of the ownership and control of Ronson Helicopters by the trustee to citizens of the United States, (c) Ronson Helicopters is no longer subject to the jurisdiction of the Board and the Federal Aviation Administration, or (d) twenty-one years have expired.

Applicants contend that by reason of the trust agreement no acquisition of control of Ronson Helicopters, directly or indirectly, is accomplished, either by FNBW, the trustee, or by Liquifin/Liquigas at any stage of the successive steps involved in the transaction from tender offer to divestment of Ronson's stockholding in Ronson Helicopters. Applicants also contend, in the alternative, that no sound regulatory reasons appear for not exempting or approving FNBW's acquisition of the stock of Ronson Helicopters.

In opposition, Ronson's and Ronson Helicopters' answer contends that the application should be denied because the voting trust agreement does not insulate Liquifin/Liquigas from control of Ronson Helicopters; that, even assuming that the voting trust agreement vests control of Ronson Helicopters in FNBW, exemption or approval of the acquisition should be denied as contrary to the public interest; and that, if the application is not denied, the matter should be set for hearing.

Upon consideration of the application in Docket 22583, the Board has concluded that Ronson Helicopters, by reason of its air taxi operations, is an air carrier, that Ronson Hydraulics are persons engaged in a phase of aeronautics, and that Liquigas, Liquifin and FNBW are each "persons" within the meaning of section 408(a)(5) of the Act, and that the acquisition of control of Ronson Helicopters directly, or indirectly through the acquisition of control of Ronson, by FNBW and/or Liquigas/Liquifin creates control and common control relationships which are subject to that section of the Act.

It appears that pursuant to its public offer Liquifin will acquire at least 51 percent of Ronson's common stock, which will be transferred directly into a voting trust with FNBW as trustee and Liquifin as the beneficial owner of the acquired stock. The terms of the trust may be relevant, of course, to determining who, among the parties to the trust agreement, has acquired control of Ronson's (or Ronson Helicopters') stock. However, we are not prepared to find, absent further development of the underlying facts relating to the issue, that the voting trust agreement by its own terms insulates the acquisition of control of Ronson Helicopters from the Board's jurisdiction under section 408(a)(5) of the Act.[9] We conclude, therefore, that a disclaimer of jurisdiction would not be warranted.

Under the terms of the proviso to section 408(a)(5), the Board may exempt the acquisition of a noncertificated air carrier from the requirements of Board approval "to the extent and for such periods as may be in the public interest." Applicants' request involves complex issues of fact, law, and Board policy relating to such matters as the qualification of Ronson Helicopters, following its acquisition, to engage as a citizen of the United States in air transportation,[10] the Board's policy regarding foreign ownership or control of a U.S. air carrier,[11] and the adequacy of the trust agreement herein to insulate the air carrier, Ronson Helicopters, from the ownership and control of Liquigas/Liquifin. Under all the circumstances, we are not persuaded that, on the basis of the application in Docket 25583 and other documents before us, a sufficient showing of public interest has been made to warrant the grant of an exemption under section 408(a)(5) in respect to the transaction herein.[12] Therefore, applicants' request for exemption will be denied.

In light of this determination, applicants' request for approval of the transaction requires that the matter be set for hearing, since the transaction involves, inter alia, the acquisition of control of an air carrier directly engaged in air transportation. The scope of the hearing is expected to include, but not be restricted to the issues herein discussed.[13]

Pursuant to Rule 12 of the Board's Procedural Regulations, we have decided to consolidate for hearing the proceeding in Docket 25603 involving section 409 interlocking relationships with the proceeding in Docket 25583 involving section 408 control relationships.[14] The proceedings involve closely related issues, and the Board finds that such consolidation will be conducive to the proper dispatch of its business and will not unduly delay the proceedings.

Applicants' motion for leave to file a reply in Docket 25583 is predicated upon representations which are intended to controvert various allegations of fact contained in the answer to the application. Rule 6(b) of the Board's rules of practice prohibits the filing of such responsive document. Since nothing contained in the reply would otherwise alter our decision herein to set the matter for hearing, we will deny this motion and the motion to file a supplemental answer.

ACAP's motion for leave to file comments and requesting collateral action is untimely, and fails to establish good cause for late filing. Moreover, there are serious procedural problems inherent in its request for a cease and desist order by summary procedure, and the question of a preliminary injunction is being litigated in another appropriate forum. Accordingly, we will dismiss ACAP's motion.[15]

Accordingly, it is ordered, That:

1. Applicants' requests for disclaimer of jurisdiction and exemption pursuant to the proviso of section 408(a)(5) in respect to the acquisition and control relationships in Docket 25583, be and they hereby are denied;

2. Applicants' requests for disclaimer of jurisdiction over or approval of the interlocking relationships in Docket 25603, and for approval of the acquisition and control relationships in Docket 25583, be and they hereby are set for hearing before an Administrative Law Judge of the Board at a time and place to be hereafter designated;

3. The proceedings in Dockets 25583 and 25603 be and they hereby are consolidated;

4. The motion of the applicants for leave to file a reply and the motion of Ronson Corporation and Ronson Helicopters, Inc. for leave to file a supplemental answer, respectively, in Docket 25583, be and they hereby are denied;

5. The motion of the Aviation Consumer Action Project for leave to file comments and request for collateral action be and it hereby is dismissed without prejudice; and

6. The request of Ronson and Ronson Helicopters, Inc. to hold in abeyance the proceeding in Docket 25603, be and it hereby is dismissed without prejudice.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15375; Filed 7-25-73;8:45 am]

[9] Pan American World Airways, Inc. and National Airlines, Inc. Agreements, 27 CAB 611 (1958). See also, Tooico-Northeast Control Case, 42 CAB 822 (1965) and West Coast Airlines, Inc. Enforcement Case, 42 CAB 561 (1985).

[10] As defined by section 101(13) of the Act, a citizen of the United States includes a corporation in which, among other requirements, "at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or one of its possessions."

[11] See Willy Peter Daetwyler d/b/a Interamerican Airfreight Co., Order 71-10-114, October 23, 1971.

[12] Obviously, a clear showing of control and unfettered ownership by FNBW of Ronson Helicopters could present a situation which would warrant a grant of the exemption. See The Union Corporation, Acquisition of Prinair, Order 69-11-5, November 4, 1969.

[13] For example, an additional section 408 issue may involve the common control of Ronson Helicopters and Ronson Hydraulics.

[14] The applicants are of course not precluded from pursuing any issues underlying requests for disclaimer of jurisdiction over any interlocking relationships involved in Docket 25603, or acquisitions and control relationships involved in Docket 25583.

[15] ACAP may of course seek to avail itself of Rule 15 of the Board's Rules of Practice as an intervenor in this proceeding before the Administrative Law Judge.

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2:30 p.m. on Monday, August 6, 1973, to continue discussions on the fiscal year 1974 comparability adjustment for the statutory pay systems of the Federal Government.

In accordance with the provisions of section 10(d) of the Federal Advisory Committee Act, it has been determined by the Director of the Office of Management and Budget and the Chairman of the Civil Service Commission, who serve jointly as the President's Agent for the purposes of the Federal pay comparability process, that this meeting of the Federal Employees Pay Council will not be open to the public.

For the President's Agent.

FRANK S. MELLOR,
Advisory Committee Management Officer for the President's Agent.

COMMISSION ON REVISION OF THE FEDERAL COURT APPELLATE SYSTEM

NOTICE OF MEETING

Notice is hereby given that the Commission on Revision of the Federal Court Appellate System[1] will meet Wednesday, August 1, 1973, at 10 a.m. in Room S-124 of the Capitol.

The purpose of the meeting is to discuss alternative plans for the realignment of the judicial circuits. In this connection the Commission will consider and discuss various factors relevant to realignment of the judicial circuits and to the creation of new circuits.

The Commission will also discuss research plans relevant to redistricting and to the internal procedures and structure of the Federal Courts of Appeal System.

The meeting is open to all interested persons.

A. LEO LEVIN,
Executive Director.

JULY 17, 1973.

COMPTROLLER GENERAL

USE OF COMMUNICATIONS MEDIA

1973 Federal Election Expenditure Limitations

Title I of the Federal Election Campaign Act of 1971 (Public Law 92-225) imposes a spending limitation on candidates for Federal elective office (President of the United States, Senator and Representative in, or Resident Commissioner or Delegate to, the Congress of the United States) for campaign use of communications media. Under the Act and the Regulations of the Comptroller General, 11 CFR Ch. 1, "communications media" means radio, television, cable television, magazines, newspapers, billboards, display space in any public place of a type customarily leased to commercial advertisers, and telephones when used to communicate with potential voters by general canvass methods.

In accordance with section 104(a)(4) of the Act, the Secretary of Labor has certified to the Comptroller General and published in the FEDERAL REGISTER[1] that the U.S. City Average All Items Consumer Price Index (1967=100) increases 7.7 percent from its 1970 annual average of 116.3 to its 1972 annual average of 125.3. As provided in section 104(a)(5) of the Act, the Secretary of Commerce has certified to the Comptroller General and published in the FEDERAL REGISTER[2] the "Estimate of Voting Age Population" of each State, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands, and of each congressional district on July 1, 1972. The estimate shows that no congressional district has a voting population in excess of 500,000, except the District of Columbia and Puerto Rico.

Under the statutory limitation formula, the communications media spending limitation applicable to each congressional district for each election during 1973 (except the District of Columbia and Puerto Rico) is $53,850, of which no more than $32,310 may be spent for the use of broadcasting media.

On the basis of the certifications received from the Secretary of Labor and the Secretary of Commerce, the spending limitations applicable to each Federal election held during 1973 in each State and in the United States are set forth in Appendix A.

The voting age population estimates for Guam, Puerto Rico, and the Virgin Islands are not included in the total for the United States since their residents do not vote in presidential elections.

[SEAL] ELMER B. STAATS,
Comptroller General of the United States.

FOREST SERVICE

Draft — *Date*
Sipsey River, William B. Bankhead N.F. — 07/17
Alabama
County: Lawrence, Winston
The statement refers to the proposed legislative designation of the Sispey River Eastern Wilderness. The area will consist of 9,360 acres of the William B. Bankhead National Forest. With the ceasing of management practices there will be changes in wildlife habitat. There will be reductions in consumptive use of timber, wildlife, and minerals found in the area. (24 pages)
(ELR ORDER # 31185) (NTIS ORDER # EIS 73 1185D)

SOIL CONSERVATION SERVICE

Draft — *Date*
Twelve Mile Creek Watershed — 07/17
Iowa
County: Union, Adair, Ringgold
The statement refers to a proposed watershed protection project. The project is intended to reduce flood damages by 85% on 2,272 acres, and prevent gully erosion on 3,255 acres, as well as to provide water supply for the City of Creston. Project measures will include land treatment, 11 grade stabilization structures, and one multiple purpose reservoir. Adverse impact will include the permanent inundation of 924 acres; the periodic flooding of 662 acres; the relocation of 5 families and effect upon 5 farm operations; and the closing of 4 roads. (22 pages)
(ELR ORDER # 31182) (NTIS ORDER # EIS 73 1182D)

Sledge Bayou Watershed — 07/17
Mississippi
County: Quitman
Proposed is a protection project on the 9,208 acre watershed, in order to reduce floodwater damage on 7,707 acres by 55%, and to reduce erosion and sedimentation by 15%. Project measures include land treatment and 32 miles of channel work. Agricultural production and wildlife habitat will be eliminated on 20 acres which will be used in the channel modification. (19 pages)
(ELR ORDER # 31183) (NTIS ORDER # EIS 73 1183D)

ECONOMIC DEVELOPMENT ADMINISTRATION

Draft — *Date*
Dam and Reservoir, Bayou Loco — 07/18
Texas
County: Nacogdoches
The statement refers to a proposed dam and 2,210 acre municipal lake on Bayou Loco, 10 miles west of the City of Nacogdoches. The purposes of the project are those of water supply, flood control, and recreation. Project measures will include a pumping station, water treatment plant, storage tanks, and transmission lines. Adverse impact will include the inundation of 2,210 acres, including 1,300 acres of bottomland hardwood. There will be pollution potential from submerged gas and oil pipelines. (112 pages)
(ELR ORDER # 31192) (NTIS ORDER # EIS 73 1192D)

Final — *Date*
Elk Mountain Road — 07/17
New Mexico
County: San Miguel
The statement refers to the proposed construction of 33 miles of 2 lane all weather roadway, in order to improve access to a proposed winter recreation area which is intended to stimulate local economic conditions. Approximately 240 acres of timberland, 32 acres of rangeland, and 300 acres of wildlife habitat will be required for right-of-way. (217 pages)

DELAWARE RIVER BASIN COMMISSION

Final — *Date*
Trout Run Earthfill Dam — 07/16
Pennsylvania
County: Berks
Proposed is the construction of an earthfill dam, and Trout Run Reservoir. The facility will include a multi-leveled intake tower, bottom outlet, pumping station, spillway and stilling basin, and transmission line. A total of 42 acres of land will be inundated by the project. Adverse impacts stemming from the project are loss of land and associated wildlife cover. (Approximately 200 pages)

Draft — *Date*
Butler Valley Dam and Blue Lake — 07/17
California
County: Humboldt
The statement refers to a proposed multipurpose water storage project, including a 326 foot high embankment dam on the Mad River. The reservoir will drain an area of 352 square miles. Adverse impact includes the inundation of 2360 acres of land and 11 miles of stream in one of the few remaining small coastal valleys in northern California. Archeological sites in an area once occupied by the Whilkut Indians will be lost. (San Francisco District) (278 pages)
(ELR ORDER # 31180) (NTIS ORDER # EIS 73 1180D)

Bushley Bayou Flood Control Project — 07/11
Louisiana
The statement considers the advisability of providing backwater flood protection to the Bushley Bayou area by means of a loop levee, gravity floodgate, internal drainage canal and a 1,500 cubic-foot-per-second pumping station. Three thousand acres of suitable wildlife lands and water supply and control facilities will be acquired to mitigate project induced fish and wildlife losses. Adverse effects of the action are loss of 5,900 acres of bottomland hardwood forests, loss of fish and wildlife habitat and possible damage to Indian mounds of archeological value. (70 pages)
(ELR ORDER # 31158) (NTIS ORDER # EIS 73 1158D)

Whitewater Creek — 07/16
New Mexico
The statement refers to the proposed channelization and excavation of 1.6 miles of Whitewater Creek near Glenwood, in order to reduce the threat of flooding. Adverse impact will include the loss of riparian wildlife habitat; short term increase in sediments into the San Francisco River; and possible effects on underground water. (Los Angeles District) (21 pages)
(ELR ORDER # 31174) (NTIS ORDER # EIS 73 1174D)

Draft — *Date*
Deep Fork Logjam, Deep Fork River — 07/11
Oklahoma
County: Creek Oktuskee
The proposed project consists of removing a logjam from the Deep Fork Canadian River. The removal of the Logjam will cause an increase in turbidity. (8 pages)
(ELR ORDER # 31160) (NTIS ORDER # EIS 73 1160D)

National Recreation Area System, — 07/13
Oklahoma
Oklahoma
County: several
The statement refers to the proposed establishment of a 4 lake area in northeastern Oklahoma as part of a National Recreation Area. Parts of 190,600 acres of Federally owned lands would be made available for recreation development. Construction would include 11 public use areas, 52 miles of motor bike trails, 25 miles of bicycle trails, 60 miles of hiking trails, and 32 miles of nature trails. Some native areas and wildlife habitat will be lost. (89 pages)
(ELR ORDER # 31172) (NTIS ORDER # EIS 73 1172D)

Flood Control, Wyoming Valley — 07/13
Pennsylvania
County: Luzerne
The statement refers to proposed modifications to existing flood control features in the Wyoming Valley. Basic elements include the raising of 64,000 linear feet of levees to heights dictated by the requirement that adequate flood protection constitutes levee raising to the June, 1972 Hurricane Agnes flood height. There will be adverse impact upon aesthetics and ecological habitats and patterns. (121 pages)
(ELR ORDER # 31173) (NTIS ORDER # EIS 73 1173D)

Strip Mine Demonstration — 07/11
Reclamation Project
West Virginia
The project consists of a program to provide erosion and sedimentation control through land stabilization to areas disturbed by coal extraction; provision of water quality control by rehabilitating 10.5 miles of stream channel and institution of a floodplain management program; provision of water quality control by recommending a pilot demonstration project for acid mine drainage abatement; provision of domestic waste treatment and reuse; improvement of existing water supplies; provision of mini day-use parks and public hunting areas; and removal of dilapidated buildings, and a general clean-up of the watershed. Increased noise, dust pollution and water turbidity will occur. (ELR ORDER # 31159) (NTIS ORDER # EIS 73 1159D)

Multi-Purpose Target Range, Meridian — 07/18
Mississippi
County: Noxubee
Proposed is the acquisition of 500 acres, and easements on 2400 acres, in order to establish an air-to-ground target range for use by the Naval Air Station, Meridian. Target preparation will include the clear-cutting of 500 acres of saw timber and pulpwood. Adverse impacts will include soil disruption and deposits of metal fragments, and increases in ambient noise and air pollution levels. No live rockets, bombs or incendiary ordnance will be used. Draft — *Date*
Federal Youth Center, Richmond — 07/18
Florida
County: Dade
The statement refers to the proposed construction of a 15 building complex on a 205 acre wooded site. The complex will house a Federal Youth Center for correctional purposes, to be operated by the Bureau of Prisons. There will be construction disruption from the project. (51 pages)
(ELR ORDER # 31186) (NTIS ORDER # EIS 73 1186D)

Federal Office Building, Atlanta — 07/18
Georgia
Proposed is the construction of a courthouse and Federal office building which will provide space for 3,000 employees. The facility will have a gross area of 1,208,175 square feet in 24 stories, on a 4.139 acre site. Parking will be provided for 310 vehicles. There will be construction disruption; economic growth in the central business district may be spurred. (43 pages)
(ELR ORDER # 31191) (NTIS ORDER # EIS 73 1191D)

Federal Office Building, Saginaw — 07/16
Michigan
Proposed is the construction of a new Federal Office Building, of 126,000 sq. feet. The building is intended to serve as an environmental demonstration laboratory, with a solar collector, a waste and rain water collection system, extensive use of recycled building materials, and landscaped lawn and roof areas. Adverse impact will include construction disruption. (49 pages)

Draft — *Date*
Legislation to Deregulate Natural Gas — 07/18
The statement refers to proposed legislation which would amend the Natural Gas Act of 1938 to remove the pricing of "new" natural gas in interstate commerce from regulation by the Federal Power Commission, and subject it to the forces of the free market. Deregulation of natural gas prices may lead to changes in production by consumption. Potential impact from increased production would include: 1) activities associated with exploration, production, transportation, distribution and combustion; 2) those which do not take place because gas displaces other energy forms; and 3) those which arise from changes in the uses of natural gas.

FEDERAL HIGHWAY ADMINISTRATION

Draft — *Date*
Interstate Route 80, Auburn — 07/10
California
County: Placer
Proposed is the addition of two lanes to the existing four lane facility and an auxiliary eastbound lane for trucks on a 2.1-mile segment of Interstate Highway 80. The project extends from the Auburn Ravine Undercrossing and ends 0.6 mile east of the east Auburn Overhead in the City of Auburn. Adverse impacts stemming from the project include the commitment of 26 acres of land to right-of-way; the relocation of part of a cemetery; the displacement of 60 residential units and several businesses; and encroachment on Section 4(f) land from Historic Old Auburn, a registered historic site. (85 pages)
(ELR ORDER # 31145) (NTIS ORDER # EIS 73 1145D)

Troy Avenue, Pueblo — 07/10
Colorado
County: Pueblo
Proposed is the construction of a 1.9 mile arterial linking Fourth Street (State Highway 96) and State Highway 47 in the City of Pueblo. Construction of the project will affect traffic flow, land use and the existing neighborhood environment. (65 pages)
(ELR ORDER # 31146) NTIS ORDER # EIS 73 1146D)

Iowa Route 2 — 07/10
Iowa
County: Page
Proposed is the relocation and reconstruction of 4.7 miles of Iowa 2 from its junction with US 71 eastward to the Taylor County Line. Approximately 50 acres of agricultural land will be committed to highway use. Wildlife habitat would be disrupted; 10 rural homes would be displaced. Erosion potential and water poliution through sedimentation would increase during construction; the noise level will increase. (33 pages)
(ELR ORDER # 31153) (NTIS ORDER # EIS 73 1153D)

US 24, Kansas City — 07/02
Kansas
County: Wyandotte
The proposed action is the upgrading of 1.089 miles of US 24 in Kansas City. The project (associated with Urban Renewal Plan Number Kansas R-28) begins on State Avenue west of 11th Street and ends on Washington

V 38 I 143 JUL 26 73 XUM

Blvd. at 5th street. Section 4(f) land from Big Eleven Park and the John F. Kennedy Recreation Area will be affected. Two businesses and one house will be displaced; the noise level will increase. (26 pages)
(ELR ORDER # 31096) (NTIS ORDER # EIS 73 1096D)

S.T.H. 56, Wisconsin 07/12
Wisconsin
County: Richland
The proposed project consists of replacing a deficient bridge and reconstructing 0.32 miles of approaches on Highway 56. Nine to twelve trees will be removed; 2.9 acres of cropland will be acquired for right-of-way. (11 pages)
(ELR ORDER # 31164) (NTIS ORDER # EIS 73 1164D)

S.T.H. 81, Wisconsin 07/13
Wisconsin
County: Grant LaFayette
Proposed is the reconstruction of S.T.H. 81 from its intersection with S.T.H. 80 in Grant County to 1.8 miles east of Seymour Corners in LaFayette County. Project length is 19.8 miles (exempted from the improvement is 0.7 mile constructed in 1967). Approximately 45 acres of agricultural land will be committed to the action. Adverse effects include possible siltation to streams with resultant effect on fish and wildlife and increased air and noise pollution for vehicular traffic. (15 pages)
(ELR ORDER # 31171) (NTIS ORDER # EIS 73 1171D)

Final *Date*
California Route 20 07/13
California
County: Colusa Sutter
The project consists of improving and realigning a 1.8 mile segment of S.R. 20. The project will take 52 acres of agricultural land for right of way. A bridge will be constructed over the Sacramento River (replacing an older bridge) near Meridian. Construction of the bridge will cause water pollution. Also crossed will be the Meridian Farm Lands Water Company's irrigation ditch. There will be an increase in noise levels. (96 pages)

[Docket No. E-8305]

ALLEGHENY POWER SERVICE CORP.

Notice of Exchange Agreement

JULY 13, 1973.

Take notice that on July 5, 1973, Allegheny Power System (Allegheny) tendered for filing on behalf of Monongahela Power Company (Monongahela), The Potomac Edison Company (PE), West Penn Power Company (West Penn) and Virginia Electric and Power Company (VEPCO) Amendment No. 1 to an agreement dated January 1, 1973, designated PE FPC No. 33, West Penn FPC No. 31, Monongahela FPC No. 32, and VEPCO FPC No. 99. Allegheny states that the amendment to said agreement adds Schedule E—Diversity Power and Exchange Agreement to be effective as of such date as the schedule is accepted for filing by the Commission. Allegheny submits that the filing is made to establish a program of exchange of energy commencing in 1975 between the Allegheny System, a winter peak system, and VEPCO, a summer peak system.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI74-8]

ATLANTIC RICHFIELD CO.

Order Providing for Hearing

JULY 13, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I] and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until the shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and Section 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

BACA GAS GATHERING SYSTEM, INC.

Notice of Proposed Changes in Rates and Charges

JULY 20, 1973.

Take notice that on June 25, 1973, Baca Gas Gathering System, Inc. (Baca) tendered for filing FPC Gas Tariff, Original Volume No. 3 to be effective as of May 17, 1973.

Baca states that the filing is in accordance with paragraph (D) of the Commission's order issued May 16, 1973, in Docket No. CP73-141 authorizing the sale of natural gas under the terms and provisions of a contract dated October 17, 1972, between Baca and Panhandle Eastern Pipe Line Company.

All persons desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the Commissions rules of practice and procedure. All such petitions and protests should be filed on or before August 2, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7709]

BANGOR HYDRO-ELECTRIC CO.

Notice of Proposed Changes in Rates and Charges

JULY 19, 1973.

Take notice that Bangor Hydro-Electric Company (Bangor) on July 2, 1973, tendered for filing proposed changes in its FPC Rate Schedules 1, 2, 4, 5 and 7, as a revision of proposed changes filed by the Company on February 11, 1972, and refiled on February 26, 1973. The proposed changes would increase revenues from jurisdictional sales and service by $67,948 based on a volume of sales for the 12 month period ending June 30, 1972. The proposed rate change is described in the Company's tranmittal letter as resulting from increased operating costs. The proposed effective date is September 1, 1973.

Any person desiring to be heard or to protest this filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE. Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15394 Filed 7-25-73;8:45 am]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Proposed Changes in Rates and Charges

JULY 19, 1973.

Take notice that on June 25, 1973, Consolidated Gas Supply Corporation (Consolidated) tendered for filing Original Sheets Nos. 397-425 to its FPC Gas Tariff, Original Volume No. 2. The proposed changes would result in $22,836 in revenues from jurisdiction sales based on a total volume of 14,675,999 Mcf for the 12 month period ending October 31, 1973.

Consolidated states that the filing is the result of Commission order of April 6, 1973, in Docket No. CP73-146, authorizing Consolidated to transport for Texas Gas Transmission Corporation (Texas Gas), on a firm basis, a contract demand volume of 51,000 Mcf daily at 14.73 psia. This application constitutes the transportation agreement instituting the Commission order.

Consolidated also requests a waiver of the notice requirements of § 154.22 of the Commission's regulations so that the effective date of the agreement may be November 2, 1972. Consolidated states that on November 2, 1972, it notified the Commission that it was commencing the subject transportation service on behalf of Texas pursuant to § 157.22 of the Regulations. The sixty-day notice limitation imposed by the section was extended by Commission letter order of January 11, 1973. Consolidated asserts that on February 9, 1973, Texas Gas invoked § 157.22 of the regulations with regard to the transportation service. Consolidated believes, therefore, that it is appropriate to prescribe an effective date of November 2, 1972, for its application.

All parties to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol, NE. Washington, D.C. 20426 in accordance with the Commission rules of practice and procedure. All such petitions or protests should be filed on or before August 3, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Rate Schedule No. 115]

CONTINENTAL OIL CO.

Notice of Rate Change Filing

JULY 20, 1973.

Take notice that the producer listed in the Appendix attached below has filed a proposed increased rate to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to this sale is listed in the Appendix below.

Any person desiring to be heard or to make any protest with reference to said filing should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

EL PASO NATURAL GAS CO.

Notice of Revised Exhibits

JULY 13, 1973.

Take notice that on July 5, 1973 El Paso Natural Gas Company tendered for filing revised Exhibits A and B, each dated April 16, 1973 to the firm Service Agreement dated August 15, 1970 between El Paso and Arizona Public Service Company (APS). El Paso states that this filing is made to reflect changes authorized by Commission order issued March 6, 1972 in Docket No. CP72-39,

V38 I143 JUL 26 73 XUM

granting El Paso the right to abandon by Assignment to APS the Bowie Nos. 1 and 2 Meter Stations, the Wenden Meter Station and the Salome Meter Station and to construct and operate the Bowie Master Meter Station and the Wenden-Salome Master Meter Station. An effective date of August 4, 1973 is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15299 Filed 7-25-73;8:45 am]

[Docket No. CP70-138]

EL PASO NATURAL GAS CO.

Order Permitting Interventions, Providing for Hearing and Establishing Procedures

JULY 13, 1973.

On March 27, 1973, El Paso Natural Gas Company (El Paso) filed a petition requesting the Commission to modify El Paso's import authorization, issued in Docket No. CP70-138, to conform to the provisions of the Third Amending Agreement (TAA) to its Fourth Service Agreement (FSA) entered into on March 1, 1973, between El Paso and Westcoast Transmission Company, Limited (Westcoast).

By Commission order issued in this docket on May 12, 1970, (in Docket No. CP70-138), as amended by order on February 9, 1971, El Paso was authorized to import natural gas from Canada, to be purchased from Westcoast, in accordance with the terms and conditions set forth in the FSA, dated October 10, 1969. The Commission's order of May 12, 1970, provides that El Paso cannot "• • • materially change or alter its import operations without first obtaining the permission and approval of the Commission".

The TAA modified the FSA in four respects. First, the commodity charge adjustment provision is expanded to permit Westcoast to charge El Paso, commencing March 1, 1973, its allocable share of Westcoast's increases in actual costs of gas purchased above the estimates of such costs. This would in effect give Westcoast a purchased gas rate adjustment clause without the unit limitations currently in effect. Second, Westcoast is permitted to undertake an advance payment program and adjust the commodity charge of El Paso's rate to recover certain costs arising from Westcoast's advance payments program. Third, El Paso has agreed to permit Westcoast to further increase the commodity charge of its rate by 1.5 cents per Mcf until November 1, 1975, as an incentive to Westcoast to acquire new gas reserves and secure authorizations for the export and sale of additional gas to El Paso. Under certain conditions this increase will continue until November 1, 1976, and under certain other conditions the increase or a portion thereof would continue throughout the remaining term of the FSA. Fourth, the TAA changes the currency adjustment provisions of the FSA to conform to the other changes in the pricing provisions.

The filing was noticed on April 26, 1973, with comments, protests and/or petitions to intervene due on or before May 18, 1973. Timely petitions to intervene were filed by the APCO Group, Colorado Interstate Gas Company, Northwest Natural Gas Company, California-Pacific Public Utilities Company and Southwest Gas Corporation. Notices of Interventions were filed by the People of the State of California and the Public Utilities Commission of the State of California and the Public Utility Commissioner of the State of Oregon. An untimely petition to intervene was filed by the Intermountain Gas Company.

The proposed amendment has not been shown to be in the public interest and good cause exists to enter upon a hearing concerning El Paso's requested amendment.

The Commission finds.

(1) Although the petition to intervene of Intermountain Gas Company was not timely filed, good cause exists for permitting such intervention since its participation will not delay the disposition of this proceeding.

(2) It is desirable and in the public interest to permit all of the above named petitioners to intervene in this proceeding in order that they may establish the facts and the law from which the nature and validity of their alleged right and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the above-mentioned matters and establish the procedures for said hearing as hereinafter set forth.

The Commission orders:

(A) The above-named petitioners to intervene are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interevnors shall be limited to matters affecting rights and interests as specifically set forth in said petitions for leave to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any one of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 3, 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act, (18 CFR Ch. I) a public hearing shall be held on August 28, 1973, at 10:00 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the issues involved herein.

(C) The case-in-chief of El Paso, and that of any supporting intervenor, including prepared testimony and exhibits, shall be filed with the Commission and served on all parties on or before July 31, 1973.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-8293]

FLORIDA POWER AND LIGHT CO.

Notice of Proposed Changes in Rates and Charges

JULY 13, 1973.

Take notice that Florida Power and Light Company (Florida) on June 19, 1973, tendered for filing proposed changes in its Rate Schedule FPC Nos. 8-16 to become effective August 18, 1973. Florida asserts that the changes are necessary to eliminate the Commodity Adjustment Clauses as directed by the Commission.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Commission's rules of practice and procedure. All such petitions or protests should be filed on or before July 26, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. E-8303]

GEORGIA POWER CO.

Notice of Proposed Changes in Rates and Charges

JULY 20, 1973.

Take notice that on June 27, 1973, Georgia Power Company (Georgia) tendered for filing a rate schedule representing a contract between Georgia and Savannah Electric and Power Company to be effective June 1, 1973.

Georgia states that the new rate schedule supplants "Georgia FPC Rate Schedule No. 729" which expired May 31, 1973. The new contract sets out specific amounts of capacity purchases and sales, based on presently estimated loads and stated reserves. Georgia states the changes in the new contract are necessary to provide for revised rates for capacity and various types of energy.

Georgia claims that no estimate of billing capacity or revenues is possible because of the indefiniteness of the energy transactions; however capacity charge to Georgia for the twelve months following June 1, 1973, will be $240,000.

Any person desiring to be heard or protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol, NE., Washington, D.C. 20426 in accordance with the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before July 31, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15385 Filed 7-25-73;8:45 am]

[Docket No. E-8307]

GEORGIA POWER CO.

Notice of Proposed Changes in Rates and Charges

JULY 20, 1973.

Take notice that Georgia Power Company (Georgia) tendered for filing on July 2, 1973, proposed changes in FPC Electric Rate Schedule No. 747. The filing consists of a letter agreement dated May 24, 1973, between Georgia and Crisp County Power Commission (Crisp County) which supplements the existing agreement between the parties dated May 31, 1969. Georgia states that under the supplemental agreement it will provide 5,000 kilowatts of short-term capacity to Crisp County at the rate of $1.80 per kilowatt per month from June, 1973, to November, 1973, and such energy as may be required. Georgia requests that the Commission waive the notice requirements of § 35.3 of the Commission's regulations and permit the changes to be effective June 1, 1973, since the service was made available to Crisp County on that date.

Georgia states that in submitting this filing it does so without prejudice to its right to question the Commission's jurisdiction to require filing of this agreement and it reserves the right to deny the Commission's jurisdiction.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 31, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8121]

GULF STATES UTILITIES CO.

Notice of Proposed Changes in Rates and Charges

JULY 19, 1973.

Take notice that on July 9, 1973, Gulf States Utilities Company (Gulf States) filed a notice of rate increase which the Company states it gave on June 21, 1973, to the Kirbyville Light and Power Company (Kirbyville) pursuant to the Commission's June 14, 1973, order in this docket in which the Commission allowed a rate increase, applicable to Kirbyville, filed in this docket to become effective subject to refund, upon the contractually specified date and proper notice of such being filed with the Commission. Tendered for filing under Gulf States' FPC Schedule No. 81 (Kirbyville Light and Power Company) is revised schedule 423 "Other Electric Corporations For Resale". The proposed effective date of the revised schedule is August 21, 1973, which Gulf States indicates is the anniversary date specified by its contract with Kirbyville, as later amended by the parties, upon which changes in rates could be put in effect after giving notice of such change within a contractually specified period. Gulf States further states that it gave notice, on June 21, 1973, of termination of the service contract with Kirbyville but such notice was rejected. The Company indicates that it reserves all rights based on such termination. The Company also states that it is understood that the implementation of the rate increase is also subject to applicable regulations as may be promulgated under the President's Economic Stabilization Program announced June 13, 1973.

Any person desiring to be heard or to protest this filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15400 Filed 7-25-73;8:45 am]

[Docket No. CI71-889]

HARVEY BROYLES

Notice of Petition to Amend

JULY 20, 1973.

Take notice that on June 18, 1973, Harvey Broyles (Petitioner), P.O. Box 1511, Shreveport, Louisiana 71165, filed in Docket No. CI71-889 a petition to amend further the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing Petitioner to sell natural gas to Texas Eastern Transmission Corporation (Texas Eastern) from the Bryceland Field, Bienville Parish, Louisiana, for an additional period of time at an increased price, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The order, as amended, issuing the certificate in the subject docket authorizes Petitioner to sell gas to Texas Eastern through August 11, 1973, at a rate of 35.0 cents per Mcf at 15.025 psia within the contemplation of § 2.70 of the Commission's General Policy and Interpretation (18 CFR 2.70). Petitioner proposes to continue said sale for six months commencing August 12, 1973, at the rate of 45.0 cents per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 3, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any

V 38-143 JUL 26 73 XUM

hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15384 Filed 7-25-73;8:45 am]

[Docket No. CI74-16]

JOHN H. HENDRIX ET AL.

Notice of Application

JULY 19, 1973.

Take notice that on July 5, 1973, John H. Hendrix (Applicant), 403 Wall Towers West, Midland, Texas 79701, filed in Docket No. CI74-16 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Skelly Oil Company (Skelly) from the Drinkard Pool, Lea County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon the sale of casinghead gas to Skelly made under a percentage-of-proceeds casinghead gas contract within the contemplation of § 154.91(e) of the regulations under the Natural Gas Act (18 CFR 154.91(e)). Applicant states that Skelly processed the gas and sold the residue to Northern Natural Gas Company (Northern) and El Paso Natural Gas Company. Applicant states further that the subject gas is produced from wells reclassified from oil wells to gas wells by the New Mexico Oil Conservation Commission and that said gas will now be sold to Northern under an existing contract pursuant to Applicant's small producer certificate.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8300]

IOWA ELECTRIC LIGHT AND POWER CO.

Notice of Application

JULY 13, 1973.

Take notice that on June 29, 1973, the Iowa Electric Light and Power Company (Applicant) filed an application pursuant to Section 204 of the Federal Power Act with the Federal Power Commission seeking authority to issue and sell at competitive bidding 125,000 shares of Cumulative Preference Stock.

Applicant is incorporated under the laws of the State of Iowa and is authorized to do business in the States of Iowa, Minnesota, Colorado and Nebraska with its principal business office at Cedar Rapids, Iowa. Applicant is engaged primarily in the generation, transmission and sale at retail of electric energy in 51 counties in the State of Iowa.

The Cumulative Preference Stock will be issued on approximately September 20, 1973. The Cumulative Preference Stock is subject to the prior rights and preferences of the existing outstanding classes of the Company's Cumulative Preferred Stock. The rate of dividend on the Cumulative Preference Stock will be determined by competitive bidding and redemption prices and amount payable in event of voluntary liquidation will be determined by agreement between the Company and the person or persons offering the best price for the Cumulative Preference Stock based upon the rate of dividend and the public offering price.

According to the Applicant, the purposes for which the Preference Stock is to be issued include the construction, completion, extension and improvement of facilities. The estimated construction program for 1973 totals $53,077,000 and includes the expenditure of $42,530,000 for its share of the cost of construction of a 550,000 KW nuclear generating station being constructed on a site near Palo, Iowa. Two Iowa generating and transmission cooperatives, Central Iowa Power Cooperative and Corn Belt Power Cooperative will have a 20% and 10% undivided ownership, respectively, in this plant and its generating capacity.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Rate Schedule Nos. 1, etc.]

KERR-McGEE CORP., ET AL.

Notice of Rate Change Filings

JULY 19, 1973.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before July 27, 1973, file with the Federal Power Commission, Washington, D. C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-783]

LONE STAR EXPLORATION, INC.

Notice of Amendment to Application

JULY 13, 1973.

Take notice that on July 9, 1973, Lone Star Exploration, Inc. (Applicant), 2010 Republic National Bank Tower, Dallas, Texas 75201, filed in Docket No. CI73-783 an amendment to the application filed on May 14, 1973, in said docket pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company (United) from the Southwest Tatum, Hosston-Cotton Valley Field, Rusk County, Texas, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

In its application of May 14, 1973, Applicant stated that it received no tax reimbursement for the gas sold to United. Applicant now states that it is to be reimbursed for all gathering, transportation, and handling taxes which are levied upon it as a result of the proposed sale. It is estimated that such reimbursement will be 3.0 cents per Mcf and that the total price will be 43.0 cents per Mcf at 14.65 p.s.i.a. subject to upward and downward Btu adjustment.

Since the proposed sale is to be made within the contemplation of § 2.70 of the Commisison's general policy and interpretations (18 CFR 2.70), it appears reasonable and consistent with the public interest to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application, as amended, should on or before July 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed protests or petitions to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15301 Filed 7-25-73;8:45 am]

[Docket No. CI73-501]

LOUISIANA LAND AND EXPLORATION CO.

Order Amending Order Granting Intervention and Fixing Date for Hearing

JULY 13, 1973.

By an order entitled "Order Granting Intervention And Fixing Date For Hearing" issued in this proceeding on July 6, 1973, we sought to fix dates for the submission of evidence, the commencement and conclusion of a hearing, the date of an initial decision, and the date for submission of briefs on exceptions to the Presiding Administrative Law Judge's decision.

However, inadvertently, a finding clause waiving the intermediate decision was included in the order. We did not intend that the intermediate decision be waived in this proceeding, and we shall amend our order of July 6, 1973, to delete that clause which waived the intermediate decision.

The order of July 6, 1973, is further amended to provide that the hearing in this proceeding shall be completed on or before August 3, 1973. It is necessary that the hearing be completed by that date so that an initial decision and a final decision upon the application in this proceeding may be issued before September 2, 1973, since LALEXCO could start to collect the contract rate on that date under the provisions of § 2.75h (18 CFR 2.75h).

The Commission finds.

(1) It is in the public interest that the order issued July 6, 1973, in this proceeding be amended as set forth below.

The Commission orders.

(A) The order entitled "Order Granting Intervention And Fixing Date For Hearing" issued in this proceeding on July 6, 1973, is hereby amended as follows:

Page 6, Paragraph (3):

Delete "Good cause exists for the waiver of the intermediate decision procedure in view of the imminent expiration of the six-month period in this proceeding from the commencement of deliveries under § 2.75o".

Page 6, Ordering Paragraph (A), Line 7: Change "July 31, 1973, at 10:00 a.m. (EDST) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NW., Washington, D.C. 20426" to "July 31, 1973, at 10:00 a.m. e.d.t. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NW., Washington, D.C. 20426, and shall be completed on or before August 3, 1973."

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-254]

McCULLOCH INTERSTATE GAS CORP.

Amendment to Application

JULY 13, 1973.

Take notice that on June 4, 1973, McCulloch Interstate Gas Corporation (Applicant), 10880 Wilshire Boulevard, Los Angeles, California 90024, filed in Docket No. CP73-254 an amendment to the application filed on March 30, 1973, in said docket pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, for 12 months from the date of any order in this proceeding rather than from April 1, 1973, through March 31, 1974, and the operation of certain gas purchase facilities within the contemplation of § 157.7(b) of the regulations under the Natural Gas Act (18 CFR 157.7(b)) in order to take into its certified main pipeline system natural gas which will be purchased from producers thereof. In addition, Applicant now requests authorization for the construction and for permission and approval of the abandonment, for a 12-month period, of certain field gas compression and related metering and appurtenant facilities within the contemplation of § 157.7 (g) of the regulations (18 CFR 157.7(g)). Applicant's proposals are more fully set forth in the amendment which is on file with the Commission and open to public inspection.

The purpose of this budget-type amendment under § 157.7(g) of the regulations is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's salable capacity or service from that authorized prior to the filing of the instant amendment. Applicant states that the total cost of the proposed construction and abandonment under this authorization will not exceed $500,000 and the cost for any single project will not exceed $150,000.

In its application of March 30, 1973, Applicant proposes to construct the gas purchase facilities at a total cost of $175,000 with the cost of any single project not to exceed $44,000. These costs will be financed from available funds supplemented, as necessary, by short term loans.

Any person desiring to be heard or to make any protest with reference to said application, as amended, should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed protests or petitions to intervene need not do so again.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8298]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice of Memorandum to Electric Service Agreement

JULY 19, 1973.

Take notice that on July 2, 1973, Northern Indiana Public Service Company

V38-143-L JUL 26 73 XUM

(Northern Indiana) tendered for filing Memorandum No. 57 to Northern Indiana Rate Schedule FPC No. 8 to be effective July 1, 1973, subject to the Economic Stabilization Act.

Northern Indiana states that Memorandum No. 57 relates to the release of capacity by Northern Indiana to Commonwealth Edison of Indiana, Inc. The electrical capacity subject to the memorandum was contracted for in an agreement contained in the above mentioned Rate Schedule FPC No. 8. The company also asserts that Sections IV and II of Memorandum No. 57 have had costs adjusted to reflect increases in fuel costs.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before July 31, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-116]

PACIFIC GAS TRANSMISSION CO.

Notice of Change in Tariff

JULY 13, 1973.

Take notice that on June 27, 1973, Pacific Gas Transmission Company (Pacific Gas) tendered for filing Original Sheet Nos. 16A, 16B and 16C in Rate Schedule PL-1 of its FPC Gas Tariff Original Volume No. 1. Pacific Gas states that this rate schedule is available only to Pacific Gas and Electric Company (PG&E) and that this filing is made to establish a general procedure for the inclusion of advance payments for exploration, development, and production of natural gas in Pacific Gas' rate base for computation of charges to PG&E. An effective date of August 1, 1973, is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 943]

PUBLIC UTILITY DISTRICT NO. 1 OF CHELAN COUNTY, WASHINGTON

Notice of Further Extension of Time

JULY 13, 1973.

On June 27, 1973, Public Utility District No. 1 of Chelan County, Washington filed a motion for an extension of time to answer petitions to intervene filed by Public Utility District No. 2 of Grant County, Washington, and Washington Department of Game and Washington Department of Fisheries. The motion states that counsel for the above petitioners advised that they have no objection to the request.

Upon consideration, notice is hereby given that the time is extended to and including July 31, 1973, within which answers may be filed to the above petitions.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-20]

SKLAR & PHILLIPS OIL CO.

Notice of Application

JULY 19, 1973.

Take notice that on July 12, 1973, Sklar & Phillips Oil Co. (Applicant), 2925 Mansfield Road, Shreveport, Louisiana 71103, filed in Docket No. CI74-20 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Arkansas Louisiana Gas Company (Arkla) from the Danville Area, Bienville Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commence the sale of gas on or about September 1, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 300,000 Mcf of gas per month at 58.3 cents per Mcf at 15.025 p.s.i.a., including 3.3 cents per Mcf tax reimbursement. It is stated that the buyer will dehydrate the gas at the point of delivery and, if necessary, will compress at the point of delivery at a charge of 0.75 cent per Mcf to the seller per stage of compression.

Applicant also states that it has entered into an agreement with Arkla giving Arkla first option, after expiration of the proposed one year sale, to purchase all the gas from Applicant's acreage subject to this application on a long term basis of up to 20 years by meeting the best offer then available to Applicant from any other pipeline buyer. If Applicant does not receive any better offers than the price for the sale herein proposed, the long term agreement will be at the same price as the proposed one-year sale, plus an escalation of 1.0 cent per Mcf per year.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP73-7, RP73-57]

SOUTH TEXAS NATURAL GAS GATHERING CO.

Notice of Presiding Administrative Law Judge's Certification of Motion to Terminate Proceedings

JULY 20, 1973.

Take notice that on July 2, 1973, the Presiding Administrative Law Judge certified to the Commission, in this docket, a motion by South Texas Natural Gas Gathering Company that the proceedings be terminated and that any obligation for refund also be terminated. The certification states that the motion was made at a prehearing conference held on June 19, 1973, at which time the prepared testimony of the Commission's Staff witnesses was placed in evidence, and further states that those parties present at the prehearing conference supported granting the motion and no party spoke in opposition. Accompanying the motion was the complete record in the proceeding.

Any person desirjng to be heard or to protest said certification should file a protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before August 3, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of the certification are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15399 Filed 7-25-73;8:45 am]

TENNESSEE GAS PIPELINE CO.

Notice of Amendment of Agreement

JULY 19, 1973.

Take notice that on July 3, 1973, Tennessee Gas Pipeline Company (Tennessee) tendered for filing Sixth Revised Volume No. 2, to be effective June 20, 1973.

Tennessee states that the filings reflect an amendatory agreement between Trunkline Gas Company (Trunkline) and Tennessee dated October 17, 1972. The amendment provides for an extension of the term of the original contract and the inclusion of a new delivery point at the tailgate of Texaco, Inc's Henry Gas Plant, Vermilion Parish, Louisiana, in the basic agreement (Tennessee's Rate Schedule X-35).

Tennessee requests waiver of the thirty day notice requirement as provided in 18 CFR 154.51 so that the agreement might become retroactively effective.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15406 Filed 7-25-73;8:45 am]

[Docket No. RP74-2]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Petition for Declaratory Order

JULY 18, 1973.

Take notice that on July 5, 1973, Texas Eastern Transmission Corporation, Post Office Box 2521, Houston, Texas 77001 (Texas Eastern) petitioned the Federal Power Commission for an order pursuant to sections 4 and 16 of the Natural Gas Act and § 1.7 of its rules of practice and procedure permitting Texas Eastern to include purchases of substitute natural gas (SNG) from Algonquin Gas Transmission Company (Algonquin) in the Purchase Gas Cost Adjustment (PGA) provisions of Texas Eastern's FPC Gas Tariff.

Texas Eastern has entered into an agreement with Algonquin providing for the sale by Algonquin and purchase by Texas Eastern of the difference between the 120,000 Mcfd output of Algonquin's regular customers from time to time. Purhases under Algonquin's Rate Schedule SNG-1 for the 1973-74 winter will be 28,539 Mcfd and under its Rate Schedule SNG-2 for the summer of 1974 will be in the range of 110,000 to 120,000 Mcfd. Texas Eastern alleges that the purchase of SNG is needed to help reduce the level of its curtailments during the coming heating season and in the future.

Any person desiring to be heard or to make any protest with reference to said petition should on or before July 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-69]

TRANSCONTINENTAL GAS PIPELINE CORP.

Notice of Certification of Proposed Settlement

JULY 19, 1973.

Take notice that on June 26, 1973, the Presiding Administrative Law Judge certified to the Commission a proposed settlement agreement in the above entitled proceeding together with the record relating thereto. The proposed settlement agreement and related record are on file with the Commission and available for public inspection.

Any person wishing to do so may file comments in writing with the Commission concerning the proposed settlement. Such comments should be filed on or before August 3, 1973. All comments received will be considered by the Commission in determining the appropriate action to be taken with respect to the proposed settlement.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15407 Filed 7-25-73;8:45 am]

[Docket No. CS69-26]

TRIBUNE OIL CORP.

Notice of Petition to Amend

JULY 19, 1973.

Take notice that on July 11, 1973, Tribune Oil Corporation (Petitioner), 230 Park Avenue, New York, New York 10017, filed in Docket No. CS69-26 a petition to amend the order issuing a small producer certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder (18 CFR 157.40) by authorizing Petitioner to continue the sale of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation at Egan, Louisiana, from properties acquired from Sack Properties, Inc., and Donald H. Loomis, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that sales from the properties of its assignors were made under Sun Oil Company FPC Gas Rate Schedule No. 257. Sun Oil Company is a large producer. Section 157.40(c) states that the authorization to sell gas under a small producer certificate shall not apply to any jurisdictional sale made by a small producer where the gas reserves relating thereto were acquired by the purchase of developed reserves in place from a large producer.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

TRUNKLINE GAS CO.

Notice of Cancellation

JULY 13, 1973.

Take notice that on July 2, 1973 Trunkline Gas Company (Trunkline) tendered for filing the following sheets to Trunkline's FPC Gas Tariff, Original Volume No. 2:

First Revised Sheet No. 331—Cancellation of Rate Schedule E–6
First Revised Sheet No. 355—Cancellation of Rate Schedule E–7
First Relvsed Sheet No. 359—Cancellation of Rate Schedule E–8

Trunkline states that this filing is made to report the termination of agreements for exchange of natural gas, by their own terms. An effective date of August 1, 1973 is requested.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., in accordance with the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestant parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. E–8276; etc.]

VIRGINIA ELECTRIC POWER CO., ET AL.

Notice of Application

JULY 18, 1973.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 205 of the Federal Power Act and Part 35 of the Regulations issued thereunder.

Any person desiring to be heard or to make any protest with reference to these applications should on or before August 13, 1973, file with the Federal Power Commission Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. The applications referred to above, are on file with the Commission and are available for public inspection.

Docket No. E–8276; filing date, June 18, 1973; name of applicant, Virginia Electric Power Company.

By request dated June 13, 1973, Applicant seeks permission to provide the Prince William Electric Cooperative with an additional delivery point in Prince William County, designated as the Woods Delivery Point. The projected connection date for this delivery point is in August, 1973. Applicant requests effectiveness on the date that the facilities are connected with the understanding that the Applicant will notify the Commission of that date.

Docket No. E–8277; filing date, June 14, 1973; name of applicant, The Superior District Power Company.

Applicant's letter dated June 12, 1973, requests permission to effect a special temporary minimum charge under its contract with the Bayfield Electric Cooperative, Telemark Connection, Point of Delivery No. 9. The installed 5,000 kVA in transformer capacity at this delivery point is more than twice the kVA capacity presently needed. Bayfield has agreed to a minimum charge based on 2,500 kVA capacity plus a flat charge of $50 per month to approximate the cost of unmetered transformer losses. It is requested that the proposed temporarily reduced minimum charge be effective with the date of connection for the Telemark Point of Delivery.

Docket No. E–8278; filing date, June 15, 1973; name of applicant, Gulf States Utilities Company.

Pursuant to agreement with Cajun Electric Power Cooperative Inc., Applicant has filed the June 11, 1973 notice of conversion of the Morganza Metering Point, at Morganza, Louisiana from 13.2 Kv to 34.5 Kv.

Docket No. E–8279; filing date, June 15, 1973; name of applicant, Public Service Company of New Hampshire.

By letter dated June 8, 1973, Applicant filed a change in the rate schedule applicable to its agreement with the New Hampshire Electric Cooperative, Inc., for Partial Requirements Resale.

Docket No. E–8279; filing date, June 15, 1973; name of applicant, Public Service Company of New Hampshire.

Service, dated December 1, 1972. This rate schedule replaces the rate schedule filed December 23, 1971, which has not been accepted for filing by the Commission.

The proposed changes delete all reference to deliveries of power from the Vermont Yankee Nuclear Power Corporation to the New Hampshire Electric Cooperative, Inc. The list of delivery points to which the Cooperative has requested delivery of its entitlement of power from the Maine Yankee Atomic Power Company has also been revised as has been the rate schedule set forth on Exhibit C, 1st Revised Sheet No. 1, dated June 15, 1972, filed as a rate increase in Docket No. E–7742. Applicant requests that the proposed rate schedule be made retroactive to December 1, 1972.

Docket No. E–8281; filing date, June 15, 1973; name of applicant, Public Service Company of New Hampshire.

By letter dated June 7, 1973, Applicant filed a change in the rate schedule pursuant to its agreement with the New Hampshire Electric Cooperative, Inc. Deletion of the Plymouth No. 1 delivery point is proposed effective as of October 1, 1970. Deletion of delivery point at Plymouth No. 2, Rumeny, Sunapee and Thornton is also proposed effective December 1, 1972. These delivery points have been deleted here because they have been added to a filing made concurrent with this one, Docket No. E–8279, Partial Requirements Resale Service.

Docket No. E–8283; filing date, June 13, 1973; name of applicant, Mississippi Power & Light Company.

Applicant filed by letter dated June 11, 1973, notice of agreement with the Delta Electric Power Association, Capline Substation, Carroll County, Mississippi, for sale of electrical power. The Applicant's rate schedule, REA–11, is on fife with the Commission. Applicant requests that this filing be made effective at the earliest permissible date.

Docket No. E–8291; filing date, June 25, 1973; name of applicant, Washington Water Power Company.

Applicant filed interconnection agreement between itself and Portland General Electric Company dated May 11, 1973. Applicant is to wheel energy generated by the Idaho Power Company and purchased by the Portland General Electric Company.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–8290]

VIRGINIA ELECTRIC AND POWER CO.

Contract Supplement for Establishment of New Delivery Point

JULY 13, 1973.

Take notice that on June 22, 1973, Virginia Electric and Power Company (Applicant) filed with the Federal Power Commission, pursuant to section 35 of the Regulations under the Federal Power Act, a contract supplement, dated April 4, 1973, to the Agreement designated as Applicant's Rate Schedule FPC No. 87–15 between Applicant and Virginia Electric Cooperative. Said supplement requests Commission authorization for a new point of delivery—designated Orchid Delivery Point—located on the southwest side of U.S. Highway 522, approximately one quarter mile northwest of Route 601, in or near Louisa, Virginia. The application requests that the authorization become effective on the date of connection of such facilities, which is estimated to be in August, 1973.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–15305 Filed 7–25–73;8:45 am]

STINGRAY PIPELINE CO. ET AL.

Practice and Procedure Intervention

JULY 13, 1973.

Stingray Pipeline Co., Sun Oil Co. and Pennzoil Offshore Transmission Co., Docket No. CP73–27, Docket No. CI73–878, Docket No. CI73–879, Docket No. CI73–880, Docket No. CP72–292.

On July 31, 1972, Stingray Pipeline Company (Stingray) filed an application in the above-styled proceeding pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, the leasing of existing facilities, and the transportation of gas for Natural Gas Pipeline Company of America (Natural and Trunkline Gas Company (Trunkline)).

Stingray proposes to construct and operate approximately 72 miles of 36-inch pipe, along with other appurtenant facilities, from Block 509 in West Cameron Area South Addition to Block 148 in West Cameron Area, offshore Louisiana, where the proposed line will attach to Natural's existing 36-inch offshore Louisiana system. Trunkline has been designated as the operator of the proposed facilities including the leased facilities. The project is to be constructed in two phases with the first phase to provide capacity of 654,000 Mcf per day and the second phase (additional laterals and offshore compression) would increase capacity to approximately 1,003,000 Mcf per day. The capacity is to be divided equally between Trunkline and Natural.

The proposed facilities in the first phase are to consist of 72 miles of 36-inch pipe, 134 miles of alleged gathering lines varying in size from 12-inches to 24-inches in diameter, a 22,500 horsepower onshore compressor station in Cameron Parish; Louisiana, and an offshore gathering platform in Block 509. The estimated total cost of these facilities is $105,000,000. The second phase facilities are to consist of 83.7 miles of alleged gathering line varying in size from 12-inches to 22-inches in diameter, an offshore compressor platform in Block 509 and the installation of a 22,000 horsepower compressor. The total estimated cost is $45,000,000.

Natural's offshore Louisiana system, which Stingray proposed to lease, consists of 4.55 miles of 16-inch lateral, 11.2 miles of 24-inch lateral and 32.05 miles of 36-inch pipe which was originally authorized by a certificate issued July 26, 1971, in Docket No. CP71–231. Natural's system extends from Block 148, West Cameron Area to a point onshore near Holly Beach, Louisiana.

Notice of Stingray's application was issued on August 16, 1972, and was published in the FEDERAL REGISTER on August 18, 1972 (37 FR 16829). September 5, 1972, was set as the final date for filing protests and petitions to intervene. Accordingly, timely petitions to intervene were filed by the following parties:

Columbia Gas Transmission Corporation
Laclede Gas Company
Pennzoil Offshore Transmission Company
United Gas Pipe Line Company
Northern Illinois Gas Company
Tennessee Gas Pipeline Company
Central Illinois Light Company[1]
Trunkline Gas Company
Panhandle Eastern Pipe Line Company
Central Illinois Public Service Company
Iowa Southern Utilities Company
Northern Indiana Public Service Company
North Shore Gas Company
Associated Gas Distributors[1]
Consumers Power Company
Northern Michigan Exploration Company
Illinois Power Company
Iowa-Illinois Gas and Electric Company
Indiana Gas Company
Natural Gas Pipeline Company of America
Peoples Gas Light and Coke Company
Mississippi River Transmission Corporation
City of Indianapolis

Untimely petitions to intervene were filed by the following parties:

Michigan Gas Utilities Company
Iowa Power and Light Company
Sea Robin Pipeline Company

The petitioners, including those who filed late, have shown sufficient interest in the proceedings in Docket No. CP73–27 to warrant intervention. The grant of intervention for those petitioners who have filed late will not delay this proceeding.

Stingray proposes to engage in the transportation of gas rather than in its purchase and resale. Stingray avers that its gas supply is represented by contracts with its customers, Natural and Trunkline. On June 7, 1973, Sun Oil Company (Sun) filed in Docket Nos. CI73–878, CI73–879, and CI73–880 applications pursuant to section 7(c) of the Natural Gas Act and section 2.75 of the Commission's General Policy and Interpretations (18 CFR 2.75) for certificates of public convenience and necessity authorizing sales for resale and deliveries of natural gas in interstate commerce to Trunkline from certain Blocks in the West Cameron Area, Vermilion Area and East Cameron Area, respectively, offshore Louisiana. Since the gas which Sun proposes to sell to Trunkline represents, inter alia, Stingray's gas supply for transportation, we are of the view that Sun's applications herein should be consolidated with the proceedings in CP73–27. Additionally, we note that the Public Service Commission for the State of New York has timely filed a notice of intervention in Sun's three application proceedings.

On May 22, 1973, Stingray filed a motion with the Commission requesting immediate hearings. In its motion, Stingray maintains that both Natural and Trunkline are experiencing serious deficiencies in their natural gas supplies and that the proposed project is essential to them and their customers since it represents the earliest relief which could be made available to either system. Stingray states that "unless prompt measures are taken to bring this matter to the Commission for resolution, the parties along with the consumers which are dependent upon them will have lost, not one, but two precious years." Statements in support of Stingray's motion were filed by the following parties who, with the exception of Interstate Power Company, have all petitioned for leave to intervene in this proceeding:

Interstate Power Company
Michigan Gas Utilities Company
Mississippi River Transmission Corporation
Peoples Gas Light and Coke Company
Natural Gas Pipeline Company of America
Indiana Gas Company
Iowa-Illinois Gas and Electric Company
Illinois Power Company
Northern Michigan Exploration Company
Consumers Power Company
City of Indianapolis

On June 20, 1972, Pennzoil Offshore Transmission Company (POTCO) filed an application in Docket No. CP72–292 pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas pipeline and related facilities as well as the transportation and sale in interstate commerce of natural gas.

POTCO intends to construct and operate approximately 10.6 miles of 30-inch pipeline, extending from Block 587 in the West Cameron Area, South Addition, offshore Louisiana, to Block 548 in the same area. POTCO also proposes to construct and operate approximately 121 miles of 36-inch pipeline extending from a platform located in Block 548 in the West Cameron Area to an onshore point located near Sweet Lake, Cameron Parish,

[1] The petitions of Central Illinois and Associated Gas Distributors specifically request formal hearings.

V 38-143 JUL 26 73 XUM

Louisiana; and approximately 139 miles of 30-inch pipeline extending from Sweet Lake to a point near Clarence, Louisiana. In addition, POTCO seeks authorization to transport through its facilities up to 400,000 Mcf of natural gas per day for sale to United Gas Pipe Line Company (United), of which POTCO is a wholly owned subsidiary, at a delivery point near Clarence. The estimated total cost of the proposed facilities is $126,000,000.

Notice of POTCO's application was issued on July 12, 1972, and was published in the FEDERAL REGISTER on July 18, 1972 (37 FR 14256). July 31, 1972, was set as the final date for filing protests and petitions to intervene. Accordingly, timely petitions to intervene were filed by the following parties:

Southern Natural Gas Company
Northern Michigan Exploration Company
Tennessee Gas Pipeline Company
Columbia Gas Transmission Corporation
Stingray Pipeline Company
Natural Gas Pipeline Company of America
Trunkline Gas Company
Mississippi River Transmission Corporation
Atlanta Gas Light Company
Mississippi Valley Gas Company
Laclede Gas Company
Texas Gas Transmission Corporation
Public Service Commission of the State of New York

Untimely petitions to intervene were filed by the following parties:

Central Illinois Light Company
Associated Gas Distributors

The petitioners, including those who filed out of time, have sufficient interest in the proceedings in Docket No. CP72-292, to warrant intervention therein. The grant of intervention for those petitioners who filed late will not delay this proceeding.

While we recognize that the nation is currently in the midst of a serious natural gas shortage and that we must do everything within our means to expedite the certification of transportation facilities in the offshore areas in order to bring newly discovered gas into the interstate market, we also recognize that the instant applications may require comparative hearings. Our dilemma is compounded by the fact that while Stingray's application in Docket No. CP73-27 is ripe for the initiation of the public hearing process, POTCO's application is Docket No. CP72-242, because of a substantial lack of important environmental information,[1] is not. In order to facilitate our decision regarding the comparative nature of the two applications, we believe that the two pipeline applicants, Stingray and POTCO, are in the best position to submit initial pleadings to us concerning whether the two applications are, in fact, mutually exclusive applications for the transportation of gas from the same supply area and therefore require comparative public hearings. Once these initial pleadings are filed with regards to this specific question, all interested parties may file responses thereto if they so desire. After reviewing these pleadings and responses we will render our decision on the comparative hearing issue.

In the interim, we believe that the public interest warrants going forward with the Stingray proceeding in Docket No. CP73-27. After reviewing all filings in that Docket, we are of the view that questions have been raised which, together with the requests of some petitioners, warrant formal public hearings at which time all issues bearing upon the public interest can be fully developed on the evidentiary record. Additionally, we believe that a prehearing conference should be held prior to the date of initiating formal hearing so as to provide an opportunity and a forum for the resolution and stipulation of all areas of agreement between the parties and to more clearly define the issues for an expeditious hearing. At such prehearing conference each party should also be prepared to state briefly its position regarding whether Stingray's application in Docket No. CP73-27 and/or POTCO's application in Docket No. CP72-292 constitutes a major federal action significantly affecting the quality of the human environment pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 USC 4321 et seq. (Supp. 1970)).

All intervenors in the POTCO proceeding in Docket No. CP72-292 shall be granted conditional intervention in the proceedings in Docket No. CP73-27 until such time as we have rendered our decision on the comparative hearing question. Should we eventually decide that comparative hearings are not required, such conditional interventions will be revoked as to those parties who have not formally intervened in Docket No. CP73-27. We believe that by this method we can effectively go forward with the litigation of Stingray's application and at the same time protect the rights and interests of all parties concerned. Should we decide that a comparative hearing is in order, the conditional interventions will become final and the evidentiary record of the Stingray application will be available for final determination at the conclusion of the formal hearings on the POTCO application.

The Commission finds:

(1) It is necessary and appropriate that the proceeding in Docket Nos. CP73-27, CI73-878, CI73-879, and CI73-880 be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned to intervene in the above consolidated Dockets to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(3) It is necessary and appropriate to grant the motion filed by Stingray requesting immediate hearings.

(4) It is necessary and appropriate that Stingray and POTCO file pleadings with the Commission in which they shall state their respective position concerning whether their applications are mutually exclusive and whether comparative hearings should be conducted. It is similarly necessary and appropriate that all interested parties be afforded an opportunity to respond to such pleadings.

(5) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned for intervention in Docket No. CP72-292 to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(6) It is in the public interest to allow all parties to the proceedings in Docket No. CP72-292 to intervene into the above consolidated proceeding subject to the conditions set forth in the body of this order.

(7) It is necessary and appropriate that the consolidated proceedings involving Docket Nos. CP73-27, CI73-878, CI73-879, and CI73-880 be set for hearing and that a prehearing conference be convened prior to the initiation of such hearing.

The Commission orders:

(A) Docket Nos. CP73-27, CI73-878, CI73-879, and CI73-880 are consolidated for purposes of hearing and disposition.

(B) The above-named petitioners, who have petitioned to intervene in the proceedings consolidated by ordering paragraph (A) herein, are permitted to intervene in such consolidated proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) Stingray Pipeline Company and Pennzoil Offshore Transmission Company shall file pleadings on or before August 14, 1973, with the Commission and serve copies of same on all parties of record in Docket Nos. CP73-27 and CP72-292 including the Commission Staff, stating their respective positions as to whether the above two Docketed proceedings should be consolidated for purposes of comparative hearings. All interested parties wishing to file responses to such pleadings shall file such responses on or before August 27, 1973.

(D) The above-named petitioners, who have petitioned to intervene in the proceedings in Docket No. CP72-292, are permitted to intervene in such proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(E) All parties to the proceeding in Docket No. CP72-292 are permitted to intervene in the proceedings consolidated by ordering paragraph (A) herein subject to the rules and regulations of the Commission and subject to the provisions of intervention as set forth in ordering paragraph (B) herein: *Provided, however,* That the intervention of such parties shall be conditioned on the Commission's determination of the need for comparative hearings regarding the application herein and should the Commission determine that comparative hearings are not required such intervention shall be revoked.

(F) The direct case of applicants in the proceedings consolidated by ordering paragraph (A) herein and all intervenors in support thereof shall be filed and served on all parties of record including the Commission Staff on or before July 31, 1973.

(G) A formal hearing shall be convened to commence with a prehearing conference in the proceedings consolidated by ordering paragraph (A) in a hearing room of the Federal Power Commission, 825 North Capital Street, NE., Washington, D.C. 20426 on August 28, 1973, at 10:00 a.m. e.d.t. The Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-15306 Filed 7-25-73;8:45 am]

[1] It should be noted that on July 3, 1973, POTCO filed an amendment to its original application which, *inter alia*, provides for the deletion of a substantial portion of its proposed onshore facilities. To what extent this amended application will alleviate the need for certain environmental information is not known at this time.

[Project Nos. 2058-2075]

WASHINGTON WATER POWER CO.

Notice of Application for Change in Land Rights

JULY 13, 1973.

Public notice is hereby given that application was filed December 14, 1972, under the Federal Power Act (16 U.S.C. 791a-825r) by The Washington Water Power Company (Correspondence to: Mr. Robert L. Strenge, Assistant Secretary, The Washington Water Power Company, P.O. Box 1445, Spokane, Washington 99210) for change in land rights for constructed Project No. 2058, known as the Cabinet Gorge Project, located on the Clark Fork River in Bonner County, Idaho and Sanders County, Montana and for constructed Project No. 2075, known as the Noxon Rapids Project, located on the Clark Fork River in Sanders County, Montana. Project No. 2058 is downstream of Project No. 2075. The location of the lands involved is Sanders County, Montana.

Applicant, The Washington Water Power Company, requests Commission approval to transfer title of 12 parcels of project land totaling 69.54 acres (0.10 acres of P-2058 land and 69.44 acres of P-2075 land) to Burlington Northern, Inc. The conveyance would be pursuant to an agreement with the railroad to secure ownership of lands needed for relocation of the previous right-of-way which was flooded by the construction of Noxon Reservoir. The land, which is totally within relocated railroad right-of-way was recently acquired from the U.S. Forest Service. The railroad right-of-way is adjacent to and follows the right bank of the project reservoirs until it crosses the Clark Fork River about 9 miles upstream of the Noxon Rapids Dam.

Relocation of the railroad was shown on Exhibit J Sheet 2 approved by the Commission in the order issuing license dated May 12, 1955, and on Revised Exhibit J Sheet 2 approved September 26, 1962.

Any person desiring to be heard or to make protest with reference to said application should, on or before August 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

DELMARVA POWER & LIGHT CO. AND DELMARVA POWER & LIGHT CO. OF MARYLAND

Proposed Extension of Maturity Dates

JULY 20, 1973.

In the matter of Delmarva Power & Light Co., 800 King Street, Wilmington, Delaware, 19899; and Delmarva Power & Light Co. of Maryland, U.S. Route 13 and Naylor Mill Road, Salisbury, MD 21801.

Notice of proposed extension of the maturity dates of all outstanding promissory notes issued and sold by subsidiary electric utility company to its parent holding company and refunding of the subsidiary's 30-year promissory note maturing October 1, 1973, by the issue and sale to parent holding company of a 30-year promissory note in like amount; and issue and sale of long-term promissory notes and capital stock and acquisition and pledge thereof by parent.

Notice is hereby given that Delmarva Power & Light Company of Maryland ("Maryland"), a wholly-owned electric utility subsidiary company of Delmarva Power & Light Company ("Delmarva"), a registered holding company and a public-utility company, have filed with this Commission an application-declaration pursuant to sections 6(b), 9(a), 12(b), 12(d), and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 43, 44 and 50(a)(3) promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

All of the presently outstanding securities of Maryland are owned by Delmarva and pledged with Chemical Bank, Trustee, in accordance with the provisions of the Indenture of Mortgage and Deed of Trust of Delmarva to Chemical Bank, Trustee, dated as of October 1, 1943. Delmarva and Maryland propose to extend the maturity dates of Maryland's outstanding promissory notes so that all will have 30-year terms from the dates of their respective issues and at their original interest rates. All outstanding promissory notes of Maryland, aggregating $46,025,000 principal amount, are presently due and payable on October 1, 1973.

Maryland proposes to refund its 30-year 4 percent promissory note, issued October 1, 1943, in the principal amount of $3,760,000, by the issue and sale to Delmarva of a new 30-year promissory note in like amount maturing October 1, 2003, to bear interest at 7.9 percent per annum, such interest rate being based on the cost of the last public borrowing of Delmarva, rounded to the next highest one tenth of one percent (.1%).

From time to time prior to December 31, 1975, Maryland proposes to issue and sell to Delmarva its 30-year promissory notes in a total principal amount not exceeding $8,550,000 and will also issue and sell to Delmarva a total of up to 85,500 additional shares of its common capital stock, par value $100 per share. Presently, Maryland has outstanding 310,250 shares par value $100 per share of its common capital stock. Delmarva will purchase the notes, when issued, at the principal amount thereof, plus accrued interest from their issuance date, and such common stock, when issued, at the par value thereof. The notes will bear interest at 7.9 percent per annum, such interest rate being based on the cost of the latest public borrowing of Delmarva, rounded to the next highest one tenth of one percent. At such time as Delmarva shall market its next issue of bonds, all notes thereafter issued by Maryland shall bear interest equal to the cost of money to Delmarva under its then latest bond issue, rounded to the next highest one tenth of one percent. At the time of sale of any of said notes by Maryland to Delmarva, Maryland will sell and Delmarva will acquire common capital stock having a par value equal to the principal amount of notes being sold and acquired. The notes and stock will be pledged by Delmarva with Chemical Bank, Trustee, in accordance with the provisions of the Indenture of Mortgage and Deed of Trust of Delmarva to Chemical Bank, Trustee, dated as of October 1, 1943. The notes and stock will be issued and sold by Maryland from time to time as necessary to meet Maryland's cash requirements.

Maryland will use the proceeds derived from the sale of the notes and stock to provide funds for the repayment of its 30-year 4 percent promissory note maturing October 1, 1973, in the principal amount of $3,760,000, and for future capital expenditures and other corporate purposes. Proposed additions to Maryland's property and plant are estimated at $3,988,659 for the remaining months of 1973, and estimated expenditures of $17,893,175 for 1974.

It is stated that the Public Service Commission of Maryland has jurisdiction over the proposed transactions and that no other State Commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses paid or incurred, or to be paid or incurred, directly or indirectly, in connection with the proposed transactions are estimated to be $4,000, including counsel fees of $1,750.

Notice is further given that any interested person may, not later than August 13, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

DELMARVA POWER & LIGHT CO. AND DELMARVA POWER & LIGHT COMPANY OF VIRGINIA

Notice of Proposed Extension of the Maturity Dates of All Outstanding Promissory Notes

JULY 19, 1973.

Notice is hereby given that Delmarva Power & Light Company of Virginia, 800 King Street, Wilmington, Delaware 19899 ("Virginia"), a wholly-owned electric utility subsidiary company of Delmarva Power & Light Company, U.S. Route 13 and Naylor Mill Road, Salisbury, Maryland 21801 ("Delmarva"), a registered holding company and a public-utility company, have filed with this Commission an application-declaration pursuant to sections 6(b), 9(a), 12(b), 12(d) and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 43, 44 and 50(a)(3) promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

All of the presently outstanding securities of Virginia are owned by Delmarva and pledged with Chemical Bank, Trustee, in accordance with the provisions of the Indenture of Mortgage and Deed of Trust of Delmarva to Chemical Bank, Trustee, dated as of October 1, 1943. Delmarva and Virginia propose to extend the maturity dates of Virginia's outstanding promissory notes so that all will have 30-year terms from the dates of their respective issues and at their original interest rates. All outstanding promissory notes of Virginia, aggregating $6,175,000 principal amount, are presently due and payable on October 1, 1973.

Virginia proposes to refund its 30-year 4 percent promissory note, issued October 1, 1943, in the principal amount of $775,000, by the issue and sale to Delmarva of a new 30-year promissory note in like amount maturing October 1, 2003, to bear interest at 7.9 percent per annum, such interest rate being based on the cost of the last public borrowing of Delmarva, rounded to the next highest one tenth of one percent (.1 percent).

From time to time prior to December 31, 1975, Virginia proposes to issue and sell to Delmarva its 30-year promissory notes in a total principal amount not exceeding $275,000 and will also issue and sell to Delmarva a total of up to 2,750 additional shares of its common capital stock, par value $100 per share. Presently, Virginia has outstanding 46,250 shares par value $100 of its common capital stock. Delmarva will purchase the notes, when issued, at the principal amount thereof, plus accrued interest from their issuance date, and such common stock, when issued, at the par value thereof. The notes will bear interest at 7.9 percent per annum, such interest rate being based on the cost of the latest public borrowing of Delmarva, rounded to the next highest one tenth of one percent. At such time as Delmarva shall market its next issue of bonds, all notes thereafter issued by Virginia shall bear interest equal to the cost of money to Delmarva under its then latest bond issue, rounded to the next highest one tenth of one percent. At the time of sale of any of said notes by Virginia to Delmarva, Virginia will sell and Delmarva will acquire common capital stock having a par value equal to the principal amount of notes being so sold and acquired. The notes and stock will be pledged by Delmarva with Chemical Bank, Trustee, in accordance with the provisions of the Indenture of Mortgage and Deed of Trust of Delmarva to Chemical Bank, Trustee, dated as of October 1, 1943. The notes and stock will be issued and sold by Virginia from time to time as necessary to meet Virginia's cash requirements.

Virginia will use the proceeds derived from the sale of the notes and stock to provide funds for the repayment of its 30-year 4 percent promissory note maturing October 1, 1973, in the principal amount of $775,000, and for future capital expenditures and other corporate purposes. Proposed additions to Virginia's property and plant are estimated at $493,619 for the remaining months of 1973, and estimated expenditures of $1,063,109 for 1974.

It is stated that the State Corporation Commission of Virginia has jurisdiction over the proposed transactions and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses paid or incurred, or to be paid or incurred, directly or indirectly, in connection with the proposed transactions are estimated to be $3,500, including counsel fees of $1,000.

Notice is further given that any interested person may, not later than August 13, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[812-3171]

NUVEEN INCOME FUND, SERIES 1 ET AL.

Filing of Application

JULY 20, 1973.

Notice is hereby given that IDS/Nuveen Income Trust, Series 1 ("Series 1"), a unit investment trust registered under the Investment Company Act of 1940 ("Act") and all subsequent series and their sponsor, John Nuveen & Co., Incorporated ("Nuveen"), 209 South La Salle St., Chicago, Ill. 60604 (hereinafter referred to as "Applicants") have filed an application for an order requesting that the order of the Commission dated June 16, 1972 (Investment Company Act Release No. 7228) granting Nuveen and Nuveen Income Fund Series 1, Monthly Payment Plan an exemption from section 14(a) of the Act, be modified and amended to include and make applicable such exemption to Series 1 and subsequent series. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

A registration statement for Series 1 on Form N-8B-2 (File No. 811-2385) was filed under the Act on June 25, 1973 and a registration statement under the Securities Act of 1933 on Form S-6 (File No. 2-48398) was filed on the same date. Series 1 and each subsequent Series will be substantially identical in form to Nuveen Income Trust, Series 1 Check-A-Month Plan (formerly Nuveen Income Fund, Series 1 Monthly Payment Plan). The differences include the names of the Trusts; the Trustee which will be American National Bank and Trust Company of Chicago; and, in addition to depositing interest-bearing corporate debt securities with the Trustee, Nuveen may deposit obligations of, or guaranteed by, the United States government or an agency or instrumentality thereof.

Applicants request the Commission's Order dated June 16, 1972, be amended and modified to include Series 1 and subsequent series within the exemption from the provisions of section 14(a) of the Act so that Applicants may make a public offering of Units of Series 1 and of Units of subsequent Series of IDS/Nuveen Income Trust. In connection with this request, Nuveen agrees to the same undertakings with respect to Series 1 and subsequent Series that it made in the original application with respect to Nuveen Income Trust Series 1 Check-A-Month Plan and subsequent Series.

Section 14(a) of the Act requires that a registered investment company (a) have net worth of at least $100,000 prior to making a public offering of its securities, (b) have previously made a public offering and at that time have had a net worth of $100,000, or (c) have made arrangements for at least $100,000 to be paid in by 25 fewer persons before acceptance of public subscriptions.

Section 6(c) of the Act provides among other things, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested persons may, not later than August 6, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[File No. 24SF-3979]

UNITED AUTO AUCTION SYSTEMS, INC.

Order Permanently Suspending Exemption

JULY 18, 1973.

I. United Auto Auction Systems, Inc. ("Auction"), 1417 So. Figueroa Street, Los Angeles, California 90015 filed a Notification on Form 1-A and Offering Circular with the San Francisco Branch Office on December 18, 1972. This filing related to a proposed offering of 100,000 shares of Auction's common stock at $5.00 per share for an aggregate offering price of $500,000. The purpose of this filing was to obtain an exemption from the registration requirements of the Securities Act of 1933 pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission on May 29, 1973 temporarily suspended the Regulation A exemption of United Auto Auction Systems, Inc., stating it had reason to believe that:

A. The Offering Circular of Auction omitted to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading and contained untrue statements of material facts, primarily and among other things:

1. The Offering Circular failed to disclose that the auctioneer's license of Stanley Gordon, President of Auction, had been revoked; and

2. The Offering Circular failed to disclose that Auction had been notified by the Department of Motor Vehicles of the State of California of repeated violations of the State of California Motor Vehicles Code.

B. The terms and conditions of Regulation A had not been complied with in that:

1. The Offering Circular failed to disclose that the auctioneer's license of Stanley Gordon had been revoked; and

2. The Offering Circular failed to disclose that Auction had been notified by the Department of Motor Vehicles of the State of California of repeated violations of the State of California Motor Vehicles Code.

C. The offering, if made, would have been in violation of section 17 of the Securities Act of 1933.

III. No hearing having been requested by United Auto Auction Systems, Inc. within thirty days after the entry of an order temporarily suspending the exemption of the Issuer under Regulation A, the Commission finds that it is in the public interest and for the protection of investors that the exemption of the Issuer under Regulation A be permanently suspended;

It is ordered, Pursuant to Rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of United Auto Auction Systems, Inc. under Regulation A be, and it hereby is, permanently suspended.

By the Commission.

[AA1921-126]

COLD ROLLED STAINLESS STEEL SHEET AND STRIP FROM FRANCE

Notice of Investigation and Hearing

Having received advice from the Treasury Department on July 11, 1973, that cold rolled stainless steel sheet and strip from France are being, or are likely to be, sold at less than fair value, the United States Tariff Commission July 20, 1973, instituted investigation No. AA1921-126 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C. 20436, beginning at 10 a.m., e.d.s.t., on Tuesday, September 11, 1973. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its office in Washington, D.C., not later than noon, Thursday, September 6, 1973.

By order of the Commission.

Issued: July 23, 1973.

[Notice 319]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 15, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74449. By order of July 20, 1973, the Motor Carrier Board approved the transfer to Hallmark Van Lines, Inc., Holyoke, Mass., of Certificate No. MC-113727 issued to George J. Arooth, dba Arooth Trucking Co., Ludlow, Mass., authorizing the transportation of: Household goods, as defined by the Commission, between Ludlow, Mass., on the one hand, and, on the other, points in Connecticut, New York, New Jersey, and Pennsylvania. [Notice 99]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 20, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JULY 20, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by § 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 38 - 143 JUL 26 73 XUM

in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

No. MC 217 (Sub-No. 16) filed June 4, 1973 Applicant: POINT TRANSFER, INC. 5075 Navarre Road, S.W. P.O. Box 1441 Canton, Ohio, 44708 Applicant's representative: Henry M. Wick, Jr. 2310 Grant Building Pittsburgh, Pa. 15219 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from Clairton, Homestead, Duquesne, McKeesport, Dravosburg, West Mifflin, Ellwood City, Pittsburgh and Vandergrift, Pa., to points in Indiana and Michigan, and (2) *iron and steel articles, and materials, equipment and supplies* used or useful in the manufacture of iron and steel articles (except liquid commodities and commodities in bulk), from points in Indiana and Michigan, to points in Ohio, those in Pennsylvania on and west of U.S. Highway 219, and those in West Virginia on and north of U.S. Highway 50. SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Amino Acids in Food for Human Consumption

CONDITIONS OF SAFE USE IN FOOD AND DELETION FROM GRAS LIST

A proposal was published in the FEDERAL REGISTER of April 6, 1972 (37 FR 6938) to establish the conditions for safe use for amino acids used to improve the protein value of food, and to delete amino acids for nutritive purposes in the human diet from the GRAS list, § 121.101(d)(5) (21 CFR 121.101).

Uncontrolled uses of amino acids in the fortification of certain foods may result in risk to the public health from excessive intakes of free amino acids. Studies on experimental animals have shown that excessive intake of amino acids and amino acid imbalance can include growth retardation and degeneration of certain organs which can lead to the animals' early death. On the other hand, properly controlled additions of the amino acid(s) to appropriate protein-containing foods can benefit the consumer by improving the biological quality of the proteins.

Thirty-nine comments were received on the proposal. Twenty-eight comments were from manufacturers or associations of manufacturers that either produce amino acids or foods in which amino acids are used, or both. Nine comments were from professional scientists in health and allied fields associated with governmental or non-profit organizations, institutions, and associations. One comment was received from a medical group and one was received from a public interest group.

The principal comments raised and the Commissioners' conclusions thereon are as follows:

APPROPRIATENESS OF THE LIMITATIONS FOR USE OF AMINO ACIDS

1. A number of comments discussed the requirement that the finished food to which the amino acids are added should furnish at least 6.5 grams of intact protein per day. Many objected to this on the basis that there are a number of foods to which the addition of Amino acids will produce some benefit, but which supply less than 6.5 grams of intact protein per day. Some comments stated that since the nutrition labeling proposal published in the FEDERAL REGISTER on March 30, 1972 (37 FR 6493) considered a level of 5 percent of the U.S. Recommended Daily Allowance (3.25 grams) to provide a significant contribution of nutrients for nutrition labeling purposes, this lower figure should apply to this regulation as well.

The Commissioner recognizes that the proper addition of amino acids to a food may improve the nutritional quality thereof. In order that the fortification of foods be truly significant in relation to the diet of the United States consumer, it is concluded that amino acid fortification should be permitted for only those foods containing at least 10 percent of the U.S. Recommended Daily Allowance (U.S. RDA) of protein, which is 65 grams per day for adults, § 1.17(c)(7)(ii)(a) (21 CFR 1.17). There is no merit in the contention that a level of 5 percent should be adopted merely on the basis that such a nutrient level was proposed for the cutoff point above which nutrition labeling could be used since that level related to significance on a serving basis only and not to the daily intake. The nutrition labeling regulations require a level of 10 percent of the U.S. RDA for any claim of nutritional significance or superiority, § 1.17(c)(v).

2. Two comments requested clarification of the term "intact protein" as used in the proposal. Another suggested modification to permit supplementation of partially hydrolyzed protein.

The Commissioner concludes that revision of the wording to limit the addition of amino acids to "foods containing primarily intact naturally occurring protein" will clarify this provision. This language is adopted to eliminate the possibility of adding amino acids to foods containing no protein but to permit the fortification of foods where some of the original protein may have been hydrolyzed.

3. A number of objections were made to the requirement that the protein efficiency ratio (PER) of the food to be supplemented must be less than 2.5, i.e., less than 100 percent of the adjusted PER of casein, and to the requirement that the PER of an amino acid supplemented food in its finished form must be 2.5 or more. Other comments stated that such restrictions would prevent the addition of amino acids to improve foods containing good quality protein, even though a PER of 2.5 could not be reached. These comments also pointed out that in placing the minimum for improvement of the finished food so high, undue emphasis was placed on meat, milk, and eggs as the preferred protein sources in the diet. Arguments were also advanced that, since cereal grains are a common and good protein source in many diets, particularly in other countries, supplementation of such foods should be provided for by permitting fortification to a minimum PER of 2.0 (80 percent of casein).

The Commissioner has concluded that there is no reason to permit amino acid supplementation unless it will provide for a significant improvement in the protein quality. Exceptions to the PER limitation of 100 percent of casein will be considered separately on a case by case basis upon receipt of a petition therefor, providing that the minimum level requested is not less than 80 percent of casein.

It is also concluded that there is no reason to restrict fortification of a food already containing an original PER of 2.5 or more, if such fortification will provide a significant increase ((P) value of less than 0.05) in the original PER. Since the PER test is a biological value test, a statistically significant improvement in the protein quality will provide a nutritionally significant improvement.

4. Other objections raised the issue that the requirement of a PER increase of 0.25 for each added amino acid is too severe and should be dropped. Some did not quarrel with the 0.25 requirement but pointed out that two or more amino acids may be needed in combination to attain the 0.25 increase. One comment suggested that it would be preferable to measure the value of any addition of amino acid(s) by determining if the resultant PER showed an increase over the PER of the naturally occurring intact protein by an amount statistically significant with a probability (P) value of less than 0.05.

The Commissioner recognizes the need to prevent random addition of amino acids to food. He also recognizes the fact that, in some protein sources, there may be more than one limiting amino acid needed in combination to produce a significant increase in the PER. Accordingly, the Commissioner has concluded to retain the requirement that a significant increase in PER be reached if any addition of amino acids is made. He also concludes that a combination of two or more amino acids should be permitted to achieve the significant increase if a lesser number of amino acids cannot produce the required increase. A statistically significant increase in the PER, which will provide a nutritionally significant improvement in the protein, should be required rather than a single numerical value since there may be situations when an increase of 0.25 PER by adding a limiting amino acid(s) may not be statistically significant at a (P) value of less than .05. A significant increase in the PER will aid in producing a significant source of protein contribution to the diet.

ADEQUACY OF THE METHOD FOR MEASURING PER

Some comments questioned the use of casein as the reference standard and the use of the PER test for protein evaluation. One comment asked for clarification that the test is run isonitrogenously.

The use of casein as a reference standard in determining the PER of protein is in accordance with the method described in sections 39.166–39.170, "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Edition, 1970.[1] The method requires that the test be run isonitrogenously. A uniform supply of casein can be obtained, whereas a uniform source of other purified proteins such as lactalbumin and whole egg is not readily available. Casein has an acceptable essential amino acid pattern. The limitations of the PER test are recognized, but at this time it is the best method available and the official method for regulatory purposes. It is pertinent to recognize that many of the protein foods or protein supplemented foods will be used by children and it is therefore appropriate to use an assay which employs a growing animal as the test subject. Accordingly, the Commissioner concludes that the method provided is an appropriate one at this time.

[1] Copies may be obtained from: Association of Official Analytical Chemists P. O. Box 540, Benjamin Franklin Station Washington, D. C. 20044

LIMITATION OF THE AMINO ACID ADDITION FOR NUTRITIVE USE ONLY

A number of manufacturers took issue with limiting the use of amino acids for nutritive purposes on the basis that use af amino acids for other purposes would no longer be permitted.

No action is being taken at this time to remove from GRAS classification other amino acids or their derivatives that have other than nutritive uses. Section 121.101(d)(5) has provided authority only for using the ingredients listed thereunder as nutrients and not for other uses. If amino acids are used for technological uses not covered in the published GRAS list or in other regulations it is possible to request concurrence therefor by submission of a petition to the Food and Drug Administration for GRAS affirmation pursuant to § 121.40.

LIMITATION OF ACCEPTABLE ISOMERS TO THE L-FORM OF AMINO ACIDS

There were contrasting views expressed on the use of the various isomeric forms (the natural L-form or the commercially available mixtures of DL-forms) of amino acids. Some felt that more consideration should be given to whether only L-isomers are acceptable, offering references to certain scientific studies purporting to show some usefulness of the DL-form. Others suggested that only L-isomers should be used until further studies are carried out on the effect of the DL-isomers on man.

Because of the substantial lack of information on the biological effectiveness and safety of the DL-isomers, the Commissioner concludes that the acceptable forms of the amino acids should be restricted to the L-form except for DL-methionine and for glycine. There is appreciably more understanding of the safety of DL-methionine added to foods than there is for the DL-forms of the other amino acids. DL-methionine has been investigated and found to be acceptable as long as it is not used in infant food. D-methionine ingestion by infants may lead to a methioninuria that may hinder the proper diagnosis of a disease condition. Although adults and children also exhibit methioninuria following D-methionine ingestion, the diagnostic significance of the amino acid in the urine is of much less relative importance. Glycine does not occur in an optically active form.

Petitions may be submitted to establish the safety and nutritional value of commercially available mixtures of DL-forms when the required supporting data become available.

ACCEPTABILITY OF ADDITIONAL FORMS OF AMINO ACIDS

A number of comments pointed out the safety and usefulness of the sodium and potassium salts and acetate and sulfate forms of the amino acids and L-asparagine and L-glutamine.

The Commissioner concludes that except for the acetate and sulfate forms, these are appropriate and are included in the final order. The acetate and sulfate forms have no history of safe use and may not be used prior to promulgation of a food additive regulation.

USE OF AMINO ACIDS IN FORMULATIONS OF SPECIAL FOODS FOR NUTRITIONAL USE IN MEDICAL CONDITIONS

Several comments raised the question whether the regulation should cover amino acids used in special foods for controlled diets.

Such foods are intended for use solely under medical supervision to meet nutritional requirements in specific medical conditions. The quality and usefulness of these products must be determined on an individual product basis because of special nutritional needs dictated by the pathophysiologic conditions of a particular patient. The amino acids used in such products must be safe and of food grade, but it is inappropriate that the limitations relating to the amino acid fortification of protein in regular diets apply to them. Accordingly, the Commissioner exempts these foods for special dietary use from certain provisions of the regulation set forth below. Such foods shall be subject to all of the applicable requirements of 21 CFR Part 125.

AMINO ACID CONTENT OF EGG PROTEIN AS BASIS FOR MAXIMUM USE LEVELS

Some comments claimed that the upper limit of amino acid addition should be based only upon the amount demonstrated to achieve the maximum PER value for a food protein.

The Commissioner concludes that it is in the best interest of the consumer to permit and encourage rational fortification of foods with amino acids by limiting permissible supplementation to a safe level. A standard protein with established safety was needed to establish such limits, preferably one with high biological quality. Egg protein has the highest biological quality of any naturally occurring protein. It is generally agreed that the relative amino acid composition of egg is an ideal pattern for nutritional value and the proportion of individual essential amino acids to total protein content is generally the highest of most protein-containing foods in common use.

ILLEGALITY OF THE PROPOSED REGULATION

A public interest group alleged that the proposed regulation is illegal on the ground that it does not comply with section 409 of the act.

The Commissioner concludes that promulgation of this regulation is in accord with his broad general responsibility for protection of the public health, and is specifically in accord with section 409 of the act and § 121.41 of the food additive regulations. This regulation is issued on the Commissioner's initiative pursuant to section 409(d) of the act. The Commissioner has concluded, on the basis of all of the scientific literature and other available information, that the amino acids have been shown by all appropriate methods to be safe under the conditions of use established in this regulation.

USE OF AMINO ACIDS FOR ANIMALS

Two firms raised questions about the status of amino acids used in animal feed if the proposed deletion from the GRAS list were accomplished.

Recognizing that amino acids are used in animal feeds and considering that the action taken herein is concerned with uses of amino acids in human food, the Commissioner concludes that the presently listed amino acids may remain on the existing GRAS list for animal feed until such time as a separate GRAS list for animal food ingredients is issued.

VARIATIONS IN ASSAY RESULTS

One comment suggested that a 10 percent excess over the allowable maximum amounts of individual amino acids should be permitted because of the variability in the assay methods available.

The Commissioner has considered the suggestion carefully and has concluded that there is no merit in providing for a 10 percent overage in the regulation. Any enforcement action that might be taken based on the maximum amounts of amino acids present would of necessity consider the variability of the method by which the amounts were determined.

LISTING OF ESSENTIAL AND NON-ESSENTIAL AMINO ACIDS

Several comments questioned the listing of nonessential amino acids with essential amino acids since the nonessential amino acids are usually thought not to improve the protein efficiency ratio.

The Commissioner recognizes that the addition of nonessential amino acids is unlikely to alter the PER. However, the total intake of non-specific nitrogen found in nonessential amino acids not only may have a sparing effect and thus influence the requirements of the essential amino acids, but also may provide properties important for foods used solely under medical supervision to meet nutritional requirements in specific medical conditions. Accordingly, the Commissioner concludes that it is inappropriate to separate the two classes of amino acids within the context of the regulation.

SPECIFICATIONS FOR AMINO ACIDS

Comments were received that certain amino acid specifications in both the Food Chemicals Codex and in NAS–NRC Publication No. 1344, referenced in the proposal are inappropriate.

Specifications in the latest edition of the Food Chemicals Codex are regarded by the Commissioner as the food grade specifications for food additives unless specifically stated to be otherwise in any given food additive regulation. Comments regarding a need for changes or

V 38 143 JUL 26 73 XUM

inclusions in these specifications should be adressed to the Codex. Specifications in NAS–NRC Publication No. 1344 are retained for the four amino acids not yet included in the Codex.

GENERAL

One scientist opposed the entire concept of amino acid fortification and stated that improvement of protein quality by fortification with free amino acids may create an imbalanced diet and undesirable effects on human physiology. The new regulation is designed to prevent such a situation by limiting the amounts, isomers, and combinations permitted, based upon the scientific evidence and the considered judgment of nutritional scientists.

The public interest group requested that the data necessary to demonstrate compliance with paragraph (d) of the regulation should be submitted to the Food and Drug Administration so that the public would be able to review it. The Commissioner concludes that, like other quality control records, it is sufficient that this data be retained at the company and available for inspection by the Food and Drug Administration. It would be impracticable and burdensome for every food manufacturer using amino acids to submit such data to the Food and Drug Administration.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1785–1788; 21 U.S.C. 321(s), 348, 371(a)) and under the authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended as follows:

§ 121.101 [Amended]

1. In subparagraph (5) of § 121.101(d) in the "Limitations, restrictions or explanations" column by adding the text "Food additive regulation § 121.1002" for the following amino acids:

Product	Tolerance	Limitations, restrictions or explanations
• • •	• • •	• • •
(5) NUTRIENTS AND/OR DIETARY SUPPLEMENTS [1]		
Alanine (L- and DL-forms)		Food additive regulation § 121.1002.
Arginine (L- and DL-forms)		Do.
• • •	• • •	• • •
Aspartic acid (L- and DL- forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Cysteine (L-forms)		Food additive regulation § 121.1002.
Cystine (L- and DL-forms)		Do.
• • •	• • •	• • •
Histidine (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Isoleucine (L- and DL-forms)		Food additive regulation § 121.1002.
Leucine (L- and DL-forms)		Do.
• • •	• • •	• • •
Lysine (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Phenylalanine (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Proline (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Serine (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Threonine (L- and DL-forms)		Food additive regulation § 121.1002.
• • •	• • •	• • •
Tryptophane (L- and DL-forms)		Food additive regulation § 121.1002.
Tyrosine (L- and DL-forms)		Do.
Valine (L- and DL-forms)		Do.

[1] Amino acids listed may be free, hydrochloride salt, hydrated, or anhydrous form, where applicable.

2. By adding a new section to Subpart D, to read as follows:

§ 121.1002 Amino acids.

The food additive amino acids may be safely used as nutrients added to foods in accordance with the following conditions:

(a) The food additive consists of one or more of the following individual amino acids in the free, hydrated or anhydrous form or as the hydrochloride, sodium or potassium salts:

L-Alanine
L-Arginine
L-Asparagine
L-Aspartic acid
L-Cysteine
L-Cystine
L-Glutamic acid
L-Glutamine
Glycine
L-Histidine
L-Isoleucine
L-Leucine
L-Lysine
DL-Methionine (not for infant foods)
L-Methionine
L-Phenylalanine
L-Proline
L-Serine
L-Threonine
L-Tryptophan
L-Tyrosine
L-Valine

(b) The food additive meets the following specifications:

(1) As found in "Food Chemicals Codex," National Academy of Sciences-National Research Council (NAS–NRC), 2nd Edition (1972)[2] for the following:

L-Alanine
L-Arginine
L-Arginine Monohydrochloride
L-Cysteine Monohydrochloride
L-Cystine
Glycine
L-Leucine
DL-Methionine
L-Methionine
L-Tryptophan
L-Phenylalanine
L-Proline
L-Serine
L-Threonine
Glutamic Acid Hydrochloride
L-Isoleucine
L-Lysine Monohydrochloride
Monopotassium L-glutamate
L-Tyrosine
L-Valine

(2) As found in "Specifications and Criteria for Biochemical Compounds," NAS–NRC Publication, 3rd Edition (1972)[3] for the following:

L-Asparagine
L-Aspartic acid
L-Glutamine
L-Histidine

(c) The additive(s) is used or intended for use to significantly improve the biological quality of the total protein in a food containing naturally occurring primarily-intact protein that is considered a significant dietary protein source, provided that:

(1) A reasonable daily adult intake of the finished food furnishes at least 6.5 grams of naturally occurring primarily intact protein (based upon 10 percent of the daily allowance for the "reference" adult male recommended by the National Academy of Sciences in "Recommended Dietary Allowances," NAS Publication No. 1694, 7th Edition (1968)).[4]

(2) The additive(s) results in a protein efficiency ratio (PER) of protein in the finished ready-to-eat food equivalent to casein as determined by the method specified in paragraph (d) of this section.

(3) Each amino acid (or combination of the minimum number necessary to achieve a statistically significant increase) added results in a statistically significant increase in the PER as determined by the method described in paragraph (d) of this section. The minimum amount of the amino acid(s) to achieve the desired effect must be used and the increase in PER over the primarily-intact naturally occurring protein in the food must be substantiated as a statistically significant difference with at least a probability (P) value of less than 0.05.

(4) The amount of the additive added for nutritive purposes plus the amount naturally present in free and combined (as protein) form does not exceed the following levels of amino acids expressed as percent by weight of the total protein of the finished food:

	Percent by weight of total protein (expressed as free amino acid)
L-Alanine	6.1
L-Arginine	6.6
L-Aspartic acid (including L-asparagine)	7.0
L-Cystine (including L-cysteine)	2.3
L-Glutamic acid (including L-glutamine)	12.4
Glycine	3.5
L-Histidine	2.4
L-Isoleucine	6.6
L-Leucine	8.8
L-Lysine	6.4
L- and DL-Methionine	3.1
L-Phenylalanine	5.8
L-Proline	4.2
L-Serine	8.4
L-Threonine	5.0
L-Tryptophan	1.6
L-Tyrosine	4.3
L-Valine	7.4

(d) Compliance with the limitations concerning PER under paragraph (c) of this section shall be determined by the method described in sections 39.166–39.170, "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Edition, (1970).[5] Each manufacturer or person employing the additive(s) under the provisions of this section shall keep and maintain throughout the period of his use of the additive(s) and for a minimum of 3 years thereafter, records of the tests required by this paragraph and other records required to assure effectiveness and compliance with this regulation and shall make such records available upon request at all reasonable hours by any officer or employee of the Food and Drug Administration, or any other officer or employee acting on behalf of the Secretary of Health, Education, and Welfare and shall permit such officer or employee to conduct such inventories of raw and finished materials on hand as he deems necessary and otherwise to check the correctness of such records.

(e) To assure safe use of the additive, the label and labeling of the additive and any premix thereof shall bear, in addition to the other information required by the act, the following:

(1) The name of the amino acid(s) contained therein including the specific optical and chemical form.

(2) The amounts of each amino acid contained in any mixture.

(3) Adequate directions for use to provide a finished food meeting the limitations prescribed by paragraph (c) of this section.

(f) The food additive amino acids added as nutrients to special dietary foods that are intended for use solely under medical supervision to meet nutritional requirements in specific medical conditions and comply with the requirements of Part 125 of this chapter are exempt from the limitations in paragraphs (c) and (d) of this section and may be used in such foods at levels not to exceed good manufacturing practices.

[3] Copies may be obtained from: National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D.C. 20037.

[4] National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D.C. 20037.

Any person who will be adversely affected by the foregoing order may at any time on or before August 27, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds, factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. Compliance with this order may begin immediately. This order shall be effective on January 23, 1974.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1785–1788; 21 U.S.C. 321(s), 348, 371(a)).

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 3, 121]

SUBSTANCES PROHIBITED FROM USE IN FOOD

Notice of Proposed Rulemaking

The Food and Drug Administration has prohibited the use of various substances in food on the basis of toxicological data showing a potential hazard to public health or because inadequate data exist to conclude that they are safe for use in food. Some of these actions were taken prior to enactment of the Food Additives Amendment of 1958, and others have been taken pursuant to that Amendment.

Because information on these actions is presently scattered throughout existing regulations, FEDERAL REGISTER notices not codified in the Code of Federal Regulations, old trade correspondence (TC), and unpublished correspondence, and thus are either difficult to find or are not generally available to the public, the Commissioner of Food and Drugs has concluded that they should be consolidated in one regulation. All of the substances presently proposed for inclusion in this regulation were the subject of action previously taken. The Commissioner is not now proposing such action against any additional substances. Should the current review of the safety of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction justify additional action of this type, this proposed new section will also be used for that purpose.

Some of these food additives were prohibited from use in food on the conclusion that the available evidence did not establish safety, and not on the basis of a determination that the ingredient was in fact unsafe. Section 409 of the act places the burden on the manufacturer or distributor of a food additive to prove its safety prior to use. Accordingly, the Commissioner recognizes that, as additional scientific information becomes available, it may well be possible to approve one or more of these ingredients for food use and thus to delete it from this section. The proposed regulation provides for such transfers to and from this section on the Commissioner's initiative or on the petition of any interested person.

The fact that a substance does not appear on this list of prohibited substances does not mean that it may lawfully be used in food. This proposed new section includes only a partial list of prohibited substances, for easy reference purposes, and is not a complete list of substances that may not lawfully be used in food. Before any substance may be used in food, it must meet all of the applicable requirements of section 401 and 409 of the act.

Accordingly, the Commissioner of Food and Drugs concludes that it is in the public interest and will promote efficient enforcement of the act to provide a section in the food additive regulations to contain a listing of food ingredients for which use in food has been prohibited.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1785–1787, as amended; 21 U.S.C. 321(s), 348, 371(a)) and under authority delegated to him (21 CFR 2.120) the Commissioner proposes that Trade Correspondence No. 377 (December 29, 1941) be revoked, and that Title 21 of the Code of Federal Regulations be amended as follows:

§§ 3.14, 3.33 and 3.65 [Revoked]

1. That Part 3 be amended by revoking §§ 3.14, 3.33 and 3.65.

2. That Part 121 be amended by adding the following new section:

§ 121.106 Substances prohibited from use in food.

(a) The food ingredients listed in this section have been prohibited from use in food by the Food and Drug Administration because of a determination that they present a potential risk to the public health or have not been shown by adequate scientific data to be safe for use in food. Use of any of these substances in violation of this section causes the food involved to be adulterated in violation of the act.

(b) This section includes only a partial list of substances prohibited from use in food, for easy reference purposes, and is not a complete list of substances that may not lawfully be used in food. No substance may be used in food unless it meets all applicable requirements of the act.

(c) The Commissioner of Food and Drugs, either on his own initiative or on behalf of any interested person who has submitted a petition, may publish a proposal to establish, amend, or repeal a regulation under this section on the basis of new scientific evaluation or information. Any such petition shall include an adequate scientific basis to support the petition, shall be in the form set forth in § 2.65 of this chapter, and will be published for comment if it contains reasonable grounds.

(d) Substances prohibited from direct addition to food:

(1) *Calamus, oil of calamus, extract of calamus.* (i) Calamus is the dried rhizome of Acorus calamus L. It has been used as a flavoring compound, especially as the oil or extract.

(ii) Food containing any added calamus, oil of calamus, or extract of calamus is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of May 9, 1968 (33 FR 6967).

(iii) The analytical method used for detecting oil of calamus (β-asarone) is in "Journal of the Association of Official Analytical Chemists" vol. 56, No. 5 (Sept. 1973).[1]

(2) *Dulcin.* (i) Dulcin is the chemical 4-ethyoxyphenylurea, $C_9H_{12}N_2O_2$. It is a synthetic chemical having a sweet taste about 250 times that of sucrose, is not found in natural products at levels detectable by the official methodology, and has been proposed for use as an artificial sweetener.

(ii) Food containing any added or detectable level of dulcin is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of January 19, 1950 (15 FR 321).

(iii) The analytical methods used for detectine dulcin in food are in §§ 20.133 through 20.136 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(3) *P–4000.* (i) P–4000 is the chemical 5-nitro-2-n-propoxyaniline, $C_9H_{12}N_2O_4$. It is a synthetic chemical having a sweet taste about 4000 times that of sucrose, is not found in natural products at levels detectable by the official methodology, and has been proposed for use as an artificial sweetener.

(ii) Food containing any added or detectable level of P–4000 is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of January 19, 1950 (15 FR 321).

(iii) The analytical methods used for detecting P–4000 in food are in §§ 20.137 through 20.141 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(4) *Coumarin.* (i) Coumarin is the chemical 1,2-benzopyrone $C_9H_6O_2$. It is found in tonka beans and extract of tonka beans, among other natural sources, and is also synthesized. It has been used as a flavoring compound.

(ii) Food containing any added coumarin as such or as a constituent of tonka beans or tonka extract is deemed to be adulterated under the act based upon an order published in the FEDERAL REGISTER of March 5, 1953 (19 FR 1239).

(iii) The analytical methods used for detecting coumarin in food are in §§ 19.104 through 19.023 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(5) *Cyclamate; calcium, sodium, magnesium and potassium.* (i) Calcium, sodium, magnesium and potassium salts of cyclohexane sulfamic acid, $(C_6H_{12}NO_3S)_2$ Ca, $C_6H_{12}N$ NA NO_3S, $(C_6H_{12}NO_3S)_2$ Mg, and C_6H_{12} N K NO_3S. Cyclamates are synthetic chemicals having a sweet taste 30 to 40 times that of sucrose, are not found in natural products at levels detectable by the official methodology, and have been used as artificial sweeteners.

(ii) Food containing any added or detectable level of cyclamate is deemed adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of October 21, 1969 (34 FR 17063).

(iii) The analytical methods used for detecting cyclamate in food are in §§ 20.-127 through 20.132 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(6) *Safrole.* (i) Safrole is the chemical 4-allyl-1,2-methylene-dioxybenezene $C_{10}H_{10}O_2$. It is a natural constituent of the sassafras plant. Oil of sassafras is about 80 percent safrole. Isosafrole and dihydrosafrole are derivatives of safrole, and have been used as flavors.

(ii) Food containing any added safrole, oil of sassafras, dihydrosafrole, or safrole or as a constituent of any food or extract is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of December 3, 1960 (25 FR 12412).

(iii) The analytical method used for detecting safrole, isosafrole and dihydrosafrole is in "Journal of the Association of Official Analytical Chemists" vol. 54, pp. 900–902 (1971).[1]

(7) *Monochloroacetic acid.* (i) Monochloroacetic acid is the chemical chloroacetic acid $C_2H_3Cl\ O_2$. It is a synthetic chemical not found in natural products, and has been proposed as a preservative in alcoholic and non-alcoholic beverages. Monochloroacetic acid is permitted in food package adhesives with an accepted migration level up to 10 ppb under § 121.-2520. The official methods do not detect monochloroacetic acid at the 10 ppb. level.

(ii) Food containing any added or detectable level of monochloracetic acid is deemed adulterated in violation of the act based upon trade correspondence dated December 29, 1941 (TC–377).

(iii) The analytical methods used for detecting monochloroacetic acid in food are in §§ 20.057 through 20.062 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(8) *Thiourea.* (i) Thiourea is the chemical thiocarbamide CH_4N_2S. It is a synthetic chemical, is not found in natural products at levels detectably by the official methodology, and has been proposed as an antimycotic for use in dipping citrus.

(ii) Food containing any added or detectable level of thiourea is deemed to be adulterated under the act.

(iii) The analytical methods used for detecting thiourea are in §§ 20.099 through 20.100 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(9) *Cobaltous Salts; acetate, chloride and sulfate.* (i) Cobaltous salts are the chemicals $Co(C_2H_3O_2)$, $Co\ Cl_2$ and $Co\ So_4$. They have been used in fermented malt beverages as a foam stabilizer and to prevent "gushing".

(ii) Food containing any added cobaltous salts is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of August 12, 1966 (31 FR 8788).

(10) *NDGA (Nordihydroguaiaretic acid).* (i) Nordihydroguaiaretic acid is the chemical 4,4(2.3-dimethyltetramethylene) dipyrocatechol $C_{18}H_{22}O_2$. It occurs naturally in the resinous exudates of certain plants. The commercial product, which is synthesized, has been used as an antioxidant in foods.

(ii) Food containing any added NDGA is deemed to be adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of April 11, 1968 (33 FR 5619).

(iii) The analytical method used for detecting NDGA in food is in § 20.0008 of the "Official Methods of Analysis of the Association of Official Analytical Chemists."[1]

(11) *DEPC (Diethylpyrocarbonate).* (i) Diethylpyrocarbonate is the chemical pyrocarbonic acid diethyl ester, $C_6H_{10}O_5$. It is a synthetic chemical not found in natural products at levels detectable by available methodology and has been used as a ferment inhibitor in alcoholic and non-alcoholic beverages.

(ii) Food containing any added or detectable level of DEPC is deemed adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of August 2, 1972 (37 FR 15426).

(e) Substances prohibited from indirect addition to food through use in food contact surfaces:

(1) *Flectol H.* (i) Flectol H is the chemical 1,2-Dihydro-2,2,4-trimethylquinoline, polymerized $(C_{12}H_{17}N)$. It is a synthetic chemical not found in natural products, and has been used as a component of food packaging adhesives.

(ii) Food containing any added or detectable level of this substance is deemed adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of April 7, 1967 (32 FR 5675).

(2) *4,4¹ -Methylenebis (2-choroanalineq,* (i) 4,4'- Methylenebis (2-choroanaline) has the molecular formula, $C_{13}H_{12}Cl_2N_2$. It is a synthetic chemical not found in natural products and has been used as a polyurethane curing agent and as a component of food packaging adhesive and polyurethane resins.

(ii) Food containing any added or detectable level of this substance is deemed adulterated in violation of the act based upon an order published in the FEDERAL REGISTER of December 2, 1969 (34 FR 19073).

Interested persons may on or before October 24, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[21 CFR Part 121]

REMOVAL OF CERTAIN SUBSTANCES FROM THE GRAS LIST REVIEW

Notice of Withdrawal of Proposal

In the FEDERAL REGISTER of April 13, 1973 (38 FR 9310), the Commissioner of Food and Drugs proposed to delete 52 substances from the current GRAS review and to delist these same substances from § 121.101 (21 CFR 121.101). The basis for this proposed deletion and delisting was the absence of reported use or production of the substances during 1970. The use and production survey of the industry was conducted by the National Academy of Sciences, through its Food Protection Committee of the National Research Council, under contract with the Food and Drug Administration.

One hundred and eighty comments were received in response to the proposal. Eighty-seven of these comments indicated usage of the GRAS substances in animal feeds, 37 in nutrient pharmaceutical preparations, 18 in indirect food ingredients, and 38 in direct human food use.

In the direct human use category, the comments reported the use of 43 of the 52 GRAS substances listed in the proposal. These comments gave numerous reasons for not participating in the NAS Survey, including non-solicitation by NAS. Although most of the comments were in agreement with the intent of the proposal, each requested specific exceptions.

As a result of the above comments, the Commissioner recognizes that there is sufficient commercial interest in these GRAS food substances to retain them in the current GRAS review. Accordingly, notice is hereby given that the 52 substances as published in the FEDERAL REGISTER on April 13, 1973 (38 FR 9310), will remain in § 121.101 (21 CFR 121.101), pending the results of this review.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[21 CFR Part 121]

CAROB BEAN GUM

Proposed Transfer From GRAS List to Food Additive Regulation for Direct Human Food Use and Affirmation of GRAS Status as Indirect Human Food Ingredient

The Food and Drug Administration is conducting a comprehensive study of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. Pursuant to this review, the safety of carob bean gum has been evaluated. In accordance with the provisions of §§ 121.40 and 121.-41, the Commissioner of Food and Drugs proposes to affirm the GRAS status of this ingredient for indirect human food use and to transfer the ingredient to a food additive regulation for direct human food use. The Commissioner also proposes to establish a new § 121.105, under which all indirect human food ingredients affirmed as GRAS will be listed.

As the review of GRAS and prior-sanctioned direct human food ingredients progresses, these ingredients will be

See footnote 1 previous page.

V 38 143 JUL 26 73 XUM

proposed for inclusion in new § 121.104 *Substances added directly to human food affirmed as generally recognized as safe (GRAS)*, proposed new § 121.106 *Substances prohibited from use in food*, Subpart D as direct human food additives, Subpart E as prior sanctions, or Subpart H as interim human food additives. Because § 121.101 is not limited to direct human food ingredients, and has been regarded also as the basis of GRAS determinations for indirect food ingredient sue, in or on food contact surfaces, and for use in pet food and animal feed, the Commissioner has concluded that when an ingredient listed in § 121.101 is affirmed for direct human food use it will be retained in § 121.101 with the explanation that it has been affirmed as GRAS and cross-referenced to the applicable paragraph in new § 121.104. Similarly, where it is affirmed as GRAS for indirect human food use and transferred to a food additive regulation for direct use, the same explanation will be provided, along with appropriate exceptions. This latter procedure is proposed with respect to carob bean gum.

Many of the substances published as GRAS § 121.101, or used on a determination that they are GRAS without publication in § 121.101, were approved by the United States Department of Agriculture for food packaging or processing use in meat or poultry, or were approved by the Food and Drug Administration for food packaging or processing pursuant to correspondence, regulations, informal announcements, or in other ways, prior to 1958. Thus, many of these ingredients are subject to specific prior sanctions for indirect human food use in addition to GRAS status. No comprehensive list of such prior sanctions exists. To the extent that one of these substances is affirmed as GRAS, the fact that it may also be subject to a prior sanction is largely of historical interest and has no regulatory significance. To the extent that one of these substances is not affirmed as GRAS, any restrictions or limitations imposed upon its use could in any event also be imposed on the prior-sanctioned uses under the adulteration provisions of the act as provided in § 121.-2000, published in the FEDERAL REGISTER of May 15, 1973 (38 FR 12738).

Accordingly, the Commissioner has concluded that regulations based upon the review of GRAS and prior-sanctioned indirect human food ingredients will initially be proposed on the assumption that no prior sanction exists. Because prior-sanctioned status constitutes an exemption from section 409 of the act, it should be construed narrowly, and the burden of coming forward with evidence of the sanction properly rests upon the person who asserts it. In the event that any person responds to a proposed regulation with proof of a valid prior sanction, a final regulation will be issued under Subpart E, "Substances for which prior sanctions have been granted," as well as under any other aplicable sections of the regulations. In this way, all possible uses of the ingredient will be fully covered. Any regulation promulgated pursuant to this review will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure to submit proof of an applicable prior sanction in response to any proposed regulation will also constitute a waiver of the right to asset such sanction at any later point in time. Any proposed regulation will also be construed as a proposal under Subpart E in the event that a prior sanction is asserted in comments submitted on it. This procedure is necessary because of the unavailability of any comprehensive list of prior sanctions.

Carob bean gum (locust bean gum) has been listed in § 121.101(d)(7), published in the FEDERAL REGISTER of November 20, 1959 (24 FR 9368), as GRAS as a stabilizer and in § 121.101(h) and (i) as GRAS for food contact surfaces. Carob bean, locust bean, and St. John's bread are also individually listed as GRAS in § 121.101(e)(2) as natural flavoring substances, as published in the FEDERAL REGISTER of January 19, 1960 (25 FR 404). These numerous listings, as well as the published literature, have caused a great deal of misunderstanding about the status of these substances. Carob bean gum, or its synonym locust bean gum, has been used in U.S. food production since 1925. It consists of the endosperm of the carob (locust) bean seed and usually the seed coat and germ. Carob bean, locust bean, and St. John's bread are all synonyms for the whole bean consisting of pod, pulp, and seed and can be compared to a whole string bean. The dried gum has been used as a stabilizer and thickener in foods and as a coating for food packaging containers. The whole bean is eaten as a green vegetable and also dried and ground for a multitude of human and animal food and food ingredient uses. This notice covers only the food ingredient uses of the gum, obtained from the carob (locust) bean seed, when used in human food. Food ingredient uses of the whole bean will be evaluated at a later date.

Carob bean gum (known also as locust bean gum) has been the subject of a search of the scientific literature from 1920 to the present. The parameters used in the search were chosen to discover any articles that considered (1) the chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) any reported carcinogenicity, teratogenicity or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 165 abstracts on carob (locust) bean gum were reviewed and 11 particularly pertinent reports from the literature survey have been summarized in a Scientific Literature Review.

A representative cross-section of food manufacturers was surveyed to determine the specific foods in which the carob bean gum was used and at what levels. Available surveys of consumer consumption were obtained and combined with the production information to obtain an estimate of the consumer exposure to carob bean gum. The total carob (locust) bean gum used in food in 1970 is reported to be about twice the amount used in 1960.

The Scientific Literature Review shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances:

Two Chick experiments are pertinent. In the first, 10 one-day-old Arbor Acres chicks were fed a stock diet; another comparable group was fed the stock diet plus a 2 percent cellulose supplement; and a third comparable group was fed a 2 percent carob bean gum supplement. The third group showed a 30 percent depressed feed intake after three weeks, with a corresponding decrease in weight as compared to the cellulose-fed group. Each chick consumed about 340 mg. of carob bean gum per day, or in excess of 2 g per kg per day. The degree of nitrogen retention and metabolizable energy content were about the same, as in the cellulose group, although the fat absorption was about 8 percent higher.

In the second test, similar groups of chicks were fed stock diets supplemented with 0.25, 0.5, 1.0, and 2.0 percent of carob bean gum. After three weeks, the chicks fed at the 2 percent level showed a 27 percent growth depression as compared to the controls, while those at the lower levels of supplement showed an average 6 percent growth depression. However, the authors provided no data on food intakes in this experiment. Others working with carob bean pods have shown that tannins depress appetite and growth. In addition, carob beans contain trypsin inhibitors which are known to have growth-inhibiting properties. Since tannins and trypsin inhibitors could be naturally present in the carob bean gum used in the chick studies, either or both could have accounted for the growth depression reported. From the data given, it is not possible to ascribe depression in growth to toxicity of the gum.

A 10 percent dietary supplement of carob bean gum does not significantly affect the growth of rats. Three groups of 8 rats averaging 44 g each were fed for 28 days on a stock diet, stock diet plus 1 percent cholesterol, and stock diet plus 1 percent cholesterol and 10 percent carob bean gum. Differences in weight gain among the three groups were not significant and no adverse effects were reported. While feed consumption was not reported, it is estimated that a 44-g rat would consume no less than 10 g per day of the 10 percent carob bean gum diet, which would be equivalent to 1 g of the gum per day. For a 44-g rat this intake rate would be about 23 g per kg per day.

Oral LD_{50} in the rat is reported to be greater than 5 g per kg for multiple doses, and greater than 10 g per kg for a single dose.

Clinical observations of 16 human infants showed no untoward effects from feeding a 1 percent carob bean gum powder, called "Nestargel," for an unstated period of time. The substance was apparently not changed by the saliva and gastric juice.

The fate of carob bean gum in the gastrointestinal tract of adults was followed by means of x-rays and stool examination. Eight adults were fed barium suspensions followed by "two heaping teaspoonfulls" of a gum preparation called "Vacuosa." The colloidal gel from the breakup of the "Vacuosa" pelloids mixed thoroughly with the fecal masses in the colon. The carob bean gum did not disintegrate into the gelatinous state until it reached the large bowel. There was no evidence of interference with normal digestion. Actual body load of carob bean gum was not reported; but assuming 15 g per two teaspoonfuls, the gum must have been administered at a level of about 250 mg per kg.

Beyond these studies, there is no detailed information relating to the absorption, digestion, metabolism, or excretion of carob bean gum in man or animals.

Mutagenic tests on rats and mice using three different methods gave negative results. There was no measurable mutagenic response of alteration in the recombination frequency for *Saccharomyces cerevisiae* in either the host-mediated assay at levels as high as 5 g per kg or the associated in vitro tests. No adverse effects were observed on either metaphase chromosomes from rat bone marrow or anaphase chromosomes from in vitro cultures of human lung cells at any of the doses or time periods tried. No significant adverse responses were noted in the dominant lethal gene test on rats.

Teratologic tests on four species of animals were negative. Ora intubation of up to 1.3 g per kg of body weight of carob beans gum in anhydrous corn oil to pregnant rats for 10 consecutive days, or up to 1.0 g per kg to pregnant hamsters for 5 consecutive days, produced no clearly discernible effect on nidation or on materna or feta surviva. The frequency of abnormalities in either soft or skeletal tissues of the test animals was comparabe to that occurring spontaneousy in the sham-treated controls. In mice, no untoward teragogenic or maternal effects were noted at a level of 280 mg per kg for 10 consecutive days. At 1.3 g per kg, 5 out of 21 dams died. The surviving dams produced normal litters. In pregnant rabbits, no untoward effects were noted at a level of 196 mg per kg for 13 consecutive days, but at 910 mg per kg, a majority of the dams died. The surviving dams produced normal litters.

No evidence of carcinogenic or allergenic activity of carob bean gum has been found in the literature surveyed.

All of the available safety information on carob bean gum has been carefully evaluated by qualified scientists of the Select Committee on GRAS Substances selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). It is the opinion of the Select Committee that: "The available information contains no evidence demonstrating that carob bean gum constitutes a hazard to the public when used in the manner and quantity now practiced. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard."

Based upon his own evaluation of all available information, the Commissioner concurs with this conclusion. In addition the Commissioner concludes that continued safe use of carob (locust) bean gum will require food additive regulation of the ingredient to preserve present levels of use. The levels of use adopted in this proposal, for various categories of food, are those reported to the National Academy of Sciences in their Survey of food manufacturers. The Commissioner further concludes that indirect human food use of carob (locust) bean gum, as a food contact surface in packaging, does not contribute significantly to the carob bean gum content of the packaged food and should thus be affirmed as GRAS for this purpose.

Neither of these proposed actions affects the present use of carob (locust) bean gum for pet food or animal feed or the present uses of carob bean meal and powder, when made from the whole carob bean pod with seed, or carob bean as a raw agricultural commodity.

Copies of the Scientific Literature Review on carob bean gum and the report of the FASEB Committee are available for review at the office of the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20852, and may be purchased from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22151.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409(d), 701(a), 52 Stat. 1055, 72 Stat. 1784, 1787; 21 U.S.C. 321(s), 348(d), 371(a)), and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 121 be amended as follows:

1. By amending § 121.101(d)(7) to add the explanation "food additive regulation § 121.1251; affirmed as GRAS § 121.105(f)(1)" after "Carob bean gum (locust beam gum)" to read as follows:

§ 121.101 Substances that are generally recognized as safe.

* * * * * * *

(d) * * *

Product	Tolerance	Limitations, restrictions or explanations
* * *	* * *	* * *
(7) STABILIZERS * * *	* * *	* * *
Carob bean gum (locust bean gum).		Food additive regulation § 121.1251; affirmed as GRAS § 121.105(f)(1).
* * *	* * *	* * *

2. By adding to Subpart B a new section, as follows:

§ 121.105 Substances in food contact surfaces affirmed as generally recognized as safe (GRAS).

(a) The indirect human food ingredients listed in this section have been reviewed by the Food and Drug Administration and determined to be generally recognizd as safe (GRAS) for the purposes and under the conditions prescribed.

(b) This section does not authorize direct addition of any food ingredient to a food. It authorizes only the use of these ingredients as indirect ingredients of food, through migration from their immediate wrapper, container, or other food contact surface. Any migration or use levels included in this section represent maximum levels under current good manufacturing practice.

(c) The listing of a food ingredient in this section does not authorize the use of such substance for the purpose of adding the ingredients to the food through extraction from the food contact surface.

(d) The listing of a food ingredient in this section does not authorize the use of such substance in a manner that may lead to deception of the consumer or to any other violation of the act.

(e) If the Commissioner of Food and Drugs is aware of any prior sanction for use of an ingredient under conditions different from those proposed to be affirmed as GRAS, he will concurrently propose a separate regulation covering such use of the ingredient under Subpart E of this part. If the Commissioner is unaware of any such applicable prior sanction, the proposed regulation will so state and will require any person who intends to assert or rely on such sanction to submit proof of its existence. Any regulation promulgated pursuant to this section constitutes a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to the proposal will constitute a waiver of the right to assert or rely on such sanction at any later time. The notice will also constitute a proposal to establish a regulation under Subpart E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to the proposal.

(f) The following indirect human food ingredients have been affirmed as GRAS:

(1) *Carob (locust) bean gum.* (i) Carob bean gum (also called locust bean gum) is the material obtained from the ground endosperm of the seed of the *Ceratonia siliqua* (Linne), a leguminous evergreen tree.

(ii) The ingredient meets specifications of the Food Chemicals Codex 2nd Ed. (1972).[1]

(iii) The ingredient is used or intended for use as a constituent of food packaging containers and thus may only become a component of food through migration from this surface.

(iv) The ingredient migrates to the packaged or wrapped food at levels not to exceed good manufacturing practices.

3. By adding to Subpart D a new section as follows:

121.1251 Carob bean gum (locust bean gum).

The food additive carob bean gum may be safely used in food in accordance with the following conditions:

(a) Carob bean gum (locust bean gum) is the material obtained from the ground endosperm of the seed of the *Ceratonia siliqua* (Linne), a leguminous evergreen tree.

(b) The additive meets specifications of the Food Chemicals Codex 2nd Ed. (1972).[1]

(c) The additive is used at not to exceed the following maximum levels:

[1] Copies may be obtained from: National Academy of Sciences 2101 Constitution Ave., N.W. Washington, D.C. 20037.

V 38-143 JUL 26 73 XUM

MAXIMUM USAGE LEVELS

Food	Permitted Percent	Function
Baked goods and baking mixes, § 121.1(l)(1)	0.15	Flavoring agent, § 121.1(m)(11); stabilizer and thickener, § 121.1(m)(26).
Beverages and beverage bases, nonalcoholic, § 121.1(l)(3)	0.25	Flavoring agent, § 121.1(m)(11); stabilizer and thickener, § 121.1(m)(26).
Cheeses, § 121.1(l)(5)	0.75	Stabilizer and thickener, § 121.1(m)(26).
Gelatins, puddings, and fillings, § 121.1(l)(22)	0.40	Stabilizer and thickener, § 121.1(m)(26).
All other food categories	0.50	Flavoring agent, § 121.1(m)(11); stabilizer and thickener, § 121.1(m)(26).

(d) The label and labeling of the additive and any intermediate mix of the additive for use in finished food shall bear, in addition to the other labeling required by the act:

(1) The name of the additive;

(2) A statement of the concentration of the additive in any intermediate mix; and

(3) Adequate information to assure that the final food product complies with the limitations prescribed in paragraph (c) of this section.

The Commissioner hereby gives notice that he is unaware of any prior sanction for the use of this ingredient in food under conditions different from those proposed above. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulation proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time. This notice also constitutes a proposal to establish a regulation under Subpart E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to this proposal.

Interested persons may, on or before October 24, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73–15215 Filed 7–25–73;8:45 am]

[21 CFR Part 121]

FOOD CATEGORIES AND FOOD INGREDIENT FUNCTIONS

Proposed Designation

The Food and Drug Administration is conducting a study of the direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. As this study progresses, the Commissioner of Food and Drugs will publish in the FEDERAL REGISTER, appropriate proposals to (1) affirm GRAS status, (2) publish a prior sanction, (3) establish an interim food additive regulation, (4) establish a permanent food additive regulation, or (5) eliminate food use of the ingredient under review. The Commissioner is proposing regulations in this issue of the FEDERAL REGISTER with respect to the first ingredients subject to this review.

In regulations published since 1958 under the Food Additives Amendment, it has frequently been appropriate to designate broad food categories in which an ingredient may properly be used, and to state the functional purpose for which the ingredient may be used. To date, no standardized definitions of the food categories or functional descriptions have been adopted.

In conducting the industry survey of production and use of GRAS and prior-sanctioned food substances, under contract with the Food and Drug Administration, for use in the review of the safety of these ingredients, the National Academy of Sciences developed standardized food categories. Food categories of a similar type were also used by the United States Department of Agriculture and the Market Research Corporation of America (MRCA), in their respective surveys, to determine the sizes of servings used by consumers and the frequency of consumption of specific foods.

The Commissioner has concluded that the food categories adopted by the National Academy of Sciences (NAS) represent a valid and useful method of dividing food products into general classes of related products. Where tolerances or limitations are established for the use of direct human food ingredients, and there is significant variation with respect to appropriate tolerances or limitations for one or more specific food categories, this method of classification will permit designation of the foods to be covered without requiring a detailed list of each of the individual products included. In many instances, tolerances or limitations may be imposed uniformly for all foods. It may also be necessary to impose, with relatively few exceptions, tolerances or limitations for specific food categories at levels higher or lower than the general rule. It is the Commissioner's intent to utilize the broadest possible approach, in the interests of simplification, wherever justified by the available safety data and information.

It is appropriate that the same food classification system developed by the NAS for its production and consumption survey should also be utilized by the Food and Drug Administration in imposing tolerances and limitations for use of specific ingredients. NAS Survey data was accumulated using these food categories, and they are consequently of great assistance in determining whatever tolerances and limitations are justified. The same classification system, already cross-indexed to the MRCA and USDA consumption data, also provides an immediate reference to consumption patterns on which those tolerances and limitations are in part based.

The proposal set out below contains a general description of each food category, without attempting to list in detail all the products within it. Wherever any question arises with respect to the proper classification of a specific food product which might reasonably fall within two or more categories, proper classification will be determined by referring to the more detailed and specific classification lists established by the MRCA and cross-indexed to NAS food categories, as contained in the final NAS report to the Food and Drug Administration. The Final Report of the NAS is now available from the National Technical Information Service (NTIS), in accordance with the notice on this matter published in this issue of the FEDERAL REGISTER. Accordingly, the Commissioner is incorporating this specific classification list, by reference, into this proposed regulation, for purposes of resolving close questions with respect to proper classification.

The NAS also found it necessary to establish a similar classification system with respect to the technical functions performed by the various specific ingredients directly added to human food. These functional effects are contained in the final NAS report to the Food and Drug Administration and are the subject of production, use, and consumption data on the technical functions of numerous food ingredients, added to the various NAS food categories. Thus, these tables describe the specific technical purposes for which GRAS and prior-sanctioned ingredients are added to NAS food categories, and they consequently serve as an excellent reference to consumption patterns on which ingredient tolerances and limitations are in part based. Accordingly, the Commissioner is proposing to standardize the technical functional descriptions submitted by the NAS, so that regulations permitting the use of ingredients in food will accurately describe their purpose. A standardized system of classification will also assist consumers in understanding the functions performed by these ingredients in the foods they consume.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended; 21 U.S.C. 321(s), 348, 371(a)) and under authority delegated to him (21 CFR 2.-120), the Commissioner proposes to amend Part 121 by adding to § 121.1 the following two new paragraphs:

§ 121.1 Definitions and interpretations.

* * * * *

(l) The following general food categories are established to group specific related foods together for the purpose of establishing tolerances or limitations for the use of direct human food ingredients. Individual food products will be classified within these categories according to the detailed classification lists contained in Exhibit 33B of the report of the National Academy of Sciences on "A Comprehensive Survey of Industry on the use of Food Chemicals Generally Recognized as Safe" (September 1972).[1]

(1) Baked goods and baking mixes (includes ready-to-eat or ready-to-bake products and all dry flour, meal, and multipurpose mixes).

(2) Beverages, alcoholic (includes malt beverages, wines, and distilled liquors).

(3) Beverages and beverage bases, non-alcoholic (includes dry and liquid imitation concentrates and ready-to-drink products, except for coffee or tea).

(4) Breakfast cereals (includes cold and hot breakfast cereals).

(5) Cheeses (includes standardized, non-standardized, snack, and other miscellaneous cheeses).

(6) Chewing gum (includes all flavored gums).

(7) Coffee and tea (includes regular and instant products).

(8) Condiments and relishes (includes plain seasoning sauces and spreads, olives, pickles, and relishes).

(9) Confections and frostings (includes candy and flavored frostings and frosting sugars).

(10) Dairy product analogs (includes non-dairy derived products such as toppings, toppings, mixes, and coffee whiteners.

(11) Egg products (includes liquid, frozen, or dried eggs, and egg products).

(12) Fats and oils (includes salad dressings, margarines, butter, and cooking oils).

(13) Fish products (includes all prepared or frozen products containing fish, shellfish, and other aquatic animals, except fresh fish).

(14) Fresh eggs (includes only whole fresh eggs).

(15) Fresh fish (includes only fresh and home-frozen fish, shellfish, and other aquatic animals).

(16) Fresh fruits and fruit juices (includes only raw fruits and fruit juices and fruit blends).

(17) Fresh meats (includes only fresh and home-frozen beef, pork, lamb, and game animals).

(18) Fresh poultry (includes only fresh and home-frozen poultry).

(19) Fresh vegetables and potatoes (includes only fresh, home-canned, and home-frozen vegetables and potatoes).

(20) Frozen dairy desserts and mixes (includes ice cream, ice milk, sherbets, and frozen novelties).

(21) Fruit and water ices (includes all frozen fruit and water ices).

[1] Copies may be obtained from: National Technical Information Service (NTIS) 5285 Port Royal Road Springfield, VA 22151

(22) Gelatins, puddings, and fillings (includes flavored gelatins, puddings, custards, parfaits, and pie fillings).

(23) Grain products and pastas (includes macaroni, noodle, and rice dishes, without meat or vegetables).

(24) Gravies and Sauces (includes flavored meat souces, gravies, and marinades).

(25) Hard candy and cough drops (includes all hard sucker type candies).

(26) Herbs, seeds, spices, seasonings, blends, extracts, and flavorings (includes all natural spices and blends and artificial flavors).

(27) Jams and jellies, homemade (includes fruit butters and preserves).

(28) Jams, jellies, and sweet spreads (includes fruit butters and preserves).

(29) Meat products (includes all prepared and frozen products containing beef, pork, or lamb).

(30) Milk, whole and skim (includes only whole and skim milks).

(31) Milk products (includes dried and fluid milk products such as concentrated, evaporated, and flavored milk, and cream products).

(32) Nuts and nut products (includes whole or shelled nuts, coconut, and nut spreads).

(33) Poultry products (includes all prepared and frozen products containing poultry).

(34) Processed fruits and juices (includes canned or frozen fruits and fruit juices, concentrates, dilutions, ades, and drink substitutes).

(35) Processed vegetables and juices (includes canned or frozen vegetables, vegetable juices, and blends).

(36) Reconstituted vegetable proteins (includes only meat substitute products and dishes).

(37) Snack foods (includes chips, pretzels, and other novelty snacks).

(38) Soft candy (includes all soft and nougat candies).

(39) Soups, homemade (includes all homemade soups).

(40) Soups and soup mixes (includes all meat and vegetable soups).

(41) Sugar, white, granulated (includes only white granulated sugar).

(42) Sugar substitutes (includes all forms of sugar substitutes).

(43) Sweet sauces, toppings, and syrups (includes all fruit, berry, or other flavored products).

(m) The following terms describe the physical or technical functional effects for which direct human food ingredients may be added to foods. They are adopted from the National Academy of Sciences national survey of food industries, reported to the Food and Drug Administration under the contract title, "A Comprehensive Survey of Industry on the Use of Food Chemicals Generally Recognized as Safe" (September 1972).

(1) "Anticaking agents and free-flow agents": substances added to finely powdered or crystalline food products to prevent caking, lumping, or agglomeration.

(2) "Antioxidants": substances used to retard deterioration, rancidity, or discoloration due to oxidation.

(3) "Colors and coloring adjuncts" (including color stabilizers, color fixatives, color-retention agents, etc.): substances used to impart, preserve, or enhance the color or shading of a food.

(4) "Curing and pickling agents": substances imparting a unique flavor and/or color to a foodstuff, usually producing an increase in shelf life stability.

(5) "Dough conditioners" (including yeast foods): substances used to modify the gluten and enhance the property of making an elastic and stable dough.

(6) "Drying agents": substances with moisture-absorbing ability, used to maintain an atmosphere of low moisture.

(7) "Emulsifiers and emulsifier salts": substances which modify surface tension in the component phase of an emulsion to establish a uniform dispersion or emulsion.

(8) "Enzymes": enzymes used to improve food processing.

(9) "Firming agents": substances added to precipitate residual pectin, thus strengthening the supporting tissue and preventing its collapse during processing.

(10) "Flavor enhancers": substances added to supplement, enhance, or modify the original taste and/or aroma of a food without imparting a characteristic taste or aroma of its own.

(11) "Flavoring agents and adjuvants": substances added to impart or help impart a taste or aroma.

(12) "Flour-treating agents" (including bleaching and maturing agents): substances added to milled flour to improve its color and baking qualities.

(13) "Formulation aids" (including carriers, binders, fillers, plasticizers, film-formers, and tableting aids, etc): substances used to promote or produce a physical state or texture in food.

(14) "Fumigants": volatile substances used for controlling insects or pests.

(15) "Humectants" (including moisture-retention agents and anti-dusting agents): hygroscopic substances incorporated in food to promote retention of moisture.

(16) "Leavening agents": substances used to produce carbon dioxide in baked goods to impart a light texture.

(17) "Lubricants and release agents": substances added to food contact surfaces to prevent confections and baked goods from sticking to their containers.

(18) "Non-nutritive sweetners": substances used as a substitute for sugar when intake of sugar or its bulk is undesirable.

(19) "Nutrient supplements": food components, or their synthetic substitutes, which are necessary for the body's nutritional and metabolic processes.

(20) "pH control agents" (including buffers, acids, alkalies, and neutralizing agents): substances added to change or maintain active acidity or basicity.

(21) "Preservatives" (including antimicrobial agents, fungistats, and mold and rope inhibitors, etc.): substances added to prevent growth of contaminating microorganisms and subsequent spoilage.

(22) "Processing aids" (including clarifying agents, clouding agents, cata-

V 38 1143 JUL 26 73 XUM

lysts, flocculents, and filter aids, etc.): substances used as manufacturing aids to enhance the appeal or utility of a food or food component.

(23) "Propellants, aerating agents, and gasses": chemically inert gasses used to supply force to expel a product or used to reduce the amount of oxygen in contact with the food in packaging processes.

(24) "Sequestrants": substances which combine with polyvalent metal ions to form a soluble metal complex, to improve the quality and stability of products.

(25) "Solvents and vehicles": substances used to extract or dissolve another substance.

(26) "Stabilizers and thickeners" (including suspending and bodying agents, setting agents, jelling agents, and bulking agents, etc.): substances used to produce viscous solutions or dispersions, to impart body, improve consistency, or stabilize emulsification.

(27) "Surface—active agents" (other than emulsifiers, but including solubilizing agents, dispersants, detergents, wetting agents, rehydration enhancers, whipping agents, foaming agents, and defoaming agents, etc.): substances used to modify surface properties of food components for a variety of effects.

(28) "Surface—finishing agents" (including glazes, polishes, waxes, and protective coatings): substances used to increase palatability, preserve gloss, and inhibit discoloration of foods.

(29) "Sweeteners": substances used to sweeten the taste of food.

(30) "Synergists": substances used to act or react with another food ingredient to produce a total effect different or greater than the sum of the individual effects.

(31) "Texturizers": substances which affect the appearance or feel of the composition of a food.

Interested persons may, on or before October 24, 1973, file with the Hearing Clerk, Food and Drug Administration, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73–15217 Filed 7–25–73;8:45 am]

[21 CFR Part 121]

MANNITOL AND SORBITOL

Affirmation of GRAS Status of Direct Human Food Ingredients

The Food and Drug Administration is conducting a comprehensive study of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. Pursuant to this review, the safety of mannitol and sorbitol has been evaluated. In accordance with the provisions of § 121.40, the Commissioner of Food and Drugs proposes to affirm the GRAS status of these two ingredients.

Mannitol (1,2,3,4,5,6-hexanehexol) and its sterioisomer sorbitol are both solid hexahydric alcohols prepared commercially by catalytic reduction of glucose. Both occur naturally in small amounts in a variety of foods. Mannitol is found in olives, beets, celery and in the exudate of certain trees. Sorbitol is a normal constituent of such fruits as cherries, plums, pears, apples, and many berries.

Mannitol and sorbitol were listed in § 121.101(d)(2) as GRAS for use in special dietary foods at a maximum of 5 percent and 7 percent respectively in the FEDERAL REGISTER of January 31, 1961 (26 FR 938). Subsequently, food additive regulations were published for mannitol under § 121.1115 in the FEDERAL REGISTER of August 9, 1961 (28 FR 1540) and for sorbitol under § 121.1053 in the FEDERAL REGISTER of February 19, 1963 (26 FR 7127) to provide for other uses of these substances, with levels for use being restricted only to the amount reasonably required to accomplish the intended effect.

Mannitol and Sorbitol have been the subject of a search of the published scientific literature from 1920 to the present. The parameters used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) reported carcinogenicity, teratogenicity, or mutagenicity, (7) dose sponse, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection methodology and (13) processing. A total of 968 abstracts on mannitol were reviewed and 11 particularly pertinent reports from the literature survey have been summarized in a Scientific Literature Review. A total of 870 abstracts on sorbitol were reviewed and 26 particularly pertinent reports from the literature survey have been summarized in a Scientific Literature Review.

A representative cross-section of food manufacturers was surveyed to determine the specific foods in which these substances were used and at what levels. Available surveys of consumer consumption were obtained and combined with the production information to obtain an estimate of the consumer exposure to mannitol and sorbitol. The total mannitol used in food in 1970 is reported to be about 90 times that used in 1960. The total sorbitol used in food in 1970 is reported to be about seven times that used in food in 1960.

The Scientific Literature Review shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances:

Mannitol is absorbed from the gastrointestinal tract of animals and man, and does not accumulate in the organism; it is partially metabolized and partly excreted in the urine. There is evidence that the intestinal flora may convert mannitol to more readily utilized substances and this transformation may influence the reported amount of mannitol absorbed and metabolized by the liver. A wide variety of microorganisms and fungi convert mannitol to sugars and other carbohydrate fragments.

The absorption of mannitol in a 50 cm segment of the proximal small intestine, in children varying in age from 8 months to 4 years, has been reported. The mannitol was perfused in an isotonic solution in concentrations varying from 50 to 150 millimoles per liter. From 9 to 18 percent of the mannitol was found to be absorbed.

A more extensive study in 16 human adult volunteers, ranging in age from 20 to 66, revealed that, in the oral dosage range of 40 to 100 g, 65 percent of the ingested mannitol was absorbed. Of the absorbed mannitol, about a third was excreted intact in the urine and the remainder was oxidized to carbon dioxide. Excretion was virtually complete by four days, with about 91 percent excreted within the first day.

In experiments where 25 g of mannitol were fed to normal men, little evidence was found that the substance was utilized, as measured by blood sugar levels or respiratory quotients. The threshold laxative dose was found to be between 10 and 20 g of mannitol as compared with 50 g of sorbitol.

There are no reported long-term animal feeding studies (extending for more than half of the life span of the species) on mannitol. Relevant short-term animal studies and studies on man are summarized below.

The oral LD_{50} for the mouse is reported to be 22 g per kg, and for the rat to be 17.3 g per kg. The minimum lethal dose for the rat is reported to be greater than 13 g per kg.

In rats and monkeys fed mannitol (5 percent of the rat diet, and 3 g daily to monkeys) no significant chronic toxicity was observed over a period of 3 months. A study on one man, fed 10 g daily for a month, revealed no evidence of toxicity; but the same authors have shown that the ingestion of 10 to 20 g of crystalline mannitol as part of the diet results in a laxative effect. The latter observation has been confirmed.

Preliminary teratologic tests in mice, rats, and hamsters have been negative. Oral doses up to 1.6 g per kg of body weight of mannitol to pregnant mice and rats for 10 consecutive days, or up to 1.2 g per kg of body weight to pregnant hamsters for 5 consecutive days, produced no clearly discernible effects or nidation or on maternal or fetal survival. The frequency of abnormalities in either soft or skeletal tissues of the test animals was comparable to that occurring spontaneously in the sham-treated controls.

The Select Committee is unaware of any reports on mannitol indicating evidence of its carcinogenicity, mutagenicity, or effects on reproduction.

When injected intravenously, mannitol is filtered by the glomeruli of the kidneys and not appreciably reabsorbed by the tubles. For this reason, mannitol has been employed extensively as a substance to measure glomerular filtration rate in man. It has also been used medically as an intravenous diuretic, to lower intracranial pressure, and to decrease intraocular pressure in glaucoma. This wide usage of mannitol has not resulted in untoward toxic effects. However, a single allergic reaction to mannitol was observed when the substance was administered intravenously for the treatment of glaucoma. In the experience of these investigators, over 1500 patients had received similar medication without a serious allergic reaction. It appears from this report that allergic reactions to mannitol are possible, but that it does not constitute a dietary hazard for this reason.

The Joint FAO/WHO Expert Committee on Food Additives classified mannitol, in amounts of 50–150 mg per kg of body weight daily, as "conditionally acceptable". This term means that the substance may be employed within the specified limits with an adequate margin of safety if it has been reviewed by experts for a particular use.

Orally administered sorbitol is absorbed and metabolized rapidly by man through normal glycolytic pathways, ultimately to carbon dioxide and water. After a 35 g dose (equivalent to 583 mg per kg) in normal and in diabetic adults, for example, less than 3 percent of the sorbitol was excreted in the urine in any case and the concentration of sorbitol in the blood was found to be immeasurably small. No evidence of toxicity was reported.

The oral LD_{50} of sorbitol in male and female mice is reported to be 23,200 and 25,700 mg per kg respectively; in male and female rats, 17,500 and 15,900 mg per kg respectively. The oral LD_{100} for the male rate is separately reported as 26,000 mg per kg.

The following short term studies of the oral administration of sorbitol are relevant:

In 40 g male rats, fed 5 percent sorbitol in a balanced diet, no toxic effects were observed during the three months of feeding. Feed consumption is not reported, but estimates based on other data presented indicate that sorbitol was being fed at a level of approximately 5 g per kg per day.

Rhesus monkeys fed sorbitol at a level of 8 g per kg per day for 3 months remained unaffected.

Man, consuming 10 g of sorbitol each day (equivalent to 167 mg per kg) for one month remained unaffected.

Normal children, 5–6 years old and normal infants, 20–35 months old, fed 9.3 g of sorbitol (equivalent to 500 or more mg per kg) remained unaffected except for the appearance of diarrheal stools in the younger group.

The laxative threshold for sorbitol, established in 12 normal adults, has been reported to be 50 g (equivalent to 833 mg per kg). It is also reported, in a study involving 86 volunteers, that a dosage level of 25 g per day in two doses does not cause laxation.

The following long-term studies of the oral administration of sorbitol are relevant:

Rats fed 5 percent sorbitol (equivalent to 5 g per kg per day) through three generations showed no deleterious effects on growth rate or liver glycogen storage capacity. There were no gross or histological abnormalities in kidney, liver, spleen, pancreas, or duodenum attributable to sorbitol. A subsequent report has indicated that weanling rats, given sorbitol at levels of 10 to 15 percent in the diet for 17 months and observed over 4 successive generations, showed no evidence of deleterious effects on weight gain, reproduction, lactation, or histological appearance of the main organs.

Rats fed 16 percent sorbitol for 19 months showed a tendency to become hypercalcemic after one year, with the appearance in some animals of bladder concretions and a generalized thickening of the skeleton. No feed consumption or animal weight figures were reported, but sorbitol level was estimated to be of the order of 16 g per kg.

No oral studies of the carcinogenic activity of sorbitol have been reported. However, studies in rats revealed that injected sorbitol, in the form of an iron-sorbitol citric acid product (Jectofer), produced no injection site tumors.

Sorbitol, at dose levels of 5 g per kg did not produce any measurable mutagenic response in the host-mediated assay in mice, in the metaphase chromosomes of rat bone marrow, or in the dominant lethal test in the rat. A slight increase was noted in the mitotic recombination frequency for *Saccharomyces cerevisiae* in the host-mediated assay, and a moderate, dose-related adverse effect was exhibited by human embryonic lung cells scored at anaphase.

Sorbitol elicited no teratogenic response in pregnant mice or rats fed a daily dose of 1600 mg per kg for 10 days, or in hamsters fed 1200 mg per kg per day for 5 days.

The Joint Food and Agriculture Organization/World Health Organization Committee on Food Additives indicates the acceptable daily intake of sorbitol for man as follows: "Conditional acceptance (as a food additive or as a food) not limited".

All of the available safety information has been carefully evaluated by qualified scientists of the Select Committee on GRAS Substances selected by the Life Sciences Office of the Federation of American Societies for Experimental Biology (FASEB). It is the opinion of the Select Committee that there is no evidence in the available information on sorbitol and mannitol that demonstrates a hazard to the public when they are used at current levels or at levels that may reasonably be expected in the future. Based upon his own evaluation of this information the Commissioner concurs with this conclusion.

Copies of the Scientific Literature Reviews on mannitol and sorbitol and the reports of the FASEB Committee are available for review at the office of the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20852, and may be purchased from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22151.

Therefore, pursuant to provisions of the Federal Food, Drug and Cosmetic Act (secs. 201(s), 409(d), 701(a), 52 Stat. 1055, 72 Stat. 1784, 1787; 21 U.S.C. 321(s), 348(d), 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 121 be amended as follows:

1. In the table in § 121.101(d) by amending the listing for "Mannitol" and "Sorbitol" in the "Tolerance" and in the "Limitations, restrictions or explanations" columns in subparagraph (d)(5) to read as follows:

§ 121.101 Substances that are generally recognized as safe.

* * * * * * *

(d) * * *

Product	Tolerance	Limitations, restrictions or explanations
* * *	* * *	* * *
(5) NUTRIENTS AND/OR DIETARY SUPPLEMENTS[1]		
* * *	* * *	* * *
Mannitol	* * *	Affirmed as GRAS § 121.104(g)(3).
Sorbitol	* * *	Affirmed as GRAS § 121.104(g)(4).
* * *	* * *	* * *

§§ 121.1053 and 121.1115 [Revoked].

2. By revoking § 121.1053 and § 121.1115

3. By amending proposed new § 121.104 to add the following two new subparagraphs to paragraph (g).

§ 121.104 Substances added directly to human food affirmed as generally recognized as safe (GRAS).

* * * * * *

(g) * * *

(3) *Mannitol.* (i) Mannitol is the chemical 1,2,3,4,5,6,-hexanehexol ($C_6H_{14}O_6$), produced by the electrolytic reduction of glucose, differing principally from sorbitol by having a different optical rotation.

(ii) The ingredient meets the specifications of the Food Chemicals Codex 2nd Ed. (1972)[1].

(iii) The ingredient is used as a sweetener, formulating aid, stabilizer and thickener, and surface-finishing agent.

(iv) The ingredient is used in food at levels not to exceed good manufacturing practices. The 1972 NAS–NRC Survey indicates current good manufacturing practice in the use of mannitol results in a maximum of 33 percent in hard candy (§ 121.1(l) (25)3, 25 percent in chewing gum] 121.1(l) (6), 40 percent in soft candy (§ 121.1(l) (38)), 8 percent in confections and frostings (§ 121.1(l) (9)), and at less than 2.5 percent in all other foods.

(v) The label and labeling of food whose reasonably foreseeable consumption may result in a daily ingestion of 20 grams of mannitol shall bear the statement: "Excess consumption may have a laxative effect."

(4) *Sorbitol.* (i) Sorbitol is the chemical 1,2,3,4,5,6,-hexanehexol ($C_6H_{14}O_6$), produced by the electrolytic reduction of glucose, differing principally from mannitol by having a different optical rotation.

(ii) The ingredient meets the specifications of the Food Chemicals Codex 2nd Ed. (1972)[1].

(iii) The ingredient is used as a sweetener, formulating aid, emulsifier, humectant, stabilizer and thickener, texturizer, lubricant, and anticaking agent.

(iv) The ingredient is used in foods at levels not to exceed good manufacturing practices. The 1972 NAS—NRC Survey indicates current good manufacturing practice in the use of sorbitol results in a maximum of 97 percent in hard candy (§ 121.1(l) (25)), 62 percent in chewing gum (§ 121.1(l)(6)), 98 percent in soft candy (§ 121.1(l) (38)), 17 percent in frozen dairy desserts and mixes (§ 121.1 (l) (20)), 30 percent in baked goods and baking mixes (§ 121.1(l) (1)), and 8 percent or less in all other foods.

(v) The label and labeling of food whose reasonably forseeable consumption may result in a daily ingestion of 50 grams of sorbitol shall bear the statement: "Excess consumption may have a laxative effect."

V38-143 JUL 26 73 XUM

The Commissioner hereby gives notice that he is unaware of any prior-sanction for the use of this ingredient in food under the conditions different from those proposed above. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulations proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior-sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time.

This notice also constitutes a proposal to establish a regulation under Subpart E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior-sanction in response to this proposal.

Interested persons may, on or before October 24, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-15214 Filed 7-25-73;8:45 am]

[21 CFR Part 121]

METHYL PARABEN AND PROPYL PARABEN

Affirmation of GRAS Status of Direct Human Food Ingredients

The Food and Drug Administration is conducting a comprehensive study of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. Pursuant to this review, the safety of methyl paraben and propyl paraben has been evaluated. In accordance with the provisions of § 121.40, the Commissioner of Food and Drugs proposes to affirm the GRAS status of these two ingredients. The Commissioner also proposes to establish a new § 121.104, under which all direct human food ingredients affirmed as GRAS will be listed.

As the review of GRAS and prior-sanctioned direct human fool ingredients progresses, these ingredients will be proposed for inclusion in new § 121.104 *Substances added directly to human food affirmed as generally recognized as safe (GRAS)*, proposed new § 121.106 *Substances prohibited from use in food*, Subpart D as direct human food additives, Subpart E as prior sanctions, or Subpart H as interim food additives. Because § 121.101 is not limited to direct human food ingredients, and has been regarded also as the basis of GRAS determinations for indirect food ingredient use (in or on food contact surfaces), and for use in pet food and animal feed, the Commissioner has concluded that when an ingredient listed in § 121.101 is affirmed for direct human food use, it will be retained in § 121.101 with the explanation that it has been affirmed as GRAS and cross-referenced to the applicable paragraph in new § 121.104. This procedure is proposed with respect to methyl paraben and propyl paraben.

Many of the substances published as GRAS in § 121.101, or used on a determination that they are GRAS without publication in § 121.101 were approved by the United States Department of Agriculture for use in meat or poultry, or were approved by the Food and Drug Administration for use in various foods pursuant to correspondence, food standards, regulations, informal announcements, or in other ways, prior to 1958. Thus, many of these ingredients are subject to specific prior sanctions in addition to GRAS status. No comprehensive list of such prior sanctions exists. To the extent that one of these substances is affirmed as GRAS for all prior-sanctioned uses, the fact that it may also be subject to a prior sanction is largely of historical interest and has no regulatory significance. To the extent that one of these substances is not affirmed as GRAS for all prior-sanctioned uses, any restrictions or limitations imposed upon its use could in any event also be imposed on the prior-sanctioned uses under the adulteration provisions of the act as provided in § 121.2000, published in the FEDERAL REGISTER of May 15, 1973 (38 FR 12738).

Accordingly, the Commissioner has concluded that regulations based upon the review of GRAS and prior-sanctioned direct human food ingredients will initially be proposed on the assumption that no prior sanction exists. Because prior-sanctioned status constitutes an exemption from section 409 of the Act, it should be construed narrowly, and the burden of coming forward with evidence of the sanction properly rests upon the person who asserts it. In the event that any person responds to a proposed regulation with proof of a valid prior-sanction, a final regulation will be issued under Subpart E "Substances for which prior sanctions have been granted," as well as under any other applicable sections of the regulations. In this way, all possible uses of the ingredient will be fully covered. Any regulation promulgated pursuant to this review will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure to submit proof of an applicable prior sanction in response to any proposed regulation will also constitute a waiver of the right to assert such sanction at any later point in time. Any proposed regulation will also be construed as a proposal under Subpart E in the event that a prior sanction is asserted in comments submitted on it. This procedure is necessary because of the unavailability of any comprehensive list of prior sanctions.

Methyl paraben (methyl-p-hydroxybenzoate) and propyl paraben (propyl-p-hydroxybenzoate) were listed in § 121.101(d)(2) as GRAS for use as preservatives in food at a maximum of 0.1 percent, following a proposal published in the FEDERAL REGISTER of January 31, 1961 (26 FR 938).

Methyl paraben and propyl paraben have been the subject of a search of the published scientific literature from 1920 to the present. The parameters used in the search were chosen to discover any articles that considered (1) the chemical toxicity, (2) occupation hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) any reported carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection methodology, and (13) processing. A total of 325 abstracts on the parabens were reviewed and 33 particularly pertinent reports from the literature survey have been summarized in a Scientific Literature Review.

A representative cross-section of food manufacturers was surveyed to determine the specific foods in which these substances were used and at what levels. Available surveys of consumer consumption were obtained and combined with the production information to obtain an estimate of the consumer exposure to methyl paraben and propyl paraben. The total methyl paraben used in food in 1970 is reported to be about 16 times that used in 1960. The total propyl paraben used in food in 1970 is reported to be about 30 times that used in 1960.

The Scientific Literature Survey shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances:

"Studies in rats, rabbits, dogs, cats, and man show that methyl and propyl paraben are absorbed from the gastrointestinal tract and metabolized. Neither is accumulated in the body. The major metabolites, in decreasing concentrations in the urine, are *p*-hydroxybenzoic acid and the glycine, blucuronic acid, and sulfuric acid conjugates of *p*-hydroxybenzoic acid. Most, but probably not all of the ingested parabens, is metabolized to the foregoing substances through normal pathways in the liver and kidneys. The following work is particularly significant.

In rabbits, 86 percent of a single 400 mg or 800 mg dose of methyl paraben was excreted within 24 hours as *p*-hydroxybenzoic acid (39 percent), hippuric acid (15 percent), the glucuronic ester and ether (22 percent), and sulfuric acid conjugates (10 percent). In rabbits, 70 percent of a single 400 mg dose of propyl paraben was excreted as the same metabolites within 9 hours, 85 percent within 24 hours, and 88 percent within 48 hours.

In dogs, 66 percent of a 1.0 g per kg oral dose of methyl paraben was excreted within 24 hours (89 percent within 48 hours) as *p*-hydroxybenzoic acid and glucuronic acid conjugates. No accumulation of either methyl or propyl paraben was observed when 1.0 g per kg was administered daily for one year; the rate of excretion of the administered dose increased to 96 percent each 24 hours during that period.

In a fasted man, 50 percent of a dose of 70 mg per kg of methyl paraben was excreted as *p*-hydroxybenzoic acid and conjugates within 12 hours. In another human subject, 55 percent of a daily 2.0 g dose of propyl paraben was excreted as sulfuric acid conjugates. Inasmuch as the authors were unable to account for all of the administered paraben as the foregoing excretion products, it was concluded that some cleavage of the benzene ring may occur metabolically.

Relevant short-term animals studies (extending for less than half of the life span of the species) and studies on man are summarized below. There is a dearth of closely controlled experimental data.

The oral LD_{50} of both methyl paraben and propyl paraben for the mouse is reported to be greater than 8,000 mg per kg. The oral LD_{100} of methyl paraben is reported to be 3,000 mg per kg for the rabbit and 2,000 mg per kg for the dog; that for propyl paraben is 6,000 mg per kg for the rabbit and 3,000 to 4,000 mg per kg for the dog.

Dogs fed as much as 1,000 mg per kg per day of methyl or propyl paraben six days weekly for one year exhibited no toxic symptoms, and blood samples were normal. One female that had been receiving 500 mg per kg per day of methyl paraben for one year was mated and delivered a litter of healthy pups. In other experiments, two dogs were unaffected by oral methyl or propyl paraben levels of 500 mg per kg per day, but evidence of toxicity appeared at 2,000 mg per kg per day of methyl paraben and at 4,000 mg per kg per day of propyl paraben.

Growth of young rats, thought at first to be retarded by oral doses of 250 and 500 mg per kg per day of methyl paraben (period of feeding not reported), was found to be unaffected when these experiments were 'extensively repeated'.

Rabbits fed methyl or propyl paraben at 500 mg per kg per day for 6 days showed no ill effects. With both compounds, first distinct toxic effects were reported to appear when fed at 3,000 mg per kg per day.

A human volunteer, ingesting 2,000 mg of methyl paraben daily for one month was unaffected. Similarly, a human volunteer ingesting 2,000 mg of propyl paraben daily for one month exhibited no visible toxic effects. One experimenter reported that he ingested 2,000 mg of methyl paraben daily for an unstated period and "was able to ascertain an innocuousness even with prolonged use and in doses considerably greater than the minimum necessary in its practical application".

Methyl paraben elicited no teratogenic response in pregnant mice or rats fed up to 550 mg per kg daily for 10 consecutive days, or in pregnant hamsters fed up to 300 mg per kg daily for 5 consecutive days.

Methyl paraben or propyl paraben, dissolved in propylene glycol and applied to the skin of 50 human subjects every other day for 10 applications, produced no irritation at the 5 percent level (methyl) or 12 percent level (propyl). In man, 0.1 to 0.3 percent aqueous solutions of methyl paraben, instilled into the eyes of more than 100 patients, produced moderate hyperemia, slight lacrimation, and a sensation of burning which disappeared within one minute. Repetition of this procedure several times a day resulted in no complaints from the 100 subjects. It was noted in 1969 that eight cases of contact dermatitis due to the parabens had been reported in the U.S. scientific literature.

The following long-term studies of the feeding of the parabens are relevant.

Weanling Wistar rats, fed 0.9 to 1.2 g per kg per day for 96 weeks of either methyl or propyl paraben, remained indistinguishable from the controls. Autopsies revealed no pathology in kidney, liver, heart, lung, spleen, or pancreas. When dosage of either compound was increased about four times, rats showed a slower rate of weight gain than the controls. The authors estimated that the toxic threshold for rats of both methyl and propyl paraben is at least 3,000 mg per kg per day. In mice, the same authors stated, "the doses required to produce toxic effects are so large as to make it difficult to obtain an entirely satisfactory dosage-response curve".

Propyl paraben, fed to rats over an 18 month period at 150 mg per kg per day, resulted in no ill effects and 'some evidence of growth stimulation'. When fed at a level of 1,500 mg per kg per day there was a decrease in growth rate, 'but no irregular pathological changes could be found.' No experiments were reported for methyl paraben, but ethyl paraben, fed at the foregoing levels paralleled the experience with propyl paraben. In another study, weanling rats, fed as much as 1,430 mg per kg per day of a mixture of 60 parts propyl paraben and 40 parts ethyl paraben for 16 months, showed growth rates comparable to the controls and histological examination revealed no significant pathological differences among the test and control rats.

No oral carcinogenicity studies of the parabens have been reported. There are two reports of carcinogenicity studies by other routes of paraben administration. Methyl paraben, dissolved in polyethylene glycol and introduced twice weekly into the vaginas of weanling mice for 18 months, did not initiate carcinomas. In other tests on mice, methyl paraben administered intravenously or subcutaneously exhibited no carcinogenic activity.

The available information reveals that there are no short-term toxicological consequences in the rat, rabbit, cat, dog, or man, and no long-term toxicological consequences in rats, of consuming the parabens in amounts greatly exceeding those currently consumed in the normal diet of the U.S. population. There is no evidence that consumption of the parabens as food ingredients has had an adverse effect on man in the 40 years they have been so used in the United States.

All of the available safety information has been carefully evaluated by qualified scientists of the Select Committee on GRAS Substances selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). It is the opinion of the Select Committee that there is no evidence in the available information on methyl and propyl paraben that demonstrates a hazard to the public when they are used at current levels or at levels that may reasonably be expected in the future. Based upon his own evaluation of this information, the Commissioner concurs with this conclusion.

Copies of the Scientific Literature Review on the parabens, the data on the teratology experiments, and the report of the FASEB Committee are available for review at the office of the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20852, and may be purchased from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22151.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409(d), 701(a), 52 Stat. 1055, 72 Stat. 1787; 21 U.S.C. 321(s), 348(d), 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 121 be amended as follows:

§ 121.101 [Amended]

1. By revising the introductory text of § 121.101(d) to read as follows:

Substances that are generally recognized as safe for their intended use within the meaning of section 409 of the act are as follows. When the status of a substance has been reevaluated and affirmed as GRAS or delisted from this paragraph, an appropriate explanation will be noted, e.g., "affirmed as GRAS," "food additive regulation," "interim food additive regulation," or "prohibited from use in food," with a reference to the appropriate new regulation. Such notation will apply only to the specific use covered by the review, e.g., direct human food use and/or indirect human food use and/or animal feed and pet food use, and will not affect its status for other uses not specified in the referenced regulation pending a specific review of such other uses.

2. By amending the heading for the column "Limitations or restrictions" in § 121.101(d) to read "Limitations, restrictions or explanations", and by amending subparagraph (2) of paragraph (d) by revising the text in the "Limitations, restrictions or explanations" column for the items "Methyl parabren (methy-p-hydroxybenzoate)" and "Propyl paraben (propyl-p-hyroxybenzoate)" to read as follows:

§ 121.101 Substances that are generally recognized as safe.

* * * * * *

(d) * * *

Product	Tolerance	Limitations, restrictions or explanations
* * *	* * *	* * *
Methyl paraben (methyl-p-hydroxybenzoate).	0.1 percent	Affirmed as GRAS § 121.104(g)(1).
* * *	* * *	* * *
Propyl paraben (propyl-p-hydroxybenzoate).	0.1 percent	Affirmed as GRAS § 121.104(g)(2).
* * *	* * *	* * *

V 38 1 143 JUL 26 73 XUM

3. By adding a new section to Subpart B as follows:

§ 121.104 Substances added directly to human food affirmed as generally recognized as safe (GRAS).

(a) The direct human food ingredients listed in this section have been reviewed by the Food and Drug Administration and determined to be generally recognized as safe (GRAS) for the purposes and under the conditions prescribed.

(b) Any use levels included in this section represent maximum use levels under current good manufacturing practices. This section does not authorize addition of any level of an ingredient to a specific food above the amount reasonably necessary to accomplish the intended effect.

(c) The listing of a food ingredient in this section does not authorize the use of such substance in a manner that may lead to deception of the consumer or to any other violation of the act.

(d) The listing of more than one ingredient to produce the same technological effect does not authorize use of a combination of two or more ingredients to accomplish the same technological effect in any one food at a combined level greater than the highest level permitted for one of the ingredients.

(e) If the Commissioner of Food and Drugs is aware of any prior sanction for use of an ingredient under conditions different from those proposed to be affirmed as GRAS, he will concurrently propose a separate regulation covering such use of the ingredient under Subpart E of this part. If the Commissioner is unaware of any such applicable prior sanction, the proposed regulation will so state and will require any person who intends to assert or rely on such sanction to submit proof of its existence. Any regulation promulgated pursuant to this section constitutes a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to the proposal will constitute a waiver of the right to assert or rely on such sanction at any later time. The notice will also constitute a proposal to establish a regulation under Subpart E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to the proposal.

(f) The label and labeling of the ingredient and any intermediate mix of the ingredient for use in finished food shall bear, in addition to the other labeling required by the act:

(1) The name of the ingredient.

(2) A statement of the concentration of the ingredient in any intermediate mix.

(3) Adequate information to assure that the final food product may comply within any limitations prescribed for the ingredient.

(g) The following direct human food ingredients have been affirmed as GRAS:

(1) *Methyl paraben.* (i) Methyl paraben is the chemical methyl-*p*-hydroxybenzoate, produced by esterification of *p*-hydroxybenzoic acid.

(ii) The ingredient meets the specification of the Food Chemicals Codex 2nd Ed. (1972),[1]

(iii) The ingredient is used as a preservative.

(iv) The ingredient is used in food at levels not to exceed good manufacturing practices. Current good manufacturing practice results in a maximum level of 0.1 percent in food.

(2) *Propyl paraben.* (i) Propyl paraben is the chemical propyl-p-hydroxybenzoate, produced by esterification of p-hydroxybenzoic acid.

(ii) The ingredient meets the specification of the Food Chemicals Codex 2nd Ed. (1972).

(iii) The ingredient is used as a preservative.

(iv) The ingredient is used in food at levels not to exceed good manufacturing practices. Current good manufacturing practice results in a maximum level of 0.1 percent in food.

The Commissioner hereby gives notice that he is unaware of any prior sanction for the use of these ingredients in food under conditions different from the proposed above. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulations proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time. This notice also constitutes a proposal to establish a regulation under Subpart E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to this proposal.

Interested persons may, on or before October 24, 1973, file with the Hearing Clerk, Food and Drug Administration, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

GRAS OR PRIOR-SANCTIONED DIRECT HUMAN FOOD INGREDIENTS

Notice of Opportunity To Submit Unpublished Safety Data

The Food and Drug Administration is conducting a study of the direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. As part of this study, information on each ingredient (or group of ingredients) is being summarized in a series of Scientific Literature Reviews by organizations under contract with the Food and Drug Administration. The organizations preparing the Scientific Literature Reviews are responsible for including a summary of the world literature on safety published since January 1, 1920.

In order to assure that all pertinent safety information is obtained for inclusion in each Scientific Literature Review, this notice solicits from any source unpublished data and information that may be appropriate in determining the safety of the substances. The organizations preparing the Scientific Literature Reviews, and the Reviews now in active preparation or planned for preparation, are as follows:

1. Food and Drug Research Laboratories, Inc.,
   60 Evergreen Place,
   East Orange, NJ 07018.
2. Franklin Institute Research Laboratories,
   The Benjamin Franklin Parkway,
   Philadelphia, PA 19103.
3. Informatics, Inc.,
   6000 Executive Boulevard,
   Rockville, MD 20852.
4. Tractor Jitco, Inc.,
   1300 East Gude Dr.,
   Rockville, MD 20851.

The above list of 276 flavor ingredients represents the initiation of Scientific Literature Reviews of 1,550 natural and synthetic flavor substances. An announcement will be made in the FEDERAL REGISTER when other flavor compounds are selected for Review, so that appropriate unpublished information and data may be submitted. All flavor ingredients listed in §§ 121.101(e) and (g), 121.1163 and 121.1164, or otherwise submitted or known to FDA, are intended for eventual inclusion in a Scientific Literature Review.

Other GRAS and prior sanctioned food ingredients intended for an immediate or planned Scientific Literature Review are listed below under their appropriate categories.

IMMEDIATE SCIENTIFIC LITERATURE REVIEW

Adipic acid
Casein and caseinates
Hypophosphites
Pectin and pectinates
Gum guaiac
Ascorbic acid
Carotenes
Iron, reduced
Niacin and niacinamide
Pyridoxine and pyridoxine hydrochloride
Riboflavin and riboflavin-5-phosphate
Caffeine
Glycerophosphates
Dextrans

Vegetable oils
Sucrose
Biotin
Citric acid
Lecithins
Para-hydroxylbenzylisothiayanate
Thiamine
Urea
Vitamin B_{12}
Sodium and potassium chlorides

PLANNED SCIENTIFIC LITERATURE REVIEW

Amines (filming)
Benzoyl peroxide
Borax
Brandy
Calcium stearate
Carbon
Char smoke flavor
Collagen (avitene)
Cyclohexylamine
Enzymes (proteolytic)
Ferrocyanide salts
Glucono delta lactone
Glycerol lactopalmitate
Hesperidin complex
Lignin
Malt syrup
Milk powder (whole, enzyme modified)
Amino tri (methylene phosphoric acid) sodium salt
Bergamot oil
Bouillon (vegetable, smoked)
Butter fat, enzyme modified w/added butyric acid
Candelillla wax
Carboxymethyl hydroxyethyl cellulose
Chlorophyll
Corn mint oil (mentha arvenis oil)
Enzymes (bacterial)
Ferrous citrate
Furcelleran
Gluten (corn)
Gums (vegetable)
Iron citrate
Liver fractions
Methylpolysilicone
Mono and diglycerides (sodium sulfoacetate derivatives)
< Morpholine
<Nickel
< Octadecylamines
Oiticia
Peptone (pepsin-modified soy bean protein; brewers peptone)
Piperazine dihydrochloride
Potassium gluconate
Rutin
Silver-silver dragees
Sodium fluoride
Sodium metasilicate
Soya fatty acid amine (ethoxylated)
Starch (food, modified)
Vitamin B complex and syrup
Yeasts
Pepsin
Potassium bromate
Potassium phosphates
Sausage casings (HCl and cellulose fibers)
Sodium chlorite
Sodium hypochlorite
Sodium zinc metasilicate
Stearyl alcohol
Wax (shellac)
Zein powder

To be considered for inclusion in a Scientific Literature Review, two copies of all relevant safety data, and information shall be submitted to the organization preparing the Review before the listed completion date, and the original and two copies of all such information shall simultaneously be sent to GRAS Review Branch (BF-335), Bureau of Foods, Food and Drug Administration, 200 "C" Street SW., Wash., DC 20204. Immediately upon receipt of any such submission, one copy will be placed on display at the Office of the Hearing Clerk, Food and Drug Administration, Rm. 6-88, 5600 Fishers Lane, Rockville, MD 20852, where it may be reviewed during working hours, Monday through Friday.

If the contractor has not been named, the original and four copies of any such data and information shall be submitted to the GRAS Review Branch (address above), which will distribute two copies to the contractor for the Scientific Literature Review when he is selected. A copy of all such submissions will also immediately be placed on display at the office of the Hearing Clerk, at the above address.

If the estimated date of completion of the Review has passed, copies of any such safety data and information shall be submitted to the Select Committee on GRAS Substances and the GRAS Review Branch as provided by the notice published elsewhere in this issue of the FEDERAL REGISTER, and a copy of any such submission will immediately be placed on display at the office of the Hearing Clerk pursuant to that notice.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-15220 Filed 7-25-73;8:45 am]

SAFETY OF GRAS AND PRIOR-SANCTIONED DIRECT HUMAN FOOD INGREDIENTS

Notice of Opportunity To Present Data Information and Views

The Food and Drug Administration is conducting a study of the safety of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. As part of this study, information on each such ingredient (or group of ingredients), gathered from literature searches and other sources, is being summarized in a series of written Scientific Literature Reviews by organizations under contract with the Food and Drug Administration. The organizations preparing the Scientific Literature Reviews are responsible for including a summary of the world literature on safety published since January 1, 1920. Opportunity is provided, elsewhere in this issue of the FEDERAL REGISTER, for any interested person to submit unpublished safety data and information on these food ingredients for inclusion in Scientific Literature Reviews now under preparation.

Several Scientific Literature Reviews have now been completed and submitted to the Food and Drug Administration. A list of those completed Reviews appears elsewhere in this issue of the FEDERAL REGISTER, (38 FR), and notice is given of their public availability.

The Food and Drug Administration briefly examines each Scientific Literature Review before accepting it. This brief examination covers only the general quality of the work, to make certain that the major scientific information is included in a balanced and complete presentation. The examination is not intended to determine that all pertinent scientific information is included. Notice is therefore hereby given that any interested person who, after study of a Scientific Literature Review, believes that additional pertinent published or unpublished data or information should be included in considering the safety of the ingredient(s) covered in the Scientific Literature Review, may submit ten copies of such written data, information, or views to:

Select Committee on GRAS Substances,
Federation of American Societies for Experimental Biology,
9650 Rockville Pike,
Bethesda, MD 20014

The original of this material and two additional copies shall simultaneously be sent to:

Bureau of Foods,
Food and Drug Administration,
GRAS Review Branch (BF-335),
200 "C" Street, S.W.,
Washington, DC. 20204.

Immediately upon receipt, one copy of any such submission will be placed on display at the office of the Hearing Clerk, Food and Drug Administration, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, where it may be reviewed during working hours, Monday through Friday.

The Select Committee on GRAS Substances is utilizing the services of special consultants with particular expertise in considering specific issues that arise in the evaluation of these substances. The Select Committee also recognizes that the presentation of oral views with respect to the safety of these substances may be helpful in its work. Therefore, an opportunity will be provided for any interested person to present oral views on the safety of these substances to the Select Committee at a hearing, as part of the evaluation process. Notices providing an opportunity to participate in a hearing, for the presentation of such oral views to the Select Committee, will be published in the FEDERAL REGISTER at the appropriate time.

Following completion of its evaluation, the Select Committee will prepare a report to the Commissioner of Food and Drugs containing its evaluation and recommendations, with respect to the safety of the particular ingredient(s) covered by a Scientific Literature Review. Upon acceptance of the report by the Food and Drug Administration, it will be made available to the public in accordance with the notice on this matter published elsewhere in this issue of the FEDERAL REGISTER. After evaluating this report, the Commissioner will publish in the FEDERAL REGISTER, an appropriate proposal to (1) affirm GRAS status, (2) publish a prior sanction, (3) establish an interim food additive regulation, (4) establish a permanent food additive regulation, or (5) eliminate food use of the ingredient. These proposals will be issued pursuant to the procedural provisions contained in §§ 121.40, 121.41 published in the FED-

V 38 143 JUL 26 73 XUM

ERAL REGISTER of December 2, 1972 (37 FR 25705), and § 121.2000 published in the FEDERAL REGISTER of May 15, 1973 (38 FR 12737). The Commissioner is proposing elsewhere in this issue of the FEDERAL REGISTER, to establish new §§ 121.104 *Substances added directly to human food affirmed as generally recognized as safe (GRAS)*, 121.105 *Substances in food contact surfaces affirmed as generally recognized as safe (GRAS)*, and 121.106 *Substances prohibited from use in food*. Thus, each food ingredient will be proposed for inclusion in one of these three new sections, in Subpart D (direct human food additives), in Subpart E (prior sanctions), in Subpart F (indirect human food additives), or in Subpart H (interim human food additives).

Following publication of any such proposal, all interested persons will have an opportunity to submit written comments on the proposal. Where good cause is shown, the Commissioner may order a public hearing at which an oral presentation of data, information, and views may be made. The final regulation will be final agency action from which appeal lies to the courts.

The Commissioner urges the cooperation of all segments of the public in this important work.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-15221 Filed 7-25-73;8:45 am]

SELECT COMMITTEE ON GRAS SUBSTANCES

Request for Nominations

The Food and Drug Administration is conducting a study of direct human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. The available information relating to the safety of each such ingredient is first being evaluated by a Select Committee on GRAS Substances selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology under a contract with the Food and Drug Administration. The Select Committee is considering information on GRAS substances provided by a series of Scientific Literature Reviews based primarily upon a literature survey of material published from 1920 to 1973, by current production and consumption patterns obtained from a recent survey by the National Academy of Sciences, and by additional recent toxicological screening tests on certain of the substances. The Select Committee is presently comprised of the following individuals:

1. Dr. Bert N. Ladu, Jr.,
Dept. of Pharmacology,
New York University Medical Center.
New York University School of Medicine,
550 1st Ave.,
New York University Medical Center,
2. Dr. John R. McCoy,
Professor of Comparative Pathology,
New Jersey College of Medicine & Dentistry,
Rutgers Medical School,
P.O. Box 2100,
New Brunswick, NJ 08903.
3. Dr. Aaron M. Altschul,
Dept. of Community Medicine & International Health,
School of Medicine,
Georgetown University,
3750 Reservoir Road, NW.,
Wash., DC 20007.
4. Dr. Joseph T. Borzelleca,
Professor of Pharmacology,
Medical College of Virginia,
Health Sciences Division,
Virginia Commonwealth University,
Richmond, VA 23219.
5. Dr. Sanford A. Miller,
Dept. of Nutrition and Food Science,
Rm. E 18-504,
Massachusetts Institute of Technology,
Cambridge, MA 02139.
6. Dr. Ralph G. H. Siu,
Consultant,
4428 Albemarle St., NW.,
Wash., DC 20016.
7. Dr. John L. Wood,
University of Tennessee Medical Units,
62 S. Dunlap St.,
Memphis, TN 38103.
8. Dr. Gabriel L. Plaa,
Dept. of Pharmacology,
University of Montreal,
Faculty of Medicine,
Case Postale 6128,
Montreal 101, Que., Canada.
9. Dr. George W. Irving, Jr., Chairman,
Research Associate,
Life Sciences Research Office,
Federation of American Societies for Experimental Biology,
9650 Rockville Pike,
Bethesda, MD 20014.

The curriculum vitae of each member of the Select Committee is available for public review at the office of the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852.

The Life Sciences Research Office plans to increase the size of the Select Committee working on this project. Accordingly, notice is hereby provided for all interested parties to nominate additional qualified scientists to serve on the Select Committee. Nominations are invited from individuals and from consumer, industry, and professional organizations, and should be sent to:

Dr. C. Jelleff Carr,
Life Sciences Research Office,
Federation of American Societies for Experimental Biology,
9650 Rockville Pike,
Bethesda, MD 20014.

Nominations must state that the person nominated is aware of the nomination, is interested in becoming involved in this effort, and appears to have no conflict of interest. A complete curriculum vitae must be enclosed with each nomination.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-15219 Filed 7-25-73;8:45 am]

STATUS OF REVIEW OF GRAS AND PRIOR-SANCTIONED DIRECT HUMAN FOOD INGREDIENTS

Notice of Availability of Information

Food ingredients that are generally recognized as safe (GRAS), or that were sanctioned through action by the Food and Drug Administration or the United States Department of Agriculture prior to enactment of the Food Additives Amendment of 1958, may be utilized in food without first obtaining approval through a food additive regulation. After enactment of the law, the Food and Drug Administration published a partial list of GRAS and prior-sanctioned ingredients in § 121.101. This list was developed without a thorough scientific review of each ingredient.

In his Consumer Message of October 30, 1969, President Nixon directed the Secretary of Health, Education, and Welfare to initiate a full review of all GRAS ingredients. To implement this mandate, the Food and Drug Administration contracted with the Food Protection Committee of the National Academy of Sciences to survey the entire food industry to determine the national production of all GRAS ingredients and the amount of each such ingredient used in any particular food. The National Academy of Sciences report to the Food and Drug Administration incorporated the results of independent surveys conducted by the United States Department of Agriculture as part of its 1965 Household Food Consumption surveys to determine the sizes of food servings used by consumers, and by the Market Research Corporation of America, to determine how frequently representative consumers eat individual servings of foods in specific food categories. The results of the NAS Survey, describing incorporation of USDA and MRCA data, is now available. The complete Survey report also contains various tabular computer printouts describing the use of GRAS food ingredients in NAS food categories and the total exposure of GRAS food ingredients in human foods.

The Food and Drug Administration also contracted with the Franklin Institute Research Laboratories, The Benjamin Franklin Parkway, Philadelphia, PA 19103, to conduct a search of the world literature since January 1, 1920 on the following 72 GRAS food ingredients that were determined to be a matter of high priority:

Ammoniated glycyrrhizin
Sodium nitrite
Sodium nitrate
Potassium nitrate
Potassium nitrite
Saccharin (acid)
Sodium saccharin
Calcium saccharin
Ammonium saccharin
Potassium bisulfite
Potassium metabisulfite
Sodium bisulfite
Sodium metabisulfite
Sulfur dioxide
Oil of mustard
Oil of garlic
Oil of nutmeg
Oil of rue
Oil of clove
Caramel
Benzoic acid
Sodium benzoate
Methyl paraben
Propyl paraben
Propyl gallate
Carrageenan
Sodium alginate
Gun tragacanth
Gum arabic (acacia)
Carob bean gum
Ghatti gum
Sterculia gum
Guar gum
Furcelleran
Sodium carrageenan
Sorbitol
Mannitol
Butylated hydroxyanisole
Butylated hydroxytoluene
Hydrogen peroxide
Diacety tartaric acid esters of mono- and diglycerides of edible fats and oils, or edible fat-forming acids
Stannous chloride
Diacetyl
Monosodium glutamate
Monopotassium glutamate
Glutamic acid
Glutamic acid hydrochloride
Monoammonium glutamate
Zinc sulfate
Zinc gluconate
Sodium thiosulfate
Dilauryl thiodipropionate
Thiodipropionic acid
Calcium propionate
Bentonite
Carnauba wax
Sodium aluminosilicate
Tricalcium silicate
Vitamin A
Vitamin A acetate
Vitamin A palmitate
Vitamin D_2
Vitamin D_3
Zinc chloride
Zinc oxide
Zinc stearate
Aluminum calcium silicate
Calcium silicate
Magnesium silicate
Sodium calcium aluminosilicate, hydrated

This literature search is being expanded to include all of the GRAS substances for direct human food use included in § 121.101(d) and a number of substances possessing such GRAS status by virtue of a communication from the Food and Drug Administration. A complete list of these substances, and their scheduled coverage by Scientific Literature Reviews, is included in a notice published elsewhere in this issue of the FEDERAL REGISTER.

Each scientific literature search is designed to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) reported carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection methodology, and (13) processing. The results of this search are then incorporated in a Scientific Literature Review on each ingredient (or group of chemically similar ingredients).

Additional toxicological screening tests were conducted on 42 selected GRAS ingredients for mutagenisis and teratology. Teratological screening was conducted on all 42 ingredients in four mammalian species: Rat, mouse, hamster, and rabbit. Chick embryo tests were also conducted on 41 of those ingredients. The mutogenic test conducted on 40 of the ingredients, used the host mediated assay, the dominant lethal, and the cytogenic assay procedures. These studies were designed primarily to evaluate these relatively new toxicological screening tests, and an assessment of their value is not yet possible.

The Food and Drug Administration then contracted with the Federation of American Societies for Experimental Biology (FASEB) to conduct the initial evaluation of the Scientific Literature Reviews, the NAS production and consumption data, and the additional toxicological test data, and to provide a report on the safety of each individual ingredient. The Life Sciences Research Office of FASEB in turn appointed a Select Committee on GRAS Substances (SCOGS) which has been working since June 1972 to conduct this evaluation. Notices appear elsewhere in this issue of the FEDERAL REGISTER requesting nominations for additional qualified scientists to serve on this Select Committee, providing an opportunity to submit unpublished safety data and information on GRAS or prior-sanctioned direct human food ingredients to the organizations preparing the Scientific Literature Reviews, and providing an opportunity to present data, information, and views on the safety of these ingredients directly to the Select Committee for their consideration in the evaluation process.

To implement the review of GRAS and prior-sanctioned direct human food ingredients, the Commissioner of Food and Drugs has published in the FEDERAL REGISTER several regulations and notices. In announcing the review of GRAS food ingredients in the FEDERAL REGISTER of December 8, 1970 (35 FR 18632), the Commissioner proposed new criteria for determining GRAS status. These criteria were promulgated in final form in the FEDERAL REGISTER of June 25, 1971 (36 FR 12084).

A notice published in the FEDERAL REGISTER of October 23, 1971 (36 FR 20546) urged that all interested persons obtain and complete the survey questionnaire being used by the National Academy of Sciences to obtain broad representative information on the production and use of direct human food ingredients that have been listed in § 121.101 as GRAS or that were subject to a prior sanction. In additional to published GRAS substances and known prior-sanctioned substances, the NAS questionnaire also requested information on direct human food ingredients used on the basis of a conclusion that they are GRAS, but which are not published in § 121.101. Neither the Food and Drug Administration study nor the NAS survey includes indirect human food ingredients or animal food ingredients.

A procedure governing affirmation of GRAS status and determination of food additive status was promulgated in the FEDERAL REGISTER for December 2, 1972 (37 FR 25705). The same FEDERAL REGISTER notice promulgated a new Subpart H to govern the promulgation of interim food additive regulations. Subpart E was amended in the FEDERAL REGISTER for May 15, 1973 (38 FR 12737) to provide for publication of all prior sanctions for food ingredients, and to permit the addition of limitations where justified by new toxicological information.

The list of direct human food ingredients published as GRAS in § 121.101 includes 533 ingredients, 261 of which are flavors. The 272 non-flavor published GRAS ingredients will be covered in 120 Scientific Literature Reviews, all of which are completed, in progress, or planned for contract, as indicated elsewhere in this issue of the FEDERAL REGISTER.

The Food and Drug Administration has contracted with the Flavor and Extract Manufacturers Association to prepare similar Scientific Literature Reviews with respect to 276 flavor substances, listed elsewhere in this issue of the FEDERAL REGISTER. Scientific Literature Reviews will then be prepared on all remaining flavor substances, including those published as GRAS in § 121.101, those published in such food additive regulations as §§ 121.1163 and 121.1164, and those used on the conclusion that they are GRAS although they are not published in § 121.101.

The next priority matter will involve additional substances subject to food additive regulations and prior sanctions. A schedule and priorities for these have not yet been determined.

Upon receiving a Report from the FASEB Select Committee evaluating the safety of an ingredient, the Commissioner, after conducting his own evaluation, will publish in the FEDERAL REGISTER an appropriate proposal to affirm GRAS status, to publish a prior sanction, to establish an interim food additive regulation, to establish a permanent food additive regulation, or to eliminate food use of the ingredient. These proposals will be published pursuant to the procedural provisions contained in §§ 121.40, 121.41, and 121.2000. The Commissioner is proposing to establish new § 121.104 *Substances added directly to human food affirmed as generally recognized as safe (GRAS)*, § 121.105 *Substances in food-contact surfaces affirmed as generally recognized as safe (GRAS)*, and § 121.106 *Substances prohibited from use in food*, elsewhere in this issue of the FEDERAL REGISTER. Thus, each of these food ingredients will be proposed for inclusion in one of these three new sections, in Subpart D (direct human food additives), in Subpart E (prior sanctions), in Subpart F (indirect human food additives), or in Subpart H (interim human food additives).

Following publication of any such proposal, all interested persons will have an opportunity to submit written comments on the proposal. Where good cause

V 38-143 JUL 26 73 XUM

is shown, the Commissioner may order a public hearing at which an oral presentation of data, information, and views may be made. The final regulation will be final agency action from which appeal lies to the courts.

Section 121.101 is not limited to direct human food ingredients. Many of the substances listed in § 121.101 have been regarded as GRAS for indirect food ingredient use, in or on food-contact surfaces, and for use in pet food and animal feed. Accordingly, when an ingredient listed in § 121.101 is affirmed as GRAS for direct human food use, it will be retained in § 121.101, with the explanation that it has been affirmed as GRAS, and cross-referenced to the applicable paragraph in new § 121.104. When an ingredient is transferred to an interim food additive regulation, permanent food additive regulation, or prohibited status, for direct human use, a decision will be made as to whether the ingredient may remain as GRAS for uses other than direct human food use, or should be restricted or eliminated from such uses, and § 121.101 and other applicable regulations will be amended accordingly.

In the event that additional toxicological testing is required before the ingredient may be affirmed as GRAS or approved by a permanent food additive regulation, an interim food additive regulation will be proposed (unless there is a reasonable likelihood that a health hazard exists). Pursuant to § 121.4000, use of the ingredient must cease unless an interested person satisfies the Commissioner, in writing within 60 days following the effective date of the interim food additive regulation, that studies adequate and appropriate to resolve the questions raised about the ingredient have been undertaken. The Food and Drug Administration may itself undertake such studies, but this will occur only in very rare instances, if at all. As a general rule, the Food and Drug Administration intends to institute little or no testing for the purpose of providing data necessary to justify continued marketing of food ingredients, because of its conclusion that this is properly the function of private industry.

Many of the substances published as GRAS in § 121.101, or used on a determination that they are GRAS without publication in § 121.101, were approved by the United States Department of Agriculture for use in meat or poultry, or were approved by the Food and Drug Administration for use in various foods pursuant to correspondence, food standards, regulations, informal announcements, or in other ways, prior to 1958. Thus, many of these ingredients are subject to specific prior sanctions in addition to GRAS status. No comprehensive list of such prior sanctions exists. To the extent that one of these substances is affirmed as GRAS for all prior-sanctioned uses, the fact that it may also be subject to a prior sanction is largely of historical interest and has no regulatory significance. To the extent that one of these substances is not affirmed as GRAS for all prior-sanctioned uses, any restrictions or limitations imposed upon its use could in any event also be imposed on the prior-sanctioned uses under the adulteration provisions of the Act as provided in § 121.2000, published in the FEDERAL REGISTER of May 15, 1973 (38 FR 12738).

Accordingly, the Commissioner has concluded that regulations based upon the review of GRAS and prior-sanctioned direct human food ingredients will initially be proposed on the assumption that no prior sanction exists. Because prior-sanctioned status constitutes an exemption from section 409 of the Act, it should be construed narrowly, and the burden of coming forward with evidence of the sanction properly rests upon the person who asserts it. In the event that any person responds to a proposed regulation with proof of a valid prior sanction, a final regulation will be issued under Subpart E Substances for which prior sanctions have been granted, as well under any other applicable sections of the regulations. In this way, all possible uses of the ingredient will be fully covered. Any regulation promulgated pursuant to this review will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and failure to submit proof of an applicable prior sanction in response to any proposed regulation will also constitute a waiver of the right to assert such sanction at any later point in time. Any proposed regulation will also be construed as a proposal under Subpart E, in the event that a prior sanction is asserted in comments submitted on it. This procedure is necessary because of the unavailability of any comprehensive list of prior sanctions.

In the past, it has been customary practice for the Food and Drug Administration to issue advisory opinions that a substance is GRAS, or is subject to a prior sanction, or is not a food additive because it is used in or on food-contact surfaces and there is no detectable migration. The Commissioner has concluded that all such past correspondence is publicly available, except that trade secrets will be retained as confidential, and that all future opinions relating to GRAS or prior-sanctioned status will be issued in the form of FEDERAL REGISTER notices proposing appropriate new regulations. Opinions solely with respect to no-migration status of food-contact ingredients will continue to be handled by letter rather than by regulation because of their limited applicability, and all such correspondence will be publicly available, except that trade secrets will be retained as confidential.

The Commissioner recognizes that the data and information obtained in the process of conducting this review of direct human food ingredients is of broad interest to the public. Accordingly, this information is available for public disclosure in the following ways.

1. The report of the National Academy of Sciences on "A Comprehensive Survey of Industry on the Use of Food Chemicals Generally Recognized As Safe" (September 1972) may be purchased from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22151. This report is now available.

2. A series of computer print-outs of the combined data from the NAS, USDA, and MRCA Surveys may be purchased from NTIS. These print-outs are now available and are explained in the NAS report.

3. The reports of the 1965 USDA Survey on "Food Consumption of Households in the United States" may be purchased separately from Superintendent of Documents, U.S. Government Printing Office, Wash., D.C. 20402, order number HFCS 1965–66, Report No. 1. These documents are now available.

4. Each Scientific Literature Review may be purchased from NTIS as it becomes available. The following Scientific Literature Reviews are now available:

Review title	Ordering No.	Printed copy price
Gum Arabic (Acacia)	PB-221-201	$4.85
Butylated Hydroxytoluene	PB-221-202	4.50
Carob Bean Gum	PB-221-203	3.00
Gum Tragacanth	PB-221-204	3.00
Sterculia	PB-221-205	3.00
Carrageenan	PB-221-206	4.50
Propyl Gallate	PB-221-207	3.75
Benzoates	PB-221-208	5.45
Parabens	PB-221-209	3.75
Sorbitol	PB-221-210	4.85
Mannitol	PB-221-211	4.85
Oil of Rue	PB-221-212	3.00
Gum Ghatti	PB-221-213	3.00
Zinc Salts	PB-221-214	5.45
Oil of Mustard	PB-221-215	4.50
Guar Gum	PB-221-216	3.75
Sulfiting Agents	PB-221-217	6.00
Caramel	PB-221-218	3.75
Oil of Garlic	PB-221-219	3.75
Nitrates-Nitrites	PB-221-220	9.00
Oil of Clove	PB-221-221	3.75
Oil of Nutmeg	PB-221-222	3.00
Dill	PB-221-223	3.00
Phosphates	PB-221-224	6.00
Agar-Agar	PB-221-225	3.75
Alginates	PB-221-226	4.50
Glycerine and Glycerides	PB-221-227	6.75
Cellulose	PB-221-228	4.85
Caprylic Acid	PB-221-229	4.50
Glycyrrhiza	PB-221-230	3.75
Carbonates	PB-221-231	5.45
Stannous Chloride	PB-221-232	4.50
Propylene Glycol and Derivatives	PB-221-233	4.50
Sulfates	PB-221-234	4.85
Ammonium Ion	PB-221-235	5.45
Iron and Iron Salts Used in Foods	PB-221-236	5.45
Tocopherols	PB-221-237	6.75

Each Scientific Literature Review may be purchased in microfiche form for $.95 with the same ordering numbers listed above.

5. Copies of each Scientific Literature Review will be placed in the Library of Congress as they become available, under the title, "Scientific Literature Reviews on GRAS Food Ingredients," L.C. Card No. 73–600105.

6. Each report to the Commissioner from the FASEB Select Committee may be purchased from NTIS as it becomes available. The following reports are now available:

Carob Bean (Locust Bean) Gum
Parabens
Sorbitol
Mannitol

7. A copy of each of the reports of the following toxicological screening tests may be purchased from NTIS:

Ingredient	Teratology	Mutagenesis
Ammoniated Glycyrrhizin	X	
Amaranth (Red No. 2)	X	X
Sodium Saccharin	X	
Calcium Saccharin	X	
Saccharin (Insoluble)	X	X
Ammonium Saccharin	X	
Sodium Nitrate	X	X
Potassium Nitrate	X

No final chick embryo test reports have been received, to date.
X—Tested In Rats, Mice, Hamsters and Rabbits.
X Y—Tested In Rats, Mice and Hamsters.

8. A single copy of all of the above data and information is available for review in the Office of the Hearing Clerk, Food and Drug Administration, Rm. 6–88, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday. Additional information relating to these matters will also be placed on display at this office as they become available.

Dated: July 19, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

PART I

(Part II begins on page 20159)

NEW LOCATION OF FEDERAL REGISTER OFFICE

Effective Monday, July 30, 1973, the Office of the Federal Register will be located in Room 8401, 1100 L St., NW., Washington, D.C. Documents may be delivered or inspected between the hours of 8:45 a.m. and 5:15 p.m., Monday through Friday, except for Federal holidays. The mail address will remain unchanged: Office of the Federal Register, National Archives and Records Service, Washington, DC 20408.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ENVIRONMENT—
Proposed EPA noise emission standards for interstate motor carriers; comments by 9–10–73 20102
EPA notice of availability of a Noise Criteria Document 20119

FOOD LABELING—FDA clarifies information rule on cholesterol, fat, and fatty acid composition; effective 7–27–73 20071

ANTIBIOTICS—FDA concludes study on sulfonamide-neomycin sulfate combination 20115

NEW DRUGS—FDA reclassifies certain effectiveness indications for chlorpromazine preparations 20114

WEAPONS ON AIRCRAFT—FAA proposed rule on carriage of deadly weapons by law enforcement personnel; comments by 9–25–73 20098

NUCLEAR FUEL SUPPLY—FPC proposes new form for collection of data from utility companies; comments by 9–4–73 20107

NATURAL GAS COMPANIES—FPC rules on filing of 12 month cost of service test 20119

COAL MINERS—HEW regulations on second round X-ray examinations; effective 7–27–73 20076

COST ACCOUNTING STANDARDS BOARD—Revised proposal on disclosure statements from defense contractors; comments by 8–31–73 20101

OCCUPATIONAL SAFETY AND HEALTH—
OSHA revised emergency temporary standards on certain carcinogens; effective 7–30–73 20074
OSHA notice of Rhode Island Developmental Plan 20130
AEC guide for maintaining low radiation exposure levels 20116

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

BUREAU OF CUSTOMS—Increased numbers of copies of documents to be filed with applications for trademarks, trade names, and copyrights. 16850; 6–27–73

federal register

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

COTTON—CCC amends loan program for 1973 crop..... 20090

HAZARDOUS MATERIALS—DOT and Coast guard amendments to transportation regulations (2 documents).. 20082, 20083

PUBLIC LANDS—Interior Department announces opening in California; effective 8–27–73..... 20111

TEXTILE IMPORTS—CITA adjusts levels of products from Korea, Hungary, and Macao (4 documents)..... 20116–20118

STUDENT LOANS—HEW regulations for special allowance at rate of 1¾ percent for quarter ending June 30, 1973; effective 7–27–73..... 20071

ANTIDUMPING—Treasury Department notice of withholding of appraisement on primary lead metal from Canada; comments by 8–27–73 20111

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce

Section 213.3314 is amended to reflect the following title change: from one Private Secretary to the Director to one Administrative Officer, Bureau of Standards.

Effective on July 27, 1973, paragraph (f) (1) of § 213.3314 is amended as set out below.

§ 213.3314 Department of Commerce.

• • • • • •

(f) *National Bureau of Standards.* • • •

(1) Administrative Officer.

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73–15469 Filed 7–26–73;8:45 am]

PART 213—EXCEPTED SERVICE

Action

Section 213.3359 is amended to show that one position of Deputy Associate Director for Domestic and Anti-Poverty Operations is expected under Schedule C.

Effective on July 27, 1973, § 213.3359 (l) is added as set out below.

§ 213.3359 ACTION.

• • • • • •

(l) One Deputy Associate Director for Domestic and Anti-Poverty Operations.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73–15468 Filed 7–26–73;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Transportation

Section 213.3394 is amended to show that one position of Staff Assistant to the Under Secretary is excepted under Schedule C.

Effective on July 27, 1973, § 213.3394 (a) (43) is added as set out below.

§ 213.3394 Department of Transportation.

(a) *Office of the Secretary.* • • •

(43) One Staff Assistant to the Under Secretary.

• • • • • •

(5 U.S.C. secs 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73–15470 Filed 7–26–73;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Countries Declared To Be Free of Hog Cholera, Rinderpest and Foot-and-Mouth Disease

Statement of considerations. The purpose of these amendments is to add Sweden to the list of countries determined to be free of hog cholera and from which swine, pork and pork products may be imported into the United states without complying with §§ 94.9 and 94.10 but subject to other applicable restrictions.

On January 30, 1973, an amendment to the regulations in Part 94 (9 CFR) was published in the FEDERAL REGISTER (38 FR 2751) which set forth in § 94.1(a)(2) the countries declared to be free of both rinderpest and foot-and-mouth disease. The Caribbean Islands of Barbados and Trinidad and Tobago should have appeared in said listing. Therefore, this action merely corrects said listing to properly include the Caribbean Islands of Barbados and Trinidad and Tobago.

Pursuant to section 2 of the act of February 2, 1903, as amended, section 306 of the act of June 17, 1930, as amended, and sections 2, 3, 4, and 11 of the act of July 2, 1962 (19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f), Part 94, Title 9, Code of Federal Regulations, is hereby amended as follows:

1. In § 94.1, paragraph (a)(2) is amended by adding thereto the names of the countries Barbados after the reference to "Bahama Islands" and Trinidad and Tobago after the reference to "Sweden", respectively.

2. Sections 94.9(a) and 94.10 are amended by adding thereto the name of the country Sweden after the reference to "New Zealand" wherever it appears in these sections.

(Sec. 306, 46 Stat. 689, as amended; sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132; 19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendments shall become effective July 24, 1973.

The amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and dissemination of the contagion of hog cholera, and must be made effective immediately to be of maximum benefit to affected persons. The amendments also correct the listing of countries declared to be free of rinderpest and foot-and-mouth disease.

It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause if found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of July 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73–15509 Filed 7–26–73;8:45 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Applicability of Penalty for Early Withdrawals

The Board of Governors, pursuant to its authority under section 19 of the Federal Reserve Act to prescribe rules governing the payment of interest on deposits, has amended its Regulation Q (12 CFR Part 217) in order to clarify how the penalty for early withdrawals,

V 38-144 JUL 27 73 XUM

adopted by the Board on July 5, 1973, applies to various types of time deposit contracts.

There was no notice or public participation with respect to this amendment since such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2(e) of the Board's rules of procedure (12 CFR 262.2(e)). The effective date was not deferred for the 30-day period referred to in section 553(d) of Title 5, United States Code, because this amendment recognizes an exemption. 5 U.S.C. section 553(d)(1).

§ 217.4 [Amended]

Effective immediately, the first sentence of § 217.4(d) of the Board's Regulation Q (12 CFR Part 217) is amended by adding a new footnote 6a at the end thereof to read as follows:

6a. The provisions of this paragraph apply to all time deposit contracts entered into after July 5, 1973 and to all existing time deposit contracts that are extended or renewed (whether by automatic renewal or otherwise) after such date, and to all time deposit contracts that are amended after such date so as to increase the rate of interest paid. All contracts not subject to the provisions of this paragraph shall be subject to the restrictions of § 217.4(d) in effect prior to July 5, 1973, which permitted payment of a time deposit before maturity only in an emergency where necessary to prevent great hardship to the depositor, and which required the forfeiture of accrued and unpaid interest for a period of not less than 3 months on the amount withdrawn if an amount equal to the amount withdrawn had been on deposit for 3 months or longer, and the forfeiture of all accrued and unpaid interest on the amount withdrawn if an amount equal to the amount withdrawn had been on deposit less than 3 months.

* * * * *

By order of the Board of Governors, July 24, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-15539 Filed 7-26-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 73-WE-14-AD; Amdt. 39-1694]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-55 Series Helicopters

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted July 17, 1973, and made effective immediately by telegram dated July 17, 1973, to all known United States operators or owners of Sikorsky S-55 series helicopters incorporating AiResearch TSE331-3U-303N engines installed in accordance with Supplemental Type Certificate No. SH125WE or SH127WE (Aviation Specialties, Inc.). The AD, adopted on July 17, 1973, requires the installation of a fuel bypass system and incorporation of an appropriate FAA-approved helicopter flight manual revision, with provision for equivalent modifications and revisions approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately to all known operators or owners of Sikorsky S-55 series helicopters with AiResearch TSE331-3U-303N engines installed in accordance with Supplemental Type Certificate No. SH125WE or SH127WE. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons:

Pursuant to the authority of the Federal Aviation Act of 1958, as amended, delegated to me by the Administrator, the following airworthiness directive applicable to operators of Sikorsky S-55 series helicopters modified to incorporate AiResearch TSE331-3U-303N engines installed in accordance with Supplemental Type Certificate No. SH125WE or SH127WE is effective immediately upon receipt of this telegram. This directive is necessary because of the possibility of engine overspeed and resultant third stage turbine failure. Except as provided by FAR 21.197, the following is required prior to further flight:

(a) Install a fuel bypass system in accordance with AiResearch Service Bulletin No. TSE331-73-5004 and Aviation Specialties Service Bulletin No. AS55-01-1, both dated July 16, 1973, or later FAA-Approved revisions thereto.

(b) Incorporate the FAA-Approved Aviation Specialties Rotorcraft Flight Manual Revision 3 dated July 17, 1973.

(c) Equivalent modifications and rotorcraft flight manual revisions may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

This amendment is effective July 31, 1973, for all persons except those to whom it was made effective immediately by telegram dated July 17, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Los Angeles, California on July 19, 1973.

ARVIN O. BASNIGHT, *Director, FAA Western Region.*

[FR Doc.73-15454 Filed 7-26-73;8:45 am]

[Airspace Docket No. 73-SO-51]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation regulations is to alter Restricted Area, R-2916 Cudjoe Key, Fla., by changing its using agency and by designating a controlling agency for it. Designation of a controlling agency will permit joint use of the restricted area.

The Department of the Air Force has agreed to the alterations. The change in using agency will more clearly identify the organization for whom the restricted area is designated and the joint-use provision associated with designation of a controlling agency will permit more efficient use of the involved airspace by allowing others to use it when it is not required by the using agency.

This amendment reduces a restriction upon the public and it is a minor amendment upon which the public would have no particular reason to comment. Therefore, notice and public procedure thereon are deemed unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. October 11, 1973, as hereinafter set forth.

In § 73.29 (38 FR 640) the description of Restricted Area R-2916 is amended to read as follows:

R-2916 CUDJOE KEY, FLA.

Boundaries. A circular area 4 statute miles in diameter centered at latitude 24°42'01" N., longitude 81°30'30"W.

Designated altitudes. Surface to 14,000 feet MSL.

Time of designation. Continuous.

Controlling agency. Federal Aviation Administration, Miami ARTC Center.

Using agency. USAF, 20th Air Division.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 20, 1973.

CHARLES H. NEWPOL, *Acting Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-15455 Filed 7-26-73;8:45 am]

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER E—REGULATIONS UNDER THE NATURAL GAS ACT

[Docket No. R-464: Order No. 488]

PART 154—RATE SCHEDULES AND TARIFFS

Filing of Natural Gas Tariff Changes

JULY 17, 1973.

On December 14, 1972, we noticed (37 FR 28195 December 21, 1972) proposed amendments to several sections of Part 154 of the Regulations under the Natural Gas Act to require that a natural gas company file a cost of service for a test period consisting of 12 consecutive months of most recent actual experience, adjusted for changes in revenues and costs which will become effective within 9 months after the last month of actual experience, but in no event shall such test period extend more than 9 months beyond the date of filing.

In the notice we expressed our intent that this rulemaking would facilitate the use of a year-end rate base adjusted to reflect the conditions that exist at the end of the nine month adjustment period. Under our proposal changes in operation and maintenance expenses, return, depreciation and taxes would be adjusted to equivalent annual levels at the end of the nine month period.

Our regulations presently require that a natural gas company, in operation for 12 months at the time of filing for an increase in rates, file a cost of service for a test period consisting of 12 consecutive months of most recent actual experience, adjusted for changes in revenues and costs which are known and measurable with reasonable accuracy and which will become effective within nine months after the last month of actual experience, but in no event shall such test period extend more than 6 months beyond the date of filing.

Interested persons were invited to submit, on or before February 28, 1973,[1] comments or suggestions in writing regarding the proposed amendments and to indicate whether they request a conference.

14 respondents (Appendix A) filed comments to the Commission's Notice of Proposed Rulemaking in Docket No. R-464 consisting of eight natural gas pipelines, one electric company, one gas distribution company, the Independent Natural Gas Association of America, the Rhode Island Consumer's Council, an accountant, and an accounting firm. Only two respondents objected to the proposal set forth in the rulemaking. One objecting respondent, Laclede Gas Company (Laclede), complained that the proposed rule would enable rate increase applicants to base their rate increase requests on too much estimation and speculation. These estimates, Laclede maintains, would be difficult to test and there would be no way to determine whether the estimates were accurate.

Contrary to Laclede's assertions, the basis and accuracy of cost estimates will be tested by the full breadth of due process standards including discovery, presentation of evidence, cross-examination, briefing, initial decision, and Commission Opinion. It is our belief that the test period to be adopted herein will be reasonably representative of sales, plant, depreciation and other costs when the rates go into effect and will provide a test period more suitable for the determination of rates for future use than under present methods. The regulatory ability to set rates based on the most recent costs available will yield greater rate stability and less frequent rate increase requests which will reduce the attendant regulatory costs to ratepayers and the public.

The Rhode Island Consumer's Council also opposes the rulemaking because Rhode Island does not "subscribe to the concept of year-end rate base" and believes the proposal would predetermine certain substantive evidentiary issues. We disagree with the Rhode Island Council's position on year-end rate base inasmuchas we believe that it provides the most appropriate means of setting rates that reflect the costs incurred during the period the rates are in effect. Cf. Opinion No. 635, El Paso Natural Gas Company, wherein we adopted the concept of the year-end rate base.

The remaining respondents generally approved of the rulemaking while offering certain limited objections and alternate proposals.

INGAA, whose suggestions were joined by seven of its members,[2] maintains that the extension of the period of adjustment, for changes in revenue and costs which will become effective from six to nine months, will have little significant benefit.

INGAA and Northern contend that consistent with the rulemaking proposal, § 154.63(e)(2)(i) of the regulations under the Natural Gas Act should redefine test period. Northern proposed the following definition:

* * * but in no event shall such test period extend more than nine months beyond date of filing; and the test period rate base shall be the accumulated balances at the end of the base period brought up to the end of the adjustment period: Provided, * * * but this shall not preclude the filing company from including items which, on the basis of existing fact, it can show will be experienced or from annualizing changes in revenues or costs occuring during the base period or during the nine-month adjustment period.

We will amend § 154.63(e)(2)(i) to reflect the limitation of test period to nine months beyond the date of filing. With respect to the suggestion that the above section prescribe the test period rate base, we believe that the schedules amended and added herein will provide for the development of a year-end rate base in the same manner as suggested by Northern. Accordingly, Northern's proposed redefinition of "that period" is unnecessary.

Northern points out that proposed Schedule C-2 refers to major plant additions and suggests that Schedule C-3 be changed to include all plant additions by amending it as follows:

In adjoining columns there should be shown the effect of the test period adjustments on the balance at the end of the base period to arrive at an adjusted balance as of the end of the nine-month adjustment period.

We concur with this suggestion and shall adopt it.

Also pointed out by INGAA, United and Northern is that the proposed Schedule C-3—Plant and Depreciation Schedules—does not contain the proviso which protected pipeline companies without detailed plant accounts. It is proposed that such proviso be retained. We agree and shall add the proviso to proposed Schedule C-3.

Tennessee suggests that because of the proposed change from "last five calendar years" to "last calendar year" in Schedule C-4 the language "summarizing the following by years with respect to" should be changed so that it reads "summarizing the following with respect to". We agree and adopt the suggestion.

Northern also questions the adding of proposed footnote (3) to the end of § 154.63 covering Statement F(1) because proposed footnote (2) to Statement F(2) can be amended to include the data desired by proposed footnote (3). We concur in this suggestion and shall change the rulemaking accordingly. Proposed footnote (3) will be deleted.

Northern maintains that the proposed additions to Statements F(3) and F(4), requiring the weighted average cost of capital to be computed for each issue of debt and preferred stock both as of the end of the twelve months of actual experience and as of the nine month adjustment period, will cause confusion.

We disagree, the purpose of this requirement is to have data on which to compare changes or trends in cost of capital between different periods of time and thus these statements will be retained.

INGAA objects to proposed new Statements F(3)(9) and F(4)(1) which relate to treatment of discounts on reacquired securities as being premature. We believe that Statement F(3)(9) information is necessary to facilitate the processing of rate cases. The gains and losses should be computed according to the method set forth in Manufacturers Light & Heat Company, Opinion No. 583. With respect to Statement F(4)(1), we will delete it since companies are required to write off any discount on reacquired preferred stock against paid in capital.

Statement F(5)-5 requires the filing of "Times Interest Earned" before and after taxes produced by the claimed rate of return and include the method of computation. One respondent suggests that since there is no universally agreed upon way of computing "Times Interest Earned" we should prescribe in Statement F(5)-5 some method of computation. We believe it unnecessary at this time to provide an inflexible formula for the computation of times interest earned but rather will allow applicants to present their own computation, the reasonableness of which will be tested on an individual applicant basis.

INGAA opposes proposed Statement F(6) requiring filing of a statement of source and application of funds for the base period and nine-month adjustment period. Upon further review of Statement F(6) we conclude that the data requested therein is necessary as a filing requirement.

INGAA and others expressed strong opposition to the inclusion of revised Statement O—Description of Company Operations particularly Sub-paragraphs 2, 3, and 4, which would require the

[1] The notice originally prescribed a comment date of January 29, 1973, which upon Motion of The Independent Gas Association of America (INGA) requesting an extension of the filing date until February 12, 1973, was extended until February 28, 1973, by a notice issued January 19, 1973.

[2] Colorado Interstate Gas Corporation (CIG), Columbia Gas Transmission Company (Columbia), El Paso Natural Gas Company (El Paso), Northern Natural Gas Company (Northern), Southern Natural Gas Company (Southern), Tennessee Gas Pipeline Company (Tennessee), United Gas Pipeline Company (United).

V 38 1 144 JUL 27 73 XUM

filing of a complete rate history, history of major expansions and abandonments, and a digest of contracts with individual producers respectively, as "too burdensome, unrealistic and of truly doubtful value to either the Commission or its Staff".

We concur in part with INGAA with respect to the filing requirements of revised Statement O. We believe it essential for the Commission and Staff in reviewing section 4(e) rate increases to have each applicant's rate history in order that each rate increase request may be viewed in its proper perspective. We therefore will retain subparagraph 2 of Statement O. We recognize that the compilation of the rate history may be difficult to prepare initially; however, once it is prepared it will only need to be updated. Recognizing the merits of INGAA's argument, we will limit proposed subparagraph (3) to the filing of the last five years of expansion, abandonment, and certificate history. With respect to proposed subparagraph (4), it is particularly important during this period of limited gas supply for the Commission to have as complete information as is reasonably possible on the ability of pipeline companies to meet their market requirements. In estimating test period sales and revenues, consideration must be given to the maximum capability of the various sources of gas supply as well as the flexibility permitted by the supplier contracts. We recognize, however, that certain sources of supply have very little effect upon company operations and the reporting of contract information thereon would impose a hardship without any appreciable benefit. We will therefore require the reporting of information on (a) contract minimum and maximum take obligations, (b) estimated peak day deliverability during the test period, (c) contemplated "swings" between sources of supply and (d) the term of the contract, but such requirement will be limited to contracts accounting for 1.0 billion cubic feet annually.

INGAA requests a conference to further discuss the issues in this rulemaking. In light of the comprehensiveness of the written comments on the proposal we do not believe a conference is required.

In the notice of this rulemaking we also proposed to add to our Regulations under the Natural Gas Act, § 154.28 to require each natural gas company filing any tariff change with the Commission to include in its filing a notice of the proposed change, suitable for publication in the FEDERAL REGISTER. This notice is to briefly summarize the facts contained in the filing in such a way as to acquaint the public with its scope and purpose. We note that several parties have already included such notice format with major rate cases but have not provided it for other tariff changes. It is our intent that any change to a tariff on file with this Commission shall include the type of notice described above.

We believe that this amendment with respect to noticing will facilitate processing of tariff change filings.

The Commission finds:

(1) The notice and opportunity to participate in this rulemaking proceeding with respect to matters presently before this Commission through the submission, in writing, of data, views, comments, and suggestions in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments to Part 154 of the Regulations under the Natural Gas Act herein prescribed, are necessary and appropriate for the administration of the Natural Gas Act.

(3) Since the amendments prescribed herein, which were not included in the notice of this proceeding, are of a minor nature and consistent with the purpose of the Proposed Rulemaking, further compliance with the notice provision of 5 U.S.C. 553 is unnecessary.

(4) Since the amendments proposed herein make the reporting and filing process more complete and informative, good cause exists for making these amendments effective upon issuance of this order.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 8, 10, and 16 of the Natural Gas Act (52 Stat. 825, 826, 830; 15 U.S.C. 717q, 717i, 717o), orders:

a. Section 154.63(e)(2)(i) is amended by redefining test year to read as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.

• • • • • •

(e) • • •

(2) *Base and test periods.*

If the natural gas company has been in operation for 12 months at the time of the filing, the Statements A to M, inclusive, and O and P or, L through N inclusive, as appropriate, and supporting schedules, shall be based upon a test period which shall consist of a base period of 12 consecutive months of most recently available actual experience, adjusted for changes in revenues and costs which are known and are measurable with reasonable accuracy at the time of the filing, and which will become effective within nine months after the last month of available actual experience utilized in the filing, but in no event shall such test period extend more than nine months beyond the date of filing; • • •

§ 154.63 [Amended]

b. Section 154.63 *Changes in a Tariff, Executed Service Agreement or Part Thereof* of the regulations under the Natural Gas Act is amended as follows:

Present	*Amendments*
Paragraph (c)(1) and (2): Item by reference for major rate increase.	Change: "Chief, Pipeline Division" to "Chief, Pipeline and Producer Rate Division."
Paragraph (e)(4): Working papers and supporting data.	Change: "Pipeline Division" to "Pipeline and Producer Rate Division."
Schedule C-2 showing major plant addition and retirement projects for the test period, brief descriptions, approximate dates of commercial operation or retirement from service, and cost.	Schedule C-2 showing major plant addition and retirement projects during the nine months after the last month of the base period, brief descriptions, approximate dates of operation or retirement from service and costs classified by functions.
Schedule C-3, which is to be part of the working papers showing twelve average monthly book balances, during the 12 months in the base period, for each detailed plant account, each subtotal representing functional classifications and total plant, the sum of such 12 average balances shall be divided by 12; and the effect of proposed adjustments on the average balances: Provided, however, that to the extent plant costs are not available by detailed plant accounts they may be shown by functional classifications.	Schedule C-3 which is to be part of the working papers showing monthly book balances, for each of the 12 months in the base period by functional classification and detailed by plant account. Provided, however, that to the extent plant costs are not available by detailed plant accounts they may be shown by functional classifications. In adjoining columns there shall be shown the effect of the test period adjustments shown in Schedule C-2 on the balance at the end of the base period to arrive at an adjusted balance as of the end of the nine-month adjustment period.
Schedule C-4	Change: "The last five calendar years" to "the last calendar year" and delete "the years "from "summarizing the following by years with respect to".

Present	*Amendments*
Schedule C-15, which is to be part of the working papers, setting forth any operating units or systems acquired for which Commission approval of the final accounting has not been obtained. For such acquisitions submit summary analysis of the property acquired, proposed journal entries to record the acquisition and the proposed disposition of any difference between cost of acquisition and net original cost.	Schedule C-15, which is to be part of the working papers, setting forth any operating units or systems acquired for which Commission approval of the final accounting has not been obtained, the proposed journal entries to record the acquisition, and the proposed disposition of any difference between cost of acquisition and net original cost, only if there is a significant change in such amounts since the end of the year reported in the company's last FPC Form No. 2.
Statement D—Accumulated provisions for depreciation, depletion, amortization, and abandonment. This statement shall show the accumulated provisions for depreciation, amortization, depletion, and abandonment (Accounts 108, 109, 110, 111.1, 111.2, 111.3, 112, 113.1, 113.2), as of the beginning of the 12 months of actual experience, the book additions and reductions during the 12 months, together with the balances at the end of the 12-month period. In adjoining columns, there should be shown the adjustments, if any, to the book amounts and the total. All adjustments shall be clearly and fully explained in the supporting material submitted.	Statement D—Accumulated provisions for depreciation, depletion, amortization, and abandonment. This statement shall show the accumulated provisions for depreciation, amortization, depletion, and abandonment (Accounts 108 [detailed by functional plant classification], 111), as of the beginning of the 12 months of actual experience, the book additions and reductions during the 12 months, together with the balances at the end of the 12-month period. In adjoining columns there shall be shown adjustments to these ending book balances and the total adjusted balances.
Schedule D-1, which is to be part of the working papers, showing twelve average monthly book balances, during the twelve months in the base period, for each account and functional plant classification, the sum of such 12 average balances shall be divided by 12; and the effect of proposed adjustments on the average balances.	Schedule D-1, which is to be part of the working papers showing monthly book balances, for each of the 12 months in the base period by functional plant classification. In adjoining columns there shall be shown the effect of the adjustments shown in Schedule D on the balances at the end of the base period to arrive at adjusted balances as of the end of the nine-month adjustment period.
Statement F—Working Capital	
Schedule C-5 showing in respect of Accounts 106 and 107, at the beginning and end, respectively, of the 12 months of actual experience a list of uncompleted work orders (small items grouped) claimed in the rate base, giving the work order number, description and amount of each, and the amounts of each type of undistributed construction overheads. As part of the working papers include: a main-line map showing all major projects completed during the base period, with a key system indicating major work orders included in each project and reference to FPC certificate numbers; a list of principal projects certificated by FPC (including temporary certificates for the last five calendar years, ending during the 12 months of actual experience), setting forth the actual or estimated cost of the facility and indicating the total increase in contract demand and annual volumes associated with each major certificate.	Schedule C-5 showing in respect of Accounts 106 and 107, at the end of the 12 months of actual experience a list of uncompleted work orders (small items grouped) claimed in the rate base, giving the work order number, description and amount of each and the amounts of each type of undistributed construction overheads.
Schedule C-10, which is to be part of the working papers, giving full details including docket number of any acquisitions of gas in place, other than acquisition of leasehold interests, for the last five calendar years, ending during the twelve months of actual experience.	Schedule C-10 which is to be part of the working papers, giving full details including docket number of any acquisitions of gas in place, other than acquisition of leasehold interests for the calendar years since the last rate filing, but not to exceed 5 years.
Schedule C-12, which is to be part of the working papers, and may be cross-referenced if such material is in the company's FPC Form No. 2, complete statement of methods and procedures followed in capitalizing interest during construction and other construction overheads, including any policy changes, effective dates and reasons therefor for the last five calendar years, ending during the twelve months of actual experience.	Schedule C-12, which is to be part of the working papers, a complete statement of methods and procedures followed in capitalizing interest during construction and other construction overheads, only if a change in such methods and procedures has been made since the end of the year reported in the company's last FPC Form No. 2.
Schedule C-13, which is to be part of the working papers, and may be cross-referenced if such material is in the company's FPC Form No. 2, showing any significant changes in intangible plant for the last five calendar years, ending during the twelve months of actual experience.	Schedule C-13, which is to be part of the working papers showing any significant changes in intangible plant since the end of the year reported in the company's last FPC Form No. 2.
Schedule C-14, which is to be part of the working papers, setting forth the cost of plant in service and description thereof carried on the company's books as gas utility plant which was not being used in rendering gas service.	Schedule C-14, which is to be part of the working papers, setting forth the cost of plant in service and description thereof carried on the company's books as gas utility plant which was not being used in rendering gas service, only if there is a significant change in such amounts since the end of the year reported in the company's last FPC Form No. 2. Delete entire Schedule.

Present	*Amendments*
Statement O—Description of Company Operations. A description of the company's area and diversity of operations including miles of pipe and compressor stations operated and breakdown of sales as among field and transmission and jurisdictional and nonjurisdictional. A concise statement of the last rate case of applicant with reference to FPC docket numbers and reference to FPC decisions, orders and rate schedules applicable to applicant.	Statement O—Description of Company Operations. A description of the company's area and diversity of operations including the following: (1) A detailed system map. (2) A complete rate history showing filing and rate levels since the beginning of the company with a brief description of each filing. (3) A detailed history of each major expansion, (new service) and major abandonment certificate filing for the last 5 years of the company along with a brief description of each filing. (4) A digest of contractual provisions with individual producer suppliers who deliver in excess of 1 Bcf annually relative to volumes (minimum and maximum obligations) and term, by contract. Digest should include estimated peak day deliverability for reserves dedicated under each contract as well as contemplated "swings" between sources of supply. (5) A detailed description of how the company designs and operates its systems, including design temperature or temperatures and the effect of conjunctive billing on design consideration.

Present	*Amendments*
New Statement	Statement F(3)(g)—If the Company has acquired at a discount or premium, some part of the outstanding debt which could be used in meeting sinking fund requirements, or for other reasons, it shall show the annual amortization of the discount or premium, for each series of debt from the date of reacquisition, over the remaining life of the debt being retired and separately show the total discount and premium, as a result of such amortization, applicable to the test period. Statement F(4)—After "12 months actual experience" add "and as of the end of the nine-month period".
New Schedule of Statement F(5)-5	Schedule F(5)-5—Show the "Times Interest Earned," before and after taxes, produced by the claimed rate of return and disclose the method of computation.
Schedule F(6)—Submit a Statement of Changes in Financial Position for the base period consisting of the 12 months of actual experience utilized in the test year.	Delete sentence, "If any of such prices are effective subject to refund, there shall be shown, by contract and the Commission docket number, for the base period, the rate per Mcf, and the amount collected subject to refund." Delete after producing area, "but with a statement of the extent to which price effective subject to refund are included." Delete entire last paragraph, "If the company records any amount on its books in a given month during the 12 months of actual experience which apply to gas purchases for a previous month or other period, a schedule indicating month and amount of payment made and distribution of payment and volumes to months to which applicable shall be submitted."
Schedule H(1)-3	Delete "The latter representing 52 percent of the excess of liberalized description and accelerated amortization of emergency facilities, if any, claimed under Sections 167 and 168 of the Internal Revenue Code, respectively, over straight-line depreciation allowable for tax purposes" from the statement.
Schedule H(3)—Income Taxes	Schedule H(3)-6—Accumulated deferred income taxes. This statement shall show monthly book balances of accumulated deferred income taxes for each of the 12 months during the base period. In adjoining columns there shall be shown additions and reductions for the nine months subsequent to the base period balance and the total adjusted balance.
New Statement	

In addition the Commission is adding to its regulations under the Natural Gas Act, § 154.28 which would require each natural gas company filing a tariff change with the Commission to include in its filing a notice of the proposed change, suitable for publication in the FEDERAL REGISTER, which will briefly summarize the facts contained in the filing in such a way as to aquaint the public with its scope and purpose. The new section is as follows:

§ 154.28 Form of notice for Federal Register.

The company shall file a form of notice suitable for publication in the FEDERAL REGISTER which shall be in the following form:

UNITED STATES OF AMERICA
FEDERAL POWER COMMISSION

Name of Company) Docket No.

NOTICE OF PROPOSED CHANGES IN FPC GAS TARIFF

Take notice that (name of company), on (date), tendered for filing proposed changes in its FPC Gas Tariff, Volume No. (number).

[The following language in the first paragraph applies only to increased rate filings.] The proposed changes would increase revenues from jurisdictional sales and service by (dollar amount) based on the 12 month period ending (date), as adjusted. [If changes other than increased rates and charges are proposed, the company shall state concisely the nature of these changes.]

[The company shall briefly describe the reasons for the proposed changes in the second paragraph.]

Copies of the filing were served upon the company's jurisdictional customers (other parties the company served, *inter alia*, state regulatory commissions, other government agencies, etc.).

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before ———. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants

parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Clarification of Labeling of Foods With Information on Cholesterol and Fat and Fatty Acid Composition

In the FEDERAL REGISTER of March 14, 1973 (38 FR 6961) the Commissioner of Food and Drugs promulgated a new § 1.18 *Labeling of foods in relation to fat, fatty acid, and cholesterol content.*

Paragraph (h) of the new § 1.18 provides that "Any label or labeling containing a statement on cholesterol and fatty acid content not in conformity with this section shall be deemed to be misbranded under sections 201(n) and 403(a) of the act." Several manufacturers have indicated that this language is ambiguous and they are uncertain as to the propriety of including information concerning cholesterol or fat and fatty acids other than that expressly provided for in 21 CFR 1.18.

It was the intent of the Commissioner that the only information concerning cholesterol, fat or fatty acids which could appear on the label would be that information specifically authorized by 21 CFR 1.18.

To clarify this issue the Commissioner has concluded that 21 CFR 1.18 should be revised to state clearly that the only statements relating to cholesterol, fat, or fatty acids which may be made are those expressly permitted by that section.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040–1042 as amended, 1047–1048 as amended, 1055; 21 U.S.C. 321, 343, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), paragraph (h) of § 1.18 (38 FR 6961) is revised to read as follows:

§ 1.18 Labeling of foods in relation to fat, fatty acid, and cholesterol content.

* * * * *

(h) No statements relating to cholesterol, fat or fatty acids, other than those expressly permitted by this section may be made. Any label or labeling containing any statement concerning cholesterol, fat or fatty acids which is not in conformity with this section shall be deemed to be misbranded under sections 201(n) and 403(a) of the act.

As this order merely clarifies an existing regulation, prior notice and delayed effective date are not necessary prerequisites to this promulgation.

Effective date. This order shall become effective on July 27, 1973.

(Secs. 201, 403, 701(a), 52 Stat. 1040–1042, as amended, 1047–1048, as amended, 1055; 21 U.S.C. 321, 343, 371(a))

Dated: July 19, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 36—Parks, Forests and Memorials

CHAPTER I—NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SERVICE

Andersonville National Historic Site, Ga.

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535; 16 U.S.C. 3), the Act of October 16, 1970 (84 Stat. 989; 16 U.S.C. 461), 245 DM-1 (27 FR 6394), National Park Service Order No. 77 (38 FR 7478), as amended, and Regional Director, Southeast Region Order No. 5 (37 FR 7721) it is proposed to amend Part 7 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of this amendment is to ensure that all monuments and memorials erected at Andersonville be compatible with the intent and purpose of the establishment of the National Historic Site. The monument and memorial size, type, design, inscription and erection guidelines established by the Director, Southeast Region are available at Andersonville National Historic Site and the National Park Service Southeast Regional Office, Atlanta, Georgia. Only monuments and memorials of State recognition will be approved.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Superintendent, Andersonville National Historic Site, Andersonville, Georgia 31711, on or before August 27, 1973.

Part 7 is amended by adding a new § 7.94 to read as follows:

§ 7.94 Andersonville National Historic Site.

(a) Monuments and memorials. Approval must be obtained from the Director, Southeast Region, prior to the erection of a monument or memorial at Andersonville National Historic Site. The size, type, design, inscription, erection, and disposition of the monument or memorial shall be in accordance with guidelines established by the National Park Service. Such guidelines are obtainable from the Director, Southeast Regional Office, National Park Service, Atlanta, Ga., and from the Supt., Andersonville National Historic Site, Andersonville, Ga. 31711.

JOHN E. JENSEN,
Superintendent, Andersonville National Historic Site.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 177—FEDERAL, STATE AND PRIVATE PROGRAMS OF LOW-INTEREST LOANS TO STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

Special Allowances

Subparagraph (3) of § 177.4(c), Special allowances, which deals with the payment to lenders of the allowances authorized by section 2 of the "Emergency Insured Student Loan Act of 1969" (Public Law 91-95) is amended by adding a subdivision (xvi) to provide for the payment of such an allowance for the period April 1, 1973 through June 30, 1973, inclusive.

In light of the directives in the Emergency Insured Student Loan Act of 1969 with respect to the factors that the Secretary of Health, Education, and Welfare is to consider and the officials with whom he is to consult in setting the rate of the special allowance, and since a comment period would cause delay of at least 30 days, following each quarterly 3-month period, before lenders could apply for the special allowance for such period, it has been determined pursuant to 5 U.S.C. 553 that the solicitation of comment as to the

V 38-144 JUL 27 73 XUM

rate of the special allowance for any particular quarter is both unnecessary and contrary to the public interest. The amendment to § 177.4(c)(3) effected hereby will therefore become effective immediately.

As so amended § 177.4 reads as follows:

§ 177.4 Special allowances.

(c) • • •

(3) Special allowances are authorized to be paid as follows:

• • • • •

(xvi) For the period April 1, 1973, through June 30, 1973, inclusive, a special allowance is authorized to be paid in an amount equal to the rate of 1¾ percent per annum of the average unpaid balance of disbursed principal of eligible loans.

(Sec. 2, 83 Stat. 141)

Dated: July 23, 1973.

JOHN OTTINA,
Acting Commisisoner of Education.

Approved: July 24, 1973.

FRANK CARLUCCI,
Acting Secretary.

[Docket No. FI-180]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective upon publication in the FEDERAL REGISTER. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

• • • • • • • •

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
• • •	• • •	• • •	• • •	• • •	• • •	• • •

V 38-144 JUL 27 73 XUM

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Revision of Emergency Temporary Standard on Certain Carcinogens

On May 3, 1973, an emergency temporary standard on certain carcinogens was promulgated under section 6(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (38 FR 10929). The standard is based on the findings that the substances listed in the standard are harmful, that exposure to any of the substances poses a grave danger, that employees are being exposed to them, and that the emergency temporary standard is necessary to protect the employees from grave danger.

Since the publication of the standard, numerous comments, objections, and recommendations have been received. A whole range of issues has thus been raised. The finding that all the listed substances are harmful to humans has been questioned, as well as the wisdom of regulating on a common basis fourteen substances of varying properties and uses, and the necessity of all the requirements of the standard.

The emergency temporary standard has been reexamined in the light of the new comments and arguments. And it has been determined that certain changes in the standard are necessary to tailor the requirements for different types of workplaces and work operations, and to clarify the standard.

Therefore, pursuant to section 6(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and Secretary of Labor's Order No. 12–71 (36 FR 8754), 29 CFR 1910.93c is revised to read as set forth below.

The principal changes made by the revision are:

(1) The standard as revised deals more particularly with different work operations, such as isolated environment operations, closed system operations, and open vessel operations;

(2) The particularization of the standard has permitted the specification of different control measures necessary to protect employees engaged in the different categories of operations. Compare paragraph (c)(1) with paragraph (c)(2); and,

(3) The legend on the warning sign and label is changed to apprise employees more accurately of the hazards to which they are exposed. The original findings concerning the toxicity of all the fourteen substances listed in the standard, the grave danger resulting from exposure to any of them, and the exposure of employees to them, are reconfirmed. And the standard as revised is considered necessary and sufficient to protect employees from the grave danger from exposure to any of the substances.

§ 1910.93c Carcinogens.

(a) *Scope and application.* This section applies to any workplace in which a carcinogen is manufactured, processed, used, repackaged, released, handled or stored, but shall not apply to any workplace involving transshipment of carcinogens in sealed containers.

(b) *Definitions.* (1) "Carcinogen" means any of the substances listed below, or any mixture containing 1 percent or more of such substances, by weight.

Compound No.	Chemicals	Chemical abstract registry No.
1	2-Acetylaminofluorene	53963
2	4-Aminodiphenyl	92671
3	Benzidine (and its salts)	92875
4	3,3'-Dichlorobenzidine (and its salts)	91941
5	Dimethylaminoazobenzene	60117
6	alpha-Naphthylamine	134327
7	beta-Naphthylamine	91598
8	4-Nitrobiphenyl	92933
9	N-Nitrosodimethylamine	62759
10	beta-Propiolactone	57578
11	bis-Chloromethyl ether	542881
12	Methyl Chloromethyl ether	107302
13	4,4'-Methylene(bis)2-chloroaniline	101144
14	Ethylenemine	151564

(2) "Controlled area" means an area to which access or egress by employees is required to be restricted and controlled by the employer under this section.

(3) "Decontamination" means the removal or inactivation of a carcinogen.

(4) "Isolated environment" means a fully enclosed structure, which is impervious to the passage of a carcinogen, which is not the vessel of containment of the carcinogen, and which prevents the dispersion of a carcinogen into areas or atmospheres where employees would be exposed to contact with that carcinogen, even if leakage or spillage from the vessel of containment occurs.

(5) "Closed system" mean an operation or equipment involving a carcinogen where the containment precludes, under normal conditions, the exposure by any route of employees to a carcinogen.

(6) "Laboratory type hood" means a device enclosed on three sides, and the top and bottom, ventilated to withdraw air inward and away from the open side, designed and constructed in such a way that an operation involving a carcinogen within the hood does not require the insertion of any portion of any employee's body other than his hands and arms.

(c) *Requirements for areas containing carcinogens.* A controlled area shall be established by the employer where a carcinogen is manufactured, processed, used, repackaged, released, handled or stored. All such areas shall be controlled in accordance with the requirements for the following category or categories describing the operation involved:

(1) *Isolated environment operations.* Where a carcinogen is contained within an isolated environment, such as a "glove box," employees working with such environments shall, upon each exit from the area, be required to wash their hands and arms at the point of exit from the area containing the isolated environment.

(2) *Closed system operations.* Where a carcinogen is stored in sealed containers, or contained in a closed system, such as fully enclosed process or transfer equipment, including pipes, and sample ports or openings are not used while a carcinogen is contained within:

(i) Access to the controlled area shall be restricted to only employees who work in that area.

(ii) Upon entering the controlled area at the first entry of the work day employees shall be provided with and be required to put on and wear clean work clothing, such as smocks, coveralls, or long-sleeved shirt and long pants.

(iii) Such employees shall be required to remove and leave that clothing at the point of exit upon each exit from that area.

(iv) Such employees shall be required to wash hands and face upon each exit from that area, not necessarily at the point of exit, but in the establishment.

(v) Such employees shall be required to shower after last daily exit from that area, not necessarily at the point of exit, but in the establishment.

(3) *Closed system transfer or charging or discharging point operations.* In operations involving "laboratory type hoods," or in locations where a carcinogen is contained in an otherwise "closed system," but is transferred, charged, or discharged into other normally closed containers with venting to the atmosphere:

(i) Access to the controlled area shall be restricted to only employees who work in that area.

(ii) Continuous local exhaust ventilation shall be maintained to prevent the dispersion of the carcinogen to areas where employees could, without such ventilation, be exposed to the carcinogen.

(iii) Upon entering the controlled area at the first entry of the work day all employees shall be provided with and be required to put on and wear clean work clothing, such as smocks, coveralls or long-sleeved shirts and long pants.

(iv) Employees in the controlled area involved in carcinogen handling operations shall be provided with and be required to wear personal protective equipment adequate to prevent exposure to a carcinogen.

(v) Such employees shall be required to remove and leave that clothing at the point of exit upon each exit from that area.

(vi) Such employees shall be required to wash hands and face upon each exit from that area, not necessarily at the point of exit, but in the establishment.

(vii) Such employees shall be required to shower after last daily exit from that area, not necessarily at the point of exit.

(viii) Employees in the controlled area shall be required to remove and leave all protective equipment at the hood site or charging, discharging or transfer point after work at that site or point.

(4) *Open vessel operations.* Where a carcinogen is contained in a vessel open to the work environment:

(i) Access to the controlled area shall be restricted only to employees who work in the area.

(ii) Continuous local exhaust ventilation shall be maintained at such operation locations sufficient to prevent the dispersion of the carcinogen to areas where employees could, without such ventilation, be exposed to contact with the carcinogen.

(iii) Clean work clothing shall be provided to employees whenever they enter such a controlled area and shall be required to be worn by employees working in the controlled area. Such garments shall include footwear, socks, underwear, outerwear, and head covering.

(iv) Employees working in the controlled area shall be provided with and be required to wear personal protective equipment adequate to prevent exposure to a carcinogen.

(v) Employees working in the controlled area shall be required to remove and leave all work clothing and protective equipment at the point of exit from the controlled area, and shall shower at that point, upon each exit from the controlled area.

(vi) Toilet and drinking facilities may not be used in the controlled area.

(5) *Other Operations.* In operations involving the decontamination of surfaces containing a carcinogen, either as a part of cleanup of leaks or spills, maintenance or repair operations on systems or equipment, or any operation involving work in an area where direct contact with a carcinogen could result without protection, each employee entering an affected area where operations of that type are being performed shall:

(i) Be provided with a clean, full, impervious, pressurized, air-supplied suit;

(ii) Be required to put on the suit before entering the affected area and engaging in such operation;

(iii) Be required to wear the suit in such an area and during the operation;

(iv) Be decontaminated before leaving the area and before removing the suit; and

(v) Be required to shower after removing such suit.

(6) *"Out-of-doors operations."* In an operation described in paragraphs (c)(1) through (5) of this section that is out-of-doors, rather than being confined in an enclosed structure, general mechanical ventilation is not required.

(d) *General controlled area requirements.* In addition to the controlled area requirements for types of operations listed in paragraph (c) of this section the following requirements apply to all controlled areas.

(1) Each employer shall establish and maintain a list of employees entering a controlled area. The list shall be made available on request to authorized representatives of the Secretary of Labor.

(2) The employer shall provide all work clothing, protective clothing, equipment and wash and shower supplies, including towels, required by this section.

(3) Any required shower rooms shall be provided in accordance with § 1910.141. Shower supplies may be introduced into a shower room only through a noncontaminated area.

(4) No food or beverage shall be permitted within a controlled area.

(5) No smoking or smoking materials or tobacco products shall be allowed within a controlled area.

(6) Appropriate instructions and signs shall be posted to inform employees of the procedures that must be followed in entering and leaving a controlled area.

(7) Any equipment, material, or any other items that are to be taken into or removed from a controlled area shall be taken in or removed from such area in a manner which does not contaminate any employees outside the controlled area.

(8) When only removal of outer clothing or personal protective equipment is required under paragraph (c) of this section at point of exit from a controlled area, an employee must be able, upon exit from the controlled area, to enter the change room, remove outer work garments and equipment and leave them in that room.

(9) When change and shower facilities are required under paragraph (c) of this section at point of exit from a controlled area, they shall be arranged so that upon exit, an employee must be able to enter a separate dirty change room where he can undress completely and leave every item of clothing and equipment. He must then be able to shower in an adjacent room which he can enter through an entrance designed to prevent the escape of carcinogens from the dirty change room to the shower room. Thereafter, he must be able to enter a clean change room where his street clothes are in his locker.

(10) When work area garments or protective clothing and equipment are required under paragraph (c) of this section to be worn in a controlled area, a clean change room must be provided so that before entering the controlled area the employee can change into clean work area garments or protective clothing and equipment in an area not containing contaminated or used work clothing or equipment and without passing through such a contaminated area to enter the controlled area. The clean change room shall have individual storage facilities for storage of street clothes and clean protective clothing and equipment.

(11) Continuous general mechanical exhaust ventilation shall be provided in controlled areas, or other positive means provided, so that air from the controlled area does not flow to non-controlled areas. Local exhaust ventilation may satisfy this requirement. Clean makeup air shall replace air removed.

(e) *Signs and labels.* (1) Entrances to controlled areas shall be posted with legible signs bearing the legend:

CANCER-SUSPECT AGENT
in this area
This agent may be hazardous to your health
AUTHORIZED PERSONNEL ONLY

For isolated environment operations, the sign shall be posted on or near the isolated environment structure.

(2) Equipment, material, and clothing contaminated with a carcinogen shall not be removed from a controlled area, unless it is either decontaminated or sealed in impervious containers bearing the legend:

DANGER
Contaminated with
CANCER-SUSPECT AGENT
This agent may be hazardous to your health

(3) Entrances to every controlled area for operations described in paragraph (c)(5) of this section shall be posted with legible signs bearing the legend:

CANCER-SUSPECT AGENT
EXPOSED IN THIS AREA
This agent may be hazardous to your health
FULL IMPERVIOUS PRESSURIZED AIR-SUPPLIED SUIT REQUIRED AT ALL TIMES
AUTHORIZED PERSONNEL ONLY

(f) *Cleaning.* Controlled areas involving open vessel operations or other operations, as described in paragraph (c)(4) and (5) of this section, shall be cleaned thoroughly not less than once each working day. Employees engaged in the cleaning shall be provided, and shall be required to wear, personal protective equipment adequate to prevent exposure to a carcinogen. Such employees shall be required to wash down carefully before removing protective equipment, and then shower.

(g) *Decontamination.* Decontamination processes shall be established and implemented to remove carcinogens on surfaces of equipment, materials, and the decontamination facility, that are known to be contaminated with a carcinogen.

(h) *Waste disposal.* Waste disposal methods and processes shall be established and implemented which do not permit carcinogens to be introduced into noncontrolled areas.

(i) *Medical surveillance programs.* Each employer subject to this section shall report in writing to the Occupational Safety and Health Administration, Office of Standards, Room 504, 400 First Street, NW., Washington, D.C. 20210, information as to any kind of medical surveillance program that has been voluntarily instituted by the employer.

(j) *Monitoring.* All employers subject to this section shall report in writing to the same office information as to the type of monitoring system that has been instituted.

(k) *Reporting.* Every employer subject to this section shall report in writing to the Occupational Safety and Health Administration, Office of Standards, the following information:

V 38 1 144 JUL 27 73 XUM

(1) The address of each of his controlled areas;

(2) The name and other identifying information as to the particular carcinogens present in each of his controlled areas;

(3) The approximate number of employees entering each of his controlled areas during a representative week of normal operations in the controlled area; and

(4) The manner in which the carcinogens are present in each of his controlled areas, e.g., whether a carcinogen is manufactured, processed, used, repackaged, released, or otherwise handled.

Effective date. This section shall become effective on July 30, 1973.

(Sec. 6, Public Law 91-596, 84 Stat. 1593 (29 U.S.C. 655). Secretary's Order No. 12-71 (36 FR 8754))

Signed at Washington, D.C., this 24th day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

CHAPTER X—OFFICE OF OIL AND GAS, DEPARTMENT OF THE INTERIOR

[Oil Import Reg. 1 (Reg. 5), Amdt. 59]

O.I. REG. 1—OIL IMPORT REGULATIONS

Miscellaneous Amendments

Correction

In FR Doc. 73-15193 appearing at page 19818 in the issue for Tuesday, July 24, 1973, in the 9th and 10th lines from the end of Sec. 11(c) the figures "15 percent" should read "25 percent".

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 143—PRECANCELED STAMPS

Philatelic Sales

Regulations dealing with the sale of precanceled stamps have been amended with respect to the quantity of such stamps that may be sold to philatelists and the conditions under which they will be sold. Publication of the following amendments in the FEDERAL REGISTER is effective immediately.

1. Paragraphs (f) (1) and 2 and (g) of § 143.2 *Sale and use of precanceled stamps* are amended to read as follows:

§ 143.2 Sale and use of precanceled stamps.

* * * * *

(f) *Philatelic sales*—(1) *Nonpermit holders.* (i) A maximum of one sheet of stamps of each of the precanceled denominations in sheet form which are available at a post office may be purchased in person or by mail by nonpermit holders for collection purposes only. Complete rolls of precanceled coil stamps may not be broken for philatelic sales. Instructions for selling plate blocks are as provided for in §257.1(c)(1) of this chapter.

(ii) Precanceled stamps are available at post offices which have them on hand or have a hand stamp for precanceling purposes. It is not necessary to be providing stamps for a permit holder before honoring a philatelic request involving the use of a hand stamp. Hand stamps, once acquired, should be retained by post offices to fill requests from philatelists.

(iii) Each mail order must be accompanied with a stamped, self-addressed envelope for use in returning the stamps to the purchaser.

(2) *Permit holders.* Precancel permit holders may buy any quantity of precanceled stamps for philatelic purposes. Other precanceled stamps may be purchased only for the purpose of paying postage. Unused precanceled stamps may not be sold for philatelic purposes by permit holders.

(g) *Precanceling for collectors.* Postmasters will comply with requests for imprints of a precanceling device on their own stamp stock but not for imprints on blank sheets of paper or on stamps submitted by a collector or other individual. (39 U.S.C. 401)

PART 154—CONDITIONS OF DELIVERY

Checks Issued by the Federal Government

Regulations dealing with the delivery of Federal Government checks have been amended to specify the delivery schedules for such checks. Accordingly, paragraph (d) *Checks issued by the Federal Government* of § 154.1 is amended by the addition of subparagraphs (4) and (5) as set forth below. Publication of the amendments in the FEDERAL REGISTER is effective immediately.

§ 154.1 Delivery to persons.

* * * * *

(d) * * *

(4) Treasury checks enclosed in envelopes which do not indicate a date of delivery will be delivered on the first scheduled delivery after receipt.

(5) Treasury checks enclosed in envelopes which indicate a date of delivery will be delivered on that date or the first scheduled delivery after that date. In emergency or other infrequent situations, customers receiving delivery service may request pre-delivery of their mail at the office of delivery, providing withdrawal of the mail does not interfere with the carriers' delivery schedules.

(39 U.S.C. 401)

LOUIS A. COX,
General Counsel.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—MEDICAL CARE AND EXAMINATIONS

PART 37—SPECIFICATIONS FOR MEDICAL EXAMINATIONS OF UNDERGROUND COAL MINERS

Second Round of Chest Roentgenographic Examinations

On February 12, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 4263) to revise the subpart of Part 37 of Title 42, Code of Federal Regulations, entitled "Chest Roentgenographic Examinations" by setting forth the specifications for giving, reading, classifying, and submitting the second round of chest roentgenograms required to be given to underground coal miners by section 203 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 843). Specifications for pulmonary function tests were also proposed.

Interested persons were invited to participate in the rule making through the submission of comments and comments were received from the United Mine Workers of America, the Bituminous Coal Operators' Association, a number of hospitals and clinics, physicians, manufacturers of pulmonary function equipment, coal operators, the Pennsylvania Bureau of Occupational Health, and this Department's Bureau of Radiological Health in the Food and Drug Administration. Due consideration has been given to all material presented, with the result that a number of changes have been made in the rules which were proposed.

Both the United Mine Workers of America and the Bituminous Coal Operators' Association, in addition to other commenters, objected to the proposed requirement of the conduct of a pulmonary function test. The Union's objections were grounded upon the lack of comparability between the pulmonary function examinations and any disability criteria for black lung benefits and the fear that adoption of the proposed specifications would stifle future development of more refined pulmonary function tests or their use when they become available. The Bituminous Coal Operators' Association argued that a pulmonary function test, while a tool for measuring lung impairment, is of little value in diagnosing pneumoconiosis for transfer purposes. Both the Union and the Association supported the continuance of these tests in the Institute's National Study of Coal Workers' Pneumoconiosis. In addition, the Institute is presently not in a position to relate the test results to pneumoconiosis and miner transfer. In view of the comments, the requirements of a pulmonary function test (§§ 37.30–37.33) have been deleted. The Institute will continue the conduct of such tests in the National Study of Coal Workers' Pneumoconiosis. Because it was geared toward the pulmonary function test, the medical history questionnaire has also been eliminated. However, the occupational history questionnaire has been retained and this questionnaire, along with the miner identification document, are considered a part of the required roentgenographic examination and are required by § 37.20(a) to be completed at the X-ray facility, at the same time the X-ray is given. Requirements for special training in the completion of the questionnaires and identification documents are now considered unnecessary in view of the elimination of the medical history questionnaire.

In response to a number of comments, the period for submitting operators' plans (§ 37.4) has been increased to 120 days following publication of these regulations, and the period for submitting roentgenograms and other documents has been extended to 21 days following the examination (§ 37.60).

A new paragraph (b) has been added to § 37.3 to state that operators may provide for alternate facilities and interpreters in plans submitted for approval. Operators, especially of larger mines, are encouraged to provide for alternate X-ray facilities and interpreters in their plans so that miners may feel more secure that confidentiality of medical information will be achieved and that the examinations may be as convenient as possible for the miners.

The specifications have also been revised to provide that miners shall be disrobed from the waist up at the time the X-ray is given (§ 37.41) and to provide for the heating of X-ray facilities to a comfortable temperature. As a result of comments from the Department's Bureau of Radiological Health, a number of technical changes have been made in the roentgenographic specifications (§ 37.41).

The regulations require the physician who will read and classify the chest roentgenograms to have demonstrated proficiency in the use of the ILO–U/C or the UICC/Cincinnati classification of the pneumoconioses, by either submitting sample chest roentgenograms that have been classified properly (§ 37.51(a)), by taking and passing a specially designed proficiency examination (§ 37.51 (b)), or by successfully completing an Institute approved course in one of the classification systems (§ 37.51(a)). Information concerning these courses may be obtained from the American College of Radiology, 6900 Wisconsin Avenue, Chevy Chase, Maryland 20014. Any form referred to in the regulations may be obtained upon request to the Appalachian Laboratory for Occupational Respiratory Diseases, P.O. Box 4258, Morgantown, West Virginia 26505.

The subpart of Part 37 entitled "Chest Roentgenographic Examinations" is revised as set forth below, effective on July 27, 1973.

Dated: June 25, 1973.

FREDERICK L. STONE,
Acting Administrator, Health Services and Mental Health Administration.

Approved: July 18, 1973.

CASPAR W. WEINBERGER,
Secretary.

37.60 Submitting required chest roentgenograms, occupational history questionnaires, and miner identification documents.

AUTHORITY: Sec. 203, 83 Stat. 763; 30 U.S.C. 843.

Subpart—Chest Roentgenographic Examinations

§ 37.1 Scope.

The provisions of this subpart set forth the specifications for giving, reading and interpreting, classifying, and submitting chest roentgenograms required by section 203 of the Act of be given to underground coal miners and new miners.

§ 37.2 Definitions.

Any term defined in the Federal Coal Mine Health and Safety Act of 1969, and not defined below shall have the meaning given it in the Act. As used in this subpart:

(a) "Act" means the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, et seq.).

(b) "ALFORD" means the Appalachian Laboratory for Occupational Respiratory Diseases, Box 4258, Morgantown, W. Va. 26505.

(c) "Chest roentgenogram" means a posteroanterior X-ray projection or radiograph of the chest at full inspiration recorded on radiographic film.

(d) "Convenient time and place" with respect to the conduct of any examination under this subpart means the locality in which the miner resides or a location that is equivalent with respect to convenience of time and place. For example, examinations at the mine during, immediately preceding, or immediately following work and a "no appointment" examination at a medical facility in a community easily accessible to the residences of a majority of the miners working at the mine, shall be considered of equivalent convenience for purposes of this paragraph.

(e) "Institute" and "NIOSH" mean the National Institute for Occupational Safety and Health, 5600 Fishers Lane, Rockville, MD 20852.

(f) "ILO–U/C 1971 International Classification of Radiographs of Pneumoconioses" or "ILO–U/C Classification" means the classification of the pneumoconioses devised in 1971 by an international committee of the International Labour Office and described in "Medical Radiography and Photography," volume 48, No. 3, December 1972.

(g) "Miner" means any individual who is working in or at any underground coal mine and who has been employed to work in or at any underground coal mine on or before December 30, 1969, but does not include any surface worker who does not have direct contact with underground coal mining or with coal processing operations.

(h) "New miner" means any individual who is working in or at any underground coal mine and who began working in or at an underground coal mine for the first time subsequent to December 30, 1969, but does not include any surface worker who does not have direct contact with underground coal mining or with coal processing operations.

(i) "Operator" means any owner, lessee, or other person who operates, controls, or supervises an underground coal mine.

(j) "Panel of Radiologists" means the U.S. Public Health Service Consultant Panel of Radiologists, c/o: ALFORD, Post Office Box 4258, Morgantown, W. Va. 26505.

(k) "Preemployment physical examination" means any medical examination which includes a chest roentgenographic examination given in accordance with the specifications of this subpart to a person not previously employed by the same operator or at the same mine for which

V 38 144 JUL 27 73 XUM

the miner or new miner is being considered for employment.

(l) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved may be delegated.

§ 37.3 Chest roentgenograms required for miners and new miners.

(a) Every operator shall provide to each miner employed in or at any of its underground coal mines an opportunity for a chest roentgenogram in accordance with this subpart by June 30, 1974. This requirement will be considered as having been fulfilled with respect to any miner for whom the required roentgenogram was made subsequent to July 1, 1972.

(b) Every operator shall provide to each new miner employed in or at any of its underground coal mines:

(1) An initial chest roentgenogram as provided herein as soon as possible, but in no event later than 6 months, after commencement of his employment: *Provided*, That a preemployment physical examination will be considered as fulfilling these requirements: *And provided further*, That an initial chest roentgenogram given to a new miner in accordance with the applicable regulations prior to the effective date of this revised subpart will be considered as fulfilling this requirement;

(2) A second chest roentgenogram in accordance with this subpart 3 years following the initial examination made under these or the former regulations of this subpart if the miner is still engaged in underground mining;

(3) A third chest roentgenogram and medical examination 2 years following the second chest roentgenogram if the miner is still engaged in underground coal mining and if the second examination shows any evidence of dust retention in the lungs.

(c) The chest roentgenograms made available by an operator for purposes of this subpart shall be provided in accordance with a plan which has been submitted and approved in accordance with this subpart.

§ 37.4 Plans for chest roentgenographic examinations.

(a) Every plan for chest roentgenographic examinations of miners and new miners shall be submitted on such forms as prescribed by the Secretary to ALFORD within 120 calendar days after the effective date of this subpart: *Provided*, That in the case of a person who after such date becomes an operator of a mine for which no plan has been approved, a plan shall be submitted within 60 days after such event occurs. Each plan shall include:

(1) The name and address of the operator(s) submitting the plan;

(2) The name, Federal Bureau of Mines identification number for respirable dust measurements, and address of each mine included in the plan;

(3) The time schedule for the required roentgenograms including the estimated number of miners and new miners to be given or offered examinations under the plan;

(4) The name of the facility or facilities where, the location(s) at which, and the approximate date(s) and time(s) during which the roentgenograms will be given to miners and new miners, in sufficient detail to enable a determination of whether such examinations will be conducted at a convenient time and place;

(5) The names and qualifications, including specialty training and experience, of the individual(s) who will:

(i) Give the chest roentgenograms; and

(ii) Interpret and classify the chest roentgenograms.

(6) The name, address, and business telephone number of the individual(s) who will coordinate the submittal as required by § 37.60(a);

(7) A description of the technical factors to be employed to meet the requirements of § 37.41; and

(8) Assurances that (i) the operator will not solicit a physician's roentgenographic or other findings concerning any miner employed by the operator, (ii) instructions have been given to the person(s) giving the examinations that duplicate roentgenograms will not be taken or made for that (except as may be necessary for the purpose of this subpart) the physician's roentgenographic and other findings, as well as the occupational history information obtained from a miner or new miner, except if obtained in a preemployment examination, will not be disclosed in a manner which will permit identification of the employee with the information about him and (iii) the roentgenographic examinations will be made at no charge to the miner.

(b) Operators may provide for alternate facilities and interpreters in plans submitted for approval.

(c) The change of operators of any mine operating under a plan approved pursuant to § 37.5 shall not affect the plan of the operator which has transferred responsibility for the mine. Every such plan shall be subject to revision in accordance with paragraph (c) of this section.

(d) The operator shall advise ALFORD of any change in its plan. Each change in an approved plan including a modification of the information submitted under paragraph (a)(5) of this section is subject to the same review and approval as the originally approved plan.

§ 37.5 Approval of plans.

(a) If, after review of any plan submitted pursuant to this subpart, the Secretary determines that the action to be taken under such plan by the operator or group of operators meets the specifications of this subpart and will effectively achieve its purpose, the Secretary will approve such plan and notify the operator(s) submitting the plan of his approval. Such approval may be conditioned upon such terms as the Secretary deems necessary to carry out the purpose of section 203 of the Act.

(b) Where the Secretary has reason to believe that he will deny approval of a plan he will, prior to the denial, give reasonable notice in writing to the operator(s) of an opportunity to amend the plan. The notice shall specify the ground upon which approval is proposed to be denied.

(c) If a plan is denied approval, the Secretary shall advise the operator(s) in writing of the reasons therefor.

§ 37.6 Roentgenographic examinations conducted by the Secretary.

(a) The Secretary will give chest roentgenograms or make arrangements with an appropriate person, agency or institution to give the chest roentgenograms required under this subpart in the locality where the miner resides, at the mine, or at a medical facility easily acessible to a mining community or mining communities, under the following circumstances:

(1) Where, in the judgment of the Secretary, due to the lack of adequate medical or other necessary facilities or personnel at the mine or in the locality where the miner resides, the required roentgenographic examination cannot be given.

(2) Where the operator has not submitted an approvable plan.

(3) Where, after commencement of an operator's program pursuant to an approved plan and after notice to the operator of his failure to follow the approved plan and, after allowing 15 calendar days to bring the program into compliance, the Secretary determines and notifies the operator in writing that the operator's program still fails to comply with the approved plan.

(b) The operator of the mine shall reimburse the Secretary or such other person, agency, or institution as the Secretary may direct, for the cost of conducting each examination made in accordance with this section.

§ 37.7 Transfer of affected miner to less dusty area.

(a) Any miner who, in the judgment of the Secretary based upon the interpretation of one or more chest roentgenograms, shows category 2 (2/1, 2/2, 2/3) or category 3 (3/2, 3/3, 3/4) simple pneumoconiosis, or complicated pneumoconiosis, or the development of category 1 (1/0, 1/1, 1/2) simple pneumoconiosis in less than 10 years since first entering the coal mining industry (ILO–U/C classification) shall be afforded the option by the operator of transferring from his position to another position in an area of the mine where the concentration of respirable dust in the mine atmosphere is not more than 1.0 mg/m³ of air, or, if such level is not attainable in such mine, to a position in the mine where the concentration of respirable dust is the lowest attainable below 2.0 mg/m³ of air.

(b) Any transfer under this section shall be in accordance with the procedures specified in Part 90 of Title 30 of the Code of Federal Regulations.

OCCUPATIONAL HISTORY QUESTIONNAIRES AND MINER IDENTIFICATION DOCUMENTS

§ 37.20 General provisions.

(a) As part of the roentgenographic examination, an occupational history questionnaire, and a member identification document shall be completed at the facility for each miner and new miner at the same time the chest roentgenogram required by this subpart is given.

(b) The questionnaires and miner identification documents shall be submitted to ALFORD in accordance with the requirements set forth in § 37.60.

SPECIFICATIONS FOR PERFORMING CHEST ROENTGENOGRAPHIC EXAMINATIONS

§ 37.40 General provisions.

(a) The chest roentgenographic examination shall be given at a convenient time and place.

(b) The chest roentgenographic examination consisting of the chest roentgenogram, the Roentgenographic Interpretation Form (Form NIOSH 14–73 (Cin), the occupational history questionnaire, and the mined identification document shall be completed in full and submitted to ALFORD pursuant to § 37.60.

(c) A roentgenographic examination shall be made in a facility approved in accordance with § 37.42 by or under the supervision of a physician who regularly takes chest roentgenograms and who has demonstrated his ability, in accordance with § 37.42, to take chest roentgenograms of a quality to best ascertain the presence of pneumoconiosis.

§ 37.41 Roentgenogram specifications.

(a) Every chest roentgenogram shall be a posteroanterior projection at full inspiration on a 14- by 17-inch or 14- by 14-inch film.

(b) Miners shall be disrobed from the waist up at the time the roentgenogram is given.

(c) Roentgenograms shall be made only with a diagnostic X-ray machine having a rotating anode tube with a maximum of a 2 mm. source (focal spot).

(d) Except as provided in paragraph (e) of this section, roentgenograms shall be made with units having generators which comply with the following: (1) The generators of existing roentgenographic units acquired by the examining facility prior to effective date of the regulations shall have a minimum rating of 200 mA at 100 kVp.; (2) generators of units acquired subsequent to such date shall have a minimum rating of 300 mA at 125 kVp.

NOTE: A generator with a rating of 150 kVp. is recommended.

(e) Roentgenograms made with battery-powered mobile or portable equipment shall be made with units having a minimum rating of 100 mA at 110 kVp. at 500 Hz, or of 200 mA at 110 kVp at 60 Hz.

(f) Capacitor discharge, and field emission units may be used: *Provided*, That the model of such units is approved by ALFORD for quality, performance, and safety. ALFORD will consider such units for approval when listed by a facility seeking approval under § 37.42 of this subpart.

(g) Roentgenograms shall be given only with equipment having a beam-limiting device which does not cause large unexposed boundaries. The use of such a device shall be discernible from an examination of the roentgenogram.

(h) To insure high quality chest roentgenograms:

(1) The maximum exposure time shall not exceed 1/20 of a second except that with single phase units with a rating less than 300 mA at 125 kVp and subjects with chests over 28 cm. posteroanterior, the exposure may be increased to not more than 1/10 of a second.

(2) The source or focal spot to film distance shall be at least 6 feet: *Provided*, That where space limitation in mobile units requires a shorter distance, the source to film distance shall not be less than 5 feet. Films made in mobile units with less than 6 feet between the focal spot and film shall be marked with the source to film distance;

(3) Only medium-speed film and medium speed intensifying screens shall be used;

(4) Film-screen contact shall be maintained and verified at 6 month or shorter intervals;

(5) Intensifying screens shall be inspected at least once a month and cleaned when necessary by the method recommended by the manufacturer;

(6) All intensifying screens in a cassette shall be of the same type and made by the same manufacturer;

(7) When using over 90 kV., a suitable grid or other means of reducing scattered radiation shall be used.

(8) The geometry of the radiographic system shall insure that the central axis (ray) of the primary beam is perpendicular to the plane of the film surface and impinges on the center of the film.

(i) Radiographic processing:

(1) Either automatic or manual film processing which produces a high quality roentgenogram is acceptable. A constant time-temperature technique shall be meticulously employed for manual processing.

(2) If the mineral or other impurities in the processing water introduce difficulty in obtaining a high-quality roentgenogram, a suitable filter or purification system shall be used.

(j) Before the miner is advised that the examination is concluded, the film shall be processed and inspected and accepted for quality by the physician, if available. If the physician is not available, such acceptance may be made by the radiologic technologist. In a case of a substandard film, another film shall be immediately taken.

(k) An electric power supply shall be used which complies with the voltage, current, and regulation specified by the manufacturer of the machine.

(l) A densitometric test object may be required on each roentgenogram for an objective evaluation of film quality at the discretion of ALFORD.

(m) Each roentgenogram made hereunder shall be permanently and legibly marked with the name and address or ALFORD approval number of the facility at which it is taken, the social security number of the miner, and the date of the roentgenogram. No other identifying markings shall be recorded on the film except as provided in § 37.41(h)(2).

§ 37.42 Approval of roentgenographic facilities.

(a) Approvals of roentgenographic facilities given prior to the effective date of these regulations shall terminate on the effective date of these regulations. Previously approved roentgenographic facilities may reapply in accordance with this subpart.

(b) To be eligible to participate hereunder, a roentgenographic facility shall demonstrate ability to take high quality diagnostic chest roentgenograms by submitting to ALFORD, six or more sample chest roentgenograms taken and processed at the applicant facility which are of acceptable quality to the panel of radiologists. Applicants shall also submit a radiograph of a plastic step-wedge object (available on loan from ALFORD) which was taken at the same time with the same technique as one of the roentgenograms submitted and processed at the facility for which approval is sought. At least one chest roentgenogram and one test object film shall have been taken with each unit to be used hereunder. All film shall have been taken within the 15 calendar days prior to submission and shall identify the facility where each film was taken. The chest roentgenograms will be returned and may be the same roentgenograms submitted pursuant to § 37.51.

(NOTE: The plastic step-wedge object is described in an article by E. Dale Trout and John P. Kelley appearing in "The American Journal of Roentgenology, Radium Therapy and Nuclear Medicine," Vol. 117, No. 4, April 1973.)

(c) Each roentgenographic facility submitting chest roentgenograms for approval under this section shall complete and include an X-ray facility document describing each X-ray unit to be used to take chest roentgenograms under the Act. Among other things, the form shall include: (1) The date of the last radiation safety inspection by an appropriate licensing agency or, if no such agency exists, by a qualified consultant; (2) the deficiencies found; and (3) a statement that all the deficiencies have been corrected. To be acceptable, the radiation safety inspection shall have been made within 1 year preceding the date of application.

(d) Roentgenograms submitted with applications for approval under this section will be evaluated by the panel of radiologists. Applicants will be advised of any reasons for denial of approval.

V 38 144 JUL 27 73 XUM

(e) Facilities shall have provision for being heated to a comfortable level.

(f) ALFORD or its representatives may make a physical inspection of the applicant's facility and any approved roentgenographic facility at any reasonable time to determine if the requirements of this subpart are being met.

(g) Approvals granted hereunder may be suspended or withdrawn by notice in writing when in the opinion of ALFORD the quality of radiographs submitted hereunder warrants such action. A copy of a notice withdrawing approval will be sent to each operator who has listed the hospital, clinic, or physician as its facility for giving chest roentgenograms.

§ 37.43 Protection against radiation emitted by roentgenographic equipment.

Except as otherwise specified in section 37.41, roentgenographic equipment, its use and the facilities (including mobile facilities) in which such equipment is used, shall conform to applicable State and Federal regulations (See 21 CFR 278.213 (37 FR 16461), a Federal regulation which becomes effective on August 1, 1974, and applies to certain components of X-ray system manufactured after that date). Where no applicable regulations exist, roentgenographic equipment, its use and the facilities (including mobile facilities) in which such equipment is used shall conform to the recommendations of the National Council on Radiation Protection and Measurements in NCRP Report No. 33 "Medical X-ray and Gamma-Ray Protection for Energies up to 10 MeV—Equipment Design and Use" (issued February 1, 1968) and in NCRP Report No. 34, "Medical X-ray and Gamma-Ray Protection for Energies up to 10 MeV—Structural Shielding Design and Evaluation" (issued March 2, 1970) which documents are hereby incorporated by reference and made a part hereof. These documents are available for examination at ALFORD, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505, at the National Institute for Occupational Safety and Health, 5600 Fishers Lane, Rockville, MD, and at the Public Health Service Information Center or Regional Office Information Centers listed in 45 CFR 5.31. Copies of NCRP Reports Nos. 33 and 34 may be purchased for $2 and $3 each, respectively, from NCRP Publications, P.O. Box 30175, Washington, D.C. 20014.

SPECIFICATIONS FOR INTERPRETATIONS AND CLASSIFICATION OF CHEST FILMS

§ 37.50 Interpreting and classifying chest roentgenograms.

(a) The interpretation of chest roentgenograms shall be classified in accordance with the ILO–U/C Classification system and recorded on a Roentgenographic Interpretation Form (Form NIOSH 14–73 (Cin)).

(b) Interpretation and classification shall be performed only by a physician who regularly reads chest roentgenograms and who has demonstrated proficiency in the use of the ILO–U/C Classification system in accordance with § 37.51.

(c) All interpreters hereunder, whenever interpreting chest roentgenograms made under the Act, shall have immediately available for reference a complete set of the ILO–U/C International Classification of Radiographs for Pneumoconioses, 1971.

NOTE: This set is available from the International Labour Office, Occupational Safety and Health Branch, CH 1211, Geneva 22, Switzerland.

(d) In all view boxes used for making interpretations hereunder:

(1) Fluorescent lamps shall be simultaneously replaced with new lamps at 6-month intervals;

(2) All the fluorescent lamps in a panel of boxes shall have identical manufacturer's ratings as to intensity and color;

(3) The glass, internal reflective surfaces, and the lamps shall be kept clean;

(4) The unit shall be so situated as to minimize front surface glare.

§ 37.51 Proficiency in the use of the ILO–U/C Classification.

(a) First or "A" readers:

(1) Proficiency in the use of the ILO–U/C Classification system shall be demonstrated by either:

(i) Submitting from the physician's files six sample chest roentgenograms classified by him to the panel of radiologists which are considered properly classified by the panel. The submission shall consist of two without pneumoconiosis, two with simple pneumoconiosis, and two with complicated pneumoconiosis. The films will be returned to the physician. The interpretations shall be on the Roentgenographic Interpretation Form (Form NIOSH 14–73 (Cin)). (These may be the same roentgenograms submitted pursuant to § 37.42), or:

(ii) Completion, since June 15, 1970, of a course approved by ALFORD on the ILO–U/C Classification system or the UICC/Cincinnati Classification system. As used in this subparagraph "UICC/Cincinnati Classification" means the classification of the pneumoconioses devised in 1968 by a Working Committee of the International Union Against Cancer.

(b) Final or "B" readers:

Additional proficiency in the use of the ILO–U/C Classification system shall be demonstrated by those physicians who desire to be a final or "B" reader by taking and passing a specially designed proficiency examination given on behalf of or by ALFORD. Physicians who qualify under this provision need not be qualified under paragraph (a) of this section.

(c) Physicians who wish to participate in the program shall make application on an Interpreting Physician Certification Document.

§ 37.52 Method of obtaining definitive interpretations.

All chest roentgenograms interpreted by "A" readers will be submitted by ALFORD to a "B" reader of its choosing, qualified as described in § 37.51 whose interpretation shall be final. If the first interpretation is by a "B" reader, it shall be final.

§ 37.53 Notification of abnormal roentgenographic findings.

(a) Findings of, or findings suggesting, enlarged heart, tuberculosis, lung cancer, or any other significant abnormal findings other than pneumoconiosis shall be communicated by the first physician to interpret and classify the roentgenogram to the designated physician of the miner or new miner indicated on the Miner's Identification Document. A copy of the communication shall be submitted to ALFORD.

(b) All final findings regarding pneumoconiosis will be sent to the miner by the Secretary of the Interior in accordance with section 203 of the Act (see 30 CFR Part 90). Positive findings with regard to pneumoconiosis will be reported to the miner's designated physician by ALFORD.

(c) ALFORD will make every reasonable effort to process the findings described in paragraph (b) of this section within 60 days of receipt of the information described in § 37.60 in a complete and acceptable form. The information forwarded to the Secretary of the Interior will be in a form intended to facilitate prompt dispatch of the findings to the miner.

SPECIFICATIONS FOR SUBMITTING ROENTGENOGRAMS, ETC.

§ 37.60 Submitting required chest roentgenograms, occupational history questionnaires, and miner identification documents.

(a) Each chest roentgenogram required to be made under this subpart, together with its interpretation(s), the occupational history questionnaire and the miner identification document, shall be submitted together for each miner or new miner within 21 calendar days after the roentgenographic examination to ALFORD and become the property of ALFORD.

(b) If ALFORD deems any part submitted under paragraph (a) of this section inadequate, it will notify the operator of the deficiency. The operator shall promptly make appropriate arrangements for the necessary re-examination.

(c) Failure to comply with paragraph (a) or (b) of this section shall be cause to revoke approval of a plan or any other approval as may be appropriate. An approval which has been revoked hereunder may be reinstated at the discretion of ALFORD after it receives satisfactory assurances and evidence that all deficiencies have been corrected and that effective controls have been instituted to prevent a recurrence.

(d) Chest roentgenograms and other required documents shall be submitted only for miners or new miners. Results of preemployment physical examinations of persons who are not hired shall not be submitted.

(e) If a miner refuses to participate in all phases of the examination prescribed in this subpart, no report need be made. If a miner refuses to participate in any phase of the examination prescribed in this subpart, all the forms shall be submitted with his name and social security account number on each. If any of the forms cannot be completed because of the miner's refusal, it shall be marked "Miner Refuses," and shall be submitted. No submission shall be made, however, without a completed miner identification document containing the miner's name, address, social security number, place of employment, and work category.

(f) The examination required under this subpart shall be complete for new miners.

NOTE: The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 1, 1973.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5354]

[Arizona 7131]

ARIZONA

Withdrawal for National Forest Recreation Area and Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws in aid of programs of the Department of Agriculture:

SITGREAVES NATIONAL FOREST
GILA AND SALT RIVER MERIDIAN
Fools Hollow Lake Recreation Area

T. 10 N., R. 21 E.,
Sec. 12, SW¼ of lot 4, S½ of lot 5, lot 8, NW¼ and S½ of lot 9, lots 11, 12, 13, N½ of lot 18, N½ of lot 17, and lot 20;
Sec. 13, lots 1 and 2, and lots 5 thru 17;
Sec. 14, NW¼ of lot 1, and lot 2.

Chevelon Ranger Station Administrative Site

T. 13 N., R. 13 E., Sec. 1, SE¼NE¼, E½SW¼NE¼, N½SE¼SE¼SE¼, N½SW¼SE¼.
T. 13 N., R. 14 E., Sec. 6, W½ of lot 5, and lot 7.

The areas described aggregate approximately 485.87 acres in Navajo and Coconino Counties.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license or permit or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 23, 1973.

[Public Land Order 5355]

[Colorado 17285]

COLORADO

Partial Revocation of Powersite Reserve No. 133

By virtue of the authority contained in section 24 of the Act of June 10, 1920, as amended, 16 U.S.C. sec. 818 (1970), and pursuant to the determination of the Federal Power Commission in DA–501–Colorado, it is ordered as follows:

1. The departmental order of March 25, 1910, creating Powersite Reserve No. 133, as confirmed by Executive Order of July 2, 1910, is hereby revoked so far as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 1 S., R. 78 W., Sec. 28, W½NE¼, NW¼, NW¼SW¼; Sec. N½NE¼.

The areas described aggregate approximately 360 acres in Grand County.

2. All of the above described lands were previously restored to entry, location or selection, subject to the provisions and reservations of section 24 of the Act of June 10, 1920, supra, pursuant to a determination of the Federal Power Commission in DA–57–Colorado of October 24, 1924, and the departmental order of August 17, 1926, and subsequently patented. The effect of this order is to relieve these restored lands from the limitations prescribed by said section 24.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 23, 1973.

[Sacramento 5138]

CALIFORNIA

Revocation of Executive Order No. 5550

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, as amended, 43 U.S.C. sec. 141 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. The Executive Order No. 5550 dated February 6, 1931, withdrawing public lands for classification is hereby revoked:

MOUNT DIABLO MERIDIAN

T. 21 S., R. 16 E.,
secs. 13, 24, and 25.
T. 21 S., R. 17 E.,
Secs. 16 to 22, inclusive;
Secs. 26 to 36, inclusive.
T. 21 S., R. 18 E.,
Sec. 31.
T. 22 S., R. 17 E.,
Secs. 1 to 5, inclusive;
Secs. 10 to 14, inclusive;
Sec. 24.
T. 22 S., R. 18 E.,
Secs. 5 to 9, inclusive;
Secs. 15 to 29, inclusive;
Secs. 33 to 36, inclusive.
T. 22 S., R. 19 E.,
Sec. 31.
T. 23 S., R. 18 E.,
Secs. 1, 2, 3, 11 to 14, inclusive;
Secs. 23, 24, 25, and 36.
T. 23 S., R. 19 E.,
Secs. 6, 7, 8, 17 to 21, inclusive;
Secs. 28 to 34, inclusive.
T. 24 S., R. 19 E.,
Secs. 3 to 10, inclusive;
Secs. 14 to 17, inclusive;
Secs. 20 to 29, inclusive;
Secs. 32 to 36, inclusive.
T. 25 S., R. 19 E.,
Secs. 1 to 4, inclusive;
Secs. 10 to 14, inclusive;
Sec. 24.
T. 25 S., R. 20 E.,
Secs. 5 to 9, inclusive;
Secs. 16 to 21, inclusive;
Secs. 27 to 29, inclusive.

The areas described aggregate approximately 97,110 acres in Fresno, King and Kern Counties.

2. All but 8,123.48 acres of the lands described in paragraph 1 of this order have been patented, some with a reservation of the minerals to the United States. The unappropriated public lands described above shall, subject to valid existing rights, the provisions of existing withdrawals and classifications, and the requirements of applicable law, be open to operation of the applicable public land laws and the regulations thereunder, effective on and after July 27, 1973.

The public lands have been, and continue to be open to the filing of applications and offers under the mineral leasing laws, and to location and entry under the United States mining laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Idaho 08357]

IDAHO

Withdrawal for Experimental Forest

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

BOISE NATIONAL FOREST
BOISE MERIDIAN

Boise Basin Experimental Forest, Bear Run Unit

T. 6 N., R. 5 E., sec. 13, E½E½; sec. 24, E½E½, SW¼SE¼, SE¼SW¼.
T. 6 N., R. 6 E., sec. 7, lots 3 and 4; sec. 18, lots 1, 2, 3, 4, W½E½; sec. 19, lots 1, 2, 3, 4, W½E½.

The areas described aggregate 1,255.16 acres in Boise County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of

V38-144-L JUL 27 73 XUM

the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,

[Public Land Order 5358]
[Montana 064840]

MONTANA

Powersite Restoration No. 623; Partial Revocation of Powersite Reserve No. 20

By virtue of the authority contained in section 24 of the Act of June 10, 1920, as amended, 16 U.S.C. sec. 818 (1970), and pursuant to the determination of the Federal Power Commission in DA-194-Montana, it is ordered as follows:

1. The departmental order of June 8, 1909 (ratified by Executive Order of July 2, 1910), creating Powersite Reserve No. 20, is hereby revoked so far as it affects the following described lands:

PRINCIPAL MERIDIAN

T. 2 N., R. 4 W.,
Sec. 6, SW¼NE¼, NW¼, N½SW¼, SE¼.
T. 3 N., R. 5 W.,
Sec. 36, SE¼NW¼, NE¼SW¼, W½SE¼, SE¼SE¼.

The areas described aggregate 582.55 acres in Jefferson County.

Title to all of the lands described above in section 36, T. 3 N., R. 5 W., will vest in the State of Montana upon the effective date of this order. The lands described above as the SW¼NE¼, N½SE¼, and SE¼SE¼ sec. 6, T. 2 N., R. 4 W., are privately owned.

2. At 10 a.m. on August 28, 1973, the unappropriated public lands described above as the NW¼, N½SW¼, and SW¼SE¼ sec. 6, T. 2 N., R. 4 W., shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on August 28, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. These public lands have been and will continue to be open to location and entry under the United States mining laws, and to leasing under the mineral leasing laws.

Inquiries concerning the lands should be addressed to Chief, Division of Technical Services, Bureau of Land Management, Federal Building and U.S. Courthouse, 316 N. 26th Street, Billings, Montana 59101.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Public Land Order 5359]
[Arizona 09229]

ARIZONA

Partial Revocation of Public Land Order No. 1985

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 1985 of September 21, 1959, is hereby revoked so far as it affects the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 41 N., R. 13 W.,
Sec. 1, lots 1 thru 4, S½N½;
Sec. 3, S½;
Sec. 4, SE¼;
Sec. 7, lots 1 thru 4, E½W½, E½;
Sec. 8;
Sec. 9, N½;
Sec. 10, N½;
Sec. 18, lots 1, 2, E½NW¼.
T. 41 N., R. 14 W.,
Sec. 12, E½;
Sec. 13, N½, SW¼;
Secs. 14 and 15;
Sec. 20, SE¼;
Sec. 21;
Sec. 22, N½;
Sec. 23, NW¼;
Sec. 28, NW¼;
Sec. 29;
Sec. 30, lot 3, E½SW¼, SE¼;
Sec. 31, lots 1, 2, E½NW¼, NE¼.
T. 40 N., R. 15 W.,
Sec. 4, lots 1, 3, SE¼NW¼, NE¼SW¼, S½SE¼;
Sec. 8, NW¼NE¼.
T. 41 N., R. 15 W.,
Sec. 25, N½SE¼, SW¼SE¼;
Sec. 35, N½, SE¼.

The areas described aggregate 8,515.54 acres in Mohave County.

2. All of the above described lands, except those listed as follows, are withdrawn by Public Land Order No. 5263 of September 28, 1972, for the Virgin Gorge Recreation Lands Area, and will remain so withdrawn:

T. 41 N., R. 13 W.,
Sec. 1, lots 1 through 4, S½N½.
T. 41 N., R. 14 W.,
Sec. 20, NW¼SE¼.
T. 40 N., R. 15 W.,
Sec. 4, lots 1, 3, SE¼NW¼, NE¼SW¼, S½SE¼;
Sec. 8, NW¼NE¼.
T. 41 N., R. 15 W.
Sec. 25, N½SE¼, SW¼SE¼; sec. 35, N½, SE¼.

3. At 10 a.m. on August 28, 1973, the lands described in paragraph 2 of this order shall, subject to valid existing rights, the provisions of existing withdrawals and classifications, and the requirements of applicable law, be open to operation of the public land laws generally, including the United States mining laws, and to leasing under the mineral leasing laws, except that the lands described as the S½N½ sec. 1, T. 41 N., R. 13 W., and N½SE¼, SW¼SE¼ sec. 25, and E½, SE¼NW¼ sec. 35, T. 41 N., R. 15 W., will not be open to location and entry under the mining laws. All valid applications received at or prior to 10 a.m. on August 28, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries concerning the lands should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, 3022 Federal Building, Phoenix, Arizona 85025.

JACK O. HORTON,
Assistant Secretary of the Interior.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72-34R]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Miscellaneous Amendments

The purpose of this amendment is to:

1. Authorize DOT-5P insulated steel drums for monoethylamine.

2. Authorize certain organic peroxides in fiberboard boxes and fiber drums.

3. Authorize specification 106A500X tanks for nitric oxide.

4. Amend the storage and stowage chart of explosives to include cartridge, practice ammunition.

5. Authorize fiber drums for the article "Empty cartridge cases primed".

In the March 1, 1972 FEDERAL REGISTER a notice of proposed rule making was published which contained these items. A public hearing was held on May 24, 1972 and no oral or written comments were received on these items.

Two items from this notice were published on November 11, 1972 and the one remaining item will become part of a larger rule making by the Hazardous Materials Regulations Board as explained in their document published on page 20083 of this issue of the FEDERAL REGISTER. One item in the Board's document dealing with the marking of radioactive materials packages was inadvertently omitted from the Coast Guard's notice and will be covered in a future rule making.

In consideration of the foregoing, Part 146 of Title 46 of the Code of Federal Regulations is amended as follows:

§ 146.21-100 [Amended]

1. In § 146.21-100 "Table D—Classification: Inflammable liquids" for the article monoethylamine by deleting the words "Metal barrels or drums (DOT-5, 5A) not over 55 gallon cap." and inserting in place thereof the words "Metal barrels or drugs DOT-5, 5A, 5P) not over 55 gallon cap."

§ 146.20-90 [Amended]

2. In § 146.20-90 Stowage and storage chart of explosives by deleting the heading of item 11 "Small arms ammunition" in both the horizontal and vertical columns and inserting in place thereof the words "Small arms ammunition or cartridges, practice ammunition."

§ 146.22-200 [Amended]

3. In § 146.22-200 Table E—Classification: Oxidizing materials for the article "Benzoyl peroxide by adding to columns 4, 5, 6, and 7 the following:

Authorized for benzoyl peroxide wet with not less than 20 percent by weight of water.			
Fiberboard boxes (DOT-12B) WIC not over 25 lb. net wt.			
Fiber drum (DOT-21C) WIC not over 25 lb. net wt.			

§ 146.25-100 [Amended]

4. In § 146.25-100 Table H—Classification: Class A extremely dangerous poison for the article "Nitric oxide" add to collum 4 the following:

Tank cars compiying with DOT regulations.			

§ 146.20-300 [Amended]

5. In § 146.20-300 for the article "Primers" delete in columns 4, 5, 6, and 7 the words "Empty cartridge cases, primed may also be shipped in strong, tight, outside fiberboard boxes" and insert in place thereof the words "empty cartridge cases, primed may also be shipped in strong, tight, outside fiberboard boxes and DOT 21-C fiber drums complying with DOT regulations."

(R.S. 4472, as amended, R.S. 4417a, as amended; sec. 1, 19 Stat. 252, 49 Stat. 1889, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 170, 391a, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

This amendment is effective October 30, 1973.

Dated: July 20, 1973.

C. R. BENDER,
Admiral, U.S. Coast Guard Commandant.

[FR Doc.73-15513 Filed 7-26-73;8:45 am]

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-97; Amdts. 171-20, 173-73, 174-18, 177-26, 179-11]

SHIPMENT OF HAZARDOUS MATERIALS

The purpose of these amendments to the Hazardous Materials Regulations of the Department of Transportation is (1) to change the definition of a portable tank; (2) to require the marking of packagings containing radioactive materials with the proper shipping name; (3) to change the proper shipping name of dry calcium hypochlorite compounds; (4) to authorize the shipment of empty primed cartridge cases in DOT-21C fiber drums; (5) to authorize the shipment of monoethylamine in DOT-5P insulated steel drums; (6) to authorize the shipment of benzoyl peroxide, wet with at least 20 percent of water by weight, in DOT-12B and DOT-21C packagings; (7) to authorize the shipment of phosphorus trichloride in unlined, mild steel, specifications MC 310, MC 311, MC 312 cargo tanks; (8) to authorize the shipment of carbon dioxide in cylinders filled to a maximum density of 68 percent of the water capacity regardless of cylinder capacity; (9) to authorize the shipment of hydrogen sulfide in cylinders and multi-unit tank car tanks equipped with gas tight caps or plugs applied to valve outlets, and to authorize the use of metal covers over the valves of multi-unit tank car tanks in place of gas-tight valve protective covers now required; (10) to authorize the shipment of nitric oxide in DOT-106A500X tank cars; and (11) to add the loading and storage restrictions for practice ammunition cartridges to §§ 174.538 and 177.848.

On March 1, 1972, the Hazardous Materials Regulations Board published a notice of proposed rule making, Docket No. HM-97; Notice No. 72-1 (37 FR 4295), which proposed these amendments except for the portable tank definition and the editorial changes concerning calcium hypochlorite. Interested persons were invited to give their views.

These amendments do not include the proposed changes to Proposal A and B which relate to the marking of packagings containing a mixture or solution and the spelling change to monofluorotrichloromethane, respectively. The Board has concluded that the package marking changes of Proposal A require further study. However, that portion of Proposal A requiring the marking of packagings containing radioactive materials appears in this document. The spelling change proposed for monofluorotrichloromethane does not appear in these amendments because a commenter has submitted a list of halocarbon materials which should also be changed in line with the proposed changes of Proposal B. This commenter has stated that these changes would be more appropriate if published with other petitioned changes relating to halocarbon materials. The Board agrees with the commenter and the contents of Proposal B will become part of another docket which will be published at a later date.

A revised definition of a portable tank appeared as a proposal in Docket No. HM-8; Notice No. 71-13 (36 FR 9449). This proposed definition included a cargo-carrying tank on an aircraft and clarified that a DOT-110 type multi-unit tank car tank should not be construed as a portable tank. There were no objections filed to the proposal. The Board is publishing the definition as it was proposed in § 171.8(g), Docket No. HM-8; Notice No. 71-13 except for the reference to a tank on an aircraft. This will be handled at a later date.

An objection was received from a commenter concerning the proposal which provides for the shipment of benzoyl peroxide in an inside plastic container in a DOT-21C fiber drum. The objection was directed to the apparent limitation on the number of inside containers in each fiber drum. The commenter stated that it is a common practice of industry to package this material in a number of inner plastic containers in a DOT-21C fiber drum. This practice was based on the conclusion that a given weight of benzoyl peroxide in a fiber drum would not be more hazardous if packed into several inner plastic containers than if packed in one large inner plastic container. As it was not the intent of the Board to specify that only one inner container be authorized, the regulations are changed to authorize benzoyl peroxide to be shipped in any number of inner plastic containers in a DOT-21C fiber drum provided the weight restrictions on the material are met.

Another commenter on this proposal requested that paragraphs (a)(5) and (b)(1) of § 173.157 be amended to permit the gross weight of the DOT-12B65 fiberboard box to be increased to 80 pounds provided the net weight of the material does not exceed 50 pounds. The Board has purposely omitted the permissive increase of the DOT-12B65 fiberboard box to a gross weight of 80 pounds in these two subparagraphs. The petition, which led to the development of this proposal, did not request such a regulation change. Also, the special permits issued to obtain practical shipping experience with the material in these fiberboard boxes did not authorize such a weight. Therefore, the Board does not agree with this proposed change and, in fact, is discouraging petitions for changes of this nature. If the DOT-12B65 fiberboard box has the capability of performing with a gross weight of 80 pounds, then the authorized gross weight for the specification should be so amended. No petition has been received justifying such a change.

Another objection to this proposal dealt with the proposed use of "dry weight" or "wet weight" as terms for expressing weight provisions for benzoyl peroxide. The commenter stated that the consistency of the regulations would be destroyed because weight restrictions of packagings are usually based on the actual net weight of the contents. The Board has not proposed any changes in the weight provisions for this material but has only identified the industry practice of referring to certain peroxides in a specific condition for packaging weight purposes. This type of material condition identification, expressed as "dry weight" or "wet weight," has been used by manufacturers of benzoyl peroxide for many years without any significant problems. Therefore, the Board has adopted these terms for use only in the section of the regulations dealing with benzoyl peroxide, wet.

Also, a commenter requested that the reference to asbestos as a packaging material be eliminated in this proposal because its use would constitute a health hazard. The reference to asbestos is included in the current regulations and the notice did not propose to delete asbestos. Therefore, the Board is of the opinion

V 38-144 JUL 27 73 XUM

that it may not make this deletion without another rule making which would directly focus upon the value of asbestos to transportation safety and the hazards asbestos might cause to personnel packing and unpacking packages. The present regulations covering benzoyl peroxide do provide for the use of an equivalent fire-resistant cushioning material in place of asbestos; thus, the shipper has the opportunity to utilize other cushioning materials.

In Docket No. HM–32; Notice 69–24 (34 FR 13426) it was proposed to shorten the shipping name of "calcium hypochlorite compounds, dry, containing more than 39 percent available chlorine." The reason for this proposal was to eliminate the quantitative phrase in this shipping name because it was determined not necessary for identification of the hazardous material from the standpoint of marking name of contents on packages and for the purpose of description on shipping papers. In addition to the subject matter, comments were received on this notice which suggested that the word "mixture" would be more appropriate than "compound" in the proper shipping name for this material since the use of the broader terminology would cover several conditions of manufacture. The Board agreed with the commenters and the changes were made in the shipping name for this material in the list of hazardous materials (§ 172.5) in Docket No. HM–32; Amendment 172–5 (35 FR 10858). Inadvertently, this change to the shipping name was not made in the Table of Contents for Part 173, or in the heading, text, and packaging references of § 173.217 which covers this material. Therefore, this amendment corrects these references where they cite the shipping name for dry calcium hypochlorite compounds.

A commenter to the proposal which authorizes the shipment of carbon dioxide in cylinders filled to a maximum density of 68 percent of the water capacity regardless of cylinder capacity objected on the basis that safety would be downgraded because it would impose a burden on cylinder filling personnel by requiring them to fill cylinders to different capacities. A number of large companies have received special permits from the Board and have satisfactory shipping experiences with these cylinders. The Compressed Gas Association has stated that these permits should be continued. However, this approach does preclude other shippers from taking advantage of higher fill densities. As the commenter has not presented any data to support his contention of safety being downgraded and on the basis of the experience obtained under special permit, the Board is authorized carbon dioxide to be shipped in any cylinder filled to a maximum density of 68 percent of its water capacity.

In consideration of the foregoing, 49 CFR Parts 171, 173, 174, 177, and 179 are amended as follows:

PART 171—GENERAL INFORMATION AND REGULATIONS

In § 171.8, paragraph (g) is amended to read as follows:

§ 171.8 Definitions.

• • • • •

(g) The term "portable tank" means any tank designed primarily to be temporarily attached to a motor vehicle, other vehicle, railroad car other than tank car, or vessel, and equipped with skids, mountings, or accessories to facilitate handling of the tank by mechanical means. The term "portable tank" does not include any cargo tank, any tank car tank, or any tank of the DOT 106A or 110A type (§§ 179.300, 179.301 of this subchapter).

• • • • •

PART 173—SHIPPERS

(A) In the table of contents for Part 173 §§ 173.107 and 173.217 are amended to read as follows:

Sec.
173.107 Primers, percussion caps, grenades, empty, primed, and cartridge cases, empty, primed.
173.217 Calcium hypochlorite mixtures, dry, lithium hypochlorite compounds, dry, dichloroisocyanuric acid, dry, potassium dichloroisocyanurate, dry, sodium dichloroisocyanurate, dry, and trichloroisocyanuric acid, dry.

(B) In § 173.107, the heading and paragraph (b) are amended to read as follows:

§ 173.107 Primers, percussion caps, grenades, empty, primed, and cartridge cases, empty, primed.

• • • • •

(b) Empty cartridge cases, primed, must be packed in strong, tight, outside wooden or fiberboard boxes, or in specification packagings as follows:

(1) Specification 21C (§ 178.224 of this subchapter) fiber drum. Each drum must be constructed to the specification requirements for a drum containing at least 250 pounds net weight of contents. Each drum having a metal top or bottom must have a protective corrugated paperboard pad inserted between the contents and the metal.

• • • • •

(C) In § 173.148, paragraph (a) (1) is amended to read as follows:

§ 173.148 Monoethylamine.

(a) • • •

(1) Specification 5, 5A, or 5P (§§ 178.80, 178.81, 178.92 of this subchapter). Metal barrel or drum equipped with openings not exceeding 2.3 inches in diameter. Bung labels must be applied and must meet the requirements prescribed in § 173.119(i).

• • • • •

(D) In § 173.157, paragraphs (a), (a) (1), and (a) (3) through (5) are amended: paragraph (b) is added to read as follows:

§ 173.157 Benzoyl peroxide, chlorobenzoyl peroxide (para), cyclohexanone peroxide, dimethylhexane dihydroperoxide, lauroyl peroxide, or succinic acid peroxide, wet.

(a) Benzoyl peroxide, chlorobenzoyl peroxide (para), dimethylhexane dihydroperoxide, lauroyl peroxide, and succinic acid peroxide, each wet with at least 30 percent of water by weight, and cyclohexanone peroxide over 50 percent concentration but not exceeding 85 percent concentration, wet, must be packed in specification packagings as follows:

(1) Specification 15A, 15B, or 15C (§§ 178.168, 178.169, 178.170 of this subchapter). Wooden box with inside metal containers or lining, specification 2F (§ 178.25 of this subchapter), or with securely closed inside paper bags lined with polyethylene at least 0.002 inch thick, or with inside aluminum drums of at least 16 gage metal throughout. Net weight (dry weight) in each inside DOT–2F metal container or in each paper bag may not exceed 1 pound. Gross weight may not exceed 200 pounds.

• • • • •

(3) Specification 12B (§ 178.205 of this subchapter). Fiberboard box with inside fiber containers securely closed by taping or gluing, or with securely closed inside paper bags lined with polyethylene at least 0.002 inch thick. Net weight (dry weight) in each inside container may not exceed 1 pound. Except for lauroyl peroxide, wet, each inside container must be surrounded by asbestos or an equivalent fire-resistant cushioning material. Gross weight in specification 12B65 fiberboard box may exceed 65 pounds, but may not exceed 80 pounds, provided the net weight (dry weight) of the contents does not exceed 50 pounds.

(4) Specification 21C (§ 178.224 of this subchapter). Fiber drum with securely closed inside plastic containers made of polyethylene film at least 0.002 inch thick for cyclohexanone peroxide over 50 percent concentration but not exceeding 85 percent concentration and for dimethylhexane dihydroperoxide; with securely closed inside plastic containers made of polyethylene film at least 0.004 inch thick for benzoyl peroxide wet with at least 30 percent of water by weight. Authorized net weight (wet weight) in one outside drum may not exceed 50 pounds for cyclohexanone peroxide, 100 pounds for dimethylhexane dihydroperoxide, or 225 pounds for benzoyl peroxide.

(5) Specification 12B (§ 178.205 of this subchapter). Fiberboard box with securely closed inside plastic containers made of polyethylene film at least 0.004 inch thick. Net weight (dry weight) in each inside container may not exceed 10 pounds. Each inside container must be surrounded by asbestos or an equivalent fire-resistant cushioning material. Authorized only for benzoyl peroxide.

(b) Benzoyl peroxide, wet with at least 20 percent of water by weight, must be packed in specification packagings as follows:

(1) Specification 12B (§ 178.205 of this subchapter). Fiberboard box with securely closed inside paper bags lined with polyethylene at least 0.002 inch thick. Net weight (dry weight) in each bag may not exceed 1 pound. Each bag must be surrounded by asbestos or an equivalent fire-resistant cushioning material.

(2) Specification 21C (§ 178.224 of this subchapter). Fiber drum with securely closed inside plastic containers made of polyethylene film at least 0.004 inch thick. Net weight (dry weight) in each outside drum may not exceed 25 pounds.

(3) Specification 12B (§ 178.205 of this subchapter). Fiberboard box with securely closed inside plastic containers made of polyethylene film at least 0.004 inch thick. Net weight (dry weight) in each inside container may not exceed 10 pounds. Each inside container must be surrounded by asbestos or an equivalent fire-resistant cushioning material. Net weight (dry weight) in each outside box may not exceed 25 pounds.

(E) In § 173.217, the heading, the introductory text of paragraph (a) and paragraph (a)(4), and (a)(5) are amended to read as follows:

§ 173.217 Calcium hypochlorite mixtures, dry, lithium hypochlorite compounds, dry, dichloroisocyanuric acid, dry, potassium dichloroisocyanurate, dry, sodium dichloroisocyanurate, dry, and trichloroisocyanuric acid, dry.

(a) Calcium hypochlorite mixtures, dry, lithium hypochlorite compounds, dry, dichloroisocyanuric acid, dry, potassium dichloroisocyanurate, dry, sodium dichloroisocyanurate, dry, and trichloroisocyanuric acid, dry, each containing more than 39 percent available chlorine must be packed in specification packagings as follows:

• • • • •

(4) Specification 21C (§ 178.224 of this subchapter). Fiber drum with commodity packed in securely closed polyethylene bag constructed of polyethylene film not less than 0.004-inch thickness. Not authorized for calcium hypochlorite mixtures and lithium hypochlorite compounds, dry.

(5) Specification 21C (§ 178.224 of this subchapter). Fiber drum must be made with integral inner body ply having 0.010-inch minimum aluminum facing and bottom interior with 0.001-inch minimum aluminum facing. Cover of drum must be gasketed. Authorized net weight not over 400 pounds. Authorized only for calcium hypochlorite mixtures, dry.

• • • • •

(F) In § 173.271, paragraph (a) (8) (iii) is amended to read as follows:

§ 173.271 Phosphorus oxybromide, phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride.

(a) • • •

(8) • • •

(iii) Tanks made from mild steel or austenitic stainless steel, without lining or cladding. Authorized only for phosphorus trichloride.

• • • • •

(G) In § 173.304 paragraph (a) (2), the table is amended; Note 3 is canceled, and Note 10 is added to read as follows:

§ 173.304 Charging of cylinders with liquefied compressed gas.

(a) • • •

(2) • • •

Kind of gas	Maximum permitted filling density (see Note 1)	Containers marked as shown in this column or of the same type with higher service pressure must be used except as provided in § 173.34(a), (b), § 173.301(j) (see notes following table).
(change)	*Percent*	
Carbon dioxide, liquefied (see Notes 4, 7, and 8).	68	DOT-3A1800; DOT-3AA1800; DOT-3; DOT-3E1800; DOT-3HTX2000; DOT-39.
Hydrogen sulfide (see Note 10)-------	62.5	DOT-3A480; DOT-3AA480; DOT-3B480; DOT-4A480; DOT-4B480; DOT-4BA480; DOT-4BW480; DOT-26-480; DOT-3E1800.

• • • • •

NOTE 3: [Canceled.]

• • • • •

NOTE 10: Each valve outlet must be sealed by a threaded cap or a threaded solid plug.

• • • • •

(H) In § 173.314 paragraph (c) table, Note 8 is amended to read as follows:

§ 173.314 Requirements for compressed gases in tank cars.

• • • • •

(c) • • •

NOTE 8: Tanks may not be equipped with safety-relief devices of any description. Each valve outlet must be sealed by a threaded cap or a threaded solid plug. In addition, the valves must be protected by a metal cover.

• • • • •

(I) In § 173.337, paragraph (a) (4) is added to read as follows:

§ 173.337 Nitric oxide.

(a) • • •

(4) Specification 106A500X (§§ 179.300, 179.301 of this chapter) tanks. Nitric oxide charge in each tank may not exceed 200 p.s.i.g. at 70°F. Each tank must be equipped with gas-tight valve protection caps (see § 179.302 of this chapter). Each valve outlet must be sealed by a threaded solid plug or a threaded cap with inert luting or gasket material. Valves must be of stainless steel and the caps, plugs, and valve seats must be of material that will not be deteriorated by contact with nitric oxide or nitrogen dioxide. The tank may not be equipped with any safety relief device.

(J) In § 173.401, paragraph (a) is amended to read as follows:

§ 173.401 Hazardous materials.

(a) Packagings containing hazardous materials other than explosives must be marked, unless exempted, with the proper shipping name as shown in the list of hazardous materials (see § 172.5 (a) of this chapter). For tank cars, this marking must appear either on the placards or commodity cards. For explosives, packagings must be marked in accordance with the requirements of § 173.400.

(1) Each portable tank used for the transportation of a hazardous material must be conspicuously and legibly marked, on a background of sharply contrasting color with a sign or lettering on the tank, such as "Corrosive Liquid", "Compressed Gas", or "Flammable Compressed Gas" as appropriate, and with the proper shipping name as shown in the list of hazardous materials (see § 172.5 (a) of this chapter). The height of all required lettering must be at least 2 inches or one-tenth the diameter of the tank, whichever is greater. Each portable tank must be marked with the owner's name. In addition to these markings, the trade name for the contents may be marked on the portable tank: *Provided, however*, That no such marking will be of such size and character as to render the required markings inconspicuous.

• • • • •

PART 174—CARRIERS BY RAIL FREIGHT

(A) In § 174.538 paragraph (a) Chart, column 4, both vertically and horizontally, is amended to read as follows:

§ 174.538 Loading and storage chart of hazardous materials.

(a) • • •

4—Small arms ammunition, or cartridges, practice ammunition.

• • • • •

(B) In § 174.545, paragraph (a) is amended to read as follows:

§ 174.545 Commodity name on carloads.

(a) Placards for carloads of Class B explosives and other hazardous materials must show in the space provided on the placard, the proper shipping name of the contents as shown in the list of hazardous materials (see § 172.5(a) of this chapter). Alternatively, the proper shipping name may be shown on tagboard cards measuring approximately 5 by 8 inches securely attached to each side of the car.

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

In § 177.848 paragraph (a) Chart, column 4, both vertically and horizontally, is amended to read as follows:

§ 177.848 Loading and storage chart of hazardous materials.

(a) • • •

4—Small arms ammunition, or cartridges, practice ammunition.

• • • • •

PART 179—SPECIFICATIONS FOR TANK CARS

In § 179.302 paragraph (a), the Table and footnote 5 are amended; footnote 6 is added to read as follows:

§ 179.302 Special commodity requirements for multiunit tank car tanks.

(a) • • •

V38-144-JUL 27 73 XUM

Commodity	Safety relief device	Valve protective housing	Miscellaneous
(Change) Hydrogen sulfide	Prohibited[1]	Required[4]	(5)
(Add) Nitric oxide	do[1]	Gas tight[2]	

[1] Each valve outlet must be sealed by a threaded cap or a threaded solid plug.
[4] Valves must be protected by a metal cover.

This amendment is effective September 30, 1973. However, compliance with the regulations, as amended herein, is authorized immediately.

AUTHORITY: Secs. 831–835 Title 18, United States Code, section 9, Department of Transportation Act 49 U.S.C. 1657, and title VI and section 902(h), Federal Aviation Act of 1958 49 U.S.C. 1421–1430, 1472(h), and 1655 (c))

Issued in Washington, D.C. on July 23, 1973.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 501—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES; PART 551—PROCEDURAL RULES

PART 553—RULEMAKING PROCEDURES

Procedures for the Motor Vehicle Information and Cost Savings Act

Parts 501, 551, and 553 of Title 49, Code of Federal Regulations, currently detail the delegated powers, general procedures, and rulemaking procedures utilized by the National Highway Traffic Safety Administration (NHTSA) to implement the National Traffic and Motor Vehicle Safety Act of 1966, Public Law 89–563. The Motor Vehicle Information and Cost Savings Act, Public Law 92–513, vests additional authority in the NHTSA. This amendment extends the applicability of Parts 501, 551, and 553 to the Cost Savings Act to establish uniform rulemaking procedures for both Acts.

Accordingly, the following amendments are made to 49 CFR Part 501, "Organization and delegation of powers and duties", Part 551, "Procedural rules", and Part 553, "Rulemaking procedures: motor vehicle safety standards".

1. Section 501.2 of Part 501 is amended by redesignating paragraphs (c), (d), and (e) as paragraphs (d), (e), and (f), and by adding a new paragraph (c), to read:

§ 501.2 General.

. . . . . .

(c) Carry out the Motor Vehicle Information and Cost Savings Act of 1972, as amended (86 Stat. 947; 15 U.S.C. 1901, et seq.).

. . . . . .

§ 551.1 [Amended]

2. Section 551.1, *Scope*, of Part 551 is amended by adding ", the Motor Vehicle Information and Cost Savings Act," following the "Vehicle Safety Act of 1966".

§ 551.33 [Amended]

3. Section 551.33 of Part 551 is amended by changing the number "20591" to "20590".

4. Part 553 is amended to read as set forth above.

5. Section 553.1, *Applicability*, of Part 553 is amended to read:

§ 553.1 Applicability.

This part prescribes rulemaking procedures that apply to the issuance, amendment, and revocation of rules pursuant to the National Traffic and Motor Vehicle Safety Act of 1966 and the Motor Vehicle Information and Cost savings Act.

6. Section 553.3, *Definitions*, of Part 553 is amended by the redefinition of "Act" and "Rule" to read:

"Acts" means the National Traffic and Motor Vehicle Safety Act of 1966, Public Law 89–563, 15 U.S.C. 1391, et seq., and the Motor Vehicle Information and Cost Savings Act, Public Law 92–513, 15 U.S.C. 1901, et seq.

. . . . . .

"Rule" includes any order, regulation, or Federal motor vehicle safety standard issued under the Acts.

§ 553.5 [Amended]

7. Paragraph (b) of § 553.5, Part 553, is amended by the substitution of "applicable provisions of the Acts" for "sections 112 and 113 of the Act (15 U.S.C. 1401, 1402)".

8. Part 553 is amended by deleting "Under Sections 103 and 119 of the Act" from the heading of Part 553, Subpart B.

§ 553.11 [Amended]

9. Section 553.11, *General*, of Part 553 is amended by substituting "under applicable provisions of the Acts" for "involving rules under sections 103 and 119 of the Act."

Since this amendment relates to NHTSA organization, procedures, and practices, it is found that notice and public procedure thereon are unnecessary.

Effective date: July 27, 1973. Because this notice is only an extension of existing procedures to new areas of jurisdiction, it is found that an immediate effective date is in the public interest.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Rev. S.O. 1120]

PART 1033—CAR SERVICE

Distribution of Covered Hopper Cars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 19th day of July 1973.

It appearing, that an acute shortage of covered hopper cars for transporting shipments of grain, grain products, soybeans, or soybean meal exists in certain sections of the country; that some carriers have placed substantial numbers of large-capacity covered hopper cars in unit-train service for the movement of grain under tariff provisions which require that these cars remain in this service for five or more consecutive trips in the service of a single shipper; that such practices are depriving shippers, unable to ship to the destinations to which such services are available or unable to comply with tariff provisions applicable to such movements with respect to availability of tonnage in a single day or ability to receive grain in such quantities, of an equitable share of the supply of large covered hoppers; that entire areas of the country are unable to secure shipments of vitally needed feed grains because of these car distribution practices, thus creating great economic loss; that present regulations and practices with respect to the use, supply, control, movement, and distribution of covered hopper cars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1120 Service Order No. 1120.

(a) *Distribution of covered hopper cars.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Restrictions on use of covered hopper cars.* Effective September 1, 1973, no common carrier by railroad shall permit the use in unit-grain-train services of more than twenty percent (20%) of its ownership of jumbo covered hopper cars.

(2) *Increased use in unit trains prohibited.* No common carrier by railroad shall increase the proportion of its ownership of covered hopper cars operated in unit-grain-train services above the proportion operated in unit-grain-train services on July 15, 1973.

(3) *Substitution of small cars for jumbo cars prohibited.* No common carrier shall substitute smaller covered hopper cars for jumbo covered hopper cars for use in unit-grain-train services.

(4) *Monthly reports required.* Each common carrier by railroad owning jumbo covered hopper cars shall report to Mr. R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423, on or before the tenth day of each month the number of jumbo covered hopper cars owned, as of the first of the month, the number in unit-grain-train services, the number in general grain services, the number in other services, the number of unit-grain trains operated during the previous month, and the number of trips made by such trains.

(b) *Definitions*—(1) *Unit-grain-trains.* Unit-grain-trains are hereby defined as trains of fifty (50) or more covered hoppers organized and operated as a unit from a single point of origin, in-transit loading point, or concentration point and consigned to one destination or distribution point in order to comply with published tariff requirements.

(2) *Jumbo covered hopper cars of railroad ownership.* Jumbo covered hopper cars of railroad ownership are hereby defined as cars listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 388, issued by W. J. Trezise, or successive issues thereof as bearing reporting marks issued to a railroad and having mechanical designation "LO" and having cubical capacities of 4,000 cu. ft. or larger and weight-carrying capacities of 180,000 lbs. or greater.

(c) *Rules and regulations suspended.* In the event that the operation of any unit-grain-train is discontinued prior to September 1, 1973, as a result of this order, the discontinuance of such a train shall be deemed to have completed the tariff responsibility as to the number of consecutive trips required to be made by such unit-grain-train. The operation of all other tariff provisions or of other rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(e) *Effective date.* This order shall become effective at 11:59 p.m., July 31, 1973.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., December 15, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulations are issued and are effective on July 27, 1973.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of teal ducks on the Flint Hills National Wildlife Refuge, Kansas, is permitted from September 8 through September 16, 1973, inclusive, but only on the area designated by signs as open to hunting. This open area is delineated on maps available at refuge headquarters, Burlington, Kansas, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 W. Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of teal ducks subject to the following special conditions:

(1) Vehicle access shall be restricted to designated parking areas and to existing roads.

(2) Blind construction by the public is permitted but limited to temporary above-ground construction. Blind construction does not constitute a reservation of hunting space. Daily occupancy of blinds erected on refuge hunting units will be determined on a first-come first-served basis.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in 50 CFR Part 32, and are effective through September 16, 1973.

LYLE A. STEMMERMAN,
Refuge Manager, Flint Hills National Wildlife Refuge, Burlington, Kansas.

JULY 20, 1973.

[FR Doc.73–15440 Filed 7–26–73;8:45 am]

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on July 27, 1973.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves, rails, woodcock and Wilson's snipe, on the Flint Hills National Wildlife Refuge, Kansas, is permitted only on the area designated by signs as open to hunting. This open area is delineated on maps available at refuge headquarters, Burlington, Kansas and from the Regional Director, Bureau of Sport Fisheries & Wildlife, 10597 W. Sixth Avenue, Denver, Colorado 80215. Hunting seasons are as follows: Mourning doves, from September 1 through October 30, 1973 inclusive; rails, from September 8 through November 11, 1973 inclusive; woodcock, from October 13 through December 16, 1973, inclusive; Wilson's snipe, from September 8 through November 11, 1973, inclusive. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of doves, rails, woodcock, Wilson's snipe are subject to the following special condition:

(1) Vehicle access shall be restricted to designated parking areas and to existing roads.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in 50 CFR

V38-144 JUL 27 73 XUM

Part 32, and are effective through December 16, 1973.

LYLE A. STEMMERMAN,
Refuge Manager, Flint Hills National Wildlife Refuge, Burlington, Kansas.

JULY 20, 1973.

[FR Doc.73-15442 Filed 7-26-73;8:45 am]

PART 32—HUNTING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on July 27, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

The public hunting of upland game animals, upland game birds, and non game animals on the Flint Hills National Wildlife Refuge, Kansas, is permitted from October 1, 1973, through September 30, 1974, inclusive, but only on the area designated by signs as open to hunting. This open area is delineated on maps available at refuge headquarters, Burlington, Kansas, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 W. Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game animals, upland game birds, and non game animals subject to the following special conditions.

(1) The use of rifles is prohibited on the refuge.

(2) Vehicle access shall be restricted to designated parking areas and existing roads.

(3) Dogs—Not to exceed two per hunter may be used only to retrieve wounded or dead squirrels, cottontail rabbits, bobwhite quail, and greater prairie chickens.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in 50 CFR Part 32 and are effective through September 30, 1974.

LYLE A. STEMMERMAN,
Refuge Manager, Flint Hills National Wildlife Refuge, Burlington, Kansas.

JULY 20, 1973.

[FR Doc.73-15441 Filed 7-26-73;8:45 am]

PART 32—HUNTING

Quivira National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on July 27, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

KANSAS

QUIVIRA NATIONAL WILDLIFE REFUGE

Public hunting of cottontail rabbits and squirrel on the Quivira National Wildlife Refuge, Kansas is permitted during the early teal season from September 8 through September 16, 1973, inclusive, but only in the areas designated by signs as open to hunting. These open areas, comprising 7,990 acres, are delineated on maps available at refuge headquarters, Stafford, Kansas, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, Federal Building, Room 1748, 601 East 12th Street, Kansas City, Missouri 64106.

Hunting shall be in accordance with all applicable State regulations governing the hunting of cottontail rabbits and squirrel subject to the following special conditions:

(1) The use of rifles is prohibited for taking rabbits and squirrel.

(2) The hunting of any species after sunset is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in 50 CFR Part 32 and are effective through September 16, 1973.

CHARLES R. DARLING,
Refuge Manager, Quivira National Wildlife Refuge, Stafford, Kansas.

JULY 18, 1973.

[FR Doc.73-15444 Filed 7-26-73;8:45 am]

PART 33—SPORT FISHING

Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on July 27, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Sport fishing, including the taking of frogs, on the Flint Hills National Wildlife Refuge, Kansas, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 1,500 acres of reservoir waters and approximately 28 miles of river and stream channel, are delineated on maps available at refuge headquarters, Burlington, Kansas, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 W. Sixth Avenue, Denver, Colorado 80215. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) During the period October 1, 1973 through December 31, 1973, only Eagle Creek, the Neosho River and impoundments in the Eagle Creek and Hartford hunting units are open to public fishing, except the Neosho River Oxbow northeast of the Strawn Townsite is closed, as marked by buoys.

(2) During the period January 1, 1974 through September 30, 1974 all waters within the Flint Hills Refuge are open to sport fishing and the taking of bull frogs when in accordance with State of Kansas seasons.

(3) Vehicle access shall be confined to existing roads and trails not otherwise marked as closed to vehicle use.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in 50 CFR Part 33 and are effective through September 30, 1974.

LYLE A. STEMMERMAN,
Refuge Manager, Flint Hills National Wildlife Refuge, Burlington, Kansas.

JULY 20, 1973.

[FR Doc.73-15443 Filed 7-26-73;8:45 am]

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Subpart—Giant African Snail

REGULATED AREA IN FLORIDA

This amendment removes from regulation three areas in Dade County and the entire area in Broward County which were previously regulated because of the giant African snail. This amendment also adds a part of the city of Opa-Locka in Dade County not previously regulated. Various minor changes are also made.

Under the authority of the Federal Plant Pest Act (7 U.S.C. 150aa–150jj) the notice of existence of hazardous situation and regulations related thereto (7 CFR 331.3, 36 FR 19667), with respect to the giant African snail is hereby amended as follows:

§ 331.3 Notice of existence of hazardous situation and regulations related thereto.

(a) Infestations of the giant African snail, *Achatina fulica* Bowdich, a dangerous plant pest not widely prevalent or distributed within and throughout the United States, have been found in portions of Dade County in Florida; and it has been determined that these infestations have created a hazardous situation making it necessary to adopt a rule imposing restrictions, as provided for in this section, upon the interstate movement of certain products and articles, from the regulated portions of said county as hereinafter described, in order to prevent the interstate dissemination of the giant African snail. Accordingly, the products and articles listed in paragraph (b) of this section shall not be moved interstate from any area described in this paragraph (a), except as permitted under paragraph (c) of this section.

That area in the city of Opa-Locka bounded by a line beginning at the intersection of Perviz Avenue and Opa-Locka Boulevard, thence east and southeast along Opa-Locka Boulevard to its intersection with Superior Street, thence northeast and east along Superior Street to its junction with Northwest 24th Avenue, thence south along Northwest 24th Avenue and a projection thereof to Northwest 135th Street, thence west along Northwest 135th Street to its junction with Northwest 31st Avenue, thence north on a projected line thereof to Perviz Avenue, thence north along Perviz Avenue to the point of beginning.

That portion of Dade County bounded by a line beginning at the intersection of Northwest 22d Avenue and Northwest 91st Street, thence extending east along Northwest 91st Street to its junction with Little River Boulevard, thence southeast and south along Little River Boulevard to the point where it merges with Northwest 14th Avenue, thence south along said avenue to its intersection with Northwest 83d Street, thence west along Northwest 83d Street to its intersection with Northwest 22d Avenue, thence north along Northwest 22d Avenue to the point of beginning.

That portion of Dade County bounded by a line beginning at the intersection of Northwest 17th Avenue and Spur Canal No. 1, thence extending northeast along Spur Canal No. 1 to its intersection with Northwest 151st Street, thence east on Northwest 151st Street to its intersection with Northwest 10th Avenue, thence south on Northwest 10th Avenue to Northwest 149th Terrace, thence east on Northwest 149th Terrace to Northwest Ninth Court, thence south on Northwest Ninth Court to Northwest 148th Street, thence west on Northwest 148th Street to Northwest 10th Avenue, thence south on Northwest 10th Avenue to Opa-Locka Boulevard, thence west on Opa-Locka Boulevard to Northwest 17th Avenue, thence north on Northwest 17th Avenue to the point of beginning.

(b) The following products and articles are subject to the measures imposed under this section:

(1) Soil, compost, decomposed manure, separately or with other things.

(2) Sand, gravel, bricks, concrete blocks, stones, pipes, and tile.

(3) Forest, field, or nursery grown plants or parts thereof.

(4) Plant debris, such as leaves and cut grass.

(5) Sod.

(6) Forest products, including stumpwood and timber.

(7) Any means of conveyance or other products or articles, of any character whatsoever, not covered by paragraph (b)(1) through (6) of this section, when it is determined by an inspector that they present a hazard of spread of the giant African snail, and the person in possession thereof has been so notified.

(c) Such regulated products and articles as described in paragraph (b) of this section may be moved from the regulated portions of Dade County described in paragraph (a) of this section: *Provided:*

(1) Such products and articles have been treated to destroy giant African snail infestations in accordance with procedures prescribed by the Deputy Administrator of the Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture,[1] under the direction of an inspector authorized by the Deputy Administrator and the products and articles are accompanied by a certificate issued by such an inspector signifying that they are eligible for interstate movement; or

(2) Such products and articles originate in an area in the said regulated portions of Dade County which have been inspected by such an inspector, and he has found that the interstate movement of the products and articles from such areas will not involve a risk of disseminating said infestations, and the products and articles are accompanied by a certificate issued by such an inspector signifying that they are eligible for interstate movement; or

(3) Such products and articles are moved under permit issued by such an inspector to an approved destination for consumption, processing, or other handling in accordance with procedures approved by said inspector, when upon evaluation of the circumstances involved in each specific case he determines that such movement will not result in the spread of the giant African snail and requirements of other applicable Federal domestic plant quarantines have been met.

(Sec. 105, 71 Stat. 32, sec. 106, 71 Stat. 33, sec 107, 71 Stat. 34; 7 U.S.C. 150dd, 150ee, 150ff; 37 FR 28464, 28477.)

The foregoing amendments shall become effective July 27, 1973.

The Administrator of the Animal and Plant Health Inspection Service has determined that infestations of the giant African snail no longer exist in the three areas being released from regulation. Surveys have failed to reveal any infestations of giant African snail for at least two years in these three areas. However, a survey has revealed a giant African snail infestation in the area being brought under regulation in the city of Opa-Locka.

To the extent that these amendments relieve certain restrictions presently imposed, it should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions which are being relieved. To the extent that these amendments imposed restrictions, they are necessary in order to prevent the spread of giant African snail, and should be made effective promptly to accomplish their purpose in the public interest.

Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that further notice and other public procedure with respect to these amendments are impracticable and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 23d day of July 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-15473 Filed 7-26-73;8:45 am]

[1] Pamphlets containing such provisions are available upon request to the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Md. 20782, or from an inspector.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 596]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period July 29–Aug. 4, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.896 Lemon Regulation 596.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues quite active because of extremely warm and humid weather over the Eastern Seaboard and in the South. Supply is light in most markets and at auctions in relation to the active demand. Average f.o.b. price was $5.34 per carton the week ended July 21, 1973, compared to $4.96 per carton the previous week. Track and rolling supplies at 149 cars were down 14 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice,

V 38 - 144 JUL 27 73 XUM

engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for this section; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 24, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period July 29, 1973, through August 4, 1973, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 25, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–15593 Filed 7–26–73;8:45 am]

[Lime Reg. 6]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 29–August 4, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.406 Lime Regulation 6.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes is soft, and prices are unchanged. Prices f.o.b. packinghouse continue to range $1.35 to $1.55 per 10 pound container. Fresh shipments for the weeks ended July 21, 1973, and July 14, 1973, were 28,899 bushels and 24,512 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 24, 1973.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period July 29, 1973, through August 4, 1973, is hereby fixed at 24,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 25, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Cotton Loan Program Regs., Amdt. 4]

PART 1427—COTTON

Subpart—Cotton Loan Program Regulations

MISCELLANEOUS AMENDMENTS

Notices of proposed rulemaking with respect to the loan program for the 1973 crops of upland and extra long staple cotton regarding the operating provisions to carry out the program were published in the FEDERAL REGISTER on September 16, 1972, January 8, 1973, and on April 9, 1973, respectively.

No comments were received concerning the proposals published on September 16, 1972, and on January 8, 1973. Responses to the proposals published on April 9, 1973, are summarized as follows: Nine responses were received concerning item (a) of the notice (Adopt Strict Low Middling 1 1/16-inch as the base quality for computing upland cotton loans). Eight responses favored the proposal and one opposed. No specific comments were received concerning items (b) through (e) of the notice. Ten responses were received concerning item (f) (Schedule of micronaire differential for ELS cotton). Six favored such differentials and four opposed. Forty-seven responses were received concerning item (g) (Detailed operating provisions to carry out the loan program for upland cotton). Specific proposals included a requirement that the ginner enter the tare weight of the bale on the gin bale tag, and elimination of the one-half cent per pound discount on upland cotton reduced in grade because of extraneous matter or spindle twist. Seven responses were received concerning the first item. All favored the proposal. Forty-seven responses were received concerning the second item, 25 of which favored the proposal. The regulations issued by Commodity Credit Corporation, published as the Cotton Loan Program Regulations, in 36 FR 13981, as amended, are hereby further amended as follows:

1. Section 1427.2(c) is amended to define the Data Systems Field Office, which has absorbed the loan recordkeeping duties of the New Orleans Office. The amended paragraph (c) reads as follows:

§ 1427.2 Definitions.

• • • • • •

(c) "Data Systems Field Office" shall mean the Data Systems Field Office, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, 8930 Ward Parkway, Kansas City, Missouri 64114 (mailing address P.O. Box 205, Kansas City, Missouri 64141).

• • • • • •

2. Section 1427.3 is amended to reflect the Divisions administering the program and substitute the Data Systems Field Office for the New Orleans Office. The Data Systems Field Office absorbed the loan recordkeeping duties of the New Orleans Office. The amended section reads as follows:

§ 1427.3 Administration.

(a) The Cotton, Rice and Oilseeds Division, Agricultural Stabilization and Conservation Service, will administer the provisions of this subpart and the Program Operations Division will administer the provisions relating to cooperative marketing associations under the general supervision and direction of the Deputy Administrator, Programs, Agricultural Stabilization and Conservation Service, in accordance with program provisions and policy determined by the CCC Board and the Executive Vice President, CCC. In the field the program will be administered through State committees, county committees, and the Data Systems Field Office.

(b) Forms will be available at State and county offices and from loan clerks.

(c) State and county committees and employees thereof, loan clerks, the Data Systems Field Office, and employees thereof, do not have authority to modify or waive any of the provisions of this subpart or any amendment or supplement thereto.

(d) No delegation herein to a State or county committee or to the Data Systems Field Office shall preclude the Executive Vice President, CCC, or his designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee or by the Data Systems Field Office.

3. Section 1427.6(f) is amended to provide that cotton must not be compressed to universal density where side pressure has been applied or to high density at a warehouse. Section 1427.6(m) is amended to provide that each bale must be ginned by a ginner who has entered the tare weight on the gin bale tag. The amended paragraphs read as follows:

§ 1427.6 Eligible cotton.

• • • • • •

(f) Such cotton must not be compressed to universal density where side pressure has been applied, or to high density at a warehouse.

• • • • • •

(m) Each bale must be ginned by a ginner (1) who has entered the tare weight of the bale (bagging and ties used to wrap the bale) on the gin bale tag, and (2) who has entered into CCC–809, Cooperating Ginners' Bagging and Bale Ties Certification and Agreement or certified that the bale is wrapped with bagging and bale ties meeting the requirements of paragraph (l) of this section.

• • • • • •

4. Section 1427.8 is amended to substitute the Prairie Village ASCS Commodity Office for the New Orleans Office. The amended section reads as follows:

§ 1427.8 Approved storage.

Except as provided otherwise in § 1427.21, cotton will be accepted as security for loans only if stored at warehouses approved by CCC. When the warehouseman receives notice from CCC that a loan has been made by CCC on a bale of cotton, he shall, if such cotton is not stored within his warehouse, promptly place such cotton within the warehouse. Warehousemen desiring approval of their facilities should communicate with the Prairie Village Agricultural Stabilization and Conservation Service Commodity Office, U.S. Department of Agriculture, Brymar Office Center, 2400 West 75th Street, Prairie Village, Kansas 66208 (mailing address P.O. Box 8377, Shawnee Mission, Kansas 66208). The names of approved warehouses may be obtained from the Prairie Village Office or from State or county offices. Storage charges paid by a producer on cotton which is later pledged to CCC as security for a loan will not be refunded by CCC. If cotton is redeemed from the loan, the person removing the cotton from storage shall pay all unpaid charges at the warehouseman's established tariff rate.

5. Section 1427.9(b)(1) is amended to provide that the base loan rate for upland cotton will be calculated on the basis of Strict Low Middling 1 1/16-inch cotton. Subparagraph (3) is eliminated because extraneous matter and spindle twist discounts are no longer applicable. Subparagraph (4) is redesignated as subparagraph (3) and is amended to provide that discounts for micronaire readings shall apply to extra long staple cotton. The amended subparagraphs read as follows:

§ 1427.9 Weight, loan rate, and amount.

• • • • • •

(b) *Loan rate.* (1) The base loan rate for Strict Low Middling 1 1/16-inch upland cotton of each crop at each approved warehouse location will be stated in the schedule of base loan rates for upland cotton by warehouse locations contained in the supplement to this subpart of such crop. The schedule will be available at county offices.

• • • • • •

(3) Loan rates and micronaire discounts, if any, for extra long staple cotton of each crop will be contained in the supplement to this subpart for such crop.

• • • • • •

6. Section 1427.19(a) is amended to delete the provision that each warehouse receipt must show the type bagging used to wrap the bale. The amended paragraph reads as follows:

§ 1427.19 Warehouse receipt and insurance.

(a) *General.* Producers may obtain loans on cotton represented by warehouse receipts only if the warehouse receipts are negotiable machine card-type warehouse receipts, are issued by CCC approved warehouses, provide for delivery of the cotton to bearer or are properly assigned by endorsement in blank so as to vest title in the holder of the receipt, and otherwise are acceptable to CCC. The warehouse receipt must contain the tag number (warehouse receipt number), must show that the cotton is covered by fire insurance, and must be dated on or prior to the date the producer signs the note. If a bale is stored at the origin warehouse (the warehouse to which the bale was first delivered for storage after ginning), the warehouse receipt must contain the gin bale number. If a bale has been moved from the origin warehouse, the warehouse receipt shall, in lieu of the gin bale number, contain the tag number and identification of the origin warehouse. Open yard endorsement, if any, on the warehouse receipt must have been rescinded with the legend "open yard disclaimer deleted" with appropriate signature of the warehouseman or his authorized representative. Block warehouse receipts will not be accepted except on cotton to be reconcentrated pursuant to § 1427.22.

• • • • • •

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1444, 1421)

Effective date. This amendment shall become effective for all loans made on 1973 and subsequent crops of cotton.

Signed at Washington, D.C., on July 20, 1973.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Proposed Limitation of Handling

This notice invites written comments relative to a proposed seasonal regulation of the grade and size of fresh winter pears to be effective from August 6, 1973, through June 30, 1974. The proposed regulation, as hereinafter set forth, was recommended by the Control Committee. The committee functions pursuant to the amended marketing agreement and Order No. 927, as amended (7 CFR Part 927), which regulate the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposed regulation reflects the committee's appraisal of the 1973 crop and the current and prospective market conditions. The proposed grade and size requirements are designed to prevent the handling of winter pears grading lower than the specified grade or smaller than the specified size so as to provide consumers with good quality fruit consistent with the overall quality of the crop, while improving returns to the producers pursuant to the declared policy of the act.

In addition to the basic grade and size requirements specified for Beurre D'Anjou, Beurre Bosc, and Doyenne du Comice pears, the regulation would permit the handling of such pears bearing limited damage from skin puctures, however, this reduction in market desirability would be offset by the requirement that any pears thus affected be of a specified higher grade and larger size. Likewise, Beurre D'Anjou pears, grown in the Wenatchee District, which fail to meet U.S. No. 2 grade requirements only because of specified types of damage would be required to be of considerably larger size with at least half of each pear showing no such damage. The provision that any handler may ship size 180 Beurre D'Anjou pears of at least U.S. No. 1 grade in an amount not exceeding 2 percent of his total seasonal shipments of U.S. No. 1 grade, or better, would permit the marketing of pears of a desirable quality which offsets the smaller size.

The requirement that the core temperature of Beurre D'Anjou pears grown in the Oregon and Washington Districts and shipped prior to October 15, 1973, must have been lowered to the specified temperature (35° F.) would assure proper ripening of such pears.

The proposed regulation is as follows:

§ 927.312 Pear Regulation 12.

(a) Order: During the period August 6, 1973, through June 30, 1974, no handler shall ship any of the following varieties of pears which do not meet the requirements hereinafter specified:

(1) Beurre D'Anjou pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2 except that any handler may ship a quantity of Beurre D'Anjou pears that are not smaller than 180 size and not less than U.S. No. 1 grade which quantity shall not exceed 2 percent of the total U.S. No. 1 or better grades of such variety shipped by the handler, during the aforesaid period: *Provided*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size: *Provided further*, That pears of such variety grown in the Wenatchee District which fail to meet the requirements of U.S. No. 2 grade only because of serious, but not very serious, damage caused by frost injury, healed hail marks, russeting, or limbrubs, may be shipped if they are of a size not smaller than 135 size and they are not so seriously misshapen as to preclude the cutting of at least one good half;

(2) Beurre D'Anjou pears shipped from the Medford, Hood River-White Salmon-Underwood, Wenatchee, and Yakima Districts prior to October 15, 1973, shall have an appropirate certification by the Federal-State Inspection Service, issued prior to shipment, showing that the core temperature of such pears has been lowered to 35° Fahrenheit or less;

(3) Beurre Bosc pears shall grade at least U.S. No. 1 and shall be of a size not smaller than 195 size: *Provided*, That pears of such variety which grade at least U.S. No. 2 may be shipped if they are of a size not smaller than 180 size: *Provided further*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size;

(4) Doyenne du Comice pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2: *Provided*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size; and

(5) Winter Nelis pears shall be of a size not smaller than 195 size and shall grade at least U.S. No. 2.

(b) During the aforesaid period, each handler may ship on any one conveyance up to, but not to exceed, 200 standard western pear boxes of any variety of pears, or an equivalent quantity of pears in other containers computed by weight to the nearest 5 pounds, without regard to the inspection requirements of § 927.60 (a), under the following conditions:

(1) Each handler desiring to make shipment of pears pursuant to this paragraph (b) (1) shall first apply to the committee, on forms furnished by the committee, for permission to make such shipments. At the time of any such shipment the handler shall report to the committee, on forms supplied by the committee, the car or truck number and the destination of the shipment.

(2) On the basis of such individual reports the committee shall require spot check inspection of such shipments.

(c) When used herein, "U.S. No. 1" and "U.S. No. 2" shall have the same meaning as when used in the United States Standards for Winter Pears such as Anjou, Bosc, Winter Nelis, Comice, and other similar varieties (7 CFR 51.-1300–51.1323); "135 size," "165 size," "180 size," and "195 size," shall mean that the pears are of a size which, as indicated by the size number, will pack, in accordance with the sizing and packing specifications of a standard pack as specified in said United States Standards, 135, 165, 180, or 195 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); "very serious damage" shall mean any injury or defect which very seriously affects the appearance of the edible or shipping quality of the pears; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than July 30, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 23, 1973.

FRED DUNN,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15471 Filed 7-26-73;8:45 am]

[7 CFR Part 993]

DRIED PRUNES PRODUCED IN CALIFORNIA

Proposed Salable and Reserve Percentages for 1973–74 Crop Year

Notice is hereby given of a proposal unanimously recommended by the Prune Administrative Committee to establish salable and reserve percentages for California dried prunes of 100 percent and 0 percent, respectively, for the 1973–74 crop year, pursuant to the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order (hereinafter referred to collectively as the "order") are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). These percentages would be applicable to all prunes received by handlers from producers and dehydrators during the 1973–74 crop year (beginning August 1, 1973).

The Committee's recommendation is based on its estimate of 1973 California dried prune production of 160,000 tons, natural condition weight, and carryin of 6,000 tons, natural condition weight. This would result in an estimated supply of 166,000 tons. The Committee also estimated 1973–74 domestic trade demand at 106,800 tons (natural condition weight) and foreign trade demand at 34,000 tons (natural condition weight), leaving a carryout on July 31, 1974, of 25,200 tons. A carryout of 25,000 tons is deemed desirable. Therefore, the Committee recommended that the salable and reserve percentages for the 1973–74 crop year be 100 percent and 0 percent, respectively.

The Committee's estimate of California's 1973 dried prune production was the same as the Crop Reporting Board's estimate as of June 1, 1973. Since then, the Crop Reporting Board revised its estimate and, as of July 1, is estimating 1973 production at 170,000 tons.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 15, 1973. All written submissions made pursuant to this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 993.209 Salable and reserve percentages for prunes for the 1973–74 crop year.

The salable and reserve percentages for the 1973–74 crop year shall be 100 percent and 0 percent, respectively.

Dated: July 23, 1973.

FRED DUNN,
Acting Director, Fruit and Vegetable Division.

[FR Doc.73-15476 Filed 7-26-73;8:45 am]

[7 CFR Part 1050]

[Docket No. AO 355–A13]

MILK IN THE CENTRAL ILLINOIS MARKETING AREA

Notice of Recommended Decision and Opportunity to File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Central Illinois marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, by August 13, 1973. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Bridgeton, Missouri, on May 23, 1973, pursuant to notice thereof issued on May 11, 1973, (38 FR 12926).

The material issues on the record of the hearing relate to:

1. Pooling standards for distributing plants.
2. Designation of a cooperative as a handler on bulk tank milk.
3. Order format.
4. Emergency action.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pooling standards for distributing plants.* The provisions of the order with respect to pool distributing plant performance standards should be modified. For purposes of determining whether a distributing plant has met the pooling percentages specified in the order, both as to the proportion of its receipts distributed on routes in the marketing area and the proportion distributed on all routes, receipts at the distributing plant should (a) exclude the amount of fluid milk products transferred without specific Class II designation to other pool distributing plants, and (b) include all Grade A milk received by transfer from other pool plants.

The order currently provides that a pool distibuting plant's total route disposition, both inside and outside the marketing area, must be at least 50 percent of its Grade A receipts from dairy farmers and cooperative associations in their capacity as bulk tank handlers during the months of August through February, and 40 percent during all other months. In addition, a pool distributing plant's route disposition in the marketing area must be not less than (a) 10 percent of such receipts, or (b) an average of 7,000 pounds per day.

A cooperative association supplying the market proposed that transfers and diversions of bulk and packaged fluid milk products from a distributing plant to other pool plants be excluded from the former plant's receipts for purposes of determining its performance percentages. Proponent contended that the proposed change in the order is needed if the possibility of loss of producer status for a substantial number of dairy farmers supplying the Central Illinois market is to be avoided. No opposition to the proposal was expressed at the hearing or in briefs.

Proponent operates a pool distributing plant that it acquired as a result of a merger with another cooperative association on November 1, 1972. Most of the fluid milk processed and packaged at this plant is distributed on routes in the marketing area. However, some of it is moved to other pool distributing plants for which proponent is a custom bottler. In addition, the association's plant is the principal supplier of bulk fluid milk for yet another pool distributing plant.

The latter plant is physically unable to receive milk directly from producers. Therefore, milk supplied to this plant is received initially at proponent's plant where it is cooled and stored until needed. It is then shipped to the second plant and pumped directly from tank trucks into the plant's own processing and packaging facilities.

The producer milk that must be received at proponent's plant in order to perform these supply plant and custom bottling plant functions ultimately is used for Class I route disposition by other pool distributing plants. The producers receipts associated with this route disposition are credited to proponent's plant while the route disposition itself is credited to the other pool plants. Proponent contends that the consequent decrease in its plant's performance percentages jeopardizes its pool status. The

V 38 - 144 JUL 27 73 XUM

association projects that during the summer, when route sales to schools are down and producer receipts are near their seasonal peak, its plant will not be able to meet the total route disposition requirement now specified in the order.

Proponent cited a recent change in its plant's supply situation as an additional factor that is contributing to its pooling difficulties. In October 1972, a large pool distributing plant ceased all processing operations leaving a substantial number of producers with no immediately available fluid outlet for their milk. Subsequently, proponent began receiving the milk of a number of these producers at its plant. Proponent has continued to receive these additional supplies since that time.

The revised method of computing pooling percentages adopted herein, by excluding transfers of fluid milk not specifically designated as Class II from the shipping plant's receipts and including them in the receiving plant's receipts, will, in effect, allocate the former plant's receipts to the plant that actually made use of such receipts for route disposition. This will enable the shipping plant to continue performing services that are vital to the fulfillment of the market's fluid needs without risking its pool plant status.

In addition the modification will provide a more logical basis for computing performance percentages for a distributing plant that receives a substantial amount of milk from pool plants. Under the present order provisions, milk transferred from pool plants to a distributing plant is not counted as part of the receiving plant's receipts for purposes of determining its pool status. However, to prevent such a distributing plant from attaining pool status when most of its receipts are utilized for Class II products it is necessary that all transfers from other pool plants, and not just those transfers without a specified Class II designation be included in a transferee distributing plant's receipts for qualifying purposes.

For similar reasons, transfers from a distributing plant to pool supply plants and nonpool plants, and transfers from a distributing plant to pool distributing plants when such transfers carry a specific Class II designation, should not be excluded from the shipping plant's receipts for purposes of determining its pool status. Under normal circumstances, milk will not be so transferred unless it is to be used for manufacturing purposes at the receiving plant. If such transfers were excluded from the shipping distributing plant's receipts for qualifying purposes, the plant could conceivably maintain its pooling percentages at or above the minimum levels specified in the order even though a major portion of its receipts were ultimately used to produce manufactured products.

2. *Designation of a cooperative as a handler on bulk tank milk.* The order should provide that a cooperative association shall be the handler for the milk of each producer (regardless of whether he is a member of that cooperative) moved from the farm for delivery to the pool plant of another handler in a tank truck under the control of such association. However, if the milk is received by the plant operator on the basis of weights determined from its measurement at the farm and butterfat tests based on farm tank samples, the plant operator shall be the handler for such milk when the association and the plant handler so agree. In this circumstance the cooperative association would be a handler with respect to such milk only for the purpose of filing certain reports with respect to such milk. In addition, a cooperative association should be the handler for all milk (member and nonmember) it causes to be diverted for its account from a pool plant to a nonpool plant.

Under the current order provisions, a cooperative association may be a bulk tank handler or a diverting handler with respect to milk of its member producers. Moreover, a cooperative may now elect whether to be the handler with respect to milk it delivers from the farm to a pool plant in a tank truck under its control.

Milk produced for this market is handled through farm bulk tanks and moved to the market in tank trucks. After the milk has been pumped from the farm tank into the tank truck and commingled with the milk of other producers, there is no further opportunity to measure, sample, or reject the milk of the individual producer. Milk of a nonmember, when commingled in a tank truck with that of members of a cooperative association, cannot be distinguished from milk of such members. The amount of milk delivered by producers using farm bulk tanks, and the butterfat content thereof, can be determined only by measurement at the farm and from milk samples taken at the farm.

When milk is picked up at the farm by a cooperative association, or by a person under contract to, or under the control of, such association, it is the association that determines the weight and butterfat content of each producer's milk. In some instances the plant operator may not know the identity of the individual producer whose milk he receives. Accordingly, the association must be the responsible handler for such milk unless it is received by the pool plant operator on the basis of weights determined from measurement at the farm and butterfat tests determined from farm tank samples. When milk is received by the plant operator on the basis of farm weights and tests described above, the plant operator may be the responsible handler if he and the cooperative association mutually agree and so notify the market administrator prior to the date for filing reports of receipts and utilization for the first month such agreement is to be effective. When milk is received at the pool plant on the basis of such agreement, it will be a receipt at such plant from producers, not from another handler. The cooperative association, however, would be required to report to the market administrator the total volume of milk delivered to the plant, and to file a payroll report showing the weight and butterfat content of the milk of the individual producers involved.

At the hearing, cooperative association representatives expressed opposition to any provision that would require the association, rather than the pool plant operator, to pay nonmember producers for milk moved to the pool plants of other handlers on trucks owned or operated by the association. The above described agreement will make it possible for a cooperative association to pick up on its trucks the milk of nonmember producers, without its becoming obligated to make payment to such nonmember producers for the milk.

A cooperative association's basic responsibilities under the order as a bulk tank handler will not be affected by these modifications and, under the type of agreement with the plant operator provided for, will continue to be limited primarily to filing a report as to the farm weights and tests of such milk and as to the quantities transferred to other handlers. The cooperative's monetary obligations to the pool, with respect to the milk for which it is the bulk tank handler, will continue to be with respect to any difference in the amounts of milk and butterfat as measured at the farm and those recorded at the receiving plant when the plant operator receives the milk at scale weight rather than on farm measurement. This usually will be at its value as shrinkage in accordance with the shrinkage provisions.

Several cooperative associations expressed concern at the hearing that the modifications adopted herein might require a cooperative to be the handler for the milk of nonmember producers. Nothing in the amended order as adopted requires a cooperative association to pick up the milk of nonmember producers in tank trucks under the association's control. It does provide that if a cooperative should pick up milk of nonmember producers on routes under its control, it will be, for the foregoing reasons, the responsible handler for such milk unless the plant operator to whose plant such milk is delivered purchases the milk on the basis of farm weights and butterfat tests. The cooperative association may collect payment from pool plant operators for producers who are not members of such association and with respect to whose milk the association is the bulk tank handler. The market administrator should determine, however, that each such nonmember has given the association authorization to make such collection.

In the event that the milk of a nonmember producer is diverted from a pool plant to a nonpool plant by a cooperative association for the account of such association, the cooperative should be the diverting handler with respect to such milk. Here the cooperative performs the complete handling function and, in such capacity, obviously must be held to be the responsible handler for order obligations.

In their briefs, the cooperative associations expressing concern over this matter at the hearing requested that consideration of this entire issue be deferred until a later date. In view of the above findings, it is concluded that this request should be denied.

3. *Order format.* Consideration was given at the hearing to revising the format of the Central Illinois order. It is concluded, however, that such a revision would not be appropriate at this time. Amendatory proceedings for 39 markets, including the Central Illinois market, on the proposed use of a uniform plan for classifying milk for pricing purposes under Federal milk orders are currently in progress. Consideration is being given in those proceedings to a uniform format for all 39 orders.

4. *Emergency action.* Proponent cooperative requested that emergency action be taken with respect to its proposal to revise the pool plant provisions. It claimed that emergency action is necessary if its plant is to retain its pool status through the summer months.

A suspension order, requested by proponent at the hearing pending the completion of this amendatory procedure was issued on June 26, 1973, by the Assistant Secretary. The order suspends the total route disposition requirement for the months of June through August 1973 and will enable proponent's plant to maintain its pool status during such period. In view of this action, it is concluded that a recommended decision should be issued and opportunity for filing exceptions thereto should be given. The request for emergency action is therefore denied.

Rulings on Proposed Finding and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Central Illinois marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. Section 1050.7 is revised to read as follows:

§ 1050.7 Producer.

"Producer" means any person, other than a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, and whose milk is (a) received at a pool plant, (b) diverted as producer milk pursuant to § 1050.14, or (c) accounted for by a cooperative association pursuant to § 1050.14(b).

2. In § 1050.9, paragraphs (c) and (d) are revised to read as follows:

§ 1050.9 Handler.

* * * * *

(c) Any cooperative association with respect to milk of producers diverted for its account from a pool plant to a nonpool plant pursuant to § 1050.14;

(d) Any cooperative association with respect to producer milk it causes to be moved from the farm for delivery to the pool plant of another person in a tank truck owned and operated by, or under contract to, such cooperative association. The cooperative association shall be the handler on such milk only for the purposes of §§ 1050.30 and 1050.31, if the plant operator and the association both notify the market administrator, on or before the due date for filing monthly reports of receipts and utilization for the first month such plan is to be operative, that the operator of the pool plant received the milk from dairy farmers as producer milk and the pool plant operator states that he is purchasing the milk on the basis of weights determined from its measurement at the farm and butterfat tests based on farm tank samples;

* * * * *

3. In § 1050.12, paragraph (a) (1) and (2) is revised to read as follows:

§ 1050.12 Pool plant.

* * * * *

(a) * * *

(1) Disposition of fluid milk products, except filled milk, in the marketing area on routes is 10 percent or more of its Grade A receipts from dairy farmers, handlers described in § 1050.9(d), and other pool plants, such receipts to be exclusive of fluid milk products (except filled milk) transferred without specific Class II designation to other pool plants described in this paragraph, or from which an average of not less than 7,000 pounds per day of fluid milk products, except filled milk, is distributed on routes in the marketing area; and

(2) Total disposition of fluid milk products, except filled milk, on routes is 50 percent or more of its Grade A receipts from dairy farmers, handlers described in § 1050.9(d), and other pool plants, such receipts to be exclusive of fluid milk products (except filled milk) transferred without specific Class II designation to other pool plants described in this paragraph, during the months of August through February and 40 percent during all other months;

* * * * *

4. Section 1050.14 is revised to read as follows:

§ 1050.14 Producer milk.

Except for milk received at a pool plant by diversion from a plant at which such milk is fully subject to the pricing and pooling provisions of this or any other order issued pursuant to the Act, "producer milk" means all skim milk and butterfat contained in milk from producers that is:

(a) Received at a pool plant from producers or from a handler described in § 1050.9(d);

(b) Represented by the difference between the quantity of milk received by a handler described in § 1050.9(d) at producers' farms and the quantity of such milk delivered to pool plants. For the purposes of §§ 1050.53 and 1050.81, such milk shall be deemed to have been received by such handler at the pool plant to which all other producer milk in the same tank truck was delivered;

(c) Diverted by a handler from a pool plant for the account of the plant operator to another pool plant(s) for not more days of production of such producer's milk than is physically received at a pool plant(s) from which diverted. For pricing purposes such diverted milk shall be deemed to be received by the diverting handler at the location of the plant to which diverted;

(d) Diverted from a pool plant to a nonpool plant that is not an other order plant or to a nonpool plant that is an other order plant if diverted as Class II milk, subject to the conditions of this

V 38-144
JUL 27 73
XUM

paragraph. For pricing purposes, milk so diverted shall be deemed to be received at the plant from which diverted, unless the plant to which the milk is diverted is located more than 110 miles from the city hall in Peoria, Ill. (by shortest highway distance as determined by the market administrator) in which case the milk shall be deemed to be received by the diverting handler at the location of the plant to which diverted:

(1) During May, June and July the operator of a pool plant or a cooperative association may divert the milk production of a producer on any number of days;

(2) Subject to the conditions set forth in paragraph (d)(4) of this section, during the months of August through April the operator of a pool plant may divert the milk of a producer for not more days of production of such producer's milk than it is physically received at the pool plant from which diverted: *Provided*, That the total quantity of producer milk diverted does not exceed 35 percent of the physical receipts of producer milk at the handler's pool plant during the month, exclusive of milk of producers who are members of a cooperative association that is diverting milk and the milk of other producers that is diverted pursuant to paragraph (d)(3) of this section;

(3) Subject to the conditions set forth in paragraph (d)(4) of this section, during the months of August through April a cooperative association may divert the milk of its individual member producers for not more days of production of each producer's milk than is physically received at a pool plant: *Provided*, That the total quantity of producer milk does not exceed 35 percent of (i) its member milk physically received at pool plants during such month and (ii) other producer milk for which the cooperative association is the handler pursuant to § 1050.9(c) during such month;

(4) In the case where a cooperative association has notified the market administrator and the handler in writing prior to the first day of the month that milk of specified member producers will not be diverted by the cooperative and is not to be included in computing the cooperative association's diversion percentage for the month, milk of such producers shall be deducted from the cooperative's total receipts of member milk for the purposes specified in paragraph (d)(3) of this section and added to the total milk receipts included in computing the diversions of the pool plant handler who receives their milk for the purposes specified in paragraph (d)(2) of this section;

(5) When milk is diverted in excess of the limits specified in paragraph (d)(2) and (3) of this section, eligibility as producer milk under this section shall be forfeited on the excess quantity. In such event the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If a handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler; and

(6) Milk diverted to an other order plant under the conditions specified in this section shall be producer milk pursuant to this section only if it is not producer milk under such other order.

5. In § 1050.41, paragraph (b)(7)(iii) and (vi) is revised to read as follows:

§ 1050.41 Classes of utilization.

. . . . . .

(b) . . .

(7) . . .

(iii) One and one-half percent of milk received in bulk from handlers described in § 1050.9(c); plus

. . . . . .

(vi) One and one-half percent of bulk transfers of milk to a pool plant of another handler; less

. . . . . .

6. In § 1050.80, paragraphs (b) and (d) are revised to read as follows:

§ 1050.80 Time and method of payment for producer milk.

. . . . . .

(b) Payments required in paragraph (a) of this section for milk caused to be delivered to such handler by a cooperative association qualified under § 1050.5 shall be made to such association, or its duly authorized agent, which the market administrator determines is authorized by such producers to collect payment for their milk and which has so requested the handler in writing. Such handler shall, on or before the 18th day of the following month, pay the cooperative association for milk received during the month from producers at the direction of such association as determined by the market administrator an amount equal to not less than the amounts due such producers as determined pursuant to paragraph (a) of this section, less any deductions authorized in writing by such association: *Provided*, That the association has provided the handler with a written promise to reimburse the handler the amount of any actual loss incurred by such handler because of any improper claim on the part of the cooperative association;

. . . . . .

(d) On or before the 18th day of the following month, each handler, in his capacity as the operator of a pool plant, who receives milk for which a cooperative association is the handler pursuant to § 1050.9(d), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk at the uniform price adjusted by applicable butterfat and location adjustments.

Signed at Washington, D.C., on: July 23, 1973.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

Animal and Plant Health Inspection Service

[9 CFR Part 381]

POULTRY EVISCERATING FACILITIES

Notice of Proposed Rulemaking

Notice is hereby given in accordance with administrative procedure provisions in 5 U.S.C. 553, that pursuant to the authority in the Poultry Products Inspection Act, (21 U.S.C. 451 et seq.), the Animal and Plant Health Inspection Service proposes to amend § 381.53(f)(4) (9 CFR 381.53(f)(4)) of the poultry products inspection regulations to allow the use of other acceptable facilities in lieu of troughs flushed with water to move inedible material away from poultry eviscerating lines.

Statement of considerations. Existing poultry products inspection regulations prescribe facilities to be used for eviscerating poultry on moving conveyors. These regulations require the use of a trough beneath the suspended birds. Such troughs use large quantities of water to maintain proper sanitation and to move inedible materials away from the processing area. Because of increasing concern for conserving water supplies and abating pollution, some poultry processors are considering methods that would eliminate the conventional trough beneath the eviscerating line now required by the regulations.

The purpose of the proposed revision is to relieve the present restrictions and to permit consideration of alternative methods that would accomplish equal results in terms of a sanitary operation.

Accordingly, § 381.53(f)(4) of the poultry products inspection regulations would be revised to read as follows:

§ 381.53 Equipment and utensils.

. . . . . .

(f) . . .

(4) When eviscerated on a conveyor, each carcass shall be suspended and a trough or other acceptable facilities for maintaining proper sanitation shall be provided beneath the conveyor. Such troughs or other facilities shall be flushed in an acceptable manner and shall extend beneath the conveyor at all places where processing operations are conducted from the point where the carcass is opened to the point where the viscera have been completely removed.

. . . . . .

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by September 28, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Facilities and Equipment Staff, Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on July 20, 1973.

G. H. WISE,
Acting Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 73-SW-39]

AIRWORTHINESS DIRECTIVES

Bell Model 206 Series and 47 Series Helicopters; Proposed Rule Making

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Bell Model 206 Series and 47 Series helicopters. There have been reports of fatigue cracks in the tail rotor blade, P/N 206-010-750, on Bell Model 206 Series helicopters that could possibly result in failure of of the tail rotor blade. The Model 47 Series tail rotor blade, P/N 47-642-117, could also have the same type of failure since it is almost identical to P/N 206-010-750. Since this condition is likely to exist or develop in other helicopters of the same type designs, the proposed airworthiness directive would require a daily inspection of the tail rotor blade for cracks on Bell Model 206 Series and 47 Series helicopters.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before August 24, 1973 will be considered by the Director before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BELL. Applies to Model 206 Series and 47 Series helicopters, certificated in all categories, equipped with tail rotor blades, P/N 206-010-750 or 47-642-117, respectively.

Compliance required as indicated.

To prevent failure of tail rotor blades due to fatigue cracks, accomplish the following:

(a) Before the first flight of each day after the effective date of this A.D., visually check for cracks in the tail rotor blade in an area approximately seven inches outboard from the butt end of the blade and approximately 1.5 inches aft of the leading edge, using a three-power or higher magnifying glass.

(b) If a crack is found, remove and replace the tail rotor blade before further flight.

(c) If no cracks are found, continue the repetitive inspections specified above.

(d) The check in (a) may be performed by a pilot.

NOTE: For requirements regarding listing of compliance and method of compliance with this A.D. in the aircraft permanent maintenance record, see § 91.173, Federal Aviation Regulations.

(Bell Helicopter Company Technical Bulletin Nos. 206-05-73-2, 47-05-73-1, dated May 3, 1973, pertains to this subject.)

Issued in Fort Worth, Texas on July 16, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73-15457 Filed 7-26-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-EA-62]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Chesterfield, Va., Transition Area over Chesterfield County Airport, Chesterfield, Virginia.

A new instrument approach procedure developed for Chesterfield County Airport, Chesterfield, Va. requires designation of additional controlled airspace for IFR arrivals and departures at Chesterfield County Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before August 16, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Chesterfield, Virginia, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by designating a Chesterfield, Va. transition area as follows:

CHESTERFIELD, VA.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the center 37°24'25" N., 77°31'18" W. of Chesterfield County Airport, Chesterfield, Va. and within 2.5 miles each side of the Flat Rock, Va. VORTAC 117° radial, extending from the 5.5-mile radius area to 12.5 miles southeast of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on July 17, 1973.

ROBERT H. STANTON,
Acting Director,
Eastern Region.

[FR Doc.73-15458 Filed 7-26-73;8:45 am]

[14 CFR Parts 71 and 73]

[Airspace Docket No. 73-RM-21]

RESTRICTED AREA AND CONTINENTAL CONTROL AREA

Proposed Alteration and Designation

The Federal Aviation Administration (FAA) is considering amendments to

V38-144 JUL 27 73 XUM

Parts 71 and 73 of the Federal Aviation Regulations that would designate a joint-use restricted area at Green River, Utah, and include it in the Continental Control Area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colo. 80207. All communications received on or before August 27, 1973 will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The restricted area, essentially re-established R–6413, Green River, Utah, is requested to provide for the launching of the United States Army Pershing ballistic missiles. The boundaries are defined so as to contain the first stage booster impact and, when required, the unignited second stage and missile warhead. It is planned that launches would result with the expended second stage and the warhead impacting in R–5107B and R–5103, White Sands Missile Range. The proposed area will be designated for a period of approximately 3 months, commencing September 24, 1973, through December 31, 1973. Tentatively, 8 launches are scheduled for this period. The proposed restricted area would be activated for approximately two hours for each launch. Launch periods are normally scheduled during the periods of minimum air traffic activity which is usually during the nighttime hours. The launching activites would be advertised in advance in news media and broadcasted by the Federal Aviation Administration Flight Service Stations prior to issuance of a NOTAM which provides the specific hours covering the period of missile launch. Communications will be available between the air traffic control facilities, the launch site, White Sands Missile Range Control, and Holloman AFB Mission Control. The launch site restricted area would be utilized only long enough to clear the area of non-participating air traffic and to launch the missile. Immediately thereafter, the area would be released for general usage.

If adopted, Restricted Area R–6413, together with the existing restricted airspace at White Sands Missile Range, will make unnecessary earlier proposals to reestablish R–6410, Blanding, Utah, and establish a new restricted area, R–5107H, within the El Paso-Alamogordo VFR corridor for missile launch and recovery support operations respectively. The related Airspace Dockets Numbers 73–RM–15 (38 FR 12216) and 73–SW–20 (38 FR 10117) and its Supplement (38 FR 12934) are withdrawn by Airspace Docket No. 73–WA–31.

Since the missiles will leave and re-enter restricted airspace at or above FL 600, they will not adversely affect aviation activities. The using agency must comply with the provisions of Part 101 of the Federal Aviation Regulations before conducting any missile activity outside restricted airspace, including obtaining any necessary waivers.

The need for restricted airspace for this activity is a recurring one. As there is no expected change in justification, each successive period would be announced by NOTAM published 48 hours in advance.

The FAA is considering the designation of R–6413, Green River, Utah, as follows:

1. R–6413, Green River, Utah

BOUNDARIES

Beginning at Lat. 38°57'00"N., Long. 110°09'40"W.; thence to Lat. 38°46'03"N.; Long. 110°06'00"W.; to Lat. 38°31'30"N., Long. 109°57'00"W.; to Lat. 38°31'30"N., Long. 109°51'00"W.; to Lat. 38°33'27"N., Long. 109°46'00"W.; to Lat. 38°49'15"N., Long. 109°57'02"W.; to Lat. 38°58'02"N., Long. 110°05'33"W.; thence to point of beginning.

Designated altitudes. Surface to unlimited.

Time of designation. As published by NOTAM issued 48 hours in advance of area activation.

Controlling agency. Federal Aviation Administration, Denver ARTC Center.

Using agency. Air Force Special Weapons Center, Air Force Systems Command, Kirtland AFB, New Mexico.

2. The continental control area would be altered by adding Restricted Area R–6413, Green River, Utah.

These amendments are proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 20, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–15459 Filed 7–26–73;8:45 am]

[14 CFR Part 121]

[Docket No. 13057; Notice No. 73–21]

CARRIAGE OF WEAPONS AND ESCORTED PERSONS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 121 of the Federal Aviation Regulations to provide rules for the carriage of deadly or dangerous weapons and persons in the custody of law enforcement personnel aboard aircraft operated by Part 121 certificate holders. These amendments would also apply to air travel clubs certificated under Part 123 and to air taxi operators certificated under Part 135, when conducting operations governed by those parts with large airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before September 25, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the Rules Docket, for examination by interested persons.

Section 121.585 currently provides that no person may, while aboard an airplane being operated by a certificate holder, carry on or about his person a deadly or dangerous weapon, either concealed or unconcealed. Section 121.585 specifically states that it does not apply to officials or employees of a municipality or a State, or of the United States who are authorized to carry arms, and does not apply to crewmembers or other persons authorized by the certificate holder to carry arms.

Section 121.538(b) requires certain air carriers and commercial operators to adopt and put into use a screening system, acceptable to the Administrator, that is designated to prevent or deter the carriage aboard its aircraft of any explosive or incendiary device or weapon in carry-on baggage or on or about the persons of passengers, except as provided in § 121.585. In addition, § 121.538(c) requires each certificate holder to have an FAA approved security program, which includes the screening system prescribed by paragraph (b) of that section.

The FAA has observed that the large number of hijacking incidents over the past few years has created a potentially dangerous situation with respect to persons legally carrying arms aboard aircraft as authorized by § 121.585. Persons legally armed often have not been aware of the presence of other legally armed persons on board the same aircraft. Moreover, these persons are frequently escorting prisoners, whose presence requires additional security measures. In addition, there have been instance when inadequate identification procedures have resulted in the carriage of deadly or dangerous weapons by persons not authorized to do so under § 121.585. Such inadequate procedures have also disrupted law enforcement missions in which the officer's anonynimity was essential to its success, because an uninformed security officer or employee of a certificate holder questioned the officer's authority to carry a weapon, after he had already been cleared through the certificate holder's security procedures.

It is proposed to amend § 121.585 by adding a new paragraph (a) to regulate the carriage of a deadly or dangerous weapon by authorized persons. New paragraph (a) would require that an official or employee of a municipality or a State who intends to carry a weapon in the passenger compartment of a certificate holder's aircraft must show to the certificate holder's satisfaction that carriage of the weapon is necessary in connection with the performance of that person's official duty while aboard the aircraft, as, for example, during the escorting of a prisoner, when additional security is needed because the means of physically restraining the prisoner are limited. The rule would not provide for this showing of necessity by officials or employees of the United States, because of the interstate nature of their jurisdiction.

It is also proposed to amend § 121.585 to provide that crewmembers and other persons authorized by the certificate holder to carry weapons aboard its aircraft must also be authorized by the Administrator. In addition, such persons would have to have successfully completed an approved course of training in the use of arms. The purpose of these proposed changes is to ensure that only responsible, properly trained persons are permitted to carry weapons on board a certificate holder's aircraft.

In addition, § 121.585(a) would provide that a certificate holder may not carry an armed person aboard its aircraft unless it has been notified of the flight on which that person intends to carry the weapon at least one hour, or in an emergency as soon as practicable, before departure, and that person has identified himself to the certificate holder by presenting credentials that include his clear, full-face picture, his signature and the signature of his supervisor. The armed person would not be allowed to use a badge, shield, or similar device as his sole means of identification.

Moreover, the proposed new provisions of § 121.585 would require the armed person to show to the satisfaction of the certificate holder that the armed person is familiar with its procedures for the carriage of a weapon aboard its aircraft, and would require the certificate holder to ensure that he has been identified to each law enforcement officer and each employee of the certificate holder responsible for security during boarding, the pilot in command, and any other person carrying a weapon in accordance with § 121.585(a).

A new paragraph (b) would be added to § 121.585 to provide that a deadly or dangerous weapon could not be carried in checked baggage unless the certificate holder determines that the weapon is unloaded, and the baggage is locked and carried in either the crew compartment or an area that is inaccessible to passengers. Only the passenger would retain the key to the baggage in which the weapon is carried.

The proposed amendments would add a new subparagraph (4) to § 121.538(c) to require that each certificate holder's security program include procedures, facilities, or a combination thereof designed to assure that only a person authorized under § 121.585 is permitted to carry a deadly or dangerous weapon on or about his person or in carry-on baggage while aboard any of its aircraft.

It is also proposed to add a new § 121.584 to Part 121 to provide rules for the carriage of a person in the custody of law enforcement personnel. No certificate holder would be permitted to carry such a person aboard its aircraft unless it has been notified, at least one hour before departure, of the identity of the escorted person and the flight on which he will be carried, and whether the escorted person is considered dangerous by the governmental entity having custody of him. In addition, the certificate holder would have to have been assured by the escort that the person in his custody does not have any article on or about his person that may be used as a deadly or dangerous weapon. The certificate holder would not be allowed to carry an escorted person who it has been notified is considered dangerous, unless that person is accompanied by at least two escorts, and it would not be allowed to carry more than one dangerous person and his escorts on an aircraft carrying other passengers.

Furthermore, the escorted person and his escort would have to be boarded before all other passengers board, and deplaned after all deplaning passengers have left, the aircraft. They would have to be seated in the rearmost passenger seats, other than in any lounge area, that are neither next to, nor directly across the aisle from, any aircraft exit. In addition, at least one escort would have to sit between the escorted person and any aisle, and an escort would have to accompany the escorted person and keep him under surveillance at all times. The certificate holder would not be allowed to serve food or beverages, or provide metal eating utensils, to the escorted person without permission from the escort.

Section 121.575(b) would be amended to prohibit the serving of alcoholic beverages to a person carrying a deadly or dangerous weapon in accordance with § 121.585(a) or to a person being escorted in accordance with proposed § 121.584 or his escort. Under proposed § 121.585 (c) no person carrying a deadly or dangerous weapon on or about his person or in carry-on baggage, would be permitted to drink any alcoholic beverage while aboard a certificate holder's aircraft.

These amendments are proposed under the authority of sections 313(a) and 601(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421(a)), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 121 of the Federal Aviation Regulations as follows:

1. By amending paragraph (c) of § 121.538 by striking out the word "and" at the end of subparagraph (2) and the period at the end of subparagraph (3), and by adding the phrase "; and" at the end of subparagraph (3) and a new subparagraph (4) to read as follows:

§ 121.538 Aircraft security.

• • • • • •

(c) • • •

(4) Assure that only persons authorized under § 121.585(a) are permitted to carry deadly or dangerous weapons on or about their persons or in carry-on baggage while aboard any of its aircraft.

• • • • • •

2. By amending paragraph (b) of § 121.575 to read as follows:

§ 121.575 Alcoholic beverages.

• • • • • •

(b) No certificate holder may serve any alcoholic beverage to any person aboard any of its aircraft who—

(1) Appears to be intoxicated;

(2) Is escorting a person or is being escorted in accordance with § 121.584; or

(3) Is carrying a deadly or dangerous weapon in accordance with § 121.585(a).

• • • • • •

3. By adding a new § 121.584 to Part 121 to read as follows:

§ 121.584 Carriage of person in the custody of law enforcement personnel.

(a) No certificate holder may carry a person in the custody of law enforcement personnel, unless the following conditions are met:

(1) The certificate holder has been notified at least one hour before departure—

(i) Of the identity of the escorted person and the flight on which he will be carried; and

(ii) Whether the escorted person is considered dangerous by the governmental entity having custody of him.

(2) The escort has assured the certificate holder that the escorted person does not have any article on or about his person that could be used as a deadly or dangerous weapon.

(3) The escorted person is in the custody of at least two escorts, if the certificate holder has been notified that the escorted person is considered dangerous by the governmental entity having custody of him.

(b) The certificate holder shall determine that adequate means of restraint have been provided by the escort.

(c) The escorted person and his escort shall be—

(1) Boarded before all other enplaning passengers board, and deplaned after all other deplaning passengers have left, the aircraft; and

(2) Seated in the rearmost passenger seats that are neither located in any lounge area, nor located next to or directly across from any aircraft exit.

(d) At least one escort shall—

(1) Sit between the escorted person and any aisle; and

V 38 1 144 I JUL 27 73 XUM

(2) At all times accompany the escorted person and keep him under surveillance.

(e) The certificate holder may not—

(1) Carry more than one person who it has been notified is considered dangerous, and his escort, on an aircraft carrying other passengers; or

(2) Serve food or beverages, or provide metal eating utensils, to an escorted person unless authorized by the escort.

4. By amending § 121.585 to read as follows:

§ 121.585 Carriage of weapons.

(a) No certificate holder may permit any person to carry, nor may any person carry, while aboard an aircraft being operated by the certificate holder, on or about his person or in carry-on baggage a deadly or dangerous weapon, either concealed or unconcealed, unless the following conditions are met:

(1) The person carrying the weapon is either:

(i) An official or employee of a municipality or a State, or of the United States, for whom the carriage of a weapon is authorized in connection with the performance of his official duty while aboard the certificate holder's aircraft; or

(ii) A person who is authorized by the certificate holder and the Administrator, and who has successfully completed an approved course of training in the use of arms.

(2) The certificate holder has been:

(i) Notified of the flight on which the armed person intends to carry the weapon at least one hour, or in an emergency as soon as practicable, before departure; and

(ii) Shown to its satisfaction that the carriage of a weapon by any official or employee of a municipality or a State is authorized and necessary in connection with the performance of that person's duties while aboard the certificate holder's aircraft.

(3) The armed person has identified himself to the certificate holder by presenting credentials that include his clear, full-face picture, his signature and the signature of his supervisor. A badge, shield, or similar device may not be used as the sole means of identification.

(4) The certificate holder:

(i) Has been shown to its satisfaction that the armed person is familiar with its procedures for the carriage of a deadly or dangerous weapon aboard its aircraft; and

(ii) Has ensured that the identity of the armed person is known to each law enforcement officer and each employee of the certificate holder responsible for security during the boarding of the aircraft, the pilot in command, and any other person carrying a weapon while aboard the aircraft in accordance with this section.

(b) No certificate holder may permit any person to carry, nor may any person carry, while aboard an aircraft being operated by that certificate holder, in checked baggage a deadly or dangerous weapon, unless the following conditions are met:

(1) The certificate holder has determined that the weapon is unloaded.

(2) The baggage in which the weapon is carried is locked, and only the passenger checking the baggage retains a key.

(3) The baggage is carried in either the crew compartment or an area that is inaccessible to passengers.

(c) No person carrying a deadly or dangerous weapon on or about his person or in carry-on baggage may drink any alcoholic beverage while aboard an aircraft operated under this part.

Issued in Washington, D.C. on July 23, 1973.

JAMES M. YOHE,
Acting Director of Air Transportation Security.

Federal Highway Administration

[49 CFR Part 393]

[Docket No. MC-42; Notice No. 73-20]

FRONT CLEARANCE LAMPS ON TRAILERS

Docket Closing Notice

On September 14, 1972, the Bureau of Motor Carrier Safety issued a Notice of Proposed Rule Making, inviting interested persons to comment on the advisability of deleting the requirement for the installation of two front clearance lamps on semitrailers and full trailers that are 80 inches or more in overall width (37 FR 19380). That requirement is found in section 393.14(a) of the Motor Carrier Safety Regulations. The Truck Trailer Manufacturers Association (TTMA) had filed a petition for rulemaking, asking the Bureau to revise § 393.14(a) so that the clearance lamps could be replaced with reflex reflectors.

In support of its position that motor carriers should be permitted to use reflex reflectors, rather than clearance lamps, to mark the extreme width of trailers, TTMA argued that clearance lamps are superfluous, dangerous, or both. It said that a large proportion of today's tractors, which are also required to be equipped with clearance lamps, are as wide as the trailers they tow; hence, there is no need for additional lamps to mark the width of the trailers. In addition, TTMA said that the locations of front clearance lamps on many low-silhouette trailers, such as tank trailers and flat-bed trailers, actually create a safety hazard because the light from the lamps reflects directly from the tractor's outside mirrors into the drivers' eyes.

Twenty-nine persons responded to the invitation to file comments on the subject matter of the TTMA petition. The Bureau received comments from trailer manufacturers, motor carriers, State motor vehicle departments, commercial motor vehicle drivers and groups representing their interests, insurance companies, and motor carrier trade organizations and committees thereof. Persons who supported TTMA's position generally echoed the contention that the clearance lamps performed no useful function. There was, however, no substantive data submitted to support this contention. Carrier organizations also mentioned the cost and burden of periodic maintenance needed for replacement of clearance lamp bulbs and lenses. But the comments did not show a connection between this problem and operating safety. Finally, several motor carriers brought up the issue of glare in rear-view mirrors.

It is interesting to note, in this regard, that none of the professional drivers or driver organizations who filed comments indicated that the glare problem was a serious one. On the contrary, drivers said that the clearance lamps serve a useful purpose to them, in that they serve to alert drivers to possible electrical malfunctions in the circuit that serves both the clearance lamps and the trailer's other marker lamps.

Several comments took issue with the contention that truck tractors are generally as wide as the vehicles they tow. While late-model cab-over-engine tractors are usually as wide as trailers, there are, it was noted, a large number of cab-behind-engine tractors and others which are narrower. Deletion of a requirement for clearance lamps on trailers would leave many vehicle combinations without any lamps clearly marking their extreme widths.

The Bureau has considered, in addition to the comments filed in its own docket, the contents of the National Highway Traffic Safety Administration's Docket No. 72-19. The National Highway Traffic Safety Administration's rulemaking proceeding was undertaken for the purpose of considering an amendment to Motor Vehicle Safety Standard No. 108 (§ 571.108 of this title), deleting the requirement for front clearance lamps as original equipment on new trailers and replacing it with a requirement for reflex reflectors. The Bureau's action in closing its Docket No. MC-42 has been coordinated with, and is consistent with, the action taken by NHTSA in its parallel proceeding.

The comments filed in both dockets and other available data make it clear that, at best, adoption of the rule sought by the petitioner might result only in a marginal saving of labor costs and manpower for motor carriers. Those speculative savings are more than offset by the increased safety hazard that elimination of front clearance lamps on trailers would produce. The Director has concluded, therefore, that the public interest would not be served by the change.

If there are cases in which the glare of the clearance lamps reflected in rear-view mirrors is deemed hazardous, the problem can be mitigated or eliminated by mounting the lamps at positions other than the height of the rear-view mirrors, by use of clearance lamps of minimum required candlepower, or by both.

In consideration of the foregoing, Docket No. MC-42 is closed. The Bureau will not take, and does not now contemplate, further action upon the rulemaking petition of the Truck Trailer Manufacturers Association.

Issued on July 20, 1973.

ROBERT A. KAYE,
Director, Bureau of Motor Carrier Safety.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 72-19; Notice 2]

LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Use of Certain Lamps on Trailers; Suspension of Rulemaking Proceeding

This notice suspends rule making that would have substituted amber reflex reflectors on certain trailers for the front clearance lamps presently required.

On August 9, 1972, the National Highway Traffic Safety Administration proposed (Docket No. 72-19 Notice 1, 37 FR 16002) that trailers of 80 or more inches overall width with a gross vehicle weight rating of more than 10,000 pounds need not be equipped with front clearance lamps but may instead be equipped with amber reflex reflectors. The notice was issued pursuant to the petition of Truck Trailer Manufacturers Association. The petitioner had contended that front clearance lamps on low silhouette trailers shine into the rear view mirrors of truck-tractors creating a glare hazard, and that clearance lamps on large trailers are in any event rendered superfluous by corresponding lamps on the truck tractors pulling them. The NHTSA received comments that both favored and opposed the proposal, and it has determined that retention of the front clearance lamps better meets the needs of overall safety than allowance of reflectors.

The minimum candlepower that Federal Motor Vehicle Safety Standard No. 108 requires for clearance lamps is 0.62, and the glare produced in rear view mirrors by this intensity is not likely to create a safety hazard. Further, although modern truck tractors may generally be the same width as the trailers they pull, some large diesel tractors are still being manufactured with conventional cabs that are narrower than the trailer. And, of course, many older truck tractors with narrower cabs are still in use. For these reasons, no final rule will be issued on the basis of the above proposal.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718, 15 USC 1392, 1407; delegation of authority at 38 FR 12147)

Issued on July 9, 1973.

COST ACCOUNTING STANDARDS BOARD

[4 CFR Part 351]

DISCLOSURE STATEMENT

Revision of Proposal

The purpose of this publication by the Cost Accounting Standards Board is to propose a modification to Part 351, Basic Requirements, of its rules and regulations. A proposed modification to Part 351 was previously published in the FEDERAL REGISTER of May 21, 1973, (38 FR 13385). After considering the comments received in response to that publication (discussed below), the Board has revised that proposal. The revised proposal is being published today for comment.

Six commentators requested that the amount of subcontract awards not be included at this time in the dollar volume considered as meeting the requirement for filing a Disclosure Statement. They contended, generally, that companies did not have the information available concerning subcontracts for fiscal year 1972, the period specified in the Board proposal. They noted that many of the subcontracts which would have to be considered would have been awarded more than two years ago. They said they did not have at that time any requirement for recording whether the subcontracts received were negotiated defense subcontracts. Thus, they state that they would be required to make a retroactive determination of the nature of all subcontracts awarded in fiscal year 1972, and this would entail a special effort requiring the expenditure of a great deal of time.

The Board believes that the inclusion of the amount of subcontract awards in the Disclosure Statement filing requirement is appropriate. Subcontracts, unless specifically exempt, are subject to the Board's Standards, rules, and regulations. The Board recognizes, however, that the commentators have raised a valid point concerning the lack of available records relative to the nature of subcontracts received during fiscal year 1972. Accordingly, the Board has revised its proposal to base the calculation on prime contracts only.

Future levels of the threshold amount may include the dollar value of subcontract awards. Contractors are hereby advised that they may be required to determine the dollar value of negotiated defense subcontract awards beginning with July 1, 1973. For reasons discussed below, negotiated defense subcontracts which include the Cost Accounting Standards Clause are the type which would be included in the computation of the Disclosure Statement filing requirement, and contractors should accumulate the value of such awards.

Four commentators urged the Board to include, in computing the limit for determining who must file Disclosure Statements, only negotiated contracts which are subject to Cost Accounting Standards. The Board is inclined to agree with the proposal made by these commentators. The Board, therefore, in its proposal being published today, specifically limits the contract awards to be included in the computation of a contractor's volume of defense contracts to those subject to the Board's jurisdiction in determining whether a filing requirement has been met.

The proposal being published by the Board to reduce the dollar level above which filing of a Disclosure Statement would be required, excludes both subcontracts and negotiated defense prime contracts not subject to Cost Accounting Standards. In view of this decision, the Board is proposing that the dollar volume of prime contract awards to be considered in computing the filing requirement should be reduced to $10 million. Thus, this proposal contains a requirement that all negotiated defense prime contracts in excess of $100,000 except those where the negotiated price is based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public or (2) prices set by law or regulation, or contracts which are otherwise exempt, are to be included in the computation of the volume of contract awards to be considered.

The Board's previous proposal required the inclusion of contracts awarded in fiscal year 1972 only. The Board now has available for its consideration, statistics related to contracts awarded in fiscal year 1973. It is the Board's view that the filing requirement should be related to the most current statistics if at all possible. Accordingly, the proposal being published today requires the inclusion of contracts awarded in fiscal year 1973 as well as those awarded in fiscal year 1972. Contractors who meet the threshold amount in either year would be required to file Disclosure Statements, effective January 1, 1974.

As explained above, the current proposal requires the inclusion of only those contracts subject to Cost Accounting Standards in computing the threshold amount. The initial filing requirement set by the Board included all negotiated defense contracts in the threshold amount of $30 million. At the time the Board published its initial rules on this matter, it was felt essential to determine as accurately as possible, the number of Disclosure Statements that would be submitted by contractors at any threshold amount established. For this reason, the statistics maintained by defense agencies were used. These statistics include all negotiated defense contract awards without distinction as to whether or not they are subject to Cost Accounting Standards. Moreover, Standards were not in effect in fiscal year 1971, so it was not possible to identify only those contracts to which the Contract Clause

V38-144-L JUL 27 73 XUM

would be applicable. Thus, the Board established a threshold amount that included all negotiated defense contracts. The Board, therefore, does not propose to redefine the makeup of contract amounts for fiscal year 1971 which should be included in determining the applicability of the $30 million threshold amount now in effect.

The proposed reduction of the threshold to $10 million will require a few additional colleges and universities to file Disclosure Statements. The Board is continuing its efforts to obtain a separate Disclosure Statement for colleges and universities and it is contemplated that such a Statement will be available by the effective date of any reduction in the threshold amount.

The Board's publication of May 21, 1973, on this subject included a requirement that contractors were to submit a Disclosure Statement to the Board only after a determination of adequacy has been made of the Statement. Many contractors supported this proposal and it is again included in the material being published today.

The Board received many comments on its initial proposal to reduce the threshold. The Board is gratified by the interest shown by these commentators and will consider further those comments prior to issuing a final regulation on this matter. Parties who previously submitted comments should feel free to again send their written comments to the Board.

This proposal is in line with the Board's announced intention of phasing the requirement to file Disclosure Statements. From time to time the Board will announce the dates of applicability to other contractors and subcontractors.

The Cost Accounting Standards Board solicits comments on the proposed amendment to the Disclosure Statement filing requirement. Interested persons should submit their comments to the Cost Accounting Standards Board, 441 G Street, N.W., Washington, D.C., 20548, to be given consideration by the Board in its deliberations relative to this proposal. Written submissions must arrive no later than August 31, 1973. All written submissions made pursuant to this notice will be made available to the public for inspection at the Board's offices during regular business hours.

The following modifications to Part 351 of the Board's regulations are proposed in view of the foregoing:

1. Section 351.4 Filing requirement, is modified by adding a new § 351.4a to read as follows:

§ 351.4a Filing requirement.

In addition to those contractors and subcontractors required to submit Disclosure Statements pursuant to § 351.4, each company, which together with its subsidiaries received net awards of negotiated national defense prime contracts subject to Cost Accounting Standards during Federal fiscal years 1972 or 1973 totaling more than $10 million, must submit a completed Disclosure Statement.

NOTE. This § 351.4a is a separate section and does not alter the requirement of § 351.4 with respect to contractors and subcontractors subject to that section or with respect to § 403.70 of this chapter.

2. Section 351.5 is modified by adding a new paragraph (c) to read as follows:

§ 351.5 Contract awards.

* * * * *

(c) No contract shall be awarded after January 1, 1974, to any contractor required to submit a Disclosure Statement under § 351.4a unless such submission has been made or post-award submission has been authorized pursuant to § 331.6.

§ 351.7 [Amended]

3. Section 351.7 *Submission* is modified by deleting the last sentence of the section and inserting in lieu thereof: Within ten days after the prime contractor or subcontractor receives notice that his Disclosure Statement, or any amendment thereto, has been determined to be adequate, he shall submit a copy of the Statement or amendment as appropriate to the Cost Accounting Standards Board, 441 G Street, N.W., Washington, D.C. 20548.

ARTHUR SCHOENHAUT,
Executive Secretary.

[FR Doc.73-15489 Filed 7-26-73;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 202]

NOISE ABATEMENT

Interstate Motor Carrier Noise Emission Standards

The Environmental Protection Agency proposes to establish a new Part 202 of Title 40 of the Code of Federal Regulations establishing noise emission standards for motor carriers engaged in interstate commerce.

Introduction. Pursuant to section 18 of the Noise Control Act of 1972, Public Law 92-574, 86 Stat. 1234, the Administrator of the Environmental Protection Agency (EPA) "shall publish proposed noise emission regulations for motor carriers engaged in interstate commerce within nine months after the date of enactment of this Act." The proposed regulations shall "include noise emission standards setting such limits on noise emissions resulting from operation of motor carriers engaged in interstate commerce which reflect the degree of noise reduction achievable through the application of the best available technology, taking into account the cost of compliance." The regulations promulgated under the authority of section 18 shall be in addition to regulations proposed under section 6 of the Noise Control Act. Final regulations are to be promulgated within 90 days after publication of the proposed regulations and shall be revised from time to time as determined by the Administrator. All standards and regulations are to be promulgated only after consultation with the Secretary of Transportation to assure appropriate consideration of safety and technological feasibility. The effective date is to be developed by the Administrator, after consultation with the Secretary of Transportation, taking into account the application of requisite technology and giving appropriate consideration to cost of compliance within such period.

As required by section 18(b), the Secretary of Transportation, after consultation with the Administrator, shall promulgate regulations to insure compliance with all standards promulgated by the Administrator under this section. The Secretary of Transportation shall carry out such regulations through the use of his powers and duties of enforcement and inspection authorized by the Interstate Commerce Act and the Department of Transportation Act.

Section 18(c)(1) of the Act requires that "no State or political subdivision thereof may adopt or enforce any standard applicable to the same operation of such motor carrier unless such standard is identical to a standard applicable to noise emissions resulting from such operation prescribed by any regulation under this section." Subsection 18(c)(2) provides for States or political subdivisions thereof to establish and enforce standards or controls on levels of environmental noise or to control, license, regulate, or restrict the use, operation or movement of any product if the Administrator, after consultation with the Secretary of Transportation, determines that such standard, control, license, regulation, or restriction is necessitated by special local conditions and is not in conflict with regulations under section 18.

On February 1, 1973, an advanced notice of proposed rulemaking on the motor carrier noise emissions standard was published in the FEDERAL REGISTER soliciting public comment. The docket established as a result of this action is maintained at the EPA headquarters, 4th & M Streets, SW., Washington, D.C., 20460, and also at EPA Regional Headquarters at 1735 Baltimore Avenue, Kansas City, Missouri, 64108, and 100 California Street, San Francisco, California, 94111. In addition to the material in the docket, a review and analysis of the hearings and reports prepared for the EPA's Report to the President and the Congress on Noise in 1971 (NCR400.1) was conducted. Additional reviews by staff and consultants of technical information from other sources were also completed. Also, a task force composed of Federal, State, and local government representatives was convened to develop recommendations for the motor carrier noise emission standards. The results of all these efforts were reviewed and considered in the development of the proposed regulations.

Summary of proposed regulation. The regulation as proposed will apply to motor vehicles operated in interstate commerce and weighing over 10,000 lb. GVWR. The following proposed standards apply to total vehicle noise:

1. 90 dB(A) at 50 feet in speed limits greater than 35 mph.
2. 86 dB(A) at 50 feet in speed limits equal to or less than 35 mph.
3. 80 dB(A) at 50 feet on level streets in speed limits equal to or less than 35 mph.
4. 88 dB(A) at 50 feet under stationary run-up test.
5. Visual exhaust system inspection.
6. Visual tire inspection.

Enforcement procedures are to be developed and promulgated under separate rule making procedures by the Department of Transportation. Such enforcement procedures will specify minimum requirements for instrumentation, test sites, and other conditions necessary to insure uniformity in testing and minimum acceptable accuracy for any testing.

Enforcement of the standards is contemplated to be more efficient under some conditions if measurements are permitted to be made at distances other than 50 feet which will provide for equivalency to the standards measured at 50 feet.

The effective date of the proposed regulation, subject to consultation with the Secretary of Transportation, is set as October 1, 1974, to allow adequate time for interstate carrier operators to install necessary equipment in a normal maintenance cycle in order to meet the requirements of the regulations.

Subpart C of the regulation addresses the provision for States and political subdivisions thereof to apply to the Administrator for a determination of whether special local conditions justify local noise emissions.

Rationale. In developing the limits proposed in these regulations, the Administrator applied his judgment as to the definition of "best available technology" and as to what should be considered in "taking into account the cost of compliance." He further had to take into account in these regulations the intent of Congress as stated under section 2(a) that "Federal action is essential to deal with major noise sources in commerce, control of which require national uniformity of treatment," and then to revise such regulations so as to be consistent with the health and welfare requirements of the Act, as specified under section 4.

To meet the requirements of the Act, to apply "the best available technology, taking into account the cost of compliance," the Agency then constructed definitions of the terms "best available technology" and "cost of compliance." In so doing, the Agency carefully considered the strict language of the Act, its legislative history, and other relevant data. Based thereon, for the purposes of these regulations, the following definitions have been established by the Administrator.

"Best available technology" was defined as that noise abatement technology available for retrofit application to motor carriers which produces meaningful reduction in the noise produced by interstate motor carriers. "Available" is further defined to include:

1. Technology applications that have been demonstrated and can be retrofitted on existing trucks.

2. Technology for which there will be a production capacity to produce the estimated number of parts required in reasonable time to allow for distribution and installation prior to the effective date of the regulation.

3. Technology that is compatible with all safety regulations and takes into account operational considerations, including maintenance, and other pollution control equipment.

The cost of compliance, as used in this regulation, means the cost of identifying what action must be taken to meet the specified noise emission level, and the additional cost of operation and maintenance. The cost for future replacement parts was also considered.

"Interstate carrier", as used in this regulation means contract carriers by motor vehicle, common carrier by motor vehicle and private carrier of property by motor vehicle as defined in the Interstate Commerce Act.

The Agency then amassed technology and cost information submitted to the official docket of the regulations as a result of the Advanced Notice of Proposed Rule Making, and information previously developed by the Agency as part of its hearings under Title IV, PL 91-604. The following discussion summarizes the technical and cost information considered in developing the proposed standards.

Truck noise emissions generally determine the penetration depth of highway noise into communities and are a major source of annoyance. The sound levels established by the proposed regulations will impact primarily on heavy duty diesel trucks, which are the predominate source of highway noise. These regulations are directed at reducing that major source. Gasoline powered trucks are subject to this regulation but generally produce less noise than diesel trucks. They will be considered in future regulations as a separate category for more stringent noise emission control standards. Interstate buses are covered by this regulation. However, they are a category of vehicles that presently produce less exterior noise emissions than diesel trucks. At highway speeds, buses emit noise levels from 75-87 dB(A) at 50 feet. Methods of reducing bus noise are similar to those for trucks. Any regulatory noise levels set for trucks will be feasible for buses to meet. Buses will be considered in future reviews of this regulation as candidates for a more restrictive noise emission level requirement.

The proposed regulations are applicable to motor carriers over 10,000 pounds gross vehicle weight rating (GVWR). Trucks in the 6,000 to 10,000 lb. GVWR class almost universally use gasoline engines (essentially passenger car engines) that, at present, are quieter than the diesel powered larger trucks. As a result of the 10,000 pound minimum limit for this regulation, in service trucks weighing less than 10,000 pounds GVWR engaged in interstate commerce will be subject to State or local operational noise control regulations applicable to their weight class, unless the Administrator, in the future, establishes noise emission regulations for this weight class.

The majority of heavy trucks on the road today are powered by diesel engines. Diesel trucks are typically 5 db(A) decibels, measured on the A-weighting scale) noisier than gasoline powered trucks due to power unit noise characteristics and 12 to 18 db(A) noisier than automobiles. The noise output of trucks generally increases with age. At the present time, approximately 60 percent of the operating trucks are more than 5 years old. This increase in noise generation with age is typically a result of poor maintenance and a tendency to use replacement mufflers or recapped tires which generate higher levels of sound emissions than the original equipment. The major contributing sources of truck sound emissions are engines, exhaust, cooling fans, air intakes, and tires. Engine noise is a result of internal combustion and the resultant mechanical component vibrations radiated through the cylinder walls, valve covers and oil pans. Cooling fan noise is a function of air flow irregularities which produce related structural vibrations and is typical of high horsepower engines. Engine exhaust noise is a result of a combination of radiated combustion noise and exhaust outlet pressure variations affected by muffler design exhaust system configuration and engine exhaust backpressures. Air intake noise results from the pulsing induction of air into the engine. The amount of air intake noise depends on the following engine characteristics: Gasoline or diesel, turbocharged or naturally aspirated, number of cylinders, two cycle or four cycle combustion process, and variations in displacement and speed. Tire noise is a function of tire-road interaction, tire construction, tire load, number of tires, and vehicle speed.

The predominate source of truck noise emissions is the exhaust system, principally because of inadequate muffling of the exhaust gases. At speeds above 45 mph tire noise may become a predominate source of truck noise. If exhaust system muffling is not adequate, exhaust noise may be the predominate source even at speeds over 45 mph.

Significant advances in muffler technology in recent years have provided the capability for significantly reducing exhaust noise levels. Noise reduction is achieved by increasing muffler volumes to obtain silencing and low backpressures. Also, acoustical wrapping or double-wall construction of mufflers has significantly reduced noise produced by vibration of the muffler's exterior wall surface.

The results of several statistical studies of highway vehicle noise levels were used in the development of the regulation. Based on these data the percentage of in-service motor carriers that would exceed the proposed vehicle noise emission levels is estimated to be approximately 19 percent.

In development of the 90 dB(A) level for over 35 mph, data were analyzed from 5,838 diesel trucks operated in California in 1965. Of these, approximately 19 percent exceeded 90 dB(A) at 50 feet in the pass-by test. These data were collected prior to a regulatory and enforcement program in California. The analysis of other data from 531 trucks collected in 1972 in the State of Washington showed a similar result. Measured noise

V 38-144
JUL 27 73
XUM

emissions from 1,000 heavy duty trucks on the New Jersey Turnpike in 1972 indicated that approximately 15 percent exceeded the 90 dB(A) level. The 90 dB(A) noise emission level at highway speeds is approximately equivalent to the 86 dB(A) 35 mph sound level with an additional 4 dB(A) to allow for increases in noise emissions from other speed dependent noise sources on the vehicle such as tires and aerodynamic noise.

For the 35 mph or less test for all vehicle operation conditions, the vehicle acceleration mode determines the maximum noise basis for the standard. Based on 145 tractor trailers studied in California in 1971, approximately 19 percent emitted more than 86 dB(A) at 50 feet. Additional data for 631 trucks measured in California in 1971 and 239 trucks measured in Washington in 1972 indicate that less than 10 percent of these trucks sampled would exceed 86 dB(A) in speed zones of 35 mph or less.

The 35 mph, or less, level street standard is derived from data collected on 235 trucks in California in 1971, and 105 combination vehicles on level street operations in California the same year. In this study nearly 20 percent were operated in a manner such that they would not pass the 80 dB(A) sound emission level at 50 feet. The 80 dB(A) standard for level street operation at 35 mph or less is intended to regulate the manner of operation by the driver and does not impose an additional noise reduction requirement to the vehicle beyond that needed to meet the 86 dB(A) sound level for all highway conditions at 35 mph or less. The level street operation standard of 80 dB(A) is applicable only to conditions of traffic flow in which a constant rate of speed can be maintained and does not apply within 200 feet of any intersection controlled by an official traffic control device or within 200 feet of the beginning or end of any street grade in excess of plus or minus 1 percent.

A stationary run-up test requiring a level of 88 dB(A) at 50 feet or less has been developed by DOT to provide an enforceable standard to implement at weigh stations and other locations where stationary safety inspections are conducted.

The exhaust system performance standard provides a visual inspection and enforcement tool for the DOT, State and local enforcement agencies for enforcement without the use of sound level meters.

All trucks equipped with "pocket retreads" will not be able to comply with the 90 dB(A) noise level limit applicable to high speed operation. The tire retriction provision provides visual inspection and enforcement for "pocket retread" tires.

Certain tread patterns of cross-bar tires produce noise levels which will make them unable to comply with the 90 dB (A) total vehicle noise level limit at speeds greater than 35 mph. It may be necessary for those trucks to install quieter cross-bar tires or rib tires.

The overall costs per vehicle mile of the different tires types are essentially the same since it is the carcass of the tire that determines the number of possible retreads and, hence, the tire life. There do not appear to be any tire manufacturers or recappers who make only the noisier type of cross-bar tires or "pocket retreads," resulting in an impact involving a redirecting of the market.

Mufflers required to meet this proposed regulation may cause a small increase in backpressure, but are not expected to have a significant impact on gaseous emissions from heavy duty diesel engines. As new regulations are developed and promulgated under the Clean Air Act, noise emission regulations will be reviewed and revised, if appropriate, to assure no conflicts exist between the two regulations.

The noise levels proposed of 90 dB(A) and 86 dB(A) are presently being enforced in California and the City of Chicago, Illinois, New York City, New York, Colorado, Connecticut, Minnesota, and Indiana.

It is possible for vehicles covered by these proposed regulations to achieve these standards. However, 2 percent or less of the in-use heavy duty diesel fleet may incur relatively prohibitive costs in achieving these standards relative to age and other characteristics of these vehicles. Owners may phase these trucks out as a result of the imposition of these standards. Setting more stringent standards at this time may result in a more significant number of vehicles being phased out, because technology is not available to retrofit such vehicles to achieve the lower standards. A 2–4 decibel reduction beyond the standard proposed at this time is estimated to require partial to full engine enclosure of up to 20 percent of the in-use fleet, but such modifications could not be made to this portion of the in-service fleet within the effective date of these regulations. This key consideration has led the Administrator to propose standards that can be achieved very soon by the noisiest trucks and when retrofit technology becomes available, to propose more stringent standards providing further noise abatement.

The technology now being demonstrated by the DOT "quiet truck" program indicates that significant reductions in present noise levels from diesel trucks can be achieved on new trucks in the future. The DOT is also initiating a truck noise emission retrofit demonstration program planned to be completed during the next 12–18 months, the results of which will be applicable to retrofit of the in-service motor carrier fleet.

The results of this research and the truck tire noise research of DOT and the Department of Commerce will be used by the Administrator as the basis for early revision of these regulations to take advantage of improved technology. The goal of attaining adequate control of noise emission will require that as new technology emerges, new objectives be established. As new information becomes available the Administrator will revise these regulations. (See Section "Intent of Future Regulations.")

For the majority of the vehicles requiring corrective action, the installation of improved mufflers and the elimination of restricted tires will be the only necessary actions required to meet the proposed regulation. The normal exhaust muffler life for heavy duty diesel trucks in interstate commerce is approximately 1½ years. The muffler industry is presently supplying the trucking industry with mufflers at the rate required to perform normal maintenance. A survey of the industry indicates that the need to increase production would not impose problems on the muffler industry or introduce problems in scheduling maintenance in the trucking industry. This kind of information is not available for more elaborate procedures. These facts support the proposed effective date (October 1, 1974) as the earliest date for enforcing uniform regulation.

It is estimated that the proposed standard will impose an approximate initial cost of between $10 and $30 million on the interstate motor carrier industry. This will require an average expenditure of $50 to $200 for each vehicle which cannot presently meet the proposed regulation. With these small increases in the average annual cost of operation, the change in cost per ton mile of freight carried, as a result of this regulation, is expected to be less than one-tenth of a percent increase in present operational costs.

The EPA approach for the reduction of total motor carrier fleet noise is through a phased program of total fleet operational standards issued under section 18 and new product standards issued under section 6. The new product standards to be promulgated by October 1974 will address the application of new truck noise reduction technology, and would not be a regulatory requirement for the existing fleet.

Relationship between sections of the Noise Control Act. Section 4 provides the Administrator with authority to coordinate the noise control and noise research and development programs of all of the Federal agencies; and further requires that all such agencies provide him with information "as he may reasonably require" as to nature, extent, and results of such programs. The Administrator will use his authority under section 4 to ensure that other agencies provide the necessary information, in a timely fashion, so that improvements in these regulations can be made. This authority will also be used to ensure that a comprehensive, coordinated Federal effort is continued in the future.

Section 5(a)(1) requires the development and publication of a Criteria Document that will identify the effects on public health and welfare of differing quantities and qualities of noise. In addition, section 5(a)(2) requires the preparation of an Environmental Noise Report identifying "the levels of environmental noise, the attainment and maintenance of which in defined areas under various conditions are requisite to protect public health and welfare, with an adequate margin of safety."

Section 6 of the Act provides for the development of noise emission standards for new products distributed in commerce. Standards established under section 6 are to be based on the criteria published under section 5, taking into consideration the best available technology and the cost of compliance. The combination of operational noise emission standards issued under section 18 of the Act and new vehicle noise emission standards issued under section 6 of the Act represents the regulatory program for reduction of motor carrier noise emissions that EPA is following.

Section 8 of the Act provides the Administrator with authority to require that notice be given to prospective users of a product sold wholly or in part on the basis of its effectiveness in reducing noise. Mufflers and similar acoustical devices used on motor vehicles to reduce noise emissions would be subject to such future labeling regulations.

Section 10 of the Act specifies that any violation of these and other EPA regulations implementing other sections of the Noise Control Act and any future regulations established under the authority of section 18 of the Act constitutes a prohibited act. Any person who willfully or knowingly violates the regulation shall be punished by a fine of not more than $25,000.00 per day of violation or imprisonment for not more than one year, or by both, or a fine not exceeding $50,000.00 per day of violation, or imprisonment for not more than two years or by both, following a conviction for a previous violation of the Noise Control Act.

In addition to these provisions, section 4 of the Act requires each Federal agency to consult with the Administrator prior to prescribing standards and regulations respecting noise. The Administrator is to review such proposed standards and regulations and to determine whether they are adequate to protect public health and welfare to the extent he believes required and feasible. This includes regulatory proposals by the Department of Transportation in relation to the Administrator's responsibilities under section 4 of the Act. The Administrator will review the enforcement of the regulations by other Federal agencies in preparing the periodic report on the status and progress of Federal activities relating to noise research and noise control as required by section 4 (a) (3).

Intent of future regulations. Passenger bus interiors are not covered by these proposed regulations due to insufficient data on the best technology available and the cost of compliance. The motor carrier operation standards and the vehicle equipment noise standards may indirectly decrease the interior noise levels through regulation of the exterior noise emission. When sufficient information on bus interior noise becomes available, a notice of proposed rulemaking will be issued.

It is recognized that auxiliary equipment, such as refrigeration equipment, may be a source of annoyance. Studies are now underway to determine whether such equipment is a problem and to identify and document the level of noise emitted from such equipment and the technology available and cost associated to reduce that noise emission. As this information becomes available, consideration will be given to revising the proposed regulation to include noise emission standards for auxiliary equipment.

These regulations will be carefully reviewed on or before December 1974, following consideration of the results of DOT's truck noise emission retrofit demonstration and truck tire noise studies mentioned earlier. Revisions, at that time, may be made for significant reductions in the noise emission levels authorized under section 18 of the Act. Revised standards would be in addition to new product standards authorized under section 6 of the Act which will be promulgated not later than October 27, 1974. If in the course of Federal Government studies, or as the result of development by industry or private institutions, it becomes evident that significant improvements in technology are available before December 1974, prompt revision of the regulation will be initiated. Comments and recommendations by all interested persons as to new or advanced technology relevant to this are solicited. An advance notice of proposed rulemaking will be published prior to actual formulation of any revisions of these regulations so that there may be maximum contribution to the rulemaking development by interested parties. The Administrator, under section 4 of the Noise Control Act of 1972, is responsible for coordinating all Federal noise control research. In accordance with that authority, vigorous action will be taken to insure that the results of special truck and tire noise research, and other related research, is made available at the earliest possible time for use in developing revisions hereto. Comments and suggestions as to new and advanced technology relevant to retrofit requirements are solicited and should be submitted as provided for in the following Public Comment Section.

Preemption. Under section 18(c)(1), after the effective date of the regulations proposed herein, no State or political subdivision thereof may adopt or enforce any standard applicable to the same operation of such motor carriers unless such standard is identical to a standard applicable to noise emissions resulting from such operation. These regulations are not intended to diminish or to enhance the rights of any State or political subdivision to establish and enforce standards or controls on levels of environmental noise or to control, license, regulate or restrict the use, operation or movement of any product if the Administrator, after consultation with the Secretary of Transportation, determines that such standard, control, license, regulation or restriction is necessitated by local conditions and is not in conflict with the regulations issued under section 18. The procedure for State or political subdivisions thereof to request such a determination by the Administrator is briefly outlined in this regulation. The burden of proof for identifying and defending those special local conditions necessitating regulations shall be on the applicant. Further specification of the report to be submitted for such a determination will be delineated by December 31, 1973. The Administrator is interested in receiving comments and recommendations regarding the types of situations and appropriate guidelines for granting States and political subdivisions thereof special administrative approval.

Public comment. Section 18 of the Noise Control Act of 1972 requires that final regulations be promulgated not later than 90 days after the date of publication of proposed regulations, and only after consultation with the Secretary of Transportation. Interested persons may submit written data, views, or arguments in regard to the regulations proposed herein to:

Office of Noise Abatement and Control
Attention: Docket No. ONAC 7202003
Environmental Protection Agency
Washington, D.C., 20460

All relevant material received on or before July 27, 1973, will be considered. All comments will be available for public inspection during normal working hours (8:00 a.m. to 4:30 p.m.) at the Office of Public Affairs, Room 329–C, Waterside Mall, 4th & M Streets, SW., Washington, D.C. 20460.

A background document on motor carrier noise emissions and controls has been prepared and is at the Office of Public Affairs, Environmental Protection Agency, 401 M Street, SW., Washington, D.C., 20460.

Final regulations reflecting modifications as the Administrator deems appropriate, after consideration of public comments, and the views of the Secretary of Transportion, will be promulgated no later than 90 days after publication of this notice.

ROBERT W. FRI,
Acting Administrator.

JULY 24, 1973.

Part 202 of Title 40 is proposed to read as follows:

Subpart A—General Provisions

Sec.
202.1 Definitions.

Subpart B—Interstate Motor Carrier Operations Standards

202.10 Applicability.
202.11 Standards for highway operations.
202.12 Standards for level operations at 35 mph or under.
202.13 Standard for operation under stationary test.
202.14 Visual exhaust system inspection.
202.15 Visual tire inspection.
202.16 Enforcement procedures.

Subpart C—Special Local Condition Determinations

202.20 Applicability.
202.21 Application procedures.

AUTHORITY: Sec. 18(a), 86 Stat. 1249, 42 U.S.C. 4917(a).

V 38-144 JUL 27 73 XUM

Subpart A—General Provisions

§ 202.1 Definitions.

As used in this part, all terms not defined herein shall have the meaning given them in the Act:

(a) "Act" means the Noise Control Act of 1972 (P.L. 92-574), 86 Stat. 1234.

(b) "Common carrier by motor vehicle" means any person who holds himself out to the general public to engage in the transportation by motor vehicle in interstate or foreign commerce of passengers or property or any class or classes thereof for compensation, whether over regular or irregular routes.

(c) "Contract carrier by motor vehicle" means any person who engages in transportation by motor vehicle of passengers or property in interstate or foreign commerce for compensation (other than transportation referred to in paragraph (b) of this section) under continuing contracts with one person or a limited number of persons either (1) for the furnishing of transportation services through the assignment of motor vehicles for a continuing period of time to the exclusive use of each person served or (2) for the furnishing of transportation services designed to meet the distinct need of each individual customer.

(d) "Cutout or by-pass or similar device" means devices which vary the exhaust system gas flow so as to discharge the exhaust gas and acoustic energy to the atmosphere without passing through the entire length of the exhaust system including all exhaust system sound attenuation components.

(e) "db(A)" means weighted sound level measured by the use of metering characteristics and the prescribed A-weighting frequency response specified in American National Standard S1.4.1971. This publication is available from the American National Standards Institute, Inc., 1430 Broadway, New York, New York, 10018.

(f) "Exhaust system" means the system comprised of a combination of components which provides for enclosed flow of exhaust gas from engine exhaust parts to the atmosphere.

(g) "Fast meter response" means the meter ballistics of meter dynamic characteristics as specified by American National Standard S1.4.1971, or subsequent revisions. This publication is available from the American National Standards Institute, Inc., 1430 Broadway, New York, New York, 10018.

(h) "Gross vehicle weight rating" means the value specified by the manufacturer as the loaded weight of a single vehicle.

(i) "Highway" means the streets, roads, and public ways in any State.

(j) "Interstate commerce" means the commerce between any place in one State and any place in another State or between places in the same State through another State, whether such commerce moves wholly by motor vehicle or partly by motor vehicle and partly by rail, express, or water.

(k) Motor carrier means a common carrier by motor vehicle, a contract carrier by motor vehicle, or a private carrier of property by motor vehicle.

(l) "Motor vehicle" means any vehicle, machine, tractor, trailer, or semi-trailer propelled or drawn by mechanical power and used upon the highways in the transportation of passengers or property, or any combination thereof, but does not include any vehicle, locomotive, or car operated exclusively on a rail or rails.

(m) "Person" means any individual, firm, copartnership, corporation, company association, or joint-stock association and includes any trustee, receiver, assignee or personal representative thereof.

(n) "Private carrier of property by motor vehicle" means any person not included in terms "common carrier by motor vehicle" or "contract carrier by motor vehicle," who or which transports in interstate or foreign commerce by motor vehicle property of which such person is the owner, lessee, or bailee, when such transportation is for sale, lease, rent or bailment, or in furtherance of any commercial enterprise.

(o) "Sound level" means 20 times the logarithm to base 10 of the ratio of pressure of a sound to the reference pressure. The reference pressure is 20 micronewtons per square meter (2×10^{-4} microbar) per American National Standard S1.4.1971. This publication is available from the American National Standards Institute, Inc., 1430 Broadway, New York, New York, 10018.

(p) "Street" means any roadway in business, residential, or urban districts which is not an Interstate highway or legally designated truck route or approved truck detour.

(q) "Official traffic control device" means any traffic light, stop or yield sign, official or policeman.

The provisions of Subpart B shall become effective October 1, 1974.

Subpart B—Interstate Motor Carrier Operations Standards

§ 202.10 Applicability.

The provisions of Subpart B shall apply to any motor vehicle with a gross vehicle weight rating in excess of 10,000 pounds operated by a motor carrier in interstate commerce. These provisions apply to the total sound level emitted by a motor vehicle operated under the conditions specified.

§ 202.11 Standards for highway operations.

No person shall operate a motor vehicle of a type subject to this regulation at any time or under any condition of highway grade, lead, acceleration or deceleration in such a manner as to generate in excess of 86 dB(A) measured with fast meter response at 50 feet from the centerline of lane of travel on highways with speed limits of 35 mph or less; or 90 dB(A) measured with fast meter response at 50 feet from the centerline of lane of travel on highways with speed limits of more than 35 mph. This section shall not be construed as limiting or precluding the enforcement of any other provisions of Subparts B and C of this part.

§ 202.12 Standards for Level Street Operations 35 mph or Under.

(a) Notwithstanding the provisions of § 202.11, no person shall operate a motor vehicle upon any street with a speed limit of 35 mph or less and grade not exceeding plus or minus 1 percent in such a manner as to exceed 80 dB(A) measured with fast meter response at 50 feet from the centerline of lane of travel.

(b) This section shall not apply within 200 feet of any intersection controlled by an official traffic control device or within 200 feet of the beginning or end of any grade in excess of plus or minus 1 percent. This section shall not apply when the vehicle flow is not at a constant rate of speed and traffic is congested and requires noticeable acceleration or deceleration.

§ 202.13 Standard for operation under stationary test.

(a) No person shall operate a motor vehicle which is powered by an engine with engine speed governor which generates more noise than 88 dB(A) measured with fast meter response at 50 feet from vehicle centerline when that engine is accelerated from idle with wide open throttle to govern speed with the vehicle stationary, transmission in neutral, and clutch engaged.

(b) This section applies to the total noise from the vehicle or combinations of vehicles excluding tire noise. It shall not be construed as limiting or precluding enforcement of any other provision of Subpart B of this part.

§ 202.14 Visual exhaust system inspection.

No person shall operate a vehicle which has no expansion chamber, resonator or noise dissipative device in the exhaust system or is not equipped with an exhaust gas driven turbocharger, except that gas driven turbochargers alone will not be adequate on vehicles equipped with an engine brake unless such person can show that no such device is needed to enable said vehicle to meet noise standards under Subpart B of this part. Exhaust system components shall be in constant operation and properly maintained. No exhaust system shall be equipped with a cutout, by-pass, or similar device.

§ 202.15 Visual tire inspection.

No motor vehicle shall be operated on tires at any time having tread pattern composed primarily of cavities in the tread (excluding sipes and local chunking or irregularities of wear) which are not vented by grooves to the tire shoulder or circumfrentially to each other around the tire, unless such vehicle equipped with such tires can be shown not to exceed noise standards under Subpart B of this part.

§ 202.16 Enforcement procedures.

Under separate rulemaking procedures, the U.S. Department of Transportation will establish specific procedures for enforcement of these standards. Minimum requirements for instrumentation, test sites, and other conditions necessary to insure uniformity and minimum accuracy in testing shall be so prescribed. Procedures for measurement of vehicle sound levels under conditions of varying distance (other than 50 feet) may be prescribed in which case the measurement procedures and sound level limits shall be established to be equivalent to the sound level limits established in this subpart measured at 50 feet.

Subpart C—Special Local Conditions Determinations

§ 202.20 Applicability.

The provisions of this Subpart C shall apply to any State or political subdivision thereof requesting authority to establish and enforce standards or controls on levels of environmental noise, or to control, license, regulate or restrict the use, operation or movement of any product where such standards, controls, licenses, regulations or restrictions are applicable to operations subject to this regulation in any way not identical to the provision of subpart B of this part.

§ 202.21 Application procedures.

Any State or political subdivision thereof requesting an administrative determination under section 18(c)(2) of the Act shall submit to the Administrator a detailed report delineating the special local conditions requiring consideration, how the proposal of the State or political subdivision thereof is not in conflict with Subpart B of this part and how the proposal interferes, if at all, with interstate commerce. The Administrator will publish, by December 31, 1973, a detailed report format for determination requests under this section.

[FR Doc.73-15500 Filed 7-26-73;8:45 am]

FEDERAL POWER COMMISSION

[18 CFR Part 141]

[Docket No. RM74-1]

FUELS FOR NUCLEAR PLANTS

Report of Cost and Quality

JULY 19, 1973.

Take notice that, pursuant to 5 U.S.C. 553 and sections 202, 301, 304(a), 309 and 311 of the Federal Power Act, the Federal Power Commission proposes to amend Part 141—Statements and Reports (Schedules) in Subchapter D—Approved Forms, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations, by adding a new § 141.62, prescribing collection of fuel costs and quality determinants of fuel received at nuclear generating plants of electric utilities through proposed FPC Form No. 423-Nuclear.

On June 7, 1972, the Commission issued Order 453 in Docket No. R-432, which added a new § 141.61 to Title 18 of the Code of Federal Regulations prescribing a monthly reporting of cost and quality determinants of fuel for steam-electric plants of electric utilities. In that Order the Commission stated that the new FPC Form No. 423, thereby enacted, would "provide monthly information on the availability and cost of fossil fuels to electric utility companies for use in current analyses of the energy and fuel supply situation and the effects on the cost of electric power." The stated objective of the proposed Form No. 423 was to "provide timely data on a comparable basis for each type of fuel by quality determinants, thus facilitating the evaluation of developments in fuel supply which may affect the reliability of electric service, emergency preparedness, and the environmental improvement programs for the different air quality control regions in the United States." On August 3, 1972, the Commission issued an order denying rehearing in this matter.

The Commission's action in Docket No. R-432 was appealed to the United States Circuit Court of Appeals for the District of Columbia. National Coal Association v. Federal Power Commission, No. 72-1919, D.C. Cir., filed October 2, 1972. However, on May 14, 1973, the parties filed a joint motion to withdraw the appeal, which motion is pending before the Court. Subsequently, on the application of Alabama Power Company and other electric utilities, the Commission, on March 2, 1973, issued Order Denying Petition for Amendment of the Commission's Regulations with Respect to Form No. 423, in Docket No. R-432. An order denying rehearing in this latter matter was issued on April 16, 1973, and has been appealed to the Circuit Court of Appeals. Alabama Power Company, et al. v. Federal Power Commission, No. 73-1436, D.C. Cir., filed April 25, 1973.

Concurrent with the proposed rulemaking in this Docket, the Commission has pending issuance of a notice for proposed rulemaking in Docket No. R-432 (a), which will also deal with expanding the reporting requirements under FPC Form No. 423. The thrust of both proposals is to incorporate under the Form No. 423 reporting requirements the collection of cost and quality data for fuels to be used in electric generating plants other than the steam-electric facilities presently covered in Form No. 423. Docket No. R-432(A) is intended to cover the elicitation of fuel cost data for fuel to be used in gas turbine and internal combustion engine generating units.

However, because the marketing of fuel for use in nuclear plants presents considerably different patterns and considerations from those associated with purchases for non-nuclear plants, the Commission has elected to treat the consideration of reporting by electric utilities of Form No. 423-type information for nuclear plants separately in the instant Docket. Electric utilities presently report annually their calculated total nuclear fuel cycle costs for individual plants on FPC Form 1, in accordance with the requirements established by the Uniform System of Accounts. However, unlike fossil fuel power production costs, the nuclear fuel cycle cost is not chiefly dependent upon the cost of raw fuel material; both the enrichment (separative) work and the fabrication of finished fuel elements are larger cost components. Enrichment costs are fixed by the Atomic Energy Commission, since it possesses the only enrichment facilities, and the price of fuel fabrication is set by competition between fuel fabricators in the market. Therefore, reporting of total nuclear fuel cycle costs on FPC Form 1 does not present a ready source of information on the actual cost of the raw fuel resources used by electric utilities.

The objective of the rulemaking proposed in this Docket is to obtain disclosure of the details of individual direct purchases by electric utilties of nuclear fuel material.[1] These direct purchases at present constitute about half of the total uranium ore purchases. They represent the component of total fuel cost most subject to market fluctuation. The Commission recognizes that a special analysis of each direct purchase or series of purchases would be necessary in order to determine overall fuel costs; however it believes that the purchase data will be directly useful in assessing the supply of primary energy for electric power.

In accordance with the above considerations, the Commission believes that the existing FPC Form No. 423 is inadequate for gathering data on nuclear fuel, and that a new format for the collection of this type of information is required. Therefore, the proposed new 18 C.F.R. § 141.62 will enact a separate reporting form, to be designated FPC Form No. 423-Nuclear, and Instructions thereto. See Attachment A. This proposal recognizes that it is more rational and better coordinated with the practices prevailing in the industry to garner the necessary cost and quality data at the time when an electric utility contracts to directly purchase U_3O_8 yellowcake ore or to supplement or amend an existing contract. As indicated before, there are various ways in which electric utilities contract to satisfy their nuclear fuel needs, and the Commission believes that proposed Form No. 423-Nuclear will enable it to track ore prices through utility direct purchase reporting. This method of reporting will not disclose the total quantities of ore sold because a large portion of the ore is sold in the first instance to non-jurisdictional sources, such as reactor manufacturers, nuclear fuel fabricators, etc. However, since direct utility purchases of U_3O_8 yellowcake presently represent about one-half the market for

[1] At the present time, the basic fuel material used in nuclear plants is U_3O_8 yellowcake; "nuclear fuel" as used in the present notice should be understood to refer to this basic ore resource.

V 38 144 JUL 27 73 XUM

this substance in the United States and since yellowcake is a standard material, it is anticipated that reported prices should average very close to the total market average. Thus, it should be feasible to determine overall fuel material costs by means of electric utilities reporting their direct ore purchases in the manner proposed in this Docket.

The Atomic Energy Commission (AEC) has for many years obtained 100 percent reporting of yellowcake purchases from both producers and buyers, but on a voluntary basis and without prices. This information has been the basis for the AEC's annual report on uranium purchases. It is understood that the AEC is planning to add price information to the reporting so that it can track the average price trends annually. However, the AEC has agreed that it will not supply to other government agencies, without permission, the detailed purchase information voluntarily reported. Therefore, the AEC data will record the yearly average ore prices but will not reveal the details of individual direct purchases by electric utilities, the desired information which is the subject of the proposals in this Docket.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than September 4, 1973, data, views, comments or suggestions in writing concerning all or part of the amendment proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street, N.E., Room 1000, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of proposals incorporated in this Docket, pursuant to 44 U.S.C. 3501–3511, may, at the same time, submit a conformed copy of their comments directly to the Clearance Officer, Office of Statistical Policy, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for conference.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

ATTACHMENT A

FPC FORM 423–NUCLEAR—ELECTRIC UTILITY PURCHASES OF U_3O_8 YELLOWCAKE

(Illustrates information to be obtained but may not be the precise form used)

General instructions. This Form is designed to obtain data on the cost and quality of uranium ore (U_3O_8 yellowcake) purchases by electric utilities. The completed Form is due within 90 days from the date when:

(a) A new contract has been signed or an agreement reached for the delivery of yellowcake.

(b) An old contract or agreement with a supplier has been amended to reflect any material change in its terms.

(c) A spot purchase of yellowcake has been made.

The utilities reporting under this section shall further make reports within 15 days after every June 30th and every December 31 showing for the six month period ending on the above dates an aggregate composite of the information filed in Form No. 423–NUclear during said period.

Form No. 423-Nuclear

1. (a) Name of Company:
   Company Code:
   Address:
   (b) Name and Title of Reporting Company Official:
2. Type of Purchase: (Yellowcake)
   ☐ New Contract; Date of Contract
   ☐ Amended Contract; Date of Original Contract
   ☐ Spot Purchase;
   Date of Amendment
   Date of Purchase
3. Name and Address of Supplier (Yellowcake)
4. Quantity Acquired, in Lbs. of Yellowcake
5. Price, $ per pound
   (Report to the nearest one cent)
6. If the Terms of The Purchase Include an Escalation Clause Describe These Terms
7. Does your Company Have a Financial Interest in the Company Supplying the Yellowcake
   ☐ Yes ☐ No
8. If the Answer to Question 7 is Yes, Describe the Extent of the Interest.

[FR Doc.73-15413 Filed 7-26-73;8:45 am]

FEDERAL RESERVE SYSTEM

[12 CFR Part 217]

INTEREST ON DEPOSITS

Penalty for Early Withdrawals

The Board of Governors proposes to treat, as a payment of a time deposit before maturity, any amendment to the time deposit contract that results in either an increase in interest rate or a change in the maturity of the deposit. Such treatment would mean that the penalty for early withdrawals provided in Regulation Q would apply at the time of any such amendment to the contract.

To aid in the consideration of the matter by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 13, 1973. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information.

To implement its proposal, the Board proposes to amend § 217.4(d) of its Regulation Q (12 CFR Part 217) by adding a new sentence at the end thereof to read as follows:

§ 217.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty for early withdrawals.* * * * Any amendment of a time deposit contract that results in an increase in the rate of interest paid or in a change in the maturity of the deposit constitutes a payment of the time deposit before maturity.

* * * * *

By order of the Board of Governors, July 24, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15540 Filed 7-26-73;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 249]

[Releases No. 34-10262, SIPA-4]

Broker-Dealer Registration Application Form; Submission of Certain Information Regarding Past Liquidations

Notice is hereby given that the Securities and Exchange Commission has under consideration proposed amendments to Form BD (17 CFR 249.501), the form of application for registration as a broker-dealer (or amendment to such application) under section 15(b) (15 U.S.C. 78o (b)(1)) of the Securities Exchange Act of 1934. The amendments would be adopted pursuant to section 15(b) and section 23(a) (15 U.S.C. 78w (a)) of the Securities Exchange Act of 1934 and section 10(b) (15 U.S.C. 78jjj (b)) of the Securities Investor Protection Act of 1970 ("SIPC Act").

The purpose of the proposed amendments would be to add a new paragraph (k) to Item 16 and to make certain technical changes discussed below. New paragraph (k) would inquire whether the Applicant, Registrant, or any of certain associated persons has ever been an officer, director, general partner, ten percent shareholder or controlling person of a broker or dealer for whom a trustee has been appointed under the SIPC Act. Under section 10(b) of the SIPC Act the Commission may by order bar or suspend for any period such persons after notice and opportunity for hearing if the Commission finds it to be in the public interest.

The Commission has found that many of the failures of broker-dealers which have resulted in the appointment of a SIPC trustee have involved a gross failure to maintain proper books and records and substantial violations of the financial responsibility rules. It would be the purpose of the amendment to Item 16 to detect an attempt on the part of persons responsible for such violations

to effect a re-entry so that the Commission could initiate a proceeding to determine whether any remedial action would be appropriate.

The text of proposed new paragraph (k) is as follows:

16. State whether the Applicant or Registrant, any person named in Items 12, 13, 14 and 15 or any Schedule thereunder or any other person directly or indirectly controlling or controlled by the Applicant or Registrant, including any employee:

* * * * *

(k) Has been associated at any time as an officer, director, general partner, or owner of 10 percentum or more of the voting securities or has at any time directly or indirectly through agreement or otherwise exercised or had the power to exercise a controlling influence over the management or policies of a broker or dealer for whom a trustee has been appointed pursuant to the Securities Investor Protection Act of 1970.

Yes [ ] No [ ]

The Commission also has under consideration a number of technical changes in the Form. These changes are, in the main, for the purpose of obtaining additional data from Applicants or Registrants or updating wording which is obsolete. The following items on the Form would be changed or added:

Item 2—This item requests the "Full name of Applicant or Registrant" which is intended to be the name of the broker-dealer. The item then states, "If individual state last, first, middle name." This has proven confusing since many times the person preparing the Form thought the item requested his name to be listed thereunder. The language would be amended to read, "If sole proprietor, state last, first, middle name."

Item 5—Item 5 would be amended to request the telephone number of the Applicant or Registrant which is not included on the present Form.

Item 7—Item 7 would be amended to clarify the language inquiring whether the Applicant or Registrant is a successor to another broker-dealer and to add paragraph (b) inquiring whether the Applicant or Registrant has merged with or acquired another broker-dealer.

Item 20—Item 20 would be amended to update the list of registered national securities exchanges.

Item 22—Item 22 requests information as to the type of business which would be conducted. The instruction to paragraph (q) regarding "Any other securities activity" requests that the Applicant or Registrant "Specify below." There is no longer sufficient room where details can be furnished on that page so the instruction would be amended to read "Give details on Schedule E."

Item 23—Item 23 on the Form would be revised to require the broker-dealer to state under new paragraph (c) whether the firm is registered or to be registered as an investment adviser. This corresponds to Form ADV (Registration as an Investment Adviser) which requires the firm to indicate whether it is also registered as a broker-dealer.

These changes would be prospective only and re-registration would not be required of existing broker-dealers. However, if a broker-dealer knows or has reason to know that the answer to proposed Item 16(k) on or after the effective date of these amendments is "Yes," an immediate amendment to the Form would be required.

Copies of proposed amended Form BD have been filed as a part of this document with the Office of the Federal Register and additional copies are available upon request from the Securities and Exchange Commission, Washington, D.C. 20549.

All interested persons are invited to submit their views and comments on the proposal in writing on or before August 27, 1973, to Ronald F. Hunt, Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. All such communications shall bear the File No. S7–485 and will be available for public inspection.

(Secs. 15(b), 23(a), 48 Stat. 895, Sec. 3, 49 Stat. 1377, Sec. 6, 78 Stat. 570, 15 U.S.C. 78o (b), 78w, Sec. 10(b), 86 Stat. 1651, 15 U.S.C. 78jjj(b)).

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., Section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Anderson, David E., 1920 20th Street, Lyons, Oregon, convicted on March 24, 1970, in the Superior Court of the State of Washington.

Anderson, Leonard, 798 N. Washington, Saginaw, Michigan, convicted on August 19, 1953, for the Eastern District of Michigan, Northern Division.

Bartley, Alan K., 2203 South Third Avenue, Yakima, Washington, convicted on November 4, 1970, in the Superior Court of the State of Washington in and for Yakima County.

Becker, Edwin M., Jr., 6400 Kenilworth, Austin, Texas, convicted on May 5, 1960, in the District Court of Travis County, Texas.

Bittner, Ronald L., 2210 East Mission Avenue, Escondido, California, convicted on August 23, 1960, by the Superior Court, San Diego, California.

Bosse, James Lincoln, 917 North Avenue, Aurora, Illinois, convicted on February 15, 1961, in Corporation Court, Norfolk, Virginia.

Boyd, Robert A., 1130 East 51st Street, Tacoma, Washington, convicted on September 29, 1969, by the Superior Court of the State of Washington, Pierce County.

Brooks, Clemy, 1265 South Main Street, Apartment #19, Seattle, Washington, convicted on January 7, 1960 by the Western District Court, Tacoma, Washington.

Campbell, Terry, Michael, 217 White Drive, Apt. F-1, Tallahassee, Florida, convicted on June 9, 1969, in the United States District Court, Southern District of Texas.

Cantor, Raleigh, Jr., 1353 Gilmer Drive, Salt Lake City, Utah, convicted on January 18, 1946, Division 1, Criminal Court of Marion County, in the City of Indianapolis, Indiana, and on May 16, 1947, in Mohave County Superior Court.

Cassidy, James M., 35 West El Campo Street, Stockton, California, convicted on or about January 21, 1969, before a general court-martial which convened at Fort Bragg, North Carolina.

Chew, Jay Dee, 2020 Tyler, Joplin, Missouri, convicted on January 18, 1971, in the Circuit Court of Jasper County, Missouri.

Chierico, Michael P., 1651 Metropolitan Avenue, Bronx, New York, convicted on March 21, 1932, in Queens Supreme Court, Queens County.

Cipriani, Earl P., 1035 Argonne Road, South Euclid, Ohio, convicted on June 18, 1970, in United States District Court for Northern District of Ohio.

DeMeo, Louis M., 13512 Fifth Street, S.W., Seattle, Washington, convicted on March 5, 1949, in Superior Court of the State of Washington.

Deuel, Harold V., 5071 South 4420 West, Kearns, Utah, convicted on February 22, 1971, Third District Court, State of Utah.

Durbin, Harvey J., Jr., 910 Austin Street Apt. H, Pasadena, Texas, convicted on November 7, 1962, District Court of Pecos County, Texas.

Edwards, Kenneth M., 2312 South Francis, Port Angeles, Washington, convicted on January 21, 1958, in Superior Court, King County, Washington, and on December 28, 1970, in Superior Court, Clallam County, Washington.

Elfring, Lanny Ross, 778 Polk Street, Eugene, Oregon, convicted on March 13, 1961 and March 21, 1966, in Circuit Court, 4th Judicial Circuit, Davidson County, Mitchell, South Dakota.

Englert, Harry Lee, 13 W. Elwood Street, Ridgefarm, Illinois, convicted on November 23, 1962, in the 5th Judicial Circuit Court, Danville, Illinois.

Fuller, Albert D., 2439 Chiquita Lane, Thousand Oaks, California, convicted on May 29, 1944, in Knox County Circuit Court, Vincennes, Indiana.

Garrett, Jesse N., 1315 Cedar Street, Lewiston, Idaho, convicted on February 12, 1963, in the District court of the Tenth Judicial District of the State of Idaho.

Gassert, Joseph H., Jr., Fredericksburg, Pennsylvania, convicted on February 22, 1971, in United States District Court for Middle District of Pennsylvania.

George, John W., 7091 Rouge River Highway, Grants Pass, Oregon, convicted on September 5, 1968, in the Superior Court of the State of California for the County of Los Angeles.

Gourley, Kenneth E., R.D. #1, Strattanville, Pennsylvania, convicted on January 21, 1972, in the Court of Common Pleas of Clarion County, Pennsylvania.

Hassen, Robert N., 360 Taylor Avenue, N.W., Apartment No. 214, Renton, Washington, convicted on October 31, 1968, by the Superior Court of King County, Washington.

Hawkins, Phillip, 7469 Diven Street, Norfolk, Virginia, convicted on September 23, 1952, in Vance County Superior Court, North Carolina, on February 4, 1953, in Lauderdale County Circuit Court, Mississippi, on January 17, 1961, in Vance County Superior Court, North Carolina, and on March 18, 1965, in Virginia Beach Circuit Court, Virginia.

Hooks, Andrew J., 5211 Sandusky Road, Lima, Ohio, convicted on January 13, 1965, in the Lima, Ohio, Municipal Court.

Howland, Gary L., Box 226, McCall, Idaho, convicted on October 30, 1967, in the District Court of the Fourth Judicial District of the State of Idaho in and for the County of Ada, and on May 14, 1970, in the District Court of Fourth Judicial District of State of Idaho, in and for the County of Ada.

Hutchinson, Willie R., P.O. Box 1152, Toledo, Ohio, convicted on February 5, 1971, in the United States District Court, Northern Division, Ohio.

Hyatt, William C., 1265 Lingle Avenue, Flint, Michigan, convicted on November 14, 1950, in the United States District Court, Western Division, North Carolina.

Kovar, Rudy, Jr., 1206 Kimbro Street, Taylor, Texas, convicted on January 17, 1967, in the District Court of Travis County, Texas.

Lamotta, Joseph C., 4014 69th Street, Urbandale, Iowa, convicted on September 21, 1939, in Polk County District Court, Des Moines, Iowa.

Lindsey, Ray Scott, 3825 64th Avenue, Landover, Maryland, convicted on July 7, 1969, Montgomery Circuit Court, Montgomery County, Maryland, and on September 18, 1970, in the United States District Court, Judicial District of Maryland.

Office of the Secretary

PRIMARY LEAD METAL FROM CANADA

Withholding of Appraisement Notice

Information was received on February 16, 1973, that primary lead metal from Canada was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of March 16, 1973, on page 7130. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to, or likelihood of injury to, or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162), of primary lead metal from Canada is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of reasons. The information currently before the Bureau of Customs tends to indicate that there are sufficient sales in the home market to provide an adequate basis of comparison for fair value purposes.

Accordingly, the probable basis of comparison for fair value purposes will be between purchase price and the adjusted home market price of such or similar merchandise.

Preliminary analysis suggests that purchase price will probably be calculated on the basis of a delivered, duty paid price, with deductions for a discount, Canadian and U.S. freight, U.S. duty, and a sales commission.

Adjusted home market price will probably be calculated on the basis of a weighted-average of delivered prices in the home market with deductions for freight, selling expenses, sales commissions and discounts, where appropriate. Adjustments will probably be made for credit terms.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the adjusted home market price.

Customs officers are being directed to withhold appraisement of primary lead metal from Canada in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street, N.W., Washington, D.C. 20229, in time to be received by his office not later than 10 calendar days from the date of publication of this notice in the Federal Register. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than August 27, 1973.

This notice, which is published pursuant to section 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective July 27, 1973. It shall cease to be effective January 28,1974, unless previously revoked.

[SEAL] EDWARD L. MORGAN,
Assistant Secretary for Enforcement, Tariff and Trade Affairs, and Operations.

JULY 20, 1973.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[R 06978]

CALIFORNIA

Order Opening National Resource Lands

JULY 19, 1973.

1. Public Land Order No. 4741 of November 6, 1969, revoked Executive Orders of November 11, 1901 and April 30, 1902, which withdrew the following described national resource lands for lighthouse purposes:

SAN BERNARDINO MERIDIAN

T. 1 S., R. 18 W.,
Sec. 29, SW¼;
Sec. 30, SE¼;
Sec. 32, Lot 4 and NW¼NW¼.

The area described aggregates 398.04 acres in Los Angeles County.

2. Pursuant to the authority redelegated to me by the Chief, Division of Technical Services, California State Office, Bureau of Land Management, approved by the California State Director effective January 12, 1972 (37 FR 491), it is ordered as follows:

3. At 10 a.m., on August 27, 1973, the lands shall be open, subject to valid existing rights, to permit the granting only of a right-of-way under section 2477, U.S. Revised Statutes (43 U.S.C. 932), to Los Angeles County, California, for the construction of a public highway as delineated on the map filed with the Bureau of Land Management and designated "County Road No. R-6910, Kimberly Canyon Road (Dume-Canyon Road 3-11)".

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

MONTICELLO DISTRICT ADVISORY BOARD

Notice of Meeting

Notice is hereby given that the Monticello District Six Advisory Board will hold a business meeting on August 16, 1973, commencing at 9:00 a.m. at the Monticello District Office Conference Room, Monticello, Utah. The agenda for the meeting will include consideration of grazing applications, exchange of use applications, applications to transfer grazing privileges, range improvement program for 1974, and any other business that should be considered by the Board.

The meeting will be open to the public.

The Advisory Board Chairman is Kenneth S. Summers, P.O. Box 1147, Monticello, Utah 84535.

Dated: July 20, 1973.

FRANK C. SHIELDS,
District Manager.

V 38-144 JUL 27 73 XUM

National Park Service

ADVISORY BOARD ON NATIONAL PARKS, HISTORIC SITES, BUILDINGS AND MONUMENTS

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a special meeting of the Advisory Board on National Parks, Historic Sites, Buildings and Monuments will be held on August 7 and 8, 1973, in Room 8070, Department of the Interior, 18th and C Streets, N.W., Washington, D.C.

The purpose of the Advisory Board is to advise the Secretary of the Interior on matters relating to the National Park System, and the administration of the Historic Sites Act of 1935.

The members of the Advisory Board are as follows:

Dr. Melvin M. Payne (Chairman), Washington, D.C.
Mrs. Lyndon B. Johnson (Vice Chairman), Stonewall, Texas.
Mr. Peter C. Murphy, Jr. (Secretary), Springfield, Oregon
Honorable E. Y. Berry
Rapid City, South Dakota
Dr. A. Starker Leopold
Berkeley, California
Mr. Laurence W. Lane, Jr.
San Francisco, California
Mr. Linden C. Pettys
Ludington, Michigan
Mr. Steven L. Rose
Arcadia, California
Capt. Walter M. Schirra, Jr.
Englewood, Colorado
Dr. Douglas W. Schwartz
Santa Fe, New Mexico
Dr. William G. Shade
Charlottesville, Virginia

The purpose of the meeting is to receive a report on proposals arising out of the implementation of the Alaska Native Claims Settlement Act. The Advisory Board will also consider two proposals for National Historic Landmark eligibility, Cape Krusenstern, Alaska, and Moanalua Valley, Hawaii.

The meeting will be closed to the public. The Secretary of the Interior has made a determination in accordance with section 10(d) of the Federal Advisory Committee Act that the meeting will involve matters exempt from public disclosure under the provisions of 5 U.S.C. 552(b). However, any member of the public may file with the Advisory Board a statement in writing concerning any of the matters to be discussed.

Persons desiring further information concerning this meeting or who wish to file written statements, may contact Robert M. Landau, Director, Office of Advisory Commissions, National Park Service, Washington, D.C., at 202-343-8953.

A report of the meeting will be prepared in accordance with the provisions of the Federal Advisory Committee Act.

Dated: July 19, 7973.

STANLEY W. HULETT,
Associate Director,
National Park Service.

BLUE RIDGE PARKWAY

Notice of Intention to Negotiate Concession Contract

Pursuant to the provisions of section 5, of the Act of October 9, 1965; (79 Stat. 969; 16 U.S.C. 20) public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Crafts of Nine States, Inc., authorizing it to provide concession facilities and services for the public on the Blue Ridge Parkway for a period of 5 years from January 1, 1974, through December 31, 1978.

The foregoing concessioner has performed its obligations under the expiring contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before August 27, 1973.

Interested parties should contact the Chief of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated July 20, 1973.

LAWRENCE C. HADLEY,
Assistant Director,
National Park Service.

[INT DES 73-45]

OUTER CONTINENTAL SHELF OFFSHORE CALIFORNIA

Santa Ynez Unit, Santa Barbara Channel; Availability of Draft Environmental Impact Statement and Public Hearings Regarding Proposed Development

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement on the proposed oil and gas development by Exxon Company—U. S. A. of the 17 leases comprising the Santa Ynez Unit Area on the Outer Continental Shelf, Santa Barbara Channel, off the coast of California. The proposed oil and gas development, the impact of which is described in the draft, includes a drilling and production platform in 850 feet of water, an oil and a gas pipeline to a new onshore treatment and storage facility, modification of an existing marine terminal, and an offshore treatment and storage facility as an alternative to the proposed onshore facility.

The draft environmental statement is available for public review in the following U.S. Geological Survey Public Inquiries Offices: Room 7638, Federal Building, 300 North Los Angeles Street, Los Angeles, California 90012; Room 504, Custom House, 555 Battery Street, San Francisco, California 94111; U.S. Geological Survey Library, 345 Middlefield Road, Menlo Park, California 94025; Room 1012, Federal Building, Denver, Colorado 80202; and Map Information Office, Room 1040, GSA Building, 1800 F. Street, NW., U.S. Geological Survey, Washington, D. C. 20244. The draft statement will also be available for public review at the Santa Barbara City library, Anapamu and Anacapa Streets, Santa Barbara, California.

Copies of the three-volume statement are available for purchase from the Los Angeles and Washington, D.C. offices at $5.00 per set.

A public hearing will be held beginning at 9 a.m. p.d.t. on August 28, 1973, in Santa Barbara High School Auditorium, 700 East Anapamu Street, Santa Barbara, California for the purpose of receiving comments and suggestions relating to the proposed plan of development of the Santa Ynez Unit. The hearing has been scheduled to extend through August 30 if necessary. Interested individuals, representatives of organizations, and public officials who wish to testify at the hearing are requested to so inform, in writing, the Area Oil and Gas Supervisor, U.S. Geological Survey, 7744 Federal Building, 300 North Los Angeles Street, Los Angeles, California 90012, by 4 p.m. p.d.t., August 21, 1973.

Time limitations make it necessary to limit the length of oral presentations to 10 minutes. Exceptions to this time limitation may be authorized for the proponent of the plan of development (for the purpose of fully explaining the proposal) and to other persons presenting testimony who represent more than one group or organization if a formal request is presented to the Area Oil and Gas Supervisor prior to 4 p.m. p.d.t., August 21, 1973. Oral testimony may be supplemented by a more complete written statement which may be submitted to the hearing officer at the time of presentation of the oral testimony. Written statements presented in person at the hearing and supplemental materials submitted by September 11, 1973, to the Director, U.S. Geological Survey, U.S. Department of the Interior, Washington, D.C. 20244, will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral testimony by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

Written comments from those unable to attend the hearing should be addressed to the Director, U.S. Geological Survey, U.S. Department of the Interior, Washington, D.C. 20244. The Department will accept written comments on the draft environmental impact statement until September 11, 1973. This will allow ample time for those unable to testify at the hearing to make their views known. Written comments on the draft environmental impact statement will be considered for inclusion in the final statement.

The hearing will provide the Department with additional information from both the public and private sectors to help evaluate fully the potential effects of the proposed development on the total environment aquatic resources, aesthetics, recreation and other resources in the Santa Barbara Channel Area. The hearing will also provide the Department, under section 102(2)(C) of the National Environmental Policy Act of 1969, the opportunity to receive additional comments and views of interested State and local agencies.

After all testimony and comments have been received and analyzed, a final environmental statement will be prepared.

LAURENCE E. LYNN, JR.,
Assistant Secretary of the Interior.

SITGREAVES NATIONAL FOREST GRAZING ADVISORY BOARD

Notice of Meeting

The Sitgreaves National Forest Grazing Advisory Board will meet at 9 a.m. on August 31, 1973, in the Chevelon Ranger District Office, Winslow, Arizona.

The purpose of the meeting is to discuss and view current range management practices and improvement construction on the Chevelon Canyon and Wallace Allotments. The allotments are being converted from sheep to cattle use, thus requiring a significant amount of fence construction and water development.

The meeting will be open to the public. Persons who wish to attend may contact:

Mr. Irving Gibson, Chairman, Sitgreaves Grazing Advisory Board c/o Halter Cross Ranch Heber, Arizona. Phone No. 535-4603 or Forest Supervisor Sitgreaves National Forest P.O. Box 908 Holbrook, Arizona Phone No. 524-6236

The Grazing Board has established the following rules for public participation

1. Those wishing to make a verbal statement are to submit written documentation and state the amount of time required to present the topic.

2. The information is to be received by the Chairman or Secretary of the Board not less than seven days prior to the meeting. Their addresses are shown above.

3. The Chairman and Secretary of the Board will review all requests and inform each participant of the time allotted for their presentation.

Dated: July 18, 1973.

J. N. CRAIG,
Acting Forest Supervisor.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 16, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issued of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00014-01-77040. Applicant: Michigan State University, Department of Biochemistry, East Lansing, Michigan 48823. Article: Mass Spectrometer, Mode CH-5DF and accessories. Manufacturer: Varian MAT GmbH, West Germany. Intended use of article: The article will be used at a mass spectrometry service facility to provide mass spectra of minute samples of various compounds at resolution sufficiently high to enable exact ionic and molecular formulae to be assigned. In addition, high resolution abundance determinations will be performed on some of these compounds. Advantage will be taken of field desorption, field ionization and stable isotope labeling techniques to provide the data needed for investigators in a variety of disciplines. Types of compounds typically submitted include: lipids, steroids and steroid metabolites, drugs and drug metabolites, pheromones and hormones, oligosaccharides, antibiotics, antifungals, pesticides, terpines, simple and complex aliphatic and aromatic compounds, organometallics, amino acids and derivatives, early products of photosynthesis, peptides, and nucleosides and related compounds. Experiments to be conducted involve computer interactive high resolution mass spectra to determine molecular and ionic formulae; oligosaccharides sequencing at high resolution; monitoring of selected ions within a limited mass range at high resolution during the elution of a peak from the gas chromatograph into the ion source, using static measurements to maximize the potential of the system with computer control of the magnetic and electric sectors as well as accelerating voltage; computer controlled multiple ion detection for high resolution field desorption mass spectrometry; field desorption applications at medium to high resolution with computer aquisition and reduction of data; experiments involving computer interaction to measure the variables produced by energetic, magnetic and electrostatic changes in the mass spectrometer to stabilize these variations or remove their effects on the measured ion intensities; and daughter ion analysis for determination of fragmentation pathways to study kinetics of certain unimolecular ionic reactions.

The article will also be used to train professional and graduate students in the following courses: Bioch. 801, Biochemical Methods of Analysis; Bioch. 806, Special Laboratory Projects in Mass Spectrometry; Bioch. 961, Theory and Applications of Mass Spectrometry; Bioch. 855, Special Research Topics; and Bioch 999, Thesis Research. Application received by Commissioner of Customs: July 2, 1973.

V38-144 JUL 27 73 XUM

Docket Number: 74–00015–33–46070. Applicant: American Red Cross Blood Research Lab., 9312 Old Georgetown Road, Bethesda, Maryland 20014. Article: Scanning Electron Microscope, Model MSM–2T. Manufacturer: Akashi Seisakusho, Japan. Intended use of article: The article will be used as an essential tool in a series of experiments involving a variety of biogolical materials and exemplified by such studies as platelet adhesion to colagen, the role of surface macromolecules in the control of cell behavior, the antigenic nature of the surface of blood cells, the nature of freezing injury in a variety of materials including beating heart cells and in studies on age related morphological changes in the cellular components of blood. Application received by Commissioner of Customs: July 5, 1973.

Docket Number: 74–00016–33–46040. Applicant: Marine Biomedical Institute, 200 University Boulevard, Galveston, Texas 77550. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is to be used in the study of the mammalian ventral root, a tissue consisting primarily of myelinated and unmyelinated axons, in which previously unsuspected unmyelinated fibers undoubtedly important in human disease have been found. The study will be conducted by performing selective surgical ablations in model mammals such as the cat or monkey and examining the ventral root in the electron microscope to see where the fibers are coming from. Application received by Commissioner of Customs: July 5, 1973.

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.73–15480 Filed 7–26–73;8:45 am]

UNIVERSITY OF TEXAS ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90 day period. . . . If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the section is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20 day period, or fails to resubmit a new application within the 90 day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

• • • the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

Docket number: 71–00429–38–67200. Applicant: University of Texas at Austin, 211 Mezes Hall, Dept. of Psychology, Austin, Texas 78712. Article: Psychological testing apparatus. Date of denial without prejudice to resubmission: April 26, 1971.

Docket number: 72–00426–65–01100. Applicant: North Carolina State University (Raleigh), NCSU Minerals Research Laboratory, Asheville, North Carolina 28801. Article: Warman Cyclosizer. Date of denial without prejudice to resubmission: March 28, 1973.

Docket number: 73–00157–91–32500. Applicant: University of Georgia, Botany Department, Athens, Georgia 30601. Article: InfraRed Gas Analyser, Model SB2. Date of denial without prejudice to resubmission: March 5, 1973.

Docket number: 73–00192–00–46500. Applicant: Veterans Administration Hospital, 4150 Clement Street, San Francisco, California 94121. Article: Diamond Knife for LKB Microtome, 2 mm edge. Date of denial without prejudice to resubmission: March 7, 1973.

Docket number: 73–00200–33–46040. Applicant: DHEW, PHS, HSMHA, Viral Oncology Laboratory, Center for Disease Control, 1600 Clifton Road, N.E. Atlanta, Georgia 30333. Article: Electron Microscope, Model EM 201. Date of denial without prejudice to resubmission: March 7, 1973.

Docket number: 73–00215–99–46070. Applicant: Tulane University, 6823 St. Charles Avenue, New Orleans, Louisiana 70118. Article: Scanning Electron Microscope, Model SS 600. Date of denial without prejudice to resubmission: March 15, 1973.

Docket number: 73–00223–33–71200. Applicant: Temple University, Broad and Montgomery Streets, Philadelphia, Pennsylvania 19122. Article: Freeze-drying Plant, Type FT–1 and accessories. Date of denial without prejudice to resubmission: March 28, 1973.

Docket number: 73–00239–33–46595. Applicant: University of California, Facility for Advanced Instrumentation, Davis, California 95616. Article: Pyramitome, LKB 11800. Date of denial without prejudice to resubmission: March 15, 1973.

Docket number: 73–00243–33–46070. Applicant: Texas Tech University, Department of Biology, Lubbock, Texas 79409. Article: Scanning Electron Microscope, Model S4. Date of denial without prejudice to resubmission: March 19, 1973.

Docket number: 73–00257–33–46595. Applicant: Baylor College of Medicine, Department of Ophthalmology, 1200 Moursund Avenue, Houston, Texas 77025. Article: LKB 11800–1 Pyramitome. Date of denial without prejudice to resubmission: March 28, 1973.

Food and Drug Administration

[DESI 9149; Docket No. FDC–D–334; NDA 9–149 etc.]

CERTAIN CHLORPROMAZINE PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Follow-Up Notice

The Food and Drug Administration published an announcement in the FEDERAL REGISTER of April 3, 1971 (36 FR 6447) and an amendment on November 2, 1971 (36 FR 20997), regarding the efficacy of the following chlorpromazine preparations, among other drugs.

NDA 9–149 Thorazine Tablets, Concentrate, Injection, Syrup; and NDA 11–120 Thorazine Spansules, all marketed by Smith Kline and French Laboratories, 1500 Spring Garden Street, Philadelphia, PA 19101.

Based upon reevaluation of the drug and review of new data submitted, the following indications are reclassified from probably effective to effective:

For the control of the manifestations of the manic type of manic depressive illness; and for the relief of intractable hiccups.

Other indications previously classified as probably effective or possibly effective will be the subject of future FEDERAL REGISTER notices.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 23, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 50127; Docket No. FDC–D–657; NDA 50–127]

PHTHALYLSULFATHIAZOLE AND NEOMYCIN SULFATE

Drugs for Human Use; Drug Efficacy Study Implementation; Follow-Up Notice

In a notice (DESI 50127) published in the FEDERAL REGISTER of May 13, 1970 (35 FR 7466), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following preparation:

Neothalidine Granules containing phthalylsulfathiazole and neomycin sulfate; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, PA 19486 (NDA 50–127).

The notice stated that the drug was regarded as possibly effective for its labeled recommendations for use in preparation of patients for surgery of the intestinal tract; maintenance of low intestinal bacteria count postoperatively; and prevention of development of neomycin-resistant strains of *Aerobacter aerogenes.*

In response to the notice, Merck submitted one controlled study of eighty healthy human subjects comparing the variety and numbers of colonies from stool cultures following treatment with Neothalidine Granules, neomycin sulfate, phthalylsulfathiazole, and a placebo. The data submitted failed to demonstrate a significant difference between the effectiveness of the combination and the effectiveness of neomycin sulfate alone. The component phthalylsulfathiazole has not been shown to make a significant contribution to the claimed effects or to enhance the safety or effectiveness of neomycin used alone. The fixed combination therefore does not comply with the requirements of 21 CFR 3.86 Fixed-Combination Prescription Drugs for Humans, and accordingly the Commissioner concludes that the combination neomycin sulfate and phthalylsulfathiazole lacks substantial evidence of effectiveness for the labeled indications.

Batches of the drug are no longer acceptable for release. There is no antibiotic drug regulation which provides for certification of the combination containing phthalylsulfathiazole and neomycin sulfate.

Any person who will be adversely affected by this action may, on or before August 27, 1973, petition for the issuance of a regulation providing for certification of the drug for such indications. The petition must be supported by a full factual and well documented medical analysis which shows reasonable grounds for the issuance of such regulation.

A petition for issuance of said regulation should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 23, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON REGULATORY GUIDES

Notice of Meeting

JULY 24, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Regulatory Guides will hold a meeting on August 7, 1973, in Room 1062, at 1717 H Street, NW., Washington, D.C. The subjects scheduled for discussion are drafts of proposed Regulatory Guides.

The Subcommittee is meeting to formulate recommendations to the ACRS regarding the above subjects.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the purpose of the meeting will be

V38-144-I JUL 27 73 XUM

to discuss draft documents which fall within exemption (5) of 5 U.S.C. 552(b) and will consist of an exchange of opinions, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such meetings to protect the free interchange of internal views and to avoid undue interference with agency and Committee operation.

JOHN C. RYAN,
Acting Advisory Committee Management Officer.

[FR Doc.73-15541 Filed 7-26-73;8:45 am]

OCCUPATIONAL HEALTH GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued a new guide in Division 8 ("Occupational Health Guides") of the Regulatory Guide series. The new guide is Regulatory Guide 8.8, "Information Relevant to Maintaining Occupational Radiation Exposures As Low As Practicable (Nuclear Reactors)".

Regulatory Guides are developed to describe and make available to the public methods acceptable to the Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents. Some guides also provide guidance to applicants concerning information needed by the staff in the review of applications for permits and licensees.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated.

Other Division 8 Regulatory Guides currently being developed include the following:

Bioassay for Uranium
Respiratory Protection
Dosimetry for Criticality Accidents
Criticality Accident Alarm System
Surface Contamination
(5 U.S.C. 552(a))

Dated at Bethesda, Maryland this 23d day of July 1973.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MACAO

Entry or Withdrawal from Warehouse for Consumption

JULY 19, 1973.

On May 30, 1973, the Governments of the United States and Portugal exchanged notes amending the comprehensive Bilateral Cotton Textile Agreement of December 22, 1972, concerning exports of cotton textiles and cotton textile products from Macao to the United States. Among the provisions of the agreement, as amended, are those establishing specific limits on Category 49 and on Category 51 in combination with Category 50 for the agreement year which began on January 1, 1973.

Accordingly, there is published below a letter of July 19, 1973, from the Chairman, of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in the above categories produced or manufactured in Macao which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning January 1, 1973 and extending through December 31, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

JULY 19, 1973.

Dear Mr. Commissioner:

This directive amends but does not cancel the directive issued to you on January 5, 1973 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textiles and cotton textile products produced or manufactured in Macao.

The first paragraph of the directive of January 5, 1973 is amended, effective as soon as possible, to read as follows:

"Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral Cotton Textile Agreement of December 22, 1972 between the Governments of the United States and Portugal, and in accordance with procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1973 and for the twelve-month period extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 49, 50/51, and 62, produced or manufactured in Macao, in excess of the following levels of restraint:

Category	Twelve-Month Levels of Restraint[1]
49	27,692 dozen
50/51	53,380 dozen
62	152,174 pounds

Cotton textile products in Categories 49 and 51 produced or manufactured in Macao and which have been exported to the United States prior to January 1, 1973, shall not be subject to this directive.

Cotton textile products in Categories 49 and 51 which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton textiles and cotton textile products from Macao have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.73-15516 Filed 7-26-73;8:45 am]

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE HUNGARIAN PEOPLE'S REPUBLIC

Entry or Withdrawal from Warehouse for Consumption

JULY 19, 1973.

On August 13, 1970, the United States Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of the Hungarian People's Republic concerning exports of cotton textiles and cotton textile products from the Hungarian People's Republic to the United States over a five-year period beginning on August 1, 1970. Among the provisions of the bilateral agreement are those establishing an aggregate limit for the 64 categories and within the aggregate limit specific limits on Categories 9 and 39 for the agreement year beginning on August 1, 1973.

There is published below a letter of July 19, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 9 and 39 produced or manufactured in the Hungarian People's Republic which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning August 1, 1973 be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs
Department of the Treasury
Washington, D.C. 20229

JULY 19, 1973.

Dear Mr. Commissioner:

Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of August 13, 1970 between the Governments of the United States and the Hungarian People's Republic, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective August 1, 1973 and for the twelve-month period extending through July 31, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 9 and 39, produced or manufactured in the Hungarian People's Republic, in excess of the following levels of restraint:

Category	Twelve-Month Levels of Restraint
9	1,273,388 square yards
39	65,985 dozen pairs

In carrying out this directive, entries of cotton textiles and cotton textile products in Categories 9 and 39 produced or manufactured in the Hungarian People's Republic and which have been exported prior to August 1, 1973, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period of August 1, 1972 through July 31, 1973. In the event that the levels of restraint established for that twelve-month period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth are subject to adjustment pursuant to the provisions of the bilateral agreement of August 13, 1970, between the Governments of the United States and the Hungarian People's Republic which provide, in part, that within the aggregate limit, the limitations on Categories 9 and 39 may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802), as amended on February 14, 1973 (38 FR 4436).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Hungarian People's Republic and with respect to imports of cotton textiles and cotton textile products from the Hungarian People's Republic have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.73-15514 Filed 7-26-73;8:45 am]

COTTON, WOOL, AND MAN-MADE FIBER TEXTILES AND TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or Withdrawal from Warehouse for Consumption

JULY 17, 1973.

On May 25, 1972, there was published in the FEDERAL REGISTER (37 FR 10605) a letter dated May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textiles and textile products produced or manufactured in the Republic of Korea and exported from the Republic of Korea thirty (30) days following publication for which the Republic of Korea had not issued a visa. One of the visa requirements is that the visa include the signature of one of five Korean officials authorized to issue a visa. The Government of the Republic of Korea has requested that Mr. Dong-Sik Ju be authorized to issue visas replacing Mr. Jung Soon Yun, who will cease to sign. Mr. Ju's signature will be valid for textile shipments exported from the Republic of Korea to the United States on or after May 31, 1973. This list of officials was previously amended by directive of December 21, 1972 (37 FR 28917).

Accordingly, there is published below a letter of July 17, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs further amending the directive of May 19, 1972, effective as soon as possible, to make the requested change in signatures of officials authorized to issue visas for textile shipments exported to the United States from the Republic of Korea on or after May 31, 1973. A facsimile of Mr. Ju's signature is published as an enclosure to that letter.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

V 38 144 JUL 27 73 XUM

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20009.

JULY 17, 1973.

Dear Mr. Commissioner:

This letter further amends, but does not cancel, the directive of May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit, effective 30 days after publication of notice in the Federal Register, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1–64; wool textile products in Categories 101–126, 128, and 131–132; and man-made fiber textile products in Categories 200–243; produced or manufactured in the Republic of Korea for which the Republic of Korea had not issued a visa. One of the visa requirements is that the visa include the signature of one of five Korean officials authorized to issue visas. The directive of May 19, 1972 was previously amended on December 21, 1972.

Under the provisions of the Cotton Textile Agreement of December 30, 1971 and the Wool and Man-Made Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, the directive of May 19, 1972 is amended, effective as soon as possible, to authorize Mr. Dong-Sik Ju to issue visas, replacing Mr. Jung Soon Yun, who will no longer sign. A facsimile of Mr. Ju's signature is enclosed.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool, and man-made fiber textiles and textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

Date / Signature of Seller, Shipper, or Agent of Either	Date / Signature of Shipper or Agent

This form of invoice required generally if rate of duty based upon or regulated by value of goods and purchase price or value of shipment exceeds $500. Otherwise, use commercial invoice.

False statements or willful omissions in any invoice or other documents executed and forwarded for United States Customs entry purposes will subject the goods to seizure and forfeiture or any person involved will be subject to a penalty equal to the value of the goods. Publicity will be given to all seizures and penalties, including the disclosure of the identity of the offenders involved (19 U.S.C. 1592).

Vague or misleading information may result in expensive trouble to importer and delays in customs clearance.

Supplies of this form may be secured from consular offices of the United States and from The Director, Customs Information Exchange, 201 Varick Street, New York, N. Y., 10014. Privately printed forms must conform in all respects to the official form.

CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MACAO

Entry or Withdrawal from Warehouse for Consumption

JULY 19, 1973.

On May 30, 1973, the Governments of the United States and Portugal exchanged notes amending the comprehensive Bilateral Wool and Man-Made Fiber Textile Agreement of December 22, 1972, concerning exports of wool and man-made fiber textile products from Macao to the United States. Among the provisions of the agreement, as amended, are those establishing within the applicable aggregate limit for wool textiles specific export limitations on Categories 116 and 117; and adjusting the levels of restraint applicable to man-made fiber textile products in Categories 219, 221, 222, and 224 for the agreement year which began on January 1, 1973.

Accordingly, there is published below a letter of July 19, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of wool and man-made fiber textile products in the above categories, produced or manufactured in Macao, which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning January 1, 1973 and extending through December 31, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

JULY 19, 1973.

Dear Mr. Commissioner:

This directive amends but does not cancel the directive issued to you on January 5, 1973 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain wool and man-made fiber textiles products produced or manufactured in Macao.

The first paragraph of the directive of January 5, 1973 is amended, effective as soon as possible, to read as follows: "Under the Bilateral Wool and Man-Made Fiber Textile Agreement of December 22, 1972, between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible and for the twelve-month period beginning January 1, 1973 and extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of wool textile products in Categories 116 and 117 and man-made fiber textile products in Categories 219, 221, 222, 223, 224, 229 and 230, produced or manufactured in Macao, in excess of the following twelve-month levels of restraint:

Category	Twelve-month Levels of Restraint
116	pounds.. 307,692
117	pounds.. 205,128
219	dozen.. 354,031
221	dozen.. 65,217
222	dozen.. 246,180
223	dozen.. 111,000
224	pounds.. 256,410
229	dozen.. 140,800
230	dozen.. 12,715

Entries of wool textile products in Categories 116 and 117 produced or manufactured in Macao and which have been exported to the United States prior to January 1, 1973 shall not be subject to this directive.

Wool textile products in Categories 116 and 117 which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The actions taken with respect to the Government of Portugal and with respect to imports of wool and man-made fiber textile products from Macao have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

ENVIRONMENTAL PROTECTION AGENCY

NOISE CRITERIA DOCUMENT

Notice of Publication and Availability

Pursuant to section 5(a)(1) of the Noise Control Act of 1972 (86 Stat. 1248, Public Law 92-574) the Environmental Protection Agency has developed criteria with respect to noise reflecting the scientific knowledge most useful in indicating the kind and extend of all identifiable effects on the public health and welfare which may be expected from differing quantities and qualities of noise.

The Environmental Protection Agency has published these criteria in a Noise Criteria Document which shall be available for public inspection during normal business hours at each of the ten regional offices of the Environmental Protection Agency and at the Office of Public Affairs, Environmental Protection Agency, Fourth and M Streets, SW., Washington, D.C. Copies may be purchased from the United States Government Printing Office, Washington, D.C. 20402.

ROBERT W. FRI,
Acting Administrator.

UNITED STATES WATER RESOURCES COUNCIL

FORMULATION AND EVALUATION OF WATER AND RELATED LAND RESOURCES PROJECTS

Change in Discount Rate

Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 5⅝ percent for the period July 1, 1973, through and including June 30, 1974.

The rate has been computed in accordance with § 704.39 of the rules and regulations of the Water Resources Council, 18 CFR 704.39, and is to be used by all Federal agencies in plan formulation and evaluation of water and related land resources projects for the purpose of discounting future benefits and computing costs, or otherwise converting benefits and costs to a common time basis.

The interest rate shall apply to all Federal and federally assisted water and related land resources project evaluation reports submitted to the Congress, or approved administratively, after the close of the 90th Congress, subject, however, to the provisions of 18 CFR 704.39(d) regarding projects authorized prior to the close of the second session of the 90th Congress where State or local governmental agencies have given, prior to December 31, 1969, satisfactory assurances to pay the required non-Federal share of project costs.

The Treasury Department informed the Water Resources Council pursuant to 18 CFR 704.39(b) that the interest rate would be 5⅝ percent based upon the formula set forth in 18 CFR 704.39(a): "• • • the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity • • •." This rate can be used for plan formulation and evaluation for fiscal year 1974 consistent with a further provision of the Council's rules and regulations which provides "• • • [t]hat in no event shall the rate be raised or lowered more than one-quarter of 1 percent for any year." 18 CFR 704.39(a). Since the rate in fiscal year 1973 was 5½ percent, (37 FR 14445), the rate for fiscal year 1974 is 5⅝ percent.

Dated: July 23, 1973.

REUBEN J. JOHNSON,
Acting Director.

FEDERAL POWER COMMISSION

[Docket No. RI74-1, etc.]

RATE CHANGES

Order for Hearing on and Suspension of Proposed Changes and Allowing Changes To Become Effective Subject to Refund [1]

JULY 11, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

[16] The pressure base is 14.65 p.s.i.a.

The proposed increase of Amoco Production Company under FPC Gas Rate Schedule No. 602 is accepted insofar as it does not exceed the ceiling rate prescribed in Order No. 435.

The remaining proposed increases, including that portion of Amoco's increase under FPC Gas Rate Schedule No. 602 which exceeds the ceiling in Order No. 435, exceed the rate limit for a one day suspension, and they are suspended for five months.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Chapter I, Part 2, Section 2.56).

Nothing contained in this order shall relieve the respondents of any responsibility imposed by the Economic Stabilization Act of 1970, (Pub. L. 91-379, 84 Stat. 799, as amended by Pub. L. 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

[Docket No. CI74]

CITIES SERVICE OIL CO.

Notice of Application

JULY 20, 1973.

Take notice that on July 5, 1973, Cities Service Oil Company (Applicant), P.O. Box 300, Tulsa, Oklahoma 74102, filed in Docket No. CI74-7 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from the Lizzie Campbell No. 1 Unit, Ellis County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period on July 31, 1973, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 10,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426 a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-8]

HNG OIL CO.

Notice of Application

JULY 20, 1973.

Take notice that on July 5, 1973, HNG Oil Company (Applicant), P.O. Box 767, Midland, Texas 79701, filed in Docket No. CI74-8 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation from the South Stowell Area, Jefferson County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of gas on May 17, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for eighteen months from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 1,000 Mcf of gas per day at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Initial upward Btu adjustment is estimated to be 3.330 cents per Mcf. Initial sales are estimated to be approximately 1,000 Mcf of gas per day.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commisson on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-9]

MOBIL OIL CORP.

Notice of Application

JULY 20, 1973.

Take notice that on July 9, 1973, Mobil Oil Corporation (Applicant), Three Greenway Plaza East, Suite 800, Houston, Texas 77046, filed in Docket No. CI74-9 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the Sand Dunes Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 1,000 Mcf per day at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commisson on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-15388 Filed 7-26-73;8:45 am]

[Docket No. RP74-3]

VALLEY GAS TRANSMISSION INC.

Filing of Proposed Curtailment Plan

JULY 23, 1973.

Take notice that Valley Gas Transmission, Inc., (Valley), on July 6, 1973, submitted to the Commission for filing, as part of its FPC Gas Tariff, Original Volume No. 1, a proposal to incorporate in that tariff an additional tariff sheet which enumerates procedures under which Valley will curtail deliveries to its customers. This filing is pursuant to Order No. 431, (45 FPC 570). The proposed sheet is Original Sheet No. 181 and the proposed effective date is August 5, 1973.

The proposed tariff sheet provides that if the declining availability of the natural gas reserves connected to Valley's system, and dedicated to serving a buyer, result in Valley's inability to deliver to the buyer the volumes contemplated for delivery under the current applicable rate schedules, then deliveries to those buyers will be curtailed only to the extent which will permit Valley to deliver, through its system, the maximum quantity of gas then available to Valley from the reserves dedicated to service the given buyer.

Valley states that this filing is required because Valley is ostensibly facing a gas supply emergency on its system and potentially substantial curtailments are imminent. And further, Valley has requested that its proposed curtailment plan be accepted in lieu of a plan based on Order No. 467, as amended, because of Valley's suggestion that the curtailment plan is consistent with various aspects of its overall operations.

Namely, these asserted elements of its system are 1) the special-contract gathering service which it renders for Tennessee Gas Pipe Line Co. and United Gas Pipe Line Co., 2) the fact that it is a multiple-system gatherer and 3) that it is not a long-line pipeline, 4) that it purports to have no knowledge of the actual end use of the gas it delivers and 5) that the gas it delivers into interstate commerce with respect to certain deliveries for subsequent transportation is asserted to be subject to regulation by the Commission.

Therefore, any person desiring to be heard or to make any intervention or protest with respect to this filing should, on or before July 30, 1973, file with the Federal Power Commission, 825 North Capitol St., Washington, D.C. 20426, a petition to intervene or a protest in accordance with §§ 1.8 or 1.10 of the Commission's rules of practice and procedure

V38-1144 JUL 27 73 XUM

(18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-15506 Filed 7-26-73;8:45 am]

FEDERAL RESERVE SYSTEM

ALABAMA BANCORPORATION

Order Approving Acquisition of Bank

Alabama Bancorporation, Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire all the voting shares (less directors' qualifying shares) of the successor by merger to The Alabama National Bank of Montgomery, Montgomery, Alabama ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of shares of Bank.

Notice of the application, affording opportunity to permit interested persons to submit comments and views has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls five banks with total aggregate deposits of $972.6 million, representing 14.3 per cent of total deposits of commercial banks in Alabama and is the largest banking organization in the State.[1] Acquisition of Bank (deposits of $71.1 million) would not significantly increase the concentration of banking resources in Alabama.

The Department of Justice ("Justice") submitted comments concerning this application similar to those it filed in the applications of First Alabama Bancshares, Inc., to acquire The City National Bank of Tuscaloosa and The Alabama Financial Group, Inc., to acquire First National Bank of Anniston. It was the view of Justice that approval of this application would contribute to a situation where only four State-wide banking organizations would exist in Alabama.

Application noted in its reply to the comments of Justice that the bank to be acquired is a distant third in the relevant market which is dominated by two much larger banks. Approval of the acquisition would, therefore, increase competition by making Bank a stronger competitor. Applicant also noted in its reply that even if the three Alabama applications commented on by Justice were approved by the Board, there would remain numerous independent banks of sufficient size to form valuable components of additional State-wide holding companies.

Bank is the third largest of nine banks located in the relevant banking market with about 12 per cent of the deposits in the market.[2] There is no substantial existing competition between any of Applicant's banking subsidiaries and Bank, primarily due to the fact that the closest banking subsidiary to Bank is approximately 80 miles distant. Furthermore, in view of the distances involved and Alabama's restrictive branching laws, there is little probability of substantial future competition developing between Applicant's banking subsidiaries and Bank. The largest bank in the market (a subsidiary of the second largest holding company in Alabama) controls about 44 per cent of market deposits and the second largest bank in the market controls about 24 per cent of market deposits. Applicant would not be obtaining a dominant position in the market, and several independent banks remain available for acquisition by other holding companies. Finally, Applicant's acquisition of Bank should enable the latter to compete more vigorously with these two large banks and could lead to the eventual deconcentration of the market.

Applicant has a nonbanking subsidiary, Engel Mortgage Company ("Engel"), with an office in Montgomery, which competes to a limited degree with Bank in the origination of mortgage loans. Engel primarily deals in mortgages on one-four family residences; Bank makes but few loans in this product line. Bank has a substantial volume of construction loans; however, Engel makes few loans of this type. Their combined share of the market for construction loans is negligible within the appropriate regional or national market. Neither Engel nor Bank is active in the origination of mortgages on income-producing property. Moreover, there are ten other mortgage companies and three savings and loan associations plus the remaining commercial banks which comprise alternative sources of mortgage credit. In the Board's view, consummation of this transaction would not have a substantially adverse effect on competition in any relevant product line of mortgage banking. Nor would it lead to a diminution of State-wide competition in banking, for reasons articulated in the Board's order of this date involving the application of First Alabama Bancshares, Inc., to acquire The City National Bank of Tuscaloosa. Based on the facts of record, the Board concludes that competitive considerations are consistent with approval of the application.

The financial condition, managerial resources and future prospects of Applicant, its subsidiary banks and Bank are generally satisfactory and consistent with approval of the acquisition. Factors relating to the convenience and needs of the community to be served lend some weight for approval of the application since Applicant will be able to provide international banking services in the Montgomery SMSA, a service which is not presently offered there. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record,[3] the application is approved for the reason summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By the order of the Board of Governors,[4] effective July 19, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15483 Filed 7-26-73;8:45 am]

ALABAMA FINANCIAL GROUP, INC.

Order Approving Acquisition of Bank

The Alabama Financial Group, Inc., Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of First National Bank of Anniston, Anniston, Alabama ("Bank") The bank into which Bank is to be merged has no significance except as a means to facilitate acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments, including those of the Department of Justice, in light of the factors

[1] All banking data are as of December 31, 1972, and represent bank holding company formations and acquisitions approved by the Board through May 31, 1973.

[2] The relevant banking market is approximated by the Montgomery Standard Statistical Area ("SMSA"), which consists of Elmore and Montgomery Counties.

[3] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Atlanta. Dissenting Statement of Governor Brimmer filed as part of the original document and available upon request.

[4] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer.

set forth in section 3(c) of the Act (12 U.S.C. 1842 (c)).

Applicant is the fourth largest bank holding company in Alabama. It controls four banks with aggregate deposits of approximately $515 million, representing 8.4 percent of the total commercial bank deposits in the State. (All banking data are as of June 30, 1972.) Consummation of the proposal would not result in a significant increase in the concentration of banking resources in Alabama.

Bank ($60.8 million in deposits) is the largest of nine banks located in Calhoun County and the City of Heflin, holding approximately 31 per cent of the commercial bank deposits in that market. Applicant's nearest subsidiary office to Bank is its lead bank in Birmingham, 50 miles west of Anniston. There is no significant existing competition between Bank and Applicant and, further, it is unlikely that such competition would develop in the future in view of the distances involved, the many intervening banks, and the restrictive branching laws of Alabama. Moreover, the possibility of future competition, developing through de novo entry by Applicant is slight since the market has experienced population loss since 1960 and is thus not now attractive for de novo entry. Accordingly, competitive considerations are consistent with approval of the application.

The Department of Justice has questioned the general effect that consummation of the proposed transaction and certain other transactions proposed by other Alabama bank holding companies would have upon State-wide banking structure in Alabama, but has not asserted that the proposed transaction would have an anticompetitive effect in the Calhoun County banking market. For reasons specified in the Board's Order approving the acquisition of shares of The City National Bank of Tuscaloosa by First Alabama Bancshares, Inc., the Board finds that consummation of the proposed transaction would not lead to a lessening of Statewide competition in banking.

The financial and managerial resources of Applicant, its banking subsidiaries and Bank are considered generally satisfactory. Considerations relating to the convenience and needs of the community are consistent with approval of the application. Applicant proposes to install automated teller equipment, providing the community with 24-hour-a-day deposit and withdrawal service, and it is expected that the community would benefit from such an innovation. It is the Board's judgment that consummation of the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective July 19, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

AMERICAN NATIONAL HOLDING CO.

Acquisition of Banks

American National Holding Company, Kalamazoo, Michigan, has applied in separate applications for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the following proposed new banks: The American National Bank in South Haven, South Haven; The American National Bank in Western Michigan, Allegan; and The American National Bank in Battle Creek, Battle Creek, all located in Michigan. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 13, 1973.

Secretary of the Board.

[FR Doc.73-15427 Filed 7-26-73;8:45 am]

FIRST ALABAMA BANCSHARES, INC.

Order Approving Acquisition of Bank

First Alabama Bancshares, Inc., Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire the successor by merger to The City National Bank of Tuscaloosa, Tuscaloosa, Alabama ("Bank"). The new national bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls five banks, with aggregate deposits of approximately $635 million, representing about 9½ per cent of total deposits in commercial banks in Alabama and is the second largest banking organization in Alabama. Acquisition of Bank (deposits of about $68 million) would not increase significantly the concentration of banking resources in the State.[1]

The Department of Justice ("Justice") commented upon this application, as well as pending applications by two other

[1] All banking data are as of December 31, 1972, unless otherwise noted, and include formations and acquisitions approved by the Board through May 31, 1973.

V 38-144 JUL 27 73 XUM

bank holding companies to acquire banks in Alabama.[3] Briefly, Justice is concerned that four large State-wide banking organizations control over 40 per cent of deposits in commercial banks in the State of Alabama, that such organizations are the most likely potential entrants into local markets throughout the State, and that, if these three acquisitions are approved, there would be only a dozen banks remaining in Alabama of a size large enough ($30 million according to Justice) to serve as the nucleus of an additional State-wide organization. Further, Justice asserts that such a limited State-wide banking structure could produce a situation whereby only a few organizations confront each other in local markets throughout Alabama, thereby leading to a tendency on the part of such organizations to develop parallel practices in such markets to the advantage of the companies involved but not necessarily for the public good.

In its response to Justice's comments, Applicant asserts, among other things, that Alabama needs larger banking structures in order to provide adequate services to large businesses in the State and to compete with much larger out-of-State organizations which seek business in Alabama. Applicant further states that Justice has ignored the public benefits that would be provided the Tuscaloosa area by consummation of the proposal herein.

Bank is the second largest of three banks located in the relevant market and controls about 39 per cent of deposits there.[3] There is no substantial existing competition between any of Applicant's banking subsidiaries and Bank. Applicant's subsidiary closest to Bank is approximately 45 miles distant. Nor is there a reasonable probability of substantial future competition developing between any of Applicant's banking subsidiaries and Bank, particularly in view of the distances between Applicant's subsidiary banks and Bank and Alabama's branching laws which preclude Applicant's subsidiaries from branching into Tuscaloosa and Bank from branching into the markets of Applicant's subsidiaries. Although the Tuscaloosa market appears attractice for de novo entry, Applicant has indicated it would not enter by this means and, in the Board's opinion, market conditions are not such as to warrant precluding Applicant's representation in this market through the acquisition of an existing bank. Other holding companies remain as potential entrants into the market through de novo means, and Applicant would not obtain a dominant position in the market through acquisition of Bank. The largest bank in the market has almost $20 million more in deposits than Bank and appears to be a viable, strong competitor and is likely to remain so even if Applicant acquires Bank. Moreover, the smallest bank in the market has shown a good growth rate since its establishment in 1968 and there is no indication that it would not be able to compete in those areas suitable to its size. The Board concludes that approval of the acquisition would not have substantial adverse effects on future competition in the Tuscaloosa market.

Moreover, the Board believes that the acquisition of Bank by Applicant will not necessarily increase the rigidity of the Alabama banking structure. The Board recently has approved the formation in Alabama of a fifth multibank holding company which has over $300 million in deposits.[4] However, apart from the prospect of holding companies in the process of being formed in Alabama, the Board is not persuaded that the existence of only the present four State-wide banking organizations in Alabama is so anticompetitive as to require denial of all bank acquisitions by those organizations. The fear expressed by Justice that parallel policies will develop in various local markets throughout the State on the basis of the four large organizations facing one another is based on speculation. There is no evidence in the record that any such policies have developed or will develop. Alabama is a State with low per capita income. The Board believes the development of larger banking organizations would be beneficial for the State since they would be able to provide better service for existing businesses within the State and perhaps attract substantial new business. Approval of this application will enable Applicant to bring its expertise and greater service capability to an Alabama location with good growth prospects and thereby make that location attractive for the large customers and industries which Alabama is seeking to attract. On the basis of the facts of record, the Board concludes that competitive considerations are consistent with approval of the application.

The financial condition, managerial resources, and future prospects of Applicant, its subsidiary banks and Bank are regarded as satisfactory. Applicant proposes to increase Bank's capital and this aspect lends some support for approval of the acquisition. Moreover, Applicant would be in a position to provide Bank with a source of management personnel, which is particularly important due to the fact that two senior officials of Bank have recently left the Bank. Factors related to the convenience and needs of the community to be served are consistent with approval and may lend some weight for approval, since Bank, after affiliation with Applicant, would be in a better position to serve the larger businesses that have recently located in the Tuscaloosa area. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record [4a] the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta, pursuant to delegated authority.

By order of the Board of Governors,[5] effective July 19, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

FIRST ARKANSAS BANKSTOCK CORP.

Proposed Acquisition of National Credit Corporation

First Arkansas Bankstock Corporation, Little Rock, Arkansas, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of National Credit Corporation, "An Industrial Loan Institution" Pine Bluff Arkansas. Notice of the application was published on May 22, 1973 in The Commercial a newspaper circulated in Jefferson County, Arkansas.

Applicant states that the proposed subsidiary would (engage in) the activities of an industrial loan institution, primarily making consumer loans, soliciting investment certificates, and acting as agent or broker in the sale of credit life, health, and accident insurance and physical damage insurance directly related to an extension of credit by it. Such activities have been specified by the Board in § 225.4(a)(2) and (9) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Resreve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 17, 1972.

Board of Governors of the Federal Reserve System July 18, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15428 Filed 7-26-73;8:45 am]

FIRST NATIONAL CHARTER CORP.

Order Approving Acquisition of Bank

First National Charter Corporation, Kansas City, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all the voting shares (less dircetors' qualifying shares) of the successor by merger to American National Bank in Springfield, Springfield, Missouri, ("Bank"). The bank into which Bank is to be merged has no significance except as a means of facilitating the acquisition of the voting shares of Bank. The proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act; the time for filing comments and views has expired and none has been received. The Reserve Bank pursuant to authority delegated to it by the Board of Governors has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourth largest bank holding company in Missouri, controls ten banks with deposits totaling $693.9 million,[1] representing 4.97 per cent of the commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of State deposits by only .13 per cent to 5.10 per cent and would have no effect on competition in the State.

Bank has $18.3 million in deposits and is the fifth largest of twelve commercial banks operating in the Springfield banking market which is approximated by Greene County, Missouri. It controls approximately 4.7 per cent of the total market deposits. Competition in Springfield is very keen. Through affiliation with Applicant, access to the extensive credit resources of the holding company would permit Bank to become more competitive with the larger Springfield banks, a majority of which are presently affiliated with multi-bank holding companies.

There is no overlap of competition with Applicant's subsidiary banks, the closest of which is located 130 mlies to the northwest of Bank; the development of competition is unlikely in view of Missouri statutes which prohibit branch banking. While the prospects for continued expansion of the economy in the Springfield vicinity are favorable, de novo entry into the market by Applicant seems unlikely in view of recent changes in Missouri statutes providing for detached banking facilities. Commercial banks operating within Missouri are presently permitted to establish two limited-power facilities, separated from the main banking office but within the limits of the same city. The Reserve Bank concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and its present subsidiaries are regarded as satisfactory; Bank's inadequate capitalization will be bolstered by the injection of capital funds inherent in the proposed merger. Considerations relating to the banking factors would thus lend weight toward approval of the application. Considerations relating to the convenience and needs of the community to be served also lend weight toward approval of the application.

It is the Reserve Bank's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before August 13, 1973, or (b) later than October 15, 1973, unless such period is for good cause extended by order of the Board of Governors or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By the order of the Federal Reserve Bank of Kansas City pursuant to authority delegated by the Board of Governors of the Federal Reserve System, effective July 13, 1973.

[SEAL] WILBUR T. BILLINGTON,
Senior Vice President.

[1] All banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved through May 30, 1973, unless otherwise noted.

FIRST COMMERCIAL BANKS, INC.

Acquisition of Bank

First Commercial Banks, Inc., Albany, New York, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of the successor by merger to The Homer National Bank, Homer, New York. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 17, 1973.

Board of Governors of the Federal Reserve System, July 20, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

INTERBANK CORP.

Formation of Bank Holding Company

Interbank Corp., Chicago, Illinois, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per cent (less directors' qualifying shares) of the voting shares of South Side Bank, Chicago, Illinois. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago; and any person wishing to comment on the application should submit his views in writing to the Federal Reserve Bank of Chicago, to be received not later than August 10, 1973.

Board of Governors of the Federal Reserve System, July 19, 1973.

Secretary of the Board.

[FR Doc.73-15484 Filed 7-26-73;8:45 am]

MERCANTILE BANCORPORATION INC.

Order Approving Acquisition of Bank

Mercantile Bancorporation Inc., St. Louis, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Mercantile National Bank of St. Louis County, St. Louis County, Missouri ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls the largest bank in the State of Missouri and seven other Missouri banking subsidiaries and is the largest banking organization in the

V 38-144 JUL 27 73 XUM

State, controlling $1.2 billion of deposits which represent 9.6 per cent of the total commercial bank deposits in the State. (All banking data are as of June 30, 1972.)

Several competitors of Applicant and future competitors of Bank have expressed their views opposing the proposed transaction. Briefly stated, their objections are grounded on their views that Applicant presently is dominant in the St. Louis banking market [1] in which Bank would operate and that, therefore, rather than permit Applicant to foreclose the banking opportunity represented by Bank, the Board should deny the instant application and, thereby preserve that opportunity for a smaller banking organization, thus increasing the likelihood of deconcentration of the market and erosion of Applicant's "dominant" position in that market.

Applicant controls three banks in the St. Louis banking market with aggregate deposits of $1.0 billion, representing 17 per cent of the total commercial bank deposits in that market area. Since 1966, the share of total deposits held by its subsidiaries in the area approximated by the City of St. Louis and St. Louis County has declined from 25.2 per cent to 19.9 per cent.

In the St. Louis Standard Metropolitan Statistical Area ("SMSA") which is approximated by the City of St. Louis, St. Louis, Franklin, Jefferson, and St. Charles Counties in Missouri and Madison and St. Clair Counties in Illinois, the share of total deposits held by Applicant's predecessors (Mercantile Trust Company, N.A. and Mercantile Commerce Trust Company) has decreased from 20.6 per cent in 1966 to 16.1 per cent at year-end 1972, despite its acquisition of two banks in the SMSA during that period. The average mean percentage of total deposits held by the largest banking organizations in SMSAs with populations of one million and over in unit banking States was 21.5 per cent as of June, 1970, at which time Applicant's predecessors held 17.6 per cent of total deposits in the St. Louis SMSA. In fact, Applicant's share of the relevant market, of the St. Louis SMSA and of St. Louis City and County is overstated when calculated on the basis of total deposits. Applicant's lead bank is a correspondent bank with over 18 per cent of its total deposits owing to other banks. It competes for correspondent balances with one other St. Louis bank and several banks in Kansas City, Chicago, Memphis, and other money centers. As a result of its correspondent business, Bank has a large volume of deposits in the process of collection; whereas its total deposits, as of December 31, 1972, amounted to $1.0 billion, its net demand deposits are less than $500 million, and its gross demand deposits approximate $682 million. Its share of the St. Louis market is more meaningfully measured by its deposits received from individuals, partnerships, and corporations, ("IPC deposits") particularly such deposits under $100,000 in amount. Applicant's lead bank, as of June, 1972, held total IPC deposits under $100,000 amounting to $396.6 million, representing 9.6 per cent of such deposits held by banks in the St. Louis SMSA. Based on these facts, the Board does not consider Applicant "dominant" in any area. Further, the St. Louis banking market is not considered highly concentrated. As of June 30, 1972, the fifteen largest banking organizations in that market held 67.3 per cent of total deposits in that market, and the five largest banking organizations held 45.4 per cent of total deposits in that market. This compares to an average market share, as of June, 1970, of 55.7 per cent by the five largest banking organizations in SMSAs with populations of one million and over in unit banking States, and is less than the average market share of the three largest banking organizations in such SMSAs.

Of the 110 banks in the market, six are located on the periphery of Bank's primary service area in central St. Louis County. None of Applicant's banking subsidiaries derives more than 0.8 per cent of its deposit accounts from Bank's service area. The six banks presently located on the edge of that service area have together experienced an annual rate of deposit growth in the last five years triple the Statewide deposit growth rate. Three of those six banks are either present or planned subsidiaries of other bank holding companies.

Since Bank is a proposed bank and the other service area banks are relatively well-established, consummation of the proposal would not eliminate existing competition; nor does there appear to be a likelihood that establishment of a new bank would have an undue adverse effect on the other banks in the market. Furthermore, it appears unlikely that Applicant's acquisition of Bank would preclude other banking organizations from entering the market. On the basis of population figures for the period 1960–70, Bank's primary service area has been growing at a rate approximately four times faster than that of St. Louis County and 16 times faster than that of the State as a whole. That two banks have been chartered in the area since 1970 and applications for four more bank charters for banks to be located in the area are pending reflects this growth. Any increase in the share of market deposits held by Applicant that might result in the short run following consummation of this proposal may be dissipated with the arrival of new entrants to serve the expanding area. In the Board's view, the competitive factors in this case are distinguishable from those in a recent case involving a proposal to acquire a proposed new bank where the Board found that the Applicant was dominant; [2] in that case, at least one other bank in the area had not yet had sufficient time to establish itself as a viable competitor, and the population of the relevant area had remained somewhat stable. In brief, the Board believes that consummation of the proposal under consideration will not have such a significant adverse effect on potential competition in the St. Louis market as to warrant denial.

The financial and managerial resources of Applicant and its present subsidiary banks are generally satisfactory; prospects of Bank under Applicant's control appear favorable. The establishment of Bank will provide, through affiliation with Applicant, a convenient source of a full range of banking services to the residents and businesses of Bank's primary service area. Thus, banking factors, as well as considerations relating to the convenience and needs of the communities to be served, are consistent with approval of the application.

It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before August 13, 1973 or (b) later than October 12, 1973, and (c) Mercantile National Bank of St. Louis County, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 12, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15430 Filed 7-26-73;8:45 am]

[1] The St. Louis banking market is the relevant geographic market in this case and is approximated by the City of St. Louis, St. Louis County, St. Charles County, and portions of Jefferson County in Missouri, and portions of Madison and St. Clair Counties in Illinois.

UNITED VIRGINIA BANK/CITIZENS OF SOUTH BOSTON

Order Approving Application for Merger With Citizens Bank of South Boston

United Virginia Bank/Citizens of South Boston, South Boston, Virginia (United Virginia/Citizens), an organizing State bank which has applied for membership in the Federal Reserve System, has applied to the Board of Governors of the Federal Reserve System for prior approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) to merge with Citizens Bank of South Boston, South Boston, Virginia (Citizens), a member State bank of the Federal Reserve System, the resulting bank to operate under the charter and with the name of United Virginia/Citizens. The application is to be acted upon by the Federal Reserve Bank of Richmond (Reserve Bank) under authority delegated by the Board of Governors (12 CFR Part 265).

As required by the Bank Merger Act, notice of the proposed merger, in form approved by the Board of Governors, has been published and reports on competitive factors have been requested from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Reserve Bank has considered the application and all comments and reports received in light of the factors set forth in the Act.

On the basis of the record in this case, the application is approved for the reasons summarized in the Reserve Bank's Order of this date relating to the application of United Virginia Bankshares Incorporated to acquire Citizens Bank of South Boston. However, the transaction shall not be consummated (a) before August 15, 1973, or (b) later than October 16, 1973, unless such period is extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective July 16, 1973.

[SEAL] ROBERT P. BLACK,
First Vice President.

[FR Doc.73-15431 Filed 7-26-73;8:45 am]

UNITED VIRGINIA BANKSHARES INC.

Order Approving Acquisition of Bank

United Virginia Bankshares Incorporated, Richmond, Virginia (Applicant), a bank holding company within the meaning of the Bank Holding Company Act (12 U.S.C. 1842), has applied for prior approval under section 3(a)(3) of the Act to acquire 100 percent of the voting shares of the successor by merger to Citizens Bank of South Boston, South Boston, Virginia (Citizens), a State member bank.

The bank into which Citizens is to be merged has no significance except as a means of acquiring the voting shares of Citizens. Accordingly, the proposed acquisition of the successor organization is treated herein as a proposed acquisition of the shares of Citizens. The application is to be acted upon by the Federal Reserve Bank of Richmond (Reserve Bank) under authority delegated by the Board of Governors (12 CFR Part 265). Notice of the receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Reserve Bank has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls 12 banking affiliates operating 123 banking offices with aggregate deposits of $1.5 billion, an amount equivalent to 14.1% of total commercial bank deposits in Virginia. In terms of deposits it is the State's largest banking organization. Acquisition of Citizens (deposits of $13.6 million as of June 30, 1972) would increase Applicant's share of deposits in the State by approximately .14 percent. Consummation of the proposed transaction would not significantly increase the concentration of banking resources within the State.

Citizens is one of three banking organizations located in the relevant geographic market, which includes the independent city of South Boston and surrounding Halifax County. Of these three, Citizens ranks second, with 27.6% of total area deposits. Applicant's lead bank, United Virginia Bank, is located in Richmond and serves the Richmond SMSA, which represents a separate banking market from that in which Citizens competes. The closest office of any of Applicant's subsidiary banks to Citizens is some 60 road miles distant, located in Lynchburg, Virginia. There is no significant competition existing between Citizens and any existing bank subsidiary of Applicant, and there appears to be no significant incentive for Applicant to establish a de novo bank in the market served by Citizens. It is concluded that consummation of the proposal would have no adverse effect on banking competition and that the competitive effects of the proposal are not inconsistent with approval of the application.

The financial and managerial resources of Applicant and Citizens are generally satisfactory, and future prospects appear favorable. In addition, Applicant has a demonstrated past history of willingness and ability to supply needed management assistance and capital to its subsidiary banks. Banking factors, therefore, lend weight toward approval of the application. Although there is no evidence that significant banking needs of the area are unserved, consummation of the proposed acquisition should enable Citizens to initiate new services now offered by Applicant's other banking subsidiaries, which will include trust, computer, and credit services. Convenience and needs considerations also favor approval. It is the Reserve Bank's judgment that consummation of the proposed transaction would be in the public interest.

On the basis of the record in this case, the application is approved for the reasons summarized above. However, the transaction shall not be consummated (a) before August 15, 1973, or (b) later than October 16, 1973, unless such period is extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective July 16, 1973.

[SEAL] ROBERT P. BLACK,
First Vice President.

The application states that these employers have informed their respective employees of the application by giving a copy of it to their authorized representative, if any, and by posting a statement given a summary of the application and specifying where a copy of the application may be examined. The affected employees have been informed in the same manner of their right to petition the Assistant Secretary of Labor for a hearing on the application.

The application, as amended, represents that the majority of the members of the association are small businesses with fewer than fifty employees, which depend on the use of the chemical known as 4,4'-Methylene (bis)-2-Chloroaniline for the continuation of their business viability. The application further alleges that strict enforcement of § 1910.93c would cause most of the members of the association to go out of business. Accordingly, the association has proposed, on behalf of all the member employers listed, the following alternative safeguards, which, it argues, are substantially equivalent in protection to those required by the standard:

(1) 4,4'-Methylene (bis)-2-Chloroaniline is to be used only in clearly delineated areas which only authorized personnel may enter. These areas must be so designed as to be under negative air pressure during working hours. All open-process vessels and open containers must be under local exhaust ventilation adequate to keep dust and fumes out of the room atmosphere.

(2) All persons entering an area where 4,4'-Methylene (bis) - 2 - Chloroaniline dust may be present must wear protective, long-sleeved clothing, and impermeable gloves. When exposure to vapors of the chemical cannot be avoided, appropriate absorbent cartridge face masks must also be worn.

(3) In case any area is contaminated by the chemical in molten form, the employees must be promptly evacuated from the area and may not be allowed to return until after the contaminant has solidified and any vapor drawn off by the ventilation system. Employees may then be allowed to break up the solidified material, sweep it up mechanically and dispose of it properly.

(4) An alternative is also proposed to the requirements concerning warning signs.

A copy of the application will be made available for inspection and copying, upon request, at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 504, Washington, D.C. 20210 and at the following Regional and Area Offices:

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance, by August 27, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application by August 27, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate, and shall be addressed to the Office of Standards at the address given above.

II. *Interim order.* As already stated, the applicant has requested, on behalf of its member employers listed above, an interim variance from paragraphs (c)(1) and (2), and (e)(1), (2), (4), (5), (6) and (10) of § 1910.93c, pending decision on the application for a variance.

(1) Paragraph (c)(1) provides that any area in which a carcinogen is present must be deemed a controlled area. Since this provision is in the nature of a definition, the request of an interim variance from it is inappropriate, and, for this reason, is denied.

(2) Paragraph (e)(4) requires that an area in which a carcinogen is present must be posted at all entrances with legible danger signs indicating the presence of a "cancer-producing agent" in the area. The applicant proposes a different sign which would only indicate the presence of a chemical "which may be dangerous to health."

It does not appear likely that the applicant will establish that the warning sign proposed accomplishes the objective of the standard. For this reason, the request of an interim variance from paragraph (e)(4) is denied. See, however, the revision of the standard published in the FEDERAL REGISTER on this date.

(3) Paragraphs (e)(5), (6) and (10) are reporting requirements. No alternative reporting procedures have been proposed. Accordingly, the request of an interim variance from paragraphs (e)(5), (6) and (10) is denied.

(4) Paragraph (c)(2) provides that open-process vessels and open containers of a carcinogen are permitted only at container filling points and at points where the contents of containers are charged into process vessels, and only to the extent necessary to permit transfer of contents. The transfers are required to be under continuous local exhaust ventilation.

Paragraph (e)(1)(i) and (ii) requires that every employee engaged in an operation where there is a direct exposure to a carcinogen, such as cleanup of leaks or spills of a carcinogen, must be provided, and required to wear, a clean full impervious pressurized air-supplied suit.

Paragraph (e)(2) requires the establishment of decontamination processes to remove carcinogens on surfaces of equipment, materials, and the decontamination facility.

The applicant argues that so long as open-process vessels and open containers are located or handled under local exhaust ventilation adequate to keep dust and fumes out of the work area, the workplace is as safe and healthful as it would be if the use of open-process vessels and open containers where limited in accordance with paragraph (c)(2). The applicant further argues that the proposed cleanup procedure for removal of spills of the chemical in molten form, and the personal protective equipment proposed to be used in cases of exposure to dust and fumes, would afford substantially the same protection as would compliance with paragraph (e)(1)(i) and (ii), and (2).

The effect of paragraph (c)(2) is to eliminate the use of open-process vessels and open containers, except where transfer of contents must take place. Essentially, the applicant seeks permission to use open-vessel processes and open containers in cases outside the exception provided by the standard, but under the same condition of local exhaust ventilation which the standard recognizes as adequate where transfer of contents must take place. Finally, the substance of the application for a variance from paragraphs (e)(1)(i) and (ii) and (e)(2) is that the protective equipment proposed for cases of exposure to dust and fumes, and the proposed procedure for cleanup of spills of the molten chemical, would afford as much protection as strict compliance with paragraphs (e)(1)(i) and (ii), and (e)(2).

It is to be noted that § 1910.93c regulates exposure to 14 substances with possibly varying physical, chemical, and biological properties. It is further to be noted that the application for a variance is limited to exposure to 4,4'-Methylene (bis)-2-Chloroaniline.

It may be that the applicant will be able to show in the proceeding on the variance application that, in view of the specific properties of 4,4'-Methylene (bis)-2-Chloroaniline and of the uses

V 38-144 JUL 27 73 XUM

made of it in the work operations of its members, the equipment and procedures it proposes would assure as safe and healthful employment as would strict compliance with the standard. In view of this and of the short period covered by an interim order, and in order to prevent the extreme consequences which are alleged would result from strict compliance, it is ordered, pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c), that each employer listed above be, and it is hereby, authorized to conduct the following work operations in accordance with the following conditions, means, equipment, and procedures, in lieu of complying with paragraphs (c)(2), (d), (e)(1)(i) and (ii), and (e)(2) of § 1910.93c:

(1) 4,4'-Methylene (bis)-2-Chloroaniline may be used only in clearly delineated areas which may be entered only by employees necessary to perform work. The areas must be designed so that negative air pressure will be constant during working hours. Open-process vessels and open containers of the carcinogen may be located and handled only in such an area and only under continuous local exhaust ventilation adequate to keep dust and fumes out of the atmosphere of the area;

(2) Each employee about to work in an area designated for open-process vessels or open containers of the carcinogen must be required, before entering the designated area, to put on and wear clean work area garments, impervious gloves and aprons, safety glasses, and appropriate head covering and footwear. At the end of the work operation or shift, whichever occurs first, each employee shall be required to remove and leave in the designated area all work garments and personal protective equipment, shower, and put on other clothes;

(3) In case a ventilation system in an area designated for open-process vessels or open containers of the carcinogen stops functioning or begins to function improperly, all employees working in the area must be evacuated from the area, and must be required to remove and leave in the designated area work area garments and personal protective equipment, shower, and put on other clothes. No employee, other than those engaged in repairing the system, may be allowed to return to the area until after it is ascertained that the ventilation system has been adjusted and does function properly, and has functioned properly for a time sufficient to draw off dust and vapors from the area. Any employee engaged in repairing the system shall be deemed exposed to dust and fumes, and the requirements of item (4) shall apply;

(4) Where exposure to dust or fumes of the carcinogen can reasonably be expected, each employee to be exposed shall be provided with, and required to wear, in addition to the ordinary work garments, impervious gloves, safety glasses, and appropriate head covering and footwear, coveralls of impervious material and an appropriate absorbent cartridge face mask. At the end of the work operation or shift, whichever occurs first, each employee shall be required to remove and leave in the designated area all work garments and personal protective equipment, shower, and put on other clothes;

(5) In cases of significant spillage of the carcinogen in molten form, all employees in the area must be evacuated and must be required to remove and leave in the designated area all work garments and personal protective equipment, shower, and put on other clothes. No employee, other than those engaged in the cleanup of the spills, may be allowed to reenter the area until the molten material has been removed. Any employee engaged in the removal of the solidified material by breaking and sweeping, shall be deemed exposed to dust, and the requirements of item (4) shall apply;

(6) Every employee working in an area designated for open-process vessels or open containers shall be required to wash hands and face before smoking, eating, or drinking; and

(7) As soon as possible each employer listed above shall give notice to all its affected employees of the terms of this interim order by the same means required to inform them of the application for variance.

Effective date. This interim order shall be effective as of July 27, 1973, and shall remain in effect until a decision is rendered on the application for a variance.

Signed at Washington, D.C., this 24th day of July, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.73-15511 Filed 7-26-73;8:45 am]

RHODE ISLAND DEVELOPMENTAL PLAN

Submission of Plan and Availability

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.11 of the Title 29, Code of Federal Regulations, notice is hereby given that an occupational safety and health plan for the State of Rhode Island has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the Plan and hereby gives notice that the question of approval of the plan is in issue before him.

The Plan designates the Rhode Island Department of Labor as the agency responsible for administering and enforcing the Plan throughout the State. In addition, the Rhode Island Department of Health will perform certain duties relating to health and report to the Director of Labor. The Plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1). Initially occupational safety and health standards promulgated by the U.S. Secretary of Labor are adopted under the Plan, except 29 CFR Parts 1915, 1916, 1917, 1918, and 1926.

The Plan includes enabling legislation enacted by the Rhode Island legislature during its January 1973 session to bring the Plan into conformity with the requirements of Part 1902. Under the legislation, the Department of Labor has the statutory authority to implement an occupational safety and health plan modeled after the Federal Act. It provides for the coverage of all employees within the State, including employees of State agencies and municipalities.

There are provisions within the legislation granting the Director of Labor the authority to inspect workplaces and to issue citations for violations and their abatement and there is included a prohibition against advance notice of any such inspection. The legislation is also intended to insure employer and employee representatives the opportunity to accompany inspectors and to call attention to possible violations; to insure notification of employees or their representatives where no compliance action is taken as a result of alleged violations; to insure protection of employees against discrimination in terms and conditions of employment; and to insure adequate safeguards to protect trade secrets. There is provision made for the prompt restraint of imminent danger situations and a system of penalties for violations of the proposed legislation.

The legislation sets forth the general authority and scope for implementing the Rhode Island Plan. The Plan includes amended safety legislation; adopted federal standards as state occupational safety and health codes; adopted regulations concerning notification of employees of decisions of compliance action of the State, the appointment of a State Occupational Safety and Health Review Board, employee protections and obligations, a voluntary compliance program, a State Compliance Procedure Manual, the implementation of coverage of State and local government employees, the procedures on employee discrimination, the Review Board procedures, the completion of staffing and training of personnel, and employer recordkeeping and reporting procedures under 29 CFR Part 1904.

The legislation has been accompanied by a statement of the Governor's support for it and an opinion that it meets the requirements of the Occupational Safety and Health Act of 1970 and is consistent with the constitution and other laws of the State.

2. *Location of plan for inspection and copying.* A copy of the Plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, 400 First Street, N.W., Washington, D.C. 20210; Regional Administration, Occupational Safety and Health Administration, Fifth Floor, 18 Oliver Street, Boston, Massachusetts 02110, and the Rhode Island State Department of Labor Division of Occupational Safety, 235 Promenade Street, Providence, Rhode Island 02903.

3. *Public participation.* Interested persons are hereby given until August 27, 1973, to submit to the Assistant Secretary written data, views, and arguments concerning the Plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305, 400 First Street, N.W., Washington, D.C. 20210. The written comments will be available for public inspection and copying at the above address.

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed by August 27, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved.

The Assistant Secretary for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the Plan.

Signed at Washington, D.C. this 21st day of July, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-56]

ADVISORY COMMITTEES

Notice of Establishment

Pursuant to section 9(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), and after consultation with the Office of Management and Budget, I have determined that the establishment of the following four advisory groups is in the public interest in connection with the duties imposed upon NASA by law:

1. Ad Hoc Synthesis Review Panel for the Evaluation of Lunar Data Analysis and Synthesis Proposals.
2. Ad Hoc Subcommittee for the Evaluation of Possible Sites for the NASA Large Aperture Ground-Based Infrared Telescope.
3. Ad Hoc Subcommittee for the Review of the Investigations on the Second and Third High Energy Astronomy Observatory (HEAO) Missions.
4. Ad Hoc Committee for the Evaluation of the Apollo-Soyuz Test Program (ASTP) Experiment Proposals.

The function of these advisory groups is to obtain the advice of the scientific and technical community on proposals in the specialized areas identified by the name of the group.

Dated: July 25, 1973.

JAMES C. FLETCHER,
Administrator, National Aeronautics and Space Administration.

[FR Doc.73-15643 Filed 7-26-73;8:45 am]

[Notice 73-57]

NASA AD HOC COMMITTEE FOR THE EVALUATION OF THE APOLLO-SOYUZ TEST PROGRAM EXPERIMENT PROPOSALS

Notice of Meeting

The NASA Ad Hoc Committee for the Evaluation of the Apollo-Soyuz Test Program (ASTP) Experiment Proposals will meet in Houston 31 July 1973 to 2 August 1973. The meeting will be held at the Johnson Space Center, on the first floor of Building 29. The meeting will be concerned with a scientific and technical evaluation of flight proposals for the ASTP mission, which is currently scheduled for flight in 1975. Since much of the Committee discussions will be used by NASA as an aid in the subsequent contractor selection process, attendance will be limited to committee members, project officials, and a list of proposers invited for interviews by the Chairman. Those proposers who are invited may enter the Johnson Space Center via the main gate (on NASA Road 1, Clear Lake, Texas). They will be directed to the Visitor Reception Building, where they may obtain a pass to visit Building 29 after identifying themselves.

The Ad Hoc Committee for the Evaluation of the Apollo-Soyuz Test Program Experiment Proposals was established by the NASA Administrator for the purpose of advising NASA on the scientific merit and technical feasibility of proposals submitted in response to the Administrator's general letter of 29 June 1973 soliciting science and applications proposals for experiments on the ASTP flight. The Chairman of the Committee is Dr. Alois W. Schardt, NASA Headquarters, Washington, DC 20546. The Executive Secretary is Dr. Lawrence D. Kavanagh, Jr., also of NASA Headquarters. There are approximately fifteen other members on the Committee. Questions may be directed to Dr. Kavanagh, telephone (202) 755-3685.

The agenda for the meeting is as follows:

31 JULY 1973

Time	*Topic*
9:00 am-10:00 am	Orientation (The Chairman will explain the evaluation procedure to be used, and proposals will be distributed to Committee members).
10:00 am-5:00 pm	Subgroup Discussions (The Committee will be divided into several subgroups according to areas of expertise. Rest of day will be devoted to subgroups reading and informally discussing proposals).

1 AUGUST 1973

9:00 am-5:00 pm	Proposer Interviews (Individual proposers who have been invited to this session will be interviewed by Committeee members and questioned on various aspects of their proposals).

2 AUGUST 1973

Time	*Topic*
9:00 am-12 Noon	Proposal Categorizations (Committee as a whole will vote a specific evaluation on each proposal).
1:00 pm-5:00 pm	Payload Recommendations (Proposals which have received high evaluations will be grouped into attractive payload combinations for consideration in final NASA selection).
5:00 pm	Adjourn.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

JULY 25, 1973.

[FR Doc.73-15644 Filed 7-26-73;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice 306]

ASSIGNMENT OF HEARINGS

JULY 24, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 121499 Sub 6, William Hayes Lines, Inc., now being assigned hearing September 17, 1973 (1 week), at Atlanta, Ga., in a hearing room to be later designated.

MC-F-11726, Estes Express Lines—Purchase (Portion)—Johnson's Express, Inc. (O. Tracy Parks, III, Trustee), and MC-F-11727, Boyd Brothers Transportation Co., Inc.—Purchase (Portion)—Johnsons Express, Inc. (O. Tracy Parks, III, Trustee), now being assigned hearing September 24, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 119777 Sub 245, Ligon Specialized Hauler, Inc., now being assigned hearing September 25, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 48213 Sub 34, C. E. Lizza, Inc., now being assigned hearing September 26, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 55889 Sub 40, Cooper Transfer Co., Inc., is continued to August 13, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-50862 Sub 6, White Circle Line, Inc., now assigned September 10, 1973, will be held in Room 1112, John F. Kennedy Bldg., Government Center, Boston, Mass.

MC-F-11677, Brush Hill Transportation Co.—Purchase (Portion)—Union Street Railway Co., now assigned September 12, 1973, will be held in Room 1112, John F. Kennedy Bldg., Government Center, Boston, Mass.

V38-144 JUL 27 73 XUM

FD–27401 Coastal Industries, Inc., & MC–F–11748, Coastal Industries, Inc.—Control—P. B. Mutrie Motor Transportation, Inc., now assigned September 17, 1973, will be held in Room 1112, John F. Kennedy Bldg., Government Center, Boston, Mass.

MC 134922 Sub 41, B. J. McAdams, Inc., now being assigned hearing September 10, 1973 (1 day), at Dallas, Tex., in a hearing room to be later designated.

MC–C–8096, The Squaw Transit Company—Investigation and Revocation of Certificates—, now being assigned hearing September 11, 1973 (2 days), at Dallas, Tex., in a hearing room to be later designated.

MC–F–11866, Mid-States Trucking Co.—Control and Merger—(A) Govan Express, Inc., and (B) Denton Produce, Inc., now being assigned hearing September 13, 1973 (2 days), at Dallas, Tex., in a hearing room to be later designated.

No. W–536 Sub 13, Hennepin Towing Company, now being assigned hearing September 17, 1973 (1 week), at New Orleans, La., in a hearing room to be later designated.

MC–1977 Sub 15, Northwest Transport Service, Inc., is continued to September 10, 1973 (4 weeks), at the Strater Hotel, 7th and Main Street, Durango, Colo.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73–15491 Filed 7–26–73;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

JULY 24, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the Federal Register.

FSA No. 42717—*Joint Water-Rail Container Rates—Zim Israel Navigation Co., Ltd.* Filed by Zim Israel Navigation Co., Ltd., (No. 3), for itself and interested rail carriers. Rates on general commodities, from rail stations on the West Coast, to ports in the United Kingdom, Ireland, Scandinavia, Continental Europe and Mediterranean Sea.

Grounds for relief—Water competition.

Tariff—Zim Israel Navigation Co., Ltd., I.C.C. No. 2, F.M.C. No. 22. Rates are published to become effective on August 20, 1973.

FSA No. 42718—*Sand from Brady, Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B–423), for interested rail carriers. Rates on sand, NOIBN, in carloads, as described in the application, from Brady, Texas, to Cortland, Ohio.

Grounds for relief—Rate relationship.

Tariff—Supplement 191 to Southwestern Freight Bureau, Agent, tariff 162–X, I.C.C. No. 4797. Rates are published to become effective on September 1, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73–15495 Filed 7–26–73;8:45 am]

[Ex Parte No. MC–43]

K&W BOAT TRANSPORT INC. AND MARINE MOTOR TRANSPORT INC.

Lease and Interchange of Vehicles by Motor Carriers

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington D.C. on the 20th day of July, 1973.

It appearing, that petition has been filed by the K & W Boat Transport, Inc. (MC–108169) and Marine Motor Transport, Inc. (MC–115658) under common control, for waiver of paragraphs (a) (3) and (c) § 1057.4 of the Lease and Interchange of Vehicle Regulations (49 CFR 1057) concerning equipment leased between petitioners;

It further appearing, that petitioners cooperatively and jointly apply the same standards of inspection and maintenance to equipment in accordance with the safety regulations of the U.S. Department of Transportation;

It further appearing, that the U.S. Department of Transportation reports that until such time as there is more substantive data received in which to constitute a sound basis for evaluation of petitioners' safety compliance, the U.S. Department of Transportation has no alternative but to recommend that approval of the petition with respect to waiver of the requirements of paragraps (c) of § 1057.4 be granted.

It is ordered, That waiver of the requirements of paragraphs (a) (3) and (c) of § 1057.4 be, and it is hereby granted, provided that the equipment is inspected on the day it is to be leased and found to meet the requirements of the safety regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with those regulations and under common control.

By the Commission, Motor Carrier Leasing Board.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 16, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74447. By order of July 18, 1973, Motor Carrier Board approved the transfer to Backhaus Garage, Inc., 205 4th Avenue, St. Nazianz, Wis., 54232, of Certificate of Registration No. MC–97757 (Sub-No. 1) issued June 10, 1964, to Joseph Backhaus, 205 4th Avenue, St. Nazianz, Wis. 54232, evidencing a right to engage in transportation in interstate commerce as described in certificate No. CC–247, dated September 5, 1935, issued by the Public Service Commission of Wisconsin.

No. MC–FC–74490. By order of July 16, 1973, the Motor Carrier Board approved the transfer to Frick Transfer, Inc., R.D. 2, Bushkill Drive, Easton, Pa. 18047, of a portion of the operating rights set forth in Certificate No. MC–1344 issued May 3, 1966, to Union Transfer of Allentown, Pa., R.D. 2, Bushkill Drive, Easton, Pa., authorizing the transportation of contractors' equipment and machinery, between Allentown, Pa., on the one hand, and, on the other, New York, N.Y., and points in New Jersey within 50 miles of Allentown.

No. MC–FC–74550. By order of July 20, 1973, the Motor Carrier Board approved the transfer to Glueck Trucking Co., Inc., West New York, New Jersey, of Certificate No. MC 38880, issued April 21, 1960, to Francis G. Flynn, Doing Business as Glueck Trucking Co., West New York, New Jersey, authorizing the transportation of cork, from New York, N.Y., to Newark, N.J.; mica, from New York, N.Y., to South Plainfield, N.J.; generators, transformers, regulators, machinery and electrical equipment, between New York, N.Y., on the one hand, and, on the other, points in New York and New Jersey, within 50 miles of New York, N.Y. including New York, N.Y. and furniture (church, school, theatre and laboratory furniture) and laboratory equipment, between points in New York and New Jersey, within 50 miles of New York, N.Y. including New York, N.Y. Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, New Jersey 08904 representative for applicants.

No. MC–FC–74571. By order of July 18, 1973, the Motor Carrier Board approved the transfer to J–V Inc., 9832 Tonya Drive, Sandy, Utah 84070, of Permit No. MC 134701 (Sub No. 2) issued to Robert Withers, dba Robert Withers Trucking, Maywood, Calif., authorizing the transportation of: Bananas, and agricultural commodities subject to certain conditions and restrictions, from points in California and Arizona to Ports of Entry on the U.S.-Canadian Boundary Line, located at or near Sweetgrass, Mont.

No. MC–FC–74583. By order of July 20, 1973, the Motor Carrier Board approved the transfer to William P. Bowman, D/B/A Bowman's Bus Service, Milford, Del., of Certificate No. MC–107367 issued May 28, 1948, to Carlos E. Streets, Millsboro, Del., authorizing the transportation of passengers and their baggage in the same vehicle with passengers, in round-trip charter operations, beginning and ending at points in Sussex County, Del., and extending to points in Md., N.J., N.Y., Pa., Va., and D.C. Chester A Zyblut, 1522 K Street, N.W., Washington, D.C. 20005 Attorney for applicants.

No. MC–FC–74591. By order entered July 18, 1973, the Motor Carrier Board approved the transfer to Command Deliveries, Inc., Columbia, Md., of the operating rights set forth in Permit No. MC–126503 (Sub-No. 2), issued July 18, 1968, to Willard E. Lawrence and Thomas W. Lawrence II, Arlington, Va., authorizing the transportation of photographic equipment and supplies, such commodities as are usually sold by wholesale dealers in drugs and drugstore supplies, bedding, towels, hosiery, handwear, clothing and clothing accessories, and returned shipments of the above-specified commodities, from and to Washington, D.C., and specified points and places in Maryland and Virginia, under contract with specified shippers. Daniel B. Johnson, 716 Perpetual Building, 1111 E Street, N.W., Washington, D.C. 20004

No. MC–FC–74610. By order entered July 20, 1973, the Motor Carrier Board approved the transfer to Warth Express, Inc., Bricktown, N.J., of that portion of the operating rights set forth in Certificate No. MC–85233 (Sub-No. 4), issued January 17, 1968, to Metro Carrier Corp., Clifton, N.J., authorizing the transportation of general commodities, with the usual exceptions, between New York, N.Y., on the one hand, and, on the other, Belmar, N.J. George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306, representative for applicants.

[Notice 100]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 23, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

Minimum Wages for Federally Assisted Construction

Modifications, and Supersedeas Decisions to General Wage Determination Decisions

V 38 - 144 JUL 27 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions to General Wage Determination Decisions

General wage determination decisions. General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

Modifications to general wage determination decisions. Modifications to General Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

SUPERSEDEAS DECISION

STATE: Arizona COUNTY: Statewide *
DECISION NUMBER: AQ-1,004 DATE: Date of Publication
Supersedes Decision No. AP-258 dated January 12, 1973, in 38 FR 1440.
DESCRIPTION OF WORK: Heavy and Highway Construction
*Establish a point 35 miles due north from the city hall of the City of Flagstaff and establish another point 35 miles due north from the city hall of the City of Kingman, then draw a straight line from the first point to the second point and extend that same line to the intersection of the Arizona-Nevada State Line. Establish a third point 35 miles due north of the city hall of the City of Holbrook and draw a straight line from the first point to the third point and from the third point extend a line due east to the intersection of the Arizona-New Mexico State Line.

LINE CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Others
Zone I (Phoenix and Tucson 30 mile radius from center of Town):

PAID HOLIDAYS (Where Applicable)

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% of basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. 6 paid holidays: A through F.

c. One paid holiday: Labor Day, providing employee is currently on payroll and would be scheduled to work the holiday, also employee must work the day prior to and after the holiday.

d. A through F, provided that the employee worked the days preceding and following the holiday.

e. Election Day paid holiday.

g. $4.00 per week for Health and Welfare and $1.00 per week for life insurance contribution.

h. $6.00 per week for those on the payroll for over 90 days.

j. Paid Holidays: A through F for employee currently employed by the employer at the time the holiday occurs, and who would otherwise be scheduled to work and would work on such day if it were not observed as a holiday, and who has worked under working conditions, the last regularly scheduled workday after the holiday.
